Records consist of file cards with basic information and computer records derived therefrom, case files containing records of board proceedings, material submitted for correction and supporting documentation, correspondence and transcripts of board formal hearings. The basic case information and computer records derived therefrom include the following: rank; social security number/service number; docket number; date application received; subject category; subject category description; examiner's initials; date examiner assigned; branch of service; board decision; date of board decision; date decision promised if interested members of Congress; date case forwarded to the Secretary of the Navy; lineal number of officer applicant; officer designated; date officer case forwarded to Naval Military Personnel Command/Commandant of the Marine Corps; date officer case returned from Naval Military Personnel Command/ Commandant of the Marine Corps; date advisory opinion requested; identity of advisor's organization; date advisory opinion received; date service record ordered; date medical record ordered; date court-martial record ordered; date confinement record order; date Navy Discharge Review Board record ordered; date other record ordered; date service record received; date medical record received; date court-martial record received; date confinement record received; date Navy Discharge Review Board record received; date other record received; number of Navy applications received; number of Marine Corps applications received; total number of Navy and Marine Corps applications received; percent of total to grand total; total number of Navy discharge cases; total number Marine Corps discharge cases; Navy grant count; Navy deny count; Navy modify count; Marine grant; Marine deny count; Marine modify count.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Section 1552, Title 10 United States Code; Part 723 Title 32 Code of Federal Regulations.

PURPOSE(S):

To review applicant's Naval record to determine the existence of alleged error or injustice and to recommend appropriate corrective action when warranted - to report its findings, conclusions and recommendations to the Secretary of the Navy in appropriate cases - to respond to inquiries from applicants, their counsel, and members of Congress.

To provide officials of the Naval Military Personnel Command with advisory opinions in cases involving present and former Navy personnel - to correct records of present and former Navy personnel in accordance with approved Board decisions.

To provide officials and employees of the Naval Medical Command with advisory opinions on medical matters.

To provide the Naval Council of Personnel Boards/Office of Naval Disability Evaluation with advisory opinions on medical matters.

To provide officials and employees of HQ, U.S. Marine Corps with advisory opinions in cases involving present and former Marine Corps personnel - to correct records of present and former Marine Corps personnel in accordance with approved correction Board decisions.

To officials and employees of the Litigation Division, NJAG, to prepare legal briefs and answers to complaints against the Department of the Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained as paper and microfiche records in file folders, and manually retrieved file cards.

RETRIEVABILITY:

Records are filed alphabetically, by the last name of the applicant and are cross filed by docket number, and service or social security account numbers.

SAFEGUARDS:

Access to building is protected by uniformed security officers requiring positive identification; for admission after hours, records are maintained in areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

All file cards are permanently retained by the agency. Case files are permanent. They are retained in the active files for three years and then retired to the Washington National Records Center, Suitland, Maryland.

SYSTEM MANAGER(S) AND ADDRESS:

Executive Director, Board for Correction of Naval Records, Department of the Navy, Washington, D.C. 20370.

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requesting individuals should specify a full name, and social security account numbers or service numbers. Visitors should be able to provide proper identity, such as a drivers license. Written requests must be signed by a requester or his/her legal representative.

RECORD ACCESS PROCEDURES:

Information may be obtained from the Board for Correction of Naval Records, Department of the Navy, Washington, D.C. 20370 by providing name, military status, branch of service and social security number. Current address and telephone numbers should be included. Personal visits may be made only to the Board for Correction of Naval Records, Arlington Annex, Columbia Pike and Southgate Road, Arlington, Virginia. For personal visits, identification will be required.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents of records and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

All official Naval records, Veteran's Administration and Police and Law enforcement records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01070-9

SYSTEM NAME:

White House Support Program

SYSTEM LOCATION:

White House Liaison Office, Office of the Secretary of the Navy, Department of the Navy, Washington, DC 20350.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy and Marine Corps military and civilian personnel and contractor employees who have been nominated by their employing activities for assignment to Presidential support duties.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personnel records, correspondence, and other documents and records in both automated and nonautomated form concerning classification, security clearances, assignment, training, and other qualifications relating to suitability for Presidential support duties.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301

PURPOSE(S):

To evaluate and nominate individuals for assignment to Presidential support duties; to ensure that only those individuals most suitably qualified are assigned to duty in Presidential support activities.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees in the Executive Office of the President in the performance of their duties related to personnel administration, and evaluation and nomination of individuals for assignment to Presidential support duties.

To officials and employees of other federal agencies and offices, upon request, in the performance of their official duties related to the provision of Presidential support and protection.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetic tapes, disc drums, and on punched cards. Manual records may be stored in file folders, or microform.

RETRIEVABILITY:

Manual Records: By name if individual has been nominated and not yet approved. By OSD approval date if individual has been approved, and by employing activity removal date if an individual is removed from assignment for cause. Automated records may be retrieved by name, social security number, and control number.

SAFEGUARDS:

Records are afforded appropriate protection at all times, stored in locked rooms and locked file cabinets, and are accessible only to authorized personnel who have a definite need to know and who are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

Records are retained or disposed of in accordance with SECNAVINST P5212.5B, subj: Disposal of Navy and Marine Corps records.

SYSTEM MANAGER(S) AND ADDRESS:

Administrative Aide to the Secretary of the Navy, Navy Department, Washington, D.C. 20350

NOTIFICATION PROCEDURE:

Requests from individuals by correspondence should be addressed to the Office of the Administrative Aide to the Secretary of the Navy, Navy Department, Washington, D.C. 20350. Visits are limited to the Office of the Administrative Aide to the Secretary of the Navy. Written requests should contain the full name of the individual and his social security number. For personal visits, the individual should be able to provide some acceptable identification, that is, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy and other Department of Defense components; federal, state, and local court documents; civilian and military investigative reports; general correspondence concerning the individual; and federal and state agency records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1), (2), (3) and (5),

as applicable. For additional information, contact the System Manager.

N01060-1

SYSTEM NAME:

Enlisted Master File Automated System

SYSTEM LOCATION:

Naval Military Personnel Command, Navy Department, Washington, D. C. 20370; Personnel Management Information Center, New Orleans, LA 70159; Naval Reserve Personnel Center, New Orleans, LA 70159

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy Enlisted Personnel: Active and Inactive

CATEGORIES OF RECORDS IN THE SYSTEM:

Computer file contains data concerning enlisted assignment, planning, programming, accounting, promotions, career development, procurement, education, training, retirement, performance, security, personal data, qualifications, programming, and enlisted reserve drill data. The system also contains Activity Personnel Diaries, personnel accounting documents, Reserve Unit Drill reports and other personnel transaction documents necessary to maintain file accuracy and currency; and all computer extracts, microform, and printed reports therefrom.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To assist in the administration, management, and supervision of Navy enlisted personnel and the operation of personnel affairs and functions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of other Departments and Agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the management, supervision and administration of Navy enlisted personnel affairs and functions.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or government agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records are stored on magnetic tapes, disks, drums and on punched cards.

Printed reports and other related documents supporting the system are stored in authorized areas only.

RETRIEVABILITY:

Automated records are retrieved by Social Security Account Number.

SAFEGUARDS:

Within the computer center, controls have been established to desseminate computer output over the counter only to authorized users. Specific procedures are also in force for the disposal of computer output. Output material in the sensitive category, i.e., inadvertant or unauthorized disclosure will result in harm, embarrassment, inconvenience or unfairness to the individual, will be shredded. Computer files are kept in a secure, continuously manned area and are accessible only to authorized computer operators, programmers, enlisted managment, placement, and distributing personnel who are directed to respond to valid, official requests for data. These accesses are controlled and monitored by the Security System.

RETENTION AND DISPOSAL:

Automated records are retained in accordance with MAPMIS manual (periods range from 1 month to permanent).

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D. C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence from active duty enlisted personnel shall be addressed to: Commander, Naval Military Personnel Command (Attn: Privacy Act Coordinator), Navy Department, Washington, D. C. 20370; requests by correspondence from inactive duty and reserve personnel shall be addressed to: Commanding Officer, Naval Reserve Personnel Center (Attn: Privacy Act Coordinator), New Orleans, La 70149; request shall contain full name, social security account number, rank, status, and signature of requestor.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy and Department of Defense and Components thereof in performance of their office duties and as specified by current instructions and regulations promulgated by competent authority; educational institutions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01060-2

SYSTEM NAME:

Officer Master File Automated System

SYSTEM LOCATION:

Naval Military Personnel Command, Navy Department, Washington, D.C. 20370; Personnel Management Information Center, New Orleans, LA 70149; Naval Reserve Personnel Center, New Orleans, LA 70149

N01131-2

SYSTEM NAME:

U.S. Naval Academy Admissions Records

SYSTEM LOCATION:

U.S. Naval Academy, Leahy Hall, Annapolis, Maryland 21402.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All candidates for admission to the Naval Academy.

CATEGORIES OF RECORDS IN THE SYSTEM:

Admissions records, including information on nominations and appointments, and candidate guidance files. Admissions files contain personal data, personal statements, transcripts from previous academic institutions, admission tests results, physical aptitude exam results, recommendation letters from school officials and others, interest inventory, extracurricular

activities report, and report of officer interview. Nominations and appointments records consist of card files all Congressional Offices and who each congressman appointed; files of candidates nominated for the following academic year; status cards, indexed by nominating source, of all candidates appointed, admitted, and graduated or resigned prior to graduation. Similar files are separately kept on foreign candidates. Candidate guidance files consist of precandidate questionnaires concerning educational background, personal data, physical data, extracurricular activities and employment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 10 U.S.C. 6956, 6957, and 6958, 44 U.S.C. 3101.

PURPOSE(S):

To evaluate eligibility/potential and establish an audit trail of candidate profiles by obtaining information for the initiation of formal officer accession programs in conjunction with the admissions process.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All records are filed in folders or index boxes, and stored in file cabinets in the appropriate offices.

RETRIEVABILITY:

Basic admissions records are retrieved by use of a six digit candidate number. Nominations and Appointment records are indexed either by candidate names or by nomination source. Candidate guidance questionnaires are stored by candidate names alphabetically.

SAFEGUARDS:

Visitor control and all files are kept in locked file cabinets and locked offices.

RETENTION AND DISPOSAL:

Admissions records of admitted candidates are kept by the Registrar's office after a candidate reports. Unsuccessful candidate files are kept for one year in locked file, then destroyed. Nomination and Appointment files vary in retention. All Congressional Office card files are kept for 10 years on the premises. Status cards of admittees are kept until graduation or resignation, and then transferred to the Academy archives and microfilmed. Nominations files are disposed of yearly through normal refuse removal methods. Candidate guidance files are destroyed after one year.

SYSTEM MANAGER(S) AND ADDRESS:

Admissions Officer, Office of the Dean of Admissions, U.S. Naval Academy, Annapolis, Maryland 21402.

NOTIFICATION PROCEDURE:

Written request may be made to the system manager.

RECORD ACCESS PROCEDURES:

Rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

Rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Educational institutions, nominating sources, individual candidates, school officials, personal statements, Blue and Gold officer interviews, and letters of recommendation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01133-1

SYSTEM NAME:

NAME/LEAD Processing System

SYSTEM LOCATION:

Primary System, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have responded to Navy advertising, requested their names not be used in future Navy advertising, students throughout the country who may be qualified for enlistment, first-term enlistees on active duty in the U. S. Navy, veterans, enlisted discharged personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Automated and non-automated form containing personal records and correspondence on both education, service, and Navy program information on potential Navy applicants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5531; Section 133, 503, 504, 508, 510; 5 USC Sections 301, 302; 44 USC Sections 3101, 3702

PURPOSE(S):

To provide field recruiters with names of individuals who have responded to Navy advertising, students who may be qualified for enlistment, first-term enlistees in the U.S. Navy, veterans, and enlisted personnel who have been discharged. To provide an interface between Navy Recruiters and members of the civilian community. To generate prospective applicants for enlistment in the U.S. Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Transportation in the performance of their official duties relating to the recruitment of Merchant Marine personnel.

Officials and employees of other Departments and agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the management of quality military recruitment.

To officials and employees of the Veterans Administration and Selective Service Administration in the performance of their official duties related to enlistment and reenlistment eligibility and related benefits.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records are maintained on disks, magnetic tape or on punched cards in a limited access area.

Computer print outs are stored in locked filing cabinets or file folders

RETRIEVABILITY:

Information can be accessed by name, program and social security account number.

SAFEGUARDS:

Lists and files are handled with maximum security during processing and storage, and are accessible to routine users only and then only through a selected group of individuals charged with security of the lists. Files are stored in a limited access area and coded so

that only several persons have both knowledge of the code and access to the files.

RETENTION AND DISPOSAL:

A record is maintained of all outgoing automated responses, and disposed of in accordance with Departmental Regulations.

Compiled lists and commercial purchased lists are maintained for certain period of time depending on the usefulness and currentness of the information, and disposed of in accordance with Departmental Regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Recruiting Adverstising Department, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203

NOTIFICATION PROCEDURE:

Requests should be addressed to: Director, Recruiting Advertising Department, Navy Recruiting Command, 4015 Wildon Boulevard, Arlington, Virginia 22203.

Requester is required to provide a full name, address, and signature.

Other officials and employees of the Department of the Navy, Department of Defense and components thereof, in the performance of their official duties and as specified by current instructions and regulations promulgated by competent authority.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1), (5), (6), and (7) as applicable. For additional information contact the System Manager.

N01136-1

SYSTEM NAME:

Navy Recruiting Support System

SYSTEM LOCATION:

Headquarters, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203

Decentralized Segments-Navy Recruiting Areas; Navy Recruiting Districts; Navy Recruiting 'A' Stations; Navy Recruiting Branch Stations.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Students who have taken the Armed Forces Vocational Aptitude Battery; Naval Reserve officers nominated by District Commanding Officers for a collateral duty assignment as Recruiting District Assistance Council Chairmen (RDAC); Enlisted Personnel selected by local Navy Recruiter for participation in local Navy Recruiting effort; Community leaders and individuals who provide assistance to Navy Recruiters.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name; Social Security Number; Address; Pertinent family information; Pertinent military information; Professional and education affiliations and experience.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC Sections 133, 503, 504, 508, 510, 5031; 5 USC 301 Departmental Regulations; 44 USC Sections 3101, 3702.

PURPOSE(S):

To provide field recruiters with various vehicles of recruiting support; to familiarize Navy Recruiters with community leaders; to provide a thorough interface between the Navy and the community; to promote the Navy among the members of the civilian community; to provide educators with a measure of the vocational aptitude of their students through administration of the Armed Services Vocational Aptitude Battery; to cultivate community awareness; to assign inactive Reserve officers to recruiting support functions as Recruiting District Assistance Council Chairmen; to facilitate liason with various business, social and education cultures in the community; to obtain media support for the Navy Recruiting Command; to assist the local recruiter in any way the recruiter feels necessary; and to generate prospective applicants for the U.S. Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Transportation in the performance of their official duties relating to the recruitment of Merchant Marine personnel.

To officials and employees of the Veterans Administration and Selective Service Administration in the performance of their official duties related to enlistment and reenlistment eligibility and related benefits.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File cabinets and magnetic tape

RETRIEVABILITY:

Information can be accessed by name and social security number

SAFEGUARDS:

Lists and files are handled with discretion and accessible only to those personnel having a need to know.

RETENTION AND DISPOSAL:

Records are retained for the tenure of the individual involved or in the case of high school Armed Services Vocational Aptitude Battery lists for a maximum two-year period or until information is no longer useful for recruiting support.

Magnetic tapes are demagnetized; other manual files are shredded or burned when discarded.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Recruiting Support Department, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203

NOTIFICATION PROCEDURE:

Information may be obtained from: Director, Recruiting Support Department, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203 Telephone: 202/692-4795

Requester is required to supply full name, rank/rate (if applicable), address and social security number.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Subject of the information; Field Recruiters; Area Commanders/ District Commanding Officers; Chief of Naval Personnel; Chief of Naval Reserve; District Commandants; Chief of Naval Education and Training; Vocational Testing Group; Recruit Training Commands; Service Schools Commands and other officials and employees in the Department of the Navy and other components of the Department of Defense in the performance of their officials duties and as specified by current instructions and regulations promulgated by competent authority.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01211-1

SYSTEM NAME:

Naval Research Reserve Program Personnel Accounting System

SYSTEM LOCATION:

Office of Naval Research 800 North Quincy st. Arlington, VA 22217

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Research reserve personnel, officer and enlisted

CATEGORIES OF RECORDS IN THE SYSTEM:

Military identification information, including Naval Officer Billet Codes, plus professional qualifications information, including education and occupation

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Information may be obtained from the system manager. Written requests must be signed by the requesting individual. For personal visits, the requesting individual should be able to provide some acceptable identification, e.g. Armed Forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information submitted by the officer upon his reporting for duty in the Office of the Judge Advocate General.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01301-2

SYSTEM NAME:

Naval Officer Development and Distribution Support System

SYSTEM LOCATION:

Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Naval officers on active duty; all Naval Reserve officers requesting recall to active duty.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence and personnel records in both automated and non-automated form concerning classification, qualifications, assignment, placement, career development, education, training, recall, release from active duty and management of Naval officers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations
10 USC 5504 Lineal List
10 USC 5706 Promotion Selection List

PURPOSE(S):

To assist Navy officials and employees in the classification, qualification determinations, assignment, placement, career development, education, training, recall and release of officer personnel pursuant to meet manpower allocations and requirements.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of other Departments and Agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the management and administration of Navy enlisted personnel in order to meet manpower allocations and requirements.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetice tapes, disc, drums and on punched cards.

Manual records may be stored in paper file folders, microfiche or microfilm.

RETRIEVABILITY:

Automated records may be retrieved by social security account number and/or name.

Manual records may be retrieved by name or social security account number.

SAFEGUARDS:

Computer and punched card processing facilities and terminals are located in restricted areas accessible only to authorized persons that are properly screened, cleared and trained.

Manual records and computer printouts are available only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Records are generally maintained until superseded, or for a period of two years or until release from active duty and disposed of by burning or shredding.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to: Commander, Naval Military Personnel Command (Attn: Privacy Act Coordinator) Navy Department, Washington, D.C. 20370. The letter should contain full name, rank, social security account number,. designator, address and signature.

The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex (FOB 2) Rm. 1066, Washington, D.C. for assistance. Advance notification is requested for personal visits. Proof of identification will consist of military identification card.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from SYSMANAGER.

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Individual applications, selection board proceedings, transcripts, and correspondence.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01500-2

SYSTEM NAME:

NAVSCOLS/TIS, USMC Training Supays

SYSTEM LOCATION:

Schools and other training activities or similar organizational elements of the Department of the Navy and Marine Corps as listed in the directory of Department of Navy activities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Records of present, former, and prospective students at Navy and Marine Corps schools and other training activities or associated educational institution of Navy sponsored programs; instructors, staff and support personnel; participants associated with activities of the Naval Education and Training Command, including the Navy Campus for Achievement and other training programs; tutorial and tutorial volunteer programs; dependents' schooling.

CATEGORIES OF RECORDS IN THE SYSTEM:

Schools and personnel training programs administration and evaluation records. Such records as basic identification records i.e., social security number, name, sex, date of birth, personnel records i.e., rank/rate/grade, branch of service, billet, expiration of active obligated service, professional records i.e., Navy enlisted classification, military occupational specialty for Marines, subspecialty codes, test scores, basic test battery scores, and Navy advancement test scores. Educational records i.e., education levels, service and civilian schools attended, degrees, majors, personnel assignment data, course achievement data, class grades, class standing, and attrition categories. Academic/training records, manual and mechanized, and other records of educational and professional accomplishment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5031

PURPOSE(S):

To determine course and training demands, requirements, and achievements; analyze student groups or courses; provide academic and performance evaluation in response to official inquiries; guidance and counseling of students; preparation of required reports, and for other training administration and planning purposes.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Department of Education as required.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in microform or in file folders, card files, file drawers, cabinets, or other filing equipment. Automated records may be stored on magnetic tape, discs, punched cards, etc.

RETRIEVABILITY:

Social security number and name

SAFEGUARDS:

Access is provided on a 'need-to-know' basis and to authorized personnel only. Records are maintained in controlled access rooms or areas. Data is limited to personnel training associated information. Computer terminal access is controlled by terminal identification and the password or similar system. Terminal identification is positive and maintained by control points. Physical access to terminals is restricted to specifically authorized individuals. Password authorization, assignment and monitoring are the responsibility of the functional managers. Information provided via batch processing is of a predetermined and rigidly formatted nature. Output is controlled by the functional managers who also control the distribution of output.

RETENTION AND DISPOSAL:

Records disposal manual.

SYSTEM MANAGER(S) AND ADDRESS:

The commanding officer of the activity in question. See the directory of Navy and Marine Corps activities mailing addresses.

NOTIFICATION PROCEDURE:

Apply to system manager. Requestor should provide his full name, social security number, military or civilian duty status, if applicable, and other data when appropriate, such as graduation date. Visitors should present drivers license, military or Navy civilian employment identification card, or other similar identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Individuals, schools and educational institutions, Commander, Naval Military Personnel Command, staff of Naval Education and Training Command and other activities and the Commandant of the Marine corps; instructor personnel; and Commander, Naval Recruiting Command.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01500-3

SYSTEM NAME:

Students awaiting legal, medical action account

SYSTEM LOCATION:

Naval Air Technical Training Center, Lakehurst, New Jersey 08733

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

A. The student locator card file contains specific data on all student personnel assigned to NATTCL, whether or not they successfully completed training. A dead file is maintained after the student is transferred.

B. The 'others' file is a list of all students on board that are not enrolled in class. Categories include: disciplinary, medical, and administrative (awaiting orders, port calls, passports, humanitarian requests, administrative discharge).

CATEGORIES OF RECORDS IN THE SYSTEM:

A. The student locator card file is composed of 4' x 6' cards on which the following is recorded: name, previous command, rate, branch of service, date of transfer, new duty station and command, estimated date of arrival, standard transfer order number, and rate upon departure.

B. The following information is included on students listed in the 'others' file: date of hold, type of hold, estimated period of hold, work assignment, parent command notification, date re-enrolled, availability submission (used to notify Chief of Naval Personnel of member's availability for transfer), date orders or discharge authorization received, date transferred, and remarks.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To verify date of departure; to determine, in conjunction with the next duty station, if member is in an unauthorized absentee; to verify attendance and/or completion of training; to answer requests by parents who do not know the school or class individual is attending; to forward official correspondence; to maintain accountability of all students not enrolled in class to ensure the appropriate administrative actions are completed in a timely manner ensuring minimum delay in the training pipeline.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

A. Index card drawer
B. File folders

RETRIEVABILITY:

A. Name
B. Name, rate, social security number

SAFEGUARDS:

A. Locked room
B. Maintained in locked room-accessibility is limited to the student control office personnel, personnel officer, administrative officer, legal officer, executive officer, and commanding officer.

RETENTION AND DISPOSAL:

A. Two years
B. Two years

SYSTEM MANAGER(S) AND ADDRESS:

A. Personnel office supervisor
B. Personnel office supervisor

NOTIFICATION PROCEDURE:

A. The file is available to members upon proper identification.

B. The file does not contain information beneficial to the individual; however, with proper identification any student can review the form pertaining to himself. This may be accomplished by presentation of Military I.D. card to a responsible petty officer in the student control office.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

A. Official documents such as orders, assignment directives, and service records.

B. Sources of information are: NATTCL schools, medical authorities, legal officer, transfer section of personnel office, drug exemption officer, NATTCL duty office.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

N01500-4

SYSTEM NAME:

DODCI Student Record System

SYSTEM LOCATION:

Department of Defense Computer Institute, Washington Navy Yard, Washington, D.C. 20374.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All students who have completed a course of instruction presented by the Department of Defense Computer Institute: primarily DOD military and civilian personnel as regular students; personnel from other federal, state and local government agencies who have attended courses on a space available basis; military and civilian personnel from foreign governments who requested and were granted authority to attend courses; and personnel from private industry who are under direct contract to a DOD activity who sponsor their attendance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Alphabetized card file of students who have attended DODCI courses. Record consists of name, military rank or rate, civilian grade, branch of service, DOD agency or activity and title of course attended. Also associated file of consolidated listing of students for each course offering arranged by DOD agency or activity and name.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

Maintained by DODCI registrar to respond to individuals requesting official verification of attendance to a specific course; to respond to students, agency or activity requesting official record of training completed. Used to compile statistical data of student throughput, e.g., attendance by course, attendance by branch of service, agency or activity. Statistical data is not compiled by name.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Alphabetic card file and file folders in file cabinet.

RETRIEVABILITY:

Name and course title.

SAFEGUARDS:

Maintained in administrative office which is locked after normal working hours, accessible only to authorized office staff and director or delegate on demand.

RETENTION AND DISPOSAL:

Individual cards by student name and consolidated listing of students are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Registrar, DOD Computer Institute, Building 175, Washington Navy Yard, Washington, D.C. 20374.

NOTIFICATION PROCEDURE:

By individual request upon presentation of letter or identification. Must provide course title and year of attendance.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concernd may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Enrollment and registration request for DOD management education and training program courses (DD Form 1556), and course listing of students review by course manager and individual students.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01500-5

SYSTEM NAME:

DODCI Student/Faculty/Senior Staff Biography System

SYSTEM LOCATION:

Department of the Defense Computer Institute, Washington Navy Yard, Washington, D.C. 20374.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All faculty members, senior staff members, and guest lecturers currently instructing or managing at the DODCI. All students who are attending or who have completed a course of instructions presented by the Department of Defense Computer Institute: primarily DOD military and civilian personnel as regular students; personnel from other federal, state and local governments agencies who have attended courses on a space available basis; military and civilian personnel from foreign governments who requested and were granted authority to attend courses; and personnel from private industry who are under direct contract to a DOD activity who sponsor their attendance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Biographic summary forms individually submitted upon request by each DODCI faculty member, senior staff member, guest lecturer, or student. Students record consists of name, rank or rate, civilian grade, organization and division, office phone number, current and previous job titles and positions, number of months with present job title, major duties of present job, formal education completed, objectives for attending DODCI course, computer-related and other technical training and experience, information on usage of computers in present position, influence and authority student has over design of computer-based systems including security and privacy aspects, extent involved in planning and design of teleprocessing systems. Faculuty/senior staff record consists of name, rank or rate, current and previous job titles and positions, former major duties, formal education completed, computer-related and other technical training experience.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301.

PURPOSE(S):

The student biographical summaries are used by course managers and functional department heads to evaluate education level, computer related work experience, and general computer background of DODCI students. Establishes student qualifications to attend a requested course and if course objectives have satisfied personal objectives of students attending course. Statistical summarization of information contained in the system provides basis for modification and revision to course content. Serves as vehicle to place student into appropriate laboratory and

seminar group in courses requiring such a breakout.

Information on faculty/senior staff members contained in the biographical summaries is provided to students as an attachment to their student notebooks. Records are used to identify faculty and senior staff members, areas of data processing and information management expertise for consultation purposes and as an expertise preamble to the next scheduled lecturer.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File foldera in file cabinet.

RETRIEVABILITY:

By name for faculty/senior staff members. Course title and name for students.

SAFEGUARDS:

Maintained in scheduling office (for students) and in the reproduction shop (for faculty/members) which is locked after normal working hours, access controlled by system manager and accessible only to authorized faculty members, director of administration, and director or delegate on demand.

RETENTION AND DISPOSAL:

All completed individual student biographical summaries attending a specific course are retained in a file folder marked by course title and course date. Individual student biographical summaries are retained by course for two fiscal years preceeding the fiscal year in progress. All individual faculty and senior staff biographical summaries are retained in a master file folder until no longer providing services to DODCI. Master file is review periodically to maintain currency. Students receiving a course notebook can retain the included biographical records are well as the notebook.

SYSTEM MANAGER(S) AND ADDRESS:

Scheduling Officer, DOD Computer Institute, Building 175, Washington Navy Yard, Washington, D.C. 20374.

NOTIFICATION PROCEDURE:

Students by individual request upon presentation of letter of identification. Must provide course title and year of attendance.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Student biography forms are of DODCI origin and completed by each individual student. Forms are completed either the first day of the course or, in the case of certain specific courses, are mailed to the prospective student requesting return prior to commencement of the course.

Biographies are authorized by each faculty and senior staff member soon after arrival at DODCI. Guest lecturers are requested to voluntarily submit biographies for use in course notebooks. Contents is never changed, but in some cases selectively reduced in length so as not to exceed one page. Format and content are generated solely by DODCI member and are subjected only to editorial review.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01500-6

SYSTEM NAME:

DODCI Course Evaluation System

SYSTEM LOCATION:

Department of Defense Computer Institute, Washington Navy Yard, Washington, D.C. 20374.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All students who have completed a course of instruction presented by the Department of Defense Computer Institute: primarily DOD military and civilian personnel as regular students; personnel from other federal, state and local government agencies who have attended courses on a space available basis; military and civilian personnel from foreign governments who requested and were granted authority to attend courses; and personnel from private industry who are under direct contract to a DOD activity who sponsor their attendance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual student evaluation of entire course and random sampling of specific lecture presentations. Includes objectives for attending course; statement concerning realization of personal objectives, numerical or qualitative rating of overall course, lab sessions and/or specific lectures; list of strengths and weaknesses of course; list of lecture subjects of particular benefit or of little use to student; list of lecture subjects which should be expanded or reduced in coverage; and list of topics not covered in course but should be included. Comments concerning course content, sequence, lecture presentation, teaching techniques, audio visual aids, physical facilities and administrative support are solicited and recorded. Categories are posed as questions with ample space to encourage written response of student opinion in a structured but non-restrictive format. These Course Evaluation Forms also contain hard core factual information, i.e., course title, course dates, student name, rank/rate/grade, branch of service, duty station or agency, and present job title.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301.

PURPOSE(S):

The system is used to evaluate course, lecture, teaching techniques and individual instructor effectiveness. It provides basis for modification and revision to course content and sequence and lecture content. It provides input to long-range plan for course update, additions and revisions. Student evaluation of all attendees to a particular course are reviewed as a composite group by DODCI faculty members to determine problem areas, trends, and provides a continuous evaluation of course effectiveness.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders in file cabinet.

RETRIEVABILITY:

Course Title and Student Name.

SAFEGUARDS:

Maintained in Scheduling Office which is locked after normal working hours, access controlled by Systems Manager and accessible only to authorized faculty members. Director of

Administration, and Director or delegate on demand.

RETENTION AND DISPOSAL:

All completed individual evaluations of students attending a specific course are retained in a file folder marked by Course Title and Course Date. Individual student evaluation forms are retained by course for two fiscal years preceeding the fiscal year in progress.

SYSTEM MANAGER(S) AND ADDRESS:

Scheduling Officer, DOD Computer Institute, Building 175, Washington Navy Yard, Washington, D.C. 20374.

NOTIFICATION PROCEDURE:

By individual request upon presentation of letter or identification. Must provide course title and year of attendance.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Student Course Evaluation Forms are of DODCI origin and distributed in class and completed by each individual student.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01500-7

SYSTEM NAME:

DODCI Lecture-Instructor Inventory System.

SYSTEM LOCATION:

Department of Defense Computer Institute, Building 175, Washington Navy Yard, Washington, D.C. 20374.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current DODCI instructors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Two disk files comprise the system of records. First master file contains instructor's name, functional group assignment code, projected date of departure; list of lectures instructor gives. Second master file contains lecture I.D., title, lecture primary, instructors giving the lecture. In addition to the items on disk, a manual file is maintained which is a record summary form containing the names of DODCI instructors and the number of lectures and/or laboratory hours they present in resident or on-site classes each quarter.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 and 10 U.S.C. 5031

PURPOSE(S):

The system provides the ability for functional managers to generate a list of instructors along with the associated lectures in which they are proficient or to specify a lecture title and determine which instructors are capable of presentation. This system provides assistance in assigning instructors to course schedules, teams for on-site course presentations, determining lectures which are critical in flexibility of assignment, planning instructor assignments on the order of lecture priority. The Records Summary Form is used to evaluate the instructor's workloads and to assist in preparing the performance evaluation reports.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Maintained on magnetic disks in a computer data base. The Record Summary Form is maintained in paper copy in file cabinets.

RETRIEVABILITY:

Instructor's last name, lecture ID number, or functional group code.

SAFEGUARDS:

This system of records is maintained on magnetic disks in the computer operations center which is kept locked. Only the manager and assistant manager of the Computer Support office have access to the center during normal working hours and the security watch has access after hours. The mode of access to the computer-based system is via remote terminal and special passwords are required. Appropriate data base language commands (available only to authorized DODCI staff members) must be invoked to gain access to information in the system. Portions of the system can only be accessed by functional managers via controlled key work commands. An accounting log is maintained of all accesses to the system which contains identification of the user, log-on and off, station number, and date/time of last access.

RETENTION AND DISPOSAL:

The system data base is retained indefinitely. Revisions are in continuous process, e.g., instructors' names being added upon arrival and deleted on departure, lecture titles added or deleted as they are developed or discontinued, lecture presentation capability expanded or deleted as appropriate. The Record Summary Form is retained for two years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Manager, Computer Support Office, DOD Computer Institute, Building 175, Washington, D.C. 20374 for records maintained on magnetic disks. The Scheduling/Reproduction Officer, for the Record Summary Form.

NOTIFICATION PROCEDURE:

DODCI faculty members are informed of existence and purpose of system. Individual instructors can request printout of information in system which pertains to them.

RECORD ACCESS PROCEDURES:

The Institutes rules for access to records may be obtained from the Systems Manager.

CONTESTING RECORD PROCEDURES:

The Institute's rules for contesting contents and appealing initial determinations by the individual concerned can be obtained from the Systems Manager.

RECORD SOURCE CATEGORIES:

DODCI functional managers maintain system and periodically revise data base by entering new data and deleting discontinued information. Additionally, the Systems Manager can enter information affecting printout format and contents. The information contained in the Instruction Hour Records forms are extracted from teaching schedules prepared on each course of instruction.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01500-8

SYSTEM NAME:

Personnel and Training Evaluation Program Automated System.

SYSTEM LOCATION:

Strategic Systems Programs Office, Navy Department, Washington, DC 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Enlisted technicians who have been trained to operate and maintain the Strategic Weapon System on Fleet Ballistic Missile Submarines. These individuals are identified by a Navy Enlisted Classification Code in the series 3301-3349.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, social security number, NEC codes, current duty station and projected rotation date, duty station assignment history, Armed Services Vocational Aptitude Battery or Basic Test Battery scores, completion data for Navy schools, civilian education, promotion history (present and past rate), enlistment data (dates of service entry and expiration of enlistment/extension), patrol experience and scores on the Personnel and Training Evaluation Program examinations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031.

PURPOSE(S):

To maintain a data base which will permit the Strategic Systems Programs Office to record achievemetest scores of enlisted members who operate and maintain the Strategic Weapon System on Fleet Ballistic Missile Submarines. This information will be used to assess the adequacy of traininreceived and the need for additional training.

Internal Navy users: Director, Strategic Systems Programs, Chief of Naval Technical Training and asschools, Type Commanders and assigned units in the performance of their duties relating to training on the Strategic Weapon System. Commander, Naval Military Personnel Command and Type Commanders and assigned units in the performance of their duties related to personnel assignment. Navy Personnel Research and Development Center who may, from time to time, validate service selection criteria for the DOD. It may be provided to such civilian contractors and their employeesas are or may be operating in accordance with an approved official contract with the U.S. Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's Compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records are stored on computer media, disks or magnetic tape. Hard copy reports are distributed to authorized user activities. These reports are stored in notebooks or file folders in drawers, cabinets or other filing equipment.

RETRIEVABILITY:

SSN, name and duty station.

SAFEGUARDS:

Access is provided to authorized personnel only on a 'need-to-know' basis. Records are maintained in controlled access rooms or areas. Computer terminal access is controlled by terminal identification and password. Terminal identification is positive and maintained by control points. Physical access to terminals is restricted to appecifically authorized individuals.Password authorization, assignment and monitoring is the responsibility of the systems manager.

RETENTION AND DISPOSAL:

Records are retained for five years after an individual leaves the Fleet Ballistic Missile program and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Training Systems Branch, Strategic Systems Programs, Navy Department, Washington, DC 20376

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requester should provide his/her full name, social security number and military duty status. Visitors should present military identification card, civilian drivers license or other similar identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Individuals, their supervisors, Naval Military Personnel Command, schools assigned to the Chief of Naval Technical Training.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01513-1

SYSTEM NAME:

Navy Recruiting Command Attrition Tracking System

SYSTEM LOCATION:

Primary System - Recruiting Data Systems,Commander, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy Enlisted Personnel who attrite during Basic Recruit Training

CATEGORIES OF RECORDS IN THE SYSTEM:

File consists of records and correspondence pertaining to individuals discharged at Navy Recruit Training Centers. Records include personal and service information, education, physical and mental qualifications and circumstances surrounding discharge.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC Sections 133, 275, 503, 504, 508, 510, 5031; 5 USC 301 Departmental Regulations.

PURPOSE(S):

To accumulate records and correspondence pertaining to individuals discharged at Navy Recruiting Training Centers. To provide attrition information to Navy Recruiting Command Headquarters for application against recruiter point averages under the Freeman Plan. To provide a historical record of reasons for attrition for use in determining new enlistment eligibility parameters.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Veterans Administration and Selective Service Administration in the performance of their official duties related to enlistment or reenlistment eligibility and related benefits.

To officials and employees of other Departments and agencies of the Executive Branch of government, upon request, in the performance of their duties related to management of quality military recruitment.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual Records stored in file cabinets in a secure government building. Automated records are maintained on magnetic tape.

RETRIEVABILITY:

Info can be retrieved by Social Security Account Number, Navy Recruiting Area or District Recruit Training Center, Age, Education, Discharge Reason or Date of Discharge.

SAFEGUARDS:

Only authorized routine users are permitted access to the records. The Headquarters building in which the records are located has a 24-hour guard which prevents unauthorized access to the building.

RETENTION AND DISPOSAL:

Records are maintained at Headquarters, Navy Recruiting Command for five years, and then destroyed. Records at Area and District Headquarters are retained for one year before being destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Recruiting Data Systems, Navy Recruiting Command, 4015 Wilson Boulevard, Arlington, Virginia 22203 Telephone: 202-692-4069

Written requests for information should contain the full name, social security account number and location where individual was recruited, and signature.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The Agency's for access to records may be obtained from System Manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Discharge Sections at Navy Recruit Training Commands Other officials and employees of the Department of the Navy, Department of Defense and components thereof, in the performance of their official duties and as specified by current instructions and regulations promulgated by competent authority.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01531-1

SYSTEM NAME:

U.S. Naval Academy Midshipmen Performance Records.

SYSTEM LOCATION:

U.S. Naval Academy, Bancroft Hall, Annapolis, Maryland 21402.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Naval Academy Midshipmen.

CATEGORIES OF RECORDS IN THE SYSTEM:

Performance jackets contain midshipmen records relative to all facets of performance. Specifically, the jackets include: Performance aptitude evaluations, performance grades, personal history, autobiography, record of emergency data, aptitude history, review board records, medical excuse from duty forms, conduct records and grades, counseling and guidance interview sheets, academic grades, letters of commendation, and training records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 10 U.S.C. 6962 and 10 U.S.C. 7008.

PURPOSE(S):

To maintain information on midshipmen in regard to their aptitude for military service, conduct, and academic standing in order to have a composite record used for management, supervision, administration, counseling and disciplining. The midshipmen performance jacket is an official file of material compiled on each individual while attending the Naval Academy and is not a part of a graduated midshipmen's permanent service record.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the parents and guardians of midshipmen in connection with the counseling of midshipmen who encounter academic, performance, or disciplinary difficulties.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

All records are kept in file folders in locked cabinents.

RETRIEVABILITY:

Records are kept alphabetically by Company and Class.

SAFEGUARDS:

Visitor control and files are kept in locked cabinets.

RETENTION AND DISPOSAL:

Performance records are kept by the Company Officer until graduation or separation from the Academy. The records are then retained in the Performance Office storage area until they are destroyed two years after the midshipman's class graduates.

SYSTEM MANAGER(S) AND ADDRESS:

Superintendent, U.S. Naval Academy, Annapolis, Maryland 21402 and the Performance Officer, Office of the Commandant, U.S. Naval Academy, Annapolis, Maryland 21402.

NOTIFICATION PROCEDURE:

Written request may be made to the system manager.

RECORD ACCESS PROCEDURES:

Rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

Rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Individual midshipman, supervisors, midshipman personal history/performance record, midshipman autobiography, Record of Emergency Data (NAVPERS 601-2), Statement of Personal History (DD-398), Aptitude History Record (Form 1610-105), Midshipmen Summary Sheets, Military Performance Board Results, Letters of Probation, Midshipmen Performance Evaluation Reports (Form 54A), Medical Reports, Clinical Psychologist Reports, Excused Squad Chits (Form 6320/20), Conduct Card (Form 1690/91C), Letters of Commendation, Counseling and Guidance Interview Records (Form 1230/98), Letters from Congressmen, parents, etc., and copies of replies thereto, and Record of Disclosure (Privacy Act).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01533-1

SYSTEM NAME:

NROTC Educational Development Records

BEST COPY AVAILABLE

SYSTEM LOCATION:

Chief of Naval Education and Training Naval Air Station Pensacola, FL 32508

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

NROTC Scholarship Candidate Placement Records, NROTC Student Attrition Records, NROTC Student Jackets, Applications for NROTC Program, Commanding Officers and Executive Officers of NROTC units.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information concerning students selected as principal and alternate candidates for NROTC scholarship. Contains name, SSN, address, telephone number, academic scores, medical qualification, race, and sex.

Reports of disenrollment, appointment to commissioned status, and non-selection as an applicant for the NROTC program.

Student records containing enlistment cntract, service agreement, officer candidate training application, evidence of citizenship, birth certificate, reports of medical qualification, aptitude for naval service evaluations, academic records, personal history information, report of security clearances granted, special request, and action of boards concerning these special request.

Application file consisting of officer candidate training request, service agreement, report of medical qualification, evidence of citizenship, personal history, interviewers' appraisal sheets, and academic records.

Officer Biography Sheet (NAVPERS 079)

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To assign scholarship selectees to various NROTC hosted institutions. Provides reference to individuals's attrition from the NROTC program. Provides program managers with information to determine students eligibility for continuation in program and eventual commissioning as a naval officer. To determine applicant's eligibility for enrollment in NROTC program. Information in the system can be used in preparing Fitness Reports, award recommendations, TAD assignments in conjunction with summer training and preparing background information for Flag and high government official visits to the NROTC unit.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, index cards, and notebook

RETRIEVABILITY:

Name, SSN, and NROTC unit.

SAFEGUARDS:

Secured room and building. Access to information to authorized personnel only.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

NROTC, CNET, NAS, Pensacola, FL.

NOTIFICATION PROCEDURE:

Call or write system manager listed above.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Individual concerned, CHNAVPERS, COMNAVCRUITCOM, and NROTC unit.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01572-1

SYSTEM NAME:

Reservists reporting for active duty for training, background questionnaires

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 62), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Officers reporting for duty in the Office of the Judge Advocate General

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, designator, rank, unit to which attached, law school attended, year admitted to practice and State or Territory where admitted, and employment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 806

PURPOSE(S):

Information provided by this questionnaire will routinely be used in the preparation of a memorandum to the Judge Advocate General and/or Deputy Judge Advocate General on each officer who reports for active duty for training. The memorandum permits the JAG and/or Deputy JAG to familiarize himself with the officer's background. It also assists the Reserve Personnel Division to make an informed assignment of the officer during his/her training period which will enable the officer and the JAG and/or Deputy JAG to obtain maximum benefit from the officer's training period.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, stored in a file cabinet.

RETRIEVABILITY:

By officer's name.

SAFEGUARDS:

Files are maintained in file cabinets under the control of authorized personnel during working hours; the office space in which the cabinets are located is locked outside of official working hours.

RETENTION AND DISPOSAL:

Records are retained for two months and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the system manager. Written requests must be signed by the requesting individual.

For personal visits, the individual should be able to provide some acceptable identification, e.g., Armed Forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information is received from Reserve officers who participate in the Naval Reserve Law Programs.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N01610-1

SYSTEM NAME:

Navy Personnel Evaluation System

SYSTEM LOCATION:

Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All members of the U.S. Navy including Regular, Reserve, Active Duty, Inactive Duty, Fleet Reserve and Retired.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence and investigatory material containing information pertinent to member's retention, assignment or separation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301. Departmental Regulations.

PURPOSE(S):

To assist in personnel administration of Navy members, including but not limited to retention, assignment, and separation.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Director, Veterans Administration, and Director, Selective Service Administration and their officials and employees in connection with notification and assistance in obtaining benefits by members and former members. To officials and employees of other Departments and Agencies of the Executive Branch of government, upon request, in the performance of their official duties related to personnel administration. To state and local government agencies in the performance of their official duties related to personnel administration. When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary. The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and index cards. Some information from the paper records is automated.

RETRIEVABILITY:

Filed alphabetically by last name or by Social Security Account Number.

SAFEGUARDS:

Stored in locked safes and cabinets in buildings that employ security guards. File areas are accessible only to authorized persons who are properly screened, cleared and trained.

RETENTION AND DISPOSAL:

Records are maintained as long as member has any affiliation with the Naval service and for five years thereafter and are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to Commander, Naval Military Personnel Command (Attn: Privacy Act Coordinator), Navy Department, Washington, D.C. 20370. The letter should contain full name, social security account number, rank/rate/civilian status, address and notarized signature of the requestor. The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex, Washington, D.C. (FOB#2) Rm. 1066, for assistance with records located in that building. Prior written notification of personal visits is required to ensure that all parts of the record will be available at the time of the visit. Proof of identity will be required and will consist of a military identification card for persons having such cards and picture-bearing identification.

RECORD ACCESS PROCEDURES:

The agency's rule for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Civilian and military investigative reports; reports of federal and state civilian court actions and criminal proceedings; general correspondence concerning and individual; officials and employees of the Department of the Navy, Department of Defense and Components therof, in performance of their official duties and as specified by current Instructions and Regulations promulgated by competent authority.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1), (2), (5), and (7) as applicable. For additional information contact the System Manager.

N01640-1

SYSTEM NAME:

Individual Correctional Records

SYSTEM LOCATION:

United States Navy Brigs and United States Marine Corps Correctional Facilities. Official mailing addresses are in the Department of Defense Directory; and/or may be obtained from Naval Military Personnel Command, Washington, D.C. 20370.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any military member confined in a naval facility as a result of or pending trial by courts-martial; any member sentenced to three days bread and water or diminished rations; and any military member awarded correctional custody to be served in a correctional custody unit.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains documents related to the administration of individual prisoners in the Department of the Navy confinement and correctional custody facilities - courts martial orders; release orders; confinement orders; medical examiners' reports; requests and receipts for health and comfort supplies; reports and recommendations relative to disciplinary actions; clothing and equipment records; mail and visiting

lists and records; personal history records; individual prisoner utilization records; requests for interview; initial interview; spot reports; prisoner identification records; parolee agreements; inspection record of prisoner in segregation; personal funds records; valuables and property record; daily report of prisoners received and released; admission classification summary; social history; clemency recommendations and actions; parole recommendations and actions; restoration recommendations and actions; psychiatric, psychological, and sociological reports; certificate of parole; certificate of release from parole; requests to transfer prisoners; disciplinary action data cards showing name, grade, SSN, sex, education, sentence, offense(s), sentence computation, organization, ethnic group, discharge awarded, length of unauthorized absence, number and type of prior punishments, length of service, and type release; weekly status report (each member's legal status, offense charged, length of time confined). On tape, the same data as the disciplinary action data card, except name, computation of sentence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 951

PURPOSE(S):

Commanding officers, officers-in-charge, and chief petty officers-in-charge of Navy brigs and Marine Corps correctional facilities and staff members use these records to determine initial custody classification; to determine when custody grade change is appropriate; to gauge member's adjustment to confinement or correctional custody; to identify areas of particular concern to prisoners and personnel in correctional custody; to determine work assignment; to determine educational needs; serves as the basis for correctional treatment; serves as a basis for recommendations for clemency, restoration, and parole.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Department of Justice and state and local criminal justice agencies established by law.

To law enforcement and investigative agencies for investigation and possible criminal prosecution, civil court actions or regulatory order.

To confinement/correctional system agencies for use in the administration of correctional programs to include custody classification; employment, training and educational assignments; treatment programs; clemency, restoration to duty, and parole actions; verifications concerning military offenders or military criminal records, employment records and social histories.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; on punch cards and computer tapes.

RETRIEVABILITY:

Paper records filed alphabetically by last name of prisoner. Information from computer tapes is retrieved using SSN of the individual.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained. Computer tape information at NMPC accessed only by authorized personnel.

RETENTION AND DISPOSAL:

Logs and disciplinary action data cards are transferred to National Personnel Records Center, St. Louis, MO 63132 two years after release of prisoner. Other records are held at confinement facilities/correctional custody units for two years and destroyed. Transfer of a prisoner from one naval facility to another is not construed as a release. In such cases, the file accompanies the prisoner.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command (NMPC-84) Washington, D.C., 20370; Commandant of the Marine Corps (Code MPH) Washington, D.C., 20380.

NOTIFICATION PROCEDURE:

Information should be obtained from the system manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Military personnel records; military financial and medical records; military and civilian investigative and law enforcement agencies; courts-martial proceedings; records of non-judicial administrative proceedings; United States military commanders; staff members and cadre supply information relative to service member's conduct or duty performance; and other individuals or organizations which may supply information relevant to the purpose for which this system was designed.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 USC 522a (j) (2) as applicable. For additional information, contact the System Manager.

N01710-1

SYSTEM NAME:

Special Membership Listing of the Organizational Recreation Association

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This file records the name of all members who join the particular ship or activity recreation association. Also crossfiled by number of membership card.

CATEGORIES OF RECORDS IN THE SYSTEM:

This record lists the names, internal codes, room and telephone numbers of each membership card and dates purchased.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To indicate income from sale of membership cards; to provide an audit trial for the auditors; and to confirm memberships, upon request.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

RETRIEVABILITY:

Name, SSN, Case number, organization.

SAFEGUARDS:

Access provided on a need to know basis only. Locked and/or guarded office.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concern, other records of the activity, investigators, witnesses, correspondents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N01740-1

SYSTEM NAME:

Personal Services and Dependents Services Support System

SYSTEM LOCATION:

Primary System-Naval Military Personnel Command, Navy Department, Washington, D.C. 20370; Navy Family Allowance Activity, Anthony J. Celebrezze Federal Building, Room 967, Cleveland, Ohio 44199; local activity to which individual is assigned (see Directory of the Department of the Navy Mailing Addresses).

Secondary System-Department of the Navy Activities in the Chain of Command between the local activity and the Headquarters level (see Directory of the Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy military personnel: officers, enlisted, active, inactive, reserve, fleet reserve, retired, midshipmen, officer candidates, Naval Reserve Officer Training Corps personnel, and their dependents.

CATEGORIES OF RECORDS IN THE SYSTEM:

Applications, forms, correspondence and supporting documents and other personnel records concerning entitlements, benefits, basic allowance for quarters, waiver of indebtedness, travel allowances, morale, and personal affairs.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301. Departmental Regulations

10 USC 6161

10 USC 2774 as added by Public Law 92-453

PURPOSE(S):

To assist in the management, supervision, and administration of personal services, benefits and entitlements for Navy service members and their dependents.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Veterans Administration in the performance of their official duties related to eligibility, notification and assistance in obtaining benefits by members and former members of the Navy.

To officials and employees of Navy Relief and American Red Cross in the performance of their duties related to assistance of the members, their dependents and relatives.

To state and local government agencies in the performance of their official duties related to assistance of members and their dependents.

To non-government agencies only to assist members and their dependents.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetic tapes, disc, drums and on punched cards.

Manual records may be stored in paper file folders.

RETRIEVABILITY:

Records may be retrieved by name, social security account number or enlisted service number/officer file number of member; or name of dependent.

SAFEGUARDS:

Computer and punched cards processing facilities are located in restricted areas accessible only to authorized persons that are properly screened, cleared and trained.

Manual records and computer printouts are available only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Records are retained or disposed of in accordance with SECNAVINST P5212.5B, subj: Disposal of Navy and Marine Corps Records.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370.

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to: Commander, Naval Military Personnel Command (Attn: Privacy Act Coordinator), Navy Department, Washington, D.C. 20370; or in accordance with the Directory of the Department of the Navy Mailing Addresses (i.e., local activities). The letter should contain full name, social security account number (and/or enlisted service number/officer file number), rank/rate, military status, or name of the dependent, name of sponser, sponsor's social security account number, and signature of the requestor.

The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex (FOB#2), Room 1066, Washington, D.C. for assistance with records located in that building; or the individual may visit the local activity for access to locally maintained records. Proof of identification will consist of Military Identification Card for persons having such cards, or other picture-bearing identification.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy and the Department of Defense in performance of their official duties and as specified by current Instructions and Regulations promulgated by competent authority; educational institutions; federal, state, and local court documents; general correspondence relative to individual; officials and employees of Navy Relief, the American Red Cross, Veterans Administration and other agencies in the performance of their official duties.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

10 U.S.C. 806

PURPOSE(S):

To utilize/assign retired Judge Advocate Generals' Corps Officers to Official Navy Selection Boards involving Judge Advocate Generals' Corps Personnel and to facilitate location of lawyers throughout the world with naval experience, which may be utilized by the Naval Service.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer paper printouts

RETRIEVABILITY:

Computer paper printouts requested from the Bureau of Naval Personnel. Retirees are shown alphabetically by rank.

SAFEGUARDS:

Records are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records not kept after person is deceased.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the system manager. Written requests must be signed by the requesting individual. For personal visits, the requesting individual should be able to provide some acceptable identification, e.g. Armed Forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the system manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information received from records held by the Bureau of Naval Personnel.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N01580-1

SYSTEM NAME:

Determinations on Origins of Disabilities For Which Military Members Have Retired

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 12), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Retired or former members of the Navy or Marine Corps who have been placed on the Temporary Disability Retired List or Permanent Disability Retired List and who have subsequently obtained or applied for Federal civilian employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

Requests originated by individuals concerned or any federal agencies employing such individuals; Bureau of Medicine and Surgery historical narratives and opinions concerning the origins of disabilities of individuals on whom determinations have been requested; copies of Judge Advocate General determinations; and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 3502(a), 6303(a), 8332(c);
5 U.S.C. 301;
44 U.S.C. 3101.

PURPOSE(S):

Information is used as the basis for determinations concerning the eligibility of individuals to certain benefits connected with Federal civilian employment available to those disabled in combat with enemies of the United States or having disabilities caused by instrumentalities of war during periods of war.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Determinations are rendered, upon request, to any Federal agencies employing members who retired from the naval service for disability.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

By name of individual.

SAFEGUARDS:

Files are maintained in file cabinets under the control of authorized personnel during working hours; the office space in which the file cabinets are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are permanent and are retained indefinitely in the Office of the Judge Advocate General.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained by written request to the System Manager stating the full name of the individual concerned and the approximate date on which relief was requested. Written request must be signed by the requesting individual. Visits may be made to: Civil Affairs Division (Code 12) Office of the Judge Advocate General Room 9N11, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332

Armed forces identification card or state driver's license is required for identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Employment information in the system is submitted by the individuals concerned or the Federal agencies employing them. Medical information in the system is obtained from the individuals' medical records, physical evaluation board records, and service records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N01850-2

SYSTEM NAME:

Physical Disability Evaluation System Proceedings

SYSTEM LOCATION:

Director, Disability Evaluation System, Ballston Tower 2, 801 N. Randolph St., Arlington, Va. 22203.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy and Marine Corps personnel who have been considered by a Physical Evaluation Board for separation or retirement by reason of physical disability (including those found fit for duty by such boards).

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains medical board reports; statements of findings of physical evaluation boards; medical reports from Veterans Administration and civilian medical facilities; copies of military health records; copies of JAG Manual investigations; copies of prior actions/appellate actions/review taken in the case; transcripts of physical evaluation board hearings; rebuttals submitted by the member; intra and interagency correspondence concerning the case; correspondence from and to the member, members of Congress, attorneys, and other interested members; and documents concerning the appointment of trustees for mentally incompetent service members.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 1216

PURPOSE(S):

To determine fitness for duty or eligibility for separation or retirement due to physical disability of Navy and Marine Corps personnel, by establishing the existence of disability, the degree of disability, and the circumstances under which the disability was incurred, and to respond to official inquiries concerning the disability evaluation proceedings of particular service personnel.

Used by the Office of the Judge Advocate General relating to legal review of disability evaluation proceedings; response to official inquiries concerning the disability evaluation proceedings of particular service personnel; to obtain information in order to initiate claims against third parties for recovery of medical expenses under the Medical Care Recovery Act (42 U.S.C. 2651-53); and to obtain information on personnel determined to be mentally incompetent to handle their own financial affairs, in order to appoint trustees to receive their retired pay.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Veteran's Administration to verify information of service connected disabilities in order to evaluate applications for veteran's benefits.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and microfiche, and in some files, plastic recording discs and cassettes.

RETRIEVABILITY:

Filed by year of initial disability proceeding, and alphabetically by name within that year.

SAFEGUARDS:

Files are maintained in file cabinets or other storage devices under the control of authorized personnel during working hours. Access during working hours is controlled by Board personnel and the office space in which the file cabinets and storage devices are located is locked after official working hours. The building in which the office is located employs security guards.

RETENTION AND DISPOSAL:

Records are permanent. They are retained by the Naval Council of Personnel Boards for six years. After that time, they are sent to the Washington National Center, 4205 Suitland Road, Suitland, Maryland.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Naval Council of Personnel Boards, Ballston Tower 2, 801 N. Randolph St., Arlington, Va. 22203.

NOTIFICATION PROCEDURE:

Information may be obtained from the Naval Council of Personnel Boards, Ballston Tower 2, 801 N. Randolph St., Arlington, Va. 22203.

Written requests for information should contain the full name of the individual, military grade or rate, and date of Disability Evaluation System action. Written requests must be signed by the requesting individual.

For personal visits, the individual should be able to provide some acceptable identification, such as a military identification card (active duty or retired) or a driver's license.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the Director, Naval Council of Personnel Boards, Ballston Tower 2, 801 N. Randolph St., Arlington, Va. 22203.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Military medical boards and medical facilities; Veterans Administration and civilian medical facilities; physical evaluation boards and other activities of the disability evaluation system, Naval Council of Personnel Boards, the Naval Medical Command; the Judge Advocate General; Navy and Marine Corps local command activities; other activities of the Department of Defense; and correspondence from private counsel and other interested persons.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N01900-1

SYSTEM NAME:

Naval Discharge Review Board Proceedings.

SYSTEM LOCATION:

Naval Discharge Review Board, Room 914, Ballston Tower 2, 801 North Randolph Street, Arlington, Va. 22203

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Former Navy and Marine Corps personnel who have submitted applications for review of discharge or dismissal pursuant to 10 USC 1553, or whose discharge or dismissal has been or is being reviewed by the Naval Discharge Review Board, on its own motion, or pursuant to an application by a deceased former member's next of kin.

CATEGORIES OF RECORDS IN THE SYSTEM:

The file contains the former member's application for review of discharge or dismissal, any supporting documents submitted therewith, copies of correspondence between the former member or his counsel and the Naval Discharge Review Board and other correspondence concerning the case, and a summarized record of proceedings before the Board.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 1553

PURPOSE(S):

The collected information is used to defend the Department of the Navy in civil suits filed against it in the State and/or Federal courts system. This information will permit officials and employees of the Board to consider former member's applications for review of discharge or dismissal and any subsequent application by the member; to answer inquiries on behalf of or from the former member or counsel regarding the action taken in the former member's case. The file is used by members of the Board for Correction of Naval Records when reviewing any subsequent application by the former member for a correction of records relative to the former member's discharge or dismissal.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The file is used by counsel for the former member, and by accredited representatives of veterans' organizations recognized by the Administrator of Veterans' Affairs under 38 U.S.C. 3402 and duly designated by the former member as his or her representative before the Naval Discharge Review Board.

Officials of the Department of Justice and the United States Attorneys offices assigned to the particular case.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; plastic recording disks and recording cassettes.

RETRIEVABILITY:

The records are filed by name, by social security number, and by service number.

SAFEGUARDS:

Files are kept within the Naval Discharge Review Board's administrative office. Access during business hours is controlled by Board personnel. The office is locked at the close of business; the building in which the office is located employs security guards.

RETENTION AND DISPOSAL:

Files are permanent. They are retained in the Naval Discharge Review Board's administrative office for two years. After that time, they are sent to the Federal Records Center, 4205 Suitland Road, Suitland, Maryland 20409.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Naval Council of Personnel Boards, Department of the Naval, 801 North Randolph Street, Arlington, Va. 22203

NOTIFICATION PROCEDURE:

Information may be obtained from the Naval Discharge Review Board, Room 905, 801 North Randolph Street, Arlington, Va. 22203. Telephone 202/692-4071

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information contained in the files is obtained from the former member or those acting on the former member's behalf, from military personnel and medical records, and from records of law enforcement investigations.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N01905-2

SYSTEM NAME:

Navy Individual Service Review Board Proceedings (ISRB)

SYSTEM LOCATION:

Commander, Naval Military Personnel Command, Department of the Navy, Washington, DC 20370.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have applied for discharge from the United States Navy who claim membership in a group which has been determined to have performed active military service with the United States Navy.

CATEGORIES OF RECORDS IN THE SYSTEM:

The file contains the individual's application for discharge, supporting documentation, copies of correspondence between the individual and the Navy ISRB and other correspondence concerning the case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Law 95-202

PURPOSE(S):

The file is used in conjunction with the consideration of the individual's application for discharge and any subsequent application by the individual. The file is used by the individual, the counsel for the individual, his/her designated representative and by the Navy ISRB.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and cross-referenced index cards.

RETRIEVABILITY:

The records are filed by name.

SAFEGUARDS:

The files are kept within the Naval Military Personnel Command offices. Access during business hours is controlled by Command personnel. Records not in use are maintained in a room which is locked during non-duty hours. The Command is secured at the close of business and the building is which the command is located has limited access controlled by security guards.

RETENTION AND DISPOSAL:

Applications which are approved will necessitate creation of a service record which is part of the Navy Personnel Records System. Remaining records are retained in the Naval Military Personnel Command for two years and then destroyed. Cross-referenced index cards are retained permanently in the Naval Military Personnel Command.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Department of the Navy, Washington, DC 20370.

NOTIFICATION PROCEDURE:

Information may be obtained from the Commander, Naval Military Personnel Command (NMPC-3), Department of the Navy, Washington, DC 20370.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Information contained in the files is obtained from the individual or those acting on the individual's behalf, from other military records and from the Department of Defense Civilian/Military Service Review Board.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N03461-1

SYSTEM NAME:

Summary debriefs of former Prisoners of War.

SYSTEM LOCATION:

Fleet Aviation Specialized Operational Training Group, Pacific Fleet, Naval Air Station, North Island, San Diego, California 92135

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Former Prisoners of War in Southeast Asia.

CATEGORIES OF RECORDS IN THE SYSTEM:

Synopsis of captivity experiences as summarized by debriefers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

School instructors/managers use this system to maintain information on captivity experiences, resistance techniques, and survival aspects including indoctrination, interrogation, POW organization, communications, medical/isolation conditions and facilities for use in training programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Name.

SAFEGUARDS:

Need to know certification, locked room, limited access building with visitor control, GSA Approved Security Container.

RETENTION AND DISPOSAL:

Held indefinitely in support of training.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Intelligence Command, Naval Intelligence Command Headquarters, 2461 Eisenhower Avenue, Alexandria, Virginia 22331.

NOTIFICATION PROCEDURE:

Commanding Officer of military personnel submit visit request (OPNAV Form 5521-27) to Commanding Officer, Fleet Aviation Specialized Operational Training Group, Pacific Fleet, Naval Air Station, North Island, San Diego, California 92135. Civilian personnel submit request to System Manager.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Debriefing sessions with individual concerned.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE.

N03461-2

SYSTEM NAME:

POW/MIA Captivity Studies

SYSTEM LOCATION:

Naval Aerospace Medical Institute, Special Studies Department(122), Naval Air Station, Pensacola, Florida 32508

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Files are maintained by Code on all military and civilian returned prisoners of war, and on the families of military POW/MIAs, civilian POWs and military KIAs.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files consist of intelligence debriefing material, microfilm and microfiche copies of medical records, X-rays, dental and somatotype photographs, newspaper clippings, individual and family research questionnaires.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

Files are converted to group statistics and are used for research into the effects of the captivity experience on the man and his family and for recommending changes in training and improved health care delivery services, as well as for professional publications. Information is used by the Professional Staff, Center for Prisoner of War Studies, Research Staff, Naval Aerospace Medical Institute, Pensacola, Florida; Research Staff, Brooke Army Medical Center, San Antonio, Texas.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Files consist of file folders, magnetic and video tapes, key-punched IBM cards, computer tapes, microfiche and microfilm.

RETRIEVABILITY:

Files are retrieved by code number.

SAFEGUARDS:

All files in this system are protected by limited, controlled access, locked doors and class 6 security cabinets. Only professional and/or research staff with appropriate security clearances are given access to files.

RETENTION AND DISPOSAL:

The files will be maintained as long as there is an ongoing program of captivity research; with destruction of codes when files are closed.

SYSTEM MANAGER(S) AND ADDRESS:

Head, RPOW Data Analysis Division, Naval Aerospace Medical Institute, Naval Air Station, Pensacola, Florida 32508

NOTIFICATION PROCEDURE:

Write: Commanding Officer, Naval Aerospace Medical Institute, ATTN: Code 122, Naval Air Station, Pensacola, Florida 32508, providing full name, military or civilian status, POW status, security clearance, and service affiliation.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the System's manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

All information contained in files was obtained through personal interviews with returned POWs, families of POW/MIA/KIA/hostages/civilian POWs, through intelligence debriefings at time of repatriation, newspapers and periodicals, and from materials supplied by the Department of the Army (Office of the Surgeon General and Army Intelligence); Department of the Navy (Bureau of Medicine and Surgery and Naval Intelligence); and Marine Corps Headquarters.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N03501-1

SYSTEM NAME:

Fleet Ballistic Missile Submarine Demo and Shakedown Operation Crew Evaluation

SYSTEM LOCATION:

Director, Strategic Systems Projects (PM-1) Department of the Navy Washington, D.C. 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Officer and enlisted personnel in responsible positions within the Weapons and Navigation Department of both crews of a fleet ballistic missile submarine undergoing Demonstration and Shakedown Operations

CATEGORIES OF RECORDS IN THE SYSTEM:

Memorandum report to file

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

Preparation of Certification for Deployment Messages by Director, Strategic Systems Projects and Commander, Submarine Group Six, and development of follow-on training programs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File holders

RETRIEVABILITY:

Ship and crew designators

SAFEGUARDS:

Access restricted to Assistant for Weapons System Operation and Evaluation staff, Strategic Systems Project Office and Commander Submarine Group Six staff. Vault storage.

RETENTION AND DISPOSAL:

N03760-1

SYSTEM NAME:

Individual Flight Activity Report

SYSTEM LOCATION:

Commander, Naval Safety Center, Naval Air Station, Norfolk, VA 23511

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All aeronautically designated commissioned Navy and Marine Officers assigned as crew members in the operation of an aircraft in accordance with the direction of competent authority.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports of each flight submitted by the custodian of the aircraft. Total flight activity survey reports and annual flight activity reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Flight activity data for specific individuals or categories of aviators is correlated with aircraft mishap data. This information is analyzed in order to determine the relationship between various categories and combinations of flight experience and accident involvement. Results of these studies are provided to all echelons within the Navy and Marine Corps having responsibility for flight operations, pilot training and allocation of resources to and within the aviation program. An annual summary of flight activity by model aircraft is provided to each reporting individual for his/her verification and personnel records. Upon request, a detailed by flight report for a specified time frame is also provided. Records are also provided to Commander, Naval Military Personnel Command for promotional screening, detailing and compliance with minimum standards. Summaries of flight activity for Marine Corps personnel are provided to the Commandant of the Marine Corps. Records of specific pilots or categories of pilots are provided to contractors, if required, for projects either funded by or

deemed potentially valuable to the Department of the Navy.

To the Naval Audit Service to investigate certain phases of the Naval Aviation Program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To committees authorized by Congress to investigate certain phases of the Naval Aviation Program.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape.

RETRIEVABILITY:

Any of the data elements such as pilot's social security number, model aircraft, squadron and specific flight experience may be used to retrieve individual records.

SAFEGUARDS:

A limited number of data processing personnel have access to the computer facility and to the magnetic tape files and computer programs. All requests for information which are not included in the routine usage criteria must be approved by the Commander, Naval Safety Center or his designated representative.

RETENTION AND DISPOSAL:

Magnetic tape files contain all available records and are never purged. Reports are not transferred to a record center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Aviation Safety Programs, Naval Safety Center, NAS, Norfolk, VA 23511

NOTIFICATION PROCEDURE:

Individuals may write the System Manager giving full name, address, military status and social security number in order to determine if the system contains any records pertaining to them. Personal visitors will be required to produce military or comparable civilian identification cards.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Aircraft reporting custodian, Navy and Marine Corps pilots.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N03834-1

SYSTEM NAME:

Special Intelligence Personnel Access File

SYSTEM LOCATION:

Commander Naval Intelligence Command, 4600 Silver Hill Road, Washington, DC 20390

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian and military personnel of the Department of the Navy and contractors and consultants of the Department of the Navy.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records pertaining to the eligibility of Department of the Navy personnel (civilian,military, contractor and consultant) to be granted access to Special Intelligence which include documents of nomination, personal history statements, background investigation date and character, narrative memoranda of background investigation, eligibility documents for access to special intelligence, proof of indoctrination and debriefings as applicable and record of hazardous activity restrictions assigned.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

National Security Act of 1947, as amended; 5 U.S.C. 301, Departmental regulations; 10 U.S.C. 503, Department of the Navy; 10 U.S.C. 6011, Navy Regulations; 44 U.S.C. 3101, Records Management by federal agencies; Executive Order 11652, classification and declassification of National Security Information and Material.

PURPOSE(S):

To permit a determination of an individual's eligibility for access to Special Intelligence information. This information may be provided to the Department of Defense and all its components to certify Special Compartmented Intelligence access status of Naval personnel.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Central Intelligence Agency, the Federal Bureau of Investigation, the National Security Agency, the Department of Energy, the Department of Treasury, and to any other Federal agency in the performance of their official duties, to certify SCI access status of Naval personnel.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Active files consist of paper records in file folders and computerized tapes. Inactive files are retained on microfiche.

RETRIEVABILITY:

Records are filed alphabetically by last name of the individual.

SAFEGUARDS:

GSA approved containers located in controlled access spaces.

RETENTION AND DISPOSAL:

Records are retained indefinitely. Inactive files are retained on microfiche.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Intelligence Command, 4600 Silver Hil Road, Washington, DC 20390.

NOTIFICATION PROCEDURE:

Information may be obtained by written request to the system manager, giving full name, residence address and date and place of birth. A notarized statement may be required for identity verification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Personal History Statement and related forms from the individual. Access forms and documents prepared by the system manager. Correspondence between system manager and activities requesting access status.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1) and (5) as applicable. For additional information contact the System Manager.

N03900-1

SYSTEM NAME:

Naval Air Test Center Technology Data File

SYSTEM LOCATION:

Office of Staff Assistant for Research and Technology, Naval Air Test Center, Patuxent River, Maryland 20670. Included in this notice are those records duplicated for maintenance at a site closer to where the technical specialists and technology representatives work.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian and military technical managers, directors, technical directors, chief test pilots, chief engineers, program managers, department heads, department chief engineers, technical specialists and technicians who work at the Naval Air Test Center (NAVAIRTESTCEN). It also includes personnel who are considered a technical resource by directorate management.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, SSN, date of birth; status (military or civilian); classification (i.e., GS-0855 for civilians or 06/1510 for military); formal education; technical courses/ operational training; test and evaluation, research and development, and military experience; current RDT&E activity contacts; membership in professional organizations and societies; level of responsibility in NAVAIRTESTCEN organization; organizational code; office telephone number; naval aviation technology preference and a listing of any unique technical skills, experience or knowledge the individual may posess.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031.

PURPOSE(S):

To develop an on-line information network which provides project personnel a means to fully exploit NAVAIRTESTCEN technical resources and provide technical managers a real-time assessment of NAVAIRTESTCEN technical depth in the areas of education, training, experience and professional interface associated with emerging naval aviation technologies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk and hardcopy forms.

RETRIEVABILITY:

Social Security Number

SAFEGUARDS:

During working hours the NAVAIRTESTCEN staff building is open to official visitors and civilian, military and contractor personnel employed by NAVAIRTESTCEN. After working hours, the building is secured. Access to the staff building after working hours can only be obtained by securing assistance from the base Command Duty Officer. The system is protected by the following software features: user identification number, password sign-on and procedure name.

RETENTION AND DISPOSAL:

Records are retained in the current data base until he/she is no longer an employee of NAVAIRTESTCEN. When an employee leaves NAVAIRTESTCEN, the record is removed from the current data base. After ten years, the record will be erased from tape.

SYSTEM MANAGER(S) AND ADDRESS:

Staff Assistant for Research and Technology, Naval Air Test Center, Patuxent River, MD 20670.

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

All data contained in the NAVAIRTESTCEN Technology Data File is obtained from the individuals in the data file. Data is collected by means of an annual questionnaire.

SYSTEM NAME:

Personal Property Program

SYSTEM LOCATION:

All Navy Personal Property Counseling and Shipping Offices and Federal Records Centers (mailing addresses are listed in the Navy directory in the appendix to the Component System Notice).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

DOD and other federal departmental military personnel and their dependents and civilian employees and their dependents having applied for and shipped and/or stored personal property, privately owned automobiles and mobile homes.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains individual's applications for shipment and/or storage related shipping documents and records of delivery, payment, and inspection of personal property. Forms maintained include: DD 619 Statement of Accessorial Services Performed; DD 1100 Household Good Storage Record; SF 1103 U.S. Government Bill of Lading; DD 1252 U.S. Customs Declaration for Personal Property Shipments (Part I); DD 1252-1 U.S. Customs Declaration for Personal Property Shipments (Part II); DD 1299 Application for Shipment and/ or Storage of Personal Property; DD 1671 Reweight of Personal Property; DD 1780 Report of Carrier Services Personal Property Shipment; DD 1781 Customer Satisfaction Report; DD 1797 Personal Property Counseling Checklist; DD 1799 Member's Report on Carrier Performance- Mobile Homes; DD 1800 Mobile Home Shipment Inspection at Destination; DD 1841 Government Inspection Report; DD 1842 Claim for Personal Property Against the United States; DD 1845 Schedule of Property.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 5724; DOD Regulation 4500.43; DOD Regulation 4500.34-R; 'personal Property Traffic Management Regulation;' JAG Manual; NAVSUP

Publication 490; 'Transportation of Personal Property.'

PURPOSE(S):

Navy Personal Property Shipping Offices applicable finance centers and the Navy Material Transportation Office for effecting, coordinating and payment of personal property shipment and storage.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of member.

SAFEGUARDS:

Records are maintained in monitored or controlled areas accessible only to authorized personnel that are properly cleared and trained. Buildings-rooms locked outside regular working hours.

RETENTION AND DISPOSAL:

Records are retained in Personal Property Office files for a period of four years, then forwarded to Federal Record Centers and/or General Accounting Office for indefinite retention.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Supply Systems Command (Code 05), Washington, D.C. 20376.

NOTIFICATION PROCEDURE:

Written requests may be addressed to the appropriate Navy personal property shipping office concerned (mailing addresses are listed in the Navy directory in the component system notice). Individuals should provide proof of identity, full name, rank, dates of shipment-storage, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the Commander, Naval Supply Systems Commands (Code 05), Washington, D.C. 20376.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents of records and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Application and related forms submitted by the individual concerned.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N04060-1

SYSTEM NAME:

Navy and Marine Corps Exchange and Commissary Sales Control and Security Files

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as listed in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Customers, employees, and guests at Navy and Marine Corps Exchanges and Commissaries, including individuals making large dollar volume purchases and contract purchases; individuals having requested adjustments or made claims; individuals having previously passed bad checks or been apprehended for shoplifting.

CATEGORIES OF RECORDS IN THE SYSTEM:

Sales and contract records; lists, logs, or card records of individuals; claims and adjustment records; large volume purchase records; mail orders, and customer special order records, customer list; correspondence; and abuser notification letters. Records of complaints and investigations of regulatory and criminal violations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301 Departmental Regulations.

PURPOSE(S):

To control sales; to prevent and detect abuse of privileges; to determine responsibility when there are violations of regulations or criminal statutes. Information may be furnished to the Naval Investigative Service or command legal personnel for prosecution of military offenses and other administrative actions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Federal Bureau of Investigation or foreign organizations for further investigation or prosecution.

To officials of other federal agencies in connection with the performance of their official duties related to personnel administration.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetic tape, discs, drums, and punched cards. Manual records may be stored in file folders or microform, in file cabinets or other containers.

RETRIEVABILITY:

Automated and manual records may be retrieved by social security account number and/or name.

SAFEGUARDS:

Access is provided on a need-to-know basis, only. Automated records are located in restricted areas accessible only to authorized persons. Manual records and computer printouts are maintained in locked or controlled access areas.

RETENTION AND DISPOSAL:

Records are retained or disposed of in accordance with SECNAVINST 5212.5B, Disposal of Navy and Marine Corps Records.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to system manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individuals concerned, other records of the activity concerned, other records of activity investigators, witnesses, correspondents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(2), as applicable. For additional information, contact the system manager.

N04064-1

SYSTEM NAME:

Naval Academy Laundry/Drycleaning Charge Account

SYSTEM LOCATION:

Laundry and Drycleaning Plant, U.S. Naval Academy, Annapolis, MD 21402-5052.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have applied for a charge account with the Naval Academy Laundry and Drycleaning Plant.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information is collected on Form NDW-USNA-DMH-4064/14 and includes applicant's name; SSN; rank (if applicable); branch of service; home and work addresses and telephone numbers. Information required to maintain the charge account records is obtained from and/or recorded on accounts receivable ledgers, journals, charge tickets and check listings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031; 44 U.S.C. 3101; Executive Order 9397

PURPOSE(S):

To establish a charge account at the Naval Academy Laundry and Drycleaning Plant. Information will be used for billing purposes by the officials and employees of the Plant.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in hard copy and magnetic minicassette tape form.

RETRIEVABILITY:

Both hard copy and magnetic tape records are accessed alphabetically by name.

SAFEGUARDS:

Access to building is restricted to authorized persons only. Record files are not available to personnel not requiring access in the performance of their official duties. This is routinely limited to the billing clerk processing the application and recording activity on the account. Records are secured within a locked office in a locked building on a military installation when not actually in use.

RETENTION AND DISPOSAL:

Hard copy records are retained in the current file area as long as the charge account is active. These records are then retired and kept in secured storage for two years and then destroyed. Cassette tape records are of two types, daily and journal (monthly recapitulation). These tapes are erased on a daily or monthly basis, respectively, during the preparation of the following day's or month's activity record.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Laundry and Drycleaning Plant, U.S. Naval Academy, Annapolis, MD 21402-5052.

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual applying for the charge account, from daily laundry and drycleaning will-call tickets (charges for goods and services provided) and from records of payment by charge account holders (check listings).

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04064-2

SYSTEM NAME:

Retail Customer Claim Record

SYSTEM LOCATION:

Laundry and Drycleaning Plant, U.S. Naval Academy, Annapolis, MD 21402-5052.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have filed claims against the Naval Academy Laundry and Drycleaning Plant and appropriation 17X4002 for cash or credit settlement for damaged or lost articles.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information is collected on Form NDW-USNA-DMH-4064/15 and includes claimant's name; SSN; rank (if applicable); home and work addresses and telephone numbers; description, original cost and date of purchase of item(s) for which claim is filed, and circumstances of loss or extent of damage; claim number, disposition, and remarks by approving authority.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031; 44 U.S.C. 3101; Executive Order 9397

PURPOSE(S):

Records are used by officials and employees of the Plant related to investigation of circumstances concerning a claim for cash or credit settlement for damaged or lost articles.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in hard copy form.

RETRIEVABILITY:

Records are maintained in standard office files and may be accessed alphabetically or chronologically.

SAFEGUARDS:

Access to building is restricted to authorized persons only. Record files are not available to personnel not requiring access in the performance of their official duties. This is limited to the official processing of the claim and the clerk who maintains the file and prepares the administrative paperwork. Records are secured within a locked office in a locked building on a military installation when not actually in use.

RETENTION AND DISPOSAL:

An individual's record is retained in the current file area for one calendar year after the close of the individual's claim. The record is then retired and kept in secured storage for one more year.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Laundry and Drycleaning Plant, U.S. Naval Academy, Annapolis, MD 21402-5052.

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom it applies and from offices processing claims.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04066-1

SYSTEM NAME:

Bad Checks and Indebtedness Lists

SYSTEM LOCATION:

Commander, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305 (for all Navy Exchanges) Commissary Store operations as listed in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patrons of Navy exchanges and Commissary Stores who have passed checks which have proven bad; recruits who have open accounts wth Navy exchanges; patrons who have made C.O.D. mail order transactions and those patrons who make authorized charge or credit purchases where their accounts are maintained on the basis of an identifying particular such as name, social security number or service number.

CATEGORIES OF RECORDS IN THE SYSTEM:

Bad Check System (including: Returned Check Ledger; Returned Check Report; copies of returned checks; bank advice relative to the returned check or checks; correspondence relative to attempt by the Navy exchange or Commissary Store to locate the patron and/or obtain payment; a printed report of names of those persons who have not made full restitution promptly, or who have had two or more checks returned through their own fault or negligence) Accounts Receivable Ledger, detailed by patron; COD Sales Ledger.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 and 10 USC 5031

PURPOSE(S):

To record receipt of bad checks from patrons; to monitor and avoid undue losses because of continued passing of bad checks. To keep track of the correspondence issued in an effort to recover losses. The information in this system is issued to all cashiers, exchange and commissary officers. The Accounts Receivable Ledgers are used to properly record credit sales and the payment of these accounts.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The media in which these records are maintained vary, but include: magnetic tape; printed reports; file folders; file cards.

RETRIEVABILITY:

Name and social security number

SAFEGUARDS:

Locked file cabinets; supervised office spaces; supervised computer tape library which is accessible only through the computer center (entry to the computer center is controlled by a combination lock known by authorized personnel only).

RETENTION AND DISPOSAL:

Records are kept for four years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Policy Official: Commander, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305

Record Holder: Director, Treasury Division (TD), Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305

NOTIFICATION PROCEDURE:

Written contact may be made by addressing inquiries to: Commander, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305

In the initial inquiry the requester must provide full name, social security number, activity where they had their dealings. A list of other offices the requester may visit will be provided after initial contact is made at the office listed above. At the time of a personal visit, requesters must provide the following proof of identity containing the requester's signature.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

The individual; the bank involved and the activity sales records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04066-2

SYSTEM NAME:

Commercial Fidelity Bond Insurance Claims

SYSTEM LOCATION:

Commander, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305 (for all Navy Exchanges).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian and military personnel assigned to Navy exchanges, who the duly constituted authority (usually a Board of Investigation appointed by the base Commanding Officer) has established to be guilty of a dishonest act which has resulted in a loss of money, securities or other property, real or personal, for which the exchange is legally liable.

CATEGORIES OF RECORDS IN THE SYSTEM:

Equipment Loss Reports, Cash and/or Merchandise Loss Reports from Navy exchanges, including correspondence relating to losses.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5USC 301 and 10 USC 5031

PURPOSE(S):

To render proper assistance in processing insurance claims.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the insurance carrier (Fidelity Bond Underwriter) to ensure appropriate coverage.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The media in which these records are maintained varies but includes file folders and ledgers.

RETRIEVABILITY:

Name, payroll number, service number, activity.

SAFEGUARDS:

Locked file cabinets; locked offices which when open are supervised by appropriate personnel; security guards.

RETENTION AND DISPOSAL:

Records are kept for four years and then retired to the Federal Records Center, St. Louis, Missouri.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305

NOTIFICATION PROCEDURE:

Written contact may be made by addressing inquiries to: Commander, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305

In the initial inquiry the requestor must provide full name, payroll or military service number and activity where they had their dealings. A list of other offices the requestor may visit will be provided after initial contact is made at the office listed above. At the time of a personal visit, requestors must provide proof of identity containing the requester's signature.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

The individual; the insurance underwriter; audit reports; investigatory reports and/or activity loss records.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04066-3

SYSTEM NAME:

Layaway Sales Records

SYSTEM LOCATION:

Commands, Navy Resale and Services Support Office, Fort Wadsworth, Staten Island, New York 10305 (for all Navy exchanges)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patrons of Navy exchanges who buy goods on a layaway

CATEGORIES OF RECORDS IN THE SYSTEM:

Layaway Tickets and layaway patron lists

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 and 10 USC 5031

PURPOSE(S):

To record the selection of layaway merchandise, record payments, verify merchandise pick-up and perform sales audits.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders include layaway tickets and layaway patron lists.

RECORD SOURCE CATEGORIES:

The individual patron and the charges he or she incurred during a visit at the Navy Lodge.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04350-1

SYSTEM NAME:

Contract Field Service File

SYSTEM LOCATION:

Commander, Naval Electronic Systems Command, Washington, D.C. 20360

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Contractor representatives (engineers/technicians)

CATEGORIES OF RECORDS IN THE SYSTEM:

NAVELEX 4603 maintains a contractor field engineer file system by name and company. The only personal information contained in these files are security clearance information (degree, date cleared, by whom), date and place of birth, and social security number. Contract services requests and authorizations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301, Departmental Regulation

PURPOSE(S):

The system is used to notify ships, shipyards, supships, other Navy activities and some contractor plants of reporting engineers security information for tech assistants.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

The files are filed by company and name.

SAFEGUARDS:

The files are located in a locked cabinet. When the cabinet is open, personnel is in the room at all times. Normally no other people have access to these files. The only ones that could have access based upon a need to know are the cognizant engineers and the contractor representatives may review their own personal jacket. ELEX 4603 personnel must remove records from cabinets.

RETENTION AND DISPOSAL:

The records are retained as long as the engineer is employed by the company, then the records are transferred to Archives for the standard retention period.

SYSTEM MANAGER(S) AND ADDRESS:

Contract Services Coordinator, ELEX 4603

NOTIFICATION PROCEDURE:

Request must be made to system manager ELEX 4603. Requestor must provide full name, social security number and photo identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

The source of information is from the contractor representatives (engineers/technicians) employers.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04385-1

SYSTEM NAME:

IG Investigatory System

SYSTEM LOCATION:

Inspector General offices within the Department of the Navy as listed in the directory of the Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals alleged, suspected, convicted, or otherwise involved in areas of possible criminal or administrative misconduct, including, but not limited to, fraud, larceny, embezzlement, theft or other improper conduct relating to the acquisition or disposal of government property, conflict of interest, violation of the standards of conduct, or other violations of law or regulation pertaining to procurement, disposal and related matters.

CATEGORIES OF RECORDS IN THE SYSTEM:

1. Administrative memoranda.
2. Investigative reports and other investigative/intelligence information.
3. Reports of disciplinary action taken.
4. Public court records.
5. Synopsis of the allegations of wrongdoings.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Inspector General Act of 1978 (10 USC 987 app.(1982)), 10 USC 5088, Naval Inspector General: Details, duties; Department of Defense Directive 5106.1 of March 14, 1983, entitled, 'Inspector General of the Department of Defense'; Secretary of the Navy Instruction 5430.57D of December 9, 1980, entitled, 'The Naval Inspector General; Mission and Functions of'; Secretary of the Navy Instruction 5430.92, April 17, 1981, entitled, 'Assignment of Responsibilitiesto Counteract Fraud, Waste and Related Improprieties Within the Department of the Navy.'

PURPOSE(S):

To conduct and to coordinate official investigations and inquiries of audit to monitor final actions taken thereon. To disseminate information on misconduct, procurement fraud and related matters to other components within DOD.

To monitor the progress of criminal or administrative actions taken regarding Naval active duty officers in pay grade O-5 or higher and civil service employees (GS-13 or GM-13 and above), and any other DOD individuals (military and civilian) who have been named in allegations of wrongdoing which apparently warrant criminal prosecution or adverse personnel actions. Internal users are Department of the Navy and Department of Defense component officials engaged in audit, investigative, inspection and management functions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To federal, state or local law enforcement agencies, when such information relates to matters under their judicial or administrative cognizance.

To the Department of Justice or other appropriate agencies for use in judicial or administrative actions such as debarrment/suspension actions and required notification of federal, state and local agencies.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, index cards, magnetic tape/discs.

RETRIEVABILITY:

By subject name and SSN; by case name, case number, type of crime and other case fields.

SAFEGUARDS:

Access is limited to officials/employees of the command who have a need to know. Files are stored in a locked cabinet. The area is sight controlled during normal work hours and locked during non duty hours. Building access is controlled during non-duty hours by a Security Force, which also conducts roving patrols of the building. There is no possibility that the computer can be accessed from outside the controlled area.

RETENTION AND DISPOSAL:

Files are maintained at the command for two years after final action is taken. Thereafter, files are stored with the nearest Federal Records Center. Electronic data are erased, over-printed or destroyed, as appropriate.

SYSTEM MANAGER(S) AND ADDRESS:

The Inspector General of the Command in question. See the directory of Navy activities mailing addresses.

For tracking system, the Head, Investigations Division, Naval Inspector General (Code 81), Office of the Naval Inspector General, Bldg 200, Washington Navy Yard, Washington, DC 20374-2001.

NOTIFICATION PROCEDURE:

Written requests should be addressed to the system manager, giving full name, address, and either a social security number or date and place of birth. Written requests must be notarized. Individuals may visit the system manager between the hours of 0900-1500, Monday-Friday and must show proof of identity consisting of ID containing photograph.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The Agency's Rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individuals, investigative, judicial, and administrative reports, and complainants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (j)(2). The exemption rule for this system is contained in SECNAVINST 5211.5 series.

N04410-1

N04410-2

SYSTEM NAME:

Military and Civilian Employee Dependents Hurricane Shelter Assignment List

SYSTEM LOCATION:

Commanding Officer, Naval Communication Station Key West, Key West, Florida 33040

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel and civilian employees and their dependents who apply for assignment to naval communication station shelter

CATEGORIES OF RECORDS IN THE SYSTEM:

Record lists names, addresses, and phone numbers of military/ civilian station personnel applying for shelter assignments for their families, together with names of dependent spouses, names and ages of dependent children, and whether or not requirement exists for station transportation to shelter.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

Used by Disaster Preparedness Officer in determining shelter logistics requirements and by Shelter Officer in mustering assigned dependents in shelter in case of hurricane.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folder

RETRIEVABILITY:

Name

SAFEGUARDS:

File maintained in locked cabinet by Disaster Preparedness Officer.

RETENTION AND DISPOSAL:

Maintained from May through April each year, disposed of by burning.

SYSTEM MANAGER(S) AND ADDRESS:

Disaster Preparedness Officer, Naval Communication Station Key West, Key West, Florida 33040

NOTIFICATION PROCEDURE:

Individual record entries are filled out by hand by station military/civilian sponsors desiring to register their families in command hurricane shelter. System contains no info other than entries provided by sponsors. Certified station sponsors may review/remove entry by phoning/visiting the Disaster Preparedness Officer, Naval Communications Station Key West.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

All entries to file are hand written forms filled in by military/civilian command sponsors requesting hurricane shelter for their families.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N04410-3

SYSTEM NAME:

Duty Free Vehicle Log

SYSTEM LOCATION:

Officer in Charge, U.S. Naval Weapons Facility, Detachment, FPO New York 09515

Customs Officer, HMS Customs and Excise, Campbeltown, Argyll, Scotland

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals stationed aboard NAVWPNSFACDET Machrihanish who own vehicles purchased or imported into the United Kingdom duty free.

CATEGORIES OF RECORDS IN THE SYSTEM:

Single line entry on loose leafe pages listing: Name and rank/rate of individual; make, year and registration of vehicle; status (bought new in UK or imported) of vehicle; and date of purchase or importing.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To assist local customs officials in protecting against the illegal transfer of duty-free vehicles to UK citizens.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folder

RETRIEVABILITY:

Name

SAFEGUARDS:

The records are maintained in an office that is locked when not manned.

RETENTION AND DISPOSAL:

Pen and ink changes are made to records until complete page must be retyped. Old pages are then destroyed by shredding or burning. Retention period dependent upon number of changes occuring. Method of disposal by local customs official unknown.

SYSTEM MANAGER(S) AND ADDRESS:

Officer in Charge, U.S. Naval Weapons Facility, Detachment, FPO New York 09515

SYSTEM NAME:

Personnel Transportation System

SYSTEM LOCATION:

Military Traffic Office & East Coast Passenger Control Point, Bureau of Naval Personnel, Navy Department, Washington, D.C. 20370.

District Passenger Transportation Office & West Coast Passenger Control Point, Headquarters, TWELFTH Naval District, Treasure Island, San Francisco, California 92132.

District Passenger Transportation Office & Alaskan Passenger Control Point, Naval Support Activity, Seattle, Washington 98115.

District Passenger Transportation Offices, all other Naval District Headquarters.

Overseas Area Travel Coordinators at U. S. Naval Activities, United Kingdom; U. S. Naval Activities, Spain; Headquarters, U. S. Fleet Air Mediterranean; U. S. Naval Support Activity, Naples, Italy; Headquarters, Middle East Force; U. S. Naval Station, Keflavik, Iceland; U. S. Naval Air Facility, Lajes, Azores; Naval Station, Argentina, Newfoundland; Naval Base, Guantanamo Bay, Cuba; Headquarters, TENTH Naval District; Headquarters, FIFTEENTH Naval District; Headquarters, U. S. Naval Forces, Mariannas; Headquarters, U. S. Naval Forces, Philippines; Headquarters, U. S. Naval Forces, Japan; and Naval Communication Station Harold E. Holt, Exmouth, Western Australia (See Directory of the Department of the Navy Mailing Addresses).

And local activities (See Directory of the Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy military personnel, midshipmen, retired Navy members, civilian employees of the Navy, dependents of the foregoing, and other civilians

authorized through Navy commands to travel at Government expense.

CATEGORIES OF RECORDS IN THE SYSTEM:

Applications for travel and, where applicable, for passports and visas; requests for extension of 12-month limit on travel by retired member to home of record; supporting documents; correspondence, and approvals/disapprovals relating to the above records; travel arrangements in response to above applications.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

37 USC 404 Travel & Transportation Allowances--General
5 USC 5701 et seq Travel, Transportation & Subsistence

PURPOSE(S):

To determine eligibility for transportation; to authorize or deny transportation; and otherwise manage the personnel transportation system.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of other departments and agencies of the Executive Branch of government, upon request, in the performance of their official duties related to the provision of transportation; diplomatic, official, and other no-cost passports; and visas to subject individuals.

Foreign embassies, legations, and consular offices--to determine eligibility for visas to respective countries, if visa is required.

To Commercial Carriers providing transportation to individuals whose applications are processed through this system of records.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetic tapes, disc, drums, and on punched cards. Manual records in file folders or file-card boxes, microfiche or microfilm.

RETRIEVABILITY:

Automated records may be retrieved by social security account number and/or name. Manual records are filed alphabetically by name of applicant; applications for dependents filed by name of sponsor.

SAFEGUARDS:

Records are available only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Records are retained or disposed of in accordance with SECNAVINST P5212.5B, subj: Disposal of Navy and Marine Corps Records, or in accordance with Departmental regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Naval Personnel, Navy Department, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to the local activity where the request for transportation was initiated (see Directory of the Department of the Navy Mailing Addresses), and/or to intermediate activities (if applicable) (see Directory of the Department of the Navy Mailing Addresses, or to the Chief of Naval Personnel (Attn: Privacy Act Coordinator), Navy Department, Washington, D.C. 20370). The letter should contain full name, social security account number, address and signature of the requester. The individual may visit the activities and commands listed under LOCATION for assistance with the records maintained at the respective locations. Proof of identification will consist of Military Identification Card for persons having such cards. Others must present other positive personal identification, preferably picture-bearing.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy, Department of Defense, State Department and other agencies of the Executive Branch and components thereof, in the performance of their official duties and as specified by current Instructions and Regulations promulgated by competent authority; foreign embassies, legations, and consular offices reporting approval/disapproval of visas; and carriers reporting on provision of transportation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05100-1

SYSTEM NAME:

Diving Log

SYSTEM LOCATION:

Commander, Naval Safety Center, Naval Air Station, Norfolk, VA 23511

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy military and civilian employees of the Navy involved in diving or exposed to a hyperbaric environment.

CATEGORIES OF RECORDS IN THE SYSTEM:

Diving Log Report.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Reports summarizing diving activity are furnished to the commanding officer for individuals attached to the unit and are used to monitor experience levels associated with types of dives, equipment usage and requalification requirements. Individual records are also used to evaluate the diving program at specific activities and to determine if manning level, experience and operational requirements are consistent with an effective safety program. Pertinent individual records or statistical summaries prepared by Naval Safety Center analysts are also provided to all echelons within the Navy having a responsibility for the diving program and to the Commander, Naval Military Personnel Command, Naval Audit Service or other activities having responsibility for the administration or control of personnel assignments and hazardous duty payments.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape.

RETRIEVABILITY:

Records may be selected based on any of the data elements contained in the file such as diver's social security number, organization unit, type of dive and equipment used.

SAFEGUARDS:

A limited number of data processing personnel have access to the computer facility and to the magnetic tape files and computer programs. All requests for information received from activities or for purposes not directly related to the diving program must be approved by the Commander, Naval Safety Center or his designated representative.

RETENTION AND DISPOSAL:

Magnetic tape files contain all available records and are never purged. Reports are not transferred to a record center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Submarine Safety Programs, Naval Safety Center, NAS, Norfolk, VA 23511

NOTIFICATION PROCEDURE:

Individuals may write the System Manager giving full name, address, military status and social security number in order to determine if the system contains any records pertaining to them. Personal visitors will be required to produce military or comparable civilian identification cards.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Commanding Officer of naval units conducting diving or hyperbaric exposure incident to diving.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05100-2

SYSTEM NAME:

Diving Accidents and Injuries

SYSTEM LOCATION:

Commander, Naval Safety Center, Naval Air Station, Norfolk, VA. 23511

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy military and civilian employees of the Navy involved in an accident or who are injured while engaged in diving or exposed to a hyperbaric environment.

CATEGORIES OF RECORDS IN THE SYSTEM:

Diving Accident/Injury Report. Personnel Casualty Report. JAG manual investigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Records of diving accidents and injuries are evaluated by Naval Safety Center analysts to determine existence of problem areas and to detect trends. The records are correlated with the diving log reports and used as a basis for recommending changes in operating procedure, equipment, decompression schedules and training requirements. Individual reports and compilations of accidents and injuries are routinely furnished to activities within the Navy having responsibility for diving safety.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To government and private research institutions engaged in studies relating to the prevention or treatment of diving injuries or the design and usage of underwater equipment.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape.

RETRIEVABILITY:

Any of the data elements such as diver's social security number, type of accident, depth and purpose of dive, degree of injury and treatment provided are used to retrieve individual records.

SAFEGUARDS:

A limited number of data processing personnel have access to the computer facility and to the magnetic tape files and computer programs. All requests for information received from activities or for purposes not directly related to diving safety must be approved by the Commander, Naval Safety Center or his designated representative.

RETENTION AND DISPOSAL:

Magnetic tape files contain all available records and are never purged. Reports are not transferred to a record center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Submarine Safety, Naval Safety Center, NAS, Norfolk, Va. 23511

NOTIFICATION PROCEDURE:

Individuals may write the System Manager giving full name, address, military status and social security number in order to determine if the system contains any records pertaining to them. Personal visitors will be required to produce military or comparable civilian identification cards.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Commanding Officer of naval units conducting diving or hyperbaric exposure incident to diving, Office of the Judge Advocate General, and the Naval Medical Command.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05100-3

SYSTEM NAME:

Occupational Injury and Illness

SYSTEM LOCATION:

Commander, Naval Safety Center, Naval Air Station, Norfolk, VA 23511 (Central) Subordinate Type Commands/ Ship/Naval Units

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy military personnel who sustain an injury or occupational illness and Navy civilian personnel who sustain an occupational illness or injury resulting in one or more days of lost time.

CATEGORIES OF RECORDS IN THE SYSTEM:

Accidental Injury/Death Reports. Personnel Casualty Reports. Hospital Admission Reports. JAG manual investigations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Accidental injury records are used to compile a variety of statistical reports which are routinely published or prepared at the request of Navy forces afloat and shore activities. Individual injury reports are selected and reviewed by Naval Safety Center analysts in order to detect problem areas relating to operating procedure, training and equipment usage and malfunction. Results of these studies which may include individual injury reports are provided to commanding officers and to all echelons within the Navy having responsibility for the allocation of resources or the implementation of the Safety Program. Individual injury records are correlated with data contained in other personnel files in order to detect unfavorable trends within an activity and to recommend appropriate corrective measures.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Individual records and statistical summaries are provided on request to all Government activities having a legitimate need for such information. Individual records and summary data are provided to contractors and research activities in connection with projects either funded by or deemed potentially valuable to the Department of the Navy.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape. (Central location) File Folders/cardex (subordinate commands)

RETRIEVABILITY:

Any of the data elements such as social security number, command or unit identification code, degree of injury, location, equipment malfunction and cause factors are used to select individual records.

SAFEGUARDS:

A limited number of data processing personnel have access to the computer facility and to the magnetic tape files and computer programs. All requests for information received from activities or for purposes not within the routine usage criteria must be approved by the Commander, Naval Safety Center or his designated representative.

RETENTION AND DISPOSAL:

Magnetic tape files contain all available records and are never purged. Reports are not transferred to a record center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Occupational Safety, Health and Support Programs, Naval Safety Center, NAS, Norfolk, VA 23511

NOTIFICATION PROCEDURE:

Individuals may write the System Manager giving full name, address, military status and social security number in order to determine if the system contains any records pertaining to them. Personal visitors will be required to produce military or comparable civilian identification cards.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Commanding officers of Forces Afloat and Shore activities, Judge Advocate General and Commander, Naval Medical Command.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05100-4

SYSTEM NAME:

Motor Vehicle Accidents and Injuries

SYSTEM LOCATION:

Commander, Naval Safety Center, Naval Air Station, Norfolk, VA 23511 Subordinate/Type Commands/Levels

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy military personnel regardless of duty status who are injured as a result of a motor vehicle accident or are the operator of one of the vehicles involved in such an accident. Navy military and civilian personnel who are involved in a Government motor vehicle accident or a private motor vehicle accident on Navy property. Navy civilian employees who are injured in a motor vehicle accident during the course of their official duties.

CATEGORIES OF RECORDS IN THE SYSTEM:

Motor Vehicle Accident Report. Personnel Casualty and Death Report, Hospital Admission Reports and JAG manual investigations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Motor vehicle accident records are used to compile statistics which are given wide dissemination within the Navy. Compilations of motor vehicle accident records for particular commands, activities and units are furnished on request to assist in the development of an effective safety program at all levels within the Navy. Accident records of individuals assigned to specific units or records of individuals involved in multiple accidents are provided to commanding officers. Motor vehicle accident records are correlated with data contained in other accident/injury or training files. The significance of this data is evaluated by Naval Safety Center analysts and summary information, specific individual records or composite records provided to all echelons within the Navy having a responsibility for motor vehicle safety.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Individual records and statistical summaries are provided on request to all Government activities having a legitimate need for such information.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape. (Central location) File folders/cardex (subordinate commands)

RETRIEVABILITY:

Any of the data elements such as individual social security number, activity or unit identification, cause factors and degree of injury are used to retrieve individual records.

SAFEGUARDS:

A limited number of data processing personnel have access to the computer facility and to the magnetic tape files and computer programs. All requests for information which are not included in the routine usage criteria must be approved by the Commander, Naval Safety Center or his designated representative.

RETENTION AND DISPOSAL:

Magnetic tape files contain all available records and are never purged. Original documents are destroyed when no longer required. Reports are not transferred to a record center.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Occupational Safety, Health, and Support Programs, Naval Safety Center, NAS, Norfolk, VA 23511

NOTIFICATION PROCEDURE:

Individuals may write the System Manager giving full name, address, military status and social security number in order to determine if the system contains any records pertaining to them. Personal visitors will be required to produce military or comparable civilian identification cards.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Commanding officers of Forces Afloat and Shore activities, Judge Advocate General and Commander, Naval Medical Command.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05100-5

SYSTEM NAME:

Aviation Mishap Report

SYSTEM LOCATION:

Commander, Naval Safety Center, Naval Air Station, Norfolk, Virginia 23511.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All aeronautically designated individuals in a crew status who are involved in a naval avaiation mishap resulting in a cost of $50,000 or more.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, social security number, flight experience of involved individuals, and location, severity, cause factors and description of the accident.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

DOD Instruction 1000.19, dated 18 October 1979; subject: Mishap Investigative Reporting and Recordkeeping.

PURPOSE(S):

Used to file complete reports of mishap involvement by individual pilots. The reports are required to evaluate potential problems of active duty aviators and to determine suitability for assignment to selected Reserve units. Unless required, the identification of individuals will be deleted from reports provided to non-Navy activities.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Departments of Labor, Commerce, Transportation and NASA for the purpose of promoting aviation safety.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape, disk storage packs, file folders and microfilm.

RETRIEVABILITY:

Name or social security number may be used for retrieval.

SAFEGUARDS:

Files are maintained within the data processing facility and a limited number of Naval Safety Center personnel have free access to this area. When the computer facility is not occupied, physical security is provided by the Naval Safety Center duty section and by periodic checks made by the base security patrol. A knowledge of the computer operating system is required to process the mechanized files.

RETENTION AND DISPOSAL:

Original source documents will normally be destroyed within 18 months after being processed. Microfilm copies of the source documents and the data files will be retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Records and Data Processing Department, Naval Safety Center, Naval Air Station, Norfolk, Virginia 23511.

NOTIFICATION PROCEDURE:

Individuals can determine the existence of records pertaining to them by contacting the System Manager. Full name and social security number must be provided.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

The source of data for the file is the Aviation Mishop Report.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05101-1

SYSTEM NAME:

Safety Equipment Needs, Issues, Authorizations

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as listed in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel whose work requires them to wear, or are issued, protective clothing or equipment, including prescription safety lenses.

CATEGORIES OF RECORDS IN THE SYSTEM:

Listings, cards, and other records of individuals requiring, authorized, or issued prescription or other safety equipment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Departmental Regulations.

PURPOSE(S):

Used by Safety Department personnel to determine who needs; is eligible; or has been authorized or issued prescription or other safety equipment for protection.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Card index files, file folders in file drawers, or microform.

RETRIEVABILITY:

By name or date of authorization or issue.

SAFEGUARDS:

Controlled access space or locked rooms; personnel screening.

RETENTION AND DISPOSAL:

Secretary of the Navy Instruction 5212.5B, Disposal of Navy and Marine Corps Records.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting access may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Optometrist's measurements.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05120-1

SYSTEM NAME:

Bond Accounting

SYSTEM LOCATION:

Decentralized, maintained by Issuing Agents for Savings Bonds; a list is available from:
Commander
Navy Accounting and Finance Center (NCF-123)
Washington, D.C. 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian and Military Personnel of the Department of the Navy including contract employees who meet the requirement for ownership of savings bonds as outlined in Treasury Department Circular No. 530 as amended.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain individual application and related records - The Bond Record File - Master Bond Record Card Control Account - The Master Control Account - Activity Subcontrol Accounts - Refund Subcontrol - Transfer Journal.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To issue U.S. Savings Bonds; to provide an audit trail on requisition, control and issuance of bonds and to maintain the accounts.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Metal file cabinets equipped with a locking device - Paper records in metal filing cabinets - Microfilm.

RETRIEVABILITY:

Retrieved by name, social security number or payroll number. From the Federal Reserve Bank by numerical sequence by serial number shown on bond issued stub.

SAFEGUARDS:

Locked cabinets, with building or military base security. Access authorized to personnel engaged in payroll processing, disbursing, supervisory or management personnel, and auditors. Bond subscribers are authorized to receive information on their own records.

RETENTION AND DISPOSAL:

Records are maintained for one year. Records are then forwarded to a Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Navy Accounting and Finance Center (NCF-123), Washington,

D.C. 20376 Procedures are prescribed in Comptroller of the Navy Manual (NAVSO P-1000). For decentralized locations where individuals may deal directly, addresses are available from the SYSMANAGER.

NOTIFICATION PROCEDURE:

Information may be obtained by contacting the Bond Issuing Office responsible for issuing bond if known. If unknown the inquiry should be submitted to Commander, Navy Accounting and Finance Center, NCF-123, Washington, D.C 20376. Requester should provide full name, social security number or payroll number, current address when requesting information. An individual is permitted to visit any Bond Issuing Agent Office for information and will be required to provide identification such as identification card (i.e., DOD Building Pass).

RECORD ACCESS PROCEDURES:

The Agency's rule for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Request for Bonds are filed by individuals who provide information on themselves. Other records are generated from the original request.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05210-1

SYSTEM NAME:

Correspondence files

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

These are files kept by subject, name of correspondent (Congressman, contractor, other member of public, etc.,) or name of recipient.

CATEGORIES OF RECORDS IN THE SYSTEM:

Incoming and outgoing correspondence and related material.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To follow-up on previous correspondence, for reference purposes, to assure consistency of policy, and for other official Navy business, as required.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

RETRIEVABILITY:

Name, SSN, Case Number, organization.

SAFEGUARDS:

Access provided on a need to know basis only. Locked and/or guarded office.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concerned, other records of the activity, investigators, witnesses, correspondents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05300-1

SYSTEM NAME:

Organization Locator and Social Roster

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military and civilian personnel attached to the activity; also may include military and civilian personnel of the Department of Defense and other government agencies; may also include family members and guests of military and civilian personnel; other invitees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Manual or mechanized records. Includes information such as names, addresses, telephone numbers; official titles or positions and organizations; invitations, acceptances, regrets, protocol, and other information associated with attendents at functions. Locator records of personnel attached to the organization.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To locate individuals on routine and emergency matters. System is used for mail distribution, for forwarding addresses, and as a recall list. Also, may be used as a social roster for social reference for various official and non-official functions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape, and similar record formats.

RETRIEVABILITY:

Name, SSN, number, organization, function.

SAFEGUARDS:

Access provided on a need to know basis.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to record may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concerned, other records of the activity, correspondents, directories and official publications.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05300-2

SYSTEM NAME:

Administrative Personnel Management System

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy activities. Official mailing addresses are in the Navy's address directory in the appendix to the Navy Department's systems notices appearing in the Federal Register. Included in this notice are those records duplicated for maintenance at a site closer to where the employee works (e.g., in an administrative office or a supervisor's work area).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian, (including former members and applicants for civilian employment), military and contract employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence/records concerning identification, location (assigned organization code and/or work center code); MOS; labor code; payments for training, travel advances and claims, hours assigned and worked, routine and emergency assignments, functional responsibilities, clearance, educational and experience characteristics and training histories, travel, retention group, hire/termination dates; type of appointment; leave; trade, vehicle parking, disaster control, community relations, (blood donor, etc), employee recreation programs, grade and series or rank/rate, retirement category, awards, property custody, personnel actions/dates, violations of rules, physical handicaps and health data, veterans preference, mutual aid association memberships, union memberships, qualifications, and other data needed for personnel, financial, line and security management, as appropriate.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5031

PURPOSE(S):

To manage, supervise and administer programs for all Navy civilian and military personnel such as preparing rosters/locators; contacting appropriate personnel in emergencies; training; identifying routine and special work assignments; determining clearance for access control; controlling the budget; travel claims; manpower and grades; maintaining statistics for minorities; employment; laborcosting; watch bill preparation; projection of retirement losses; verifying employment to requesting banking; rental and credit organizations; name change location; checklist prior to leaving activity; payment of mutual aid benefits; and similar administrative uses requiring personnel data. Arbitrators and hearing examiners in civilian personnel matters relating to civilian grievances and appeals.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape, magnetic disc.

RETRIEVABILITY:

Name, SSN, Case number, organization, work center and/or job order.

SAFEGUARDS:

Password controlled system, file, and element access based on predefined need to know. Physical access to terminals, terminal rooms, buildings and activities' grounds are controlled by locked terminals and rooms, guards, personnel screening and visitor registers.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual, employment papers, other records of the organization, official personnel jackets, supervisors, official travel orders, educational institutions, applications, duty officer, investigators, opm officials, and/or members of the American Red Cross.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05300-3

SYSTEM NAME:

Faculty Professional Files

SYSTEM LOCATION:

Superintendent, Naval Postgraduate School, Monterey, CA 93943-5100.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Faculty personnel employed by the Naval Postgraduate School and individuals applying for positions.

CATEGORIES OF RECORDS IN THE SYSTEM:

Faculty academic promotion/tenure case evaluation files and faculty professional status and accomplishment file.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031.

PURPOSE(S):

Records are used by Department Chairmen, Deans, and the Superintendent to determine the ranking, promotion, tenure, reappointment and evaluation of faculty personnel.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To potential/future employers who inquire concerning a faculty member's qualifications, status and accomplishments and who have an interest in hiring the member.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders

RETRIEVABILITY:

Name

SAFEGUARDS:

During work hours, records are secured within locked file drawers within departmental offices to which only authorized personnel have access. After working hours, records are kept within locked file drawers within secured offices located within a locked building which is part of a Naval facility to which entry is restricted.

RETENTION AND DISPOSAL:

Records are retained during the faculty member's period of employment. Records are destroyed upon termination of employment.

SYSTEM MANAGER(S) AND ADDRESS:

Provost, Code 01, Naval Postgraduate School, Monterey, CA 93943-5100.

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from previous employers, educational background, correspondence, peer evaluations, supervisory evaluations and student evaluations of teaching.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system are exempt under 5 U.S.C. 522a (k) (5). For additional information, contact the System Manager.

N05300-4

SYSTEM NAME:

Personnel Management and Training Research Statistical Data System

SYSTEM LOCATION:

Commanding Officer
U. S. Navy Personnel Research and Development Center
San Diego, California 92152

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

U. S. Navy and Marine Corps Personnel and applicants thereto: Active duty, reserve, prior service, dependents, retired, and Department of the Navy civilians from 1951 to present. (Only samples of data from each category are on file, depending on research study.)

CATEGORIES OF RECORDS IN THE SYSTEM:

Performance, attitudinal, biographical, aptitude, vocational interest, demographic, physiological. Data in any file are limited, depending on purpose of the research study.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

The data are used solely by Navy Personnel Research and Development Center researchers who analyze them statistically to arrive at recommendations to management on such topics as: Comparison of different training methods, selection tests, equipment designs, or policies relating to improving race relations and decreasing drug abuse. In no case are the data used for other than statistical purposes; that is, the data are not used in making decisions affecting specific individuals as individuals.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tapes, magnetic disk, punched cards, and coding

RETRIEVABILITY:

Records are retrievable by name, social security number, or service/file numbers, but such identifying information is used only to permit collation of data for statistical analysis, and is not used for retrieval of individual records.

SAFEGUARDS:

Unauthorized access to records is controlled by: Security clearances for all Research Center and contractor personnel; physical security including a badge system for entry to the Center and a 24-hour guard maintained on a fenced compound; control of visitors; data bank users having special access codes; and, access limited to only designated personnel.

RETENTION AND DISPOSAL:

Records are destroyed five years after termination of a research project. They are maintained within the confines of the Research Center. Destruction is accomplished by degaussing magnetic tapes and disks, and punched cards are recycled.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Programs (Code 03PA)
U. S. Navy Personnel Research and Development Center
San Diego, California 92152

NOTIFICATION PROCEDURE:

Research Center files are organized by research study. To determine if Center files contain information concerning himself, an individual would have to specify time and place of participation in the research, unit to which attached at the time, and descriptive information about the study so that appropriate data may be located. For further information, contact the System Manager.

Office to visit: Contact System Manager

Visitor Identification: System Manager will specify

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

The source depends on purpose and nature of study: From the subjects themselves, educational institutions,

supervisors, peers, instructors, spouses, and job sample tests.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05300-5

SYSTEM NAME:

Sys Cmd Accting/Monitoring of Projects (SCAMP)

SYSTEM LOCATION:

Navy Regional Data Automation Center (NARDAC), Washington Navy Yard, Building 196, Washington, D.C. 20374.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Current employees, assigned military personnel, contractor personnel and those separated within the current five fiscal years.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's social security number, date of birth, home address, home telephone number, education level, sex, race or ethnic group. Other types of records integrated with personnel records include: (a) status of travel orders during the previous fiscal year; (b) vehicle identification for parking control purposes; (c) privacy log containing a history of accesses made to any of the privacy protected data; (d) record of personnel actions issued; (e) training data extracted from the Individual Development Plan (IDP); (f) history of all promotions associated with employment at NARDAC; (g) listing of security accesses; (h) manpower costs for all personnel distributed by project and task; and (i) data relating to projects or endeavors that individuals have work on. This data deals with costs and milestone monitoring.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 42 U.S.C. 2000e et seq., 44 U.S.C. 3101, Federal Personnel Manuals 293, 294, 295, 713.

PURPOSE(S):

To manage personnel, monitor projects and manage financial data.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk and on magnetic tape.

RETRIEVABILITY:

SCAMP users obtain information by means of either a query or a request for a standard report. Personnel data may be indexed by any data item although the primary search key is the badge number.

SAFEGUARDS:

Access to building is protected by uniformed guards requiring positive identification for admission. The computer room where data is physically stored is protected by a cypher lock. The system is protected by user account number and password sign-on, data base authority, set and item authority for list, add, delete and update.

RETENTION AND DISPOSAL:

An individual's Personnel Master Data Set record is retained in the data base as long as they are actively employed with the Command. The online personnel data set is purged of all records of separated personnel at the end of each fiscal year. Historical data may be kept for five years on separate tape files.

SYSTEM MANAGER(S) AND ADDRESS:

Department Head, Management Information Analysis Department (Code 20B) NARDAC, Building 157, Washington Navy Yard, Washington, D.C. 20374.

NOTIFICATION PROCEDURE:

Inquiries regarding the existence of records should be addressed to the system manager. Written requests should contain the full name and signature of the individual concerned and his/her social security number indicated on the letter. For personal visits, the individual should be able to provide some acceptable form of identification, i.e., driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom it applies, from security agencies to which application for clearances have been made, and from agencies' various administrative departments.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05300-6

SYSTEM NAME:

Armed Forces Staff College Administrative Data System

SYSTEM LOCATION:

Armed Forces Staff College (AFSC), 7800 Hampton Blvd., Norfolk, VA 23511-6097.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have attended or will attend AFSC and those who are assigned to staff or faculty at AFSC.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name; SSN; age; sex; service specialty; engineering, logistics, or intelligence experience; rank; work room assignment; marital status; spouse's name; number, names and ages of dependents; seminar assignments; date of rank; years commissioned service; aero rating; Vietnam experience; smoker indicator; source of commission; examination results; education level; auditorium seat; address and telephone number of student while attending course; next duty assignment; major writing exercise grade; and recommendation for faculty assignment. The data items maintained on the historical file are name, SSN, military service, class number, major writing exercise grade, and recommendation for future faculty assignment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031.

PURPOSE(S):

To maintain a data base that will permit the Armed Forces Staff College to keep track of student's examinations, evaluations and grades; to assign base housing; to achieve a uniform distribution of students at seminars based upon student's experience and military service affiliation; and to maintain a historical file of recommendations for future faculty assignments of students.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk, magnetic tape, and hard copy forms.

RETRIEVABILITY:

AFSC users obtain information by means of standard reports or update programs.

SAFEGUARDS:

Access to building is protected by uniformed guards who require positive identification for admission after hours. System information is protected by port access restrictions and user password sign-on software.

RETENTION AND DISPOSAL:

The record of an individual in the current class is retained on disk and will be available for online access. Student information is kept in a historical file for all past classes. The historical file is also retained on disk and will be available for on-line access. An individual's class record will be retained for one year after graduation and then destroyed. There are currently no plans to discard the historical file information.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Naval Administrative Command, and Dean, Department of Academic Support, Armed Forces Staff College, 7800 Hampton Blvd, Norfolk, VA 23511-6097.

NOTIFICATION PROCEDURE:

Information should be obtained from the systems manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by a commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom it applies and from the individual's seminar chairman.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05330-1

SYSTEM NAME:

Manhour Accounting System

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active military and civilian personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record could contain any of the following: assigned organization code, work center code, name, grade code, pay rate, social security number, NEC/MOS, labor code, type transaction, hours assigned.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5031

PURPOSE(S):

To maintain a data base which will permit officials and employees of the respective naval commands to effectively manage and administer the workforce such as scheduling and assigning work; identifying individuals' skill level; tools issued, planned absents and temporary assignments to other areas.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Punched cards, magnetic tape and flat paper

RETRIEVABILITY:

Name, organization code, SSNA, and work center.

SAFEGUARDS:

Files are stored in a limited access area. Information provided via batch processing is of a predetermined and strictly formatted nature.

RETENTION AND DISPOSAL:

Individual personal data are retained only for that period of time that an individual is assigned. Upon departure of an individual, personal data are deleted from the records and history records are not maintained.

SYSTEM MANAGER(S) AND ADDRESS:

The commanding officer of the activity in question. See directory of Navy activities mailing addresses.

NOTIFICATION PROCEDURE:

Individuals desiring information whether the system contains records pertaining to them should request that determination from the Records Holder listed under SYSMANAGER. The requester should provide his social security number and full name. The office of the Records Holder listed under SYSMANAGER may be visited for this determination but the requester must present his social security card and military identification card.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing intitial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Input provided by command employing individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

N05340-2

SYSTEM NAME:

Personal Commercial Affairs Solicitation Privilege File System

SYSTEM LOCATION:

Primary System-Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370.

Secondary System-Local Navy Activities involved in the Personal Commercial Affairs Solicitation Privilege System (see Directory of the Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are authorized Personal Commercial Affairs Solicitation Authorization concerning solicitation privileges on board military installations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence and records concerning letter of application for solicitation privileges, letters of accreditation, violation incident data, denial data, appeal data, and other supporting documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 USC 301 Departmental Regulations

PURPOSE(S):

To assist in responding to letters of application for solicitation privileges, granting letters of accreditation, responding to appeals and compiling of statistics pertaining thereto.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To state and local agencies in the performance of their official duties related to agent qualifications.

To private firms whose agents have been banned may request verification of the status of agents.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual records may be stored in paper file folders.

RETRIEVABILITY:

Records are retrieved by name of agent or agency.

SAFEGUARDS:

Records are accessible only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Files are retained and disposed of in accordance with SECNAVINST P5212.5B, subj: Disposal of Navy and Marine Corps Records, or Departmental Regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to: Commander, Naval Military Personnel Command (Attn: Privacy Act Coordinator), Navy Department, Washington, D.C. 20370; or in accordance with the Directory of the Department of the Navy Mailing Addresses (i.e., local activities). The letter should contain full name, social security number of the applicant, firm represented, and dates or time period in question, and signature of the requestor. The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex (FOB#2), Rm 1066, Washington, D.C. for assistance with records located in that building; or the individual may visit the local activity for access to records maintained locally. Proof of identification will consist of picture-bearing identification.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerning may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy, Department of Defense, and components thereof, in performance of their official duties as specified by current Instructions and Regulations promulgated by competent authority; State and local agencies in the performance of their official duties related to agent qualifications; investigatory records; general correspondence concerning individual agents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05350-1

SYSTEM NAME:

Navy Personnel Rehabilitation Support System

SYSTEM LOCATION:

Primary System-Naval Military Personnel Command, Navy Department, Washington, D.C. 20370;

Decentralized segments-Navy Drug Rehabilitation Centers, Navy Alcohol and Drug Information System Processing Office, Navy Alcohol Rehabilitation Centers, Naval Regional Medical Centers, Navy Counseling and Assistance Centers, Navy Alcohol Rehabilitation Drydocks, Naval Health Research Center, and local activities to which an individual is assigned (see Directory of Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy personnel (officers and enlisted) who have been identified as drug or alcohol abusers, or who have undergone counseling and rehabilitation for drug or alcohol abuse in Navy Drug or Alcohol rehabilitation facilities; counselors and counselor candidates; personnel who work part-time helping alcoholics; active duty navy recovered alcoholics who voluntarily help their commands develop alcoholism prevention programs; navy personnel convicted by court martial and sentenced to confinement; or who were in pre-trial confinement; spouses and significant others (this includes parents, live-togethers, and other non-spouses who play an important part in the alcoholic's/drug abuser's life) who have undergone counseling and rehabilitation in navy drug or alcohol rehabilitation centers, who themselves participate in counseling or treatment programs at such facilities and civilians authorized by the Secretary of the Navy for treatment at a military facility for rehablitation purposes.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of interview appraisals, progress reports, psychosocial histories, counselor observations and impressions of client's behavior and rehabilitation progress, copies of medical consultation and laboratory procedures performed, results of biochemical urinanalysis for alcohol/drug abuse, and personnel, service, biographical and educational data.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title V, Public Law 92-129; Section 413; Public Law 92-255

PURPOSE(S):

To identify alcohol and drug abusers and either restore such persons to effective duty or identify rehabilitation failures for separation from Government service. Information is used to treat, diagnose, counsel and rehabilitate individuals in the drug or alcohol abuse programs. For counselors and counselor candidates to use in screening and evaluation of candidates for counselor school and the continuing evaluation of counselors during the course of their duties.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Blanket Routine Uses identified in the yearly recompilation do not apply to this system of records.

Records of identity, diagnosis, prognosis, or treatment of any client/patient, irrespective of whether or when he/she ceases to be client/patient, maintained in connection with the performance of any alcohol or drug abuse prevention and treatment function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, shall, except as provided therein, be confidential and be disclosed only for the purposes and under the circumstances expressly authorized in Title 21 U.S.C. Section 1175, as amended by 88 Stat. 137, and Title 42 U.S.C., Section 4582, as amended by 88 Stat. 131. These statutes take precedence over the Privacy Act of 1974, in regard to accessibility of such records except to the individual to whom the record pertains.

Within the Armed Forces or within those components of the Veterans Administration furnishing health care to veterans or between such components and the Armed Forces.

To medical personnel outside the Armed Forces to the extent necessary to meet a bona fide medical emergency.

To Government personnel for the purpose of obtaining benefits to which the patient is entitled.

To qualified personnel for the purpose of conducting scientific research, management or financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit or evaluation, or otherwise disclose identities in any manner.

To a court of competent jurisdiction upon authorization by an appropriate order after showing good cause therefore. In assessing good cause, the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of such order, the court, in determining the extent to which any disclosure of all or any part of any record is necessary, shall impose appropriate safeguards against unauthorized disclosure.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetic tapes, disc, drums or on punched cards.

Manual records may be stored in paper file folders, microfiche or microfilm.

RETRIEVABILITY:

Manual records may be retrieved by name and social security number. Automated records may be retrieved by social security number. Computer programs associated with automated records maintained in this system allow for names and social security numbers to be removed while leaving other data elements intact. When the name and social security number is removed, data is aggregated for use in research, management information and planning.

SAFEGUARDS:

Computer and punched card processing facilities are located in restricted areas accessible only to authorized persons that are properly screened, cleared and trained.

Manual records and computer printouts are available only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Manual records are maintained for two years and automated records are maintained indefinely.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Written requests should be addressed to activity to which the individual received treatment or to the Commander, Naval Military Personnel Command, Navy Annex, Washington, D.C. 20370. Requests must contain full name, social security account number,

military status, address and signature of requester. The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex (FOB-2) for assistance with records located in the Naval Military Personnal Command; the individual may also visit local activities concerned (see Directory of Department of the Navy mailing addresses). Proof of identification will consist of military ID card for persons having them or other picture-bearing ID.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy, Department of Defense, and components thereof, in performance of their official duties and as specified by current Instructions and Regulations promulgated by competent authority; notes and documents from Service Jackets and Records; federal, state and local court documents; general correspondence concerning the individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05353-1

SYSTEM NAME:

Treatment Effectiveness Assessment System

SYSTEM LOCATION:

Primary System-Alcohol Rehabilitation Branch, Health Promotion Division, Naval Medical Command, 23rd and E Streets, NW, Washington, DC 20372.

Secondary system-27 Alcohol Rehabilitation Services at Naval Hospitals in Bethesda, Maryland; Jacksonville, Florida; Pensacola, Florida; Orlando, Florida; San Diego, California; Long Beach, California; Oakland, California; Camp Pendleton, California; Bremerton, Washington; Charleston, South Carolina; Beaufort, South Carolina; Corpus Christi, Texas; Great Lakes, Illinios; Groton, Connecticut; Camp LeJeune, North Carolina; Millington, Tennessee; Newport, Rhode Island; Philadelphia, Pennsylvania; Quantico, Virginia; Guam; Guantanamo Bay, Cuba; Naples, Italy; Roosevelt Roads, Puerto Rico; Okinawa, Japan; Yokosuka, Japan; Subic Bay, Republic of the Phillipines; and Rota, Spain.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have successfully completed a six-week residential alcohol rehabilitation program at a Navy alcohol rehabilitation service.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information collected is in three categories:

a. Treatment Facility Records. Title and address of facility; prognosis of individual; dates of treatment completion; and entry for whether an individualized aftercase program has been established.

b. Reviewer's Information. Reviewing official's name, grade and title, and date of review.

c. Service Member's Information. Name, SSN, grade, date of birth, current status, type of discharge, if applicable, and general information regarding individual's progress subsequent to treatment.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

44 U.S.C. 3101 and 10 U.S.C. 5031

PURPOSE(S):

For officials and employees of the Naval Medical Command to maintain a data base which will permit monitoring treatment effectiveness of services that provide alcohol rehabilitation (Alcohol Rehabilitation Services/Substances Abuse Departments) at Navy medical treatment facilities in accordance with the Navy Substance Abuse Program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on hard copy forms in a secured safe.

RETRIEVABILITY:

Data will be indexed by name and social security number.

SAFEGUARDS:

The records will be maintained in a secured, locked safe accessible only by combination number. Access to the secured safe is under the control of authorized personnel during working hours. In addition, access to the compound is protected by uniformed guards and requires positive identification for admission.

RETENTION AND DISPOSAL:

Records are retained for three years after the individual successfully completes a residential Navy alcohol rehabilitation program. The records are then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Alcohol Rehabilitation Branch, Health Promotion Division, Naval Medical Command, Department of the Navy, 23rd and E Streets, NW, Washington, DC 20372.

NOTIFICATION PROCEDURE:

Information should be obtained from the system manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom it applies, the individual's current duty station, and from the Alcohol Rehabilitation Service in which attended.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05354-1

SYSTEM NAME:

Equal Opportunity Information and Support System

SYSTEM LOCATION:

Primary System-Naval Military Personnel Command, Navy Department, Washington, D. C. 20370; and local activity to which individual is attached (see Directory of the Department of the Navy Mailing Addresses).

Secondary System-Department of the Navy Activities in the Chain of Command between the local activity and the Headquarters level (see

Directory of the Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy personnel who are involved in formal or informal investigations involving aspects of equal opportunity; and/or who have initiated, or were the subject of correspondence concerning aspects of equal opportunity.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence and records concerning incident data, endorsements and recommendations, formal and informal investigations concerning aspects of equal opportunity.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To assist in equal opportunity measures, including but not limited to, investigations and correspondence.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

When required by Federal statute, by Executive order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by last name of individual concerned.

SAFEGUARDS:

Records maintained in areas accessible only to authorized personnel on a need to know basis.

RETENTION AND DISPOSAL:

Records disposed of after two years in accordance with SECNAVINST P5212.5B, 'Disposal of Navy and Marine Corps Records'; or in accordance with Departmental Regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370.

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to: Commander, Naval Military Personnel Command (Attn: Privacy Act Coordinator), Washington, D.C. 20370; or, in accordance with the Directory of the Department of the Navy Mailing Addresses (i.e., local activities). The letter should contain full name, social security account number, rank/rate, military status, and signature of the requestor.

The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex (FB42), Rm. 1066 Washington D.C. for assistance with records located in that building; or the individual may visit the local activity to which attached for access to locally maintained records. Proof of identification will consist of Military Identification Card for persons having such cards, or other picture-bearing identification.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy, Department of Defense, and components thereof, in performance of their official duties and as specified by current Instructions and Regulations promulgated by competent authority; federal, state, and local court documents; military investigatory reports; general correspondence concerning individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1) and (5) as applicable. For additional information contact the System Manager.

N05370-1

SYSTEM NAME:

Statements of Employment (Regular Retired Officers)

SYSTEM LOCATION:

Commanding Officer, Navy Finance Center Anthony J Celebrezze, Federal Building, Cleveland, Ohio 44199 and Marine Corps Finance Center, Kansas City, Missouri 64197

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy and Marine Corps Regular retired officers who have filed a Statement of Employment (DD Form 1357).

CATEGORIES OF RECORDS IN THE SYSTEM:

The information is typically contained in the individual's pay account file and occasionally accompanied by correspondence from, to, or concerning individuals in the above-stated category.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 3326; 18 U.S.C. 207, 281, 283; 37 U.S.C. 801; 44 U.S.C. 3101; U.S. Const., Art. I, 9, CL. 8.

PURPOSE(S):

To determine whether the retiree has of may have a conflict of interest or is engaging in prescribed post-retirement employment activities. In some cases, the information is provided to the Judge Advocate General to serve as basis for advisory opinions on the legality and possible penial and civil consequences of post-retirement employment activities and related conflicts of interests and standards of conduct questions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Justice and other law enforcement and investigation agencies in instances of suspected violations of conflict of interests and related standards of conduct.

To the Comptroller General or any of his authorized representatives, upon request, in the course of the performance of duties of the General Accounting Office relating to instances of suspected violations of conflict of interests and related standards of conduct.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

By name or social security number of the individual concerned.

SAFEGUARDS:

Files are maintained in file cabinets under the control of authorized personnel during working hours; the office space in which the file cabinets are located is locked outside of official working hours.

BEST COPY AVAILABLE

RETENTION AND DISPOSAL:

Records are maintained at the above-stated locations for up to two years after the death of the individual concerned, at which time they are transferred to the Federal Records Center, Mechanicsburg, Pennsylvania, in the case of Navy personnel, and to the Federal Records Center, Kansas City, Missouri in the case of Marine Corps personnel.

SYSTEM MANAGER(S) AND ADDRESS:

For Navy Regular retired officers:
Comptroller of the Navy
Navy Department
Washington, D.C. 20350

For Marine Corps Regular retired officers:
Commanding Officer
Marine Corps Finance Center
1500 East Bannister Road
Kansas City, Missouri 64197

NOTIFICATION PROCEDURE:

Information may be obtained by written request which adequately identifies the system of records and the individual about whom the record is kept (i.e., full name and social security number); the written request must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager for Marine Corps and the Navy Finance Center for Navy.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager for Marine Corps and the Navy Finance Center for Navy.

RECORD SOURCE CATEGORIES:

The information is obtained from the individual to whom the record pertains.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05370-2

SYSTEM NAME:

Statements of Employment and Financial Interest

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as listed in the directory of Department of the Navy activities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons filing DD 1555 or DD 1555-1

CATEGORIES OF RECORDS IN THE SYSTEM:

DD 1555 or DD 1555-1 and supplemental lists or reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations and E.O. 11222.

PURPOSE(S):

For supervisors and counselors to determine whether the employee has or may have a conflict of interest. The Naval Investigative Service may use the system to handle violations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

For law enforcement and investigatory agencies, such as the Federal Bureau of Investigation and the Department of Justice, to handle violations.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and card files.

RETRIEVABILITY:

Name.

SAFEGUARDS:

Safe or locked file cabinet accessible to au ıorized personnel only.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer or head of the organization in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concerned, his supervisor, and the counselor.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05371-1

SYSTEM NAME:

Conflicts of interest and employment activities.

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 12), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty, reserve, or retired military personnel and present and former civilian employees of the Navy or Marine Corps who, by reason of their own inquiries or inquiries or complaints of Department of the Navy or other Federal officials or other appropriate persons, have been the subject of correspondence with the Judge Advocate General concerning the legality of outside Federal, State, or private employment or financial interests, dual Federal employment, post-retirement employment, defense related employment, or foreign employment; acceptance of gifts, gratuities, or benefits from Government cntractors, foreign governments, or other sources, or other possible violations of Federal conflicts-of-interest or standards-of-conduct laws or regulations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence from, to, or concerning, individuals of the above stated category regarding their current, past, or prospective outside Federal, State, or private employment; defense-related employment; post-retirement employment; foreign employment; dual Federal employment; acceptance of gifts, gratuities, or benefits from Government contractors, foreign governments, or other questionable sources; or other possible violations of conflicts-of-interest or standards-of-conduct laws or regulations. Additionally, such records sometimes include copies of statements of employment submitted by retired military personnel to the Navy Finance Center and referred to the Judge Advocate General for review and further action, and copies of investigative reports concerning suspected violations of pertinent laws or regulations.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 3326, 5532; 10 U.S.C. 973, 974, 1032, 6223;
18 U.S.C. 202, 203, 205, 207, 209, 219, 281, 283;
37 U.S.C. 801;
U.S. Const., Art. I, 9, cl 8;
5 U.S.C. 301;
44 U.S.C. 3101.

PURPOSE(S):

Information is used as the basis for advisory opinions on the legality of employment activities, financial interests, and the related conflicts-of-interest and standards-of-conduct questions described above.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the General Accounting Office; the Department of Justice; and the Office of Personnel Management in instances of suspected violations of pertinent laws or regulations.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

By name of individual.

SAFEGUARDS:

Files are maintained in file cabinets under the immediate control of authorized personnel during working hours; the office space in which the file cabinets are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are permanent and are retained indefinitely in the Office of the Judge Advocate General. However, after five years, name indexes are destroyed, eliminating the capability for retrieval by the names of individuals. Thereafter, they are retrievable only by topical indexes arranged according to the legal issues involved.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va., 22332

NOTIFICATION PROCEDURE:

Information may be obtained by written request to the system manager stating the full name of the individual concerned. Written requests must be signed by the requesting individual. Visits may be made to: Civil Affairs Division (Code 12), Office of the Judge Advocate General, Room 9n11, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332. Armed forces identification card or state driver's license is required for identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the sstem manager.

RECORD SOURCE CATEGORIES:

Information in the system is furnished by the individual and is supplemented by correspondence from Federal officials; current, past, and prospective employers; other interested persons regarding possible conflicts of interest and employment activities; and by investigations pertaining to particular suspected violations. Additional information in the form of statements of employment is forwarded by officers of the Navy Finance Center to the Judge Advocate General for review and further action.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE.

N05512-1

SYSTEM NAME:

Vehicle Control System

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals that have vehicles registered at a particular Navy installation; and all individuals who apply for Government Motor Vehicle Operator's License.

CATEGORIES OF RECORDS IN THE SYSTEM:

Alphabetical file of each individual who have vehicles registered or who have applied for a Government Motor Vehicle Operator's License. Files kept by month, individual's name, date of birth, SSN, height, weight, hair and eye color, place of employment, driving record, license number, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Used as a car pool locator, vehicle registration, parking control system, insurance verification system to verify issue of license when individual has lost his or her operator's card, and may be referred to by security or safety officials to determine individual's previous driving record.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

RETRIEVABILITY:

Name, SSN, Case number, organization.

SAFEGUARDS:

Access provided on a need to know basis only. Locked and/or guarded office.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concerned, other records of the activity, investigators witnesses, correspondents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05520-1

SYSTEM NAME:

Personnel Security Eligibility Information System

SYSTEM LOCATION:

Primary System-Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

Secondary System-local activity to which individual is assigned (see Directory of the Department of the Navy Mailing Addresses)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members of the U.S. Navy and Naval Reserve, former members, and applicants for enlistment or commissioning.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain reports of personnel security investigations, criminal investigations, and counterintelligence investigations, usually brief excerpts only; correspondence, records and information pertinent to an individual's eligibility for acceptance and retention, personnel security clearance, assignment to the Nuclear Weapon Personnel Reliability Program or other 'high risk' program requiring personnel quality control.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To determine service member's eligibility for acceptance and retention, personnel security clearances, assignment to the Nuclear Weapon Personnel Reliability Program and other 'high risk' programs requiring quality control.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To state and local government agencies in the performance of their official duties relating to personnel security eligibility.

To officials and employees of other Executive Branches of the Government, upon request, in the performance of their duties related to personnel security eligibility.

When required by Federal statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and index cards. Some information from the paper records is contained in an automated file.

RETRIEVABILITY:

Filed alphabetically by last name of individual. Automated files are by social security account number.

SAFEGUARDS:

Stored in locked safes and cabinets. File areas are accessible only to authorized persons who are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

Records and portions thereof vary in period of time retained; records are retained and disposed of in accordance with Department Regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Navy Department, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to Commander, Naval Military Personnel Command, (Attn: Privacy Act Coordinator), Navy Department, Washington, D.C. 20370; or in accordance with the Directory of the Department of the Navy Mailing Addresses (i.e., local activities). The letter should contain full name, social security number, rank/rate/civilian status, address and notarized signature of the requestor. The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex, (FOB-2) Washington, D.C., Rm. 1066, for assistance with records located in that building; or the individual may visit the local activity to which attached for access to locally maintained records. Prior written notification of personal visits is required to ensure that all parts of the record will be available at the time of the visit. Proof of identity will be required and will consist of a military identification card for persons having such cards and picture-bearing identification.

RECORD ACCESS PROCEDURE:

The agency's rules for access to records may be obtained from the SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing inital determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy, Department of Defense, and other Departments and Agencies of the Executives Branch of government, and components thereof, in performance of their official duties and as specified by current instruction and regulations promulgated by competent authority; civilian and military investigative reports; federal state and local court documents; fingerprint cards; official correspondence concerning individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1), (2), (5), and (7) as applicable. For additional information contact the System Manager.

N05520-2

SYSTEM NAME:

Listing of Personnel - Sensitive Compartmented Information

SYSTEM LOCATION:

Director, Naval Research Laboratory, Washington, D. C. 20375

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals indoctrinated for access to compartmented information.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, affiliation, billet description, clearances authorized, clearances held, rank, Social Security Number, Background Investigation date, date of birth, place of birth, date of marriage, place of marriage.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To record and monitor the NRL sensitive compartmented information (SCI) billet structure (personnel authorized to be indoctrinated for SCI).

To control and monitor access to sensitive compartmented information facilities.

To maintain records of NRL personnel visiting other commands as well as personnel from other activities who visit NRL on SCI visits.

To maintain a listing of SCI materials signed out on sub-custody to division personnel for inventory control.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic Tape

RETRIEVABILITY:

Name, Social Security Number, affiliation, assigned billet number

SAFEGUARDS:

Three combination security container and/or vault.

RETENTION AND DISPOSAL:

Records maintained as long as individual authorized access; changed as changes occur.

Magnetic tape erased as required.

SYSTEM MANAGER(S) AND ADDRESS:

Special Security Officer, Naval Research Laboratory, Washington, D. C. 20375

NOTIFICATION PROCEDURE:

Letter to System Manager at above address giving full name, Social Security Number, and affiliation, or visit to NRL Special Security Office with NRL pass as identification

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

All information obtained from individuals and indoctrination documents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05520-3

SYSTEM NAME:

Civilian Personnel Security Files

SYSTEM LOCATION:

Department of the Navy Staff, Headquarters and Field Activities employing civilians in sensitive and nonsensitive positions. Official mailing addresses are provided in the Department of the Navy Directory published in the Federal Register.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Appropriated and nonappropriated fund employees, contractor employees and visitors requiring base or activity access, and applicants under consideration for employment within the employing activity.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain records and information appropriate to the activities civilian employee security program and may include certificates of personnel security clearances and source documents which identify the appropriate investigative basis for clearance eligibility, security access information, copies of requests for investigation, personal history and qualifications statements and other information provided by the employee, signed security briefing and debriefing statements, exception documents, copies of letters of reprimand or suspension, memorandums between the personnel officer or other officers and the security manager, final and interim reports of investigations completed, correspondence concerning personnel security matters, records of security orientation, education and training provided employees, internal security information, records of security violations, and information from law enforcement agencies, former employers and supervisors, references and schools attended.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10450 (as amended), 'Security Requirements for Government employment' Internal Security Act 1950, 18 USC 1382, and Title 18 U.S. code, and E.O. 9397.

PURPOSE(S):

To provide an effective program to insure that the employment and retention in employment of any civilian officer or employee within the activity is clearly consistent with the interests of national security. To determine the investigative requirements for appointment and retention of civilian officers and employees. To provide information concerning the security clearance and degree of access granted each employee. To provide a basis by which an applicant or employee may be determined suitable for employment or retention in employment in sensitive or nonsensitive positions within the Federal civilain service. To provide a record of favorable security and suitability determinations made by the Navy Central Clearance Group, of favorable and unfavorable determinations made by the Secretary of the Navy and of suitability determinations made by the Office of Personnel Management and the activity.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and on file cards.

RETRIEVABILITY:

Name (last, first, middle), date of birth, and social security number.

SAFEGUARDS:

Safekeeping and storage in accordance with the Department of the Navy Information Security Program Regulation, OPNAV 5510.1G.

RETENTION AND DISPOSAL:

Records are retained during the employment of the employee at the activity, and during period applicants are being considered for employment, but may be disposed of at any time after serving their purpose. The records are disposed of upon separation (retirement, transfer, resignation, termination, etc.) of the employee. Disposal may be made by (1) return to the source from which received, if required, (2) forwarding to the Department of Defense activity to which an employee is transferred, or (3) destruction.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officers of Heads of Department of the Navy Staff, Headquarters and field activities employing civilians.

NOTIFICATION PROCEDURE:

Request should be by correspondence addressed to the SYSMANAGER. The letter should contain the full name, date

and place of birth, and social security number of the requestar and his signature. Official mailing addresses are provided in the Department of the Navy Directory, published in the Federal Register. The employee may visit the Security Manger's Office of the activity at which she or he is employed.

RECORD ACCESS PROCEDURES:

The agency's rules for access may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from SYSMANAGER.

RECORD SOURCE CATEGORIES:

Investigation results and information provided by appropriate investigative agencies and the Naval Civilian Personnel Command.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1), (2), and (5) as applicable. For additional information contact the System Manager.

N05520-4

SYSTEM NAME:

NIS Investigative Files System

SYSTEM LOCATION:

Primary System-NIS Records Management Division Administration Department, NIS Headquarters, P.O. Box 16230, Suitland Md. 20746

Decentralized Segments - Naval Investigative Service Regional Offices (NISROs) retain copies of certain segments of the investigative files, and related documentation for up to one year. Addresses of these offices are included in the directory of Department of the Navy mailing addresses. Naval Investigative Service Resident Agencies retain copies of investigative reports during pendency and for 90 days thereafter. They also retain evidence custody cards on persons from whom evidence was seized. The number and location of these Resident Agencies are subject to change in order to meet the requirements of the Department of the Navy. Current location may be obtained from Naval Investigative Service Headquarters.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Persons in the following categories who require access to classified defense information prior to August 1972: Active and inactive members of the naval service, civilian personnel employed by the Department of the Navy (DON), industrial and contractor personnel, civilian personnel being considered for sensitive positions, boards, conferences, etc., civilian personnel who worked or resided overseas, Red Cross personnel. Civilian and military personnel accused, suspected or victims of felonious type offenses, or lesser offenses impacting on the good order, discipline, morale or security of the DON. Civilian personnel seeking access to or seeking to conduct or operate any business or other function aboard a DON installation, facility or ship. Civilian or military personnel involved in the loss, compromise or unauthorized disclosure of classified material/information. Civilian and military personnel who were of counterintelligence interest to the DON.

CATEGORIES OF RECORDS IN THE SYSTEM:

Categories of records in the system: Official Reports of Investigation (ROI) prepared by NIS or other federal, state, local or foreign law enforcement or investigative body on either hard copy or microfilm. NIS operations reports (NORs) and their predecessor NIS information reports (NIRs). NORs and NIRs document information received by NIS which is of interest to the naval services or other law enforcement or investigative bodies. The information may be of criminal, counterintelligence or general investigative interest.

General Administration Reports (GEN). Although no longer used as such, the Inve tigative Purpose of the GEN was to report the results of pre-employment inquiries on applicants for positions as special agents with NIS. The official ROI (above) is now used for this purpose.

Action, Lead Sheets (ALS's), investigative summaries, memoranda for the files and correspondence relating to specific cases and contained in the individual dossier.

Polygraph Data. A listing of persons who submitted to polygraph examination by NIS examiners. The data includes the examinee's name, location and results of the examination and the identity of the examiner.

Case Control and Management documents which serve as the basis for controlling and guiding the investigative activity.

Records identifying confidential sources and contacts with them.

Index to persons reported by 'Name Only'.

Wiretap Data Records. Automated listing of persons who were subjects of wiretapping or eavesdropping operations.

Case Control and Narcotics Data Records. Automated records used only for statistical purposes in accounting for productivity, manhours expenditures; various statistical data concerning narcotics usage and used solely for statistical purposes.

Modus Operandi Files.

Screening Board Reports. These reports set forth the results of oral examination of applicants for a position as a Special Agent with the NIS.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301
44 U.S.C. 3101
47 U.S.C. 605
Executive Memorandum of 26 June 1939; Investigations of espionage, counteresplonage and sabotage matters.

Executive Order 12036; United States Intelligence Activities; SECNAVINST 5520.3, criminal and security investigations and related activities within the Dept of the Navy; DOD Dir 5210.6, policy on investigation and clearance of DOD Personnel for access to defense information; DOD Dir 5200.26, defense investigative program; DOD Dir 5200.27, acquisition of information concerning persons and organizations not affiliated with the Dept of Defense; and DOD Dir 5200.24, telephone interception and eavesdropping, and SECNAVINST 3820.2D, investigative and counterintelligence collection and retention guidelines pertaining to the DON.

PURPOSE(S):

The information in this system is (was) collected to meet the investigative, counterintelligence and security responsibilites of the DON. This includes personnel security, internal security, criminal and other law enforcement matters all of which are essential to the effective operation of the department.

The records in this system are used to make determinations of; suitability for access or continued access to classified information, suitability for employment or assignment, suitability for access to military installations or industrial firms engaged in government projects/contracts, suitability for awards or similar benefits; use in current law enforcement investigation of any type including applicants; use in judicial or adjudicative proceedings including litigation or in accordance with a court order; insurance claims including workmens compensation; provide protective services under the DOD Distinguished Visitor Protection

Program and to assist the U.S. Secret Service in meeting its responsibilities; used for public affairs or publicity purposes such as wanted persons, etc.; referral of matters under their cognizance to federal, state or local law enforcement authorities including criminal prosecution, civil court action or regulatory order; advising higher authorities and naval commands of the important developments impacting on security, good order or discipline; reporting of statistical data to naval commands and higher authority; input into the Defense Central Index of Investigations.

Users of the records in this system include employees of the NIS who require access for operational, administrative or supervisory purposes; DOD criminal investigative, investigative and intelligence units; DOD components making suitability determinations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To law enforcement or investigatory authorities for law enforcement purposes.

To federal intelligence/counterintelligence agencies of matters under their purview.

To foreign government organizations of criminal and counterintelligence information necessary for the prosecution of justice, or for mutual security and protection.

To other investigative units (federal, state or local) for whom the investigation was conducted, or who are engaged in criminal investigative and intelligence activities; federal regulatory agencies with investigative units.

To defense counsel in the course of acquiring information.

To officials and employees of the National Archives for historical purposes.

To commercial insurance companies in those instances in which they have a legitimate interest in the results of the investigation, but only to that extent and provided an unwarranted invasion of privacy is not involved.

To victims of crimes to the extent necessary to pursue civil and criminal remedies.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, on cards and on microfilm. Automated records on magnetic tape.

RETRIEVABILITY:

NIS permanent files are filed by terminal digit number. In order to locate the file it is necessary to query the Defense Central Index of Investigations (DCII) computer using the name of the subject and at least one other personnel identifier such as date of birth, place of birth, social security number or military service number. Files may also be retrieved by a case control number assigned at the time the investigation is initiated. Copies of the files in the NISROs and Resident Agencies are retrieved by name.

SAFEGUARDS:

NIS investigative files (permanent and temporary) are maintained and stored in open shelves and filing cabinets located in secured areas accessible only to authorized personnel. Dated files are retired to the Washington National Records Center where retrieval is restricted to NIS authorized personnel.

RETENTION AND DISPOSAL:

Retention of completed NIS Investigative files on Personnel Security Investigations (PSI's) is authorized for 15 years unless adverse information is developed, in which case they may be retained for 25 years. PSI files on persons considered for affiliation with DOD will be destroyed within one year if the affiliation is not consummated. Special Agent applicant records are retained for one year if the applicant declines offer of employment and five years if the applicant is rejected for employment. Criminal files are retained for 25 years. Major investigations of a counterintelligence/security nature, of espionage or sabotage, may be retained permanently. Certain of the above records, when found to have possible historical value, may be offered to the National Archives for continued retention. Counterintelligence records on persons not affiliated with DOD must be destroyed within 90 days or one year under criteria set forth in DOD Directive 5200.27, unless retention is required by law or specifically approved by the Secretary of the Navy. Files retained in the NISO's and resident agencies are temporary and are destroyed after 90 days or one year, as appropriate.

SYSTEM MANAGER(S) AND ADDRESS:

The Director, Naval Investigative Service has ultimate responsibility for all NIS file holdings. Management of NIS permanent files is the direct responsibility of the Head Administration Department. NISRO Commanding Officers are responsible for files retained in their NISRO subordinate Resident Agencies.

NOTIFICATION PROCEDURE:

All requests relative to the retention and/or releasability of NIS investigative files should be addressed to the Director, Naval Investigative Service, P.O. Box 16230, Suitland, Md. 20764. Requests must contain the full name of the individual and at least one additional personal identifier such as date and place of birth, social security number or military service number. Personal visits by requesters should be confined to the Naval Investigative Service headquarters at the above address. It should be borne in mind that the vagaries of the automated indexing system might preclude a same day response. Persons submitting written requests must properly establish their identity to the satisfaction of the NIS. Where a question exists a signed, notarized statement or other certified form of identification will be required. Individuals appearing in person may present proof of identification in the form of military ID card, valid driver's license, or other suitable form of identification bearing a photograph and signature. Attorneys or other persons acting on behalf of a subject of a record must provide a notarized authorization from the subject of the record.

RECORD ACCESS PROCEDURES:

Individuals may make inquiries relative to NIS records maintained on them thru the NIS Information and Privacy Coordinator Naval Investigative Service Headquarters, at the address specified in the previous paragraph.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

See EXEMPTION.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552 a (j)(2) and (k)(1), (k)(3), (k)(4), (k)(5), and (k)(6) as applicable. For additional information, contact the System Manager.

N05521-1

SYSTEM NAME:

Access control system

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals considered or seeking consideration for access to space under the control of the Department of the Navy and any visitor (military, civilian, contractor) requiring access to a naval base/activity or contractor facility.

CATEGORIES OF RECORDS IN THE SYSTEM:

Visit requests for permission to transact commercial business, visitor clearance data for individuals to visit a naval base/activity/contractor facility; barring lists and letters of exclusion, and badge/pass issuance records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations and E.O. 9397.

PURPOSE(S):

To maintain all aspects of proper access control, to replace lost badges, to retrieve passes upon separation, to maintain visitor statistics and background information.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To designated contractors when Navy member is visiting that contractor's facility.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

RETRIEVABILITY:

Name, SSN, Case number, organization.

SAFEGUARDS:

Access provided on a need to know basis only. Locked and/or guarded office.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concerned, other records of the activity, investigators, witnesses, correspondents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05521-2

SYSTEM NAME:

Commonwealth Pass Application Form

SYSTEM LOCATION:

U.S. Naval Communciation Station FPO San Francisco 96680

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All personnel requiring access to the Commonwealth property on which the Naval Communication Station is located.

CATEGORIES OF RECORDS IN THE SYSTEM:

Completed application forms for Commonwealth passes. Contains name, rank, organization, height, color of hair, color of eyes, date of birth and place of birth.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Arrangements for the use and occupation by the United States Navy of Commonwealth land and for associated matters.

PURPOSE(S):

To issue passes for entry to Naval Communication Station.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Name.

SAFEGUARDS:

Locked cabinet - limited access.

RETENTION AND DISPOSAL:

Duration of individual's stay in area. Destruction by burning.

SYSTEM MANAGER(S) AND ADDRESS:

Security Officer, U.S. Naval Communication Station.

NOTIFICATION PROCEDURE:

Individual initiates record and may request information. Security Officer, U.S. Naval Communicaton Station, information requester must provide: full name, official title, purpose of inquiry. Office to be visited: Security Office, U.S. Naval Communication Station. Proof of identity: visual recognition or identification card.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information supplied by individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05527-1

SYSTEM NAME:

Security Incident System

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals involved in or witnessing incidents requiring the attention of base, station, or activity security personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Incident/complaint report, investigator's report, military magistrate's records, confinement

records, traffic accident and violation records, traffic court file, citations to appear before U. S. Magistrate.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

Used by command legal personnel for prosecution of military offenses and other administrative actions; support of insurance claims and civil litigation, revocation of base, station, or activity driving privileges.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Federal Bureau of Investigation for further criminal investigations or court actions.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

RETRIEVABILITY:

Name, SSN, Case number, organization.

SAFEGUARDS:

Access provided on a need to know basis only. Locked and/or guarded office.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Individual concerned, other records of the activity, investigators, witnesses, correspondents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (j)(2) as applicable. For additional information contact the System Manager.

N05527-2

SYSTEM NAME:

Security inspection and violation system

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals involved in security violations.

CATEGORIES OF RECORDS IN THE SYSTEM:

Security violation reports, security inspection reports.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To identify problem areas in security indoctrination, to alert command management officials to areas which present larger than normal security problems and identify personnel who are cited as responsible for non-compliance with procedures.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

N05527-4

SYSTEM NAME:

Naval Security Group Personnel Security/Access Files

SYSTEM LOCATION:

The central record system is located at:
Commander, Naval Security Group Command
3801 Nebraska Ave., N.W.,
Washington, D.C. 20390

Duplicates of portions of records may be held by other Naval and Marine Corps activities served by a Naval Security Group Special Security Officer. Records pertaining to Naval and Marine Corps military personnel who were considered but not selected for assignment to the Naval Security Group while undergoing recruit training are located at one of the following locations:

Resident in Charge
Naval Security Group Field Office
Marine Corp Recruit Depot
Parris Island, South Carolina 29905

Resident in Charge
Naval Security Group Field Office
Naval Administrative Command
Naval Training Center,
Great Lakes, Illinois 60088

Resident in Charge
Naval Security Group Field Office
Naval Training Center
San Diego, California 92133

Resident in Charge
Naval Security Group Field Office
Naval Training Center
Orlando, Florida 32813

Resident in Charge
Naval Security Group Field Office
Naval Technical Training Center, Corry Station
Pensacola, Florida 32511

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Naval and Marine Corps military and civilian personnel assigned to or employed by the Naval Security Group, including the Reserve components thereof, or who have been considered for such assignment or employment.

CATEGORIES OF RECORDS IN THE SYSTEM:

The file may contain personal history information, investigative reports, security suitability reports, incident reports, and other data pertinent to determination of eligibility for access to Sensitive Compartmented Information (SCI), including the decisions made in each case. The file also contains records of authorized access to classified information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

E.O. 10450 Eisenhower Security Program
E.O. 12356 National Security Information

PURPOSE(S):

Information is collected and used by SCI security personnel for the purposes of determining the individual's eligibility for access to SCI information, of maintaining a record of the degree(s) to which access to SCI has been authorized, and of determining the extent, if any, to which controls must be exercised to prevent the compromise of SCI through hostile foreign intelligence activity.

Information may be released to officials and employees of the Defense Intelligence Agency, Army Security Agency, Air Force Security Service, and the Defense Industrial Security Clearance Office to determine the individual's eligibility for access to classified information under the user Agency's cognizance.

Information may be disseminated to the Defense Investigative Service and the Naval Investigative Service to conduct investigations on which to base SCI eligibility decisions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the National Security Agency, Central Intelligence Agency, and White House Communications Agency for the purpose of determining the individual's eligibility for access to classified information under the user agency's cognizance.

To the Central Intelligence Agency to maintain an index of personnel who have been granted access to certain sensitive intelligence programs.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, microfilm, and magnetic tape.

RETRIEVABILITY:

By name and SSN.

SAFEGUARDS:

Approved security areas with alarms and guards. Access is limited to assigned personnel who have been found eligible for access to SCI and received specific instruction in the handling, security, and dissemination policy of information in the files.

RETENTION AND DISPOSAL:

Central record system retained for thirty years after last action. Records held at Naval Security Group Field Offices forwarded to central system after two years. Records retained in central record system and destroyed by burning, shredding, degaussing or chemical destruction at end of retention period.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Security Group Command 3801 Nebraska Ave., N.W. Washington, D.C. 20390

NOTIFICATION PROCEDURE:

a. Send request to SYSMANAGER

b. Full name, date and place of birth, military status, social security number (if voluntarily included) or service number.

c. Visits for the purpose of obtaining information must be submitted in writing to Commander, Naval Security Group Command, 3801 Nebraska Ave., N.W., Washington, D.C. 20390 who will advise of time/date/place for viewing records or will advise whether system contains records pertaining to the requester.

d. Scheduled visitors must be prepared to present adequate proof of identification-i.e.-combination of full name, date and place of birth, parent(s) name, drivers license, medicare card, military identification card if applicable.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

In addition to information furnished by the individual himself, files contain information furnished by federal investigative agencies, other SCI security organizations, and reports submitted by Naval Security Group Special Security Officer. Files also include administrative correspondence among associated personnel and security offices of the executive branch.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1) through (5), as applicable. For additional information contact the System Manager.

N05527-5

SYSTEM NAME:

Navy Central Clearance Group (NCCG) Records

SYSTEM LOCATION:

Naval Civilian Personnel Command, (Code 23), Department of the Navy, 800 N. Quincy St., Arlington, VA. 22302.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Incumbent and former civilian employees in and applicants for sensitive and nonsensitive postions at Department of the Navy appropriated fund activities.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records are comprised of (1) reports and other investigative material and information developed by investigations conducted by Federal investigative agencies pursuant to statute and executive order; (2) reports of arrest, criminal activity and their disposition, (3) results of the review of the reports by the NCCG, including the security or suitability determination made on the case; (4) copies of correspondence regarding the case and/or reflecting the determination made by the NCCG; and (5) an index file card on each case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

(1) Executive Order 10450 (as amended), 'Security Requirements for Government Employment'. (2) 5 USC 7532, 'Suspension and Removal'.

PURPOSE(S):

The records are maintained to meet the statutory requirements of 5 USC 7532 and E.O. 10450 which require the establishment and maintenance of an effective program to insure that the employment and retention in employment of any civilian officer or employee within the Department is clearly consistent with the interest of the national security and which require adjudication and readjudication of the information as appropriate, and to have the material furnished by the Office of Personnel Management, readily available for return to the OPM upon request. Upon receipt of investigative reports and security information on civilian employees and applicants, the NCCG reviews the material. The Naval Civilian Personnel Command, Personnel Security Branch then transmits the material to the employing activity with a letter or stamped endorsement apprising the command of the security determination made by the NCCG. During the period that the reports and documents are at an activity, the material is under the custody of the activity's Security Manager. Following the review of the material by the activity's commanding officer or his/her designee, the material is returned to the source from which received, if required; retained until the employee is separated, or destroyed if it is of no further value. If the employing activity determines that an adverse action against the employee is warranted based on information in the report, appropriate action in accordance with Office of Personnel Management suitability procedures is initiated by the activity. In some cases the NCCG will make a suitability determination. Other users of the records may include members of Security Hearing Boards and officials and employees of the Department of the Navy in performance of their official duties related to the Department of the Navy Civilian Personnel Security Program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored in file folders and on file cards

RETRIEVABILITY:

Name (last, first, middle) and date of birth.

SAFEGUARDS:

Records maintained in GSA approved security containers accessible only to authority employees of NCPC Security Branch who are properly screened and trained and who have proper security clearance.

RETENTION AND DISPOSAL:

Records with the exception of the index file card are retained in active file until end of third calendar year following last entry and then retired to the National Personnel Records Center, Suitland, Md. Index cards are retained in active file until destroyed. Records are destroyed in accordance with DOD NCI-330-76-1 of 3 May 1976.

SYSTEM MANAGER(S) AND ADDRESS:

The Director, Naval Civilian Personnel Command (NCPC), 800 N. Quincy St., Arlington, VA. 22203.

NOTIFICATION PROCEDURE:

Written requests should be addressed to the Director, Naval Civilian Personnel Command, (Code 23), Department of the Navy, 800 N Quincy St, Arlington, VA 22203. The letter should contain the full name, date and place of birth, and social security number of the requester and his signature.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from SYSMANAGER.

RECORD SOURCE CATEGORIES:

Investigation results and information provided by appropriate investigative agencies of the Federal Government.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (k)(1) and (5), as

applicable. For additional information contact the System Manager.

N05760-1

SYSTEM NAME:

Biographical and Service Record Sketches of Chaplains

SYSTEM LOCATION:

Office of the Chief of Chaplains, Department of the Navy, Washington, DC 20370

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy chaplains who have served on extended active duty at some time during the period 1778-1961 inclusive, and any future editions. It lists the names, years in which they were commissioned, and the ecclesiastical affiliations of all who held chaplaincy commissions during the period.

CATEGORIES OF RECORDS IN THE SYSTEM:

Biographical and professional summary which includes individual's full name, denomination of faith group, date and place of birth, education, ordination, date of marriage and name of spouse, first names of children, prior professional experience, authorship, prior military service (including date of commission, date of rank at commissioning, ships/stations, places and dates; and period spent, if any, in Inactive Reserve), date of augmentation (if applicable), promotion history, awards and decorations, conclusion of active duty (date of resignation, release from active duty, or retirement as applicable), post active duty career (retirees only), and distinctions which have made the chaplains career interesting or unusually significant (corroborative material suggested).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

40 U.S.C. 5031.

PURPOSE(S):

To provide background data in response to news media requests; to provide information on individual chaplains prior to public appearances in which they are scheduled to appear; to provide internal release of information as required.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in bound and published volumes. Source materials are in paper files.

RETRIEVABILITY:

Data is indexed alphabetically by individual names and made available upon written request.

SAFEGUARDS:

Files are locked after official working hours.

RETENTION AND DISPOSAL:

Forms and documents are destroyed after five years from the date of publication. The volumes are kept indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Chaplain Corps Historian, Office of the Chief of Chaplains, Department of the Navy, Washington, DC 20370.

NOTIFICATION PROCEDURE:

Information should be obtained from the system manager or authorized representative upon written request signed by the listed individual. The full name of the individual should be given. Individuals making inquiry in person must present personal identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from returned questionnaires addressed to individual chaplains, supplemented by Officer Data Cards and historical research.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

File cabinets

RETRIEVABILITY:

Case citation, name of individual

SAFEGUARDS:

Locked in executive spaces

RETENTION AND DISPOSAL:

Most are retained permanently, others disposed of in accordance with Defense Disposal Manual

SYSTEM MANAGER(S) AND ADDRESS:

Associate General Counsel (Litigation), Washington DC 20360.

NOTIFICATION PROCEDURE:

Direct inquiry to SYSMANAGER, providing name, rank/rate/shop or badge number and social security number

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the system manager

RECORD SOURCE CATEGORIES:

Court records, personal interviews and statements, departmental records, State and Federal records, police reports and complaints, general correspondence

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this system may be exempt under 5 U.S.C. 552a (j) or (k), as applicable. For additional information contact the System Manager.

N05800-2

SYSTEM NAME:

Legal Records System

SYSTEM LOCATION:

Commanding Officer
Naval Regional Medical Center
San Diego, CA 92134

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients, visitors, staff and employees of Naval Regional Medical Center, San Diego, CA 92134.

CATEGORIES OF RECORDS IN THE SYSTEM:

Incident reports and in-house investigations; records of Commanding Officer's Nonjudicial Punishment and appeals thereof; files of litigation and potential litigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Departmental Regulations; Federal Tort Claims Act; Medical Care Recovery Act; Article 15, UCMJ.

PURPOSE(S):

Some are protected by attorney-client relationship, and thus are not released without consent of client or used in any way other than original purpose. Incident reports used for internal administration of Medical Center (to correct errors and improve procedures) and to notify attorney of incidents having a potential for legal action. In-house investigations used to prepare for litigation. Records of NJP used in administering Article 15, UCMJ, punishment and for referral to Military Personnel System (for performance evaluation, administrative separation, etc.).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, forms, letters.

RETRIEVABILITY:

Name.

SAFEGUARDS:

Available to staff of Staff Judge Advocate (three persons) on a 'need to know' basis only. Otherwise, maintained in locked cabinets and/or in locked rooms.

RETENTION AND DISPOSAL:

Retained as required; destroyed or moved to National Personnel Records Center, St. Louis, MO, as directed by Department Regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Staff Judge Advocate
Naval Regional Medical Center
San Diego, CA 92134

NOTIFICATION PROCEDURE:

Individuals can determine whether the system contains records pertaining to them by writing or visiting the System Manager and supplying full name, SSN, military status, approximate date of contact with system (if known).

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Investigative reports (as from JAG Manual investigations, Office of Naval Intelligence reports, Security System, etc.), Military Personnel System, medical records, personal interviews, personal observation, reported by persons witnessing or knowing of incidents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05801-1

SYSTEM NAME:

Legal Services Management Information System

SYSTEM LOCATION:

Typically maintained at Naval Legal Service Offices, the Naval Legal Service Branch Offices, and any command with a legal assistance office.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Servicemembers who are pending courts-martial. Authorized military and civilian personnel and dependents who have sought legal assistance, advice or counseling or other representational services from Naval Legal Service Offices or Detachments and any command with a legal assistance office.

CATEGORIES OF RECORDS IN THE SYSTEM:

(1) Legal Assistance Card Files. Legal assistance card files typically contain client identification information, e.g., name, address, duty station, telephone numbers, etc., client description of legal problem, attorney classification of problem, and attorney time expended.
(2) Case Analysis and Tracking System (CATS): CATS records contain identification information about the individual being courts-martialed such as name; rank/rate; service number; organizational information, such as Convening Authority and Supervisory Authority; information relevant to internal management of the Legal Service Office, such as dates of receipt, docketing, trial, and transcript completion; identities of counsel and military judge; information on the charges alleged, charges of which convicted, if any, sentence adjudged; and other information describing overall case management and processing.
(3) Legal Assistance and Personal Representation Client Records: File contains ID information about the individual seeking legal advice such as name, address, duty station, telephone number, type of assistance requested, results of any hearing involved, and attorney time expended.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; Manual of the Judge Advocate General; 44 U.S.C. 3101

PURPOSE(S):

Attorneys and clerical personnel directly involved in processing courts-martials, and rendering legal assistance and advice within the Naval Legal Service Offices and Detachments and legal assistance offices established within the Department of the Navy. Data will be used for the internal management of the Naval Legal Service Offices and legal assistance offices such as court scheduling and counsel assignment information, and generating monthly workload productivity and statistical reports.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Pre-printed cards stored in file cabinets; case files are stored on magnetic disk. Reports extracted from this data may be stored temporarily in paper files.

RETRIEVABILITY:

Card files maintained by the legal assistance offices are retrieved by name of client. Case files maintained by the Naval Legal Service Offices are retrieved by an internal case number and secondarily, by name of individual.

SAFEGUARDS:

Manual records/cards are maintained in file cabinets or other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside of official working hours.

Data disks are secured in areas accessible only by authorized personnel. Additionally, data disks are unreadable without the program disks, as an added security precaution.

RETENTION AND DISPOSAL:

Records are retained for two years after completion of the case, then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall Street, Alexandria, Virginia 22332, for legal assistance card files.

Deputy Assistant Commander, Naval Legal Service Command (Management and Plans), 200 Stovall Street, Alexandria, Virginia 22332, for case files.

NOTIFICATION PROCEDURE:

Information may be obtained by written request which adequately identifies the system of records and the individual about whom the record is kept (i.e. full name, etc.); the written request must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the system manager. Written requests for access should contain the full name of the individual, current address and telephone number, and the serial code of any prior correspondence received from this office pertaining to the request. For personal visits, the individual should be able to provide some acceptable identification, e.g., driver's license, etc., and give some verbal information that could be verified in the file.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Basic information contained in the card files is provided by the client. Basic information contained in the courts-martial files is provided by the Convening Authority for the courts-martial, the attorneys and military judge assigned to the case, and administrative personnel assigned to the Naval Legal Service Office. Information regarding the ultimate disposition of the matter is provided by the attorney rendering the service.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05802-1

SYSTEM NAME:

Fiduciary Affairs Records

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 12), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All active duty, fleet reserve, and retired members of the Navy and Marine Corps who have been medically determined to be mentally incapable of managing their financial affairs, their appointed or prospective trustees, and members' next-of-kin.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains proceedings of medical boards, documentation indicating the origin of the mental incapability, the name(s) and address(es) of the individual's next-of-kin, the disability retirement index, a copy of the interview(s) of prospective trustee(s), the appointment of the approved trustee, authority to pay the individual's retirement pay to the approved trustee, the instructions of duties and responsibilities to the trustee, annual trustee accounting reports, copy of the trustee's surety bond, a copy of the affidavit executed by the trustee to obtain the surety bond, miscellaneous correspondence relating to the trustee's duties and responsibilities, annual approvals of the trustee account, discharge(s) of trustee, release(s) of surety, periodic physical examinations, medical records, and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 37 U.S.C. 601-604; 44 U.S.C. 3101

PURPOSE(S):

To provide non-judicial financial management of military pay and allowances payable to active duty, fleet reserve, and retired Navy and Marine Corps members for the period during which they are medically determined to be mentally incapable of managing their financial affairs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Justice when there is reason to suspect financial mismanagement and no satisfactory settlement with the surety can be reached.

To officials and employees of the Veterans Administration in connection with programs administered by that agency.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Papers records in file folders stored in file cabinets or other storage devices.

RETRIEVABILITY:

By name of the member or by name of the trustee.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Indefinitely; however, after the death of a member, his/her files are typically transferred to the Federal Records Center, Suitland, Maryland, 20409.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law) Office of the Judge Advocate General Department of the Navy 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained by written request which adequately identifies the system of records and the individual about whom the record is kept (i.e., full name); written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Components within the Department of the Navy, medical doctors, approved trustees, prospective trustees, surety companies, and Veterans Administration.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05810-1

SYSTEM NAME:

Article 138 Complaint of Wrongs

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 13), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332. Complaints, three years old or older, are stored at the Federal Records Center, Suitland, Maryland 20409.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty Navy and Marine Corps personnel who have submitted complaints of wrong pursuant to Article 138, UCMJ, which have been forwarded to the Secretary of the Navy for final review of the complaint and the proceedings had thereon.

CATEGORIES OF RECORDS IN THE SYSTEM:

The complaint and all proceedings had thereon.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Article 138, Uniform Code of Military Justice, (10 U.S.C. 938).

PURPOSE(S):

Used by JAG as a working file to review and make recommendations to the Secretary of the Navy on Article 138 complaints.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Files are kept in alphabetical order according to last name of the individual concerned.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under control of authorized personnel during working hours; the office spaces in which the file cabinets and storage devices are located is locked outside office working hours.

RETENTION AND DISPOSAL:

Complaints are maintained in office for three years and then forwarded to the Federal Records Center, Suitland, Maryland 20409 for storage.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the Deputy Assistant Judge Advocate General (Administrative Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332. Information may be obtained by written request to the Judge Advocate General stating full name and the approximate date the complaint was submitted for review if known. Written requests must be signed by the requesting individual. Personal visits may be made to the Administrative Law Division, Office of the Judge Advocate General, Room 9N03, Hoffman Bldg II, 200 Stovall St, Alexandria, Va. 22332. Individuals making such visits should be able to provide some acceptable identification, e.g. armed forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

The records are comprised of the following source materials: (1) complaint of wrongs; (2) results of examination into complaint of wrongs by the general court-martial authority; and (3) final review action by the Secretary of the Navy.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05810-2

SYSTEM NAME:

Military Justice Correspondence File

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 20), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty, retired, and discharged Navy and Marine Corps personnel who were the subject of military justice proceedings.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains copy of incoming correspondence, all background material necessary to answer the correspondence and copies of letters replying to the correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To provide a record of individual inquiries and JAG responses concerning military justice related matters for reference purposes.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Correspondence is kept in alphabetical order according to the last name of the individual who is the subject of the correspondence.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are maintained in office for two years and then forwarded to the Federal Records Center, Suitland, Maryland 20409 for storage.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Military Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the Deputy Assistant Judge Advocate General (military justice), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332. Information may be obtained by written request to the Judge Advocate General stating full name of the individual concerned. Written requests must be signed by the requesting individual. Personal visits may be made to the Military Justice Division, Office of the Judge Advocate General, Room 9S00, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332. Individuals making such visits should be able to provide some acceptable identification, e.g. Armed Forces' identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Records of trial and correspondence from commands and agencies involved in the matter which is the subject of the correspondence.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE.

N05810-3

SYSTEM NAME:

Appellate Case Tracking System (ACTS)

SYSTEM LOCATION:

Office of the Judge Advocate General, Department of the Navy, 200 Stovall Street, Alexandria, Virginia 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have their appellate case reviewed by the Navy-Marine Corps Court of Military Review and/or the Court of Military Appeals.

CATEGORIES OF RECORDS IN THE SYSTEM:

Naval appellate case records; additional Navy appellate case information records; and historical Navy appellate case records. Files contain personal information such as name, rank, social security number, etc., and specific information with regard to the Navy appellate cases.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 866, 867, and 5031.

PURPOSE(S):

To track the status of courts martial cases appealed to the Navy Marine Court of Military Review and Court of Military Appeals. The system will also be used by the officials and employees of the Department of the Navy to provide management and statistical information to governmental, public, and private organizations and individuals.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk, magnetic tape, and on hard copy forms.

RETRIEVABILITY:

ACTS users obtain information by means of a query or a request for a standard report. Data may be indexed by any data item although the primary search keys are the name, social security number of Navy-Marine Corps Court of Military Review docket number.

SAFEGUARDS:

Access to building is protected by uniformed guards requiring positive identification for admission after hours. The system is protected by the following software features: user account number and password sign-on, data base access authority, data set authority for add and delete, and data item authority for list and update.

RETENTION AND DISPOSAL:

An individual's record is retained on disk and will be available for on-line access for twenty-five years after the close of the individual's case. The record will be purged to magnetic tape after twenty-five years and will be utilized in a batch processing mode.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Claims Defense/ADP Programs, Office of the Judge Advocate General, Department of the Navy, 200 Stovall Street, Alexandria, Virginia 22332.

NOTIFICATION PROCEDURE:

Information should be obtained from the system manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual's record of trial and supporting documents.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N06813-1

SYSTEM NAME:

Ethics file.

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 20), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian and military lawyers authorized to practice before a court-martial or Navy Court of Military Review and who by their personal or professional conduct have demonstrated that they are so lacking in competency, integrity or ethical or moral character as to be unacceptable as counsel before a court-martial or Navy Court of Military Review.

CATEGORIES OF RECORDS IN THE SYSTEM:

Reports of investigation, correspondence, and court papers relating to the complaint brought against attorneys.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Manual of the Judge Advocate General, section 0142, and 5 USC 301.

PURPOSE(S):

To provide a record of individual lawyers who are not authorized to practice within the military justice system and to document ethics violations for future suspension/revocation of certification in order to protect the integrity of the judicial system.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Files are kept in alphabetical order according to the last name of the attorney concerned.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are maintained in office for two years and then forwarded to the Federal Records Center, Suitland, Maryland 20409 for storage.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the Deputy Assistant Judge Advocate General (Military Justice), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332. Information may be obtained by written request to the Judge Advocate General stating full name of the individual concerned. Written requests must be signed by the requesting individual. Personal visits may be made to the Military Justice Division, Office of the Judge Advocate General, Room 9S09, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332. Individuals making such visits should be able to provide some acceptable identification, e.g. Armed Forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Correspondence from military judges, staff judge advocates, judge advocates, and other military personnel; correspondence from the Judge Advocates General of other branches of the Armed Forces; investigative reports from Naval Investigative Service offices; correspondence and copies of court papers from civilian authorities.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

M05813-2

SYSTEM NAME:

Courts-Martial Case Report

SYSTEM LOCATION:

Chief, Navy-Marine Corps Trial Judiciary, Washington Navy Yard, Washington, D.C. 20374

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals having appeared before a special or general court-martial within the preceding two fiscal years.

CATEGORIES OF RECORDS IN THE SYSTEM:

The recording of the Article violation of the UCMJ, the plea, the finding, the sentence and other related information concerning the trial.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301, Departmental Regulations

PURPOSE(S):

To formulate status reports for the JAG.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Stored in file folders by circuit and fiscal year

RETRIEVABILITY:

By name or case number

SAFEGUARDS:

Personnel screening, visitor control

RETENTION AND DISPOSAL:

Two fiscal years. They are not moved to Record Centers but are disposed of after two fiscal years in the same manner as all other unclassified material, i.e., general destruction.

SYSTEM MANAGER(S) AND ADDRESS:

Circuit Military Judge
ATLANTIC Judicial Circuit
Navy-Marine Corps Trial Judiciary
Washington Navy Yard
Washington, D.C. 20374

NOTIFICATION PROCEDURE:

Write to address listed under SYSMANAGER. Provide full name, branch of service, military status, where stationed when tried, and when tried

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial

determinations by the individual concerned may be obtained from the system manager

RECORD SOURCE CATEGORIES:

Military Judge of respective individual's court-martial

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05813-3

SYSTEM NAME:

General Courts-Martial Records of Trial.

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 20), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty Navy and Marine Corps personnel tried by general court-martial.

CATEGORIES OF RECORDS IN THE SYSTEM:

General court-martial records of trial.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 865 and 5 USC 301.

PURPOSE(S):

To complete appellate review as required under 10 USC Section 869(a) and provide central repository accessible to the public who may request information concerning the appellate review or want copies of individual public records.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Files are kept by Navy court-martial number and each case is cross-referenced by an index card which is filed in alphabetical order according to the last name of the individual concerned.

SAFEGUARDS:

Files are maintained in file cabinets under the control of authorized personnel during working hours; the office space in which the file cabinets are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are maintained in office for three years and then forwarded to the Federal Records Center, Suitland, Maryland 20409 for storage.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Military Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained by written request which adequately identifies the system of records and the individual about whom the record is kept (i.e., full name and date of trial of individual concerned). The written request must be signed by the requesting individual. Personal visits may be made to the Military Justice Division, Office of the Judge Advocate General, Department of the Navy, Room 9S09, Hoffman Bldg, 200 Stovall St., Alexandria, Va. 22332. Individuals making such visits should be able to provide some acceptable identification, e.g., Armed Forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Proceedings by a general court-martial.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05814-1

SYSTEM NAME:

Summary courts-martial and non-bad conduct discharge courts-martial--Navy and Marine Corps

SYSTEM LOCATION:

Records are retained for two years after final action by appropriate officers having supervisory authority over shore activities. Records are retained for three months after final action by appropriate officers having supervisory authority over fleet activities, including Fleet Air Wings and Fleet Marine Forces. After the two years or three month retention period, as appropriate, the records are transferred to the National Personnel Records Center, GSA (Military Personnel Records), 9700 Page Boulevard, St. Louis, Missouri 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy and Marine Corps enlisted personnel tried by summary courtmartial or by special court-martial which did not result in a bad conduct discharge.

CATEGORIES OF RECORDS IN THE SYSTEM:

Summary court-martial and non-bad conduct discharge special court-martial records of trial.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 865, 5 U.S.C. 301, and Executive Order No. 11476 of June 19, 1969, as amended by Executive Order No. 11835 of January 27, 1975, paragraph 94b (manual for courts-martial, 1969 (rev.))

PURPOSE(S):

To complete appellate review as required under 10 U.S.C. Section 864(a) and provide central repository accessible to the public who may request information concerning the appellate review or want copies of individual public records.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Type of court-martial, date, command which convened the court-martial, name of individual defendant, and command which completed the supervisory authority's action.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are retained for two years after final action by officers having supervisory authority over shore activities, and for three months by officers having supervisory authority over fleet activities. At the termination of the appropriate retention period, records are forwarded for storage to the National Personnel Records Center, GSA (Military Personnel Records), 9700 Page Boulevard, St. Louis, Missouri 63132. Records are destroyed 15 years after final action has been taken.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Military Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332 and appropriate officers having supervisory authority over Naval activities.

NOTIFICATION PROCEDURE:

Information may be obtained from the Deputy Assistant Judge Advocate General (Military Justice), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332, by written request including the full name of the individual concerned, the type of court-martial (summary or special), the name of the command which held the court-martial, and the date of the court-martial proceedings. Written requests must be signed by the requesting individual. Personal visits may be made to the Military Justice Division, Office of the Judge Advocate General, Room 9S09, Hoffman Bldg II, 200 Stovall St., Alexandria, Va., 22332. Individuals making such visits should be able to provide some acceptable identification, e.g. armed forces identification cards, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Proceedings of summary courts-martial and special courts-martial which did not result in a bad conduct discharge.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05815-1

SYSTEM NAME:

Special courts-martial resulting in bad conduct discharges or concerning commissioned officers.

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 20), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy and Marine Corps personnel tried by special court-martial and awarded a bad conduct discharge, and all Navy and Marine Corps commissioned officers tried by special court-martial.

CATEGORIES OF RECORDS IN THE SYSTEM:

Special court-martial which resulted in a bad conduct discharge, or involving commissioned officers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 865, 5 U.S.C. 301 and Executive Order No. 11476 of June 19, 1969, as amended by Executive Order No. 11835 of January 27, 1975, paragraph 94b (manual for courts-martial, 1969 (rev.))

PURPOSE(S):

To complete appellate review as required under 10 U.S.C. Section 866(b) and provide central repository accessible to the public who may request information concerning the appellate review or want copies of individual public records.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Files are kept by Navy court-martial number and each case is cross-referenced by an index card which is filed in alphabetical order according to the last name of the individual concerned.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are maintained in office for three years and then forwarded to the Federal Records Center, Suitland, Maryland 20409 for storage.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Military Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St, Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the Deputy Assistant Judge Advocate General (Military Justice), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332, by written request stating full name, and date of trial of the individual concerned. Written requests must be signed by the requesting individual. Personal visits may be made to the Military Justice Division, Office of the Judge Advocate General, Room 9S09, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332. Individuals making such visits should be able to provide some acceptable identification, e.g. armed forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Special court-martial proceedings.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE.

N05817-1

SYSTEM NAME:

Courts-Martial Statistics.

SYSTEM LOCATION:

Magnetic tape held at Naval Command Systems Support Activity, Production Code 60.1, room 4002, building 196, Washington Navy Yard, Washington, D.C. 20360. Source document (NAVJAG 5813/1) held in Information and Reports Section, Office

of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy and Marine Corps personnel tried by general courts-martial and by special courts-martial when the special court-martial sentence as finally approved includes a punitive discharge.

CATEGORIES OF RECORDS IN THE SYSTEM:

Court-martial information on special courts-martial if sentence as finally approved includes a punitive discharge and all general courts-martial including name, social security number, pleas, convening authority action, supervisory authority action, and Court of Military Review action. Information available from 1970 to present only.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To collect statistical data on general and bad conduct discharge special courts-martials.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To governmental, public and private organizations and individuals, as required.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape and source documents (NAVJAG 5813/1) if file folders.

RETRIEVABILITY:

Name and social security number or Navy court-martial number.

SAFEGUARDS:

Tapes stored in secret vault. Without project code number, tape can neither be read nor added to. Only person who has code number is Project Code Officer. Source documents are filed in file cabinets which are located in an office which is under observation during working hours and is locked at night. The office is located in a secure building which is surrounded by a guarded fence. The building is guarded 24 hours a day, and admission is allowed only to personnel on official business and authorized visitors.

RETENTION AND DISPOSAL:

Indefinite.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Military Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St, Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the Deputy Assistant Judge Advocate General (Military Justice), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332. Information may be obtained by written request to the Judge Advocate General stating full name, date of trial (if known), date of discharge and type of discharge of the individual concerned. Written requests must be signed by the requesting individual. Personal visits may be made to: The Military Justice Division, Office of the Judge Advocate General, Room 9S09, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332. Individuals must be able to provide some acceptable identification, e.g. Armed Forces identification card, driver's license, etc.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

N05819-3

SYSTEM NAME:

Naval Clemency and Parole Board files

SYSTEM LOCATION:

Naval Clemency and Parole Board, Ballston Tower 2, 801 North Randolph Street, Arlington, Va. 22203

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Members or former members of the Navy or Marine Corps whose cases have been or are being considered by the Naval Clemency and Parole Board.

CATEGORIES OF RECORDS IN THE SYSTEM:

The file contains individual applications for clemency or parole, reports and recommendations thereon indicating progress in confinement or while awaiting completion of appellate review if not confined, or on parole; correspondence between the individual or his counsel and the Naval Clemency and Parole Board or other Navy offices; other correspondence concerning the case; the court-martial order and staff Judge Advocate's review; and a summarized record of the proceedings of the Board.

BEST COPY AVAILABLE

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 874(a), 952-954

PURPOSE(S):

The file is used in conjunction with periodic review of the member's or former member's case to determine whether or not clemency or parole is warranted. The file is referred to in answering inquiries from the member or former member or their counsel. The file is referred to by the Naval Discharge Review Board and the Board for Correction of Naval Records in conjunction with their subsequent review of applications from members or former members. The file is also used by counsel in connection with representation of members or former members before the Naval Clemency and Parole Board.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Folders are filed by name and social security number or service number.

SAFEGUARDS:

Files are kept within the Naval Clemency and Parole Board administrative office. Access during business hours is controlled by Board personnel. The office is locked at the close of business; the building in which the office is located employs security guards.

RETENTION AND DISPOSAL:

Files are permanent. They are retained in the Naval Clemency and Parole Board's administrative office until all portions of the sentence have been completed and the discharge has been executed. After that the folders are sent to Washington National Records Center, 4205 Suitland Road, Suitland, MD. 20409

SYSTEM MANAGER(S) AND ADDRESS:

Director, Naval Council of Personnel Boards, Department of the Navy, 801 North Randolph Street, Arlington, Va. 22203

NOTIFICATION PROCEDURE:

Information may be obtained from the Naval Clemency and Parole Board, Room 905, Ballston Tower 2, 801 North Randolph Street, Arlington Va. 22203.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information contained in the file is obtained from the member or former member or from those acting in their behalf, from confinement facilities, from military commands and offices, from personnel service records and medical records, and from civilian law enforcement agencies or individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Portions of this system may be exempt under 5 U.S.C. 552a (j)(2) as applicable. For additional information contact the system manager.

N05820-1

SYSTEM NAME:

International Legal Hold Files

SYSTEM LOCATION:

U.S. Naval Legal Offices in a foreign country.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military personnel, members of civilian component and their dependents who have had criminal charges lodged against them in a foreign country.

CATEGORIES OF RECORDS IN THE SYSTEM:

Computerized summaries and card files containing copies of legal documents received and filed relative to the case, statements, affidavits, handwritten notes, and other miscellaneous data about the particular case.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

Used by foreign civilian attorneys in representing the accused, by the accused's military advisor in seeking an expeditious settlement of the case; by supervisory personnel in the performance of their official duties when monitoring the legal hold status of the individuals involved.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic tape, file folders and file cards.

RETRIEVABILITY:

Files are retrieved by name and ssn.

SAFEGUARDS:

Only personnel in International Law Department are authorized access. Building is kept locked when not occupied.

RETENTION AND DISPOSAL:

For computerized and manual records-retain on tape until the final outcome of each case, whether it be by final adjudication or out of court settlement and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer or head of the organization in question. See directory of Department of the Navy mailing addresses.

N06930-1

SYSTEM NAME:

JAG Manual Investigative Records

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 21) Department of the Navy 200 Stovall St, Alexandria, Va 22332

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who participated in, who was involved in, who incurred an injury, disease, or death in, who was intoxicated (drugs or alcohol) during, before, or after, or who had an interest in any accident, incident, transaction, or situation involving or affecting the Department of the Navy, naval personnel, or any procedure, operation, material, or design involving the Department of the Navy.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records contain all documented evidence relevant to the item under investigation, together with an investigating officer's report, which makes findings of fact and expresses opinions and recommendations, the reviewing authority's actions which either approved or modified the investigating officer's report or returned the entire record for further investigation or remedial action to perfect the record, and, the results of hearings afforded persons who incurred injuries and diseases, to allow them to explain or rebut adverse information in the record. The Judge Advocate General's correspondence to locate and obtain required investigations is also included in the record. Some records contain only a field command's explanation as to why investigation is not required, together with documents pertinent to this lack of requirement. Some records contain only an accident, injury, or death report, prepared for the Department of the Navy by the Army, Air Force, Coast Guard, or other agency under reciprocal agreements, in situations where the Navy or Marine Corps could not conduct the investigation.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Requirement that enlisted men make up time lost due to misconduct or abuse of alcohol or drugs (10 U.S.C. 972(5)); retirement or separation for physical disability (10 U.S.C. 1201-1221); Executive Order 11476, Manual for Court-Martial, par. 133b; Uniform Code of Military Justice, 10 U.S.C. 815, 832, 869, 873, 935, 936, and 938-940; Military Claims Act (10 U.S.C. 2733); Foreign Claims Act (10 U.S.C. 3724, 2734a, 2734b); Emergency payment of claims (10 U.S.C. 2736); Non-scope claims (10 U.S.C. 2737); Duties of Secretary of the Navy (10 U.S.C. 5031); Duties of the Office of the Chief of Naval Operations (10 U.S.C. 5081-5082, 5085-5088); Duties of the Bureaus and Offices of the Department of the Navy and duties of the Judge Advocate General (10 U.S.C. 5131-5153); Duties of the Commandant of the Marine Corps (U.S.C. 5201); Reservist's disability and death benefits (10 U.S.C. 6148); Requirement of exemplary conduct (10 U.S.C. 5947); Promotion of accident and occupational safety by Secretary of the Navy (10 U.S.C. 7205); Admiralty claims (10 U.S.C. 7622-23); Public Vessels Act (46 U.S.C. 781-790); Suits in Admiralty Act (46 U.S.C. 741-752); Admiralty Extension Act (46 U.S.C. 740); Transportation Safety Act (49 U.S.C. 1901); Federal Tort Claims Act (28 U.S.C. 1346, 2671-2680); Financial liability of accountable officers (31 U.S.C. 82, 89-92); Military Personnel and Civilian Employee's Claims Act of 1964, as amended (31 U.S.C. 240243); Federal Claim Collection Acts (31 U.S.C. 71-75, 951-953); Forfeiture of pay for time lost due to incapacitation caused by alcohol or drug use (37 U.S.C. 802); Eligibility for certain veterans benefits (38 U.S.C. 105); Postal claims

(39 U.S.C. 712); Medical Care Recovery Act (42 U.S.C. 2651-2653); General authority to maintain records (5 U.S.C. 301); Records management by agency heads (44 U.S.C. 3101).

PURPOSE(S):

JAG Manual Investigative Records are used internally within the Department of the Navy as basis for evaluating procedures operations, material, and designs with a view to improving the efficiency and safety of the Department of the Navy; determinations concerning status of personnel regarding disability benefits, entitlements to pay during periods of disability, severance pay, retirement pay, increases of pay for longevity, survivors' benefits, and involuntary extensions of enlistments, dates of expiration of active obligated service and accrual of annual leave; determinations concerning relief of accountable personnel from liability for losses of public funds or property; determinations pertaining to disciplinary or punitive action and evaluation of petitions, grievances, and complaints; adjudication, pursuit, or defense of claims for or against the Government; and public information releases.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Veterans Administration for use in determinations concerning entitlements to veterans and survivors' benefits.

To Servicemen's Group Life Insurance administrators for determinations concerning payment of life insurance proceeds.

To the U.S. Government Accounting Office for purposes of determinations concerning relief of accountable personnel from liability for losses of public funds and related fiscal matters.

To agents and authorized representatives of persons involved in the incident, for use in legal or administrative matters.

To contractors for use in connection with settlement, adjudication, or defense of claims by or against the Government, and for use in design and evaluation of products, services, and systems.

To agencies of the Federal, State or local law enforcement authorities, court authorities, administrative authorities, and regulatory authorities, for use in connection with civilian and military criminal, civil, administrative, and regulatory proceedings and actions.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper documents stapled together (with real evidence, if any, attached) in paper file folders and stored in metal file cabinets, on shelves, and in cardboard boxes.

RETRIEVABILITY:

Records are filed in calendar year groupings by surname of individual, bureau number of aircraft, name of ship, hull number of unnamed watercraft, or vehicle number of Government vehicles. Incidents are topically cross-referenced.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office spaces in which the file cabinets and storage devices are located are locked outside official working hours.

RETENTION AND DISPOSAL:

The records are retained permanently. All naval activities which prepare JAG Manual Investigative Records, or which are intermediate addresses, typically retain duplicate copies in local files for a two-year period.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law) Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332

NOTIFICATION PROCEDURE:

Information may be obtained by written request to the system manager. The request must contain the following: (a) an adequate description of the individual about whom the record is retained (e.g., full name, date of birth, etc.); (b) the calendar year to be searched, and the approximate date of the incident which was the subject of the investigation; (c) a signed and notarized statement of the identity of the requester; (d) the present mailing address of the requester, including ZIP code; (e) the present day-time telephone number of the requester, including area code; (f) the request must be signed by the individual. No telephone inquiries will be processed.

RECORD ACCESS PROCEDURES:

Requests from individuals for access should be addressed to the system manager. The request must include a signed and notarized statement of identity. Personal visits may be made to: Office of the Judge Advocate General (Code 21) Investigations Division Room 8S23 Hoffman Bldg II 200 Stovall Street Alexandria, Va 22332

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Records of JAG Manual Investigations are compilations of evidence, information, and data concerning the circumstances of incidents, accidents, events, transactions, and situations, prepared by administrative fact-finding bodies for utilization by proper authorities in making determinations, decisions, or evaluations relating to the matters under investigation. Records may contain: (1) testimony or statements of individuals who are parties to the investigations, witnesses, and others having pertinent knowledge concerning matters under investigation; (2) documentary evidence, typically including records and reports of military or Federal, State, or foreign, civilian law-enforcement investigative, judicial, or corrections authorities; medical records and reports, investigations and accident and injury reports prepared by Federal, State, or foreign governmental agencies or other organizations or persons; court records and other public records; official logs and other official naval records; letters and correspondence; personnel, pay, and medical records; financial records, receipts, and cost estimates; publications, and other pertinent documents and writings; (3) pertinent real evidence; and (4) pertinent demonstrative evidence.

Access generally limited to personnel of the Office of Legislative Affairs. Stored in a locked office.

RETENTION AND DISPOSAL:

Retained for at least 6 years or as long as the legislation is active if more than 6 years and then moved to Federal Records Center, GSA Accession Section, Washington, D.C. 20409

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Legislative Affairs
Department of the Navy
Pentagon, Room 5C831
Washington, D.C. 20350

NOTIFICATION PROCEDURE:

System Manager; Full name, term and session of Congress when bill introduced, bill number, sponsor of bill (if available); Office of Legislative Affairs, Department of the Navy, Pentagon, Washington, D.C. Driver's license or similar substitute.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Member of Congress; individual about whom file is maintained and individuals from whom he solicits information; other Navy, Marine Corps, and DOD components; OMB; and other interested executive agencies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N00870-1

SYSTEM NAME:

Patent, Invention, Trademark, Copyright and Royalty Files

SYSTEM LOCATION:

Office of Naval Research, 800 North Quincy Street, Arlington, VA, 22217

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Inventors and patent owners of inventions in which Government has an interest or which Department of the Navy has evaluated; copyright owners of works in which Government has an interest; and claimants or parties in administrative proceedings or litigation with the Government involving patents, copyrights or trademarks.

CATEGORIES OF RECORDS IN THE SYSTEM:

Invention disclosures; disposition of rights in inventions of Government employees; patent applications and patented files; patent licenses and assignments; patent secrecy orders; copyright licenses and assignments; patent and copyright royalty matters; administrative claims and litigation with the Government involving patents, copyrights and trademarks including private relief legislation involving these matters; and documents and correspondence relating to the foregoing.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5151

PURPOSE(S):

Used by Navy patent personnel to determine rights of the Government and employees in employee inventions; to file and prosecute patent applications; to publish invention disclosures for public information and defensive purposes; to provide evidence and record of Government interest in or under patents or applications for patents; to provide evidence and record of patent and copyright licensing and assignment; to determine action or recommended action regarding disposition of claims or litigation; and to recommend Government employee incentive awards. Used by other Navy/Marine Corps commands to determine Government interest in inventions; to permit utilization of inventions; and to support employee incentive awards.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the U.S. Patent and Trademark Office to determine respective rights of the Government and employee-inventors and to evidence legal interests in patent and copyright licenses and assignments; and for the prosecution of patent applications.

To the Commissioner of Patents and Trademarks to administer Patent Secrecy responsibilities.

To the Federal Council for Science and Technology as a source of statistical data for an annual report on Government patent policy.

To appropriate foreign government offices for prosecution of patent applications.

To officials and employees of the U.S. Copyright Office to evidence legal interests in patent and copyright licenses and assignments.

To the National Technical Information Service for publication of inventions available for licensing; non-governmental personnel (including contractors and prospective contractors) having an identified interest in particular inventions and Government rights therein, in infringement of particular patents or copyright, or in allowance of royalties on contracts.

To the Congress in the form of reports on particular bills for private relief and reports of action on Congressional and constituent requests.

To government agencies involved in claims or litigation, including the Department of Justice, who have access to prosecute and defend cases.

To all government agencies who have access to license records.

To parties involved in particular licensing arrangements who have access to specific files involved.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and card files.

RETRIEVABILITY:

Subject matter; Navy patent case number; name of inventor, patentee, copyright owner, claimant or correspondent.

SAFEGUARDS:

Maintained in safes and file cabinets in controlled spaces accessible only by authorized personnel who are properly instructed in the permissible use of the information.

RETENTION AND DISPOSAL:

Maintained indefinitely but records are transferred to Federal Records Center two years after completed action on case to which record relates.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Chief for Patents, Code 300, Office of Naval Research, Arlington, VA, 22217

NOTIFICATION PROCEDURE:

Direct information requests to system manager.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information obtained from individual inventor, patent or copyright owner, claimant, licensor or licensee, or from U.S. Patent and Trademark Office, or from U.S. Copyright Office. Information on Government employee-inventors or copyright owners may be obtained from Government personnel records and from Government supervisors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05890-1

SYSTEM NAME:

Federal Tort Claims Files

SYSTEM LOCATION:

Office of the Judge Advocate General, Offices of the Commandants of the Naval Districts, Naval Legal Service Offices, all overseas commands with a Navy Judge Advocate General Corps Officer or a Marine Corps judge advocate attached, and the Federal Records Center, Suitland, Maryland. Local commands with which claims under the Federal Tort Claims Act are initially filed typically retain copies of such claims and accompanying files. Official mailing addresses of these locations are included in the Department of Defense Directory in the appendix to this notice.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individuals who have filed claims against the Navy under the Federal Tort Claims Act.

CATEGORIES OF RECORDS IN THE SYSTEM:

The files may contain claims filed, correspondence, investigative reports, accident reports, medical and dental records, x-rays, allied reports (such as local police investigations, etc.), photographs drawings, legal memoranda, opinions of experts, and court documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Tort Claims Act (28 U.S.C. 1346(b), 2671-2680); 32 C.F.R. 750.30-750.49; 5 U.S.C. 301; 44 U.S.C. 3101.

PURPOSE(S):

To evaluate claims for purposes of adjudication and litigation.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The files or portions thereof may be furnished to the claimant or his authorized representative, and for those claims for which payment is determined proper.

To third parties in those cases in which they indemnify the U.S. government or to verify claims.

To officials and employees of the Department of Treasury for those claims for which payment is determined proper.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders stored in file cabinets or other storage devices.

RETRIEVABILITY:

Filed alphabetically by name of claimant.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Minimum-one year; maximum-permanent; typically files located in the Office of the Judge Advocate General are transferred to the Federal Records Center, Suitland, Maryland, three years after disposition of the case.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General Department of the Navy, 200 Stovall St., Alexandria, Va., 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the System Manager. Written requests for access should contain the full name of the individual, current address and telephone number, and the serial code of any prior correspondence received from this office pertaining to the request. For personal visits, the individual should be able to provide some acceptable identification, e.g. driver's license, etc., and give some verbal information that could be verified in the file.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

The sources of information contained in the files include the following: x-rays and medical and dental records from civilian and military doctors and medical facilities; investigative reports of accidents from military and municipal police agencies; reports of circumstances of incidents from operators of Government vehicles and equipment; witnesses; correspondence

from claimants and their attorneys and insurance companies, state insurance commissions, United States Attorneys, and various other Government agencies with information concerning the claim.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N05880-2

SYSTEM NAME:

Admiralty Claims Files

SYSTEM LOCATION:

Office of the Judge Advocate General; Office of the Commander-in-Chief, United States Naval Forces, Europe; Office of the Commander, Sixth Fleet; and the Federal Records Center, Suitland, Maryland. Local commands with which claims under the Public Vessels Act and the Suits in Admiralty Act are initially filed, typically retain copies of such claims and accompanying files. Official mailing addresses of these locations are included in the Department of the Navy directory of mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have asserted claims or instituted suits under the Public Vessels Act and Suits in Admiralty Act against the Department of the Navy in the name of the United States and all individuals who have instituted suits against third parties who have impleaded the Department of the Navy in the name of the United States.

CATEGORIES OF RECORDS IN THE SYSTEM:

The files may contain claims filed, correspondence, investigative reports, accident reports, medical and dental records, x-rays, allied reports (such as local police investigations, etc.), photographs, drawings, legal memoranda, opinions of experts, and court documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Admiralty Claims Act (10 U.S.C. 7622); 5 U.S.C. 301; 44 U.S.C. 3101

PURPOSE(S):

Used in the administrative evaluation and settlement of admiralty claims asserted against the Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Justice to defend civil maritime suits brought against the U.S.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders stored in file cabinets or other storage devices

RETRIEVABILITY:

Filed alphabetically by name of claimant

SAFEGUARDS:

Files are maintained in file cabinets or other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside of official working hours.

RETENTION AND DISPOSAL:

Records are retained in active files until each claim is settled or litigation resulting therefrom has been concluded. Thereafter, the files are maintained within the office for two years and then retired to the Federal Records Center, Suitland, Maryland.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the system manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

N05890-1

SYSTEM NAME:

Automated Claims Information System (ACIS)

SYSTEM LOCATION:

Office of the Judge Advocate General, Department of the Navy, 200 Stovall Street, Alexandria, Va 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have filed claims against the Department of the Navy under the Federal Tort Claims Act, the Foreign Claims Act, Military Claims Act, the 'Nonscope' Claims Act, Legislative Reorganization Act, or Military and Civilian Employees' Claims Act. All individuals who have filed claims with the U.S. Postal Service for loss or damage to mailed matter, and which claims have been paid by the U.S. Postal Service and thereafter forwarded for reimbursement by the Department of the Navy pursuant to 39 U.S.C. 712. All individuals who have asserted claims or instituted suits under the Public Vessels Act and Suits in Admiralty Act against the Department of the Navy in the name of the United States and all individuals who have instituted suits against third parties who have impleaded the Department of the Navy in the name of the United States. All individuals against whom the Navy has claims sounding in tort, and all individuals who are in the military or are dependents of military members and have been provided medical care by a Naval medical facility for injuries resulting from such tortious conduct. All common carriers against whom recovery has been sought by the Department of the Navy. Any medical personnel involved in medical malpractice claims against the Department of the Navy.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, social security number, office processing the claim, dollar amount of claim, dollar amount paid, type of claim, type of property damage, type of personal injury, date of incident that caused the claim, date the

claim was presented to the Navy, date payment was made or claim was closed, amount claimed against individual, amount received from individual, location of incident, and medical personnel involved (if applicable), and government bill of lading (if applicable).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Tort Claims Act (28 U.S.C. 1346(b), 2671-2680); 32 CFR 750.30-750.49; Medical Care Recovery Act(42 U.S.C. 2651-53); Federal Claims Collection Act (31 U.S.C. 951-53); 32 CFR 757.1-757.21; Foreign Claims Act (10 U.S.C. 2734); 32 CFR 753.1-753.29; Military Claims Act (10 U.S.C. 2733); 32 CFR 750.50-750.59; "Nonscope" Claims Act (10 U.S.C. 2737); 32 CFR 750.60-750.69; Military and Civilian Employees Claims Act (31 U.S.C. 240-243); 32 CFR 751.0-751.3; Legislative Reorganization Act (10 U.S.C. 1552); Admiralty Claims Act (10 U.S.C. 7622); 39 U.S.C. 712; 5 U.S.C. 30; 5 U.S.C. 301; 44 U.S.C. 3101; and 31 U.S.C. 231.

PURPOSE(S):

To manage and process claims both for and against the Department of the Navy. The system will be used to report contingent liability to the GAO to satisfy requirements of the GAO Policy and Procedures Manual.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Military Traffic Management Command in the performance of their official duties related to the Management of the Department of Defense personal property movement and storage program. The cognizant U.S. Attorney and/or officials and employees of the Department of Justice who are charged with responsibility for either initiating civil actions or defending civil actions arising under the aforementioned claims statutes, and for prosecuting civil or criminal cases under the False Claims Act (31 U.S.C. 231).

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk, magnetic tape, and hard copy forms.

RETRIEVABILITY:

ACIS users obtain information by means of either a query or a request for a standard report. Data may be retrieved by any data item although the primary search keys are the name or social security number.

SAFEGUARDS:

Access to buildings are protected by uniformed guards requiring positive identification for admission after hours. The system is protected by the following software features: user account number and password sign-on, data base authority, set and item authority for list, add, delete and update.

RETENTION AND DISPOSAL:

An individual's record is retained on disk and will be available for on-line access for three years after the close of the individual's claim. The record will be transferred to magnetic tape after three years and will be utilized in a batch processing mode. After ten years, the record will be erased from the tape.

SYSTEM MANAGER(S) AND ADDRESS:

Head, Claims Defense Program, Office of the Judge Advocate General, Department of the Navy, 200 Stovall Street, Alexandria, Va 22332.

NOTIFICATION PROCEDURE:

Information should be obtained from the System Manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom it applies and from offices processing claims.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N05890-2

SYSTEM NAME:

Affirmative Claims Files

SYSTEM LOCATION:

Office of the Judge Advocate General, Offices of the Commandants of the Naval districts; Naval Legal Service Offices, and Branch Offices of the Officers in Charge of U.S. Sending State Offices; overseas commands with a Navy or Marine Corps judge advocate attached; the Federal Records Center, Suitland, Maryland; and such other offices of officers as may be designated by the Judge Advocate General. Official mailing addresses of these locations are included in the Department of Defense Directory in the appendix of this notice.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals against whom the Navy has claims sounding in tort, and all individuals who are in the military or are dependents of military members and have been provided medical care by a Naval medical facility for injuries resulting from such tortious conduct.

CATEGORIES OF RECORDS IN THE SYSTEM:

The files contain reports of injuries to individuals entitled to care at Navy expense, reports of damage to Navy property, x-rays, medical and dental records of treatment, and statements of charges therefor, military and municipal police and individual's reports of accidents, investigative reports, correspondence, legal research, and opinions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Medical Care Recovery Act (42 U.S.C. 2651-53); Federal Claims Collection Act (31 U.S.C. 951-53); 32 CFR 757.1-757.21; 5 U.S.C. 301; 44 U.S.C. 3101.

PURPOSE(S):

To further efforts to collect such claims without litigation, for preparing litigation reports to the Department of Justice.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To insurance companies to support claims by documenting injuries or diseases for which treatment was provided at government expense.

To civilian attorneys representing the injured parties and the government's interests.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folder stored in file cabinets or other storage device.

RETRIEVABILITY:

Filed alphabetically by name of the individual.

SAFEGUARDS:

Files are maintained in file cabinets and other storage devices under the control of authorized personnel during working hours; the office space in which the file cabinets and storage devices are located is locked outside of official working hours.

RETENTION AND DISPOSAL:

Minimum-one year; maximum-permanent; typically files located in the Office of the Judge Advocate General are transferred to the Federal Records Center, Suitland, Maryland, three years after disposition of the case.

Written requests for access should contain the full name of the individual, current address and telephone number, and the serial code of any prior correspondence received from this office pertaining to the request. For personal visits, the individual should be able to provide some acceptable identification, e.g. driver's license, etc., and give some verbal information that could be verified in the file.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

The sources of information contained in the files include the following: x-rays, medical and dental records from civilian and military doctors and medical facilities; investigative reports of accidents from military and municipal police agencies; reports of circumstances of incidents from operators of Government vehicles; witnesses; correspondence from claimants, their attorneys, insurance companies, state insurance commissions, United States Attorneys, and various other Government agencies with information concerning the claim; commercial credit and asset reports; and questionnaires completed by accident victims.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05800-5

SYSTEM NAME:

Military Personnel and Civilian Employees' Claims

SYSTEM LOCATION:

Offices of the Judge Advocate General; Naval Legal Service Offices; offices of the Commandants of the Naval Districts; Naval Legal Service Branch Offices; the Federal Records Center, Suitland, Maryland; naval activities where there are officers specifically designated by the Judge Advocate General to adjudicate personnel claims. Official mailing addresses of these locations are included in the Department of the Navy Directory of mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who have filed claims against the Department of the Navy under the Military Personnel and Civilian Employees' Claims Act and all common carriers against whom recovery has been sought by the Department of the Navy.

CATEGORIES OF RECORDS IN THE SYSTEM:

The files may contain claims filed, correspondence, investigative reports, copies of order, copies of insurance policies, Government bills of lading, copies of Powers of Attorney, estimates of loss or damage, inventories, demands on carriers for reimbursement, correspondence, and legal memoranda.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Military Personnel and Civilian Employees' Claims Act (31 U.S.C. 240-243); 32 CFR 751.0-751.30; 5 U.S.C. 301; 44 U.S.C. 3101.

PURPOSE(S):

To evaluate claims for purposes of adjudication, reimbursement for the Department of the Navy from common carriers, warehousemen, contractors, or insurers who are responsible for loss or damage to personal property of individual claimants.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Justice to defend unauthorized suits brought against the U.S. under the Military Personnel and Civilian Employees' Claims Act.

To the claimant or his/her authorized representative.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders stored in file cabinets or other storage devices.

RETRIEVABILITY:

Filed alphabetically by name of claimant and name of common carrier, warehousemen, contractors, and insurers.

SAFEGUARDS:

Files are maintained in file cabinets or other storage devices under the control of authorized personnel during working hours; the office space in which file cabinets and storage devices are located is locked outside of working hours.

RETENTION AND DISPOSAL:

Minimum-one year; maximum-permanent; typically Files located in the Office of the Judge Advocate General

are transferred to the Federal Records Center, Suitland, Maryland three years after disposition of the case.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the system manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by requesting individual.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the system manager. Written requests for access should contain the full name of the individual, current address and telephone number, and the serial code of any prior correspondence received from this office pertaining to the request. For personal visits, the individual should be able to provide some acceptable identification, e.g. driver's license, etc., and give some verbal information that could be verified in the file.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information contained in the file is initially provided by the claimant and witnesses, after which the personal property divisions contribute investigative reports. The carrier may contribute information, and in some cases an investigative report is furnished by a military member's command or by an investigative agency. Adjudicated amounts allowed for the claim are provided by the adjudicating authority.

N06150-1

SYSTEM NAME:

Medical Department Professional/ Technical Personnel Development

SYSTEM LOCATION:

Naval Medical Command, Navy Department, Washington, D.C. 20372; individual's duty station or reserve unit (see Directory of the Deparment of the Navy Mailing Addresses); Military Sealift Command, Navy Department, Washington, D.C. 20390; National Personnel Records Center, 9700 Page Blvd., St. Louis, Missouri 63132; National Personnel Records Center, 111 Winnebago St., St. Louis, Missouri 63118; Naval Medical Command managed education and training activities (see Directory of Department of the Navy Mailing Addresses); various colleges and universities affiliated with COMNAVMEDCOM managed education and training activities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy (military and civilian) health care personnel; applicants to student status in Navy Aerospace Medicine, Navy Aerospace Physiology and Navy Aerospace Experimental Psychology; Navy (military and civilian) personnel qualified as divers or involved in other professional/specialty/technical training; Navy (military and civilian) personnel exposed to occupational/ environmental hazards; distinguished/

noted civilian physicians in capacity of lecturer/consultant.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal and demographic data; education, training, professional, specialty, and technical accomplishments/qualifications; credentialing programs; surgical and surgical support team personnel listings; assignments history, projected rotation date, projected release from active duty date, active duty obligation, officer preference card, and variable incentive pay/continuation pay selection data; Hospital Corps education and training history and grades received, commanding officer's performance evaluation, and recommendations; periodic and total lifetime accumulated exposure to occupational/environmental hazards; curricula vitae of civilian consultants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 10, U.S.C.; 5 U.S.C. 301; Title 10, CFR Part 20, Standards for Protection Against Radiation.

PURPOSE(S):

To manage the Naval Medical Command's education and training activities related to procurement, assignments, professional/specialty/technical training, credentialing, promotion, and all other aspects of health care personnel management; career development; evaluation of candidates for position of lecturer/consultant; mobilization, planning, and verification of reserve service; surgical team contingency planning; management of physical standards; and maintenance of safe occupational/environmental protection standards.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information of adverse actions or revocations of health care providers' clinical credentials may be disseminated to the various federal and state licensure boards, professional regulating bodies, and appropriate military and civilian organizations and facilities.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records stored on disc, tape, punched cards, and machine listings. Manual records stored in card files and folders in filing cabinets.

RETRIEVABILITY:

Manual records retrieved by full name, SSN, file numbers, program title or locator card. Automated records retrieved by key to any data field.

SAFEGUARDS:

Records maintained in monitored or controlled access rooms or areas; public access to the records is not permitted; computer hardware is located in supervised areas; access is controlled by password or other user code system; utilization reviews ensure that the system is not violated. Access is restricted to personnel having a need for the record in the performance of their duties. Buildings/rooms locked outside regular working hours.

RETENTION AND DISPOSAL:

Medical Department personnel professional development and training records; Headquarters, COMNAVMEDCOM records-retained at COMNAVMEDCOM for duration of member's service, then retired to NPRC, St. Louis for 10 year retention; COMNAVMEDCOM field activities-retained 5 years, then destroyed.

Radiation exposure records; personnel exceeding exposure limits-retained at COMNAVMEDCOM 50 years, then destroyed; all others-retained 5 years, then destroyed.

Surgical support team records; Headquarters, COMNAVMEDCOM-destroyed upon termination of active duty service; COMNAVMEDCOM field activities-destroyed upon termination of duty at the Medical Department facility.

Curricula vitae of lecturers/consultants-destroyed upon termination of status at the Medical Department facility.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Medical Command, Navy Department, Washington, D.C. 20372; Director, National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132; Director, National Personnel Records Center, 111 Winnebago Street, St. Louis, Missouri 63118; commanding officers of naval activities, ships and stations.

NOTIFICATION PROCEDURE:

Offices where requester may visit to obtain information of records pertaining to the individual; Potomac Annex, 23rd and E Streets, N.W., Washington, D.C.; Navy medical centers and hospitals; other Navy health care facilities; and COMNAVMEDCOM managed education and training facilities.

The individual should present proof of identification such as an I.D. card, drivers license, or other type of identification bearing signature and photograph.

Written requests may be addressed as follows:

Active duty Navy members or civilian employees presently working for the Navy should address requests to the commanding officer of the facility or ship where they are stationed or employed.

Former members of the Navy should address requests to Director, National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132.

Former civilian employees of the Navy should address requests to Director, National Personnel Records Center, 111 Winnebago Street, St. Louis, Mo. 63118.

All written requests should contain full name, rank, SSN, file number (if any), and designator.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the systems manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting and appealing initial determinations by the individual concerned may be obtained from the systems manager.

RECORD SOURCE CATEGORIES:

Military Headquarters, offices and commands; education institutions at training hospitals; boards, colleges and associations of professional licensure and medical specialties; personnel records; information submitted by the individual; automated system interface.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

N06150-2

SYSTEM NAME:

Health Care Treatment Record System

SYSTEM LOCATION:

Service medical (health and dental) records for active duty and reserve, Navy and Marine Corps Personnel. Retained at the individual's duty station or reserve unit. (Mailing addresses are listed in the Navy Directory in the appendix in the component system notice.) Naval Medical Command, Navy Department Washington, DC; Naval Reserve Personnel Center, 4400 Dauphine Street, New Orleans, Louisiana 70149; Headquarters Marine Corps,

Navy Department, Washington, DC 20380; Marine Corps Reserve Forces Administrative Activity, Class III, 1500 E. Bannister Road, Kansas City, Missouri 64131; National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132. Inpatient treatment records for active duty military, dependents, retired military and dependents, civilian employees, VA beneficiaries and humanitarian. Naval Medical Treatment Facilities; National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132. Outpatient treatment records for dependents of active duty military, retired military and their dependents, civilian employees, VA beneficiaries and humanitarian. Naval Regional Medical Centers and Naval Hospitals, and Clinics (Dispensaries); National Personnel Records Center, 111 Winnebago Street, St. Louis, Missouri 63118; National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132. Subsidiary record files of the health care treatment record system are located at Naval Medical Data Services Center, Bethesda, Maryland; Regional Data Service Centers; Naval Environmental Health Center, Norfolk, Virginia; and other approved locations for conducting research studies.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy, Marine Corps, other military personnel, dependents, retired military personnel and dependents, civilian employees, VA beneficiaries and humanitarian.

CATEGORIES OF RECORDS IN THE SYSTEM:

Service medical (health and dental) records for active duty and reserve, Navy and Marine Corps: system is made up of records pertaining to the member or former member's medical history; physical, dental and mental examinations; consultation; innoculations; outpatient treatment, including laboratory and x-ray reports; report of medical boards; summaries of periods of hospitalization, dental evaluation and treatment, reports of exposure to environmental and radiation hazards, results of special diagnostics and clinical studies; recommendations regarding requests for waivers of established physical standards.

Inpatient and outpatient treatment records: file contains a multiplicity of prescribed forms documenting health evaluations, medical/dental care and treatment for any health or medical condition or problem provided an eligible individual on an outpatient and/or inpatient status. The records contain history and physical examinations or health evaluation, reports of exposure to ionizing radiation, consultation reports and medical care and treatment provided, including procedures utilized such as surgery, drugs, dietary, x-ray laboratory, nursing notes, physical therapy and other specialty care applicable to the medical diagnosis or conditions found. The records also contain patients demographic data, family health history data, length of inpatient stay, disease nomenclature, discharge summary of inpatient care. Documentation of health history, diagnosis, care and treatment provided and the recording thereof conform with the standards prescribed by the joint commission on accreditation of hospital. In addition to, and based on individual medical record files, there are subsidiary records such as registers of patients; patient health care, medical board and death statistics; environmental health data; operating room schedules, tumor registers; appointment registers; sick call and treatment logs; x-ray files; laboratory files and logs; pharmacy records; EKG's; EEG's; neuropsychiatric evaluations; physical therapy records; other patient evaluation records, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5131 (as amended), 10 USC 5132, 44 USC 3101, 5 USC 301.

PURPOSE(S):

This system is used by officials and employees of the Department of the Navy (and members of the National Red Cross in Navy Health Care Facilities) in the performance of their official duties relating to the health and medical treatment of Navy and Marine Corps individuals; determining physical qualifications and suitability of candidates for various programs; personnel assignments; adjudicating claims and appeals before the Council of Personnel Boards, and the Board for Correction of Naval Records; rendering opinions regarding members' physical fitness for continued naval service; litigation involving medical care provided those categories of individuals covered by this record system; performance of research studies and compilation of statistical data; implementing preventive medicine, dentistry, and communicable disease control programs. Officials and employees of other components of the Department of Defense in the performance of their official duties relating to determining the physical qualifications of applicants; in providing medical care to those categories of individuals covered by this record system; and in the conduct of analyses and research studies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Veterans Administration in the performance of their official duties relating to the adjudication of veterans claims and in providing medical care to members of the Naval Service.

To officials and employees of other departments and agencies of the Executive Branch of Government upon request in the performance of their official duties related to review of the physical qualifications and medical history of applicants and employees who are covered by this record system and for the conduct of research studies.

To private organizations (including educational institutions) and individuals for authorized health research in the interest of the Federal Government and the public. When not considered mandatory, patient identification data shall be eliminated from records used for research studies.

To officials and employees of the National Research Council in cooperative studies of the National History of Disease; of prognosis and of epidemiology. Each study in which the records of members and former members of the Naval Service are used must be approved by the Surgeon General of the Navy.

To officials and employees of local and state governments and agencies in the performance of their official duties pursuant to the laws and regulations governing and local control of communicable diseases, preventive medicine and safety programs, child abuse and other public health and welfare programs. Authorized surveying bodies for professional certification and accreditations.

When required by federal statute, by executive order, or by treaty, medical record information will be disclosed to the individual, organization, or government agency, as necessary. Drug/Alcohol and Family Advocacy Information maintained in connection with Abuse Prevention Programs shall be disclosed only in accordance with the applicable statutes, 21 U.S.C. 1175, 42 U.S.C. 4582, and 5 U.S.C. 552.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Service medical (health and dental) records for active duty and reserve, Navy and Marine Corps:

Records are stored in file folders, microform, on magnetic tape, punched cards, machine listings, discs, and other computerized or machine readable media.

Inpatient and outpatient treatment records. These records originate at any Navy Medical Treatment Facility where the individual comes for medical care and treatment. The inpatient treatment records are retained for 2 years from date of last treatment at the activity and then sent to the National Personnel Records Center, St. Louis, Missouri. Outpatient treatment records are transferred for continuity of care and treatment to other medical activities upon change of station by the service member. Outpatient files, upon 2 years from date of last treatment are transferred to the National Personnel Records Center.

Inpatient and outpatient treatment records are maintained in mechanized lists, file folders, microform, and on magnetic tape, discs, punched cards, and other computerized or machine readable media. Inpatient treatment records are filed numerically by hospital register numbers. The alphabetical patient register serves as the locator media. Outpatient treatment records are filed by the Military Member's SSN with an alphabetical card or mechanized list or other record as the locator media. Medical x-rays are filed by a sequential numbering system in manual or mechanized format with an alphabetical name locator.

RETRIEVABILITY:

Service medical (health and dental) records for active duty and reserve, Navy and Marine Corps Members.

Records retired to the National Personnel Records Center, St. Louis, Missouri, prior to 1971 are retrieved by name and service or file number. After that date, records are retrieved by name and social security number. Records retired to the National Personnel Records Center, St. Louis, Missouri prior to 1971 are retrieved by name and service or file number, after that date records are retrieved by name and social security number.

Inpatient and outpatient treatment records.

Records are retrieved by manual or automated locator media (alpha name cards, logs, listings, tapes, etc.).

SAFEGUARDS:

Records are maintained in various kinds of filing equipment in specific monitored or controlled access rooms or areas; public access is not permitted. Computer terminals are located in supervised areas; access is controlled by password or other user code system; utilization reviews ensure that the system is not violated. Access is restricted to personnel having a need for the record in providing further medical care or in support of administrative/clerical functions. Records are controlled by a charge-out system to clinical and other authorized personnel.

RETENTION AND DISPOSAL:

Health care treatment records are retained, retired, and disposed of in accordance with SECNAVINST 5212.5 series, disposal of Navy and Marine Corps Records.

SYSTEM MANAGER(S) AND ADDRESS:

Service medical (health and dental) records for active duty and reserve, Navy and Marine Corps: Commander, Naval Medical Command, Navy Department, Washington, D.C. 20372; Commanding Officers, Naval Activities, Ships, and Stations, Director, National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 64131.

Inpatient and outpatient treatment records: Commander, Naval Medical Command, Navy Department, Washington, D.C. 20372; Commanding Officer's and OIC's of Naval Medical Treatment Facilities; Director, National Personnel Records Center, St. Louis, Missouri 63118.

NOTIFICATION PROCEDURE:

Service medical (health and dental) records for active duty and reserve; Navy and Marine Corps Members;

Requests for information from active duty Navy and Marine Corps personnel and drilling members of the Navy and Marine Corps Reserves should be addressed to the individual's commanding officer. Official mailing addresses are in the Department of Defense Directory in the appendix to the component's system notice. Inactive Naval Reservists should address requests for information to the Naval Reserve Personnel Center, 4400 Dauphine Street, New Orleans, Louisiana 70146. Marine Reservist's should address request for information to Marine Corps Reserve Forces Administrative Activity, Class III, 1500 E. Bannister Road, Kansas City, Missouri 64131.

Former members who have no further reserve or active duty obligations should address requests for information to director, National Personnel Records Center (Navy Reference Branch), 9700 Page Boulevard, St. Louis, Missouri 63132.

All written requests should contain the full name and social security, account number of the individual, his signature, and in those cases where his period of service ended before 1971, his service or file number. In requesting records for personnel who served before 1964, information provided to the National Personnel Records Center should also include date and place of birth and dates of periods of active Naval service. Active duty Navy and Marine Corps personnel including drilling members of the reserves may visit the medical department of the activity to which attached. Inactive Naval Reservists whose tour of active duty ended after 1 July 1972 may visit the Naval Reserve Personnel Center, 4400 Dauphine Street, New Orleans,Louisiana. Marine Reservists whose tour of active duty ended after 1 July 1972 and who have a continual reserve obligation may visit the Marine Corps Reserve Forces Administration Activity, Class III, 1500 E. Bannister Road, Kansas City, Missouri. Former members with no further obligation and reservists whose tour of active duty ended prior to 1 July 1972 may visit the National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri. Proof of identification in the case of active duty, retired and reserve personnel will consist of the Armed Forces of the U.S. Identification Card or by other types of identification bearing picture and signature. Former members may provide drivers license or other types of identification bearing picture and signature.

Inpatient and outpatient treatment records:

(Care/treatment-within 2 years) Commanding Officer of the Naval Regional Medical Center or hospital where the individual was treated.

(More than 2 years) Director, National Personnel Records Center, 111 Winnebago Street, St. Louis, Missouri 63118 or Director, National Personnel Records Center, 9700 Page Boulevard, St. Louis, Missouri 63132.

Provide the following data: full name, service number, status, or SSN of sponsor, date(s) of treatment or period of hospitalization, address at time of medical treatment, if known.

Office where requester may visit to obtain information of records pertaining to the individual.

Regional Medical Center or Hospital Chief, Patient Affairs Service
Chief, Outpatient Service

Officer-in-charge other Navy Medical Facility

Full name, date and place of birth, ID card or drivers license, or other identification to sufficiently identify the individual with the medical records held by the treatment facility must be presented.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determination by the individual concerning may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Reports from attending and previous physicians and other medical personnel regarding the results of physical, dental and mental examinations, treatment, evaluation, consultation, laboratory, x-ray and special studies conducted to provide health care to the individual or to determine the individuals physical and dental qualification.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N06150-3

SYSTEM NAME:

Naval Health/Dental Research Center Data File

SYSTEM LOCATION:

Naval Medical Research and Development Command, Naval Medical Research Institute and/or Naval Dental Research Institute to which individual is assigned (see Directory of the Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

For medical: Navy and Marine Corps personnel on active duty since 1960 to date. Civilians taking part in Operation Deep Freeze, 1964 to date. For dental: Navy and Marine Corps personnel on active duty since 1967 to date.

CATEGORIES OF RECORDS IN THE SYSTEM:

Extracts of information from official medical/dental and personnel records, results of dental examinations conducted by staff research scientists, as well as information dealing with biographical, attitudes, and questions relating to medical and dental health patterns during active service or prior to active duty..

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC 5031

PURPOSE(S):

To research, monitor and analyze the types and frequency of medical and dental diseases and illnesses in Navy and Marine Corps personnel.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Files are maintained on magnetic tape, flexible and hard disks, paper files, punch cards and optically marked cards.

RETRIEVABILITY:

Retrievability is by Social Security number or service number as appropriate for military and former military personnel. Civilians are by name only.

SAFEGUARDS:

Access is restricted to personnel having a need to work with the research data stored. Access is controlled by password for health records stored on magnetic tape. Computerized dental research records contain ID numbers that can be matched to SSN's on code sheets maintained by research personnel.

RETENTION AND DISPOSAL:

Research records are permanent. They are maintained for five years at the activity performing the research and then retired to the Federal Records Center, St. Louis, Missouri.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer of the activity in question (see Directory of Department of the Navy Mailing Addresses).

NOTIFICATION PROCEDURE:

Navy and Marine Corps personnel and former serving members must provide a social security number or service number as appropriate, give the branch of service, and years of active duty. Civilians in Operation Deep Freeze must identify themselves by full name and the year in which they wintered over.

RECORD ACCESS PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Information is derived from (a) Medical Treatment Record Systems, including medical, dental, health records, inpatient treatment records and outpatient treatment records, (b) Personnel Records System and Personnel Rehabilitation Support System, (c) Enlisted Master File, (d) information provided by the members themselves on a volunteer basis in response to specific research questionnaires and forms, and (e) information provided by the members' peers and superiors.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N06310-1

SYSTEM NAME:

Personal injury and illness reports on civilian and govt-service seaman employed on MSC ships

SYSTEM LOCATION:

Office of the Judge Advocate General (Code 11), Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Injured civilian seamen and government service seamen employed by the Military Sealift Command or its contract operators for service on board MSC ships.

CATEGORIES OF RECORDS IN THE SYSTEM:

System consists of preliminary personal injury and illness reports on civilian seamen and government service seamen employed by the Military Sealift Command or its contract operators.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Admiralty Claims Act (10 U.S.C. 7622); 5 U.S.C. 301; 44 U.S.C. 3101

PURPOSE(S):

To evaluate and settle subsequently submitted admiralty claims asserted against the Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Department of Justice for defense of civil maritime suits brought against the U.S. The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders stored in file cabinets

RETRIEVABILITY:

Filed by name of injured seaman listed under each particular MSC ship by date of injury.

SAFEGUARDS:

Files are maintained in file cabinets under the control of authorized personnel during working hours; the office space in which the file cabinets are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Reports are maintained in personal injury report file folders for a period of two years from the date of particular injury or illness and are, thereafter, destroyed at the local office level.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332.

NOTIFICATION PROCEDURE:

Information may be obtained from the system manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to the system manager. Written requests for access should contain the full name of the individual, current address and telephone number, and the serial code of any prior correspondence received from this office pertaining to the request. For personal visits, the individual should be able to provide some acceptable identification, e.g., driver's license, etc., and give some verbal information that could be verified in the file.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing determinations may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Masters of Military Sealift Command ships; witnesses; medical and dental forms; and investigative reports.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N05320-1

SYSTEM NAME:

Uncollectible Accounts

SYSTEM LOCATION:

Primary System - Commander, Naval Medical Command, Navy Department, Washington, D. C. 20372. Decentralized Segments - Naval Hospitals and Medical Centers which provide services or perform work giving rise to such accounts receivable. (See directory of Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual incurring indebtedness to the United States by receiving health care treatment or examination services funded by the Navy Medical Department. Coverage also includes sponsors and other persons responsible for the debts of such persons.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name and SSN, sponsor's SSN, if applicable, paygrade, branch of service, duty station address, account number, activity performing service, insurance company, civilian employer, patient category, time and dates of service, units of service, physicians' and hospitals' statements of service and total charges for treatment including interest, administrative and penalty charges, payment receipts, admission documents, correspondence relating to collection attempts to ascertain eligibility status, patient category, and third party insurer liability, records of payment received and outstanding balances, letter reports of uncollectible accounts receivable, records suspending or terminating collection action or effecting compromise settlement agreements, and requests for recovery of Champus funds and substantiating documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 USC 191-195, 227, and 952 (also known as the Federal Claims Collection Act of 1966); 10 USC 1078-1079; and 37 USC 702, 705, and 1007.

PURPOSE(S):

To identify and facilitate payment of amounts owed the U.S. Users of the information include Naval Medical Command personnel who are directly involved in processing payments or billings of patient accounts. The information is used to determine amounts owed, methods to be employed to effect recovery, whether or not the claim can be compromised or collection action thereon terminated or suspended, and to collect charges for utility bills and other miscellaneous items. File may be forwarded to the Naval Investigative Service for investigation or to any component of DOD, as needed, in the performance of their duties related to same.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

DISCLOSURE TO CONSUMER REPORTING AGENCIES

Disclosure may be made from this system to "consumer reporting agencies" as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Federal Claims Collection Act of 1966 (31 U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders and reading files. Index cards (3"x5").

RETRIEVABILITY:

Automated records are retrieved by either a query or a request for a standard report. Data may be indexed by any data element although the primary search keys are name and SSN. Paper records are filed alphabetically by last name of debtor.

SAFEGUARDS:

Access to the automated system requires user account number and password sign on. Access to the paper records and/or terminals are limited to only authorized personnel that are properly screened and trained. Office space where records and/or terminals are located is locked after official working hours.

RETENTION AND DISPOSAL:

Records are retained in active file until collection action has been completed, compromised, suspended, or terminated. They are held in inactive file until statute of limitations has run and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Medical Command, Navy Department, Washington, D. C. 20372 and Commanding Officers of Medical Treatment Facilities under the Command of the Commander, Naval Medical Command.

NOTIFICATION PROCEDURE:

Information may be obtained from the Commander, Naval Medical Command. Requests should provide the full name of the debtor, the military or dependency status of the debtor, and the location and approximate dates of treatment or examination. Driver's license and/or military ID card will be considered adequate proof of identity.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appearling initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Automated patient administration system records produced at Medical Treatment Facilities include but are not limited to Inpatient Admission/Disposition Records, NAVMEDCOM 6300/5; Report of Treatment Furnished Pay Patients-Hospitalization/Outpatient Treatment Furnished, DOD 7/7A, Part A/B. Other record source categories are: OCHAMPUS, Denver; U.S. Postal Service; Military Locator Services; State Departments of Motor Vehicles; any component of the DOD; the Department of Justice, the General Accounting Office, retail credit associations, financial institutions, current or previous employers, educational institutions, trade associations, automated system interfaces, local law enforcement agencies, the Department of Health and Human Services, the Internal Revenue Service, and the Office of Personnel Management.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

M06320-2

SYSTEM NAME:

Family Advocacy Program System

SYSTEM LOCATION:

Central Registry -- Commander, Naval Medical Command, Navy Department, Washington, D. C. 20372. Individual Case Files -- Naval Medical Treatment Facilities, and duty stations of the military sponsors. (See Directory of Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All beneficiaries entitled to care at Navy medical and dental facilities whose abuse or neglect is brought to the attention of appropriate authorities, and all persons suspected of abusing or neglecting such beneficiaries.

CATEGORIES OF RECORDS IN THE SYSTEM:

Medical records of suspected and confirmed cases of family member abuse or neglect, also, investigative reports, correspondence, family advocacy committee reports, follow-up and evaluative reports, and any other supportive data assembled relevant to individual family advocacy program files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, 10 U.S.C. 5132, and 44 U.S.C. 3101.

PURPOSE(S):

To collect and disseminate (to authorized officials), information pertaining to the identification, evaluation, intervention, treatment, prevention and follow-up of victims and perpetrators of abuse or neglect.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Executive Branch of government in the performance of their official duties relating to the coordination of family advocacy programs, medical care, and research concerning family member abuse or neglect.

To federal, state or local government agencies when it is deemed appropriate to utilize civilian resources in the counseling and treatment of individuals or families involved in abuse or neglect or when it is deemed appropriate or necessary to refer a case to civilian authorities for civil or criminal law enforcement.

To authorized officials and employees of the National Academy of Sciences, and private organizations and individuals for authorized health research in the interest of the federal government and the public; and authorized surveying bodies for professional certification and accreditation.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records may be stored in file folders, microfilm, magnetic tape, punched cards, machine lists, discs, and other computerized or machine readable media.

RETRIEVABILITY:

Records are retrieved through indices and cross indices of all individuals and relevant incident data. Types of indices used include, but are not limited to: names, social security numbers, and types of incidents.

SAFEGUARDS:

Records are maintained in various kinds of filing equipment in specified monitored or controlled access rooms or areas. Public access is not permitted. Records are accessible only to authorized personnel who are properly screened and trained, and on a need-to-know basis, only.

Computer terminals are located in supervised areas, with access controlled by password or other user code system.

RETENTION AND DISPOSAL:

Family advocacy case records are maintained at the activity having cognizance of the case for a period of 5 years and are then destroyed. Central registry records are permanently retained under the control of the Naval Medical Command.

SYSTEM MANAGER(S) AND ADDRESS:

Central Registery -- Commander, Naval Medical Command, Navy Department, Washington, D.C. 20372, -- and commanding officers of medical treatment facilities under the command of the Commander, Naval Medical Command, where the treatment and reporting occurred.

NOTIFICATION PROCEDURE:

Informational requests should be directed to the cognizant system manager(s). Requests should contain the full name of the individual and social security number of the military or civilian sponsor or guardian, date and place of treament, and alleged reporting

of incident. The requester may visit the office of the Commander, Naval Medical Command, 23rd and 'E' Streets, N.W., Washington, D.C. and the commading officers of the individual medical treatment facilities to obtain information on whether or not the system contains records pertaining to him or her. Armed Forces I.D. card or other type of identification bearing the picture and signature of the requested will be considered adequate proof of identity.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Reports from physicians and othe medical department personnel regarding the results of physical, dental, mental, and other examinations, treatment, evaluation, consultation, laboratory, x-ray, and special studies; reports and information from other sources, including educational institutions, medical institutions, law enforcement agencies, public and private health and welfare agencies, and witnesses.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Part of this system may be exempt under 5 U.S.C. 552a(k) (2) and (5), as applicable. For additional information, contact the system manager(s).

N06320-3

SYSTEM NAME:

COMNAVMEDCOM Quality Assurance/Risk Management

SYSTEM LOCATION:

Naval Medical Command, Navy Department, Washington, DC 20372; health care treatment facilities. (See directory of Department of the Navy Mailing Addresses).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Patients, staff, visitors, contractors, and other personnel who converge upon Naval medical treatment care, or health related ancillary or support services consistent with institutional purposes. Such individuals may be noted in organized review of care provided, reviews of injuries or mishaps sustained, or be governed by stipulations under which care may be rendered.

CATEGORIES OF RECORDS IN THE SYSTEM:

Incident reports; follow-up reports; letters, memos, and other correspondence or supportive statements; statistical reports; and committee minutes; and credentialing program documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301, Department Regulations; 10 U.S.C. 5132.

PURPOSE(S):

This system relates to the Navy Medical Command's Quality Assurance/Risk Management Program. It is used to review the quality and appropriateness of care provided; investigate, analyze, and report accidents, injuries, and other incidents; to identify health care providers with known or suspected problems.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Information of adverse actions or revocations of health care providers' clinical credentials may be disseminated to various federal and state licensure boards, professional regulating bodies, and appropriate military and civilian organizations and facilities.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on hard copy forms in filing cabinets.

RETRIEVABILITY:

Records are retrieved by full name of patient, SSN of sponsor, date of incident, or other alpha/numeric identifier.

SAFEGUARDS:

Files are monitored during normal working hours by authorized personnel and the room or the files are locked at all other times.

RETENTION AND DISPOSAL:

Records are retained for 3 years after the year in which created and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Medical Command, Navy Department, Washington, DC 20372. Commanding Officer or Officers in charge of Navy Medical Department health care treatment facilities (see directory of Department of the Navy mailing addresses).

NOTIFICATION PROCEDURE:

Requests should be addressed to Commander, Naval Medical Command or commanding officers or officers in charge at the addresses indicated above. Requests should contain the full name, SSN, and signature of the individual. The individual may also visit COMNAVMEDCOM or the health care treatment facility. Visitors must posess proof of identification such as ID card, driver's license, or other identification showing name and a recent photograph of the individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Incident reports relating to patients, staff, and other personnel documenting accidents, injuries, and other incidents, together with supportive correspondence and statements including statistical displays and summaries.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N06470-1

SYSTEM NAME:

USN/USMC Nuclear Test Personnel Review Program.

SYSTEM LOCATION:

Primary Navy System exists at the Project Manager's Office, Navy Nuclear Test Personnel Review, Room 756, Commonwealth Building, 1300 Wilson Boulevard, Arlington, VA. 22209. Automated segments exist at Navy Regional Data Automation Center, Washington Navy Yard, Washington, D.C. 20374 and J. A. Young corporation, 205 South Whiting Street, Alexandria, VA 22304. The entire Marine Corps systems exists at the Project Coordinator's Office, Marine Corps Nuclear Test Personnel Review, Records Branch, Personnel Services Division, Headquarters Marine Corps, Washington, D.C. 20380. Extracts of individualized records of both Navy and Marine Corps reside at Headquarters,

Defense Nuclear Agency, Washington, D.C. 20305.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy and Marine Corps military and civilian personnel and/or contractor personnel in support of the Navy and Marine Corps who may have been exposed to radiation as the direct result of government sponsored atmospheric nuclear detonations occurring between 1945 and 1962.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, rank/grade, service number, social secuity account number, current or last know address, dates of test partcipation, radiation exposure (if any) & dose data, Navy and Marine Corps unit/office of assignment at time of exposure, current medical status, next-of-kin data, and extracts of service medical data such as CBC's, bioassay data and radiation sickness sequellae.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U. S. C. 5031

PURPOSE(S):

To identify personnel who either were exposed to or participated in the atmospheric nuclear detonation program and to collect radiation exposure information so as to determine appropriate government-provided medical treatment, and to answer inquiries.

DOD components use the system for the purpose of preparing histories of atmospheric nuclear test participation and for use in litigation between test participants or their representatives and the Department of Defense.

The Defense Nuclear Agency Contractors use the system for the purpose of assisting DOD components in preparation of histories of atmospheric nuclear test participation, to reconstruct individual dosimetry data based on research and application of mathematical factors and responding to the inquiries and concerns of individuals who may have participated in the test programs and/or their representatives.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Veterans Administration to process/adjudicate claims in which service-connected disabilities resulting from radiation exposure are alleged.

To officials and employees of the National Research Council and the Center for Disease Control for the limited purpose of conducting epidemiological studies of the effects of ionizing radiation from the atmospheric nuclear weapons tests on DOD participants in those tests.

To officials and employees of the Department of Energy for the limited purpose of identifying AEC and AEC-contractor personnel exposed to ionizing radiation during nuclear testing and for conducting epidemiological studies of radiation effects of individuals so identified; and for use in litigation between the DOD and any of the individuals so identified.

To officials and employees of the Department of Transportation for the limited purpose of identifying DOT and DOT-affiliated personnel exposed to ionizing radiation during nuclear testing and for use in litigation between the DOT and any of the individuals so identified.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; computer magnetic tapes, disks, and computer printouts.

RETRIEVABILITY:

By individual's name and/or service number/SSN, or listed in conjunction with a unit (ship, air squadron, etc.) associated with atmospheric nuclear testing.

SAFEGUARDS:

Access is limited to properly clear personnel having need for the information in the performance of official duties. Paper records are maintained in an office which is locked during non-working hours. The building in which both offices are located maintains continuous security guard surveillance during non-working hours. Magnetic tapes and disks are stored in secured computer areas, access to which is controlled by password.

RETENTION AND DISPOSAL:

Paper records are retained after data is transferred to magnetic tapes. Personnel and health records are retained by the National Personnel Records Center, St. Louis, Missouri. Other paper records will be retired to Naval and Marine Corps Historical Offices after completion of Nuclear Test Personnel Review effort. Magnetic tapes and disks are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESS:

Program Manager, Navy Nuclear Test Personnel Review, Room 758, Commonwealth Building, 1300 Wilson Boulevard, Arlington, VA 22209 and Project Coordinator, Marine Corps Nuclear Test Personnel Review, Commandant of the Marine Corps, (MSRB-60), Washington, D.C. 20380.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether this system contains information pertinent to them shall either write or visit the system manager. Signed letters or proper identification are required.

RECORD ACCESS PROCEDURES:

Individuals may access records pertaining to them by furnishing full name and SSN and/or service number. Additional information such as unit to which assigned at time or radiation exposure as well as place and approximate dates of exposure expedite recovery of desired records.

CONTESTING RECORD PROCEDURES:

The agencies' rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the respective system manager.

RECORD SOURCE CATEGORIES:

From the individual; Navy and Marine Corps organizational, personnel, and medical records; the Veterans Administration, Department of Enery, Defense Nuclear Agency & other military departments.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N06530-1

SYSTEM NAME:

Blood Donor Program Files

SYSTEM LOCATION:

Organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Personnel donating blood or seeking replacement of blood.

CATEGORIES OF RECORDS IN THE SYSTEM:

Blood donation records. Blood replacement requirement records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

BEST COPY AVAILABLE

PURPOSE(S):

To record emergency blood requests by blood type; to recognize and identify donors; and to replace blood provided, to cover individuals.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the American Red Cross in the performance of their duties related to the assistance of the members.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files, punched cards, magnetic tape.

RETRIEVABILITY:

Name, SSN, Case number, organization.

SAFEGUARDS:

Access provided on a need to know basis only. Locked and/or guarded office.

RETENTION AND DISPOSAL:

Per SECNAV Records Disposal Manual.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

Apply to System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

American Red Cross, blood donors, hospitals, persons seeking replacement of blood.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N07210-1

SYSTEM NAME:

Losses of Public Funds File

SYSTEM LOCATION:

Navy Accounting and Finance Center, Code NAFC-73, Washington, DC 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Disbursing personnel who are entrusted with public funds and who incur losses of the public funds entrusted to them.

CATEGORIES OF RECORDS IN THE SYSTEM:

Alphabetized folders containing reports of losses of public funds, reports of investigations into losses of public funds, requests for relief of liability for losses of public funds and related correspondence.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 USC 95a, 82a-1, and 82a-2

PURPOSE(S):

To maintain and process documentation related to losses of public funds; to inform individuals of their rights to repay losses or to submit requests for relief of liability; to maintain records of investigations conducted; to approve requests for relief of liability for losses of less than $500; to make recommendations to the Secretary of the Navy on all denials and losses of $500 or more, and to control liquidation of losses by relief or by collective action.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders and control log

RETRIEVABILITY:

Name of accountable disbursing individual in whose custody the public funds were entrusted when the losses occured.

SAFEGUARDS:

Maintained in General Services approved Class 3, Security Cabinet equipped with a Type II, three tumbler combination lock accessible only to authorized individuals.

RETENTION AND DISPOSAL:

Transferred to Federal Records one year following liquidation of the loss.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Navy Accounting and Finance Center, Code NAFC-73, Washington, DC 20376

NOTIFICATION PROCEDURE:

Correspondence only

RECORD ACCESS PROCEDURES:

The agency's rule for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rule for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Messages, letters, and reports of investigations into losses of public funds received from: accountable disbursing personnel, commanding officers of Navy and Marine Corps activities at which disbursing offices are located, officers appointed to conduct Judge Advocate General Manual investigations, Commanding Officer, Naval Investigative Service, Commandant of the Marine Corps, and Secretary of the Navy.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N07220-1

SYSTEM NAME:

Armed Forces Health Professional Scholarship System

SYSTEM LOCATION:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

AFHSP students until graduation

CATEGORIES OF RECORDS IN THE SYSTEM:

Personnel and entitlement data necessary for pay computation

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Law 92-426

PURPOSE(S):

To maintain a data base which will permit officials and employees of the Department of the Navy to prepare checks, leave and earning statements and financial reports.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Department of the Treasury, Social Security Administration, and Veterans Administration when needed to provide payment or service to member.

To federal, state, or local government agencies when payments received through the Armed Forces Health and Professional Scholarship System impact on payments or benefits issued by those agencies and/or when a specific matching program has been requested by the agency and approved by the Office of Management and Budget.

To the American Red Cross, Navy Relief Society and U.S.O. for personal assistance to the member.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape and file folders

RETRIEVABILITY:

Social security account number and member name

SAFEGUARDS:

Guards, personnel screening, and requestor codes

RETENTION AND DISPOSAL:

Destroyed ten years after member's graduation

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Office Building, Cleveland, Ohio 44199

NOTIFICATION PROCEDURE:

Individuals may write to system manager at above address. Information request must contain Navy member's full name, military status, and social security number. Requestor may visit above address and must have military identification card or valid state driver's license and social security card as positive proof of identity.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Disbursing Officer, Reserve members, COMNAVMILPERSCOM, and COMNAVMEDCOM

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N07220-2

SYSTEM NAME:

Retired Pay System

SYSTEM LOCATION:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Former members of the Navy and Reservists receiving Retired or Retainer Pay; Survivors of members or reservists requesting Survivor Benefit Plan, Retired Serviceman's Family Protection Plan or Minimum Income Widow payments; Individuals eligible for National Oceanic and Atmospheric Administration retirement payments.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual retired pay and annuity pay records, statements of service, retirement orders, survivor benefit plan elections, w-4 and w-2 data, allotment data, death certificates, applications for annuities, correspondence from or to the member or annuitant or third parties relating to an individual account, documentation of mass change, e.g., cost of living increase, due to legislative change.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 USC Subtitle C

PURPOSE(S):

To compute retirement and annuity payments and to investigate and reconcile any underpayments, overpayments or claims. Data is used for fiscal reports and the extraction and compilation of statistical analyses and reports for management studies for internal use as required by the Department of Defense.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Data in this system is used for fiscal reports and the extraction and compilation of statistical analyses and reports for management studies for use externally required by Department of Labor, Department of Commerce or by other government agencies.

Records may be released to the Comptroller General or any of his authorized representatives in the course of the performance of duties of the Comptroller General. To the General Accounting Office for audits and determinations relating to military pay entitlements expenditures and accounting procedures.

To the Department of Treasury in connection with check or Electronic Fund Transfer (EFT) payment issuance.

To the Veterans Administration in regard to Disability and Severance Pay and educational benefits.

To the Social Security Administration for FICA Wage reporting.

To the Internal Revenue Service and state and local taxing authorities for computing or resolving tax liability.

To the Federal Reserve Banks for the distribution of payments made through the Direct Deposit System, to financial organizations or their processing agents authorized by individuals to receive and deposit payments in their accouunts, and federal, state, or local government agencies when payments received through the Retired Pay system impact payments or benefits issued by those agencies and/or when a specific matching program has been requested by the agency and approved by the Office of Management and Budget.

To designated beneficiaries of deceased member.

To the American Red Cross, Navy Relief Society, or U.S.O. personnel for assistance to the member or annuitant.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape, and disc files, microfilm and file folders.

RETRIEVABILITY:

Social security number and member's name

SAFEGUARDS:

The on-line system contains the following safeguards: a. Physical access to CRT data entry terminals is under supervisory control. b. Access to central computer mainframe, other peripheral equipment and tape and disc storage is strictly controlled. Individuals must sign in and be authorized admittance before access. c. Individual user identification codes and passwords are used to control access to automated records. d. Reports are issued that are used to help monitor individuals accessing the system. Access to microfiche and

microfiche readers and the respective data are maintained by supervisory control. During non-working hours, offices where records are stored are locked.

RETENTION AND DISPOSAL:

Records are retained for ten years after death of retiree or annuitant then shipped to a Federal Records storage facility. NOAA accounts are dropped upon retiree's death.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

NOTIFICATION PROCEDURE:

Individuals may write to system manager at above address. Information request must contain Navy member's full name and social security number.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Field disbursing offices, Navy Military Personnel Command, Navy Reserve Personnel Center, individual members, annuitants, financial organizations, designated guardians and conservators of retirees or annuitants, Veterans Administration, Social Security Administration, Office of Personnel Management, Internal Revenue Service, and federal, state, and local courts.

N07220-5

SYSTEM NAME:

Joint Uniform Military Pay System [JUMPS]

SYSTEM LOCATION:

(Decentralized) Navy and Marine Corps disbursing offices, i.e., Personnel Support Activities, Personnel Support Detachments, Disbursing Officers Afloat, and the Navy Finance Center. Specific activities are identified in Appendix B of Volume IV, Navy Comptroller Manual and addresses are contained in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All Navy Personnel on active duty and individual recipients of allotments of Navy Personnel (active duty and retired)

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual Leave and Earnings Statements, Personnel Financial Records, substantiating documentation submitted via OCR documents, tape input or direct on-line CRT entry which authorized credits and deductions of pay entitlements and withholding of Federal income tax, Federal Insurance Contribution Act (FICA) payments, and Servicemen's Group Life Insurance, state and local taxes, or other deductions. Other records include Internal Revenue Form w-2's, money lists, pay receipts, check and distribution lists, allotment authorizations and associated files, absentee and deserter lists, miscellaneous correspondence requesting or providing pay information, Commanding Office Leave Lists and microfilm and microfiche records.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Titles 10 and 37 U.S.C.

PURPOSE(S):

To maintain and distribute Leave and Earning Statements; determine and audit pay entitlements or deductions; compute, pay and report payments; determine budgets and appropriation requirements; commence and terminate allotments; determine amounts subject to fines, forfeitures or detentions of pay in connection with non-judicial punishment and courts-martial and distribution of payments.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Comptroller General or any of his authorized representatives in the course of the performance of duties of the Comptroller General or the General Accounting Office in the audit and determinations relating to military pay entitlements, expenditures and accounting procedures.

To the Department of the Treasury in connection with check of Electronic Fund Transfer (EFT) payment issuance.

To the Veterans Administration in regard to Disability and Severence Pay and Educational benefits; the Social Security Administration for FICA Wage reporting.

To the Internal Revenue Service and state and local taxing authorities for computing or resolving tax liability.

To the Federal Reserve Banks for the distribution of payments made through the Direct Deposit System.

To financial organizations or their processing agents authorized by individuals to receive and deposit payments in their accounts.

To federal, state, or local government agencies when payments received through the JUMPS system impact payments or benefits issued by those agencies or when a specific matching program has been requested by the agency and approved by the Office of Management and Budget.

To the American Red Cross, Navy Relief Society, or U.S.O. for personal service to the member or allotment recipient.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Personal Financial Records containing Leave and Earnings Statements, which are paper records, are stored in wooden or metal boxes or cabinets. Copies of

Leave and Earnings Statements and supporting documents are stored in file folders and cabinets or on micro-film or microfiche. Automated records are stored on magnetic tapes, discs and punched cards.

RETRIEVABILITY:

Automated records are retrieved by Social Security Number and name. Documents are retrieved by sen or by an assigned internal document control number.

SAFEGUARDS:

Outside of normal working hours Personal Financial Records with Leave and Earnings Statements are secured in safes, vaults or locked cabinets. Substantiating documents and microfilmed records are retained in unlocked cabinets. During non-working hours, offices where the above-mentioned records are stored are locked.

The safeguards in the on-line automated system include the following controls: a. Physical access to CRT data entry terminals is under supervisory control. b. Access to central computer main frame, other peripheral equipment and tape and disc storage is strictly controlled. Individuals must sign in and be authorized admittance before access. c. Individual user identification codes and passwords are used to control access to automated records. d. Reports are issued that are used to help monitor the system to determine individuals who are accessing data.

Access to microfiche and microfiche readers and the respective data are maintained by supervisory control.

RETENTION AND DISPOSAL:

Personal financial records containing the twelve most recent leave and earning statements are retained by the Personnel Support Detachment or disbursing office servicing the Command to which the member is assigned. Copies of originating documents are retained by the local command for one year after submission and then destroyed. A central automated file is maintained for all active duty Navy personnel at the Navy Finance Center, Cleveland. Following a member's separation or retirement from the Navy, the member's Personal Financial Record is forwarded to the central site-Navy Finance Center, Cleveland, where it is retained for approximately two months pending individual claims and is then forwarded to the Federal Records Center. The member's Master Pay Account is retained at the central site for six months following a member's separation or retirement at which time it is purged from the computer file, microfilmed, and forwarded to the Federal Records Center. Substantiating documents are microfilmed and retained at the central cite for one year and then forwarded to the Federal Records Center.

SYSTEM MANAGER(S) AND ADDRESS:

Comptroller of the Navy; Commander, Naval Military Personnel Command; Commander, Navy Accounting and Finance Center; and Commanding Officer, Navy Finance Center.

NOTIFICATION PROCEDURE:

Individuals can be informed of any records maintained within the system by identifying themselves to the Personnel Support Detachment servicing that Command. The member may identify himself by presenting his military identification card. Former members may request information from the Navy Finance Center, Cleveland.

RECORD ACCESS PROCEDURES:

Individuals, properly identified, may request any information pertaining to their pay from their Personnel Support Detachment. If the requested information is not avilable locally, the disbursing officer will obtain the information from other sources, i.e. member's previous duty stations or the Navy Finance Center, Cleveland.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by individuals concerned may be obtained from the SYSMANGER.

RECORD SOURCE CATEGORIES:

Local Personnel Support Detachments and other disbursing and personnel offices, the Veterans Administration, the Navy Military Personnel Command, various taxing agencies, individual members and recipients of allotments and various Navy procedures and entitlements manuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

N07220-6

SYSTEM NAME:

Midshipman Pay System

SYSTEM LOCATION:

Primary - Superintendent, Naval Academy, Annapolis, MD 21402; decentralized segments - Commanding Officer, Navy Regional Finance Center, Washington, D.C. 20371, Commanding Officer, Navy Finance Center, Cleveland, OH 44199, and Commander, Naval Military Personnel Command (Code H-13), Navy Department, Washington, D.C. 20370.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Midshipmen of the U.S. Naval Academy, Annapolis, Maryland.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system contains automatic data processing pay accounts of all Naval Academy Midshipmen. Document flow is controlled by use of a Midshipmen Payroll Change form. Controls over the system are maintained by use of a Midshipmen Payroll Control Register. Input source documents include (1) letter authority from the Superintendent to the Midshipmen Pay Offices to open the pay (2) documents to substantiate credits of advances for initial clothing and equipment issues, commuted rations, refunds for clothing turn-in, and discharge payments (3) letters from the Commandant of Midshipmen to the Midshipmen Pay Officer containing listings of names and amounts to the checked for personnel services (4) documents to substantiate checkages for liquidation of clothing and equipment advances, store bills of midshipmen subscriptions to magazines, musical concerts, etc., and (5) required deductions for Federal Tax and FICA Tax. Output documents include printouts of (1) Midshipmen Monthly Pay Accounts (2) Midshipmen Debit and Credit Explanation Register and (3) Midshipmen Yearly Pay Account. Payroll money lists which substantiate payments made and travel payment vouchers are also in files. Monthly financial returns are submitted to the Navy Regional Finance Center, Washington, D.C. for consolidation with the accounts of that office and are then forwarded to the Navy Finance Center Cleveland, Ohio in accordance with procedures prescribed in NAVCOMPT Manual, par. 048080. Copies, of the financial returns are therefore, on file in these offices. In addition, copies of documents supporting Federal Income and FICA Taxes withheld are forwarded to the Commander, Naval Military Personnel Command (Code H-13).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

National Security Act Amendments of 1949 (10 U.S.C. 5060).

PURPOSE(S):

To accurately and efficiently maintain the pay accounts of Naval Academy Midshipmen; to pay and account for payments and collection of Naval Academy Midshipmen.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Internal Revenue Service and the Social Security Administration for reporting wages, FICA tax and federal tax paid.

To the American Red Cross, Navy Relief Society, and U.S.O. for personal assistance to the member.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Midshipmen Pay Office - Computer print-outs. ADP Office - Computer magnetic tapes.

RETRIEVABILITY:

Retrieved by Alfa Codes assigned to each midshipmen.

SAFEGUARDS:

Only Midshipmen Disbursing Office personnel are authorized access to records of that office. Only the computer operations are authorized access to the computer tapes. The computer area is restricted and computer tapes are locked in fireproof safes when not in use.

RETENTION AND DISPOSAL:

Pay information on the computer tapes is retained for 30 days and the tapes are then reused. Tapes containing Federal Income Tax and FICA Tax information are retained for 1 year until the required reports are rendered. The tapes are then reused. Retained copies of Midshipmen Pay Office forms are disposed of as follows: 1. Midshipmen Payroll Control Register - retain for 2 years and destroy. 2. Midshipmen Payroll Change - retain for 6 months and destroy. 3. Midshipmen Monthly Pay Account - retain for 4 years, from admission of each class through month following its graduation and destroy. 4. Midshipmen Debit and Credit Explanation Register - same as 3, above. 5. Midshipmen Yearly Pay Account - same as 3, above. Other disbursing records and financial returns are retained 4 years follow period covered by the account and transferred to the Federal Records Center in accordance with SECNAV Instruction P5212.5b.

SYSTEM MANAGER(S) AND ADDRESS:

Overall policy and procedures - Comptroller of the Navy; primary - Superintendent, Naval Academy; decentralized segments - Commanding Officer, Navy Regional Finance Center, Washington, D.C., Commanding Officer, Navy Finance Center, Cleveland, Ohio and Chief of Naval Personnel (Code H-13) Washington, D.C.

NOTIFICATION PROCEDURE:

Individuals can be informed of any records maintained in the system by identifying themselves to Midshipmen Pay Office. Members must present his identification card to obtain requested information.

RECORD ACCESS PROCEDURES:

Midshipmen are issued a monthly earnings statement. All information concerning credits and checkages of pay and allowances are contained in the statement. Additional required information relative to miscellaneous changes reflected on the statement may be obtained from the individual Academy activity which reported the changes to the Midshipmen Pay Office upon presentation of his identification card.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individuals concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Members service record on file in the Midshipmen Personnel Office and those documents contained in RECORD-CATEGORY, above.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

H07220-7

SYSTEM NAME:

Travel Pay System

SYSTEM LOCATION:

Decentralized, maintained by Navy disbursing offices; a list is available from:
Commander
Navy Accounting and Finance Center
(NAFC-44)
Washington, D.C. 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any person, government or private, who submits a request for payment of a travel advance or travel claim to a Navy disbursing office.

CATEGORIES OF RECORDS IN THE SYSTEM:

Public vouchers; substantiating documents such as travel orders and expense receipts; card file or log book; automated records stored on magnetic program cards, tapes, disks, drums or punched cards utilized to control receipt and disposition of travel claims; suspense files, pay adjustments authorization, and payroll checkages utilized for control and follow-up on travel advances; debtor information records; and correspondence relating thereto.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To reimburse any person, government or private, for travel expenses and to record, account and report for government funds. To provide a historical file and audit trail for travel payments made by the Navy; to provide a means to respond to inquiries from travelers on status of claims; to control travel advances to insure liquidation; and to provide a means for collection in cases of over advances.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

DISCLOSURE TO CONSUMER REPORTING AGENCIES

Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a(b)(12)), debtor information may be released to consumer reporting agencies as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f) or the Federal Claims Collection Act of 1966 (U.S.C. 3701(a)(3)).

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic program cards, disk, tape, hard copy forms, paper records in file folders, index cards or log books.

RETRIEVABILITY:

Travel claims which are computed with automatic data processing equipment are retrieved by using the SSN. Manually computed travel claims are retrieved by disbursing office voucher number and SSN. Card index files and log books are retrieved by name and SSN.

SAFEGUARDS:

The safeguards in the automated system include the following controls; (1) Physical access to video display terminals is under strict supervisory control, (2) Access to the computer

peripheral equipment, program cards, tapes and disk storage is strictly controlled. (3) Individual user identification codes and passwords are used to control access to automated records. (4) Reports are issued that are used to help monitor the system to determine individuals who are accessing data. (5) Output products and storage media are stored in locked cabinets or rooms with building or military base security. (6) Positive identification is established prior to releasing personal information to an individual, and (7) Output products and storage media are labeled to warn individuals that they contain personal information subject to the Privacy Act(e.g., Personal Data-Privacy Act of 1974). Access is authorized to personnel engaged in travel claim processing, supervisory or management personnel, and inspectors, auditors, investigators. Travelers are authorized access to their own travel records; fund administrators are authorized access to records pertaining to their own funds.

RETENTION AND DISPOSAL:

The automated record is retained no longer than one year following the final settlement of a travel claim. Records recorded on magnetic program cards, tapes, disks, and drums will be disposed of by degaussing or erasing. A history/inactive hard copy file is maintained no longer than four years. Records may be moved to a regional Federal Records Center depending on local storage capability.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Navy Accounting and Finance Center, (Code NAFC-44), Washington, DC 20376. A list of the Navy disbursing offices is available from the Systems Manager.

NOTIFICATION PROCEDURE:

If the individual is a traveler and knows the location of the Navy disbursing office processing his/her travel claim, direct contact with that office is sufficient. If unknown, or the inquirer is not a traveler, the inquiry should be submitted to the Commander, Navy Accounting and Finance Center, address above. Requestor should provide full name, social security number, whether military or civilian, and, if possible, disbursing office voucher number, dates of travel, and date and location of travel claim or travel advance submission. An individual is permitted to visit any Navy disbursing office to which he/she has submitted an advance or claim. Military identification card or civilian identification such as driver's license is sufficient.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Travel advances and travel claims are filed by individuals who provide information (name, SSN, etc) on themselves. Supporting documentation is obtained from the associated travel order, employing commands, service providers (e.g., receipt of taxis), and Navy disbursing offices.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N07220-1

SYSTEM NAME:

Navy Standard Civilian Payroll System (NAVSCIPS)

SYSTEM LOCATION:

Decentralized, maintained by 72 Navy and 1 Marine Corps civilian payroll offices; a list is available from:
Commander
Navy Accounting and Finance Center
(NAFC-42)
Washington, D.C. 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian employees who are employed by Navy and Marine Corps Activities and are paid from appropriated funds

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual civilian pay records, retirement records and leave records, applications for leave; overtime authorizations; substantiating documents such as personnel action forms effecting new appointments, separations, promotions, demotions, and deduction changes; Internal Revenue Service Form W-4; State and City tax information; authorizations for deductions, i.e., savings bonds, group life insurance, health benefits, overpayments, indebtedness to the Government; court orders for garnishment of wages for child support and alimony payments; allotments, i.e., union dues, charity contributions, savings allotments, special allotments for overseas employees; tax levies; claims; award payments; special pay; allowances and differentials, and case files which contain requests for waiver of erroneous payment of pay for civilian employees.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 5301, Pay Rates and Systems, Pay Comparability System Policy

PURPOSE(S):

To pay Navy and Marine Corps civilian employees, maintain leave and retirement records and to record, report and account for government expenditures for personal services. To provide time and attendance information to individual employees and management; and to provide audit trails for GAO, Navy Area Audit, and internal audit procedures; to provide federal, state, and city tax information to appropriate authorities.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials and employees of the Office of Personnel Management related to retirement information and monies for computation of annuities. Provides other data, as required for special studies.

To officials and employees of the Department of the Treasury in connection with check issuances.

To officials and employees of the Veterans Administration regarding Disability or Severence Pay Entitlement.

To officials and employees of the Social Security Administration for FICA and FITW wage reporting.

To state and local tax authorities for computing or resolving tax liability.

To state employment agencies which require wage information to determine eligibility for unemployment compensation benefits of former employees.

To financial organizations to provide lists of those employees who make deposits and the amount of the deposit to each financial organization.

To officials of labor organizations who are recognized under E.O. 11491, as amended, with information as to the identity of employees contributing dues each pay period and the amount of dues withheld from each contributor.

To the General Accounting Office, for waiver of overpayments of pay which are forwarded to them for adjudication.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records are stored on magnetic tapes, disc, microfilm/microfiche and punched cards. Manual records on manual card files and in file folders.

RETRIEVABILITY:

By name, social security number, or locally assigned identification number.

SAFEGUARDS:

Locked fireproof cabinets for retirement records. Metal cabinets for manual payroll and leave records within locked rooms. The computer facility and terminal are located in restricted areas accessible only to authorized persons that are properly screened, cleared and trained. Manual records and computer printouts are available only to personnel engaged in payroll processing, auditors, investigative officials and management personnel.

RETENTION AND DISPOSAL:

Payroll records are maintained on-site for 6 years, then shipped to Federal Record Center where they are retained for 56 years.

Leave Records - same as above, except held by Federal Record Center for 10 years.

Retirement Registers - same as above, except are destroyed rather than sent to Federal Record Center. Retirement records are maintained until employee separates; if he/she goes to another Navy or Marine Corps activity, retirement records are sent to that activity; if he/she goes to another agency or separates, sent to OPM.

SYSTEM MANAGER(S) AND ADDRESS:

Overall policy and procedure for the Civilian Payroll System are established by the Commander, Navy Accounting and Finance Center, Washington, D.C. 20376. A list of the system managers by payroll activity is available from Navy Accounting and Finance Center (NAFC-42).

NOTIFICATION PROCEDURE:

Civilian employees can directly contact the system manager of his payroll activity. If unknown, the inquiry should be submitted to the Commander, Navy Accounting and Finance Center, address above. Requestor should provide full name, social security number, identification number, if applicable, activity where employed and information desired. An individual can visit his/her payroll office on any matter concerning his/her pay.

RECORD ACCESS PROCEDURES:

Employees have access to their individual pay, leave and retirement records. The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Standard Form 50's (Personnel actions), time and attendance records, applications for leave and overtime authorizations, retirement records, federal state and tax forms, deduction authorizations, allotment authorizations, court orders for garnishment of wages for child support and alimony payments.

N07240-1

SYSTEM NAME:

Commercial Invoice Payments History System

SYSTEM LOCATION:

Decentralized, maintained by Navy disbursing offices; a list is available from
Commander
Navy Accounting and Finance Center
(NCF-5)
Washington, D.C. 20376

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual, government or private, who submits a request for payment to Navy disbursing offices for goods and/or services rendered.

CATEGORIES OF RECORDS IN THE SYSTEM:

Public vouchers; substantiating documents such as invoices, receipt documents, inspection reports, procurement instruments, contract index files, assignment documents, machine listings, government bills of lading, transportation requests, meal tickets; magnetic tape, disk files, roll microfilm, microfiche; and related correspondence files.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To provide a record of all disbursements made on commercial invoices by Navy disbursing offices; provides an audit trail of commercial invoice payments made by the Navy; provides a means to respond to inquiries from individuals on status of invoices and contracts; provides a means of detecting and precluding duplicate payments.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; computer magnetic tapes; roll microfilm, microfiche.

RETRIEVABILITY:

Retrieved by disbursing office voucher number for paid invoices; retrieved by procurement instrument identification number for contractors by contract index cards; retrieved by name of individual from machine listings. Information in disbursing office voucher file and microfilm/microfiche can be retrieved by name through search process if billing/submission date is known.

SAFEGUARDS:

Locked cabinets or rooms, with building or military base security. Access authorized to designated personnel engaged in commercial invoice processing, supervisory or management personnel, and inspectors, auditors, investigators. Individuals are authorized access to their own payment history file; fund administrators are authorized access to records pertaining to their own funds.

RETENTION AND DISPOSAL:

Records are maintained for four years. Records may be moved to a regional Federal Records Center depending on local storage capability. No standard means for destruction exists.

SYSTEM MANAGER(S) AND ADDRESS:

Commercial invoice payment history requirements are prescribed by the Comptroller of the Navy in its Manual (NAVSO P-1000); a list of Navy disbursing offices authorized to pay invoices can be obtained from the Commander, Navy Accounting and Finance Center (NCF-5), Washington D.C. 20376.

NOTIFICATION PROCEDURE:

If the individual knows the location of the Navy disbursing office holding his/her invoice payment history, direct contact with that office is sufficient. If location is unknown, the inquiry should be directed to the Commander, Navy Accounting and Finance Center, address above. Inquirer should provide full name, social security number, whether military or civilain, contract or purchase order number and, if possible, disbursing office voucher number, invoice date, number and amount. An individual is permitted to visit any Navy disbursing office to which he/she has submitted an invoice for payment. Identification should include military identification card, civilian identification such as driver's license and company or agency affiliation. Access to classified contracts requires confirmation of security clearance and need to know.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for conteating contents and appealing initial determination by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Commercial invoices are filed by individuals who provide information on themselves. Supporting documentation is obtained from employing company, material/service providers and receivers and Navy disbursing offices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Accountable Navy and Marine Corps military and civilian disbursing personnel and collection agents who request relief from liability for losses of public funds in their custody.

CATEGORIES OF RECORDS IN THE SYSTEM:

Copies of requests submitted by individuals of the above-stated category for grant of relief from liability, together with information voluntarily furnished by the affected individuals concerning the circumstances of losses of funds in their custody, and additional information derived from investigatory and audit reports and comments of forwarding endorsers concerning circumstances of losses.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

31 U.S.C. 95a., 82a-1, 82a-2;
5 U.S.C. 301
44 U.S.C. 3101

PURPOSE(S):

To determine within the Department of the Navy and GAO as to whether the circumstances of particular losses of public funds warrant granting accountable individuals' requests for relief from liability.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in file folders.

RETRIEVABILITY:

By name of individual requesting relief.

SAFEGUARDS:

Files are maintained in file cabinets under the control of personnel during working hours; the office space in which the file cabinets are located is locked outside official working hours.

RETENTION AND DISPOSAL:

Records are permanent and are retained indefinitely in the Office of the Judge Advocate General. However, after three years, name indexes are destroyed, eliminating the capability for retrieval by the names of individuals. Thereafter, they are retrievable only by topical indexes arranged according to the legal issues involved.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Judge Advocate General (Civil Law), Office of the Judge Advocate General, Department of the Navy, 200 Stovall St., Alexandria, Va. 22332

NOTIFICATION PROCEDURE:

Information may be obtained by written request to the system manager stating the full name of the individual concerned and the approximate date on which relief was requested. Written requests must be signed by the requesting individual. visits may be made to: Civil Affairs Division (Code 12), Office of the Judge Advocate General, Room 9N11, Hoffman Bldg II, 200 Stovall St., Alexandria, Va. 22332. Armed forces identification card or state driver's license is required for identification.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information in the system is furnished partly by the individual requesting relief, and is supplemented by reports of Department of the Navy audits and investigations pertaining to the particular losses of funds involved. Additional amplifying information is typically furnished by officers forwarding requests to the Secretary of the Navy.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE.

N07300-2

SYSTEM NAME:

Resource Accounting and Project Tracking System (RAPTS)

SYSTEM LOCATION:

Navy Fleet Material Support Office, P. O. Box 2010, Mechanicsburg, Pennsylvania 17055.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All currently employed civilian and military personnel of the Navy Fleet Material Support Office. May include private contractors who work on Navy Fleet Material Support Office projects.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's name, social security number, pay number, grade, step, job title, job series, military or civilian designator, organizational code, leave schedule, hourly rate of pay, civilian position description number, pay plan, veteran preference, service computation date, supervisory designator, tenure group, exemption code, target grade.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301

PURPOSE(S):

To monitor the current status of projects under development at the Navy Fleet Material Support Office; to report status and labor charges against functional cost accounts.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk, magnetic tape and hard copy forms.

RETRIEVABILITY:

RAPTS users obtain information by means of query or standard batch reports. Data may be indexed by any data items with entry keys using employee organization, sort key and employee initials.

SAFEGUARDS:

Access to computer room after hours is controlled by card key and pass number locking device. The system is protected by the following software feature: password sign-on.

RETENTION AND DISPOSAL:

All active records are stored on random access files. Once a project is complete, all data for that project is moved to a history file which is maintained on magnetic tape. Project record data is maintained for three years in the history file. After three years the project record will be erased.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Navy Fleet Material Support Office, P. O. Box 2010, Mechanicsburg, Pennsylvania 17055.

NOTIFICATION PROCEDURE:

Information should be obtained from the System Manager. Requesting individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the civilian personnel files of the Consolidated Civilian Personnel Office, Mechanicsburg, Pennsylvania and from the individual to whom it applies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N07220-1

SYSTEM NAME:

Property Accountability Records

SYSTEM LOCATION:

At all activities

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any Department of the Navy employee (military or civilian) receiving government property for which he must sign a receipt.

CATEGORIES OF RECORDS IN THE SYSTEM:

The receipts maintained are any of the following: logbooks, property passes, custody chits, charge tickets, sign out cards, tool tickets, sign out forms, photographs, charge cards, or any other statement of individual accountability for receipt of government property.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301

PURPOSE(S):

To identify individuals to whom government property has been issued.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The receipts may be maintained in any of the following formats: logbooks, property passes, custody chits, charge tickets, sign out cards, tool tickets, sign out forms, photographs, charge out cards or any other statement of individual accountability for receipt of government property.

RETRIEVABILITY:

Retrievability may be by any of the following: name, badge number, tool number, property serial number, or any other locally determined method of property receipt accountability.

SAFEGUARDS:

The receipts are unclassified.

RETENTION AND DISPOSAL:

Retention of receipts for property is at the discretion of the local activity responsible for the property being issued.

SYSTEM MANAGER(S) AND ADDRESS:

Overall policy official: no designated official The system manager is the commanding officer or officer in charge of the activity where the property accountability records are maintained.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether system records contain information pertaining to them may do so by making application to the commanding officer or officer in charge of the activity where the receipts are located. Individuals making application must have a Department of the Navy approved identification card.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Information is collected directly from the subject individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N07401-1

SYSTEM NAME:

Bingo Winners

SYSTEM LOCATION:

Decentralized, maintained at Navy and Marine Corps stateside and overseas bases, where bingo is authorized and played. Inquiries should

be addressed to the local activity or to the:
Chief of Naval Personnel (Pers-7)
Bureau of Naval Personnel
Washington, D.C. 20370 (for naval activities); and the
Commandant of the Marine Corps (MSMS)
Washington, D.C. 20380 (for Marine Corps activities).

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individual U.S. citizens 18 years of age and older who are paid monies/prizes of $1,200 or more for one-time winnings associated with bingo.

CATEGORIES OF RECORDS IN THE SYSTEM:

Bingo payout control sheet indicating individual name, grade, SSN, duty station, dates and amounts of bingo monies paid.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031; Section 6041, Internal Revenue Code; BUPERSINST 1710 series; Manual for Messes Ashore, NAVPERS 15951; MCO P-1745.15 series; and NAVSO P-3520.

PURPOSE(S):

Navy and Marine Corps shore activities use this file (where bingos have been authorized) to account for and control monies and items of merchandise paid to individual winners of bingo games and as a basis for IRS Forms W-2G and 5754, reporting on individuals whose one-time winnings are $1,200 or more. To provide a means of paying, recording, accounting for, reporting, and controlling expenditures and merchandise inventories associated with bingo games.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records maintained in file cabinets located in a secure area.

RETRIEVABILITY:

Individual control sheets. Individual IRS Form W-2G by name and SSN.

SAFEGUARDS:

Records are kept in occupied rooms which are locked during non-working hours.

RETENTION AND DISPOSAL:

Records are maintained on site for 3 years and then shipped to the Federal Records Center in accordance with SECNAVINST 5212.5 series.

SYSTEM MANAGER(S) AND ADDRESS:

Overall policy and procedures for the bingo operations are contained in NAVSO P-3520, BUPERSINST 1710 series and MCO P-1746.15 series. A list of system managers by activity is available from the Chief of Naval Personnel (Pers-7) for Navy managers and the Commandant of the Marine Corps (MSMS) for Marine Corps managers.

NOTIFICATION PROCEDURE:

Individuals are notified via IRS Form W-2G if their one-time bingo winnings are $1,200 or more. An individual can contact the applicable systems manager on matters concerning their bingo winnings.

RECORD ACCESS PROCEDURES:

Individuals have access to information applicable to their individual bingo winnings. Officials such as the IRS have access to information applicable to all bingo winners. Access is through the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Bingo payout control sheets.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

NONE

N07430-1

SYSTEM NAME:

Accounts Receivable System

SYSTEM LOCATION:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who have been paid more funds by the Department of the Navy than to which they were legally entitled.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documentation which established overpayment status, financial status affidavit, payment record, credit reference, and miscellaneous correspondence to and from the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

80 Stat 308 and 88 Stat 399, Federal Claims Collection Act of 1966 (P.L. 89-508) and Debt Collection Act of 1982 (Pub. L. 97-365).

PURPOSE(S):

To maintain an automated tracking and accounting system for individuals indebted to the Department of the Navy.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

If any account is delinquent and circumstances warrant, records may be released to the General Accounting Office and the Department of Justice for collection action. Data on individuals with delinquent accounts may be given to credit reporting agencies for the purpose of either adding to a credit history file or obtaining a credit history file; to asset reporting agencies for obtaining an asset report; and, to commercial collection agencies for collection action, in accordance with Debt Collection Act of 1982 (Pub. L. 97-365).

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, magnetic tape, disc, microfiche

RETRIEVABILITY:

Social security number and individual's name

SAFEGUARDS:

Personnel screening, requester codes

RETENTION AND DISPOSAL:

Files of accounts which are paid in full will be maintained for 3 years after final payment. Other files will be maintained for 6 years after termination of collection action.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

NOTIFICATION PROCEDURE:

Individuals may write to the system manager at the above address. Information request must contain individual's full name and should include the Social Security number.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Disbursing officers, credit bureaus, the individual, Internal Revenue Service, Postmasters, Veterans Administration, Bureau of Motor Vehicles.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N07431-1

SYSTEM NAME:

Savings Deposit

SYSTEM LOCATION:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy members still declared missing in action in the Vietnam conflict.

CATEGORIES OF RECORDS IN THE SYSTEM:

Members records reflecting account balances

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Law 89-538

PURPOSE(S):

To credit interest and to clear accounts upon termination. Records will be furnished to Navy Family Allowance Activity and other Department of Defense agencies servicing families of persons still having active accounts.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Internal Revenue Service upon termination of account.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape and file folders

RETRIEVABILITY:

Social security number and member name

SAFEGUARDS:

Guards, personnel screening, and specific requestor codes

RETENTION AND DISPOSAL:

Upon closing of account, records are shipped to FRC and destroyed after two years.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, Navy Finance Center, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199

NOTIFICATION PROCEDURE:

Individuals may write to system manager at above address. Only the member or executor or benificiary of estate will be provided information. Individual's name and social security number are required. Persons wishing to view records in person must report to the Navy Family Allowance Activity, Room 967, Anthony J. Celebrezze Federal Building, Cleveland, Ohio 44199.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

N09593-1

SYSTEM NAME:

Naval Environmental Training System (NETS)

SYSTEM LOCATION:

Naval Energy and Environmental Support Activity/Facilities Support Office (NEESA/FACSO), Naval Construction Battalion Center, Port Hueneme, California 93043.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy sewage treatment operators, and water treatment operators.

CATEGORIES OF RECORDS IN THE SYSTEM:

The NETS contains both data on treatment plants and treatment plant operations. Data includes social security number, name, treatment plant number and location, operators grade/rank, certification level, level of education, job experience (past and present), job title and number of years in direct responsible charge for the treatment plant(s). Additional data covers operator training, such as course number, title, content, location, total course hours, and date completed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 12088 of 13 October 1978

PURPOSE(S):

To monitor the current status of Navy water/wastewater treatment plants and its operators.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disks, tapes and hard copy forms.

RETRIEVABILITY:

Users obtain information by means of a request via the NEESA Office, Port Hueneme, California.

SAFEGUARDS:

Access to the Construction Battalion Center is restricted at all times. The system is protected by the following software features: password sign-on, set and item authority for list, add, delete and update.

RETENTION AND DISPOSAL:

All data on a particular individual is maintained until he/she retires, dies or changes career. Data is updated every year. Records are retained on magnetic tapes. Records are erased from the tape during system updates if applicable.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Facilities Engineering Command, (Code 112), 200 Stovall Street, Alexandria, Virginia 22332.

NOTIFICATION PROCEDURE:

To record the individuals holding a ration card.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

Name.

SAFEGUARDS:

Locked safe in Admin Office and a 24 hour security watch.

RETENTION AND DISPOSAL:

Records are maintained as long as member retains ration card. After transfer records are burned.

SYSTEM MANAGER(S) AND ADDRESS:

Commanding Officer, U.S. Naval Radio Station, FPO New York 09516 is overall policy official with the Administrative Officer, U.S. Naval Radio Station, FPO New York 09516 as the subordinate holder.

NOTIFICATION PROCEDURE:

Inquiries sould be addressed to U.S. Naval Radio Station, FPO New York 09516, giving full name and social security number, and personal visitors must have valid military I.D. or, if no longer in the military, have other valid identification such as a driver's license. Visitors may come to the Administrative Office at the address given under SYSMANAGER.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Applicable U.S. Serviceman.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N10140-6

SYSTEM NAME:

Gasoline Ration System

SYSTEM LOCATION:

Officer in Charge, U.S. Naval Weapons Facility, Detachment, FPO New York 09515

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All personnel stationed aboard NAVWPNSFACDET Machrihanish who own private vehicles and wish to purchase Navy Exchange Gasoline.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record on each individual contains information on: vehicle description; dates of vehicle insurance, inspection and tax; United Kingdom address of individual and amount of gasoline allowed.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5USC301

PURPOSE(S):

Information is used by Transportation Officer to allocate ration coupons to authorized pesonnel.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Index cards in holder.

RETRIEVABILITY:

Name

SAFEGUARDS:

Locked in combination safe in an office which is locked when unmanned. Only Transportation Officer knows combination to safe.

RETENTION AND DISPOSAL:

Records are destroyed by shredding or burning approximately one year after transfer of individual.

SYSTEM MANAGER(S) AND ADDRESS:

Officer in Charge, U.S. Naval Weapons Facility, Detachment, FPO New York 09515

NOTIFICATION PROCEDURE:

Individuals wishing to ascertain if records concerning them are still retained may contact the System Manager.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Information concerning vehicles, insurance, inspection and tax is copied from the appropriate document as provided by the individual. Other information is received from the individual directly.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N10140-7

SYSTEM NAME:

Application for U.S. Navy Ration Permit

SYSTEM LOCATION:

Officer in Charge, U.S. Naval Weapons Facility, Detachment, FPO New York 09515

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All personnel stationed at NAVWPNSFACDET Machrihanish desiring to utilize U.S. Navy Exchanges in the United Kingdom.

CATEGORIES OF RECORDS IN THE SYSTEM:

Record includes: Name, rank/rate, SSN, date of birth (if under 18), and marital status of serviceman; location, name, relationship, date of birth (if under 18) and ID card number of dependents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5USC301

PURPOSE(S):

To prepare ration cards used in U.S. Military Exchanges in the U.K. and to maintain a record in case of loss of those cards.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Index cards in file box.

RETRIEVABILITY:

Name

SAFEGUARDS:

Maintained in an office that is locked when unmanned.

RETENTION AND DISPOSAL:

Cards are destroyed by shredding or burning upon transfer of serviceman.

SYSTEM MANAGER(S) AND ADDRESS:

Officer in Charge, U.S. Naval Weapons Facility, Detachment, FPO New York 09515

NOTIFICATION PROCEDURE:

Records are held only on personnel currently stationed at NAVAVNWPNSFAC Machrihanish who can enquire at the Administrative Office concerning the records.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

The information is provided by the serviceman.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N11012-1

SYSTEM NAME:

Navy Personnel Billeting System (NPBS)

SYSTEM LOCATION:

Navy Regional Data Automation Center, San Diego (NARDAC), Naval Air, Station, North Island, San Diego, California 92135.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All bachelor military (officers and enlisted) and bachelor civilian personnel requesting berthing currently or in the future at a command where this system is installed may be covered by this system.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's social security number, name, duty station, forwarding address and home address.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031

PURPOSE(S):

To manage the BEQ/BOQ complex; to report status of berthing availability, furniture and maintenance associated with a BEQ/BOQ complex.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic disk, magnetic tape, and hard copy reports.

RETRIEVABILITY:

Name and/or SSN.

SAFEGUARDS:

Access to computer room, software and storage media requires special positive identification clear through security department. System access from remote terminals is controlled by codes used site ID's.

RETENTION AND DISPOSAL:

An individual's reservation record is maintained on disk for six months and is then system deleted.

SYSTEM MANAGER(S) AND ADDRESS:

Naval Regional Data Automation Center, Requirements Analysis and Design Division, Code 41, Building 334, Naval Air Station, North Island, San Diego, California 92135.

NOTIFICATION PROCEDURE:

Information should be obtained from the system manager. Requesting

individuals should specify their full names. Visitors should be able to identify themselves by any commonly recognized evidence of identity. Written requests must be signed by the requesting individual.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the System Manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the System Manager.

RECORD SOURCE CATEGORIES:

Information in this system comes from the individual to whom it applies in the form of navy messages and/or travel orders.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N11101-1

SYSTEM NAME:

Family Housing Assignment Application System

SYSTEM LOCATION:

All Navy activities with family housing assets.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military and civilian personnel eligible for or interested in occupying Navy family housing.

CATEGORIES OF RECORDS IN THE SYSTEM:

All applicants for family housing provide information to housing office at next duty assignment pertaining to personal data, e.g., name, address, rank/rate, social security number/service number, length of service, time remaining on active duty, data of rank, etc.; dependency data, e.g., total number in family, spouse, age and sex of dependents, etc.; and other pertinent housing information, e.g., last assignment, months involuntarily separated, special health problems, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

All Navy family housing offices use this data to determine individual's eligibility for family housing and notification for subsequent assignment to family housing or granting a waiver to allow occupancy of private housing. To determine and list individual's name on appropriate housing waiting list.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File Folders

RETRIEVABILITY:

By individual's name.

SAFEGUARDS:

Housing files within the housing office, used solely within the housing organization and protected by military installation's security measures. Individual may, upon request, have access to housing application form.

RETENTION AND DISPOSAL:

Data is retained until termination of housing occupancy and subsequently disposed of according to local records disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Naval Military Personnel Command, PERS-71, 1000 North Glebe Road, Arlington, Virginia 20370

NOTIFICATION PROCEDURE:

Records are maintained by housing office at the Navy activity responsible for management of assets from data specifically provided by individual on DD Form 1646, Application for and Assignment to Military Family Housing. Individual may request access to such data upon proof of identity (ID card).

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from installation family housing office.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the installation family housing office.

RECORD SOURCE CATEGORIES:

Data collected from each applicable individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

N11101-2

SYSTEM NAME:

Family Housing Requirements Survey Record System

SYSTEM LOCATION:

Military installations with family housing offices

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Officer and enlisted personnel and only key and essential civilian personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Non-individual oriented input documents that reflect local housing assets; family housing survey questionnaires indicating family size, individual preference for housing, housing cost, and indication as to suitability of housing for need of individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To determine the housing requirement for the location to support proposed family housing construction, leasing, mobile home spaces and other military construction programs submitted for OSD support and Congressional approval.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETREIVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Magnetic tape and file folders

RETRIEVABILITY:

Social Security Number.

SAFEGUARDS:

Housing files used solely within housing office; tape files used solely within data processing system; and protected by the military installation's security measures.

RETENTION AND DISPOSAL:

Held three years and destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Overall policy official: Naval Facilities Engineering Command, 200 Stovall Street, Alexandria, Virginia

22332. Subordinate record holders of questionnaires: family housing office at military installation.

NOTIFICATION PROCEDURE:

Contact housing office of installation at which individual was assigned when the individual completed the family housing questionnaire.

RECORD ACCESS PROCEDURE:

The agency's rules for access to records may be obtained from the installaton family housing office.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing in..ial determinations by the individual concerned may be obtained from the installation family housing office.

RECORD SOURCE CATEGORIES:

Data collected from each applicable individual.

N11101-3

SYSTEM NAME:

Family Housing Mock Utility Billing System

SYSTEM LOCATION:

Ten test sites: Pacific Missile Test Center, Point Mugu, California; Construction Battalions Center, Port Huememe, California; Public Works Center, Great Lakes, Illinois; Marine Corps Development and Education Command, Quantico, Virginia; Fort Eustis, Virginia; Fort Gordon, Georgia; Marine Corps Air Station, Beaufort, South Carolina; Little Rock Air Force Base, Arkansas; Cannon Air Force Base, New Mexico; Yuma Proving Grounds, Arizona; Central Processing Site: Harry Diamond Laboratories, White Oak, Maryland.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Military and Civilian personnel occupying housing units selected at the ten test sites.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system is to produce mock utility bills and management reports on the usage of gas, fuel oil, electricity, steam, propane, and hot water heat for a representative cross section of approximately 10,000 military family housing units. Information as to name, address, rank/rate, number of dependents, house phone number, account number and utility consumption will be maintained for a 15 month period.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Public Law 95-82 (Military Construction Authorization Act, 1978); 5 U.S.C. 301 Departmental Regulations.

PURPOSE(S):

To measure energy consumption in military family housing units.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

Magnetic tape, disk, punched card, and file folders.

STORAGE:

Account number

RETRIEVABILITY:

Housing files are used solely within housing office; magnetic tape, punched card, and disk files used solely within the security measures.

SAFEGUARDS:

Held 5 years and destroyed by authority SECNAVINST P5212.5B, para. 11300.

RETENTION AND DISPOSAL:

Naval Facilities Engineering Command, 200 Stovall Street, Alexandria, Va 22332

SYSTEM MANAGER(S) AND ADDRESS:

Records are maintained by the housing office at the service activities participating in the test. Individual may request access to such data upon presenting proof of identity (ID) card.

NOTIFICATION PROCEDURE:

The agency's rules for access to records may be obtained from the installation family housing office.

RECORD ACCESS PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

Data collected from each individual and utility consumption data obtained from monthly meter readings.

RECORD SOURCE CATEGORIES:

None

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N11101-4

SYSTEM NAME:

Station Housing Records

SYSTEM LOCATION:

All Navy installations with housing inventories and/or housing management responsibilities.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military personnel desiring housing or temporary lodging, and eligible DOD civilian employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

All records and data collected and maintained regarding individual housing or lodging needs; occupancy; furnishings inventory; housing condition reports; assignment and termination of housing; damage assessment; occupant and landlord relations and complaints; maintenance and repairs; waiting lists; inspections; quarters cost data; Congressional and Inspector General inquiries and responses; Servicemen's Mortgage Insurance Premiums payments; individual cost data for establishing and maintaining housing allowances; eligibility for homeowners' assistance; and entitlement for basic allowances for quarters (BAQ).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Departmental Regulations

PURPOSE(S):

To operate and maintain the Navy Housing Program and to service personnel eligible for Navy family housing, temporary lodging, or services.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, card files; microform; or, if automated, on punched cards, magnetic tape, etc.

RETRIEVABILITY:

By individual's name or building and unit number.

SAFEGUARDS:

Housing files within the housing office, used solely with the housing organization and offices providing support to housing office, and protected by military installation's security measures. Individual may, upon request, have access to such data.

RETENTION AND DISPOSAL:

Retained in office files until termination of occupancy, obsolete, no longer needed for reference, or disposal of associated housing unit(s).

SYSTEM MANAGER(S) AND ADDRESS:

Appropriate Navy installation responsible for Navy housing inventory or housing support.

NOTIFICATION PROCEDURE:

Records are maintained by housing office at Navy installation responsible for management of assets or providing housing support. Individual may request access to such data upon proof of identity (ID card).

RECORD ACCESS PROCEDURES:

Installation rules for access to records may be obtained from installation housing office.

CONTESTING RECORD PROCEDURES:

The installation rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the installation system manager.

RECORD SOURCE CATEGORIES:

Data reported by or collected from occupants of housing or personnel provided housing support.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N11103-1

SYSTEM NAME:

Housing Referral Services Record System

SYSTEM LOCATION:

All Navy installations with housing referral offices

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All military personnel reporting to an installation who will be residing off-base desirous of seeking off-base housing.

CATEGORIES OF RECORDS IN THE SYSTEM:

Information is collected on DD Form 1668 from all military personnel reporting to a housing referral office as pertains to name, grade, branch of service, organization and location, local address; housing need, e.g., rental/sale, number of bedrooms, furnished/unfurnished, price range, etc.; number of dependents, male or female, and age; a list of housing referral services provided; and identification of member of racial or ethnic minority groups. Individuals provided referral assistance must in turn provide notification of housing selection by use of DD Form 1670 which includes such information as type of housing selected, e.g., location, temporary/permanent, rental/sale, cost, number of bedrooms; media through which housing was found, e.g., housing referral, realtor, newspaper, etc.; and satisfaction with selection, e.g., too small, too far; discrimination encountered; and satisfaction with housing referral services provided.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301 Department Regulations

PURPOSE(S):

Referral offices use data to assist and counsel individuals in locating suitable housing off-base, used for follow-up purposes when written notification from individual is not provided as to ultimate location of housing; used for purposes of reporting statistics on field activity housing referral services; used to follow-up on availability of rental unit subsequent to occupant's receipt of PCS orders; and follow-up regarding tenant/landlord complaints.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File Folders

RETRIEVABILITY:

By individual's name

SAFEGUARDS:

Housing files within the housing referral or housing office, used solely within the housing organization and protected by military installation's security measures. Individual may upon request, have access to all such data.

RETENTION AND DISPOSAL:

Data is retained until individual's tour is completed and subsequently disposed of according to local records disposition instructions.

SYSTEM MANAGER(S) AND ADDRESS:

Naval Facilities Engineering Command (Code 08), 200 Stovall Street, Alexandria, Virginia 22332

NOTIFICATION PROCEDURE:

Records are maintained by housing referral offices at the Navy activity responsible for providing referral services for military personnel in the area. Individual may request access to records upon proof of identify (ID card).

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from installation family housing office.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the installation family housing office.

SYSTEM NAME:

Record System for Civilian Employees of Nonappropriated Fund (NAF) Activities

SYSTEM LOCATION:

Primary System-Naval Military Personnel Command, Washington, D.C. 20370; and local activity to which individual is assigned (see Directory of the Department of the Navy Mailing Addresses); National Personnel Records Center, St. Louis, Missouri 63132.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Civilian employees of Nonappropriated Fund Activities under the cognizance of the Commander, Naval Military Personnel Command.

CATEGORIES OF RECORDS IN THE SYSTEM:

Correspondence and records pertaining to performance, employment, pay, classification, security clearance, personnel actions, medical, insurance, retirement, tax withholding information, exemptions, unemployment

BEST COPY AVAILABLE

compensation, employee profile, education, benefits, discipline and administration of nonappropriated fund civilian personnel.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 301. Department Regulations
Public Law 92-392
Fair Labor Standards Act, as amended

PURPOSE(S):

To manage, supervise, and administer the nonappropriated fund civilian personnel program.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

When required by Federal Statute, by Executive Order, or by treaty, personnel record information will be disclosed to the individual, organization, or governmental agency as necessary.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records may be stored on magnetic tapes, disc, drums and on punched cards.

Manual records may be stored in paper file folders, mirofiche, or microfilm.

RETRIEVABILITY:

Records may be retrieved by name, social security account number and/or activity number.

SAFEGUARDS:

Computer and punched card progessing facilities are located in restricted areas accessible only to authorized persons that are properly screened, cleared and trained.

Manual records and computer printouts are available only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Records are retained or disposed of in accordance with SECNAVINST P5212.5b, subj: Disposal of Navy and Marine Corps Records, or Departmental Regulations.

SYSTEM MANAGER(S) AND ADDRESS:

Commander, Naval Military Personnel Command, Department of the Navy, Washington, D.C. 20370

NOTIFICATION PROCEDURE:

Requests by correspondence should be addressed to: Commander, Naval Military Personnel Command, (Attn: Privacy Act Coordinator), Navy Department, Washington, D.C. 20370; or, in accordance with the Directory of the Department of the Navy Mailing Addresses (i.e., local activities).

The letter should contain full name, social security number, activity at which employed, and signature of the requestor.

The individual may visit the Commander, Naval Military Personnel Command, Arlington Annex (FOB#2), Rm 1066, Washington, D.C. for assistance with records located in that building; or the individual may visit the local activity to which attached for access to locally maintained records.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Officials and employees of the Department of the Navy and Department of Defense in the performance of their official duties and as specified by current Instructions and Regulations promulgated by competent authority; previous employers; educational institutions; employment agencies; civilian and military investigative reports; general correspondence concerning individual.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

N12300-1

SYSTEM NAME:

Employee Assistance Program Case Record System

SYSTEM LOCATION:

Chief of Naval Operations (Code 14), Department of the Navy and Designated Contractors; Navy Civilian Personnel Command (NCPC), NCPC Field Division; and navy staff, Headquarters and Field Activities employing civilians. Mailing addresses are provided in the Department of the Navy Directory, published in the Federal Register.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All civilian employees in appropriated and non-appropriated fund activities who are referred by management for, or voluntarily request, counseling assistance.

CATEGORIES OF RECORDS IN THE SYSTEM:

System is comprised of case records on employees who are patients (counselees) which are maintained by individual counselors and consist of information on condition, current status, and progress of employees or dependents who have alcohol, drug, emotional, or other personal problems.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Drug Abuse Office and Treatment Act of 1972, as amended by Public Law 93-282 (21 U.S.C. 1175); Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970, as amended by Public Law 93-282 (42 U.S.C. 4582); Subchapter A of Chapter I, Title 42, Code of Federal Regulations.

PURPOSE(S):

Used by the Navy counselor in the execution of his/her counseling function as it applies to the individual patient (counselee).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of this recompilation do not apply to this system of records.

With specific written authority of the patient, selected information may be provided to and used by other counselors for the purpose of treatment and diagnosis of the patient.

To medical personnel to the extent necessary to meet a bonafide medical emergency.

To government personnel for the purpose of obtaining benefits to which the patient is entitled.

To qualified personnel for the purpose of conducting scientific research, management of financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit or evaluation, or otherwise disclose identities in any manner.

To a court of competent jurisdiction upon authorization by an appropriate order after showing good cause therefore. In assessing good cause, the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of such order, the court, in determining the extent to which any disclosure of all or any part of any record is necessary, shall impose appropriate safeguards against unauthorized disclosure.

To employers and patient representatives such as legal counsel, when disclosure is to the patient's benefit, such as for processing retirement applications.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Case records are stored in paper file folders.

RETRIEVABILITY:

By employee name or by locally assigned identifying number.

SAFEGUARDS:

All records are stored under strict control. They are maintained in spaces normally accessible only to authorized persons, normally in locked cabinets.

RETENTION AND DISPOSAL:

Records are purged of patient identifying information within five years after termination of counseling.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Naval Operations (OP-14), and employee assistance program Administrators at Department of the Navy Staff, headquarters and field activity levels.

NOTIFICATION PROCEDURE:

Request by correspondence should be addressed to the Chief of Naval Operations (OP-14) or to the appropriate employee assistance program administrator. The letter should contain the full name and signature of the requester and the approximate period of time, by date, during which the case record was developed.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the SYSMANAGER.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

RECORD SOURCE CATEGORIES:

Counselors; other officials, individuals or practitioners; and other agencies both in and outside of Government.

SYSTEM NAME:

Living Quarters and Lodging Allowance

SYSTEM LOCATION:

Overseas organizational elements of the Department of the Navy as indicated in the directory of Department of the Navy mailing addresses.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Appropriated and non-appropriated fund U.S. civilian employees eligible for allowance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Employee's name, grade, address, rent and utility expenses, living quarters and lodging allowance, and name of family and/or members.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive order number 10603 of 9 January 1961, Executive order number 10970 of 27 October 1961, Executive order number 10653 of 27 November 1959, and executive order number 10982 of 25 December 1961, as implemented by State Department regulation.

PURPOSE(S):

Used by civilian personnel office to record employee's living quarters or temporary lodging allowance entitlement. Other users include Naval Supply Depot Payroll Office, the employing office, disbursing office; Commander, Fleet Activities FPO Seattle 98762.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To officials of the Department of State for the purpose of monitoring the level of allowances that Navy is authorized.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders.

RETRIEVABILITY:

File folders maintained by surname.

SAFEGUARDS:

Personnel screening and visitor control.

RETENTION AND DISPOSAL:

Files retained for a period of two years and then destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Overseas commanding officer of the activity in question. See directory of Department of the Navy mailing addresses.

NOTIFICATION PROCEDURE:

A copy of living quarters allowance is provided to each employee.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Official personnel files.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

N12711-1

SYSTEM NAME:

Labor Management Relations Records System

SYSTEM LOCATION:

Chief of Naval Operations (Code 14), Department of the Navy and Designated Contractors; Navy Civilian Personnel Command (NCPC), NCPC Field Division; and navy staff, headquarters and field activities employing civilians. Mailing addresses are provided in the Department of the Navy Directory, published in the Federal Register.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy civilian employees paid from appropriated and non-appropriated funds, who are involved in a grievance which has been referred to an arbitrator for resolution; Navy civilian employees involved in the filing of an Unfair Labor practice complaint which has been referred to the Federal Labor Relations Authority; union officials; union stewards; and representatives.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records comprise: Manual files, maintained in paper folders, manually filed by type of case and case number (not individual). Folder contains all information pertaining to a specific arbitration case or specific Unfair Labor Practice with whom Navy has dealings; field activities maintain manual roster of local union officials and union stewards.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 USC 7101-7135

PURPOSE(S):

To manage the Labor-Management Relations Program, e.g.: administration/implementations of arbitration awards; interpretation of P.L. 95-454 through 3rd party case decisions; national consultation and other dealings with recognized unions.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To representatives of the Office of Personnel Management on matters relating to the inspection, survey, audit, or evaluation of Navy Civilian Personnel Management Programs.

To the Comptroller General or any of his authorized representatives, in the course of the peformance of duties of the General Accounting Office relating to the Navy's Labor Management Relations Program.

To a duly appointed hearing examiner or arbitrator for the purpose of conducting a hearing in connection with an employee's grievance.

To an arbritrator who is given a contract pursuant to a negotiated labor agreement to hear an employee's grievance.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual records are stored in paper folders.

RETRIEVABILITY:

Manual records are retrieved by case subject, case number, and/or individual employee names.

SAFEGUARDS:

All manual files are accessible only to authorized personnel having a need to know.

RETENTION AND DISPOSAL:

Case files are permanently maintained. Union official rosters are normally destroyed after a new roster has been established.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Naval Operations (OP-14), Department of the Navy, Washington, D. C. 20390.

NOTIFICATION PROCEDURE:

Request by corresponent should be addressed to the Chief of Naval Operations (OP-14), Department of the Navy, Washington, D. C. 20390; field activities.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from SYSMANAGER.

CONTESTING RECORD PROCEDURES:

Department of the Navy civilian employees paid from appropriated and non-appropriated funds and foreign national direct and indirect hire employees.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system comprises automated and non-automated records describing and identifying the employee (e.g., name, social security account number, sex, birth date, minority designator, citizenship, physical handicap code); the position occupied and the employee's qualifications; salary and salary basis or other compensation and allowances; employee's status in relation to the position occupied and the organization to which assigned; tickler dates for impending changes in status; education and training records; previous military status; functional code; previous employment record; performance appraisal and other data needed for screening and selection of an employee; referral records; professional licenses and publications; and reason for position change or other action affecting the employee and case files pertaining to EEO, MSPB, labor and employee relations, and incentive awards. The records are those found in the NCPDS subsystems: the Navy Automated Civilian Manpower Information System (NACMIS), the Training Information Management System (TIMS), the Personnel Automated Data System (PADS), the Computerized Employee Management Program Administration and Research (CEMPAR), the OP-14/NCPC Customer Support Centers, the Executive Personnel Management Information System (EPMIS) and the NCPDS base level and Headquarters systems.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 5 U.S.C. 4118; Executive Order 9397; 5 U.S.C. 2951; Executive Order 10450; 42 U.S.C. 2000e, 5 U.S.C. 3135, 5 U.S.C. 4301, et. seq., 5 U.S.C. 4501 et. seq., 5 U.S.C. 4705 and Subparts D, E, F, and G of Title 5, U.S.C. and 29 CFR Part 1613 et. seq.

PURPOSE(S):

To manage and administer the Department's civilian personnel and civilian manpower planning programs and in the design, development, maintenance and operation of the automated system of records. Designated contractors of the Department of the Navy and defense in the performance of their duties with respect to equipment and system design, development test, operation and maintenance.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the Comptroller General or any of his authorized representatives, in the course of the performance of duties of the General Accounting Office.

To the Attorney General of the United States or his authorized representatives in connection with litigation, law enforcement, or other matters under the direct jurisdiction of the Department of Justice or carried out as the legal representative of Executive Branch agencies.

To officials and employees of other departments and agencies of the Executive Branch of government upon request in the performance of their official duties related to the screening and selection of candidates for vacant positions.

To representatives of the United States Department of Labor on matters relating to the inspection, survey, audit or evaluation of the Navy's apprentice training programs or on other such matters under the jurisdiction of the Labor Department.

To representatives of the Veterans Administration on matters relating to the inspection, survey, audit or evaluation of the Navy's apprentice and on-the-job training program.

To contractors or their employees for the purpose of automated processing of data from employee personnel actions and training documents, or data collection forms and other documents.

To a duly appointed hearing examiner or arbitrator in connection with an employee's grievance.

To an appointed complaints examiner for the purpose of conducting a hearing in connection with an employee's formal Equal Employment Opportunity (EEO) complaint.

To officials and employees of schools and other institutions engaged to provide training.

To labor organizations recognized under 5 U.S.C. Chapter 71 when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting working conditions.

To representatives of the Federal Labor Relations Authority.

To representatives of the Merit Systems Protection Board.

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation also apply to this system and its subsystems.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated records are stored on magnetic tape, disc, drum and punched cards and computer printouts. Manual records are stored in paper file folders.

RETRIEVABILITY:

Information is retrieved by SSN or other similar substitute if there is no SSN, position number, name, or by specific employee characteristics such as date of birth, grade, occupation, employing organization, tickler dates, academic specialty level.

SAFEGUARDS:

The computer facility and terminal are accessible only to authorized persons that have been properly screened, cleared and trained. Manual and automated records and computer printouts are available only to authorized personnel having a need-to-know.

RETENTION AND DISPOSAL:

Input documents are destroyed after data are converted to magnetic medium. Information is stored in magnetic medium within the ADP system. Information recorded via magnetic medium will be retained permanently. For TIMS and the apprentice programs the computer magnetic tapes are permanent. Manual records are maintained on a fiscal year basis and are retained for varying periods from 1 to 5 years.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Naval Operations (OP-14), Department of the Navy and the commanding officers of the employee's activity.

NOTIFICATION PROCEDURE:

Requests from individuals should be addressed to the SYSMANAGER or to the civilian personnel officer under his cognizance. Requests must be accompanied by the individual's full name, social security number and name of employing activity. Requesters may visit the civilian personnel office of the naval activity covered by the system to obtain information. In such case proof of identity will consist of full name, social security account number and a third positive identification such as driver's license, Navy building pass or identification badge, birth certificate, Medicare card, etc. Address of the activity is furnished in the Department of the Navy directory of mailing addresses published in the Federal Register.

RECORD ACCESS PROCEDURES:

The Agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The Agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Categories of sources of records in the system are: the civilian personnel office of the employing activity; the payroll office; NCPC headquarters; the security office of the employing activity; line managers, other designated officials and supervisors; the employee and persons named by the employee as references.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

N12990-4

SYSTEM NAME:

Computer Assisted Manpower Analyses System (CAMAS)

SYSTEM LOCATION:

Chief of Naval Operations (Op-14), and Navy Department Staff, headquarters, and field activities employing civilians; mailing addresses are provided in the Navy Department directory published in the Federal Register.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy civilian employees paid from appropriated funds.

CATEGORIES OF RECORDS IN THE SYSTEM:

Files contain records from the Personnel Automated Data System (PADS) which contain job related data including individual identification, location information, and salary.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5 U.S.C. 301 Departmental Regulations

PURPOSE(S):

To aggregate manpower planning, including calculating transition rates, forecasting number of retirements, and running models to determine the extent to which projected manpower requirements can be met.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Blanket Routine Uses that appear at the beginning of the Department of the Navy's compilation apply to this system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Computer magnetic tape and disc.

RETRIEVABILITY:

Accessed by social security number.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel.

RETENTION AND DISPOSAL:

Records are permanent.

SYSTEM MANAGER(S) AND ADDRESS:

Chief of Naval Operations (OP-14), Department of the Navy, Washington, D.C. 20390.

NOTIFICATION PROCEDURE:

Request by correspondence should be addressed to the Chief of Naval Operations (OP-14), Department of the Navy, Washington, D.C. 20350. Written requests for information must contain full name of the individual, current address and telephone number, and birth date and social security number.

RECORD ACCESS PROCEDURES:

The agency's rules for access to records may be obtained from the system manager.

CONTESTING RECORD PROCEDURES:

The agency's rules for contesting contents and appealing initial determinations by the individual concerned may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

Personnel Automated Data System (PADS)

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

Department of Transportation

Federal Aviation Administration

14 CFR Part 25

Airworthiness Standards; Fire Protection Requirements for Cargo or Baggage Compartments; Final Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 25

[Docket No. 24185; Amdt. No. 25-60]

Airworthiness Standards; Fire Protection Requirements for Cargo or Baggage Compartments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment upgrades the fire safety standards for cargo or baggage compartments in transport category airplanes by establishing new fire test criteria and by limiting the volume of Class D compartments. This amendment is the result of research and fire testing and is intended to increase airplane fire safety.

EFFECTIVE DATE: June 16, 1986.

FOR FURTHER INFORMATION CONTACT: Gary L. Killion, Manager, Regulations Branch (ANM-112), Transport Standards Staff, Aircraft Certification Division, FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168; telephone (206) 431-2112.

SUPPLEMENTARY INFORMATION:

Background

This amendment is based on Notice of Proposed Rulemaking (NPRM) No. 84-11, which was published in the **Federal Register** on August 8, 1984 (49 FR 31830). The notice proposed to upgrade the fire safety standards for cargo or baggage compartments in transport category airplanes by establishing new fire test criteria and by limiting the volume of Class D compartments.

As discussed in the notice, there are five classes of cargo compartments (Class A, B, C, D, and E) in the existing Part 25 regulatory classification system. The classification of compartments is based primarily on the ease of access and the capability of the compartment to contain a fire. With the exception of the Class A compartment, all categories of cargo compartments are required to have liners in order to protect the structural integrity of the airplane from the effects of fire.

The FAA conducted a series of tests at its Technical Center to investigate the capability of three typical liner materials to resist flame penetration under conditions representative of actual cargo or baggage compartment fires. The tests were conducted in simulated Class C and D compartments with bulk-loaded baggage typical of that found in actual service. In conjunction with these tests, the FAA developed a method of testing liner materials utilizing a 2 gallons-per-hour kerosene burner. The materials—fiberglass, Kevlar and Nomex—comprise the primary liner materials currently used in domestic jet transport airplanes.

As a result of these full-scale tests, it was found that a fire could rapidly burn through Nomex or Kevlar under representative conditions. In addition to the fire hazards associated with the initial flame penetration, further suppression of the oxygen in compartments would be hindered. This, in turn, could result in a fire of increased intensity. It was therefore concluded that improved standards are warranted for the sidewall and ceiling liner panels of all classes of cargo or baggage compartments that depend on liners for fire control. Considering probable flame path, the FAA determined that it is not necessary for the materials used for bottom liner panels to meet these improved standards.

The full-scale tests conducted at the FAA Technical Center also showed that a limitation on the volume of Class D compartments is warranted. These tests indicated that the intensity of a fire in a Class D compartment is dependent on compartment volume as well as the sum of compartment volume and the volume of leakage from the compartment in a given period of time. In this regard, it was found that the intensity of a fire in a larger Class D compartment is much greater due to the total amount of oxygen available in compartments larger than approximately 1,000 cubic feet and is, therefore, beyond the capability of the liner to resist flame penetration. Accordingly, the volume of a Class D compartment would be limited to a maximum of 1,000 cubic feet.

The comment period for this notice originally closed on October 8, 1984. It was reopened, as announced in Notice 84-11A (49 FR 40041; October 12, 1984), because of requests received from persons desiring more time in which to study the proposal and prepare their comments. The comment period was further reopened, as announced in Notice 84-11B (50 FR 13226; April 3, 1985), in light of requests received after further tests were conducted by the FAA at its Technical Center. One commenter requested that the FAA reopen the comment period for an additional period; however, the reason given was not considered sufficient to warrant such action. Although the comment period closed on June 3, 1985, late comments have been considered in accordance with 14 CFR 11.47(a). All interested parties have thus been given ample opportunity to participate in the making of this final rule, and due consideration has been given to all matters presented. Except for the changes discussed below, this final rule and the reasons for its adoption are the same as those stated in Notice 84-11.

Discussion of Comments

The numerous comments receive in response to Notice 84-11 represent the views of airplane and equipment manufacturers, airplane operators, material producers and testing laboratories, airplane crew organizations, U.S. and foreign government organizations, and consumer groups. The vast majority of commenters endorse the intent of the proposals of Notice 84-11, although some suggest modifications to the proposed requirements. The following FAA responses to comments are discussed according to the subject matter of the comment.

One commenter believes the justification for the proposed standards to be deficient in analysis. In this regard, the commenter states that the basis for the proposed rule was a catastrophic fire which occurred on a Lockheed L-1011 airplane and that the standards are a reaction to a preconceived notion that Kevlar and Nomex are less desirable than fiberglass since the proposed test methods do not relate to an actual fire scenario. The commenter contends that there is nothing in the analysis to indicate that the results of the L-1011 accident would have been prevented if fiberglass liners had been installed.

The proposed standards are not based on a scenario derived from an analysis of the L-1011 accident, but rather are based on full-scale testing that was conducted with simulated Class C and D compartments using bulk-loaded baggage. The full-scale tests showed that fiberglas as typically used in cargo or baggage compartments, is superior to Kevlar or Nomex from a flame penetration standpoint. The more significant result of these tests is, however, the fact that existing standards for liner materials do not provide adequate protection from a typical cargo or baggage compartment fire. In this regard, it must be noted that liners constructed of Kevlar or Nomex, as well as those of fiberglass, meet the current standards. Because it would be impractical to conduct a full-scale test to qualify each type of material, the FAA developed test methods that would provide results comparable to those of a full-scale test from a materials qualification standpoint. As a result of this correlation, the proposed test methods do, in fact, relate to an actual

fire scenario. As explained in Notice 84–11, the L–1011 accident cited by the commenter was *assumed* to have resulted from a fire in the cargo or baggage compartment for regulatory analysis purposes. The analysis notes that the specific cause of the fire is the subject of considerable dispute.

Several commenters present views supporting or opposing application of the proposed standards to airplanes already in service. Because such action would be beyond the scope of the notice, the comments are not considered relevant to this rulemaking. The FAA is, however, considering additional rulemaking that will address this issue.

One commenter contends that although reinforced with fiberglass and using state-of-the-art resins, almost all ceiling liners and some sidewall liners that are used in the current jet transport fleet do not meet one or more of the proposed requirements in the notice. The commenter also contends that materials which simultaneously satisfy the functional requirements for ceiling and sidewall liners, as well as the proposed fire safety standards, are not available. These contentions are not supported by the testing conducted. As noted in FAA Technical Note DOT/FAA/CT–TN85/11, An Evaluation of the Burn-Through Resistance of Cargo Lining Materials, dated April 1985, there are a number of suitable liner materials that meet the standards and are available. A copy of this technical note has been placed in the Rules Docket.

One commenter contends that additional FAA and industry developmental work is clearly required prior to issuance of regulatory material to establish test apparatus, procedures, and evaluation criteria that will accomplish the intent of the proposed rule. The FAA does not agree. Testing has shown that the proposed standards do realistically discriminate between acceptable and unacceptable liners, and any further development work would unnecessarily delay introduction of improved liners in service.

One commenter supports the notice, but is concerned that the research and development testing did not account for the possible presence of hazardous materials in the cargo compartment. While any consideration of a regulation addressing the effects of hazardous materials would be beyond the scope of the notice, it is noted that standards concerning the carriage of hazardous materials are contained in Chapter I of Title 49, Code of Federal Regulations (CFR).

Although two commenters consider the proposed standards to be too stringent, these standards have been shown to be necessary by full-scale testing and achievable with currently available materials. One of these two commenters further states that smoke and toxicity should also be addressed. Such standards would be beyond the scope of the notice and could not be considered at this time. It should be noted, however, that existing § 25.831 provides standards for crew and passenger compartment ventilation and evacuation of smoke. While there is evidence of the need for improved standards with respect to flame penetration, the FAA does not have evidence that the existing standards of § 25.831 do not provide adequate protection from smoke and toxicity. Standards for toxicity would be especially difficult to establish because there has not been sufficient research to adequately define acceptable levels of human tolerance to typical cargo or baggage compartment fire toxicants.

One commenter proposes the use of a "total flood" of extinguishing agent in lieu of improved standards for the liners. Similarly, another commenter believes the standards should give credit for an active fire extinguishing system by allowing the use of liners with less resistance to flame penetration than that proposed in the notice. These concepts are considered inadequate because liners with less ability to resist flame penetration are likely to fail very quickly before the extinguishing agent is effective, allowing the extinguishing agent to escape and rendering the extinguishing system inoperative.

One commenter compares the proposed standards for cargo or baggage compartment liners with the guidance in Advisory Circular AC 20–107A, Composite Aircraft Structure, for composites that are required to be fire-resistant. The commenter believes that the proposed standards are too stringent when compared to the standards for composite materials, considering that a fire in a cargo or baggage compartment would be less severe (according to the commenter) due to the limited amount of oxygen available. The comparison of the proposed standards with the guidance for composite materials is not appropriate because the purposes differ. The proposed standards for cargo or baggage compartments are intended to safely contain a fire. The guidance for composite materials is, on the other hand, to ensure that the structural integrity of the materials will be maintained during exposure to a fire.

Two commenters believe that the rulemaking for improving fire safety in air carrier airplanes is proceeding faster than the fire safety technology. The FAA has determined that the technology exists for compliance with these new standards and that consequently the manufacturers can design liners for cargo and baggage compartments that meet the new standards.

Two commenters support the proposed standards for Class C and D compartments, but not for Class B or E compartments. A Class B compartment is typically the large cargo portion of the cabin in a combination passenger and cargo carrying airplane (frequently referred to as a "combi" airplane). A Class E compartment is the main cabin of an airplane used only for the carriage of cargo. Both Class B and E compartments may be dedicated solely to the carriage of cargo or may be convertible passenger or cargo compartments. (Airplanes with convertible compartments are frequently referred to as "quick change (QC)" airplanes.) The seats of QC airplanes are generally installed on pallets so that they can be removed rapidly for the carriage of cargo. The sidewalls, bulkheads and ceillings of the passenger interior then serve as the liners of the cargo compartments. Like Class C compartments, Class B and E compartments are required to have smoke or fire detection systems to give warning at the pilot or flight engineer station. For fire extinguishment, Class B compartments are required to have sufficient accessibility to enable a crewmember to effectively reach any part of the compartment with the contents of a hand fire-extinguisher. Class E compartments must have means to shut off the ventilating airflow and to exclude hazardous quantities of smoke, flames or noxious gases from the flightcrew compartment. Class B and E compartments, therefore, do not depend on the integrity of the liner to retain the agent from a built-in extinguishing system, as in a Class C compartment, or to limit the supply of oxygen, as in a Class D compartment.

Based on the lack of adverse service experience with Class B and E compartments to date, and the lack of full-scale test data that are directly applicable, the FAA concurs that the liners of these compartments need not meet the new standards. This does not preclude future rulemaking to require such liners to meet these standards if warranted by further service experience or testing.

Several commenters have presented opposing views concerning Class D compartments. Some contend that the proposed 1,000 cubic feet limitation of the volume of a Class D compartment is too restrictive. One commenter suggests that the rate of ventilation and leakage

for Class D compartments should be as low as practicable and should not exceed the following formula, which (according to the commenter) has been an acceptable means of compliance with the objective requirements of current § 25.857(d):

W=1,000–V

Where W=ventilation and leakage airflow in cu. ft. hr.
V=compartment volume in cu. ft.

One commenter further suggests that the burner heat flux density, flame temperature, and time of application, should be redefined to reflect conditions to be established by the FAA Technical Center by further testing for a Class D compartment that is greater than 1,000 cubic feet, but meets the above formula. As discussed in the notice, the tests conducted at the FAA Technical Center indicated that the intensity of a fire in a Class D compartment is dependent on compartment volume as well as the sum of compartment volume and the volume of leakage in a given period of time. In this regard, it was found that the intensity of a fire in a larger Class D compartment is much greater due to the total amount of oxygen available in compartments larger than approximately 1,000 cubic feet, and beyond the capability of the liner to resist flame penetration. While the leakage rate is an important consideration, a low rate does not mitigate the need to limit the total volume of a Class D compartment to 1,000 cubic feet. The more stringent standards that would be needed to safely contain a fire in a compartment greater than 1,000 cubic feet would be beyond the scope of the notice.

Other commenters, in contrast, believe that Class D compartments should be eliminated altogether. One commenter is concerned that a fire may originate in a Class D compartment that is nearly empty, grow out of control due to the greater amount of oxygen available, and spread to an adjacent compartment that does have combustible cargo or baggage. This scenario is considered unrealistic because the compartment in which the fire originates is unlikely to contain enough combustible materials to sustain an intense fire for an extended period if it is nearly empty. In this regard, the scenario presupposes, first, that the combination of compartment volume and leakage airflow and liner integrity are inadequate to safely suppress and contain the fire in the original compartment and, second, that the liner of the adjacent compartment is incapable of preventing burn-through in reverse. In light of the testing conducted, the proposed standards would make both suppositions unlikely. The same commenter is concerned that in-service damage to liners may allow additional leakage airflow and compromise the capability of the liner to suppress a fire. The FAA notes the commenter's concern and concurs that the use of improved materials will increase the capability of the liners to suppress fires only if the integrity of the liners is maintained in service. In this regard, the FAA is presently emphasizing to operators the importance of properly maintaining the liners in all cargo or baggage compartments that are required to have liners and has stepped up surveillance of airline maintenance of cargo compartment liners. The commenter is also concerned about the failure of a ventilation control valve in a Class D compartment which, the commenter alleges, was the cause of the previously discussed Lockheed L–1011 accident. As also noted previously, the cause of the fire involved in that accident is a matter of considerable dispute, and has not been attributed to such a failure.

One commenter supports the proposed limitation of the volume of a Class D compartment to 1,000 cubic feet but believes a specific limitation on leakage airflow should also be imposed. The FAA concurs that the leakage airflow rate is an important factor. Such leakage must be considered for compliance with the objective requirements of current § 25.857(d)(1). As these objective requirements would remain applicable, it is not considered necessary to establish a specific limitation on leakage airflow.

Two commenters recommend that the FAA require fire detection systems for Class D cargo compartments so that the flightcrews would be alerted to the existence of a fire. Another commenter recommends that all cargo compartments, except Class A and B, should be classified as Class C. While these recommendations are beyond the scope of the notice, neither is considered to be warranted. As discussed above, the full-scale and other fire tests have shown that Class D compartments provide an acceptable level of safety if liners meeting the new standards are used and the volume does not exceed 1,000 cubic feet. As discussed below, the present standards are considered to provide an acceptable level of safety for Class B and E compartments.

One commenter notes that standards for flammability of seat cushions have been adopted (Amendment 25–59; 49 FR 43188; October 26, 1984) since the time Notice 84–11 was issued and believes that many of the elements of the testing required for seats are also appropriate for liner testing.

Although there are necessary differences due to the nature of tests, the FAA concurs that the test methods and procedures should be the same wherever possible. The adopted test procedures have been changed accordingly.

One commenter recommends that the burner heat flux density, flame temperature, and time of application should be redefined to reflect the conditions to be established for a Class C compartment with a properly operating fire detection and extinguishing system. Based on the full-scale tests conducted, the FAA considers that the proposed criteria do simulate the exposure conditions (including burner heat flux density, temperature, and duration) of a realistic cargo fire in a Class C compartment equipped with detectors that provide indication of a fire within one minute, as required by existing § 25.858. The proposed standards are, therefore, considered appropriate in this regard and have been adopted in this final rule.

Several commenters suggest test specimen sizes other than the proposed 16 x 25 inches. One commenter recommends the use of 16 x 24 inch specimens in order to reduce waste when specimens are cut from a standard 4 x 8 foot sheet. The FAA concurs with this recommendation and the requirement has been changed accordingly.

As proposed, ceiling and sidewall liners would have to meet the improved standards while floor panels would only have to meet the current standards. Two commenters believe that flooring should also meet the higher standards; however, their position is not supported by the results of the full-scale testing. Such tests have shown that fires tend to burn upward, and there is little or no involvement of flooring. The improved standards are, therefore, not warranted for flooring.

In lieu of the proposed test panel size and positioning, one commenter suggests the use of a 610 mm x 610 mm panel centered horizontally 203 mm above the flame. Alternate panel sizes and positioning could be used under the equivalent safety provisions of § 21.21(b)(1) of this chapter provided the tests yield the same results. The suggested change is, therefore, unnecessary. The same commenter believes that negative test results should not preclude the use of aluminum as liner material. The FAA does not concur because, for reasons stated earlier, the FAA considers the proposed standards

to be the minimum required for safety. Testing conducted subsequent to Notice 84–11 has shown that aluminum sheet, in thicknesses typically used for liners, does not meet the proposed standards.

Several commenters express related concerns that the proposed rule would require only the basic panel material to be tested and that design features, such as joints, structural attachments, lamp units, lashing points and pressure relief panels, would be omitted. In this regard, one commenter contends that the proposed test seems to confuse two objectives: The need to demonstrate the ability of a material to resist flame penetration and the need to demonstrate fire containability of a "simulation" of the ceiling and sidewall. The commenter states that view A–A of Figure 1 of the notice shows the edges of the panel held in a manner that is not representative and is not therefore a "simulation" that will test a design detail.

In response to the commenter's concerns, the term "liner," as used in § 25.855(a–1), includes any design features that would affect the capability of the liner to safely contain a fire. Such features would, therefore, have to be tested along with the basic panel material unless they have been previously found satisfactory. For example, joints that are constructed with fireproof fasteners and are not subject to gaps caused by distortion need not be tested. On the other hand, the test specimens would include joints constructed with nonfireproof fasteners or joints subject to distortion. Similarly, test specimens woud include lamp lenses, if failure of the lenses would allow flames to pass; however, lamps need not be included in the test specimen if the lamp incorporates a fireproof body that would prevent passage of flames. The test acceptance criteria have been clarified in this regard. One commenter also contends that the apparatus assumes that the sidewall will be vertical, which is not always the case. Tests have shown that results obtained with vertical panels are also representative of sidewalls that are inclined; therefore, the FAA considers the test apparatus to be appropriate in this regard.

One commenter suggests that it is unnecessary to test ceiling and sidewall panels simultaneously. The FAA concurs that it is not necessary to test ceiling and sidewall panels simultaneously; and it may, in some instances, be advantageous to test the panels separately. For example, material tested as a ceiling panel with a baffle installed to simulate the missing side panel would be qualified for use as ceiling material with any otherwise qualified sidewall material. Furthermore, the material would also be qualified for use as sidewall material due to the test heat transfer characteristics. On the other hand, a material tested as a ceiling panel simultaneously with a sidewall panel would be qualified for use only with sidewalls of the material used in the sidewall test panel.

One commenter believes that the use of alternate burners should be allowed. The commenter notes that kerosene burners with improved adjustment and controlling devices are available and that gas-type burners could also be used. The proposed standards note that two particular burner models have been used in the past, but the standards do not specifically require use of those particular models. Any burner that meets the proposed standards could, therefore, be used. Other burners, such as gas-type burners, could be used under the equivalent level of safety provisions of § 21.21(b)(1) of this Chapter provided they are shown to give the same test results.

Two commenters believe that the test fixture should be revised to allow a baffle to be placed around the liner. The baffle would simulate a ceiling and thereby prevent the piloted ignition of combustion gases released by the test specimen. Such use of a baffle is not considered appropriate because combustible gases released from liner materials could reignite outside the compartment and contribute to the hazard in an actual cargo or baggage compartment fire. Furthermore, there are currently available materials constructed with resins that do not release such combustible gases.

The proposed burner test fuel is defined as "kerosene." One commenter believes that this term is too board and notes that its use has led to problems in testing both cargo or baggage compartment liner materials and seat cushions. The FAA concurs and notes that the test fuel for the recently adopted seat cushion flammability standards (Amendment 25–59; 49 FR 43188; October 26, 1984) is defined as "#2 kerosene or equivalent." For consistency, the fuel for testing cargo or baggage compartment liners will also be defined as "#2 kerosene or equivalent."

The proposed burner cone is 12 inches wide at the exit. As equipment already in use incorporate burner cones that are 11 inches wide, one commenter recommends specifying that this dimension should be specified as 11.5±0.5 inches in order to accommodate both sizes. It appears that such a variation in burner cone area would cause variations in burner heat output and inconsistencies in test results. Use of the 11-inch wide cone specified for the recently adopted seat flammability standards (Amendment 25–59; 49 FR 43188; October 26, 1984) would eliminate the need for two separate cones while still assuring consistency of test results. The test apparatus specified for these tests has been changed accordingly.

Two commenters recommend conditioning the test specimens to 50±5 percent relative humidity prior to testing. The FAA concurs. In order to assure consistent test results, the test specimen criteria will include such conditioning.

One commenter notes that there are brief excursions below the minimum temperature on any one thermocouple due to the transient nature of a fire. The commenter suggests that these excursions can be as great as 100°F. and as frequent as several seconds apart. In order to accommodate a temperature measuring device that takes periodic instantaneous readings rather than a continuous reading, the commenter recommends using the average of temperature and heat flux over a representative exposure time, e.g. one minute, in lieu of the minimum values. In general, it appears that such averaging would not ensure the intended level of safety. A temperature measuring device of this nature could, however, be used under the "other equivalent methods" provisions of § 25.855(a–1)(1) provided it is shown to provide test results equivalent to those that would be obtained with continuous reading devices.

One commenter suggests the proposed acceptance criteria that self-extinguishing time must be less than 15 seconds and that glow time must be less than 10 seconds are unnecessary. The FAA concurs that materials that meet the proposed burn-through criteria will inherently have satisfactory self-extinguishing and glow characteristics, and these criteria have been deleted.

Two commenters suggest increasing the measured limit 4 inches above a tested ceiling liner to more than 400 °F. (One commenter specifically recommends 500 °F.) Although the temperature measured at this point varies depending on the weave and resin of the material tested, tests have shown that many materials are capable of meeting the proposed limit. The proposed limit of 400 °F. is, therefore, considered appropriate.

One commenter believes that the standards should be more precise as to

what kind of heat energy shall be measured, i.e., heat radiation only or the total heat flux consisting of radiation and convection. The notice specifies total flux. To avoid possible confusion, a Foil Type Gardon Gage total heat flux calorimeter is specified.

One commenter recommends establishing the following tolerance for the thermocouple calibration temperature: a 1700 °F. minimum temperature averaged over the seven thermocouples with a maximum lower deviation for any one thermocouple of 100 °F. The FAA concurs that the standards must allow a tolerance in this regard as a matter of practicality. The rule is changed accordingly.

One commenter suggests that the test time be measured to flame penetration *or* test completion. The FAA concurs that this change is needed to cover tests in which the test is successfully completed without any penetration. The rule is changed accordingly.

One commenter requests an additional requirement to record the flame time after removal of the flame source and the glow time. As noted earlier, these criteria are unnecessary for materials that meet the proposed burn-through criteria. This addition is, therefore, unwarranted.

Since the time Notice 84–11 was issued, existing Appendix F of Part 25 has been reidentified as Appendix F, Part I, and new standards for flammability of seat cushions have been added as Appendix F, Part II by Amendment 25–59; (49 FR 43186; October 26, 1984). The new standards for cargo or baggage compartments are, therefore, added as Appendix F, Part III. Other nonsubstantive conforming editorial changes, including that to § 25.853(b), have also been made. Furthermore, minor nonsubstantive changes have been made to the test procedures.

Regulatory Evaluation

I. Cost Benefit Anaylsis

A. Costs

The costs of the amended regulations included in this final rule will result primarily from the additional fuel consumed by the airplanes subject to the rule as a result of the slight increase in airplanes weight necessary to comply with the new standards. The airplanes that would be affected are those newly designed transport category airplanes for which an application for type certificate is made on or after the effective date of the final rule. The precise number of airplanes which will be affected cannot be accurately predicted because of the uncertainties in the number of future airplanes designs and the number of airplanes of each design that will be produced. The estimated costs of this final rule have, therefore, been based upon average total costs for a typical type certificate issued, rather than overall costs for all future airplanes types which may be certificated under the new standard. (This differs slightly from the methodology used in Notice 84–11, where fuel penalty costs were presented on an hourly basis.) Further, in developing the average total costs per type certificate issued, the FAA has estimated that a newly type certificated airplanes will have a production run of approximately 1,000 airplanes, and that each airplane will have an average life of 60,000 hours, yielding a total of 60 million flight hours for all airplanes produced under a typical type certificate. Because both the costs of this rule, and the benefits of reduced exposure to the risk of a catastrophic cargo compartment fire, will be realized simultaneously during actual operation of the airplanes, the ratio of costs to benefits will remain unchanged regardless of the level of activity in any given year over the 40 to 50 year period during which airplanes produced under a type certificate will remain in active service. Thus, comparison can be made in the form of total costs and benefits for all airplanes produced under one type certificate, rather than in the form of discounted present values, which would necessitate making arbitrary assumptions about the rate of airplane production, activity, and attrition during each year of the 40 to 50 year period.

Of the materials which meet the more stringent flame penetration standards adopted in this final rule, fiberglass is currently considered the most feasible material for use as sidewall or ceiling panels of cargo or baggage compartments. This material is somewhat heavier than Kevlar or Nomex, the other two liner materials currently used in transport category airplanes. According to data compiled by the FAA, Boeing achieved a weight savings of approximately 150 pounds in each Model 767 airplane by using Kevlar instead of fiberglass for the ceiling and sidewall panels. Because the Model 767 falls approximately in the middle of the size range of existing transport category airplanes, the FAA has assumed, for purposes of this analysis, that a typical affected transport category airplane would incur an average weight penalty of approximately 150 pounds as a result of the need to use fiberglass liner materials in lieu of lighter alternatives, such as Kevlar or Nomex. This, of course, is based on the further assumption that no new lightweight materials are developed which would meet the higher flame penetration standard.

Data compiled by the National Aeronautics and Space Administration (NASA) indicate that each additional pound of weight added to a transport category airplane results in an average additional fuel consumption of about 15 gallons per year per airplane, or an average of .008 gallons per hour based upon an average utilization rate of 2,500 hours per year per airplane. At the current jet fuel price of $.85 per gallon, and 1,000 airplanes flying a total of 60,000 lifetime hours each, the total additional fuel cost attributable to the heavier liner material will be approximately $46 million for each future type certificate that is issued. This cost will be incurred over a period of 40 to 50 years, and equates to about $46 thousand per airplane distributed over the lifetime of that airplane. Actual costs can be expected to be less than this estimate because of expected improvements in the fuel efficiency of new technology engines.

Cargo or baggage compartments larger than 1,000 cubic feet in volume may currently be designed as Class D compartments in lieu of Class C compartments with smoke or fire detection and fire extinguishment systems. Under the terms of this amendment, compartments of this size in affected airplanes would have to be designed as Class C compartments. The FAA estimates that an average weight penalty of 150 pounds per affected airplane would result from the installation of smoke or fire detection and extinguishment systems in the Class C compartments that, in the absence of the rule change, would have been designed as Class D compartments. This will result in an additional $46 million total weight penalty per type certificate for all airplanes built under type certificates which are also affected by this provision of the final rule.

Further, the cost of the smoke or fire detection and extinguishment systems must also be considered (this cost factor was erroneously omitted from the evaluation of Notice 84–11). The FAA estimates that system equipment, installation by the airframe manufacturer, and interest will add approximately $10,500 to the cost of each airplane purchased, yielding a total additional cost of $10.5 million per type certificate for the approximately 1,000 airplanes estimated to be built under a future type certificate. Although each individual airplane cost represents a capital expenditure, the total cost will

be spread over the entire production run of an airplane model produced under a type certificate, and further annualized by the purchaser of each airplane produced. Consequently, these detection and extinguishment system costs will be incurred over a period of 20 to 30 years. They have, therefore, been presented in the form of total costs rather than in the form of discounted present values for the same reasons discussed previously with respect to fuel costs.

The total cost of the liner material weight penalty, detection and extinguishment system weight penalty, and detection and extinguishment system equipment is estimated to be $102 million per type certificate for those future designs which will be affected by both the amended Class D volume constraint and the new liner material standard. These total costs will be incurred over a period of 40 to 50 years, and equate to about $102 thousand per airplane distributed over the lifetime of that airplane. It must also be noted that relatively few existing transport airplanes have Class D compartments which are larger than 1,000 cubic feet in volume. There are currently only three airplane designs in domestic use with such compartments (the McDonnell Douglas Models DC–8 and DC–10, and the Lockheed Model L–1011). Therefore, assuming no major change in the size distribution of transport airplanes, a relatively small proportion of airplanes type certificated in the future is expected to be affected by the reduction in the maximum allowable volume of a Class D compartment.

Some commenters stated that, in its analysis, the FAA neglected to consider costs related to design features such as panel joints, lamp assemblies, pressure relief panels, structural attachments, etc. These costs, if any, are considered negligible. This final rule applies only to new airplane designs; therefore, there are no redesign costs involved. Furthermore, most of the components and design techniques which are currently in use will meet the new standards. For the few instances in which current components or techniques cannot be used, the designer can choose to use other equivalent components or techniques that will meet the new standards and are currently available.

B. Benefits

The potential benefits of these rule changes are the avoided losses of life and property which would have resulted from those airplane fires that may be prevented by the provisions of the final rule. While a relatively minor benefit will result from the use of fiberglass, which is slightly less expensive to purchase than Nomex or Kevlar, this cost saving is overshadowed by the saving of the total cost of a new airplane or the benefits of accidents prevented over the lifetime of an airplane design. Quantifying these benefits is somewhat difficult because most transport category airplanes currently in service have liners constructed of fiberglass materials which already meet the new standards, and because relatively few have Class D compartments which are larger than 1,000 cubic feet in volume.

Because of the limited number of airplane models currently in service which do not meet the new standards, a Poisson distribution has been used to estimate the probability of preventing random cargo compartment fire accidents during the total service life of a newly designed transport category airplane which is type certificated in accordance with the new standards. (This probability approach is somewhat different than the method used in Notice 84–11, in which a maximum possible accident rate was estimated.) The Poisson distribution provides a realistic model for predicting many random phenomena and frequently is used in safety analysis to estimate future accident risk. The Poisson distribution of potential catastrophic cargo compartment accidents provides a base line from which the potential benefits of the rule change can be measured. Because it is unlikely that the new liner standards or the Class D volume constraint can effectively prevent a catastrophic accident from developing in every possible fire scenario, a sensitivity analysis has been completed to compare the probable benefits which would result if the new standards were effective in 100 percent, 70 percent and 50 percent of the fire scenarios.

In order to develop the Poisson distribution for this analysis, it is necessary to determine the historical average rate of catastrophic cargo compartment fires. Of the three major transport category airplane models currently in service with liner materials that do not meet the new flame penetration standards, only one has been in service for an extended period of time. This is the Lockheed L–1011, which uses Nomex as the liner material in its cargo or baggage compartments. (The other two airplanes, Boeing Models 767 and 757, use Kevlar as the liner material, and each has been in service for only about three years.) Since the Model L–1011 entered service in 1972, it has experienced one catastrophic fire that was possibly related to the cargo compartment. The specific origin or cause of this fire is the subject of considerable dispute; however, for the limited purposes of this document, it will be assumed that the fire originated in the cargo compartment. Based on these assumptions, the limited service experience with the Model L–1011 suggests a mean rate of one catastrophic cargo compartment fire accident in the total service life of all airplanes built under a type certificate which does not require compliance with the new standards. This mean rate of one may be used to develop the Poisson distribution of the probability of accidents which could be experienced by a future design which does not comply with the new liner material standards. The FAA believes that this is a conservative estimate of the mean accident rate because the current accumulated flight time of all Model L–1011 airplanes is far less than the 60 million hours of total flight time estimated in this analysis to be accumulated by all airplanes produced under a typical future type certificate.

Further, the same mean accident rate of one has been used to estimate benefits for those future designs which will be affected by the Class D volume constraint as well as the new liner material standard. Although it stands to reason that a greater safety benefit will be realized for those airplanes for which both fire protection deficiencies (Class D volume and liner material) is corrected, there have been no actual cargo compartment fire accidents that have been attributed to the size of the Class D compartment. Nevertheless, the full-scale tests conducted at the FAA Technical Center clearly indicated that the intensity of a fire in larger Class D compartments can become so great that the capability of the liner to resist flame penetration is exceeded. In the judgment of the FAA, a mean rate of one catastrophic cargo compartment accident is a reasonable compromise between the service history of existing noncompliant airplanes and the results of the laboratory tests. Therefore, this rate has been used to develop an order of mangitude estimate of the potential benefits which may be realized by those future airplane models affected by both of the new standards.

Applying the effectiveness coefficients of 100 percent, 70 percent, and 50 percent to the mean accident rate of one provides probability distributions, based upon each respective assumption about the effectiveness of the new standards, of the number of accidents which might be prevented for each future airplane design receiving a type certificate in compliance with the new standards.

The FAA estimates that the benefits which will be realized from avoiding a typical cargo compartment fire accident in the future will be the prevention of 110 passenger and crew fatalities (derived from FAA traffic data) and the loss of the airplane. Mid-size transport category airplanes which have recently received new type certificates and new designs currently under development are priced between $30 million and $60 million. The FAA, therefore, estimates that $20 million is a reasonable price for a typical used transport category airplane of the future and has used this value as the quantifiable benefit of avoiding the loss of an airplane for each accident prevented.

Based on the Poisson distribution and the alternative effectiveness assumptions discussed above, there is a 63 percent probability that one or more catastrophic cargo compartment fire accidents will be prevented, if the new standards, are 100 percent effective, for each future airplane design issued a type certificate under the new standards. If the new standards are at least 70 percent effective, then the probability that one or more catastrophic accidents will be prevented for each type certificate is about 50 percent; and if the new standards are 50 percent effective, then there is a 40 percent probability that one or more accidents will be prevented for each type certificate. These potential benefit estimates must be compared to the 63 percent probability that, in the absence of these new standards, one or more catastrophic accidents will occur for each new type certificate that is issued which does not meet these standards.

C. Comparison of Costs and Benefits

The FAA has estimated that the total cost per type certificate for the new liner standard, distributed over a 40 to 50 year period, will be about $46 million. The FAA expects that the majority of future airplane designs receiving new type certificates will be affected by the liner standard only. If one or more catastrophic accidents are prevented, then the loss of at least one airplane valued at $20 million will be prevented, at least 110 fatalities will be prevented, and the cost per fatality avoided will not be greater than $235 thousand. For those relatively few new aircraft designs which may be required to comply with both the amended liner material and the Class D compartment size standards, then the total costs increase to appoximately $102 million per type certificate over a 50 year period. If one or more accidents are prevented, the same benefits as those expected for airplanes subject to only the liner standard will be realized, except that the maximum cost per fatality avoided will increase to approximately $748 thousand.

Based upon a conservative estimate of the historic accident rate, and a sensitivity analysis of the potential effectiveness of the new standards, there is about a 40 to 60 percent probability that one or more catastrophic cargo compartment fire accidents will be prevented for each new type certificate that is issued, and that very reasonable cost-benefit relationships will be achieved. This compares to about a 60 percent probability that one or more catastrophic fire accidents will occur for each noncompliant type certificate that is issued in the absence of these new standards.

II. Regulatory Flexibility Act Determination

A final regulatory flexibility determination was conducted in compliance with the Regulatory Flexibility Act. The conclusion in the initial regulatory evaluation, that the rule will have no direct impact on small entities, is not altered by the present evaluation.

III. International Trade Impact Analysis

The amendment will have little or no impact on trade for both U.S. firms doing business in foreign countries and foreign firms doing business in the U.S. In the U.S., foreign manufacturers will have to meet U.S. requirements, and thus they will gain no competitive advantage. In foreign countries, foreign manufacturers could have some minor cost advantage if the foreign country does not require the improved design standards, but because the cost will be negligible compared to the new airplane cost, there will be essentially no impact.

Conclusion

For the reasons discussed earlier in the preamble, the FAA has determined that this regulation is not considered to be major under Executive Order 12291. The FAA has determined that this action is significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). In addition, it has been determined under the criteria of the Regulatory Flexibility Act that this rule does not have a significant economic effect on a substantial number of small entities, since none would be affected. A regulatory evaluation, including a Regulatory Flexibility Determination and Trade Impact Assessment, has been prepared for this regulation and has been placed in the Rules Docket. A copy of this evaluation may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT."

List of Subjects in 14 CFR Part 25

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, Part 25 of the Federal Aviation Regulations (FAR), 14 CFR Part 25 is amended as follows:

PART 25—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY AIRPLANES

1. The authority citation for Part 25 continues to read as follows:

Authority: 49 U.S.C. 1344, 1354(a), 1355, 1421, 1423, 1424, 1425, 1428, 1429, 1430; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983).

2. By amending § 25.853 by revising paragraph (b) to read as follows:

§ 25.853 Compartment interiors.

* * * * *

(b) Floor covering, textiles (including draperies and upholstery), seat cushions, padding, decorative and nondecorative coated fabrics, leather, trays and galley furnishings, electrical conduit, thermal and acoustical insulation and insulation covering, air ducting, joint and edge covering, liners of Class B and E cargo or baggage compartments, floor panels of Class C or D cargo and baggage compartments, insulation blankets, cargo covers, and transparencies, molded and thermoformed parts, air ducting joints, and trim strips (decorative and chafing), that are constructed of materials not covered in paragraph (b–2) of this section, must be self-extinguishing when tested vertically in accordance with the applicable portions of Part I of Appendix F of this Part, or other approved equivalent methods. The average burn length may not exceed 8 inches, and the average flame time after removal of the flame source may not exceed 15 seconds. Drippings from the test specimen may not continue to flame for more than an average of 5 seconds after falling.

* * * * *

3. By amending § 25.855 by revising paragraph (a–1), to read as follows:

§ 25.855 Cargo and baggage compartments.

* * * * *

(a-1) Class B through Class E cargo or baggage compartments, as defined in § 25.857, must have a liner and the liner must be separate from (but may be

attached to) the airplane structure, and must be tested as follows:

(1) Ceiling and sidewall liner panels of Class C and D compartments must meet the test requirements of Part III of Appendix F of this Part or other approved equivalent methods.

(2) Floor panels of all compartments and ceiling and sidewall liner panels of Class B and E compartments must be constructed of materials that meet at least the requirements set forth in § 25.853(b). Also, these liner panels must be tested at a 45 degree angle in accordance with the applicable portions of Part I of Appendix F of this Part or other approved equivalent methods. The flame may not penetrate (pass through) the material during application of the flame or subsequent to its removal. The average flame time after removal of the flame source may not exceed 15 seconds, and the average glow may not exceed 10 seconds.

* * * * *

4. By amending § 25.857 by adding a new paragraph (d)(6) to read as follows:

§ 25.857 Cargo compartment classification.

* * * * *

(d) * * *

(6) The compartment volume does not exceed 1,000 cubic feet.

* * * * *

5. By amending Appendix F by adding a new Part III to read as follows:

Appendix F to Part 25

* * * * *

Part III—Test Method to Determine Flame Penetration Resistance of Cargo Compartment Liners.

(a) *Criteria for Acceptance.*

(1) At least three specimens of cargo compartment sidewall or ceiling liner panels must be tested.

(2) Each specimen tested must simulate the cargo compartment sidewall or ceiling liner panel, including any design features, such as joints, lamp assemblies, etc., the failure of which would affect the capability of the liner to safey contain a fire.

(3) There must be no flame penetration of any specimen within 5 minutes after application of the flame source, and the peak temperature measured at 4 inches above the upper surface of the horizontal test sample must not exceed 400 °F.

(b) *Summary of Method.* This method provides a laboratory test procedure for measuring the capability of cargo compartment lining materials to resist flame penetration with a 2 gallon per hour (GPH) #2 Grade kerosene or equivalent burner fire source. Ceiling and sidewall liner panels may be tested individually provided a baffle is used to simulate the missing panel. Any specimen that passes the test as a ceiling liner panel may be used as a sidewall liner panel.

(c) *Test Specimens.*

(1) The specimen to be tested must measure 16±⅛ inches (406±3 mm) by 24+⅛ inches (610±3 mm).

(2) The specimens must be conditioned at 70 °F.±5 °F. (21°C.±2 °C.) and 55%±5% humidity for at least 24 hours before testing.

(d) *Test Apparatus.* The arrangement of the test apparatus, which is shown in Figure 3 of Part II and Figures 1 through 3 of this Part of Appendix F, must include the components described in this section. Minor details of the apparatus may vary, depending on the model of the burner used.

(1) *Specimen Mounting Stand.* The mounting stand for the test specimens consists of steel angles as shown in Figure 1.

(2) *Test Burner.* The burner to be used in tesing must—

(i) Be a modified gun type.

(ii) Use a suitable nozzle and maintain fuel pressure to yield a 2 GPH fuel flow. For example: an 80 degree nozzle nominally rated at 2.25 GPH and operated at 85 pounds per square inch (PSI) gage to deliver 2.03 GPH.

(iii) Have a 12 inch (305 mm) burner extension installed at the end of the draft tube with an opening 6 inches (152 mm) high and 11 inches (280 mm) wide as shown in Figure 3 of Part II of this Appendix.

(iv) Have a burner fuel pressure regulator that is adjusted to deliver a nominal 2.0 GPH of #2 Grade kerosene or equivalent.

Burner models which have been used successfully in testing are the Lenox Model OB–32, Carlin Model 200 CRD and Park Model DPL. The basic burner is described in FAA Powerplant Engineering Report No. 3A, Standard Fire Test Apparatus and Procedure for Flexible Hose Assemblies, dated March 1978; however, the test settings specified in this appendix differ in some instances from those specified in the report.

(3) *Calorimeter.*

(i) The calorimeter to be used in testing must be a total heat flux Foil Type Gardon Gage of an appropriate range (approximately 0 to 15.0 British thermal unit (BTU) per ft.^{2} sec., 0–17.0 watts/cm^2). The calorimeter must be mounted in a 6 inch by 12 inch (152 by 305 mm) by ¾ inch (19 mm) thick insulating block which is attached to a steel angle bracket for placement in the test stand during burner calibration as shown in Figure 2 of this Part of this Appendix.

(ii) The insulating block must be monitored for deterioration and the mounting shimmed as necessary to ensure that the calorimeter face is parallel to the exit plane of the test burner cone.

(4) *Thermocouples.* The seven thermocouples to be used for testing must be 1/16 inch ceramic sheathed, type K, grounded thermocouples with a nominal 30 American wire gage (AWG) size conductor. The seven thermoocouples must be attached to a steel angle bracket to form a thermocouple rake for placement in the test stand during burner calibration as shown in Figure 3 of this Part of this Appendix.

(5) *Apparatus Arrangement.* The test burner must be mounted on a suitable stand to position the exit of the burner cone a distance of 8 inches from the ceiling liner panel and 2 inches from the sidewall liner panel. The burner stand should have the capability of allowing the burner to be swung away from the test specimen during warm-up periods.

(6) *Instrumentation.* A recording potentiometer or other suitable instrument with an appropriate range must be used to measure and record the outputs of the calorimeter and the thermocouples.

(7) *Timing Device.* A stopwatch or other device must be used to measure the time of flame application and the time of flame penetration, if it occurs.

(e) *Preparation of Apparatus.* Before calibration, all equipment must be turned on and allowed to stabilize, and the burner fuel flow must be adjusted as specified in paragraph (d)(2).

(f) *Calibration.* To ensure the proper thermal output of the burner the following test must be made:

(1) Remove the burner extension from the end of the draft tube. Turn on the blower portion of the burner without turning the fuel or igniters on. Measure the air velocity using a hot wire anemometer in the center of the draft tube across the face of the opening. Adjust the damper such that the air velocity is in the range of 1550 to 1800 ft./min. If tabs are being used at the exit of the draft tube, they must be removed prior to this measurement. Reinstall the draft tube extension cone.

(2) Place the calorimeter on the test stand as shown in Figure 2 at a distance of 8 inches (203 mm) from the exit of the burner cone to simulate the position of the horizontal test specimen.

(3) Turn on the burner, allow it to run for 2 minutes for warm-up, and adjust the damper to produce a calorimeter reading of 8.0±0.5 BTU per ft.^{2} sec. (9.1±0.6 Watts/cm^2).

(4) Replace the calorimeter with the thermocouple rake (see Figure 3).

(5) Turn on the burner and ensure that each of the seven thermocouples reads 1700 °F. ±100 °F. (927 °C. ±38 °C.) to ensure steady state conditions have been achieved. If the temperature is out of this range, repeat steps 2 through 5 until proper readings are obtained.

(6) Turn off the burner and remove the thermocouple rake.

(7) Repeat (1) to ensure that the burner is in the correct range.

(g) *Test Procedure.*

(1) Mount a thermocouple of the same type as that used for calibration at a distance of 4 inches (102 mm) above the horizontal (ceiling) test specimen. The thermocouple should be centered over the burner cone.

(2) Mount the test specimen on the test stand shown in Figure 1 in either the horizontal or vertical position. Mount the insulating material in the other position.

(3) Position the burner so that flames will not impinge on the specimen, turn the burner on, and allow it to run for 2 minutes. Rotate the burner to apply the flame to the specimen and simultaneously start the timing device.

(4) Expose the test specimen tto the flame for 5 minutes and then turn off the burner. The test may be terminated earlier if flame penetrations observed.

(5) When testing ceiling liner panels, record the peak temperature measured 4 inches above the sample.

(8) Record the time at which flame penetration occurs if applicable.

(b) *Test Report.* The test report must include the following:

(1) A complete description of the materials tested including type, manufacturer, thickness, and other appropriate data.

(2) Observations of the behavior of the test specimens during flame exposure such as delamination, resin ignition, smoke, ect., including the time of such occurrence.

(3) The time at which flame penetration occurs, if applicable, for each of the three specimens tested.

(4) Panel orientation (ceiling or sidewall).

Office of Management and Budget

Cumulative Report on Rescissions and Deferrals; Notice

OFFICE OF MANAGEMENT AND BUDGET

Cumulative Report on Rescissions and Deferrals

May 1, 1986.

This report is submitted in fulfillment of the requirements of section 1014(e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all budget authority for this fiscal year for which, as of the first day of the month, a special message has been transmitted to the Congress.

This report gives the status as of May 1, 1986, of 83 rescission proposals and 66 deferrals contained in the six special messages of FY 1986. These messages were transmitted to the Congress on October 1 and November 25, 1985, February 5, March 12, March 20, and April 25, 1986.

Rescissions (Table A and Attachment A)

As of May 1, 1986, there were rescission proposals totaling $194.4 million pending before the Congress.

Deferrals (Table B and Attachment B)

As of May 1, 1986, $11,933.1 million in 1986 budget authority was being deferred from obligation. Attachment B shows the history and status of each deferral reported during FY 1986.

Information From Special Messages

The special message containing information on the deferrals covered by this cumulative report is printed in the Federal Register listed below:

Vol. 50, FR p. 41100, Tuesday, October 8, 1985
Vol. 50, FR p. 49498, Monday, December 2, 1985
Vol. 51, FR p. 5830, Tuesday, February 18, 1986
Vol. 51, FR p. 9154, Monday, March 17, 1986
Vol. 51, FR p. 10526, Wednesday, March 26, 1986
Vol. 51, FR p. 16274, Thursday, May 1, 1986

James C. Miller, III,
Director.

BILLING CODE 3110-01-M

TABLE A

STATUS OF 1986 RESCISSIONS

	Amount (In millions of dollars)
Rescissions proposed by the President	$10,140.0
Accepted by the Congress	0
Rejected by the Congress	9,945.7 a/
Pending before the Congress	$194.4

****

TABLE B

STATUS OF 1986 DEFERRALS

	Amount (In millions of dollars)
Deferrals proposed by the President	$24,720.7
Routine Executive releases through May 1, 1986 (OMB/Agency releases of $12,622.8 million and cumulative adjustments of $58.8 million)	-12,564.0
Overturned by the Congress	-223.6
Currently before the Congress	$11,933.1

a/ Rescission proposals transmitted with the FY 1987 Budget were released immediately following expiration of the 45-day clock on rescissions under the Impoundment Control Act. However, the proposals continue to be subject to Congressional action.

Notes. - The amount of the rescission proposal for Subsidized housing programs (R86-52) for the "Rental rehabilitation grants program" was inadvertently shown in the Third Special Message as $71,755,000 instead of $71,775,000. This report reflects the correct amount.

The following rescission proposal has been adjusted downward to reflect the impact of sequestration: R86-64..... $3,312,600

On April 8, 1986, the General Accounting Office reclassified a portion of Deferral No. 86-6A as a rescission. This is shown above as Rescission No. 86-80A.

Part V

Department of the Treasury

Fiscal Service

31 CFR Part 357

Regulations Governing Book-Entry Treasury Bonds, Notes, and Bills; Final Rule

DEPARTMENT OF THE TREASURY

Fiscal Service

31 CFR Part 357

[Department of the Treasury Circular, Public Debt Series No. 2-86]

Regulations Governing Book-Entry Treasury Bonds, Notes, and Bills

AGENCY: Bureau of the Public Debt, Fiscal Service.

ACTION: Final rule.

SUMMARY: The Bureau of the Public Debt hereby publishes, as a final rule, that portion of the proposed rule establishing a revised book-entry system governing all marketable Treasury securities to be held in the TREASURY DIRECT book-Entry Securities System [formerly known as "T-DAB" but now referred to as "TREASURY DIRECT"]. With the exception of certain definitions which apply only to TREASURY DIRECT, Subpart A of the rule, which provides general and definitional information about the revised book-entry system, and certain other provisions of the rule governing marketable Treasury securities held in the commercial counterpart [formerly known as "T-FED" but now known as "TRADES," i.e., Treasury/Reserve Automated Debt Entry System], were published separately for comment at 51 FR 8846 on March 14, 1986. That portion will be published as part of the final rule after the end of the comment period and following consideration of the comments submitted.

As explained in the notice of proposed rulemaking for the TREASURY DIRECT regulations on December 2, 1985, at 50 FR 49412, Treasury bonds and notes issued after the effective date for TREASURY DIRECT will no longer be offered in physical form, but will be available only in book-entry. Treasury bills, which are currently offered only in book-entry form, will be added to the TREASURY DIRECT system on a phased-in basis. All book-entry Treasury securities will be available in TRADES, which will be essentially a continuation of the system currently being maintained through the Federal Reserve Banks.

To provide a complete rule in a single document, the Department plans to republish the final TREASURY DIRECT regulations set forth below with the publication of the regulations as finally adopted for TRADES.

EFFECTIVE DATE: These regulations shall be effective July 1, 1986, and shall apply to securities made eligible for TREASURY DIRECT either by the applicable offering circular or by announcement by the Secretary of the Treasury.

FOR FURTHER INFORMATION CONTACT: Cynthia Reese, Attorney-Adviser (202-376-4320), or John E. Logue, Attorney-in-Charge (202-447-9659).

SUPPLEMENTARY INFORMATION: The Bureau of the Public Debt, in its Notice of Proposed Rulemaking on December 2, 1985, at 50 FR 49412, referred to the book-entry system to be established by the regulations as T-DAB, an acronym for Treasury Direct Access Book-Entry Securities System. It was subsequently decided that TREASURY DIRECT would be more understandable in referring to the new book-entry system, better communicating its central feature, i.e., a Treasury-operated system to which investors have direct access. Where the term "T-DAB" appeared in the proposed rule, the term "TREASURY DIRECT" has now been substituted.

Discussion of Final Rule

Backgound

Twenty-four written comments were received to the notice of proposed rulemaking from various sources, including Federal agencies, trade associations, as well as financial and commercial investment institutions. With the exception of one bank, all commentators endorsed the concept of a certificateless security.

The grouping and identification of the comments received have been made on a section-by-section basis, with an explanation of the action taken with respect thereto. As circumstances necessitated the publication of the rule in two segments, in order to make each part more understandable, certain definitions, such as those for "Department" and "securities", have appeared in the proposed rule for both TREASURY DIRECT and TRADES, and were slightly modified in the proposed rules on TRADES. Because these modifications represent non-substantive clarifications, and to avoid confusion as between the two portions of the rules, the definitions as used in TRADES have been adopted.

Section-By-Section Analysis

Section 357.21 Registration.

The forms of registrations provided for securities to be held in TREASURY DIRECT have different legal effect from those currently provided for in the case of definitive Treasury securities and for the Treasury's book-entry Treasury bill system. A comment was received that, as a result, this could lead to some confusion, and that the Treasury bill forms of recordation currently offered should be changed, particularly since Treasury bills will be phased into TREASURY DIRECT gradually. The Bureau believes that the benefits of uniformity of rights and interests that TREASURY DIRECT investors will derive far outweigh any possible confusion. As for confusion with the current Treasury bill book-entry system, given the fact that Treasury bills have a term of not more than a year, it is believed that the problem, if any, will be short-lived.

Given the importance of the change that TREASURY DIRECT provides as to registration, the discussion thereof that accompanied the Notice of Proposed Rulemaking is re-published below.

"*Forms of Registration.* The proposed rule provides the investor with a variety of registration options. They are essentially similar to those provided for registered, definitive marketable Treasury securities. Investors should be particularly aware that, where the security is held in the names of two individuals, the registration chosen may establish rights of survivorship.

"The reason for establishing the rights of ownership for securities held in TREASURY DIRECT is that it will give investors the assurance that the forms of registration they select will establish conclusively the rights to their book-entry securities. It will also serve to eliminate some of the uncertainties, as well as possible conflicts, between the varying laws of the several States.

"A Federal rule of ownership is being adopted by the Treasury for TREASURY DIRECT securities. This regulatory approach is consistent with the one previously taken in the case of United States Savings Bonds. It will have the effect of overriding inconsistent State laws. See, *Free v. Bland,* 369 U.S. 663 (1962).

"In the case of individuals (who are likely to be by far the majority of holders of securities in TREASURY DIRECT), the options offered will permit virtually all the preferred forms of ownership. At the investor's option, it will be possible to provide for the disposition of the securities upon death through rights of survivorship.

"*Coownership registration.* One option is the coownership form of registration, i.e., "A or B." Unlike the current Treasury bill book-entry system being administered by the Bureau of the Public Debt, a security held in TREASURY DIRECT registered in this form will be transferable upon the written request of *either* coowner. Other changes in the account may also be made upon the request of *either* party.

While this form of registration will facilitate the receipt of payments and provide ease in conducting transactions, care should obviously be exercised in designating a coowner.

"*Joint ownership.* For those who would prefer to have the transferability of a security held in two names contingent upon the request of both, the joint form of registration will be appropriate. This form of registration, i.e., "A and B, with [without] the right of survivorship," will require the agreement of both parties to conduct any authorized transaction.

"*Beneficiary form.* The beneficiary form, i.e., "A payable on death to (POD) B," will permit the owner to have sole control of the account during his/her lifetime, but in the event of death, the account will pass by right of survivorship to the beneficiary."

One commentator questioned the "natural guardian" and "voluntary guardian" forms of registration provided in the regulations, pointing out that financial institutions are reluctant to establish an account in the name of a natural guardian of a minor because of the uncertainties as to who might be entitled to the funds on the death of the natural guardian or minor, or when the minor reached majority. It was mentioned that a bank would be reluctant to open an account in the name of a voluntary guardian, or to release funds from an existing account to a voluntary guardian because of the potential risk in the event of a claim from a court-appointed guardian. It seems apparent that the comment was prompted by the provision that appeared in the proposed rule that the account held in TREASURY DIRECT and the deposit account to which payments are to be directed should be in the same form. As hereafter pointed out in the discussion under the payment section, this is not a requirement.

While parents are universally recognized as the natural guardians of the person of minors, they have generally not been recognized as entitled to control the estates of these minors, except perhaps in the case of small amounts. Traditionally, the guardian of the estate of a minor involves judicial appointment and supervision. In order to provide a means of dealing with the problem of disposing of securities inadvertently registered in the name of minors without requiring the appointment of a legal guardian and to provide a means for investing funds of a minor, which did not technically qualify for investment under the Uniform Gifts to Minors Act, the Department decided to provide recognition for natural guardians.

The voluntary guardianship procedure is wholly a creature of the Department's regulations. It was established in recognition of the burden placed on an incompetent's estate and his/her family by requiring the appointment of a legal guardian to receive the interest on, or to redeem securities for, the account of an individual who has become incompetent, at least where the incompetent's estate is relatively modest. This form of registration is not available on original issue and is limited to an aggregate of $20,000 (par amount) of TREASURY DIRECT securities. The $20,000 limit in connection with the use of the voluntary guardianship procedure is in keeping with the limits used in connection with the summary administration of decedents' estates under the laws of many States.

Section 357.23 Judicial proceedings.

No comments were received regarding the provisions on judicial proceedings. Given their importance, the discussion that accompanied the publication thereof in proposed form is included here.

"*Judicial proceedings.* Under the principle of sovereign immunity, neither the Department nor a Federal Reserve Bank, acting as fiscal agent of the United States, will recognize a court order that attempts to restrain or enjoin the Department or a Federal Reserve Bank from making payment on a security or from disposing of a security in accordance with instructions of the owner as shown on the Department's records.

"The Department will recognize a final court order affecting ownership rights in TREASURY DIRECT securities provided that the order is consistent with the provisions of Subpart C and the terms and conditions of the security, and the appropriate evidence, as described in § 357.23(c), is supplied to the Department. For example, the Department may recognize final orders arising from divorce or dissolution of marriage, creditor or probate proceedings, or cases involving application of a State slayer's act. The Department will also recognize a transaction request submitted by a person appointed by a court and having authority under an order of a court to dispose of the security or payment with respect thereto, provided conditions similar to those above are met."

Section 357.25 Security interests.

TREASURY DIRECT is not designed to reflect or handle the various types of security interests that may arise in connection with a Treasury bond, note or bill. However, the Treasury has from time to time and to a limited extent held in safekeeping, for such agencies as the Customs Service and Immigration and Naturalization Service, Treasury securities submitted in lieu of surety bonds in accordance with 31 U.S.C. 9303. While the Federal Reserve Banks handle the majority of such pledges and will continue to do so, as this statute requires the Treasury to accept these Government obligations so pledged, a provision has been added for accepting and holding book-entry securities submitted for such purposes.

Section 357.26 Payments.

(a) *General.* Most comments focused on the provisions on payments. A key feature of TREASURY DIRECT will be the making of payments by the direct deposit method (also known as the electronic funds transfer or ACH method). Checks will be issued only under extraordinary circumstances. A number of comments endorsed the concept of payment by direct deposit as an improvement given the difficulties associated with checks.

One comment expressed concern as to who would have the burden of resolving errors in cases where a receiving financial institution fails to properly credit a payment. The Department has concluded that while the direct deposit payment method is not without risks, it is far superior to the use of checks, in terms of the risks, potential losses, and costs. In a case where a receiving institution fails to act in accordance with the instructions given it, the Bureau intends to use its best efforts to assist investors in rectifying the error.

(b) *Direct deposit.* A number of comments expressed the view that the TREASURY DIRECT payment system should adopt either the rules governing the direct deposit of Government payments (31 CFR Part 210), or the rules of the National Automated Clearing House Association ("NACHA Rules"), but not separate rules. The final rules have adopted some of the existing practices applicable to commercial ACH payments, but it is not possible for the Department of the Treasury to conform to all of these rules. For example, the Treasury has no authority to indemnity recipients of direct deposit payments, although such indemnification by a sender is contemplated in the NACHA rules and was advocated in several comments. It should also be noted that the rules applicable to TREASURY DIRECT payments are modeled, to some extent, on the rules for Government direct deposit payments in order to take advantage of the large number of entities that are a part of the

Government direct deposit network. See the discussion under paragraph (b)(2). Where there are unique rules applicable to TREASURY DIRECT, however, they are explained here.

Given the variance between the procedures set out in the proposed rules and existing practice, and the increased burdens resulting therefrom, several clearing house associations and financial institutions requested that the implementation of TREASURY DIRECT be delayed from July 1986 to July 1987. The Treasury is satisfied that the added burdens that would have been imposed on financial institutions to receive TREASURY DIRECT payments under the proposed rules have been effectively eliminated in the final rule. Thus, Treasury plans to implement the system on or about the original target date. The final rules are being published, however, in advance of actual implementation so as to give financial institutions an opportunity to make whatever remaining, minor procedural changes as may be necessary.

(b)(1) *Information on deposit account at financial institution.* The proposed regulations provided that the owner of a security in TREASURY DIRECT, or in the case of ownership by two individuals, the first-named owner, must be an owner of, and so designated, on the account at the receiving financial institution. The regulations also provided that in any case in which a security is held jointly or with right of survivorship, the account at the financial institution should be established in a form that assures that the rights of each joint owner or survivor will be preserved.

The rule requiring the naming of the first-named owner on the receiving financial institution account was based on tax reporting considerations. It has now been determined that the first-named security owner need not be named on the receiving deposit account.

The rule relating to establishment of the receiving account in joint ownership cases in the same form as the registration of the security was intended to be a notice to investors of a potential problem, rather than a requirement. In cases where an investor intends a beneficiary, joint owner or coowner to receive securities after the investor's death, this intention may be defeated if the recipient is not also named on the receiving deposit account. It is up to the investor to examine his or her particular circumstances and determine whether the form in which the deposit account will be held is satisfactory. This matter has been clarified in paragraph (b)(1)(v) of the final rule. Except for the restriction described in paragraph (b)(1)(ii) (see below), the Treasury does not intend to establish any limitations on how the receiving deposit account is held.

Several comments addressed the issue of the registration of the security versus the title of the deposit account. Two comments pointed out that if the deposit account must be in the same form as the registration of the security, then existing traditional forms of ownership for bank accounts, which do not include all the forms of registration for securities held in TREASURY DIRECT, would not suffice. Concerns were also expressed that with multiple forms of ownership, financial institutions could become involved in disputes with investors. As noted above, there is no requirement that the TREASURY DIRECT account and the deposit account be identical. The responsibility to choose the title of the deposit account rests with the investor.

Another comment objected to the rule that the first-named security owner be named on the receiving deposit account because the rule would eliminate the possibility of payment to an account at a financial institution in the name of a mutual fund, security dealer, or insurance company. Although the change in the tax reporting rule described above permits payment to such accounts, as well as to trust accounts, since it appears that there is a question as to the capability of some receiving institutions to handle such payments, investors are strongly urged to consult their financial institution before requesting such payment arrangements. See paragraph (b)(1)(iii).

It should be emphasized that any payments that must be made by check will be made in the form in which the TREASURY DIRECT account is held, which may be different than the form of the deposit account. Investors should be aware that this may result in checks being issued, and thus payment being made, in a form different than they intended the direct deposit payments to be made. For example, if Investor A purchases a security in his or her name alone with instructions that payments be directed to a financial institution for the account of a money market fund, any checks that must be issued will be drawn in the name of Investor A. This could happen if Investor A furnishes erroneous payment instructions and the problem cannot be resolved before a payment date, in which case a check would be issued.

The one restriction on the form of the deposit account that appears in paragraph (b)(1)(ii) of the final regulations is a rule that where the TREASURY DIRECT account is in the name of individual(s), and the receiving deposit account is also in the name of individual(s), one of the individuals on the TREASURY DIRECT account must be named on the deposit account. This rule is intended to provide a means to determine the disposition of the payment, if necessary. The Treasury does not expect financial institutions to monitor this rule.

Provision has been made in paragraph (b)(1)(vii) to permit financial institutions to request "mass changes" of deposit account numbers without the submission of individual requests from investors to TREASURY DIRECT. This procedure is intended for use where an institution changes all or an entire group of its account numbers, typically as a result of an organizational change. TREASURY DIRECT will honor requests from a financial institution to change deposit account numbers under such circumstances, with the understanding that the institution agrees to indemnify the Treasury and the security owners for any losses resulting from errors made by the institution. If the institutions does not wish to use the "mass change" procedure, then the change in account number must be requested by the investor, using the authorized transaction request form. See § 357.28.

Some institutions voiced concern in general about investor errors in furnishing the TREASURY DIRECT a deposit account number and the financial institution's routing number. Although the Treasury plans to provide as much assistance to investors as possible, the investor must bear the responsibility for securing accurate payment information. Investors are urged to consult with their receiving institution to verify the accuracy of the payment information, since neither the Treasury nor the receiving financial institution would be responsible for payment errors resulting from erroneous information provided by investors.

The proposed rule provided in § 357.26(b)(1)(iii) that the designation of a financial institution by a security owner to receive payments from TREASURY DIRECT would constitute the appointment of the financial institution as agent for the owner for the receipt of payments. The crediting of a payment to the financial institution for deposit to the owner's account, in accordance with the owner's instructions, would discharge the United States of any further responsibility for the payment. One comment noted that, in contrast, the rule in 31 CFR § 210.13 for Federal recurring payments is that the United States is not acquitted until the payment is credited to the account of

the recipient on the books of a financial institution.

Although, in principle, the same rules should apply to all Government payments, the proposed TREASURY DIRECT rule has been retained in the final regulations on the basis of the major differences in the procedures to be used in TREASURY DIRECT. Most significantly, the Treasury will not be securing any written verification (*i.e.*, an enrollment form) from a financial institution as to the accuracy of the deposit account number and other payment information, as is now the practice in the case of payments under 31 CFR Part 210. Under these circumstances, the Treasury cannot, in effect, guarantee that a payment will be credited by a financial institution to the correct account. It should also be noted that this rule on acquittance of the United States is consistent with the provision in § 357.10(c) of the proposed regulations on TRADES. In practice, however, the Treasury plans to participate actively in seeking to locate and recover any payments that have been misdirected.

(b)(2) Agreement of financial institution. The proposed rule provided, in Sec. 357.26(b)(2), that a financial institution which has agreed to accept payments under 31 CFR Part 210 shall be deemed to have agreed to accept payments from TREASURY DIRECT. The rule further provided that an institution could not be designated to receive TREASURY DIRECT payments unless it had agreed to accept direct deposit payments under 31 CFR Part 210.

One financial institution commented that a receiving institution that has already agreed to accept Part 210 payments should have the choice as to whether to accept payments from TREASURY DIRECT. The basis for this comment was the perception that the receipt of TREASURY DIRECT payments would require the implementation of special procedures by the financial institution and expose it to additional risks. As explained earlier, the Treasury has significantly modified the procedures and reduced the requirements imposed upon a financial institution in order to receive TREASURY DIRECT payments, and decreased as well the risks an institution will incur in the receipt of such payments. Thus, the proposed rule on eligibility of receiving institutions has been retained in the final rule in essentially the same form.

Two other comments were made to the effect that the category of institutions receiving payments should be broadened. In deciding to authorize payments to all institutions receiving Part 210 payments, the Treasury considered the fact that many more institutions are designated endpoints for Government (direct deposit) payments than for commercial ACH payments. In order to afford investors the widest choice of recipient institutions, all institutions that had agreed to accept Part 210 payments were designated as authorized recipients. Treasury has now broadened the rule further to also authorize those financial institutions that are willing to agree to accept Part 210 payments in the future. This rule will permit investors to designate institutions that are not now receiving Government direct deposit payments as the recipients of their TREASURY DIRECT payments if the institutions make appropriate arrangements with the Federal Reserve Bank of their District.

(b)(3) *Pre-notification.* A significant feature of the TREASURY DIRECT payment procedure will be the use of a pre-notification message sent to the receiving financial institution in advance of the first payment. This procedure, already in use for commercial ACH payments, alerts the institution that a payment will be made and provides an opportunity for verification of the accuracy of the account information.

The proposed regulations provided that the financial institution would be required to reject the pre-notification message within four calendar days after the date of receipt if the information contained in the message did not agree with the records of the institution or if for any other reason the institution would not be able to credit the payment. The rules also stated that a failure to reject the message within the specified time period would be deemed an acceptance of the pre-notification and a warranty that the information in the message was accurate.

Because there was some confusion over when the pre-notification message woud be sent, the final rules clarify, in paragraph (b)(3)(i), that in most cases, this will occur shortly after establishment of a TREASURY DIRECT account. The Treasury has under consideration a system change that would permit a second pre-notification to be sent closer to the time of the payment if the first payment is to occur a substantial length of time after account establishment.

One of the items of information contained in a pre-notification message is the name the investor has indicated appears on the deposit account. Comments were received that existing procedures and software do not permit automatic verification of the account name. Although there is apparently some variation in practice, and some institutions undertake to verify the account name information manually, the Treasury has decided to drop the account name verification requirement in the final rules. This means that under paragraph (b)(3)(ii), a financial institution need only verify the account number and type designations on the pre-notification message. However, the Treasury urges institutions which are able to verify account names to do so and encourages the development of software that would have this capability.

A number of comments urged that the four-day period provided for an institution to reject a pre-notification message be lengthened. After consideration of the various alternatives proposed, the Treasury has concluded that an eight-day period will meet the needs of most institutions. See paragraph (b)(3)(ii) of the final rule. In responding to a pre-notification message, an institution may use the NACHA's "notification of change" procedure, standardized automated rejection codes, or any other similar standard procedure. Upon receipt of such notification, the Treasury will either make the necessary changes in the TREASURY DIRECT account or contact the investor, depending on the circumstances.

One commentator objected to the warranty by the receiving institution as to the accuracy of the pre-notification information, particularly in view of the manual verification or changes in procedures that would be required, and the resulting possibility of error. As previously noted, the requirement to verify an account name has been eliminated. In addition, language has been added to make it clear that the verification is limited to the time of pre-notification. The Treasury is of the view that the warranty is a useful concept in encouraging institutions to respond to pre-notification messages and will benefit all concerned by increasing the likelihood that payments will be made accurately and to the appropriate party.

(b)(5) *Responsibility of financial institution.* The proposed regulations provided, in § 357.26(b)(5)(ii), that a financial institution that receives a TREASURY DIRECT payment on behalf of a customer would be required to promptly notify the Treasury when it has made a change in the status or ownership of the customer's deposit account, such as the deletion of the first-named owner of the security from the title of the account, or when the institution is on notice of the death or

incompetency of the owner of the deposit account.

Several financial institutions objected to this requirement on the grounds that it would be burdensome and would require the development of new procedures to monitor the changes in deposit accounts. Specifically, several institutions indicated they would be unable to relate the receipt of TREASURY DIRECT payments, which would be handled in a centralized area of the institution, to the changes being made in a deposit account, which are handled in another operational area of the institution. These institutions said they would not necessarily be aware of who is the first-named owner of the security in TREASURY DIRECT, and that more responsibility should be placed on the security owner in reporting changes.

In response to these comments, the Treasury has narrowed the notification rule, in paragraph (b)(5)(ii) of the final rule, to require a financial institution to notify TREASURY DIRECT only in cases where it is on notice of the death or legal incapacity of an individual named on the deposit account, or where it is on notice of the dissolution of a corporation named in the deposit account. Upon receipt of notice by the area of the institution that receives credit payments, the institution will be required to return any TREASURY DIRECT payments received thereafter.

(b)(6) *Payments in error/duplicate payments.* The proposed regulations, in § 357.26(b)(6), set out rules describing the procedure that would be followed in cases where the Treasury or a Federal Reserve Bank has made a duplicate payment or a payment in error. First, the financial institution to which the payment was directed would be provided with a notice asking for the return of the amount of the payment remaining in the deposit account. If the financial institution were unable to return any part of the payment, it would be required to notify the Treasury or its Federal Reserve Bank, and provide the names and addresses of the persons who withdrew funds from the deposit account after the date of the duplicate payment or the payment in error. If the financial institution did not respond to the notice within 30 days, the financial institution's account at its Federal Reserve Bank could be debited in the amount of the duplicate or improper payment.

Several institutions raised objections about various aspects of the above procedures. One stated that 30 days was an insufficient time to respond and urged conformity with the rules in 31 CFR Part 210 permitting a 60-day response time. Some objected to furnishing information about the persons who withdrew money from an account. Several objected in principle to the provision authorizing the debiting of their accounts. Several comments indicated that if a payment is returned by a financial institution using an automated payment reversal procedure, then only the full amount of the payment (not a partial amount) can be reversed.

In the final rule, the Treasury has clarified the procedures. The requirement to provide the names of persons who withdrew funds from an account has been changed. In paragraph (b)(6)(i), financial institutions are asked to provide only such information as they have about the matter. The debiting of an institution's account at a Federal Reserve Bank is intended to be simply a last resort if the institution fails totally to respond to the notice of a duplicate payment or payment made in error. See paragraph (b)(6)(iii). The time provided for response to this notice has been lengthened to 60 days.

The final rule has also been clarified in paragraph (b)(6)(i) to provide that the amount that should be returned is an amount equal to the payment. The Treasury reserves the right, however, to request the return by other than automated means of a partial amount of a payment made in error. It is anticipated that such a procedure would occur only if the notice of a payment made in error is not issued immediately after the payment was made.

(d) *Handling of payments by Federal Reserve Banks.* Some of the comments raised a question about the liability of the Federal Reserve Banks in making payments. The proposed rule, in § 357.26(d)(2), provided that each Federal Reserve Bank would be responsible only to the Department and would not be liable to any other party for any loss resulting from its handling of payments. This rule was taken from the existing regulations in 31 CFR Part 210 (see § 210.3(f)), and is simply a restatement of existing law.

In making payments, the Federal Reserve Banks are acting in the capacity as fiscal agents of the United States, pursuant to 12 U.S.C. 391. They are not acting in an individual (banking) capacity. If a Federal Reserve Bank misdirects a payment contrary to instructions provided by the investor, the United States, as principal, may remain liable to the investor for the payment. The United States could seek to recover any loss from its agent, the Fedeal Reserve Bank. However, because the proposed rule simply stated a legal conclusion and tended to create the impression that the rule was broader than intended, it has been omitted from the final regulations.

Section 357.31 Certifying individuals.

For clarity, the warranties which accompany the use of a "Signature guaranteed" stamp have been set out.

Section 357.42 Preservation of existing rights.

This section has been deleted. The same subject-matter will be covered in § 357.1, as finally adopted.

Section 357.43 Liability of Department and Federal Reserve Banks.

This section was published as § 357.42 in the notice of proposed rulemaking for TRADES. The final version will be published after all the comments on the rulemaking for TRADES have been reviewed and considered.

Section 357.46 Supplements, amendments, or revisions.

Provision for "charges and fees for services and maintenance of book-entry Treasury securities" has been added in the event circumstances should dictate their imposition.

Procedural Requirements

This rule is not considered a "major rule" for purposes of Executive Order 12291. A regulatory impact analysis, therefore, is not required.

Although this rule was issued in proposed form to secure the benefit of public comment, the notice and public procedures of the Administrative Procedure Act are inapplicable, pursuant to 5 U.S.C. 553(a)(2). As no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) do not apply.

The collection of information requirements in these regulations were submitted to the Office of Management and Budget for review under section 3504(h) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501, *et seq.*). The Office of Management and Budget approved those requirements under control No. 1535-0068.

List of Subjects in 31 CFR Part 357

Electronic funds transfer, Federal Reserve System, Government securities.

Dated: May 9, 1986.

Gerald Murphy,

Fiscal Assistant Secretary.

Part 357 is added to Subchapter B of Title 31, Code of Federal Regulations, Chapter II, and issued as Department of the Treasury Circular, Public Debt Series No. 2-86, to read as follows. The "Discussion of Final Rule" portion of the

Supplementary Information section of this document is designated as Appendix A to Part 357 and is added to Part 357.

PART 357—REGULATIONS GOVERNING BOOK-ENTRY TREASURY BONDS, NOTES AND BILLS (DEPARTMENT OF THE TREASURY CIRCULAR, PUBLIC DEBT SERIES NO. 2-86)

Subpart A—General Information

Sec.
357.0–357.2 [Reserved]
357.3 Definitions.

Subpart B—Treasury/Reserve Automated Debt Entry System (TRADES)—[Reserved]

Subpart C—TREASURY DIRECT BOOK-ENTRY Securities System (TREASURY DIRECT)

357.20 Securities account in TREASURY DIRECT.
357.21 Registration.
357.22 Transfers.
357.23 Judicial proceedings—sovereign immunity.
357.24 Availability and disclosure of TREASURY DIRECT records.
357.25 Security interests.
357.26 Payments.
357.27 Reinvestment.
357.28 Transaction requests.
357.29 Time required for processing transaction request.
357.30 Case of delay or suspension of payment.
357.31 Certifying individuals.
357.32 Submission of transaction requests; further information.

Subpart D—Additional Provisions

357.40 Additional requirements.
357.41 Waiver of regulations
357.42 Liability of Department and Federal Reserve Banks. [Reserved]
357.43 Liability for transfers to and from TREASURY DIRECT.
357.44 Notice of attachment for securities in TRADES.—[Reserved]
357.45 Supplements, amendments, or revisions.

Appendix A—Discussion of Final Rule.

Authority: 31 U.S.C. Chapter 31; 12 U.S.C. 391.

Subpart A—General Information

§§ 357.0–357.2 [Reserved]

§ 357.3 Definitions.

In this Part, unless the context indicates otherwise:

"Bill" means an obligation of the United States, with a term of not more than one year, issued at a discount, under Chapter 31 of Title 31 of the United States Code, in book-entry form.

"Bond" means an obligation of the United States, with a term of more than ten years, issued under Chapter 31 of Title 31 of the United States Code, in book-entry form.

"Department" means the United States Department of the Treasury, and, where appropriate, the Federal Reserve Banks acting as fiscal agents of the United States.

"Depository institution" means an entity described in section 19(b) of the Federal Reserve Act (12 U.S.C. 461(b)). Under section 19(b) of the Federal Reserve Act, the term "depository institution" includes:

(a) Any insured bank as defined in 12 U.S.C. 1813 or any bank which is eligible to make application to become an insured bank under 12 U.S.C. 1815;

(b) Any mutual savings bank as defined in 12 U.S.C. 1813 or any bank which is eligible to make application to become an insured bank under 12 U.S.C. 1815;

(c) Any savings bank as defined in 12 U.S.C. 1813 or any bank which is eligible to make application to become an insured bank under 12 U.S.C. 1815;

(d) Any insured credit union as defined in 12 U.S.C. 1752 or any credit union which is eligible to make application to become an insured institution under 12 U.S.C. 1781;

(e) Any member as defined in 12 U.S.C. 1422;

(f) Any insured institution as defined in 12 U.S.C. 1724 or any credit union which is eligible to make application to become an insured credit union under 12 U.S.C. 1726; and

(g) For the purpose of 12 U.S.C. 248(o), 342 to 347, 347c, and 372, any association or entity which is wholly owned by or which consists only of institutions referred to in paragraphs (a) through (d) of this definition.

"Federal Reserve Bank" or "Reserve Bank" means a Federal Reserve Bank or Branch.

"Financial institution" means, for purposes of direct deposit, an institution which has agreed to receive credit payments under 31 CFR Part 210, as amended from time to time, and has not withdrawn its participation in a direct deposit program under Part 210, or an institution which is willing to agree to receive credit payments under 31 CFR Part 210 and has enrolled with its Federal Reserve Bank.

"Incompetent" means an individual who is legally, medically or mentally incapable of handling his or her business affairs, except that a minor is not an incompetent solely because of [illegible].

"Maturity value" is the amount that the Department is obligated to pay when a security matures.

"Minor" means an individual who is under the age of majority, as determined by applicable state law.

"Note" means an obligation of the United States, with a term of at least one year, but of not more than ten years, issued under Chapter 31 of Title 31 of the United States Code, in book-entry form.

"Original issue" means the offering by the Department of the Treasury of a marketable Treasury security to the public and its issuance in book-entry accounts maintained either directly by the Treasury or held through a Federal Reserve Bank.

"Owner," as used in Subpart C, means the individual(s) or entity in whose name a security is registered. If a security is registered in more than one name, the term "owner" incudes all those whose names appear on the registration and are authorized by this Part to make a transaction request on a security held in TREASURY DIRECT.

"Redemption" means payment of a security at maturity, or pursuant to a call for redumption in accordance with the terms of a security.

"Representative" includes an executor, administrator, legal guardian, committee, conservator, and any similar person or entity appointed by a court to represent the estate of a decedent, minor, or incompetent, as well as a trustee, whether appointed by a court or otherwise.

"Security" means a bond, note, or bill, each as defined in this section, and any other obligation issued by the Department that, by the terms of the applicable offering circular, are made subject to this Part. Solely for purposes of this Part, it also means the interest and principal components of a security eligible for Separate Trading of Registered Interest and Principal of Securities ("STRIPS"), if such security has been divided into such components by the express terms of the offering circular under which the security was issued and the components are maintained separately on the books of a Federal Reserve Bank.

"Security interest" and "pledge" mean an interest in a security, which interest is acquired by a secured party to secure payment or performance of an obligation and is created by a security agreement between the person having such obligation and the secured party.

"Taxpayer identifying number" or "TIN" means a social security account number or an employer identification number, as appropriate.

"TRADES" is the Treasury/Reserve Automated Debt Entry System.

"Transaction request" means a request to effect a change in an account master record or securities portfolio maintained in TREASURY DIRECT.

"Transaction request form" means a form or series of forms prescribed for use by the Department to request a transaction in TREASURY DIRECT. (This term includes a document that the Department has determined contains all of the elements required by the transaction request form.)

"TREASURY DIRECT" is the TREASURY DIRECT Book-Entry Securities System.

Subpart B—Treasury/Reserve Automated Debt Entry System (TRADES)—[Reserved]

Subpart C—TREASURY DIRECT Book-Entry Securities System (TREASURY DIRECT)

§ 357.20 Securities account in TREASURY DIRECT.

(a) *Account.* A securities account consists of:

(1) An account master record, and

(2) A securities portfolio.

(b) *Security.* A security in TREASURY DIRECT is evidenced by the account master record and a description of the security as set out in the securities portfolio associated with an account master record.

(c) *Account master record.* An owner must establish an account master record before the owner may deposit a security in TREASURY DIRECT. If the security is being purchased on original issue, the request that an account master record be established may be made on the form used for purchase of the security. If the security is being acquired other than on original issue, the request that an account master record be established should be made on the appropriate form that is provided by the Department. The account master record includes, but is not limited to, the following data:

(1) The exact form of registration in which the securities are held;

(2) The TREASURY DIRECT account number;

(3) The correspondence address for the account;

(4) The TIN of the owner, or in the case of ownership by two individuals, of the first-named owner; and

(5) Payment instructions. (See § 357.28.)

(d) *Securities portfolio.* The securities portfolio contains a description of each security and is the aggregate of all securities in the securities account.

(e) *Statement of account.* The Department shall send a statement of account ("statement") upon:

(1) Establishment of, or a change in, an account master record or the securities portfolio;

(2) Change in payment instructions; or

(3) An owner's request.

The statement shall contain information regarding the account as of the date of such statement. The price associated with each security in the securities portfolio will also appear on the statement.[1] The statement will normally be sent to the correspondence address designated in the account master record. When the statement is issued as a result of a change in ownership of a security, statements will be sent, where appropriate, to both the former and current owners. Other information regarding the account may be obtained in accordance with § 357.24

(Approved by the Office of Management and Budget under control number 1535-0068)

§ 357.21 Registration.

(a) *General*—(1) Registration of a security conclusively establishes ownership, except in the case of partnership nominees, in which case the Department reserves the right to treat the registration as conclusive of ownership. The registration may not, except as provided in this Subpart, include any restriction on the authority of an owner to change the data in the account master record, transfer the security, or effect any other change in the securities portfolio.

(2) The registration of all securities held by an owner should be uniform with respect to the owner's name. An owner must be identified by the name by which the owner is ordinarily known, preferably including at least one full given name. A suffix, such as "Sr." or "Jr.", must be included when ordinarily used, or when necessary to distinguish members of the same family.

(3) If an additional security is deposited in an existing account, the security will be registered in the same name and form of registration that appears in the designated account master record. One who holds a security as "John Allen Doe" should use that name when depositing another security rather than "J. Allen Doe", or "John A. Doe'. Minor variations in names used in acquiring a security to be deposited in an established account may be resolved by the Department.

(b) *Natural persons.* A security may be registered in the names of one or two individuals, but only in one of the following forms:

(1) *Single ownership.* In the name of one individual.

Example: Robert W. Woods

An individual who is sole proprietor of a business conducted under a trade name may include a reference to the trade name.

Example: John A. Doe, doing business as Doe's Home Appliance Store.

(2) *Ownership by two individuals.*

(i) *"And" form—Joint Ownership*—(A) *Without right of survivorship.* In the names of two individuals, joined by the word "and", and followed by the words "without right of survivorship". A security so registered shall conclusively confer on each owner an undivided interest in the security.

Example: Elizabeth Black and Jane Brown, without right of survivorship.

Any request for registration which purports, by its terms, to preclude the right of survivorship, or which requests registration in the names of two persons without indicating whether survivorship rights attach (other than a registration under paragraph (b)(2)(ii) of this section), will be presumed to be a request for registration without right of survivorship. If a security is registered in this form, a transaction request, other than a request by one owner to transfer

---

[1] IRS regulations require reporting of income information on a security.

(1) If the security is a bill, the price information will be used to comply with this requirement. The earnings reported to IRS for the year of a bill's maturity will be the difference between the par value of the bill and its price.

(a) If a bill is deposited in TREASURY DIRECT at original issue, the price shown will be the issue price.

(b) If a bill is transferred to TREASURY DIRECT from TRADES, the price shown will be that included in the transfer wire or supplied subsequently by the bill owner. If a price is not furnished, the price shown will be the weighted average price of the bill of the longest maturity having the identical CUSIP number.

(c) If a bill is transferred from one TREASURY DIRECT account to another, the price shown in the receiving (transferee's) account will be that shown on the transfer instructions or supplied subsequently by the transferee. If a price is not furnished, the price shown will be the weighted average price at original issue of the bill of the longest maturity having the identical CUSIP number, unless the term of the bill can be determined from the account record in which case the price shown will be the weighted average price at original issue of the bill with that term.

(2) If the security is a note or bond, the earnings reported to IRS for a year will be the periodic interest payments made during that year. If a note or bond is transferred to a TREASURY DIRECT account between interest payment dates, the earnings reported to IRS for the transferee will show the interest for the entire interest payment period. The price for notes and bonds will be shown on the statement of account for the account owner's information. The price shown will be determined following the procedures described above for bills.

(3) The security owner should report directly to the IRS (a) adjustments to annual earnings amounts arising from acquisition of notes and bonds between interest payment periods and (b) price corrections for bills reported after preparation of the reports to the IRS.

the security to the other owner, and other than a request for reinvestment, must be executed by both owners.

(B) *With right of survivorship.* In the names of two individuals, joined by the word "and", and followed by the words "with right of survivorship". A security so registered shall confer on each owner an undivided interest in the security and shall create a conclusive right of survivorship.

Example: Mark A. Doe and Mary B. Doe, with right of survivorship.

If a security is registered in this form, a transaction request, other than a request by one owner to transfer the security to the other owner, and other than a request for reinvestment, must be executed by both owners.

(ii) *"Or" form—"Coownership".* In the names of two individuals, joined by the word "or". A security so registered shall confer on each owner an undivided interest in the security and shall create a conclusive right of survivorship.

Example: Robert Woods or Laura Woods.

If a security is registered in this form, either coowner may make a transaction request, but if the Department receives conflicting requests at or about the same time, it may refuse to process them.

(iii) *Beneficiary.* In the name of one individual followed by the words "Payable on death to" (or "P.O.D.") another individual.

Example: Jack S. Jones, payable on death to Marie Jones.

If a minor or an incompetent is named as a beneficiary, the status of the beneficiary must be identified in the registration. A minor or an incompetent may not be designated as an owner. See paragraphs (b)(3) and (b)(4) of this section.

Example: John Perry, P.O.D. John Perry, Jr., a minor.

Registration in this form shall create ownership rights in the beneficiary only if the beneficiary survives the owner. During an owner's lifetime, a transaction request may be executed by the owner without the consent of the beneficiary. If the beneficiary dies before the owner, the security will be deemed to be registered in the owner's name alone.

(3) *Minors*—(i) *General.* A security may not be registered in the name of a minor in his or her own right as an owner. If a security is so registered and the Department thereafter receives evidence or information of that fact, the Department may suspend processing of any transaction request with respect to the security until either a legal guardian has been appointed or a natural guardian, as provided in paragraph (b)(3)(ii) of this section, has been recognized. Where a legal guardian is appointed, the Department will require a certified copy of the court order making such appointment. See § 357.28(c).

(ii) *Natural guardians of minors.* A security may be registered in the name of a natural guardian of a minor for whose estate no legal representative has been appointed. The parent with whom the minor resides will be recognized as the natural guardian. If the minor resides with both parents, either or both may be recognized as natural guardian(s). If the minor does not reside with either parent, the Department may recognize the person who furnishes the minor's chief support as the natural guardian.

Examples: Michael Jones, as natural guardian of Alice Jones, a minor.

Michael Jones and Evelyn Jones, as natural guardians of Alice Jones, a minor.

The security may also be registered in one of the forms authorized under paragraph (b)(2) of this section.

Examples: James Green, as natural guardian of William Green, a minor, and Anne Green, without right of survivorship.

James Green, as natural guardian of William Green, a minor, POD Lynne Green.

(iii) *Custodian under statute authorizing gifts to minors.* A security may be registered as provided under an applicable gift to minors statute.

Example: Virginia McDonald, as custodian for Lynne Gorman, under the New York Uniform Gifts to Minors Act.

Any request to alter the rights of ownership of the security must be made as provided in the applicable statute.

(4) *Incompetents*—(i) *General.* A security may not be registered in the name of an individual in his or her own right as an owner if that individual is incompetent. If a security is so registered, or if the owner subsequently becomes incompetent after the security is purchased, and the Department receives evidence or information of that fact, the Department may suspend any transaction with respect to the security until a legal guardian, conservator, or other representative of the incompetent's estate has been appointed, or a voluntary guardian, as provided in paragraph (b)(3)(ii) of this section, has been recognized. Where a legal guardian, conservator, or other representative is appointed, the Department will require a certified copy of the court order making such appointment. See § 357.28(c).

(ii) *Voluntary guardian of incompetent.* If a legal guardian has not been appointed, and the face amount of the securities held in one or more accounts in TREASURY DIRECT by an owner who had become incompetent does not exceed, in the aggregate, $20,000 (par amount), upon submission to, and approval by, the Department of an appropriate form, a relative or other person responsible for an incompetent's care and support will be recognized as voluntary guardian for purpose of making a transaction request under § 357.28(b)(4). All persons known by the Department to have an interest in the incompetent's estate, as required by the application form, must agree to the designation of the voluntary guardian. The security may be re-registered in the name of the voluntary guardian.

Example: Richard Melrose, as voluntary guardian for James W. Brundige.

(c) *Representatives.* A security may be registered in the name of a representative of an estate. If there is more than one representative, the names of some representatives may be omitted if followed by language that indicates the existence of other representatives. In such cases, those named in the registration shall be conclusively presumed by the Department to have authority to make a transaction request on behalf of all the representatives. The form of registration must identify the specific capacity of the representative(s) and the estate represented.

Examples: ABC National Bank of Chicago, Illinois and Harold Smith, co-executors of the will (or administrators of the estate) of Charles Johnson, deceased.

William Brown, guardian of the estate of Henry Jones, a minor.

Robert Smith, Richard Smith, *et al.*, executors of the will of Lorraine Smith, deceased.

If the representative is a trustee, the form of registration must identify specifically the authority or document creating the trust.

Examples: Sarah Jones and XYZ Trust Co., trustees under the will of Matthew Smith, deceased.

Cynthia Doe and Margaret Jones, trustees under agreement with Martha Roe, dated April 13, 1979.

Cynthia Doe, trustee under declaration of trust, dated April 13, 1979.

Richard Smith, James Jones, and Frank Brown, trustees under the will of Henry K. James, deceased.

ABC Corporation, Myrna Banker, *et al.*, trustees of Profit-Sharing Plan of Ace Manufacturing Co., under B/D resolution, dated May 18, 1975.

If there are several trustees designated as a board or authorized to act as a unit, their names should be omitted and the words, "Board of Trustees" substituted.

Example: Board of Trustees of Super Co. Retirement Fund, under collective bargaining agreement, dated March 18, 1969.

(d) *Private organizations (corporations, unincorporated associations and partnerships).* A security may be registered in the name of a private corporation, unincorporated association, or partnership. The full legal name of the organization, as set forth in its charter, articles of incorporation, constitution, partnership agreement, or other documents from which its powers are derived, must be included in the registration. The name may be followed by a reference to a particular account or fund, other than a trust fund, such as an escrow account.

(1) *A corporation.* The legal name of a business, fraternal, religious, or other private corporation must be followed by descriptive words indicating the corporate status unless the term "corporation" or the abbreviation "Inc." is part of the name or the name is that of a corporation or association organized under Federal law, such as a national bank or Federal savings and loan association.

Examples: Brown Manufacturing Co., a corporation (Education Fund).

The Apex Manufacturing Corporation.

XYZ National Bank of El Paso, Texas.

Goodworks, Unlimited, a not-for-profit corporation.

(2) *An unincorporated association.* Unless the name of a lodge, club, labor union, veterans or religious organization, or similar organization which is not incorporated (whether or not it is chartered by or affiliated with a parent organization which is incorporated) includes the words "an unincorporated association", the registration must include descriptive words indicating the organization's unincorporated status. A security may not be registered in the name of an unincorporated association if the legal title to its property or the legal title to the funds with which the security is to be purchased is held by trustees. In such a case, the security should be registered in the name of the trustees in accordance with paragraph (c) of this section. The term "unincorporated association" should not be used to describe a trust fund, a partnership or a business conducted under a trade name.

Examples: Local Union No. 13, Brotherhood of Operating Engineers, an unincorporated association.

The Simpson Society, an unincorporated association.

(3) *Partnership.* Unless the name of a partnership includes the word "partnership," the registration must include descriptive words indicating partnership status.

Examples: Red & Blue, a partnership.

Abco and Co., a nominee partnership.

(e) *Governmental entities and officers.* A security may be registered in the name of a State, county, city, town, village, school district, or other governmental entity, body, or corporation established by law. If a governmental officer is authorized to act as a trustee or custodian, a security may be registered in the title, or name and title, of the governmental officer. The form of registration should reflect the capacity in which the governmental entity or officer is authorized to hold property (*e.g.*, it may be authorized to hold property in its own name or as trustee or custodian).

Examples: Laura Woods, Treasurer, City of Twin Falls, Mo.

State of Michigan.

Village of Gaithersburg, Md.

Pennsylvania State Highway Administration (Highway Road Repair Fund).

Insurance Commissioner of Florida, trustee for benefit of policy holders of Sunshine Insurance Co. under F.S.A. Sec. 629.104.

Commonwealth of Virginia, in trust for Virginia Surplus Property Agency.

Gleason County Cemetery Commission, trustee under Md. Code Ann. Sec. 310.29.

(Approved by the Office of Management and Budget under control number 1535–0066)

§ 357.22 Transfers.

(a) *General.* A security may be transferred only as authorized by this Part. A security may be transferred from an account in TREASURY DIRECT to an account in TRADES. A security may be transferred between accounts in TREASURY DIRECT, or from an account in TRADES to an account in TREASURY DIRECT, provided that prior to, or coincidental with, the transfer, an account master record has been established in accordance with the requirements of § 357.20(c).

(1) *Identification of securities to be transferred.* The owner must identify the securities to be transferred within TREASURY DIRECT, or from TREASURY DIRECT to TRADES, in the manner required by the transaction request form. If such identification is not provided, the request will not be processed and will be returned.

(2) *Denominational amounts.* A security may be transferred from an account only in a denominational amount authorized by the offering under which the security was issued. Any security remaining in the securities portfolio after the transfer must also be in an authorized denominational amount.

(3) *When transfer effective.* A transfer of a security within TREASURY DIRECT, or from TRADES to TREASURY DIRECT, is effective when an appropriate entry is made in the name of the transferee on the TREASURY DIRECT records. A transfer from TREASURY DIRECT to TRADES is effective as provided in Subpart B. If a transfer of a security from a transferor in TREASURY DIRECT to a transferee in TRADES cannot be completed, and the security is sent back to TREASURY DIRECT, the Department will redeposit the security in the transferor's account and treat the transferor as the owner.

(b) *Transfer upon death of an owner*—(1) *Right of survivorship.* If a security is registered in beneficiary form or a form which provides for a right of survivorship, upon the death of an owner, the beneficiary or survivor shall be the sole and absolute owner, notwithstanding any purported testamentary disposition by the decedent and notwithstanding any State or other law to the contrary. The Department will honor a transaction request by a beneficiary or a survivor (in the case of a security registered in the form described in § 357.21(b)(2)(i)(B)) only upon proof of death of an owner.

(2) *Succession under law of domicile.* If a security is registered in a form that does not provide for a right of survivorship, succession shall be determined in accordance with the applicable law and the terms of the domicile at the time of death.

(c) *Representative succession.* If a security is registered in the name of a representative who has died, resigned, or been removed, succession shall be determined in accordance with applicable law and theterms of the document under which the representative was acting.

(d) *Organizational succession*—(1) *Corporation and unincorporated association.* If a security is registered in the name of a corporation or an unincorporated association that has been dissolved, merged or consolidated into another organization, succession shall be determined in accordance with applicable law and the terms of the documents by which the dissolution, merger, or consolidation was effected.

(2) *Partnership.* If a partnership is dissolved or terminated, succession shall be determined in accordance with applicable law and the terms of the partnership agreement.

(e) *Succession of governmental officer.* If a security is registered in the name and title of a governmental officer who has died, resigned, or has been

removed, succession shall be determined in accordance with applicable law.

(Approved by the Office of Management and Budget under control number 1535–0068)

§ 357.23 Judicial proceedings—sovereign immunity.

(a) *Department and Federal Reserve Banks not proper parties.* The Department and the Federal Reserve Banks are not proper defendants in a judicial proceeding involving competing claims to a security held in TREASURY DIRECT nor are they subject to any injunction or restraining order issued with respect to a security. The Department will not recognize a notice of a pending or contemplated judicial or administrative proceeding affecting a security in TREASURY DIRECT.

(b) *Orders—(1) Ownership rights.* The Department will recognize a final order entered by a court that affects ownership rights in a security in TREASURY DIRECT if:

(i) The order is consistent with the provisions of this Subpart and the terms and conditions of the security; and

(ii) The Department has received evidence of the order, as provided in paragraph (c) of this section.

(2) *Transaction request.* The Department will honor a transaction request submitted by a person appointed by a court and having authority under an order of a court to dispose of the security or payment with respect thereto if:

(i) The ordered disposition of the security or payments with respect thereto is consistent with the provisions of this Subpart and the terms and conditions of the security; and

(ii) The Department has received evidence of the appointment and order, as provided in paragraph (c) of this section.

(c) *Evidence required.* Before the Department will recognize an order or determination entered by a court, the Department must have received a certified copy of the judgment, decree, or order and any additional documents deemed necessary by the Department. A certificate from the clerk of the court, bearing the seal of the court, must also be submitted stating that the judgment, decree, or order is still in full force and has not been stayed or appealed, and that the time for filing an appeal has passed. Before the Department will honor a transaction request submitted by a person appointed by a court, the Department must receive a certified copy of the order making the appointment and describing specifically the person's authority, and any additional documents deemed necessary by the Department.

(Approved by the Office of Management and Budget under control number 1535–0068)

§ 357.24 Availability and disclosure of TREASURY DIRECT records.

(a) *General.* All records with respect to a TREASURY DIRECT account are held confidential. Consistent with the Privacy Act (5 U.S.C. 552a), information relating to those accounts will be released only to the owner except:

(1) As provided in these regulations;

(2) As provided in Treasury regulations contained in 31 CFR Part 323; or

(3) As otherwise provided by law.

(b) *Inquiries by owners.* Information requested will be disclosed to an owner provided that:

(1) Sufficient information is provided to identify the owner; and

(2) Sufficient information is provided to identify the TREASURY DIRECT account.

(c) *Conditions for release.* A request for information will be honored only if, in the sole judgment of the Department or the Federal Reserve Bank to which the inquiry is made, the identify and right of the requester to the information have been established.

§ 357.25 Security interests.

(a) *General.* The Department will not recognize any notice or claim of a lien, encumbrance, or security interest of any kind, including a pledge, in a security in TREASURY DIRECT except as provided in § 357.23 and in paragraph (b) of this section.

(b) *Security for the performance of duty or obligation under Federal law.* The Department will accept and hold pursuant to the provisions of 31 U.S.C. § 9303, book-entry bonds, notes or bills submitted in lieu of a surety bond as security for the performance of a duty or obligation required by Federal law in accordance with said section.

§ 357.26 Payments.

(a) *General.* A payment by the Department with respect to a security shall be by direct deposit (electronic funds transfer), except when the Department determines that extraordinary circumstances exist that require payment by check.

(b) *Direct deposit.*

(1) *Information on deposit account at financial institution.*

(i) To establish an account in TREASURY DIRECT, the owner must furnish the name and ABA routing/transit number of the financial institution ("institution") to which payments with respect to a security are to be made, as well as a depositor name reference, deposit account number, and type or classification of account at the institution to which such payments are to be credited. The information should be furnished on the tender form if the account is being established on original issue, or in other cases on an appropriate form provided by the Department. To assure the accuracy of the account number and account type, as well as the name and ABA routing/transit number of the institution to which payments are to be made, the owner should consult with the institution in advance of the submission of the tender or transaction form. If the investor finds that the institution to be designated to receive TREASURY DIRECT payments has not agreed to receive direct deposit payments under 31 CFR Part 210, but is willing to do so, the investor should ask the institution to contact the Federal Reserve Bank of its district for enrollment advice.

(ii) Where the TREASURY DIRECT securities account is in the name of individual(s) in their own right, and the deposit account at the financial institution is in the name of individual(s) in their own right, the two accounts must contain at least one name that is common to both.

(iii) Where the deposit account to which payments are to be directed is held in the name of the financial institution itself acting as sole trustee, or as co-trustee, or is in the name of a commercially-managed investment fund, particular inquiry should first be made of the financial institution to make certain that the direct deposit payments can be received, and alternate arrangements made if it cannot do so.

(iv) In any case where, after the establishment of the securities account, it is determined that direct deposit payments cannot be accepted by the financial institution designated, under these circumstances, and pending new direct deposit instructions, payments will be made by check drawn in the name of the owner and sent to the correspondence address of record.

(v) All payments relating to a single account master record must be made to the same designated account at a financial institution.

(vi) The deposit account to which payments are directed should preferably be established in a form identical to the registration of the securities account, particularly where the securities are registered jointly or with right of survivorship, to assure that the rights of ownership and of survivorship can be more easily identified and preserved. Neither the United States nor any Federal Reserve Bank shall be liable for

any loss sustained because the interests of the holder(s) of a deposit account to which payments are made are not the same as the interests of the owner(s) of the security.

(vii) The designation of a financial institution by an owner to receive payments with respect to a security constitutes the appointment of that institution as the owner's agent for receipt of such payments. The crediting of a payment to the institution for deposit to an account in accordance with the instructions of the owner discharges the United States of any further responsibility for such payment. Where the institution has arranged with a Federal Reserve Bank to have payments credited through a designee institution, the crediting of a payment to that designee institution discharges the United States of any further responsibility for the amount of such payment.

(viii) Upon the request of a financial institution receiving direct deposit payments with respect to a security, the Department will change a deposit account number and/or type or classification of such account without requiring the submission of a transaction request from the owner of the security. The request must be made in accordance with implementing instructions issued by the Department. Such a request by a financial institution, however, will be deemed an agreement by the institution to indemnify the Department and the owner for any loss resulting from the requested change.

(2) *Agreement of financial institution.* Any financial institution which has agreed to accept credit payments under 31 CFR Part 210, or hereafter agrees to do so, shall be deemed to agree to accept payments under this Subpart. In any case, a financial institution's acceptance and handling of a payment made with respect to a security covered by this Subpart shall constitute its agreement to the provisions of this Subpart. An institution may not be designated to receive payments, as provided in this Subpart, unless it has agreed, or hereafter agrees, to receive direct deposit payments under 31 CFR Part 210.

(3) *Pre-notification*—(i) *General.* The institution designated for payment will receive shortly after a securities account has been established, but not less than fifteen (15) days prior to the first payment, a pre-notification message advising that an account maintained by such institution has been designated for direct deposit payment(s). A pre-notification message will also be sent whenever there is a change in the payment instructions. The pre-notification message shall contain the information prescribed in paragraph (b)(1)(i) of this section.

(ii) *Response to pre-notification.* The institution must respond to the pre-notification message within eight (8) calendar days after the date of receipt if the information as to the deposit account number and/or the type of account contained in the message does not agree with the records of the institution, or if the institution for any other reason has questions about the forthcoming payment, including its ability to credit the payment in accordance with this Subpart. Upon receipt of a response to the pre-notification message, the Department, as appropriate, will correct the payment instructions and send another pre-notification message, or contact the owner for further instructions. Where the circumstances indicate that there is insufficient time to effect the change, payment will be made by check. See paragraph (c) of this section.

(iii) *Effect of failure to reject.* If an institution does not reject or otherwise respond to a pre-notification message within the specified time period, the institution shall be deemed to have accepted the pre-notification and to have warranted to the Department that the information as to the deposit account number and/or the type of account contained in the message is accurate as of the time of such pre-notification.

(4) *Continuation of payment instructions.* Payment instructions for an account master record will apply to any and all securities held in that account until the Department:

(i) Receives a request from the owner to change such instructions; or

(ii) Receive a request from a financial institution to change such instructions in accordance with paragraph (b)(1)(vii) of this section; or

(iii) Receive advice from the financial institution holding the deposit account to which payment is being made that it has been closed; or

(iv) Receives notice of a change in status of a designated account or of the owner, as provided in paragraph (f) of this section.

(5) *Responsibility of financial institution.* An institution which receives a payment on behalf of its customer must:

(i) Upon receipt, credit the designated account and make the payment available for withdrawal or other use on the payment date. If a scheduled payment date is not a business day for the Federal Reserve Bank of the district in which the institution is located, payment will be made on the next-succeeding business day. If the institution is unable to credit the designated account, it shall return the payment by no later than the next business day after the date of receipt, with an electronic message or other response, explaining the reason for the return.

(ii) Promptly notify the Department when the designated account has been closed, or when it is on notice of the death or legal incapacity (as determined under applicable state law) of any individual named on such account, or when it is on notice of the dissolution of a corporation in whose name the deposit account is held. In all such cases, the institution, following receipt of notice by its organizational component responsible for direct deposit transactions, shall return to TREASURY DIRECT all payments received for the designated account.

(6) *Payments in error/duplicate payments.* If the Department or a Federal Reserve Bank has made a payment in error, the Department or Federal Reserve Bank will make a corrected payment, as appropriate, to the person(s) or entity entitled thereto under this Subpart. It will then promptly initiate action to recover the payment in error, and do so likewise on any duplicate payment that occurs, as follows:

(i) Send a written or electronic notice to the financial institution to which the payment was directed, which notice shall include the deposit account name reference, number, and the date and amount of the error in payment or duplicate payment that was not returned. See paragraphs (b)(3)(ii) and (b)(5)(ii) of this section. Upon receipt of this notice, the financial institution shall immediately return to the appropriate Federal Reserve Bank an amount equal to the payment in error or duplicate payment, where available. If the institution is unable to return payment for whatever reason, the institution shall immediately notify the Department or the Federal Reserve Bank, and provide such information as it has about the matter. The Department reserves the right to request the return of a partial amount of a payment in error or a duplicate payment.

(ii) Where the payment in error or a duplicate payment has not been returned, the Department or Federal Reserve Bank shall undertake such other actions as may be appropriate under the circumstances. To the extent permitted by law, the collection action may include deducting the amount owing from future payments made to the

deposit account to which the payment in error or duplicate payment was made.

(iii) If a financial institution has failed to respond in any way to the notice made pursuant to paragraph (b)(6)(i) of this section within sixty (60) calendar days of that notice, it will be deemed, by virtue of its acceptance of the direct deposit payment hereunder, to have authorized the Federal Reserve Bank to debit the amount of the payment in error or duplicate payment from the account maintained or utilized by the financial institution at the Federal Reserve Bank to which the payment in error or duplicate payment was credited. An institution designated by a financial institution to receive payment on its behalf, in authorizing such financial institution to utilize its account on the books of the Federal Reserve Bank, shall similarly be deemed to authorize such debit from that account. The institution to which payment has been directed and the owner of the TREASURY DIRECT account who designated the deposit account to which the payment has been deposited, shall be deemed to have agreed to provide information and assistance to effect recovery of a payment in error or duplicate payment under this subsection. The owner is further deemed to agree to any action permitted by law to effect collection of a payment in error or a duplicate payment.

(c) *Checks.* If a payment is not made by direct deposit, it shall be made by a check, drawn by a Federal Reserve Bank as fiscal agent of the United States, on the Federal Reserve Bank in its banking capacity ("fiscal agency check"), or drawn by the Department on itself ("Treasury check"). A fiscal agency check is governed by the regulations in 31 CFR Part 355. A Treasury check is governed by the regulations and statutes applicable to checks drawn on the United States or designated depositories of the United States (*i.e.*, 31 CFR Parts 235, 240, and 245). A check issued with respect to a security shall be made payable in the names of the owner(s) of the TREASURY DIRECT account and will be mailed to the correspondence address shown in the TREASURY DIRECT account.

(d) *Handling of payments by Federal Reserve Banks.* Each Federal Reserve Bank, as fiscal agent of the United States, shall receive payment in accordance with the information described in paragraph (b)(1)(i) of this section, and make payment to the designated institution by crediting it to the account of the designated institution, or of its designee, in accordance with the Federal Reserve Bank's operating circular governing such payments.

(e) *Timeliness of action.* If, because of circumstances beyond its control, the Department, a Federal Reserve Bank, or a financial institution is delayed beyond applicable time limits in taking any action with respect to a payment, the time for taking such action shall be extended as necessary until the cause of the delay ceases to operate.

(f) *Suspension of payments.* Upon receipt of notice that a designated deposit account has been closed, that an individual named on such account is dead or has been declared legally incompetent, or where a corporation is the owner, and it has been dissolved, the Department reserves the right to suspend payments and any transactions with respect to a security pending receipt of satisfactory evidence of entitlement. Payments will also be suspended in any case where the Department receives notice that an individual owner named on a securities account in TREASURY DIRECT is dead or has been declared legally incompetent, or in any case where the Department receives notice of a change in the name or status of an organization or representative named on a securities account in TREASURY DIRECT.

(Approved by the Office of Management and Budget under control number 1535–0068.)

§ 357.27 Reinvestment.

(a) *General.* Upon the request of an owner, the redemption proceeds of a security may be reinvested at maturity in a new security in the same form of registration, provided a new security is then being offered by the Department and provision for reinvestment is made in the offering. The new security must be in an authorized denominational amount and will be issued in accordance with the terms of the offering. If the new security is issued at a premium or with accrued interest, an additional payment will be required from the investor. If the new security is issued at a discount, the difference will be remitted to the owner.

(b) *Treasury bills.* A request by an owner for a single or successive reinvestment of a Treasury bill must be made in accordance with the terms prescribed on the tender form submitted at the time of purchase of the original bill, or by a subsequent transaction request received not less than twenty (20) calendar days prior to the maturity of the original bill. A request to revoke a direction to reinvest the proceeds of a bill must be received by the Department not less than twenty (20) calendar days prior to the maturity date of the bill. If either a request for reinvestment or revocation of a reinvestment request is received less than twenty (20) calendar days prior to maturity of the original bill, the Department may in its discretion act on such request if sufficient time remains for processing.

(c) *Issue date not coincidental with maturity date.* If the date on which a security matures or is called does not coincide with the issue date of the security being purchased through reinvestment, the Department may, at its option, hold the redemption proceeds in the same form of registration as the maturing or called security, but no interest shall accrue or be paid on such funds.

(Approved by the Office of Management and Budget under control number 1535–0068.)

§ 357.28 Transaction requests.

(a) *General.* Unless otherwise authorized by the Department, a transaction request must be submitted on a transaction request form. In the case of certain transactions specified by the Department, the owner's signature on the form must be certified or guaranteed, as provided in § 357.31. If the transaction request form is received more than six (6) months after its execution, it will not be honored by the Department and will be returned to the sender for further instructions.

(b) *Individuals*—(1) *General.* A transaction request must be signed by the owner of the security. In addition to any required certification, a transaction request form executed by a person by mark, *e.g.*, "(X)", must be witnessed by a disinterested person. The following language should be added to the form and be signed by the witness:

Witness to signature by mark

Signature of witness

Address of witness

(2) *Change of name.* If an individual's name has been changed from that appearing in the registration, the individual should sign both names to the transaction request form and state the manner in which the change occurred.

Example: Deborah L. Gains, changed by order of court from Deborah G. O'Brien.

The individual must provide evidence, such as a certified copy of a court order, which confirms the change, unless it is indicated that the change of name resulted from marriage.

Example: Catherine M. Cole, changed by marriage from Catherine T. Murray.

(3) *Natural guardians.* A transaction request involving a security registered in

the name of a natural guardian of a minor may be executed by the natural guardian. If a security is registered in the names of both parents as natural guardians of a minor, both must execute a transaction request. However, the Department will not honor a transaction request by the natural guardian(s):

(i) Which would transfer the security to a natural guardian in his or her own right; or

(ii) After the Department receives notice of the minor's attainment of majority, the qualification of a legal guardian or similar representative, or the death of the minor.

(4) *Voluntary guardians.* A transaction request involving a security belonging to an owner who has become incompetent may be executed by a voluntary guardian, but only after approval by the Department of the voluntary guardian's application for such designation. However, the Department will not honor a transaction request by the voluntary guardian:

(i) Which would transfer the security to a voluntary guardian in his or her own right; or

(ii) After the Department receives notice of the ward's restoration to competency, the qualification of a legal guardian or similar representative, or the death of the ward. See § 357.21(b)(4).

(c) *Representatives*—(1) *General.* A representative of an owner's estate, other than a trustee, may execute a transaction request form if the representative submits to the Department properly authenticated evidence of the authority to act. The evidence will not be accepted if dated more than six (6) months prior to the date of execution of the transaction request.

(2) *Estates closed.* If a security is registered in the name of an owner who is deceased and whose estate has been closed and the representative discharged, a transaction request must be made by the person(s) entitled to the security, as determined from the pertinent court records or the deceased owner's will, if any.

(3) *Estates not administered*—(i) *Special provisions under State laws.* If, under applicable State law, a person is entitled to or has been recognized or appointed to administer the estate of a deceased owner without court-supervised administration, that person may execute a transaction request involving a security belonging to the deceased owner, provided appropriate evidence of authority is submitted to the Department.

(ii) *Agreement of persons entitled.* If a representative of a deceased owner's estate has not been or is not to be appointed, the Department will honor an application for disposition of any securities belonging to the deceased owner pursuant to a written agreement provided that the Department is satisfied that:

(A) All persons entitled to share in the decedent's personal estate are parties to the agreement;

(B) Provision has been made for payment of all the decedent's debts; and

(C) The interests of any minor or incompetents have been protected.

(d) *Private organizations*—(1) *Corporations and unincorporated associations.* A transaction request involving a security registered in the name of a corporation or an unicorporate association (either in its own right or in a representative capacity), may be executed by an authorized person on its behalf. The request must be supported by evidence of the person's authority to act.

(2) *Partnerships.* A transaction request involving a security registered in the name of a partnership must be executed by a general partner.

(e) *Government entities.* A transaction request involving a security registered in the name of a State, county, city, school district, or other governmental entity, public body or corporation, must be executed by a authorized officer of the entity. The request must be supported by evidence of the officer's authority to act.

(f) *Public officers.* A transaction request involving a security registered in the title of a public officer must be executed by the officer. The request must be supported by evidence of incumbency.

(g) *Attorneys-in-fact.* A transaction request made by an attorney-in-fact must be accompanied by the original power of attorney or a properly authenticated copy. A power of attorney must be executed in the presence of a notary public or a certifying individual. See § 357.31. The power of attorney will not be accepted if it was executed more than two (2) years before the date the transaction request was executed, unless the power provides that the authority of the attorney-in-fact continues notwithstanding the incapacity of the principal. If two or more attorneys-in-fact are named, all must execute the transaction request unless the power authorizes fewer than all to act. A transaction request executed by an attorney-in-fact seeking transfer of a security to the attorney-in-fact will not be accepted unless expressly authorized by the document appointing the attorney-in-fact.

(Approved by the Office of Management and Budget under control number 1535–0066.)

§ 357.29 Time required for processing transaction request.

For purposes of a transaction request affecting payment instructions with respect to a security, a proper request must be received not less than twenty (20) calendar days preceding the next payment date. If the twentieth day preceding a payment date falls on a Saturday, Sunday, or a Federal holiday, the last day set for the receipt of a transaction request will be the last business day preceding that date. If a transaction request is received less than twenty (20) calendar days preceding a payment date, the Department may in its discretion act on such request if sufficient time remains for processing. If a transaction request is received too late for completion of the requested transaction, the transaction request will be acted upon with respect to future payments only.

(Approved by the Office of Management and Budget under control number 1535–0066.)

§ 357.30 Cases of delay or suspension of payment.

If evidence required by the Department in support of a transaction request is not received by the Department at least twenty (20) calendar days before the maturity date of the security, or if payment at maturity has been suspended pursuant to § 357.28(f), then, except as provided in § 357.27, in cases of reinveatment, the Department will redeem the security and hold the redemption proceeds in the same form of registration as the security redeemed, pending further disposition. No other interest shall accrue or be paid on such proceeds after the security is redeemed.

§ 357.31 Certifying individuals.

(a) *General.* The following individuals may certify signatures on transaction request forms:

(1) Officers and employees of depository institutions and officers of corporate central credit unions who have been authorized:

(i) generally to bind their respective institutions by their acts;

(ii) Unqualifiedly to guarantee signatures to assignments of securities; or

(iii) To certify assignments of securities.

(2) Officers and authorized employees of Federal Reserve Banks.

(3) Officers of Federal Land Banks, Federal Intermediate Credit Banks and Banks for Cooperatives, the Central

Bank for Cooperatives, and Federal Home Loan Banks.

(4) Commissioned officers and warrant officers of the Armed Forces of the United States but only with respect to signatures on forms executed by Armed Forces personnel, civilian-field employees, and members of their families.

(5) Such other persons as the Commissioner of the Public Debt or his designee may authorize.

(b) *Foreign countries.* The following individuals are authorized to certify signatures on transaction request forms executed in a foreign country:

(1) United States diplomatic or consular officials.

(2) Managers and officers of foreign branches of depository institutions.

(3) Notaries public and other officers authorized to administer oaths, provided their official position and authority are certified by a United States diplomatic or consular official under seal of the office.

(c) *Duties and liabilities of certifying officers.*

(1) *General.* Except as specified in paragraph (c)(2) of this section, a certifying individual shall require that the transaction request form be signed in the certifying individual's presence after he or she has established the identity of the person seeking the certification. An employee who is not an officer should insert the words "Authorized signature" in the space provided for the title. A certifying individual and the organization of which the certifying individual is an officer or employee are jointly liable for any loss the United States may incur as a result of the individual's negligence.

(2) *Signature guaranteed.* The transaction request form need not be executed in the presence of a certifying individual if he or she unqualifiedly guarantees the signature, in which case the certifying individual shall, after the signature, endorse in the following form: "Signature guaranteed, First National Bank of Smithville, Smithville, NH, by A.B. Doe, President", and add the date. In guaranteeing a signature, the certifying individual and the organization of which the certifying officer is an officer or employee warrant to the Department that the signature is genuine and that the signer had legal capacity to execute the transaction request.

(3) *Absence of signature guaranteed by depository institution.* A transaction request form need not be actually signed by the owner in any case where a certifying individual associated with a depository institution has placed an endorsement on the form reading substantially as follows: "Absence of signature by owner and validity of transaction guaranteed, Second State Bank of Jonesville, Jonesville, NC, by B.R. Butler, Vice President". The endorsement shoud be dated, and the seal of the depository institution should be added. This form of endorsement is an unconditional guarantee to the Department that the depository institution is acting for the owner upper proper authorization.

(d) *Evidence of certifying individual's authority.* The authority of a certifying individual to act is evidenced by affixing to the certification the following:

(1) *Officers and employees of depository institutions*—The institution's seal, signature guarantee stamp, or, if the institution is an authorized paying or issuing agent for U.S. Savings Bonds, a legible imprint of the paying agent or the issuing agent's stamp.

(2) *Officers and authorized employees of Federal Reserve Banks*—Whatever is prescribed in procedures established by the Department.

(3) *Officers and employees of corporate central credit unions and other entities listed in paragraph (a)(3) of this section*—The entity's seal.

(4) *Notaries public, diplomatic or consular officials*—The official seal or stamp of the office. If the certifying individual has no seal or stamp, then the official's position must be certified by some other authorized individual, under seal or stamp, or otherwise proved to the satisfaction of the Department.

(5) *Commissioned or warrant officers of the United States Armed Forces*—A Statement which sets out the officer's rank and the fact that the person executing the transaction request is one whose signature the officer is authorized to certify under these regulations.

(e) *Interested persons not to act as certifying individual.* Neither the transferor, the transferee, nor any person having an interest in a security involved in the transaction may act as a certifying individual. However, an authorized officer or employee of a depository institution may act as a certifying individual on a transaction request for transfer of a security to the institution, or any request executed by another individual on behalf of the institution.

§ 357.32 Submission of transaction requests; further information.

Transaction requests and requests for forms and information may be submitted to any Federal Reserve Bank or to the Bureau of the Public Debt, TREASURY DIRECT, Washington, DC 20239-0001. A list of the addresses of Federal Reserve Banks will be available upon request to the Bureau. The Federal Reserve Banks, as fiscal agents of the United States, are authorized to perform such functions as may be delegated to them by the Department in order to carry out the provisions of this Part.

Subpart D—Additional Provisions

§ 357.40 Additional requirements.

In any case or any class of cases arising under these regulations, the Secretary of the Treasury ("Secretary") may require such additional evidence and a bond of indemnity, with or without surety, as may in the judgment of the Secretary be necessary for the protection of the interests of the United States.

§ 357.41 Waiver of regulations.

The Secretary reserves the right, in the Secretary's discretion, to waive any provision(s) of these regulations in any case or class of cases for the convenience of the United States or in order to relieve any person(s) of unnecessary hardship, if such action is not inconsistent with law, does not impair any existing rights, and the Secretary is satisfied that such action will not subject the United States to any substantial expense or liability.

§ 357.42 Liability of Department and Federal Reserve Banks.—[Reserved]

§ 357.43 Liability for transfers to and from TREASURY DIRECT.

A depository institution or other entity that transfers to, or receives, a security from TREASURY DIRECT is deemed to be acting as agent for its customer and agrees thereby to indemnify the United States and the Federal Reserve Banks for any claim, liability, or loss resulting from the transaction.

§ 357.44 Notice of attachment for securities in TRADES.—[Reserved]

§ 357.45 Supplements, amendments, or revisions.

The Secretary may, at any time, prescribe additional supplemental, amendatory or revised regulations with respect to securities, including charges and fees for the maintenance and servicing of securities in book-entry form.

Part VI

Department of Transportation

Coast Guard

33 CFR Parts 126 and 127
Liquefied Natural Gas Waterfront Facilities; Proposed Rule

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Parts 126 and 127

[Docket No. [CGD 76-038]

Liquefied Natural Gas Waterfront Facilities

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes safety standards for the design and construction, equipment, operations, maintenance, personnel training, firefighting, and security at liquefied natural gas waterfront facilities. These regulations implement the Ports and Waterways Safety Act of 1972, as amended, and are necessary to prevent or mitigate the results of an accidental release of liquefied natural gas (LNG at a LNG waterfront facility. They would reduce the possibility that such an accident could occur, and would reduce the damage and injury to persons and property should an accident occur.

DATE: Comments must be received on or before August 14, 1986.

ADDRESSES: Comments on the proposal should be submitted to Commandant (G-CMC), U.S. Coast Guard, Washington, DC 20593. Comments may be delivered to and will be available for inspection and copying at the Marine Safety Council (G-CMC), Room 2110, U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC 20593, (202) 426-1477. Normal office hours are between 7:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays. The Draft Evaluation and the Draft Environmental Assessment and Findings of No Significant Impact are also available for inspection and copying at the same address.

FOR FURTHER INFORMATION CONTACT: Lieutenant Michael V. Franchini, Project Manager, Office of Marine Environment and Systems (G-WPE-3), (202) 426-9578, between 7:00 A.M. and 3:30 P.M., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: The public is invited to participate in this proposed rulemaking by submitting written views, data or arguments. Comments should include the name and address of the person making them, identify this notice (CGD 76-038) and the specific section of the proposal to which each comment applies, and give the reason for each comment. If an acknowledgment is desired, a stamped, self-addressed post card or envelope should be enclosed.

The rules as proposed may be changed in light of the comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal.

No public hearing is planned. However, one may be held at a time and place to be set in a subsequent notice in the Federal Register if written requests for a hearing are received from interested persons raising valid issues, and if it is determined that the opportunity to make oral presentations will be beneficial to the rulemaking process.

Drafting Information

The principal persons involved in drafting this proposal are: Lieutenant Michael V. Franchini, Project Manager, Office of Marine Environment and Systems, and Stanley M. Colby, Project Attorney, Office of the Chief Counsel.

Need

A new comprehensive set of safety standards is needed for LNG waterfront facilities. LNG is natural gas (mostly methane) that has been cooled to its normal boiling point of about minus 260 °F, and thereby liquefied. As a liquid, natural gas is 1/600th of its original volume, making it economically feasible to transport by vehicle or vessel and store in large quantities. The hazards of LNG derive from its cold temperature, flammability, and characteristics upon release. LNG can cause severe freeze burns to the skin and also immediate cracking of certain metals, such as carbon steel. Upon exposure to ambient temperatures, LNG vaporizes rapidly and returns to a gaseous state. Since its density at ambient temperatures is less than air, natural gas rises. However, due to the vapor's initially cold temperature after vaporization, it may remain close to the ground and travel in the form of a plume or cloud for long distances before dispersing into the atmosphere. While natural gas is not toxic, it can cause asphyxiation; and it is flammable in air in a concentration between 5 and 15 percent by volume.

Unlike a spill on land, LNG spilled on water would spread very quickly over the flat surface of the water and would not accumulate in low-lying areas or impounding spaces. It would evaporate faster on water than on land because of greater surface area and because it would gain heat from the unlimited supply of heat in the water. These factors make it very difficult to control a release of LNG on water.

This Notice of Proposed Rulemaking (NPRM) would replace older facility regulations in 33 CFR Part 126 for methane and establish a new Part 127 to apply to LNG waterfront facilities. Existing Coast Guard waterfront facility regulations in Part 126 which apply to LNG waterfront facilities, were issued in the 1950's and 1960's under the authority of the Magnuson Act (50 U.S.C. 191). They are still effectively enforced on waterfront facilities handling cargoes other than LNG. However, since they were written before the construction of LNG waterfront facilities began (about 1969) and do not account for the relatively new technology, new regulations for LNG waterfront facilities are needed.

So that LNG waterfront facilities are not regulated in two different parts of Title 33 of the Code of Federal Regulations, this NPRM would also revise §§ 126.05 and 126.10. LNG waterfront facilities would no longer be "designated waterfront facilities" or "facilities of particular hazard" and Part 126 would no longer apply.

The standards proposed by this notice concern design and construction, equipment, operations, maintenance, personnel training, firefighting, and security on that part of an LNG waterfront facility which falls under Coast Guard purview. They would fill a gap in current federal regulations for LNG waterfront facilities. The Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT, published regulations in 49 CFR Part 193 that apply to the inland side of all LNG waterfront facilities. The regulations in this proposal would apply only to the waterside of LNG waterfront facilities, and are compatible with MTB's regulations. The MTB and the Coast Guard cooperated in developing a format to be used by both agencies in their regulations.

These regulations would make many industry consensus standards and practices mandatory. Conscientious owners and operators of LNG facilities have developed and implemented safety standards and programs that have reduced the potential for accidents and injuries at these waterfront facilities. However, these standards and programs are voluntary. Making these industry standards and practices mandatory would provide new impetus for less conscientious companies, subcontractors, and workers to observe accepted waterfront safety practices and will provide a means to ensure corrective action where necessary.

Finally, these proposed regulations would organize the Coast Guard

requirements for LNG waterfront facilities so that they are easier for industry to understand and meet, and easier for the Coast Guard to enforce. There are concepts being considered in the proposed regulations that are not industry standards or practices. Some are based on Coast Guard requirements that are applied now to LNG waterfront facilities. They are from general sources, such as the existing waterfront facility regulations in 33 CFR Part 126 and the general ports and waterways safety regulations in 33 CFR Part 160. Others parallel the Coast Guard's oil pollution prevention regulations in 33 CFR Parts 154–156. Additional provisions are taken from the MTB's regulations in 49 CFR Parts 193 to provide uniformity. These concepts would be consolidated with up-to-date standards for LNG waterfront facilities into one Part in the Code of Federal Regulations.

Regulatory History

In the July 14, 1978 issue of the Federal Register (34 FR 30381), the Department of Transportation published a Memorandum of Understanding (MOU) between the Coast Guard and the MTB concerning each agency's responsibility for regulating LNG waterfront facilities. This MOU became effective on February 7, 1978.

The agencies considered the MOU necessary because they share certain regulatory authority over LNG waterfront facilities and wanted to avoid duplication of regulations. This authority concerned the siting, design, equipment, operations, and maintenance of LNG waterfront facilities.

By the terms of the MOU, the Coast Guard was responsible for establishing, and the MTB would refrain from establishing, regulatory requirements for: (1) The site selection as it relates to management of vessel traffic in and around each LNG waterfront facility; (2) fire prevention and fire protection equipment, systems, and methods for use at LNG waterfront facilities; (3) security of each LNG waterfront facility; and (4) all other matters pertaining to each facility between each vessel moored there and the last manifold or valve immediately before a receiving tank. (This area is referred to as the "marine transfer area" and in the proposed regulations as just the "area".) As a result of the MOU, the Coast Guard issued on August 3, 1978 an Advance Notice of Proposed Rulemaking (ANPRM)(43 FR 34362) proposing preliminary draft safety standards for LNG waterfront facilities.

The Research and Special Programs Administration (RSPA) was reorganized on November 1, 1985. The Office of Pipeline Safety Regulation in the MTB became the Office of Pipeline Safety in the RSPA.

Since the publication of the original MOU in July 1978, a revised MOU has been developed between the Coast Guard and the RSPA. In this MOU, the agencies agreed to a division of regulatory responsibilities for fire prevention and protection and security at the facility, at the last manifold or valve immediately before a receiving tank. As with all other matters pertaining to each facility, the Coast Guard will promulgate regulations for fire prevention and protection and security for that part of the LNG waterfront facility between each vessel and the last manifold or valve immediately before a receiving tank. The new MOU became effective on (insert date of signing). Because of the MOU and their new jurisdiction over fire prevention and protection and security, the RSPA will revise its regulations in a separate rulemaking, which will be coordinated with this NPRM.

The revised MOU follows:

Memorandum of Understanding Between the United States Coast Guard and the Research and Special Programs Administration for Regulation of Waterfront Liquefied Natural Gas Facilities

I. Introduction

Within the Department of Transportation (DOT), the United States Coast Guard (USCG) and the Research and Special Programs Administration (RSPA) exercise separate and overlapping safety regulatory authority affecting the siting, design, construction, maintenance, and operation of waterfront liquefied natural gas (LNG) facilities adjoining the navigable waters of the United States. The USCG derives its authority over such facilities from the Ports and Waterways Safety Act (33 U.S.C. 1221 *et seq.*) and Executive Order 10173, as amended (3 CFR, 1949–1953 Comp., p. 356), issued by the President under the Magnuson Act (50 U.S.C. 191). The regulatory authority of the RSPA over these same facilities (as well as non-waterfront LNG facilities) is derived from the Natural Gas Pipeline Safety Act of 1968, as amended (49 U.S.C. 1671 *et seq.*). Under 49 U.S.C. 1671(12), the RSPA's authority over LNG facilities does not extend to any structures or equipment (or portions thereof) located in navigable waters.

In recognition of each of the parties' respective regulatory responsibilities, the USCG and the RSPA agree that a memorandum of understanding is needed to avoid duplication of regulatory efforts regarding waterfront LNG facilities and to maximize the exchange of relevant information.

II. Responsibilities of the Parties

For the foregoing reasons, the USCG and the RSPA agree to the following division of regulatory responsibilities with respect to waterfront LNG facilities and cooperation in carrying out those responsibilities:

USCG Responsibilities

The USCG is responsible for establishing regulatory requirements for—

(1) Facility site selection as it relates to management of vessel traffic in and around a facility; and

(2) All matters pertaining to structures or equipment (or portions thereof) located in the navigable waters and facilities located between the vessel and the last manifold (or valve) immediately before the receiving tank(s), other than the site selection responsibilities of the RSPA set forth below.

RSPA Responsibilities

The RSPA is responsible for establishing regulatory requirements for—

(1) Site selection of facilities other than structures or equipment (or portions thereof) located in the navigable waters and except as provided by paragraph (1) of the "USCG Responsibilities" set forth above; and

(2) All other matters pertaining to the facilities beyond (and including) the last manifold (or valve) immediately before the receiving tank(s) except those structures or equipment (or portions thereof) located in the navigable waters.

Joint Responsibilities

(1) The USCG and the RSPA will cooperate and assist each other in carrying out their respective waterfront LNG facility regulatory enforcement activities; and

(2) The USCG and the RSPA, in an effort to avoid inconsistent regulation of similar safety matters (including as between waterfront and non-waterfront LNG facilities), will consult with each other before issuing each Advance Notice of Proposed Rulemaking, Notice of Proposed Rulemaking, and final regulation affecting waterfront LNG facilities.

III. Effect

This agreement is effective upon being signed by the authorized representatives of both the USCG and the RSPA and supersedes in its entirety the February 7, 1978, Memorandum of Understanding between the USCG and the Materials Transportation Bureau.

For the United States Coast Guard.

ADM James S. Gracey

Commandant.

Dated: May 5, 1986.

For the Research and Special Programs Administration.

M. Cynthia Douglass

Administrator.

Dated: May 9, 1986.

The regulatory authority of the Coast Guard is derived from the Ports and Waterways Safety Act of 1972 (PWSA), as amended by the Port and Tanker Safety Act of 1978 (33 U.S.C. 1221). Under this authority, the Coast Guard published the ANPRM on August 3, 1978. The RSPA published its regulations under the authority of the

Natural Gas Pipeline Safety Act of 1968 (NGPSA) (49 U.S.C. 1671), as amended by the Natural Gas Pipeline Safety Act Amendments of 1979 (NGPSAA) (Pub. L. 94-478, 90 Stat. 2073) and by the Pipeline Safety Act of 1979 (PSA) (Pub. L. 96-129, 93 Stat. 989, 996, 1004); and the Transportation Safety Act of 1974 (TSA) (49 U.S.C. 1801), as amended by the Hazardous Materials Transportation Act Amendments of 1976 (Pub. L. 94-474, 90 Stat. 2068).

These diverse regulatory authorities complicated federal regulation of LNG waterfront facilities. Section 4 of the NGPSA (49 U.S.C. 1672(a)(1)), as amended, allows state agencies to adopt additional or more stringent safety standards for intrastate pipeline transportation if such standards are compatible with the Federal minimum standards. However, this section prohibits those agencies from adopting or continuing in force any such standards applicable to interstate transmission facilities, after the Federal minimum standards become effective. No similar preemptive authority is granted by the PWSA, as amended. Without such preemption, it would be possible for an LNG facility to have to operate under the requirements of two Federal agencies and the State and local governments.

To ensure uniformity in regulating all LNG waterfront facilities, the Secretary of Transportation delegated to the Coast Guard certain functions and responsibilities vested in the Secretary by the NGPSA, as amended by the NGPSAA. This delegation, which appeared in the January 20, 1979 issue of the Federal Register (44 FR 5436) as an amendment to 49 CFR 1.46, allowed the Coast Guard to carry out the Secretary's responsibilities under the NGPSA, as amended, in accordance with the MOU, and, in effect, bestowed the same preemptive authority to the Coast Guard as delegated to the RSPA.

A supplemental ANPRM was issued on March 8, 1979 (44 FR 12693) reflecting the change in authority. However, subsequent legal review and legislative activity resulted in the determination that the Coast Guard does not have authority to regulate LNG waterfront facilities under the NGPSA, as amended by the PSA. The legislative history of the various statutes made it clear that Congress intended that the Coast Guard regulate LNG waterfront facilities exclusively under authority of the PWSA. This is supported by the definition of LNG facilities added by the PSA that excludes "any structure or equipment (or portion thereof) located in the navigable waters . . ." Therefore, Coast Guard regulations for LNG waterfront facilities will be issued under authority of the PWSA, which does not prohibit State or political subdivisions thereof from prescribing higher safety equipment requirements or safety standards for facilities than those which may be prescribed through this rulemaking process.

The following table shows the correspondence between section numbers in the ANPRM of August 3, 1976 and this NPRM. Due to modifications made to this NPRM, including the incorporation of some of the RSPA's fire and security regulations, not all sections in the ANPRM have corresponding sections in the NPRM. Some sections of the ANPRM have been omitted and some new sections have been added to the NPRM. Because the proposed regulations concern only LNG waterfront facilities and no other dangerous cargoes or facilities, they would not be established in Part 128, as originally proposed, but established in a new Part 127 in Title 33 of the Code of Federal Regulations.

127.711	

The regulatory scheme published in the ANPRM has been reorganized and simplified. Sections in the NPRM have been grouped into subparts and numbered according to the subpart group. The ANPRM consisted of 72 sections, while the NPRM consists of 52 sections. The burden on the industry has been reduced. There would be fewer paperwork requirements; the records of the Letter of intent, inspection, maintenance, and personnel training are no longer proposed in the NPRM. The number of industry specifications incorporated by reference has been reduced from 19 in the ANPRM to 7 in the NPRM. Burden is discussed further in the section titled EVALUATION.

General Comments

Comments were received on the ANPRM from 48 different commenters, the largest group (23) representing gas industry associations of LNG facility operators. Government agencies, non-industry organizations, and individuals also commented. The Coast Guard has reviewed the comments and has adopted those which it deems appropriate.

The comments indicated that there was confusion concerning the applicability of the regulations. Seven comments recommended that the regulation distinguish marine-mode waterfront facilities from peak shaving and satellite facilities adjacent to navigable waterways. Many comments to specific sections of the ANPRM also reflected this confusion. The proposed regulations apply only to waterfront facilities at which LNG transfer operations are conducted. A waterfront facility is defined in 33 CFR 126.01 as "all piers, wharves, docks, and similar structures to which a vessel may be secured; areas of land, water, or land and water under and in immediate proximity to them; buildings on such structures or contiguous to them and

equipment and materials on such structures or in such buildings. . . ." If LNG is not transferred between a vessel and the facility, these proposed regulations would not apply.

Comments also indicated confusion over the applicability of the proposed regulations to the whole facility versus the marine transfer area. This confusion was eliminated by the revised MOU, which was signed on (insert date of signing). The MOU splits Coast Guard and RSPA firefighting and security responsibility at the same location on the facility as all other matters, i.e. at the last manifold (or valve) immediately before a receiving tanks.

Other commenters said that it was not clear which proposed regulations applied to existing and new LNG waterfront facilities and which applied only to new LNG waterfront facilities. The proposed definition in this notice for "existing" means constructed or being constructed under a contract awarded before the effective date of the regulations. "New" is proposed to mean constructed or being constructed under a contract awarded on or after the effective date of the regulations. Existing facilities would not have to comply with the requirements in the design and construction, equipment, and security subparts, except § 127.701. New facilities would have to comply with all of the proposed rules. The applicability section was rewritten from that proposed in the ANPRM to eliminate this confusion.

Comments relating to the lack of Federal preemption authority in the PWSA were also received. The Coast Guard ANPRM was issued under the authority of the PWSA, which does not prohibit States or political subdivisions thereof from prescribing higher facility safety equipment requirements that those that may be prescribed through this rulemaking process. The RSPA's regulations, which apply to the inland side of a LNG waterfront facility, were issued under the authority of the NGPSA which allows preemption of state and local regulations. Eleven commenters indicated that different authorities governing different parts of a facility could result in a facility operating under the requirements of several overlapping and potentially conflicting jurisdictions. This is correct, however the limitations in existing statutory authority, as discussed earlier in the section titled REGULATORY HISTORY, dictate this result. The RSPA and Coast Guard regulations are intended to be completely compatible to minimize the burden on industry. Comments are particularly requested on any perceived areas of conflict or inconsistency.

The following portion of the preamble discusses the section-by-section comments to the ANPRM, as well as important changes to the proposed sections of this notice.

Subpart A—General

Many commenters suggested that §§ 126.2001, 126.2002 and 126.2025 (published as § 126.2205, in error) of the ANPRM be clarified to indicate the applicability of the proposed regulations. Section 126.2001, Purpose, and § 126.2025, Effective dates, have been omitted in the NPRM. These regulations would be effective 30 days after the final rule is published. In those sections in the NPRM where time is needed to comply with the requirements, a separate effective date is included. Clarifications to eliminate the confusion over the definition of waterfront facility, the applicability of the NPRM to the facility, and the applicability to new and existing facilities have been made. Other commenters said that the division of jurisdiction between the RSPA and the Coast Guard was complicated. This division is clearer in the revised MOU.

Many comments suggested changes to definitions found in the ANPRM. Twenty-one definitions in the ANPRM are not included in the NPRM because they are no longer used in the regulations or their meanings are the same as those found in a standard dictionary. Several minor wording changes have been made. Two definitions have been substantially rewritten to agree with the rewritten applicability. The definition of "Marine transfer area" (area) now corresponds to the area of Coast Guard jurisdiction as outlined by the MOU and the definitions of "waterfront facility" and "LNG facility" have been combined to form the definition of "LNG waterfront facility".

Section 126.2011, Letter of intent (now § 127.007), has been changed by excluding requests for information that would not be utilized or which is available to the Coast Guard from other sources. Section 126.2001, which requires the operator to keep a record of the Letter of intent, has been omitted from the NPRM. A paragraph concerning existing structures which have not transferred LNG within 12 months and which intend to transfer LNG, has been added to § 127.007 in the NPRM.

Eighteen commenters made suggestions concerning proposed § 126.2012 and the issuance of a use permit by the COTP to the facility operator for a period of five years. Ten said that the 5-year time period was too restrictive. This section has been omitted from the NPRM and a new section has been proposed as, § 127.019, *Operations Manual* and *Emergency Manual:* Procedures for examination. It would require that the *Operations Manual* and *Emergency Manual* meet §§ 127.305 and 127.307, respectively, and contain the words "examined by the Coast Guard" after review by the COTP. The Coast Guard believes that proposed § 127.019 and § 127.309, *Operations Manual* and *Emergency Manual:* Use, would be sufficient to regulate LNG transfer operations, and that the Use Permit would not be necessary. Section 126.2013 of the ANPRM, Enforcement, has also been omitted. The authority of the COTP to enforce regulations is clearly stated in Federal law and regulations.

Several comments on §§ 126.2016, 126.2031, 126.2035, and 126.2036 of the ANPRM indicated that a time limit should be set for response by the Coast Guard to any petitions or applications made by facility operators. The Coast Guard plans to issue policy guidance concerning this issue to its District Commanders, indicating that response shall be made in a timely manner. Section 126.2035, Exemptions, has been omitted, while the other sections now appear as 127.013, 127.017, and 127.015 respectively in the NPRM.

Section 126.2050, Reference specifications, standards and codes, (proposed in the NPRM as § 127.003) has been changed to include only those sources mentioned in the NPRM. Citations have been updated to reflect current editions.

Three commenters suggested that § 126.2110, LNG Facility Siting; LNG vessels, was either too general or that it should be deleted altogether. The Coast Guard feels that this requirement must be included. In order to protect the marine environment and prevent damage to or destruction of structures on or adjacent to the navigable waters, the waterway leading to the site from the sea must be suitable for the number and size of vessels contemplated as carriers for LNG. This section has been rewritten as proposed § 127.009, Letter of recommendation. It is very specific as to the proposed criteria used by the COTPs to fulfill the Coast Guard's siting responsibility under the MOU with the RSPA. The Letter of recommendation contains the COTP's recommendations concerning proposed sites. The Coast Guard is authorized by law to establish water or waterfront safety zones, or other measures for limited, controlled, or conditional access and activity, when

necessary for the protection of any vessel, structure, waters, or shore area.

Subpart B—Design and Construction

Section 126.2210 of the ANPRM (now § 127.101) has been retitled "Design and construction: General" and contains updated citations for the 1985 edition of NFPA 59A. Chapters 1, 3, 5 and 9 of NFPA 59A have been eliminated from this proposed section because they relate to areas outside Coast Guard purview.

Several paragraphs in § 126.2214 of the ANPRM (now § 127.103) have been omitted because they are already the minimum standards of industry construction. In accordance with several comments, mooring and breasting dolphins are exempted from the substructure requirements of proposed § 127.103. Comments also indicated confusion over the term "fire endurance rating" contained in § 126.2214 of the ANPRM because the term "flame" endurance rating was defined in § 126.2003 of the ANPRM. The word "flame" was inadvertently used in the definition and has been changed to "fire" in proposed § 127.005. Section 126.2214(m) concerning warning alarms has been moved to the proposed Subpart C, Equipment. It has also been changed to require that alarms be heard *and* seen from a distance of 1 mile. A recent National Transportation Safety Board investigation of a waterfront facility, involving a ship collision, pointed out the need for both visible and audible alarms to warn facility personnel and vessels of danger.

Several commenters felt that the prohibition, proposed in the ANPRM in § 126.2210, of sewers, open trenches, and drains that would allow LNG vapors to be carried to areas not under the full control of the operator, was too stringent. Because existing LNG waterfront facilities should not be required to rebuild their drainage systems, if they have had no problems, we have moved this requirement to Subpart B, Design and Construction, which applies only to new LNG waterfront facilities. It has been included in § 127.101 of the NPRM by incorporating by reference section 2-1.2 of NFPA 59A. Four commenters felt that the quality assurance plan required in § 126.2217 of the ANPRM was expensive and unnecessary. This section has been omitted from the NPRM.

Section 126.2219, LNG facility layout and systems spacing, has been replaced by a more general requirement (proposed in § 127.105) than the one in the ANPRM. The NPRM is written as a performance standard but retains the concept of the ANPRM.

Many comments to the ANPRM § 126.2221, Lighting systems, indicated that paragraph (b), which proposed that the lighting pattern on the facility be symmetrical, should be changed. The Coast Guard agrees that this is not necessary and has proposed a performance standard in § 127.109. Paragraph (a) of § 126.2222 (now § 127.111) has also been changed. The Coast Guard believes that three separate communications systems for the marine transfer area are not necessary. Therefore, a facility-wide "primary communications system" is not proposed in the NPRM.

Subpart C—Equipment

Sections 126.2310, 126.2315, 126.2320, and 126.2325 in the ANPRM have been condensed into § 127.201 in the NPRM. Section 127.201, Sensing and alarm systems, would incorporate parts of NFPA 59A instead of establishing new requirements for these systems.

As suggested by several comments, the title of § 126.2335 of the ANPRM has been changed from "Automatic shutdown" to the more appropriate "Emergency Shutdown" in proposed § 127.205. The section now includes a proposal for manual actuation. The proposed actuation at "30% or more of the lower flammable limit" in the ANPRM has been changed to "when LNG concentrations . . . exceed 40% of the lower flammable limit" in the NPRM to be consistent with the requirement found in 49 CFR 193.2439(a)(4).

Subpart D—Operations

The proposal in § 126.2810 in the ANPRM, LNG facility operations, has been divided into two sections in the NPRM. Section 127.309, *Operations Manual* and *Emergency Manual:* Use, proposes mandatory use of the *Emergency Manual*, which was not included in paragraph 126.2810(a). Section 127.019, *Operations Manual* and *Emergency Manual:* Procedures for examination, proposes requirements for new and existing facilities to correct the omission of procedures for existing facilities in § 126.2810(b).

Several commenters expressed concern that proprietary security procedures would become public information if they were included in the *Operations Manual*. Omitting § 126.2816 of the ANPRM, Manuals: availability, and, by silence, giving the operator control over the distribution of the manual, should alleviate the concern over this problem. The Coast Guard may withhold from public disclosure any information in the *Operations Manual* or *Emergency Manual*, in accordance with the requirements of 5 U.S.C. 552a and 49 CFR Part 7.

Commenters noted that the prohibition against motor vehicles in § 126.2842(a) of ANPRM should apply only during marine transfer operations. This paragraph has been omitted from proposed § 127.311. The concept as delineated by the words "when permitted by local ordinances and regulations" has been omitted from § 127.311(b) because, as commenters indicated, it is unnecessary.

Several comments were received on § 126.2852 of the ANPRM, Declaration of Inspection, stating that the responsibility for certain items was misplaced. These comments are no longer relevant because of the rewriting of this section. As now proposed, the person in charge of shoreside transfer operations would be responsible for executing the declaration. The proposal for the Declaration of Inspection to be in a specified format has been omitted. The proposal would allow any form, provided that the required information is included.

The Coast Guard concurs with commenters that operations need not be stopped if a fire occurs anywhere on the facility, as proposed in the ANPRM. Therefore paragraph (c)(2) of § 126.2853 has been rewritten. Proposed § 127.319 of the NPRM would require that transfer operations be discontinued during any fire in the marine transfer area and during uncontrolled fires within 4.8 kilometers (3 miles) of the periphery of the area. Other comments on § 126.2853 concerned paragraph (o) and stated that a requirement for hoses to be charged and laid out was unncessary. The Coast Guard agrees with these comments and this proposal has been omitted.

Subpart E—Maintenance

Some proposals in this group in the ANPRM were written so that they appeared to apply to the process plant, which is beyond Coast Guard jurisdiction. Corrections to those sections have been made to clarify the applicability.

Commenters made suggestions concerning the time interval between tests proposed in § 126.2440, Testing and calibration. The Coast Guard believes that "at least once every 12 months" is appropriate and has retained the concept in proposed § 127.407.

Some commenters to ANPRM § 126.2460, Repairs, indicated that some safety repairs can be made without taking the transfer system out of service. The Coast Guard agrees that the decision to take the system out of service during repairs, can be made by

the facility operator on a case-by-case basis. This requirement has been omitted.

Subpart F—Personnel Training

Section 126.2710, Emergency response personnel, has been omitted because these proposed requirements would involve the process plant operation and the whole facility, and should only apply to the marine transfer area. As suggested in the comments concerning paragraph (d) of § 126.2722, Training requirements, it is not necessary to repeat all required training at least every two years. The Coast Guard believes that requiring a refresher course for personnel who have already received training, is sufficient, which is proposed in § 127.501(c).

Subpart G—Firefighting

Several commenters thought that § 126.2510 of the ANPRM concerning written approval for the installation of any fire control system was redundant and unnecessary. The Coast Guard agrees that the COTP does not need to approve any additional firefighting equipment beyond the requirements of this subpart. Section 127.601 of this NPRM would require that additional equipment still meet the requirements of the subpart and bear the approval of Underwriters Laboratories, the Factory Mutual Research Corp., or the Coast Guard.

Many comments were received concerning § 126.2512, Automotive fire apparatus. However, because of the new MOU between the USCG and the RSPA, this subpart no longer applies to the whole facility and this section has been omitted.

Another comment indicated that the fire main pressure proposed in § 126.2522(d) of the ANPRM should not be limited by a maximum pressure. While the reaction forces from fire hoses can become dangerous above this maximum pressure, fire monitors operate safely at higher pressures. Therefore this requirement has been changed. The guideline for the fire main pressure in proposed § 127.607 is now a minimum pressure.

Paragraph 126.2550(d) has been omitted because two commenters indicated that no evacuation equipment, meeting the requirements in this paragraph, was available.

A section concerning portable fire extinguishers (§ 127.603) and a section requiring an international shore connection (§ 127.611) have been proposed for this subpart.

Subpart H—Security

Three new proposals have been added to this subpart in the NPRM. Section 127.701 requires that security procedures and arrangements that were in use when LNG transfer operations were last conducted be continued and maintained as long as transfer operations are conducted. Section 127.705, Security systems, requires that security patrols be made unless the facility has a manned television monitoring system. Section 127.711, Communications, requires that security patrols have a means to communicate with other personnel on duty on the facility.

Section 126.2510 in the ANPRM proposes a chain-link fence around the whole facility. This has been rewritten as proposed § 127.703 because, as many commenters pointed out, it is not intended to enclose the dock area of the facility.

Evaluation

The Transportation Systems Center (TSC) prepared a report entitled, *Preliminary Impact Analysis of the U.S. Coast Guard's Proposed LNG Regulations*, which is available through the Project Manager listed under "For Further Information Contact". For the analysis, a composite baseline standard was used by which the types of incremental costs and benefits, as well as their distributional effects, were identified. The baseline consisted of: (1) Current Coast Guard Waterfront Facilities regulations (33 CFR Part 126); (2) USCG facility operations plans which are issued by the Captain of the Port (COTP) for the port in which an LNG facility is located; and (3) National Fire Protection Association (NFPA) standards. The primary LNG standard is NFPA 59A, "Standards for the Production, Storage and Handling of LNG—1985 edition". NFPA standards are considered to be minimum industry standards voluntarily adopted by the LNG industry. The analysis determined the impacts of the ANPRM by identifying where the proposed regulations exceed current practices and, therefore, where costs and benefits would accrue. Although state and local jurisdictions may impose more stringent LNG safety standards, the baseline used in the analysis reflects only those Federal requirements and industry standards common to all waterfront facilities.

Of the 72 sections contained in the ANPRM, 54 were analyzed in the TSC report. Thirty-five or 65% of the 54 analyzed, introduced no change from the current baseline standards. Of the nineteen sections of the ANPRM that exceeded current requirements and standards, fifteen resulted in administrative costs, mostly for facility operators. Most of these costs would be minimal and not recurring. An example of an administrative cost would be the preparation and submission of an *Operations Manual* and an *Emergency Manual* to the COTP. The impact of this requirement would be minimal because facility operators already submit much of this information to the COTP or maintain it themselves.

The proposed fire protection and security regulations of the ANPRM were not analyzed by TSC because the Coast Guard's proposed regulations are similar to the RSPA's final rules found in 49 CFR Part 193. A telephone survey of all LNG waterfront facilities indicated that the proposed regulations in this notice do not exceed current industry practices.

To ensure the currency and validity of the TSC report, requests for estimates of the compliance costs of this NPRM, were sent to two operating LNG waterfront facilities. The results were the latest cost figures and a confirmation that the TSC report could still be applied to the NPRM. The survey information and the TSC report were both used in the final cost/benefit analysis.

Of the 52 sections contained in the NPRM, 39 or 75% introduced no change from the current baseline requirements and standards. Of the thirteen sections of the NPRM that exceed current requirements, 8 would result in administrative costs. This is a 32% decrease from ANPRM to NPRM in the number of sections in the rulemaking that exceed current requirements.

The proposed safety standards would result in low compliance costs. According to the analysis in the Draft Evaluation, the total initial cost of these regulations to the LNG industry is $96,000.00 and the annual recurring cost is $44,000.00. These costs represent such a relatively small amount of money to the industry that it is believed that this regulation will have no perceptible impact on the industry. For further information concerning the economic consequences of these proposed regulations, the availability of the Draft Evaluation is discussed below.

The TSC analysis concluded that due to the low probability of an LNG accident occurring, the expected value of the quantifiable benefits of the ANPRM were low. The benefits would be great if an accident occurred. A "maximum credible accident", as discussed in the Draft Evaluation,

involving a pool fire of 30,000 m^3 in an area with a population density of 10 people per km^2 at the dock site, could result in 11 fatalities with a cost to society of $21 million in property damage, injury, and loss of life. If the same pool fire occurred in an area with a population 1000 persons per km^2, the result could be 3,810 fatalities with social costs of $3.6 billion in property damage, injury, and loss of life.

Accidents involving small amounts of LNG have occurred in the past. The National Transportation Safety Board (NTSB) investigated one such accident that occurred at an LNG waterfront facility on October 6, 1979. According to NTSB report No. NTSB–PAR–80–2, "About 3:35 a.m., e.d.t., an explosion caused by liquefied natural gas vapors destroyed a transformer building at the reception facility of the Columbia LNG Corporation, Cove Point, Maryland. Odorless liquefied natural gas leaked through an inadequately tightened LNG pump seal, vaporized, passed through approximately 210 ft. of underground electrical conduit, and entered the substation building. One person was killed and one person was seriously injured. Damage to the facility was estimated at about $3 million."

Despite the very large savings that would result from preventing a major LNG accident or mitigating the results of an accident if it occurred at an LNG facility, it is difficult to precisely quantify the benefits that will accrue. Specific comments on costs and benefits are requested. This is because of the extremely low probability of a major LNG accident occurring. The limited number of reported LNG facility accidents requires that probability estimates of accidents be based on the theoretical analysis of factors which might lead to their occurrence. There is large inherent uncertainty associated with such estimates, and hence of the cost/benefit values derived from them. Because of such uncertainties, prudence dictates an extra measure of caution where there is potential for a catastrophic accident. Such caution should be weighed along with other considerations when judging the need for safety standards that can reduce the possibility of a catastrophic LNG accident. This is true even when these measures may not be justified based on a theoretical risk analysis.

The benefits that cannot be quantified are discussed in the section titled NEED in this preamble. They include replacing outdated regulations, filling a gap in federal regulations, making industry standards and practices mandatory, and consolidating and better organizing the regulations.

These proposed safety standards are considered to be non-major under Executive Order 12291 of February 17, 1981 (3 CFR, 1982 Comp., p. 127) and non-significant under the DOT regulatory policies and procedures (44 FR 11034; February 26, 1979) and the Office of Management and Budget Bulletin No. 85–9 of January 10, 1985. The total cost to the industry of these proposed LNG safety standards does not exceed the $100 million threshold to qualify as a major rulemaking, and so a Regulatory Impact Analysis is not required.

This proposed rulemaking contains information collection requirements in sections 127.007, 127.015, 127.017, 127.019, 127.301, 127.317, and 127.409. They have been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). Persons desiring to comment on these information collection requirements should submit their comments to: Office of Regulatory Policy, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC 20503, ATTN: Desk Officer, U.S. Coast Guard. Persons submitting comments to OMB are also requested to submit a copy of their comments to the U.S. Coast Guard as indicated under the section titled ADDRESSES.

The Coast Guard certifies that this proposal will not have a significant economic impact on a substantial number of small entities. This is because few, if any, small entities are involved in the costly and highly technical operations of LNG waterfront facilities. All the existing LNG waterfront facilities are owned and operated by multimillion dollar corporations.

This regulatory project is not anticipated to have an adverse impact on the environment. It is intended to prevent or mitigate the results of a catastrophic accident at a LNG waterfront facility.

The Draft Evaluation and the Environmental Assessment and Finding of No Significant Impact have been prepared and are available for inspection and copying from the Marine Safety Council (G–CMC), U.S. Coast Guard, 2100 Second Street, SW., Washington, DC 20593, (202) 426–1477.

List of Subjects

33 CFR Part 126

Explosives, Harbors, Hazardous materials.

33 CFR Part 127

Harbors, Security measures, Vessels.

In accordance with the preceding, it is proposed to amend Subchapter L, Chapter I of Title 33, Code of Federal Regulations as follows:

PART 126—[AMENDED]

1. The authority citation to Part 126 is revised to read as follows:

Authority: 33 U.S.C. 1231; 49 CFR 1.46 (n)(4).

§ 126.05 [Amended]

2. By amending § 126.05(a) by adding the words ", except methane" after the words "any flammable or combustible liquid in bulk".

§ 126.10 [Amended]

3. By removing the word "methane" from the list in § 126.10(d).

4. By adding a new Part 127 to read as follows:

PART 127—LIQUEFIED NATURAL GAS WATERFRONT FACILITIES

Subpart A—General

Sec.
127.001 Applicability.
127.003 Incorporation by reference.
127.005 Definitions.
127.007 Letter of intent.
127.009 Letter of recommendation.
127.011 LNG waterfront facility inspections.
127.013 Suspension of transfer operations.
127.015 Appeals.
127.017 Alternatives.
127.019 *Operations Manual* and *Emergency Manual:* Procedures for examination.

Subpart B—Design and Construction

127.101 Design and construction: General.
127.103 Piers and wharves.
127.105 Marine transfer area layout and spacing.
127.107 Electrical power systems.
127.109 Lighting systems.
127.111 Communications systems.
127.113 Warnings signs.

Subpart C—Equipment

127.201 Sensing and alarm systems.
127.203 Portable gas detectors.
127.205 Emergency shutdown.
127.207 Warning alarms.

Subpart D—Operations

127.301 Persons in charge of shoreside transfer operations: Qualifications and certification.
127.303 Compliance with suspension order.
127.305 *Operations Manual.*
127.307 *Emergency Manual.*
127.309 *Operations Manual* and *Emergency Manual: Use.*
127.311 Motor vehicles.
127.313 Bulk storage.

Sec.
127.315 Preliminary transfer inspection.
127.317 Declaration of inspection.
127.319 LNG transfer.
127.321 Release of LNG.

Subpart E—Maintenance

127.401 Maintenance: General.
127.403 Inspections.
127.405 Repairs.
127.407 Testing.
127.409 Records.

Subpart F—Personnel Training

127.501 Training: General.

Subpart G—Firefighting

Fire Equipment

127.601 Fire equipment: General.
127.603 Portable fire extinguishers.
127.605 Emergency outfits.
127.607 Fire main systems.
127.609 Dry chemical systems.
127.611 International shore connection.

Fire Protection

127.613 Smoking.
127.615 Fires.
127.617 Hotwork.

Subpart H—Security

127.701 Security on existing facilities.
127.703 Access to the marine transfer area.
127.705 Security systems.
127.707 Security personnel.
127.709 Protective enclosures.
127.711 Communications.

Authority: 33 U.S.C. 1231; 49 CFR 1.46(n)(4).

Subpart A—General

§ 127.001 Applicability.

(a) This part applies to the marine transfer area of new LNG waterfront facilities and to new construction in the marine transfer area of existing LNG waterfront facilities.

(b) Subparts A, D, E, F, and G and § 127.701 apply to the marine transfer area of existing LNG waterfront facilities.

(c) Section 127.007, paragraphs (c), (d), and (e), applies to the marine transfer area of existing structures.

§ 127.003 Incorporation by reference.

(a) Certain materials are incorporated by reference into this part with the approval of the Director of the Federal Register. The Office of the Federal Register publishes a table "Material Approved for Incorporation by Reference," which appears in the Finding Aids section of this volume. In that table is found citations to the particular sections of this part where the material is incorporated and the date of the approval by the Director of the Federal Register. To enforce any edition other than the one listed in paragraph (b) of this section, notice of change must be published in the Federal Register and the material made available. All approved material is on file at the Office of the Federal Register, Washington, DC 20408, and at the U.S. Coast Guard, Port and Environmental Safety Division, Washington, DC 20593.

(b) The materials approved for incorporation by reference in this part are:

"American National Standards Institute", 1430 Broadway, New York, NY 10018

ANSI B31.3 Chemical Plant and Petroleum Refinery Piping, 1984.

"National Fire Protection Association", Batterymarch Park, Quincy MA 02269

NFPA 10 Standard for Portable Fire Extinguishers, 1984

NFPA 30 Flammable and Combustible Liquids Code, 1984

NFPA 51B Standard for Fire Prevention in Use of Cutting and Welding Processes, 1984

NFPA 59A Standard for the Production, Storage and Handling of Liquefied Natural Gas (LNG), 1985

NFPA 70 National Electrical Code. 1984

NFPA 251 Standard Methods of Five Tests of Building Construction and Materials, 1985

§127.005 Definitions.

As used in this part:

"Captain of the Port" (COTP) means the Coast Guard officer designated by the Commandant to command a Captain of the Port Zone as described in Part 3 of this chapter, or an authorized representative.

"Commandant" means the Commandant of the U.S. Coast Guard or an authorized representative.

"Control room" means a space within the LNG waterfront facility from which facility operations are controlled.

"District Commander" means the Coast Guard officer designated by the Commandant to command a Coast Guard District as described in Part 3 of this chapter, or an authorized representative.

"Environmentally sensitive areas" includes public parks and recreation areas, wildlife and waterfowl refuges, historic sites, fishing grounds, and other protected areas.

"Existing" means constructed or being constructed under a contract awarded before (insert the effective date of these regulations).

"Fire endurance rating" means the duration for which an assembly or structural unit will contain a fire retain structural integrity when exposed to the temperatures specified in the standard time-temperature curve in NFPA 251.

"Impounding space" means a space formed by dikes and floors that confines a spill of LNG.

"Liquefied natural gas" (LNG) means a liquid or semisolid consisting mostly of methane and small quantities of ethane, propane, nitrogen, or other natural gases.

"Liquefied petroleum gas" (LPG) means a liquid consisting mostly of propane or butane or both.

"Loading flange" means the connection or group of connections in the cargo transfer pipeline on the facility that connects the facility pipeline to the vessel pipeline.

"LNG vessel" means a watercraft constructed or converted to carry LNG in bulk.

"LNG waterfront facility" (facility) means a waterfront facility, as defined in §126.01, at which LNG transfer operations are conducted.

"Marine transfer area" (area) means that portion between the vessel or where the vessel moors and the last manifold or valve immediately before the receiving tanks.

"Maximum allowable working pressure" (MAWP) means the maximum gauge pressure permissible at the top of equipment, containers, or pressure vessels while operating at design temperature.

"New" means constructed or being constructed under a contract awarded on or after (insert the effective date of these regulations).

"Persons in charge of transfer operations on the vessel" is the person designated the person in charge of cargo transfer under 46 CFR 154.1831.

"Substructure" means the deck of a pier or wharf and the structural components below that deck.

§ 127.007 Letter of intent.

(a) In order to obtain the Coast Guard's views and comments, an owner who intends to build a new LNG waterfront facility or the operator who plans new construction on an existing LNG waterfront facility, must submit a Letter of intent that meets paragraph (d) of this section to the COTP of the zone in which the facility is or will be located, at least 60 days before construction begins.

(b) The owner or operator of an existing facility shall submit a Letter of intent that meets paragraph (d) of this section to the COTP of the zone in which the facility is located by (insert a date 30 days after effective date).

(c) An owner or operator of an existing structure that has not transferred LNG within 12 consecutive months, shall submit a Letter of intent

that meets paragraph (d) of this section to the COTP of the zone in which the facility is located, at least 60 days before transferring LNG.

(d) Each Letter of intent must contain—

(1) The name, address, and telephone number of the owner and operator;

(2) The name, address, and telephone number of the facility;

(3) The physical location of the facility;

(4) A description of the facility;

(5) The LNG vessels' characteristics and the frequency of LNG shipments to or from the facility;

(6) Maps and charts showing waterway channels and identifying commercial, industrial, environmentally sensitive, and residential areas in and adjacent to the waterway within 40.2 kilometers (25 miles) of the facility; and

(7) Information on the following, on or adjacent to the facility:

(i) Depths of the water.

(ii) Tidal range.

(iii) Protection from high seas.

(iv) Natural hazards, including reefs, rocks, and sandbars.

(v) Underwater pipelines and cables.

(vi) Distance of berthed vessel from the channel and the width of the channel.

(e) The owner or operator who submits a Letter of intent under paragraphs (a), (b), or (c), shall notify the COTP in writing within 15 days if—

(1) There is any change in the information submitted under paragraph (d) of this section; or

(2) No LNG transfer operations are scheduled within the next 12 months.

§ 127.009 Letter of recommendation.

After the COTP receives the Letter of intent, the COTP issues a Letter of recommendation to the owner or operator of the facility and to the state and local government agencies having jurisdiction, as to the suitability of the waterway for LNG marine traffic, based on the following factors:

(a) The information submitted under § 127.007 (c)(3) through (c)(7).

(b) Density and character of marine traffic in the waterway.

(c) Locks, bridges, or other man-made obstructions in waterways.

Note.—The Coast Guard is authorized by law to establish water or waterfront safety zones, or other measures for limited, controlled, or conditional access and activity, when necessary for the protection of any vessel, structure, waters, or shore area.

§ 127.011 LNG waterfront facility inspections.

The operator shall ensure that the COTP or his representative is allowed to make reasonable examinations and inspections to determine whether the facility meets this part.

§ 127.013 Suspension of transfer operations.

(a) The COTP may issue an order to the operator to suspend LNG transfer operations if the COTP finds any condition requiring immediate action to—

(1) Prevent damage to, or the destruction of, any bridge or other structure on or in the navigable waters of the United States, or any land structure or shore area immediately adjacent to such waters; and

(2) Protect the navigable waters and the resources therein from harm resulting from vessel or structure damage, destruction, or loss.

(b) Each order to suspend transfer operations issued under paragraph (a) of this section—

(1) Is effective immediately;

(2) Contains a statement of each condition requiring immediate action; and

(3) Is withdrawn by the COTP whenever each condition is corrected or no longer exists.

§ 127.015 Appeals.

(a) Any person directly affected by an action taken under this part may request reconsideration by the Coast Guard officer responsible for that action.

(b) Except as provided under paragraph (a) of this section, any person not satisfied with a ruling made under the procedure contained in paragraph (a) of this section may—

(1) Appeal that ruling in writing to the Coast Guard District Commander of the district in which the action was taken; and

(2) Supply supporting documentation and evidence that the appellant wishes to have considered.

(c) The District Commander issues a ruling after reviewing the appeal submitted under paragraph (b) of this section. Except as provided under paragraph (c) of this section, any person not satisfied with this ruling may—

(1) Appeal that ruling in writing to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard, Washington, DC 20593; and

(2) Supply supporting documentation and evidence that the appellant wishes to have considered.

(d) The Chief, Office of Marine Environment and Systems issues a ruling after reviewing the appeal submitted under paragraph (c) of this section, which is final agency action.

(e) If the delay in presenting a written appeal has an adverse impact on the operations of the appellant, the appeal under paragraph (b) or (c) of this section—

(1) May be presented orally; and

(2) Must be submitted in writing within five days after the oral presentation—

(i) With the basis for the appeal and a summary of the material presented orally; and

(ii) To the same Coast Guard official who heard the oral presentation.

§ 127.017 Alternatives.

(a) The COTP may allow alternative procedures, methods, or equipment standards to be used by an operator instead of any requirements in this part if—

(1) The operator submits a written request for the alternative at least 30 days before facility operations under the alternative would begin, unless the COTP authorizes a shorter time; and

(2) The alternative provides at least the same degree of safety provided by the regulations in this part.

(b) The COTP approves or disapproves any alternative requested under paragraph (a) of this section—

(1) In writing; or

(2) Orally with subsequent written confirmation.

§ 127.019 Operations Manual and Emergency Manual: Procedures for examination.

(a) The owner or operator of an existing facility shall submit two copies of the *Operations Manual* and of the *Emergency Manual* by (insert a date that is 90 days after the effective date of these regulations) to the Captain of the Port of the zone in which the facility is located.

(b) The owner or operator of a new facility shall submit two copies of the *Operations Manual* and of the *Emergency Manual* at least 30 days before the first LNG transfer, to the Captain of the Port of the zone in which the facility is located.

(c) If the COTP finds that the *Operations Manual* meets § 127.305 and the *Emergency Manual* meets § 127.307, the Captain of the Port returns a copy to the owner or operator marked "Examined by the Coast Guard".

(d) If the COTP finds that the *Operations Manual* or the *Emergency Manual* does not meet this part, the Captain of the Port returns the manual with a statement of the reasons why it does not.

Subpart B—Design and Construction

§ 127.101 Design and construction: General.

The area must meet the following criteria in NFPA 59A:

(a) Chapter 2, Sections 2–1.2 and 2–3.

(b) Chapter 6.

(c) Chapter 7, Sections 7–6 and 7–7.

(d) Chapter 8, except Sections 8–3, 8–5 and 8–7.2.

§ 127.103 Piers and wharves.

(a) If the facility is in a region subject to earthquakes, the piers and wharves in the area must be designed to resist earthquake forces.

(b) Substructures, except moorings and breasting dolphins, that support or are within 5 meters (16 feet) of any pipe or equipment containing LNG, or are within 15 meters (50 ft) of a loading flange, must—

(1) Be made of concrete or steel; and

(2) Have a fire endurance rating of not less than two hours.

(c) Direct combustion heating equipment must be more than 60 meters (200 feet) from any loading flange.

(d) LNG or LPG storage tanks located in the area must have a volume of 1.9 cubic meters (500 gallons) or less and be designed for—

(1) Surge protection; or

(2) Pump suction supply.

§ 127.105 Marine transfer area layout and spacing.

(a) LNG impounding spaces must be located so that the heat flux from a fire over the impounding spaces does not cause structural damage to an LNG vessel moored or berthed at the facility.

(b) Each LNG loading flange must be located at least 300 meters (983 feet) from the following which are primarily intended for the use of the general public or railways:

(1) Each bridge crossing a navigable waterway.

(2) Each entrance to any tunnel under a navigable waterway.

§ 127.107 Electrical power systems.

(a) The area must have a power system and a separate emergency power system, which function so that failure of one system does not affect the capability of the other system. Each system must meet the National Electrical Code, NFPA 70.

(b) The emergency power system must provide enough power of the operation of the—

(1) Control room;

(2) Communications equipment;

(3) Firefighting equipment; and

(4) Emergency lighting.

(c) If an auxiliary generator is used as an emergency power source, it must meet Section 700–12 of NFPA 70.

(d) Fixed electrical equipment and wiring within 5 meters (16 feet) of any LNG loading flange must meet the requirements of NFPA 70 for installation in Class I, Division 2, Group D hazardous locations.

(e) Fixed electrical equipment and wiring more than 5 meters (16 feet) from any LNG loading flange must meet Chapter 7 of NFPA 59A.

§ 127.109 Lighting systems.

(a) The area must have a lighting system and a separate emergency lighting system.

(b) All outdoor lighting in the area must be—

(1) Explosion-proof as described in 46 CFR 111.105–9; and

(2) Located or shielded so that it is not confused with any aids to navigation and does not interfere with navigation on the adjacent waterways.

(c) The lighting system must provide an average illumination on a horizontal plane one meter (3.3 feet) above the deck that is—

(1) 54 lux (five foot-candles) at any loading flange; and

(2) 11 lux (one foot-candle) at each work area.

(d) The emergency lighting system must provide lighting for the operation of the—

(1) control room;

(2) communications equipment; and

(3) firefighting equipment.

§ 127.111 Communications systems.

(a) The area must have a ship-to-shore communication system and a separate emergency ship-to-shore communication system.

(b) Each ship-to-shore communication system must be a dedicated system that—

(1) is intrinsically safe as described in 46 CFR 111.105–11(a);

(2) meets the requirements in 46 CFR 111.105–15; and

(3) allows voice communication between the person in charge of transfer operations on the vessel, the person in charge of shoreside transfer operations, and personnel in the control room.

§ 127.113 Warning signs.

(a) The area must have warning signs that—

(1) meet paragraph (b) of this section;

(2) can be seen from the shore and the water; and

(3) have the following text:

Warning
Dangerous Cargo
No Visitors
No Smoking
No Open Lights

(b) Each letter in the words on the sign must be—

(1) Block style;

(2) Black on a white background; and

(3) 7.6 centimeters (3 inches) high.

Subpart C—Equipment

§ 127.201 Sensing and alarm systems.

(a) Fixed sensors must have audio and visual alarms in the control room and audio alarms where the sensors are located.

(b) Fixed sensors that continuously monitor for LNG must—

(1) Be in each enclosed area where vapor or gas may accumulate; and

(2) Meet section 9–4 of NFPA 59A.

(c) Fixed sensors that continuously monitor for flame, heat, or products of combustion must—

(1) Be in each location described in section 500–4 of NFPA 70 and each area in which flammable or combustible material is stored; and

(2) Meet Section 9–4 of NFPA 59A.

§ 127.203 Portable gas detectors.

The area must have at least two portable gas detectors capable of measuring 0–100% of the lower flammable limit of methane.

§ 127.205 Emergency shutdown.

Each transfer system must have an emergency shutdown system that—

(a) Can be activated manually; and

(b) Is activated automatically when LNG concentrations in the area exceed 40% of the lower flammable limit.

§ 127.207 Warning alarms.

(a) The area must have a rotating or flashing amber light with a minimum effective flash intensity, in the horizontal plane, of 5000 candelas. At least 50% of the required effective flash intensity must be maintained in all directions from 1.0 degree above to 1.0 degree below the horizontal plane.

(b) The area must have a siren with a minimum ⅓-octave band sound pressure level at 1 meter of 125 decibels referenced to 0.0002 microbars. The siren must be located in the area so that the sound signal produced is audible over 360 degrees in a horizontal plane.

(c) Each light and siren must be located so that the warning alarm is not obstructed for a distance of 1.6 km (1 mile) in all directions.

Subpart D—Operations

§ 127.301 Persons in charge of shoreside transfer operations: Qualifications and certification.

(a) No person may serve, and the operator of the facility may not use the services of any person, as a person in charge of shoreside transfer operations, unless that person—

(1) Has at least 40 hours of LNG transfer experience at any facility;

(2) Knows the hazards of LNG;

(3) Knows the rules of this subpart; and

(4) Knows the procedures in the examined *Operations Manual* and the examined *Emergency Manual*.

(b) Before a person in charge of shoreside transfer operations supervises a transfer, the operator shall certify in writing that the criteria in paragraph (a) of this section are met. The operator shall maintain a copy of each current certification available for inspection at the facility.

§ 127.303 Compliance with suspension order.

If an order to suspend is given to the operator or owner of the facility, no LNG transfer operations may be conducted at the facility until the order is withdrawn by the COTP.

§ 127.305 Operations Manual.

Each *Operations Manual* must contain—

(a) A description of the transfer system in the area including mooring areas, transfer connections, control rooms, and diagrams of the piping and electrical systems;

(b) The duties of each person assigned for transfer operations;

(c) The maximum relief valve setting or maximum allowable working pressure of the transfer system;

(d) The facility telephone numbers of facility supervisors, persons in charge of shoreside transfer operations, personnel on watch in the area, and security personnel;

(e) A description of the security systems for the area;

(f) The procedures for—

(1) Transfer operations including gauging, cool down, pumping, venting, and shutdown;

(2) Transfer operations start-up and shutdown;

(3) Security violations; and

(4) The communications systems; and

(g) A description of the training programs established under § 127.501.

§ 127.307 Emergency Manual.

Each *Emergency Manual* must contain—

(a) LNG release response procedures, including contacting local response organizations;

(b) Emergency shutdown procedures;

(c) A description of the fire equipment and systems and their operating procedures;

(d) A description of the emergency lighting and emergency power systems;

(e) The telephone numbers of local Coast Guard units, hospitals, fire departments, police departments, and other emergency response organizations;

(f) If the facility has personnel shelters, the location of and provisions in each shelter;

(g) First aid procedures and if there are first aid stations, the locations of each station; and

(h) Emergency procedures for mooring and unmooring a vessel.

§ 127.309 Operations Manual and Emergency Manual: Use.

The operator shall ensure that—

(a) LNG transfer operations are not conducted unless the facility has an examined *Operations Manual* and examined *Emergency Manual*;

(b) Each transfer operation is conducted in accordance with the examined *Operations Manual*; and

(c) Each emergency response is in accordance with the examined *Emergency Manual*.

§ 127.311 Motor vehicles.

(a) The operator shall designate and mark parking spaces that—

(1) Do not block fire lanes;

(2) Do not impede any exits;

(3) Are not located in any impounding space; and

(4) Are not within 15 meters (50 ft) of any storage tank or loading flange.

(b) No person may stop or park a motor vehicle in a space in the area unless that space is designated a parking space.

(c) No person may refuel any motor vehicle in the area.

§ 127.313 Bulk storage.

(a) The operator shall ensure that only the following is stored in the area:

(1) LNG.

(2) LPG.

(3) Vessel fuel.

(4) Oily waste from vessels.

(5) Solvents, lubricants, paints, and other fuels in the amount used for one day's operations and maintenance.

(b) Flammable liquids must be stored in accordance with Chapter 4 of NFPA 30.

§127.315 Preliminary transfer inspection.

Before transferring LNG, the person in charge of shoreside transfer operations shall—

(a) Inspect the transfer piping and equipment in the area and replace any worn or inoperable parts;

(b) For each of the vessel's cargo tanks from which cargo will be transferred, note the pressure, temperature, density, and volume to ensure they are safe for transfer;

(c) Review and agree with the person in charge of cargo transfer on the vessel to—

(1) The sequence of transfer operations;

(2) The transfer rate;

(3) The duties, location, and watches of each person assigned for transfer operations; and

(4) Emergency procedures from the examined *Emergency Manual*;

(d) Ensure that transfer connections allow the vessel to move to the limits of its moorings without placing strain on the loading arm or transfer piping system;

(e) Ensure that each part of the transfer system is aligned to allow the flow of LNG to the desired location;

(f) Ensure that warning signs are displayed that meet §127.113;

(g) Eliminate all ignition sources in the area;

(h) Ensure that personnel are on duty in accordance with the examined *Operations Manual*; and

(i) Test the following to determine that they are operable:

(1) The sensing and alarm systems under §127.201.

(2) The emergency shutdown under §127.205.

(3) The communication systems under §127.111.

§127.317 Declaration of inspection.

(a) After the preliminary transfer inspection under §127.315 has been satisfactorily completed, the person in charge of shoreside transfer operations shall ensure that no person transfers LNG until a Declaration of Inspection that meets paragraph (c) of this section is executed and signed in duplicate.

(b) The person in charge of shoreside transfer operations shall give one signed copy of the Declaration of Inspection to the person in charge of transfer operations on the vessel, and shall retain one signed copy at the facility for 30 days after completion of the transfer.

(c) Each Declaration of Inspection must contain—

(1) The name of the vessel and the facility;

(2) The date and time that transfer operations began;

(3) A list of the requirements in §127.315 with the initials of the person in charge of shoreside transfer

operations after each requirement, indicating that the requirement is met;

(4) The signature of the person in charge of shoreside transfer operations and the date and time of signing, indicating that he or she is ready to begin transfer operations; and

(5) The signature of each relief person in charge and the date and time of each relief.

§127.319 LNG transfer.

During the LNG transfer operations, the following must be met:

(a) The operator of the facility shall ensure that—

(1) The area is under the supervision of a person in charge, who has no other assigned duties during the transfer operation;

(2) Personnel transferring fuel or oily waste are not involved in LNG transfer; and

(3) No vessels are moored outboard of any LNG vessel.

(b) The person in charge of shoreside transfer operations shall—

(1) Be in continuous communication with the person in charge of transfer operations on the vessel;

(2) Ensure that an inspection of the transfer piping and equipment in the area for leaks, frost, defects, and other symptoms of safety and operational problems is conducted at least once every transfer.

(3) Immediately discontinue transfer operations during—

(i) Electrical storms;

(ii) Fires in the area; and

(iii) Uncontrolled fires within 4.8 kilometers (3 miles) of the periphery of the area; and

(4) Ensure that the lighting systems under § 127.109 are turned on between sunset and sunrise.

Note.—Vessel transfer requirements are published in 46 CFR Part 154.

§ 127.321 Release of LNG.

(a) The operator of the facility shall ensure that—

(1) No person releases LNG into the navigable waters of the United States; and

(2) If there is an accidential release of LNG, vessels near the facility are notified of the release by the sounding of warning alarms.

(b) If there is an accidental release of LNG, the person in charge of shoreside transfer operations shall—

(1) Immediately notify the person in charge of cargo transfer on the vessel of the intent to shutdown;

(2) Shutdown transfer operations;

(3) Notify the COTP of the release; and

(4) Not resume transfer operations until authorized by the COTP.

Subpart E—Maintenance

§ 127.401 Maintenance: General.

The operator of the facility shall ensure that the equipment required under this part is maintained in a safe condition so that it does not cause a release or ignition of LNG.

§ 127.403 Inspections.

The operator shall conduct a visual inspection for defects of each pressure-relief device not capable of being tested, at least once every 12 months, and make all necessary repairs.

§ 127.405 Repairs.

The operator shall ensure that—

(a) Equipment repairs are made so that—

(1) The equipment continues to meet the requirements in subparts B, C, G, and H of this part and in NFPA 59A; and

(2) Safety in the area is not compromised; and

(b) Welding is done in accordance with NFPA 51B and NFPA 59A, Chapter 6, Section 6–3.4.

§ 127.407 Testing.

(a) The operator shall pressure test under paragraph (b) of this section the transfer system, including piping, hoses, and loading arms, and verify the set pressure of the safety and relief valves—

(1) After they are altered;

(2) After they are repaired;

(3) After any increase in the MAWP; or

(4) At least once every 12 months.

(b) The pressure for the transfer system test under paragraph (a) must be at 1 and ⅛ times the MAWP and be held for a minimum of 30 minutes.

§ 127.409 Records.

(a) The operator shall keep on file the following information:

(1) A description of the components tested under § 127.407.

(2) The date and results of the test under paragraph (a).

(3) A description of any corrective action taken after the test.

(b) The information required by this section must be retained for 24 months.

Subpart F—Personnel Training

§ 127.501 Training: General

The operator shall ensure that each of the following is met by (insert a date 180 days after effective date) or before the employee begins assigned duties:

(a) All full-time employees have at least the following training:

(1) LNG firefighting procedures.

(2) LNG properties and hazards.

(b) In addition to the training under paragraph (a) of this section, each person assigned for transfer operations has the following training:

(1) Orientation on the examined *Operations Manual* and examined *Emergency Manual.*

(2) LNG firefighting strategies and tactics.

(3) Security procedures.

(4) LNG vessel orientation.

(5) LNG release response procedures.

(6) First aid for—

(i) Treatment of frostbite;

(ii) Treatment of burns;

(iii) Cardio-pulmonary resuscitation; and

(iv) Transportation injured personnel.

(c) The personnel who received training under paragraphs (a) and (b) receive refresher training in the same subjects at least once every five years.

Subpart G—Firefighting

Fire Equipment

§ 127.601 Fire equipment: General.

(a) Fire equipment and systems in the area provided in addition to the requirements in this subpart must meet the requirements of this subpart.

(b) The following must be red or some other conspicuous color and be in locations that are readily accessible:

(1) Hydrants and standpipes.

(2) Hose stations.

(3) Portable fire extinguishers.

(4) Fire monitors.

(c) Fire equipment, if applicable, must bear the approval of Underwriters Laboratories, Inc., the Factory Mutual Research Corp., or the Coast Guard.

§ 127.603 Portable fire extinguishers.

Each area must have—

(a) Portable fire extinguishers that meet 9–6.1 of NFPA 59A and Chapter 3 of NFPA 10; and

(b) At least one portable fire extinguisher in each designated parking area.

§ 127.605 Emergency outfits.

(a) Each area must have an emergency outfit for each person in the area whose duties include fighting fires; but, there must be at least two emergency outfits in the area. Each emergency outfit must include—

(1) One explosion-proof flashlight;

(2) Boots and gloves of rubber or other electrically nonconducting material;

(3) A rigid helmet that protects the head against impact;

(4) Water resistant clothing that also protects the body against fire; and

(5) U.S. Bureau of Mines approved self-contained breathing apparatus.

(b) Emergency outfits under paragraph (a) of this section must be in locations that are readily accessible and marked for easy recognition.

§ 127.607 Fire main systems.

(a) Each area must have a fire main system that provides at least two water streams to each part of the area, one of which must be from a single length of hose or from a fire monitor.

(b) The fire main must have at least one isolation valve at each branch connection and at least one isolation valve downstream of each branch connection to isolate damaged sections.

(c) The fire main system must have the capacity to supply—

(1) Simultaneously all fire hydrants, standpipes, and fire monitors in the system; and

(2) At a Pitot tube pressure of 618 kilonewtons per square meter (75 p.s.i.) the two outlets having the greatest pressure drop between the source of water and the hose or monitor nozzle.

(d) If the source of water for the fire main system is capable of supplying a pressure greater than the system's design working pressure, the system must have at least one pressure relief device.

(e) Each fire hydrant or standpipe must have at least one length of hose of sufficient length to meet paragraph (a) of this section.

(f) Each length of hose must—

(1) Be 1½ inches in diameter and 30.5 meters (100 feet) or less in length;

(2) Be on a hose rack or reel; and

(3) Have a Coast Guard approved combination solid stream and water spray fire hose nozzle.

§ 127.609 Dry chemical systems.

(a) Each area must have a dry chemical system. This system must provide at least two dry chemical discharges to each part of the area from separate hoses or monitors, except one of the dry chemical discharges for the area surrounding the loading flange must be—

(1) From a monitor; and

(2) Actuated and, except for pre-aimed monitors, controlled from a location other than the monitor location.

(b) The dry chemical system must have the capacity to supply simultaneously or sequentially all hoses or monitors in the system for 45 seconds.

(c) Each dry chemical hose station must have one length of hose that—

(1) Is 30.5 meters (100 feet) or less in length;

(2) Is on a hose rack or reel; and

(3) Has a nozzle with a valve that starts and stops the flow of dry chemical.

§ 127.611 International shore connection.

The area must have a Coast Guard approved international shore connection, a 2½ inch fire hydrant, and sufficient 2½ inch hose to connect the fire hydrant to the international shore connection on the vessel.

Fire Protection

§ 127.613 Smoking.

The operator shall ensure that no person smokes when there is LNG in the area.

§ 127.615 Fires.

The operator shall ensure that there are no fires when there is LNG in the area.

§ 127.617 Hotwork.

The operator shall ensure that no person conducts welding, torch cutting, or other hotwork unless that person has a permit from the COTP.

Subpart H—Security

§ 127.701 Security on existing facilities.

The operator shall ensure that any security procedure and arrangement on existing facilities, that were in use when LNG transfer operations were last conducted, be continued and maintained, or upgraded, whenever LNG transfer operations are conducted.

§ 127.703 Access to the marine transfer area.

The operator shall ensure that—

(a) Access to the area from the shoreside and the waterside is limited to Coast Guard personnel, personnel who work in the area including persons assigned for transfer operations, vessel personnel, and delivery and service personnel in the course of their business; and

(b) No person is allowed into the area unless that person is identified by a facility-issued identification card or other identification card displaying his or her photograph.

§ 127.705 Security systems.

The operator shall ensure that security patrols of the area are conducted once every hour, or that a manned television monitoring system is used, to detect—

(a) Unauthorized personnel;

(b) Fires; and

(c) LNG releases.

§ 127.707 Security personnel.

The operator shall ensure that no person is assigned security patrol duty unless that person has been instructed on security violation procedures.

§ 127.709 Protective enclosures.

The following must be within a fence or wall that prevents trespassing:

(a) Impounding spaces.

(b) Control rooms and stations.

(c) Power sources.

§ 127.711 Communications.

The area must have a means of direct communications between the security patrol and other operating or security personnel on duty on the facility.

Dated: April 28, 1986.

J.H. Parent,

Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

Part VII

Department of Commerce

Patent and Trademark Office

37 CFR Parts 1 and 2

Revision of Trademark Fees; Notice of Proposed Rulemaking

DEPARTMENT OF COMMERCE

Patent and Trademark Office

37 CFR Parts 1 and 2

[Docket No. 60457-6057]

Revision of Trademark Fees

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: The Patent and Trademark Office proposes to amend the rules of practice in patent and trademark cases, Parts 1 and 2 of title 37, Code of Federal Regulations, to adjust trademark fee amounts. This action is necessary at this time because trademark operating costs have increased over the past three and one-half years. The Commissioner is authorized by section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113), to establish fees for the filing and processing of an application for the registration of a trademark or other mark and for all other services and materials related to trademarks and other marks.

DATES: Comments must be submitted on or before June 16, 1986; a public hearing will be held on June 16, 1986, at 9:00 a.m. Requests to present oral testimony should be received on or before June 12, 1986.

ADDRESSES: Address written comments and requests to present oral testimony to the Assistant Secretary and Commissioner of Patents and Trademarks, Washington, DC 20231, Attention: Margaret M. Laurence, Room CP3–11C17. The hearing will be held in Room 11C24, on the 11th floor of Building 3, Crystal Plaza, located at 2021 Jefferson Davis Highway, Arlington, Virginia. Written comments and a transcript of the public hearing will be available for public inspection in Room 11C17 of Building 3, Crystal Plaza at 2021 Jefferson Davis Highway, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Margaret M. Laurence, Assistant Commissioner for Trademarks by telephone at (703) 557–3061 or by mail marked to her attention and addressed to the Commissioner of Patents and Trademarks, Washington, DC 20231.

SUPPLEMENTARY INFORMATION: This proposed rule change is designed primarily to adjust trademark fees because costs have increased and the Commissioner is authorized to adjust fees for the filing and processing of an application for the registration of a trademark or other mark for all other processing, services or materials related to trademarks which have been established by the Commissioner in accordance with section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113).

Adjustments to fees for filing and processing a patent application and for other processing, services or materials related to patents were made by rules published in the Federal Register on August 6, 1985, at 50 FR 31818, effective October 5, 1985.

Adjustments to fees for filing and processing a trademark application and for other processing, services or materials related to trademarks were not proposed at that time, pending review of automation cost requirements. The Patent and Trademark Office's proposal for an integrated Automated Trademark System was included in the President's FY 1987 Budget and the Office's revised Automation Master Plan that were submitted to the Congress in February 1986.

Background Information

Trademark fees are authorized by section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113). Section 31 grants the Commissioner the authority to establish trademark fees and the discretion to establish the level of Office costs to be recovered from trademark fees. The House Committee on the Judiciary, in House Report 97–542 accompanying H.R. 6260 that was enacted as Pub. L. 97–247, recommended a trademark fee schedule that was adopted by rule published in the Federal Register on July 30, 1982 at 47 FR 33088, effective October 1, 1982.

In House Report 97–542, the Committee stated that:

". . . [it] is aware of the concerns of users of the Trademark registration system, however, and intends to exercise vigorous oversight with respect to the Commissioner to ensure that fees remain at a reasonable level and that trademark registrations are processed in an efficient and cost effective manner. As part of this oversight, the Committee recommends the following fee structure to the Commissioner for Fiscal Year 1983.

Type of fee:	Proposed fee
Application filing fee per class	$175
Renewal fee	300
Late renewal	100
Section 12(c) claim	100
New certificate	100
Certificate of correction	100
Disclaimer to registration	100
Amendment to registration	100
Per class combines section 8 and 15 affidavit	200
Per class section 8 affidavit alone	100
Per class section 15 affidavit alone	100
All petitions to Commissioner	100
Cancellation opposition per class	200
TTAB appeal	100
Certified copies	10
Copies of trademarks	1
Assignments	(1)

[1] 100 plus for each mark in addition to 1."

In addition, the Patent and Trademark Office (PTO) feels it is reasonable to adjust trademark fees to reflect, in the aggregate, fluctuations in the Consumer Price Index (CPI) during the previous three years. This would enable PTO to define the maximum revenue level that may be recovered from trademark fees for the three-year period 1986–1988. This is consistent with the method mandated by Pub. L. 97–247 for adjusting patent fees.

The first step in the trademark fee adjustment process was to determine the maximum level of recovery for the three-year fee cycle. This was done by: (1) Multiplying present fees by projected workload for fiscal years 1986–1988, (2) totalling the results, and (3) applying the rate of fluctuation in the Consumer Price Index as determined by the Secretary of Labor.

The second step in the trademark fee adjustment process was to establish the total cost to be recovered from trademark fees for the three year period 1986–1988. The total costs for the filing and processing of an application for the registration of a trademark or other mark and for all other processing, services or materials related to trademarks were determined. The Office followed: (1) The general guidelines set forth in OMB Circular A–25 entitled "User Charges", that establishes general policies for developing an equitable and uniform system of charges for certain Government services and property, and (2) the guidelines for accounting and reimbursement for sharing of information technology facilities as set forth in Appendix II to OMB Circular No. A–130 entitled "Management of Federal Information Resources."

The Office used cost-finding techniques for determining the costs of all processing, services and/or materials associated with each trademark fee. Costs were determined from the best available records and included both direct and indirect costs. Costs were adjusted to reflect projected increases or decreases contained in the President's FY 1987 Budget. These cost figures were documented by the Director, Office of Finance and reviewed by each responsible Assistant Commissioner.

The total projected costs for the three-year period 1986–1988 are lower than the maximum level of recovery which would be allowed if fees were adjusted strictly according to changes in the CPI during the past three years. In its adjustment of Trademark fees, PTO seeks to recover total projected costs in FY 1987 and FY 1988 and to provide for a contingency of two percent of the estimated fee income for fiscal years 1987–1988. PTO seeks comment on this approach.

This proposed rulemaking would continue to follow the suggested fee schedule contained in House Report 97–542, with the exception of proposed increases to the fee for filing an application for registration and the fee for a printed copy of a registered mark. As a result of continuing to follow this suggested fee schedule, over the two-year period, some trademark fees would recover more than their actual estimated cost and some would recover less than their actual estimated cost. Using the 1986–1988 workload projections, the total fee revenues generated by the proposed fees for the three-year period, in the aggregate, would not exceed the total projected costs for trademarks for the same period, apart from the contingency.

It is intended that the amount of any fee due and payable on or after October 1, 1986 is the amount set in this rulemaking. For purposes of determining the amount of the fee to be paid, the date of mailing indicated on a proper Certificate of Mailing, where authorized under section 1.8 of title 37, Code of Federal Regulations, will be considered to be the date of receipt in the Office. A "Certificate of Mailing under section 1.8" is *not* "proper" for items which are specifically excluded from the provisions of section 1.8. Section 1.8 of title 37, Code of Federal Regulations, should be consulted for those items for which a Certificate of Mailing is *not* "proper." The provisions of section 1.10, relating to filing of papers and fees by "Express Mail" with certificate, however do apply to *any paper or fee* to be filed in the Office. If an application or fee is filed by "Express Mail" with a certificate of mailing dated October 1, 1986, the amount of the fee to be paid is the fee established herein if a change is being made in the fee.

To ensure clarity in the implementation of the fee proposals, a discussion of specific sections is set forth below:

Discussion of Specific Changes

Section 1.24 Coupons

Section 1.24, if amended as proposed, would adjust the fee for the purchase of coupons for trademarks to make it comparable to the proposed fee required for the purchase of a printed copy of a registered mark.

Section 2.6 Trademark fees

Section 2.6, if amended as proposed, would adjust trademark fees established pursuant to the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113) and set forth in paragraphs (a) and (n) of this section to more closely reflect the cost to the Office of such processing.

Section 2.6, paragraph (o) if amended as proposed, would provide a $25 fee for the expedited handling of a request for a certified copy of a trademark record. Currently there is no procedure for such expedited handling, and the Office has received many requests that this service be provided.

Section 2.6 paragraph (g), if amended as proposed, would clarify that the fee for recording documents applies to every paper which relates to the property in a registration or application. This is in accord with past and current Office policy.

Other Considerations

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96–354), Executive Order 12291, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq. There are no information collection requirements relating to trademark fee rules.

The General Counsel of the Department of Commerce certified to the Small Business Administration that the proposed rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96–354) because Office records show no decline in the number of applications filed by individuals and partnerships after the October 1, 1982 fee increases, and the proposed rules would maintain the present fee schedule for the most part, and limit the increase in the filing fee to the minimum amount possible.

The Patent and Trademark Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, federal, state, or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

List of Subjects in 37 CFR Parts 1 and 2

Administrative practice and procedure, Authority delegations (government agencies), Conflict of interest, Courts, Inventions and patents, Lawyers, Trademarks.

Notice is hereby given that pursuant to the authority granted to the Commissioner of Patents and Trademarks by 35 U.S.C. 6, 15 U.S.C. 1113 and 1123, and Pub. L. 97–247, the Patent and Trademark Office is proposing to amend title 37 of the Code of Federal Regulations as set forth. All proposed additions are printed between arrows and all deletions are shown between brackets.

PART 1—RULES OF PRACTICE IN PATENT CASES

1. The authority citation for 37 CFR Part 1 would continue to read as follows:

Authority: 35 U.S.C. 6, unless otherwise noted.

2. Section 1.24 is proposed to be revised to read as follows:

§ 1.24 Coupons.

Coupons in denominations of [one dollar for the purchase of trademark registrations and] one dollar and fifty cents for the purchase of patents, designs, defensive publications, [and] statutory invention registrations►, and trademark registrations◄ are sold by the Patent and Trademark Office for the convenience of the general public; these coupons may not be used for any other purpose. The [one dollar coupons are sold individually and in books of 50 with stubs for record for $50 and the] one dollar and fifty cent coupons are sold individually and in books of 50 with stubs for record for $75. These coupons are good until used; they may be transferred but cannot be redeemed.

PART 2—RULES OF PRACTICE IN TRADEMARK CASES

1. The authority citation for 37 CFR Part 2 would be revised to read as follows:

Authority: 15 U.S.C. 1123; 35 U.S.C. 6, 25, unless otherwise noted.

2. Section 2.6 is proposed to be amended by revising paragraphs (a), (n), (o) and (q).

§ 2.6 Trademark fees.

The following fees and charges are established by the Patent and Trademark Office for trademark cases:

(a) For filing an application, per class...	[$175.00] ►$200.00◄

(n) For printed copy of registered mark: Copy only	[$1.00]	►$1.50◄
(o) For certifying trademark records, per certificate		$3.50
►For expedited handling of such certification, per record requested		$25.00◄
(q) For recording trademark assignments► and agreements or other papers relating to the property in a registration or application◄, per document		$100.00

(35 U.S.C. 6; 15 U.S.C. 1113, 1123)

Dated: March 28, 1986.

Donald J. Quigg,

Assistant Secretary and Commissioner of Patents and Trademarks.

Title 3—

The President

Memorandum of May 15, 1986

Determination Under Section 301 of the Trade Act of 1974

Memorandum for the United States Trade Representative

Pursuant to Section 301 of the Trade Act of 1974, as amended (19 U.S.C. 2411), I have determined that the quantitative restrictions on oilseeds, oilseed products and grains in Portugal and the uncompensated withdrawal of tariff concessions on corn and sorghum in Spain deny benefits to the United States arising under the General Agreement on Tariffs and Trade (GATT), are unreasonable, and constitute a burden and restriction on U.S. commerce. Pursuant to Section 301 of the Trade Act, I have determined, in response to the EEC's quantitative restrictions in Portugal, to proclaim certain quantitative restrictions on products of the European Economic Community. I have further determined, in response to the EEC's withdrawal of tariff concessions on corn and sorghum in Spain, to suspend United States tariff concessions on certain products, although current rates of duty will be maintained for the time being, pending efforts to negotiate suitable compensation. I am taking these actions to enforce U.S. rights and to respond to the EEC practices in question.

Reasons for Determination

As part of the arrangements for the accession of Portugal and Spain to the EEC, the EEC: (1) has imposed restrictions on the importation into Portugal of oilseeds and oilseed products and on the consumption of vegetable oils (other than olive oil) in Portugal; (2) has required that a specified portion of Portuguese imports of grains be reserved for suppliers from other member countries of the EEC; and (3) has withdrawn Spanish tariff concessions and imposed variable levies on imports of corn and sorghum. These EEC actions apply from March 1, 1986. The average annual value of U.S. exports affected by the EEC actions exceeded a billion dollars in the 1981–1983 period.

In discussions with the EEC, we have sought the removal of the restrictions in Portugal, which we consider to be inconsistent with the General Agreement on Tariffs and Trade (GATT). We are also seeking, in accordance with our rights under GATT, appropriate compensation from the EEC for the tariff and variable levy actions in Spain.

On March 31, 1986, I announced that I would impose restrictions on imports of EEC products of comparable effect to the EEC's restrictions in Portugal unless and until we were able to resolve these matters. Efforts to obtain a satisfactory resolution have not yet been successful. I also announced that, in response to the EEC's tariff and levy actions in Spain, I would withdraw U.S. tariff commitments in GATT on certain products, but would maintain the current level of tariffs in order to allow until July 1 for expedited negotiation of agreed compensation from the EEC. I will proclaim increased duties as appropriate if such agreement is not possible. To the degree those negotiations are successful, I will restore concessions.

BEST COPY AVAILABLE

I am taking these actions to enforce U.S. trade rights on important export interests. I would strongly prefer a solution that would restore and encourage trade for all parties, and we will continue negotiating efforts toward this goal.

This determination shall be published in the Federal Register.

Ronald Reagan

THE WHITE HOUSE,
Washington, May 15, 1986.

Proclamation 5478 of May 15, 1986

Imposition of Quantitative Restrictions on Imports of Certain Articles From the European Economic Community

By the President of the United States of America

A Proclamation

1. On March 31, 1986, I announced my decision to take action in response to restrictions imposed by the European Economic Community (EEC) affecting imports of United States grain and oilseeds into Spain and Portugal, following the expansion of the EEC to include those two countries. I have determined, pursuant to Section 301(a) of the Trade Act of 1974, as amended (the Act) (19 U.S.C. 2411(a)), that these restrictions deny benefits to the United States arising under the General Agreement on Tariffs and Trade (GATT) (61 Stat. (pts. 5 and 6)), are unreasonable, and constitute a burden and restriction on United States commerce.

2. Section 301(a) of the Act (19 U.S.C. 2411(a)) authorizes the President to take all appropriate and feasible action to obtain the elimination of an act, policy, or practice of a foreign government or instrumentality that 1) is inconsistent with the provisions of, or otherwise denies benefits to the United States under, any trade agreement; or 2) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce. Section 301(b) of the Act (19 U.S.C. 2411(b)) also authorizes the President to suspend, withdraw, or prevent the application of benefits of trade agreement concessions with respect to, and to impose duties or other import restrictions on the products of, such foreign government or instrumentality. Pursuant to Section 301(a) of the Act, any such actions can be taken on a discriminatory basis solely against the foreign government or instrumentality involved. Section 301(d)(1) of the Act (19 U.S.C. 2411(d)(1)) authorizes the President to take action on his own motion.

3. In response to the EEC imposition of illegal restrictions on Portuguese imports of grain, oilseeds, and oilseed products, I have decided that expeditious action is required, and, pursuant to Section 301 (a), (b), and (d)(1) of the Act, to impose quantitative restrictions on the articles provided for in Annex I to this proclamation that are the product of the EEC.

4. In response to the withdrawal of tariff concessions and the application of the EEC variable levy on Spanish imports of corn and sorghum, I have further decided, pursuant to Section 301 (a), (b), and (d)(1) of the Act, to take steps to suspend temporarily the tariff concessions made by the United States under the GATT on articles described in Annex II to this proclamation, but to make no immediate change in the rates of duty for these articles set forth in Rate of Duty Column 1 of the Tariff Schedules of the United States (TSUS). If by July 1, 1986, the EEC provides adequate compensation for the imposition of variable levies on imports of corn and sorghum into Spain, or if it is determined that other circumstances so warrant, I am authorizing the United States Trade Representative (USTR) to terminate any of these suspensions as appropriate. If such compensation is not provided, I will proclaim increased duties on these articles as appropriate. Having due regard for the international obligations of the United States, particularly paragraph 3 of Article XXVIII of the GATT requiring any suspension of trade agreement concessions to be made on a most-favored-nation basis, any duty increase on these articles will be made on a most-favored-nation basis.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, acting under the authority vested in me by the Constitution and the statutes of the United States, including but not limited to Section 301 (a), (b), and (d)(1) and Section 604 of the Act (19 U.S.C. 2483), do proclaim that:

1. Subpart B of part 2 of the Appendix to the Tariff Schedules of the United States is modified as provided in Annex I to this proclamation. These changes shall be effective with respect to articles entered, or withdrawn from warehouse for consumption, on or after May 19, 1986.

2. The tariff concessions under the GATT on articles listed in Annex II to this proclamation are suspended, effective on the thirty-first day following notification to the Contracting Parties to the General Agreement on Tariffs and Trade, and Part I of Schedule XX of the GATT is modified to conform to this action. The rates of duty for these articles set forth in the Rate of Duty Column 1 of the TSUS are not affected by this action and shall remain as previously proclaimed until such time as they are expressly modified.

3. The USTR is hereby authorized to suspend, modify, or terminate the quantitative restrictions on any of the articles covered by Annex I to this proclamation, and to terminate the suspension of the tariff concessions under the GATT on any of the articles covered by Annex II, upon the publication in the Federal Register of his determination that such suspension, modification, or termination is justified by actions taken by the EEC with respect to this matter or is otherwise appropriate, taking into account the interests of the United States.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of May, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Billing code 3190-01-M

ANNEX I

Subpart B of part 2 of the Appendix to the Tariff Schedules of the United States is modified —

(1) by inserting the following new headnote 3:

"3. For purposes of this subpart, the term "product of the European Economic Community" refers to products of any member state of this instrumentality which includes Belgium, Denmark, France, the Federal Republic of Germany, Greece, Ireland, Italy, Luxembourg, the Netherlands, Portugal, Spain, and the United Kingdom."; and

(2) by inserting in numerical sequence the following new provisions:

Item	Articles	Quota Quantity
	Whenever, in the period from May 19, 1986, through December 31, 1986, the respective aggregate quantity specified below for the numbered classes of articles the product of the European Economic Community has been entered, no article the product of the European Economic Community in such class may be entered during the remainder of such period:	
946.01	Chocolate, sweetened, in bars or blocks weighing 10 pounds or more each (provided for in item 156.25, part 10A, schedule 1).....	7,358 thousand pounds
946.02	Candy, and other confectionery, not specially provided for (provided for in item 157.10, part 10C, schedule 1).....	122,546 thousand pounds
946.03	Apple or pear juices, not mixed and not containing over 1.0 percent of ethyl alcohol by volume (provided for in item 165.15, part 12A, schedule 1).....	73,093 thousand gallons
	Ale, porter, stout, and beer:	
946.05	In containers other than glass each holding not over 1 gallon (provided for in item 167.05, part 12C, schedule 1).....	2,482 thousand gallons
946.06	In containers each holding over 1 gallon (provided for in item 167.05, part 12C, schedule 1).....	7,405 thousand gallons
946.07	White still wines produced from grapes, containing not over 14 percent of alcohol by volume, in containers each holding not over 1 gallon, valued over $4 per gallon (provided for in item 167.30, part 12C, schedule 1).....	27,991 thousand gallons

ANNEX I

-2-

Item	Articles	Quota Quantity
	Whenever, in the 12-month period beginning January 1, 1987, and in any subsequent 12-month period beginning January 1 in any year, the respective aggregate quantity specified below for the numbered classes of articles the product of the European Economic Community has been entered, no article the product of the European Economic Community in such class may be entered during the remainder of such period:	
946.08	Chocolate, sweetened, in bars or blocks weighing 10 pounds or more each (provided for in item 156.25, part 10A, schedule 1).....	11,773 thousand pounds
946.09	Candy, and other confectionery, not specially provided for (provided for in item 157.10, part 10C, schedule 1).....	196,072 thousand pounds
946.10	Apple or pear juices, not mixed and not containing over 1.0 percent of ethyl alcohol by volume (provided for in item 165.15, part 12A, schedule 1).....	116,949 thousand gallons
	Ale, porter, stout, and beer:	
946.11	In containers other than glass each holding not over 1 gallon (provided for in item 167.05, part 12C, schedule 1).....	3,971 thousand gallons
946.12	In containers each holding over 1 gallon (provided for in item 167.05, part 12C, schedule 1).....	11,848 thousand gallons
946.13	White still wines produced from grapes, containing not over 14 percent of alcohol by volume, in containers each holding not over 1 gallon, valued over $4 per gallon (provided for in item 167.30, part 12C, schedule 1).....	44,786 thousand gallons*

ANNEX II

Articles on Which Tariff Concessions under the General Agreement on Tariffs and Trade Are Suspended

Item No.	Articles
	[The bracketed language in this list has been included only to clarify the scope of the numbered items on which concessions are being suspended, and such language is not itself intended to describe articles on which concessions are suspended.]
	Pork, prepared or preserved (except sausages):
	Boned and cooked and packed in airtight containers:
	Hams and shoulders:
107.35 pt.	In containers holding less than 3 pounds
	Blue-mold cheese:
117.00	In original loaves
117.05	Other
	[Brynza and Cheddar cheeses]
117.25	Edam and Gouda cheeses
	[Gjetost, Goya, Sbrinz, Roquefort, Romano made from cow's milk, Reggiano, Parmesano, Provoloni, Provolette, Swiss or Emmenthaler with eye formation, Gruyere-process, Gammelost, and Nokkelost cheeses]
	Other cheeses, and substitutes for cheese:
	[Cheeses made from sheep's milk]
	Other:
	Valued over 25 cents per pound:
	[Colby]
	Other:
	[Cheese and substitutes for cheese, whether or not original loaves, containing or processed from Romano, Reggiano, Parmesano, Provoloni, Provolette, Sbrinz, and Goya, all the foregoing made from cow's milk]
	Other:
117.88 pt.	Other than cheeses provided for in items 950.07, 950.08A, 950.08B, 950.09B, 950.10C, 950.10D, and 950.10E in part 3 of the Appendix to the Tariff Schedules of the United States
	Vegetables, fresh, chilled, or frozen (but not reduced in size nor otherwise prepared for preserved):
136.10	Endive, including Witloof chicory
	Vegetables (whether or not reduced in size), packed in salt, in brine, pickled, or otherwise prepared or preserved (except vegetables in subpart B of part 8 of schedule 1 of the Tariff Schedules of the United States):
141.82	Carrots in airtight containers

ANNEX II

-2-

Item No.	Articles
	Olives, prepared or preserved:
	In brine, whether or not pitted or stuffed:
	Not ripe and not pitted or stuffed:

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

The President

Proclamation 5479 of May 15, 1986

Jewish Heritage Week, 1986

By the President of the United States of America

A Proclamation

American Jews have made immeasurable contributions to our country's economic, political, social, and cultural development. The remarkable and varied achievements of American Jews have greatly enriched the lives of all Americans, from medicine and mathematics to movies and the musical theater.

It is appropriate at this time of year that we remind ourselves of the tragedy and glory of Jewish history. The Jewish people have recently celebrated Passover, the holiday that commemorates their deliverance by God from the bondage of Egypt to freedom in the Holy Land. Last week marked the observance of Yom Hashoa, the Day of Remembrance, and this week, Israeli Independence Day is celebrated. These events remind us that Israel was reborn out of ashes of the Holocaust. These commemorations sustain our hope that someday the persecuted Jews of the Soviet Union will be delivered from bondage.

At this time of year, it is appropriate for all Americans to acknowledge how much our country has benefited from the contributions of American Jews. We should be proud that Jews in America have always been free to practice their religion and preserve their traditions. And the Jewish people have responded with an ardent patriotism once so eloquently expressed by one of America's foremost rabbis:

> "God built Him a continent of glory and filled it with treasures untold. . . . Then He called unto a thousand peoples, and summoned the bravest among them. . . . And out of the bounty of earth and the labor of men, out of the longing of hearts and the prayers of souls, out of the memory of ages and the hopes of the world, God fashioned a nation in love, blessed it with a purpose sublime, and called it—America!"
>
> Silver, "America," 1917.

The Congress, by Senate Joint Resolution 275, has authorized and requested the President to issue a proclamation designating the week of May 11, 1986, through May 17, 1986, as "Jewish Heritage Week."

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the week of May 11, 1986, through May 17, 1986, as Jewish Heritage Week. I call upon the people of the United States to observe this week with appropriate programs and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of May, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Presidential Documents

Proclamation 5420 of May 15, 1986

National Defense Transportation Day and National Transportation Week, 1986

By the President of the United States of America

A Proclamation

Our Nation was founded on beliefs in basic human freedoms. Among these cherished freedoms is free movement of people and ideas. In exercising that freedom, Americans have developed the greatest transportation system the world has ever known. We can travel where and when we want, either by air, water, or land. We can move goods by airplane, railroad, ship, barge, and truck. This ability to travel and to ship goods is as important to our Nation's strength today as it was vital for the pioneers who settled this great Republic.

The first Federal highway built with national funds, the Cumberland Road, was begun in 1811. A century later, when the Lincoln Highway opened to traffic in 1913, we had our first paved coast-to-coast road. Between now and 1990, we will complete funding for our greatest highway project yet, the Interstate Highway System. Great progress has already been made, and when it is finished, the Nation will be linked together with 42,500 miles of unbroken, limited-access roadway. This is the equivalent of circling the world almost twice without hitting a traffic light—an achievement that benefits not only business and pleasure travel, but greatly strengthens our national defense as well.

In a few months, we will be celebrating the 100th birthday of our great symbol of freedom, the Statue of Liberty. This magnificent lady watched as millions of people streamed across the Atlantic to our shores in pursuit of a dream—a land of opportunity, a country where people were free to go as far as their abilities could take them. Many of these immigrants became involved in designing and building our highways, bridges, railways, and airports. Their sons and daughters are working on new challenges, high-speed railways, hypersonic flight, and new technologies to make all travel safer. What the future will bring we can only guess, but improvement in the swiftness, safety, dependability, and economy of transportation will be an integral part of even greater prosperity and human fulfillment.

In recognition of the importance of transportation, and to honor the millions of Americans who serve and supply our transportation needs, the Congress, by joint resolution approved May 16, 1957 (36 U.S.C. 160), has requested that the third Friday in May of each year be designated as National Defense Transportation Day; and by joint resolution approved May 14, 1962 (36 U.S.C. 166), that the week in which that Friday falls be proclaimed National Transportation Week.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby designate Friday, May 16, 1986, as National Defense Transportation Day and the week beginning May 11, 1986, through May 17, 1986, as National Transportation Week. I urge the people of the United States to observe these occasions with appropriate ceremonies that will give full recognition to the importance of our transportation system to this country.

IN WITNESS WHEREOF, I have hereunto set my hand this fifteenth day of May, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 51, No. 96
Monday, May 19, 1986

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

12 CFR Part 22

[Docket No. 86-11]

Loans in Areas Having Special Flood Hazards

AGENCY: Comptroller of the Currency, Treasury.

ACTION: Final rule.

SUMMARY: The Office of the Comptroller of the Currency ("Office") is making technical amendments to 12 CFR Part 22—Loans in Areas Having Special Flood Hazards. This action is required to change a citation and to correct several titles, cross-references, and typographical errors. This amendment is solely technical in nature and will not have substantive impact.

DATE: May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Yvonne McIntire, Legislative and Regulatory Analysis Division, (202) 447-1177.

ADDRESS: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, DC 20219.

SUPPLEMENTARY INFORMATION: The Office is amending 12 CFR Part 22 including the Appendix to remove all references to the "Secretary of Housing and Urban Development" and to insert, in its place, the "Director of the Federal Emergency Management Agency". This change is required to reflect an amendment to 42 U.S.C. 4003 which replaced the Secretary of Housing and Urban Development with the Director of the Federal Emergency Management Agency as administrator of the National Flood Insurance Program.

The Office also is removing the references to the regulations of the Federal Insurance Administration of the Department of Housing and Urban Development and substituting the apropriate regulations of the Federal Emergency Management Agency.

Finally, the Office is amending paragraphs (1) and (2)(a) of the Appendix to 12 CFR Part 22 in order to correct several typographical errors—(1) the word "ares" in line 8 of paragraph (1) is removed and replaced with the word "ares"; (2) the word "is" in line 1 of paragraph (2)(a) is removed and replaced with the word "in"; and (3) the word "approve" in line 14 of paragraph (2)(a) is removed and replaced with the word "approved".

Reason for Not Allowing Notice and Comment Procedures

This final rule is purely technical in nature and will have no substantive impact. Since this final rule only makes corrections and reflects existing regulatory language, notice and comment procedure under section 553 of the Administrative Procedure Act, 5 U.S.C. 551 *et seq.*, is unnecessary.

Reason for Immediate Effective Date

This final rule is not substantive. A 30-day delayed effective date, therefore, is unnecessary.

Regulatory Flexibility Act

The Comptroller certifies that this amendment will not have a substantial economic impact on a significant number of small entities. The amendment is purely technical in nature and will have no substantive impact.

Executive Order 12291

The Office has determined that this proposal does not constitute a "major rule" and, therefore, does not require a Regulatory Impact Analysis. This amendment is purely technical in nature and will have no substantive impact.

Paperwork Reduction Act

This amendment contains no information collection requirements; consequently, it does not require Office of Management and Budget review pursuant to the Paperwork Reduction Act.

List of Subjects in 12 CFR Part 22

Flood insurance, National banks.

Authority and Issuance

For the reasons set forth in the preamble, 12 CFR Part 22 and the Appendix to 12 CFR Part 22 are amended as follows:

PART 22—[AMENDMENT]

1. The authority citation for 12 CFR Part 22 is revised to read as follows:

Authority: 42 U.S.C. 4003, 4106, 4012a, 4104a, 4128.

2. Section 22.0 is revised to read as follows:

§ 22.0 Scope.

This part applies to certain loans secured by improved real estate made by banks in areas determined by the Director of the Federal Emergency Management Agency to have special flood hazards.

3. Section 22.1 (b) and (d) are revised to read as follows:

§ 22.1 Definitions.

* * * * *

(b) The term "loan" means any loan secured by improved real estate or a mobile home located or to be located in an area that has been identified by the Director of the Federal Emergency Management Agency as an area having special flood hazards.

* * * * *

(d) The phrase "participating community" means a community which has been designated as eligible for the sale of insurance by the Director of the Federal Emergency Management Agency pursuant to 44 CFR Part 64 and in which flood insurance is currently being sold.

* * * * *

4. Section 22.3 is revised to read as follows:

§ 22.3 Exemption.

Notwithstanding § 22.2, flood insurance shall not be required on any State-owned property that is covered under an adequate policy of self-insurance satisfactory to the Director of the Federal Emergency Management Agency who shall publish and periodically revise the list of states falling within the exemption provided by this section.

5. In the Appendix to 12 CFR Part 22 paragraphs (1) and (2)(a) are revised to read as follows:

Appendix—Sample Notice to Borrower

(1) Notice to Borrower of Special Flood Hazard Area

Notice is hereby given to _____ that the improved real estate or mobile home described in the attached instrument is or will be located in an area designated by the Director of the Federal Emergency Management Agency as a special flood hazard area. This area is delineated on _____'s Flood Insurance Rate Map (FIRM) or, if the FIRM is unavailable, on the Flood Hazard Boundary Map (FHBM). This area has a 1 percent chance of being flooded within any given year. The risk of exceeding the 1 percent chance increases with time periods longer than one year. For example, during the life of a 30 year mortgage, a structure located in a special flood hazard area has a 26 percent chance of being flooded.

(2) Notice to Borrower About Federal Disaster Relief Assistance

(a) *Notice in Participating Communities.* The improved real estate or mobile home securing your loan is or will be located in a community that is now participating in the National Flood Insurance Program. In the event such property is damaged by flooding in a federally declared disaster, Federal disaster relief assistance may be available. However, such assistance will be unavailable if the community has been identified for at least one year as a flood hazard area and is not participating in the National Flood Insurance Program at the time the assistance would be approved. This assistance, usually in the form of a loan with a favorable interest rate, may be available for damages incurred in excess of your flood insurance.

* * * * *

Dated: May 9, 1986.

Robert L. Clarke,

Comptroller of the Currency.

Federal Aviation Administration

14 CFR Part 11

[Docket No. 14807; Amdt. No. 11-31]

Termination of Suspension of Amendment 91-157; Minimum Equipment Lists (MEL); Correction

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule.

SUMMARY: This amendment corrects an error made when an Office of Management and Budget Control Number was printed in the Federal Register (50 FR 51188; December 13, 1985). This amendment is required to ensure that the list of control numbers is accurate.

EFFECTIVE DATE: May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Miss Jean Casciano, Safety Regulations Division (APR-200), Office of Program and Regulations Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; Telephone (202) 426-8357.

SUPPLEMENTARY INFORMATION: When Amendment No. 11-26 was published in the Federal Register (50 FR 51188; December 13, 1985), the Office of Management and Budget Control Number (2120-0522) for § 91.30 of the Federal Aviation Regulations was added to the table in § 11.101(b). However, the language in § 11.101(b) prior to the issuance of Amendment No. 11-26 listed the control number for §§ 91.24 through 91.34 as "2120-0005." Amendment No. 11-26 inadvertently neglected to amend the language in § 11.101(b).

Good Cause Justification for Making This Rule Effective Without Further Public Comment

Since this amendment corrects an editorial error, the FAA has determined that this action is appropriate without further delay. Because of this and since no additional burden is being placed on any person, additional notice and public procedure are impracticable and unnecessary.

Conclusion

This amendment corrects an editorial error. Accordingly, it has been determined that this document does not involve a rule change that is major under Executive Order 12291 or significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). I certify that, under the criteria of the Regulatory Flexibility Act, this regulation will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 14 CFR Part 11

Aircraft, Airmen, Aviation safety, General aviation, reporting and recordkeeping requirements, Safety.

The Amendment

PART 11—[AMENDED]

Accordingly, Part 11 of the Federal Aviation Regulations (14 CFR Part 11) is amended to read as follows:

1. The authority citation for 14 CFR Part 11 continues to read as follows:

Authority: 49 U.S.C. 1341(a), 1353(d), 1348, 1354(a), 1401 through 1406, 1421 through 1431, 1461, 1502; 49 U.S.C. 106(g) (revised Pub. L. 97-449, January 12, 1983).

2. By amending § 11.101 by removing the OMB control numbers in paragraph (b) for §§ 91.24 through 91.34 and 91.30 and adding the following:

§ 11.101 OMB control numbers assigned pursuant to the Paperwork Reduction Act.

* * * * *

(b) * * *

§§ 91.24 thru 91.34 (except § 91.30)	2120-0005
§ 91.30	2120-0522

* * * * * *

Issued in Washington, DC, on May 9, 1986.

Donald D. Engen,

Administrator.

14 CFR Part 39

[Docket No. 85-NM-152-AD; Amdt. 39-5314]

Airworthiness Directives; Boeing Model 747 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends an existing airworthiness directive (AD) which requires inspection of trailing edge flap tracks for cracking on certain

Boeing Model 747 airplanes. This amendment will incorporate a decrease in the inspection intervals from 2,000 landings to 1,000 landings. This action is prompted by recent reports of cracking of twelve flap tracks. The cracking has occurred aft of the third lower forward fail-safe bar fastener hole. This recent service experience has shown that the present 2,000 landing inspection interval is inadequate.

DATE: Effective June 23, 1986.

ADDRESSES: The service bulletin specified in this AD may be obtained from the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124–2207. It may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Owen Schrader, Airframe Branch, ANM–120S; telephone (206) 431–2923. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive to require inspection for and subsequent repair of cracked structure was published in the **Federal Register** on February 4, 1986 (51 FR 4365). The comment period for the proposal closed on March 28, 1986. Interested parties have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to all comments received.

Comments were received from the Air Transport Association (ATA) of America summarizing the comments of its member operators. The airlines had no objections to the proposed rule. However, several operators questioned why the proposed initial inspection interval of 300 cycles is needed since it will disrupt their established inspection interval of 1,000 landings, and the ATA requested that Table I of the AD be replaced with a provision that requires operators to inspect within 1,000 landings after the effective date of the AD and to repeat the inspection at 1,000 landing intervals. The FAA does not concur with this request. The FAA recognizes that there may be some disruptions in the established inspection schedules of those operators who will have accumulated 1001 to 1700 landings since the last inspection as of the date of this amendment; however, the schedule as required by this amendment has been determined to be necessary in consideration of the risk associated with the subject cracking, and fact that such cracking has been found to occur on airplanes with fewer flight cycles than expected.

In a comment directly to the FAA, one operator requested changing the repeat inspection interval from 1,000 landings to 1,100 or 1,200 landings. The FAA does not concur with this increase based on recent service experience of cracking occurring at lower intervals, and the recommendation of the manufacturer.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

It is estimated that 101 airplanes of U.S. operators will be affected by this AD, that it will take approximately 48 manhours per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. Based on these figures, the total cost impact of this AD is estimated to be $193,920 per additionally required inspection cycle.

For the reasons discussed above, the FAA has determined that this regulation is not considered to be major under Executive Order 12291, or significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is certified under the criteria for the Regulatory Flexibility Act that this rule will not have a significant economic impact on a substantial number of small entities because few, if any, Boeing Model 747 airplanes are operated by small entities. A final evaluation prepared for this action is contained in the regulatory docket.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends § 39.13 of Part 39 of the Federal Aviation Regulations as follows:

1. The authority citation of Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89

2. By amending AD 84–19–02, Amendment 39–4917 (49 FR 36819; September 20, 1984), by revising paragraph B. to read as follows:

B. Initially, as specified in Table I, below, and at intervals thereafter not exceeding 1,000 landings, visually inspect the flap track webs for cracks extending from all fastener holes not previously inspected under paragraph A., above, in accordance with Boeing Service Bulletin 747–57–2146, Revision 3, or later FAA-approved revisions. Cracked parts must be replaced before further flight."

TABLE I

Number of landings since last inspection as of the effective date of this amendment	Inspect prior to the accumulation of the following number of landings
0 to 700	1,000 from last inspection.
701 to 1,700	300 after effective date of amendment.
1,701 to 2,000	2,000 from last inspection.

All persons affected by this proposal who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124–2207. These documents may be examined at the FAA, Northwest Mountain Region, 17900 Pacific Highway South, Seattle, Washington, or the Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective June 23, 1986.

Issued in Seattle, Washington, on May 9, 1986.

David E. Jones,

Acting Director, Northwest Mountain Region.

[FR Doc. 86–11133 Filed 5–16–86; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 93

[Docket No. 24600; Amdt No. 93–50]

Abbotsford, British Columbia (BC), Canada, Special Airport Traffic Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action lowers the ceiling of the Abbotsford, BC, Special Airport Traffic Area (SATA) from 4,000 feet mean sea level (MSL) to 3,000 feet MSL. This SATA is located in the State of Washington and is associated with the Abbotsford, BC, Airport in Canada. This action is being taken to complement the recent Canadian-controlled airspace reclassification which resulted in the establishment of a general ceiling for Canadian control zones of 3,000 feet above the elevation of the airport.

EFFECTIVE DATE: 0901 G.m.t., July 3, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. William C. Davis, Airspace-Rules

and Aeronautical Information Division, ATO-200, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591, telephone (202) 426-8783.

SUPPLEMENTARY INFORMATION:

History

As part of the reorganization of controlled airspace in Canada, most Canadian control zones are established at 3,000 feet above the airport elevation and expressed as cardinal altitudes above MSL. The current Abbotsford SATA lateral boundary is geographically described identically to the Abbotsford Control Zone in the U.S. However, the ceiling of the SATA is established as 4,000 feet MSL so that it would have the same ceiling as the Abbotsford Control Zone in Canada. The effect of the existing rule is that it establishes a U.S. airport traffic area, in U.S. airspace, for an airport located in Canada. However, the recent Canadian-controlled airspace reorganization lowered the ceiling of the Canadian Abbotsford Control Zone to 3,000 feet MSL leaving a disparity in the applicability between the U.S. and Canadian flight rules. Accordingly, by letter dated March 27, 1985, Mr. K. S. Gray, Transport Canada, petitioned the FAA to lower the ceiling of the Abbotsford SATA.

By way of Notice No. 85-18 (50 FR 41908), published on October 10, 1985, the FAA granted Mr. K. S. Gray's petition for rulemaking by proposing to amend Part 93 of the Federal Aviation Regulations (14 CFR Part 93) to lower the floor of the Abbotsford SATA from 4,000 feet MSL to 3,000 feet MSL. Interested parties were invited to participate in the rulemaking effort by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

Except for one change of an editorial nature, this amendment is the same as that proposed in the notice. The editorial change is the insertion of the provision that the SATA's of Abbotsford, BC, and Sault Ste. Marie, ON, are only effective when the respective control towers in those SATA's are operational. The current rule makes the SATA's effective regardless of the status of the control towers.

Because this proposed amendment would establish, simplify, and standardize the flight rules for operations conducted to and from a Canadian airport, and its effect on the users of U.S. airspace is minimal, this document involves a rulemaking action which is not a major rule under Executive Order 12291 and is not a significant rule under Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). Further, for those reasons, I certify that, under the criteria of the Regulatory Flexibility Act, a resulting amendment will not have a significant impact on a substantial number of small entities. In addition, the FAA has determined that the expected impact of this action is so minimal that it does not require an evaluation.

The Rule

Accordingly, the FAA is lowering the ceiling of the Abbotsford SATA from 4,000 feet MSL to 3,000 feet MSL so that it would coincide with the established ceiling of the Canadian Abbotsford Control Zone. Additionally, as previously discussed, the FAA is limiting the effect of the rule to the operational hours of the Abbotsford, BC, and Sault Ste. Marie, ON, control towers.

List of Subjects in 14 CFR Part 93

Special airport traffic areas, Traffic patterns, Safety, Aircraft, Aircraft pilots, Air traffic control.

Adoption of the Amendment

PART 93—[AMENDED]

For the reasons stated in the preamble, the FAA is amending Subpart Q of Part 93 of the Federal Aviation Regulations (14 CFR Part 93) as follows:

1. The authority citation for Part 93 continues to read as follows:

Authority: 49 U.S.C. 1302, 1303, 1348, 1354(a), 1421(a), 1424, 2402, and 2424; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983).

2. By revising § 93.195 as follows:

§ 93.195 Applicability.

(a) *Scope.* This Subpart describes special airport traffic areas and air traffic rules for persons operating in the airspace designated under this subpart for Abbotsford, British Columbia, and Sault Ste. Marie, Ontario, Canada.

(b) *Effective periods.* The respective airspace designations and rules of this subpart are effective only during the periods that the control towers at the affected airports are operational.

§ 93.197 [Amended]

3. In § 93.197(a) by removing the words "4,000 feet MSL" and substituting the words "3,000 feet MSL."

Issued in Washington, DC, on May 9, 1986.

Donald D. Engen,

Administrator.

[FR Doc. 86-11015 Filed 5-16-86; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 93

[Docket No. 24990; Amdt. No. 93-51]

Anchorage, Alaska, Special Airport Traffic Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This action makes a minor revision to the description of the boundary of the Anchorage, AK, Special Airport Traffic Area (ATA). The revision is made necessary because of construction of a new Runway 14/32 to replace old Runway 13/31, slight changes in the geographical centers of the Anchorage International Airport and Elmendorf Air Force Base, and a reconfiguration to the boundaries of restricted areas whose boundaries, both past and present, form a portion of the ATA boundary.

Two other editional revisions are made to the Anchorage ATA. One is the deletion of the requirement that two-way radio communication be maintained with Anchorage International Airport Tower when the satellite Lake Hood Tower is not operating. This requirement is no longer applicable since Lake Hood Tower has been combined operationally with the Anchorage International Tower. The other editorial revision results from the fact that Palmer Highway, which appears as a reference point in the description, has been renamed as Glenn Highway. Accordingly, references in the former description to Palmer Highway have been changed to Glenn Highway.

DATES:

Comment Date: Comments must be submitted by July 3, 1986.

EFFECTIVE DATE: July 3, 1986.

ADDRESSES: Send comments on the rule in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-204), Docket No. 24990, 800 Independence Avenue, SW., Washington, DC 20591. Comments may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in this regulatory action by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in

developing reasoned regulatory decisions. Communications should identify the regulatory docket number and be submitted in duplicate to the above specified address. All communications received on or before the closing date for comments will be considered by the Administrator. Commenters who wish the FAA to acknowledge receipt of their comments must submit with comments a self-addressed, stamped postcard on which the following statement is written: "Comments to Docket No. 24990." The postcard will be date/time stamped and returned to the commenter. The provisions in this rule may be changed in light of comments received. All comments submitted will be available, both before and after closing date for the comments, in the Rules Docket for examination by interested persons. A report summarizing substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of Document

Any person may obtain a copy of this document by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (200) 426-8058. Communications must identify the docket number.

Background

Part 93, Subpart D, of the Federal Aviation Regulations (FAR), prescribes the boundaries of the Anchorage ATA and local operating rules. Several actions have been taken which require changes to the description of the ATA boundary and the deletion of an obsolete reference to a two-way radio communications requirement. These actions are:

(a) Construction and use of a new north/south Runway (14/32) at Anchorage International Airport and the closing of Runway 13/31.

(b) The reconfiguration of Restricted Area R-2203.

(c) The combining of Lake Hood Tower with Anchorage International Tower.

(d) A corrected description of the Elmendorf Air Force Base geographical center.

(e) Palmer Highway, which appears as a reference point in the description of the Anchorage ATA, has been renamed as Glenn Highway.

Need for Amendment

The actions listed above affect the Anchorage ATA description as follows:

(a) The new runway results in a need to correct the Anchorage International Airport geographical center. This point serves as a base reference in the general ATA description. Runway 13/31 is no longer in operation and physically does not exist. It can no longer be used as a reference to describe the "International" segment of the Anchorage ATA. Instead, the new reference point is the Anchorage International Tower. In the amended description, a line will be drawn from this reference which will help to depict an area which will include new Runway 14/32 and its associated traffic pattern.

(b) Restricted Area R-2203 has been reconfigured. The new configuration has slightly altered part of the ATA's northeastern boundary. The alteration of the ATA, as affected by the reconfigured restricted area, is minor. However, the FAA believes that no part of the definition of the Anchorage ATA boundary should be dependent upon the configuration of the restricted areas which are subject to change. Accordingly, the new description is referenced to coordinates. The reference to coordinates is a method which will be independent of any future restricted area reconfiguration that might occur. The revised description of the ATA in terms of coordinates does not in itself alter the airspace designation of the ATA.

(c) The Lake Hood Tower has been combined with the Anchorage International Tower which operates 24 hours a day. The current rule requires two-way radio communications with Anchorage Tower when Lake Hood Tower is not operating. Because of the combined operation, the rule is inaccurate and misleading to pilots.

(d) The revised Elmendorf geographical center, while not specified in the current rule, does require a slight change in the depiction of the ATA's north/northwest boundary.

(e) Renaming of Palmer Highway to Glenn Highway requires appropriate updating in the description of the Anchorage ATA.

These actions do not result in or necessitate any substantial change to the boundary of the ATA nor to aircraft operations or ATC procedures. However, the changes do require the technical amendment of the ATA boundary description and deletion of the outdated two-way radio communications requirement in the FAR.

The effect of this amendment is the slight alteration in the description of the Anchorage ATA boundary and the deletion from the rule of a two-way radio requirement which, because of the combining of tower operations, is no longer applicable. The amendment requires no change to aircraft operations in the ATA or to ATC procedures. Because the amendment is editorial in nature and only revises aeronautical charts and regulatory language to reflect configurations of adjacent airspace and airport facilities which are already in effect, this is a minor technical amendment in which the public would not be particularly interested. For the above reasons, I find that notice and public procedure under 5 U.S.C. 553 are unnecessary. This document involves a rulemaking action which is not a major rule under Executive Order 12291 and is not a significant rule under Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). Further, for these reasons, I certify that, under the criteria of the Regulatory Flexibility Act, the amendment will not have a significant economic impact on a substantial number of small entities. In addition, the FAA has determined that the expected impact of this amendment is so minimal that it does not require a regulatory evaluation.

List of Subjects in 14 CFR Part 93

Airport traffic areas, Special air traffic rules, Aviation safety.

Adoption of the Amendment

PART 93—[AMENDED]

Accordingly, Part 93 of the Federal Aviation Regulations (14 CFR Part 93), Subpart D, Anchorage, Alaska, Terminal Area, is amended as follows:

1. The authority citation for Part 93 continues to read as follows:

Authority: 49 U.S.C. 1302, 1308, 1348, 1354(a), 1421(a), 1424, 2402, and 2424; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983).

§ 93.53 [Amended]

2. In § 93.53, the introductory paragraph is amended as follows:

a. By removing the words "the south boundary of Restricted Area R-2203A; thence west along the southern boundaries of R-2203A and R-2203B; thence north along the west boundary of R-2203B to its intersection with"; and substituting the words "a point which is lat. 61°17'15" N., long. 149°37'10" W.; thence west to lat. 61°17'15" N., long. 149°42'25" W.; thence northwest to lat. 61°19'12" N., long. 149°46'36" W.; thence via"

b. By removing the word "Palmer" which appears twice in the second sentence, and substituting the word "Glenn."

§ 93.55 [Amended]

1. Section 93.55 is amended as follows:

a. Paragraph (a) *International segment*, is amended by removing the words "terminal building extending northwesterly along a line ¼ statute mile east of, and parallel to runway 13½s" and substituting the words "control tower extending northwesterly on a direct line toward the substation."

b. Paragraph (b) *Merrill segment*, is amended by removing the word "Palmer" and substituting the word "Glenn."

§ 93.5 [Amended]

4. In § 93.61 paragraph (c) is removed.

Issued in Washington, DC, on May 9, 1986.

Donald D. Engen,

Administrator.

BILLING CODE 4910-13-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

20 CFR Part 404

Federal Old-Age, Survivors, and Disability Insurance Benefits Unlimited Reopening for Insured Status

AGENCY: Social Security Administration, HHS.

ACTION: Final rule.

SUMMARY: These final regulations clarify our regulations on when a determination or decision that a claimant did not have the necessary quarters of coverage for insured status under title II of the Social Security Act may be reopened and revised. It has long been our policy to permit unlimited reopening of this determination or decision only in certain situations. On August 5, 1980, we published new regulations (45 FR 52078) which restated in simpler language our rules governing this policy to make them easier for the public to read and understand. These new regulations have been interpreted by one court and some individuals to permit reopening in situations other than those originally included in the regulations. By making clarifying revisions, we hope to be able to eliminate such interpretations of the regulations which provide for unlimited reopening of an unfavorable determination or decision concerning an individual's insured status. In addition, the final regulations on unlimited reopening for insured status reflect a requirement concerning the evidence of earnings establishing insured status which has been part of our longstanding policy in this area, but which was not specifically expressed in our regulations.

The final regulatory changes affect current 20 CFR 404.988.

EFFECTIVE DATE: These rules are effective May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Philip Berge, Legal Assistant, 3-B-4 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235, (301) 594-7452.

SUPPLEMENTARY INFORMATION:

Background and Final Regulations

The Notice of Proposed Rulemaking (NPRM) was published in the **Federal Register** on November 20, 1985 at 50 FR 47758-47760 with a 60-day comment period. No comments were received.

A worker who wants to collect benefits or establish a period of disability under title II of the Social Security Act (the Act) must have insured status. Insured status is acquired by working for a certain amount of time at a job or jobs which are covered under Social Security and, thus, paying Social Security taxes. The number of quarters of coverage needed for insured status varies depending on such factors as the date of birth and date of disability onset. The worker's covered earnings are credited to his or her earnings record which is maintained by the Social Security Administration.

We are clarifying our regulations on when a determination or decision that a claimant did not have the necessary quarters of coverage for insured status under title II of the Act may be reopened and revised. It has long been our policy that a determination or decision which finds that a claimant did not have the necessary quarters of coverage for insured status at the time of the determination or decision, may be reopened and revised at any time only in certain situations where certain provisions of the Act permit a correction in the earnings credited to the individual's earnings record and where the evidence of the earnings was in the possession of the Railroad Retirement Board (RRB) or in our possession prior to the date of notice of disallowance or denial. Prior to August 5, 1980, the regulations governing the policy (20 CFR 404.957(c)(7)(1980)) made specific references to the particular sections of the Act which permit certain corrections in an individual's earnings record at any time and which, under our policy, provide the grounds for unlimited reopening and revision of an unfavorable determination or decision concerning insured status. However, on August 5, 1980, we published new regulations in the **Federal Register** (45 FR 52078-52110) which restated our rules in simpler language to make them clearer and easier for the public to use. The new regulations (20 CFR 404.988(c)(7)) do not contain specific references to the particular sections of the Act concerning the correction of earnings records which, under our longstanding policy, represent the only situations where unlimited reopening to give insured status is permitted based on the correction of an earnings record. Subsequently, these new regulations have been interpreted by one court and some individuals to permit reopening in situations other than those originally included in the regulations. By making clarifying revisions, we hope to be able to eliminate such interpretations.

In addition, it has been a longstanding policy (although not previously stated in the regulations) that in order for unlimited reopening to apply in these situations, the evidence of earnings establishing insured status must have been in the possession of the RRB or in our possession prior to the date of the notice of disallowance or denial. We are adding this longstanding policy to the regulations in order to have the regulations reflect our policy.

The Social Security Act has no provisions on reopening and revising determinations and decisions that affect an individual's rights under title II of the Act. Our existing regulations which provide for reopening and revising determinations and decisions within specified time limits (or at any time with regard to certain matters) are based on general rulemaking authority granted the Secretary under the Act. We believe that we and the individual to whom the determination or decision applies should be able to rely on its correctness and, at some point, the finality of the determination or decision. Therefore, current regulations provide that when a determination or decision is made with respect to entitlement to, eligibility for, the amount of, or the actual payment of benefits under title II of the Act, it is generally final and binding upon us and the individual unless there is a timely appeal. However, there are special circumstances set out in current regulations which permit reopening and revising of a determination or decision which is otherwise final.

Under our regulations (20 CFR 404.988), a determination or decision we make about a person's rights under title II of the Social Security Act may be reopened (1) within 12 months of the date of the notice of the initial determination for any reason, (2) within 4 years of the date of that notice if we

find good cause as defined in our regulations, or (3) at any time under certain exceptions spelled out in the regulations.

Section 205(c)(5) of the Act lists 10 situations under which earnings may be credited to an earnings record after the expiration of the time limitation of 3 years, 3 months and 15 days, which applies to the correction of earnings records under section 205(c) of the Act. It has been our long-established policy that a determination or decision which finds that a claimant did not have the necessary quarters of coverage for insured status at the time of the determination or decision, may be reopened at any time only where earnings (which would have given the individual an insured status at the time of the determination or decision) may be credited under section 205(c)(5)(C) (to correct errors apparent on the face of the earnings record), or section 205(c)(5)(D) (to enter items transferred by the Railroad Retirement Board (RRB) which were credited under the Railroad Retirement Act when they should have been credited under the Social Security Act), or section 205(c)(5)(G) (to correct errors made in the allocation of wages or self-employment income to individuals or periods), and the evidence of the earnings was in the possession of the RRB or in our possession at the time of the determination or decision. We made these exceptions to the 4-year time period for reopening a determination or decision (20 CFR 404.988(b)) because they represent situations in which the unfavorable determination or decision was due solely to our (or the RRB's) mishandling of the evidence of the individual's earnings. We permit unlimited reopening in these situations so as not to penalize the claimant for an error we or the RRB made in the handling of his or her claim.

If, more than 4 years after the date of the notice of the initial determination that a claimant did not have the necessary quarters of coverage for insured status, new evidence is received which establishes additional earnings for insured status, we will credit the earnings record with these additional earnings if permitted under any of the 10 categories in section 205(c)(5) of the Act. However, we will not reopen the previous determinations or decision because of our long-established and accepted policy that the claimant has the responsibility to present the evidence necessary to establish that he or she qualifies for benefits. Since the previous determination or decision will not be reopened in these situations, the claimant has to file a new application to receive benefits.

We are clarifying the regulations by making specific references to those sections of the Act concerning the correction of earnings records which, under our policy, provide the bases for unlimited reopening of an unfavorable determination or decision concerning insured status. Also, while not explicit in the regulations prior to August 5, 1980, we are revising our regulations to reflect our current policy and policy prior to August 5, 1980, that the evidence of earnings establishing insured status must have been in the possession of the RRB or in our possession at the time of the determination or decision.

Regulatory Procedures

Executive Order No. 12291

These final regulations do not meet any of the criteria for a major regulation because they result in negligible program and administrative costs and savings. Therefore, a regulatory impact analysis is not required.

Paperwork Reduction Act

These final regulations impose no additional reporting/recordkeeping requirements requiring OMB clearance.

Regulatory Flexibility Act

We certify that these final regulations will not have a significant economic impact on a substantial number of small entities because these rules only affect individuals. Therefore, a regulatory flexibility analysis as provided in Pub. L. 96-354, the Regulatory Flexibility Act, is not required.

(Catalog of Federal Domestic Assistance Program Nos. 13.802 Social Security—Disability Insurance; 13.803 Social Security—Retirement Insurance; 13.804 Social Security—Survivors Insurance.)

Dated: April 3, 1986.

Martha A. McSteen,

Acting Commissioner of Social Security.

Approved: May 5, 1986.

Otis R. Bowen,

Secretary of Health and Human Services.

PART 404—[AMENDED]

Part 404 of Chapter III of 20 CFR is amended as follows:

1. The authority citation for Subpart J of Part 404 continues to read as follows:

Authority: Secs. 205 and 1102, Social Security Act, sec. 5 of Reorganization Plan No. 1 of 1953, 53 Stat. 1368, 49 Stat. 647 (42 U.S.C. 405 and 1302).

2. Paragraph (c)(7) of § 404.988 is revised to read as follows:

§ 404.988 Conditions for reopening.

* * * * *

(c) * * *

(7) It finds that the claimant did not have insured status, but earnings were later credited to his or her earnings record to correct errors apparent on the face of the earnings record (section 205(c)(5)(C) of the Act), to enter items transferred by the Railroad Retirement Board, which were credited under the Railroad Retirement Act when they should have been credited to the claimant's Social Security earnings record (section 205(c)(5)(D) of the Act), or to correct errors made in the allocation of wages or self-employment income to individuals or periods (section 205(c)(5)(G) of the Act), which would have given him or her insured status at the time of the determination or decision if the earnings had been credited to his or her earnings record at that time, and the evidence of these earnings was in our possession or the possession of the Railroad Retirement Board at the time of the determination or decision;

Food and Drug Administration

21 CFR Part 522

Implantation or Injectable Dosage Form New Animal Drugs Not Subject to Certification; Colloidal Ferric Oxide Injection

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations by removing the portion of the regulation that reflected approval of a new animal drug application (NADA) sponsored by Veterinary Laboratories, Inc., providing for use of colloidal ferric oxide injection in baby pigs for preventing and treating iron deficiency anemia. In a notice published elsewhere in this issue of the Federal Register, FDA is withdrawing approval of the subject NADA at the request of the sponsor.

EFFECTIVE DATE: May 29, 1986.

FOR FURTHER INFORMATION CONTACT: Vitolis Vengris, Center for Veterinary Medicine (HFV-214), Food and Drug

Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3183.

SUPPLEMENTARY INFORMATION: In a notice published elsewhere in this issue of the Federal Register, FDA is withdrawing approval of Veterinary Laboratories, Inc.'s, NADA 46–210 which covers use of Iron-Dex 100 Injectable Iron (colloidal ferric oxide in a dextrin solution) in baby pigs for preventing and treating iron deficiency anemia. This document removes the portion of the regulation that reflected approval of the NADA.

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Salinomycin and Bacitracin Zinc

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by International Minerals & Chemical Corp., providing for use of previously approved salinomycin and bacitracin zinc Type A medicated articles to make Type C medicated broiler chicken feeds. The feeds are used for prevention of coccidiosis and for increased rate of weight gain.

EFFECTIVE DATE: May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Loanie W. Luther, Center for Veterinary Medicine (HFV–128), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–4317.

SUPPLEMENTARY INFORMATION: International Minerals & Chemical Corp., P.O. Box 207, Terre Haute, IN 47808, filed NADA 130–235 providing for combining separately approved salinomycin and bacitracin zinc Type A articles to make Type C broiler feeds. The Type C feeds contain: salinomycin sodium, 40 to 60 grams per ton; and bacitracin zinc, 10 to 50 grams per ton. The feed is used for prevention of coccidiosis caused by *Eimeria tenella, E. necatrix, E. acervulina, E. maxima, E. brunetti,* and *E. mivati,* and for increased rate of weight gain. The NADA is approved and the regulations are amended accordingly. The basis for approval is discussed in the freedom of information summary.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Room 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.24(d)(1)(ii) (April 26, 1985; 50 FR 16636) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, Part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR Part 558 continues to read as follows:

Authority: Sec. 512, 82 Stat. 343–351 (21 U.S.C. 360b); 21 CFR 5.10 and 5.83.

2. Section 558.78 is amended by adding new paragraph (d)(3)(x) to read as follows:

§ 558.78 Bacitracin zinc.

* * * * *

(d) * * *

(3) * * *

(x) Salinomycin as in § 558.550

3. Section 558.550 is amended by adding new paragraph (b)(1)(vii) to read as follows:

§ 558.550 Salinomycin.

* * * * *

(b) * * *

(1) * * *

(vii)(*a*) *Amount per ton.* Salinomycin 40 to 60 grams and bacitracin zinc 10 to 50 grams.

(*b*) *Indications for use.* For the prevention of coccidiosis caused by *Eimeria tenella, E. necatrix, E. acervulina, E. maxima, E. brunetti,* and *E. mivati,* and for increased rate of weight gain.

(*c*) *Limitations.* Feed continuously as sole ration. Not approved for use with pellet binders. Do not feed to layers. May be fatal if accidentally fed to adult turkeys or horses. Bacitracin zinc as provided by No. 012769 in § 510.600(c) of this chapter.

BILLING CODE 4160–01–M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 938

Approval of Amendment to the Pennsylvania Permanent Regulatory Program Under the Surface Mining Control and Reclamation Act of 1977

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSMRE), Interior.

ACTION: Final rule.

SUMMARY: OSMRE is announcing the approval of a program amendment submitted by Pennsylvania as an amendment to the State's permanent regulatory program (hereinafter referred to as the Pennsylvania program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA).

The amendment satisfies two conditions of the Secretary of the Interior's approval of the Pennsylvania program. The two conditions, listed at 30 CFR 938.11(d) and 938.11(k), pertain to prime farmland requirements for proposed mining operations in the

anthracite region and to bond release procedures. The amendment also includes revisions to Pennsylvania's permitting and blasting regulations.

After providing opportunity for public comment and conducting a thorough review of the program amendment, the Secretary has determined that the amendment meets the requirements of SMCRA and the Federal regulations, with the exception of four deficiencies. Thus, the Secretary is approving the amendment while requiring the correction of these deficiencies by a specified date. The Federal rules at 30 CFR Part 938 codifying decisions concerning the Pennsylvania program are being amended to implement this decision.

This final rule is being made effective immediately in order to expedite the State program amendment process and encourage the State to conform its program to the Federal standards without undue delay; consistency of the State and Federal standards is required by SMCRA.

EFFECTIVE DATE: May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Robert Biggi, Director, Harrisburg Field Office, Office of Surface Mining Reclamation and Enforcement, 101 South Second Street, Suite L–4, Harrisburg, Pennsylvania 17101, Telephone: (717) 782–4036.

SUPPLEMENTARY INFORMATION:

I. Background

On February 28, 1980, the Secretary of the Interior received a proposed regulatory program from the State of Pennsylvania. On October 22, 1980, following a review of that proposed program as outlined in 30 CFR Part 732, the Secretary of the Interior disapproved the program. The State resubmitted its program on January 25, 1982, and, subsequently, the Secretary approved the program conditioned on the correction of minor deficiencies. Information pertinent to the general background of the permanent program submission, as well as the Secretary's findings, the disposition of comments and explanations of the conditions of approval of the Pennsylvania program can be found in the July 30, 1982 **Federal Register** (47 FR 33050). Additionally, on April 20, 1983, the United States District Court for the Middle District of Pennsylvania in *Pennsylvania Coal Mining Association v. Watt*, Civil No. 82–1129, remanded to the Secretary for correction the provision in the Pennsylvania program concerning the timing of the bond release hearing and the decision. Pursuant to 30 CFR 732.17(e), the Secretary notified Pennsylvania by a letter dated June 7, 1983, that a State program amendment was required to revise the State provision. In the **Federal Register** (48 FR 27102) dated June 13, 1983, OSMRE announced its intention to impose new condition (k) on the approval of the Pennsylvania program to comply with the district court decision. The State responded to OSMRE's June 7, 1983, letter on July 27, 1983, and advised OSMRE that it would amend its regulations (PA 86.171) to rectify the matter. In the **Federal Register** dated September 6, 1983 (48 FR 40223), OSMRE imposed condition (k). Other actions concerning the conditions of approval and program amendments are identified under 30 CFR 938.15 and 938.16.

II. Submission of Program Amendments

On November 2, 1984, the Pennsylvania Department of Environmental Resources (DER) submitted program amendments to satisfy the requirements of the Secretary's conditions of approval of the Pennsylvania program listed at 30 CFR 938.11(d) and 938.11(k). These amendments are filed in the OSMRE Administrative Record for Pennsylvania under number PA–539.

Condition (d) stipulates that Pennsylvania must submit to the Secretary copies of promulgated regulations, or otherwise amend its program to require: (1) That the applicant conduct a prime farmland investigation prior to mining in the anthracite region which is no less effective than 30 CFR 779.27, 783.27 (now cited at 30 CFR 785.17(b)), and in accordance with section 507(b)(16) of SMCRA; (2) that the applicant obtain, with respect to prime farmland, and negative determination when proposing to mine coal in the anthracite region which is not less effective than 30 CFR 786.19(1) (recodified as 30 CFR 773.15(c)(8)) and in accordance with section 510(d)(1) of SMCRA; and (3) the prohibition of bond release for anthracite mining operations until after the soil productivity for prime farmland has been returned to a level of yield comparable with non-mined prime farmland which is no less effective than 30 CFR 807.12(e)(2)(iii) (now cited at 30 CFR 800.40(c)(2)) and in accordance with section 519(c)(2) of SMCRA.

Condition (k) stipulates that Pennsylvania must submit to the Secretary a copy of promulgated regulations or other amendments to its program to contain provisions no less effective than 30 CFR 800.40(b)(2) and (f) to require the State to hold a bond release hearing or informal conference within 30 days after it is requested and that a decision be rendered within 30 days after the hearing or informal conference has been held.

In addition to amendments to satisfy conditions (d) and (k), Pennsylvania also submitted for OSMRE's approval proposed changes amending Sections 88.24, 88.30, 88.134, 88.135, 88.136, 88.137, and 88.491 of Pennsylvania's regulations.

OSMRE announced receipt of the amendments and initiated a public comment period on January 4, 1985 (50 FR 486). The comment period closed on January 24, 1985.

During review of the amendments, OSMRE identified some concerns related to anthracite operations on prime farmland and to blasting operations within 500 feet of any active underground mine. OSMRE's concerns are fully explained in its letter to the State of April 24, 1985 (Administrative Record number PA–553). On September 5, 1985, Pennsylvania responded to the issues raised by OSMRE (Administrative Record number PA–565).

On February 7, 1986, OSMRE reopened the comment period on the amendment for 15 days to provide the public an opportunity to review and comment on the clarifying materials submitted by Pennsylvania on September 5, 1985 (51 FR 4766). The comment period closed on February 24, 1986.

III. Summary Description of Amendments

Following is a summary description of the amendments to the Pennsylvania program submitted to OSMRE by the State on November 2, 1984.

Chapter 86

Section 86.37(a)(13)—amended by adding a reference to Chapter 88 which requires the applicant to conduct a prime farmland investigation prior to mining in the anthracite region.

Section 86.171—revised to require a bond release hearing or informal conference within 30 days after it is requested and that a decision be rendered within 30 days after the hearing or informal conference.

Section 86.172(d)(2)(iii)—amended by adding a reference to Chapter 88 which prohibits bond release for anthracite operations until after the soil productivity for prime farmland has been returned to a level of yield comparable with non-mined prime farmland.

BEST COPY AVAILABLE

Chapter 88

Subchapter A: Anthracite Coal Mining Activities Application Requirements, Premining Resources

Section 88.1 Definitions—the following definitions were added relevant to prime farmland requirements for anthracite operations:

Cropland
Historically used for cropland
Prime farmland
Soil survey

Section 88.24 Geology

(b)(4)—The requirement to analyze for marcasite has been deleted.

Section 88.30 Description of Land Use

(a)(1)—changed for clarification [the map requirement of old (a)(1) is now included in (a)].

(a) and old (1)—added to clarify the content requirements of the statement and map required under paragraph (a).

Section 88.31 Maps and Plans

(a)(7)—revised to add the location and elevation of springs and wells to the mapping requirements.

Section 88.32 Prime Farmland Investigation

—Added to include prime farmland requirements for anthracite surface mine operations.

Section 88.61 Prime Farmlands

—Added to establish prime farmland standards for anthracite surface mines.

Subchapter B: Surface Anthracite Coal Mines, Minimum Environmental Protection Performance Standards

Section 88.129 Revegetation: Standards for Successful Revegetation

—Added to establish prime farmland standards for anthracite surface mines.

Section 88.134 Blasting: General Requirements

(a)—clarification (storage and handling are covered by regulation of blasting in Pennsylvania).

(e)—clarification (replaces term "proximity" with set distance "500 feet").

Section 88.135 Blasting: Surface Blasting Requirements

(c)(1)—revised to define the distance from the operation for a warning.

(f)(2)—clarification (reference to Pennsylvania blasting regulations).

(h)—clarification (defines what the three mutually perpendicular directions are).

Section 88.136 Blasting: Near Underground Mines

(a)—clarification (replaces term "proximity" with a set distance "500 feet").

(c)—clarification regarding safety measures.

Section 88.137 Blasting: Records of Blasting Operations

(18)—clarification—the term "sketch" has been replaced with the term "arrangement" to be more precise regarding the information required.

(19)—old 19 deleted (information concerning the number of persons in the blasting crew). New (19) is old 20 renumbered.

Subchapter C: Anthracite Bank Removal and Reclamation, Minimum Environmental Protection Performance Standards

Section 88.217 Vegetation: Standards for Successful Vegetation

—Added to establish prime farmland standards for anthracite bank removal operations.

Subchapter D: Anthracite Refuse Disposal, Minimum Environmental Standards

Section 88.330 Revegetation: Standards for Successful Revegetation

—Added to establish prime farmland standards for anthracite disposal operations.

Subchapter E: Coal Processing Facilities

Section 88.381 General requirements

(b)(2)—clarification of reference.

(c)(9)—clarification of reference.

(c)(8)—added to establish prime farmland standards for anthracite coal processing facilities.

(c)(9)—change of number.

Subchapter F: Anthracite Underground Mines

Section 88.491 Minimum Requirements for Information on Environmental Resources

(i)(1)—revised to require landowner names and boundary information for anthracite underground mines.

(i)(13)—clarification (misprint).

(i)(22)—added to require surface feature information for the permit area and 1000 feet or permit area.

(i)(23)—clarification (number change).

(j)—clarification—the term "maps" added.

(k)—added to establish prime farmland requirements for anthracite underground operations.

Section 88.492 Minimum Requirements for Reclamation and Operation Plan

(m)—added to establish prime farmland standards for anthracite underground operations.

Section 88.493 Minimum Environmental Protection Performance Standards

(8)—added to establish prime farmland standards for anthracite underground operations.

IV. Secretary's Findings

The Secretary finds in accordance with SMCRA and 30 CFR 732.15 and 732.17 that the program amendments submitted on November 2, 1984, including clarifications submitted on September 5, 1985, meet the requirements of SMCRA and 30 CFR Chapter VII, with certain exceptions, as discussed below.

In conducting the initial review of the amendments submitted by Pennsylvania, OSMRE identified certain concerns related to anthracite operations on prime farmland and to blasting operations within 500 feet of active underground mines at anthracite operations. OSMRE's concerns were outlined in a letter to the State dated April 24, 1985. The State responded to the issues raised by OSMRE in a letter dated September 5, 1985. After reviewing the additional clarifying information submitted by the State, OSMRE has determined that the State's amendment satisfies conditions (d) and (k) as listed at 30 CFR 938.11 and are no less effective than the Federal requirements with certain minor exceptions.

Accordingly, the Secretary is approving the amendments and removing the two conditions while requiring revision of four provisions which do not satisfy the criteria for approval of State program amendments.

A full discussion of OSMRE's initial concerns and the disposition of each is provided below, together with the Secretary's findings on the State's satisfaction of conditions (d) and (k).

Finding 1

In its letter to Pennsylvania dated April 24, 1985, OSMRE advised the State that it found the revised bond release provision at 88.172 as it applies to anthracite operations to be less effective than the Federal requirements because it does not specify that the reference area for measuring the return of productivity of mined prime farmland be *of the same soil type* and *have been subject to equivalent management practices* as the mined prime farmland. The Federal

BEST COPY AVAILABLE

regulation at 800.40(c)(2) provides that "no part of the bond shall be released until soil productivity for prime farmlands has returned to the equivalent levels of yield as non-mined land *of the same soil type* in the surrounding area *under equivalent management practices* . . ."

In its September 5, 1985 letter responding to the issues raised by OSMRE, Pennsylvania pointed out that these requirements are contained in the performance standards for anthracite operations contained in Chapter 88.

The State's rule at 88.129(g) as submitted on November 2, 1984, provides that "In all cases, soil productivity for prime farmlands shall be returned equivalent levels of yield as non-mined land of the same soil type in the surrounding area under equivalent management practices . . ."

OSMRE has determined that Pennsylvania's revised regulation at 88.172, when considered in conjunction with State rule 88.129(g), provides the same standard for bond release on prime farmland as the Federal regulation. Therefore, the Secretary is approving it as an amendment to Pennsylvania's program. In adopting this amendment, Pennsylvania has satisfied part (3) of condition (d) of the Secretary's approval of the Pennsylvania program listed at 30 CFR 938.11. Condition 938.11(d)(3) provides that Pennsylvania must amend its program to require the prohibition of bond release for anthracite mining operations until after the soil productivity for prime farmland has been returned to a level of yield comparable with non-mined prime farmland which is no less effective than 30 CFR 807.12(e)(2)(iii) (recodified as § 800.40(c)(2)) in accordance with section 519(c)(2) of SMCRA. As noted above, OSMRE has determined that the State's provisions at 88.172 and 88.129(g) are no less effective than the Federal standard at § 800.40(c)(2) for bond release on prime farmlands. Therefore, the Secretary is removing condition (d)(3).

Finding 2

Under Pennsylvania rules 88.32(a) and 88.491(k), which pertain to surface and underground anthracite mines, the applicant is required to conduct a pre-application investigation of the proposed permit area to determine whether lands within the area may be prime farmland. In its April 24, 1985 letter, OSMRE advised Pennsylvania that, unlike OSMRE's rule at 30 CFR 785.17(b)(1), the State rules do not specify that the nature and extent of the investigation shall be determined by the regulatory authority in consultation with the U.S. Soil Conservation Service [SCS].

Pennsylvania reponded in its September 5, 1985 letter to OSMRE that the SCS has completed soil surveys for all counties containing anthracite coal and identified soil map units within each county classified as prime farmland soils. Thus, the State pointed out, a "reconnaissance inspection" for determining the existence of prime farmland soils is not necessary. Under Pennsylvania's program, the permit applicant must identify soils within the proposed permit area which are classified by SCS as prime farmland soils, as well as identify prime farmland soils historically used for cropland.

OSMRE confirmed with SCS that it has identified all soil map units in the anthracite region classified as prime farmland soils. Thus, OSMRE has determined that the State's approach of requiring a "pre-application investigation" rather than a "reconnaissance inspection" for determining the existence of prime farmland soils is no less effective than the Federal requirement at 30 CFR 785.17(b)(1). The State's rules at 88.32 and 88.491(k), together with the State's permit application forms which require the submission of an SCS soil map delineating prime farmland soils and prime farmland soils historically used for cropland within the permit area, will ensure that the regulatory authority is informed of the existence of all prime farmland soils within a proposed permit area. The pertinent sections of the State's permit application forms were submitted by the State together with its letter and other materials on September 5, 1985 (Administrative Record number PA–565).

With the adoption of Pennsylvania rules 88.32(a) and 88.491(k), the State has satisfied part (1) of the condition of approval listed at § 938.11(d). That condition specifies that Pennsylvania must amend its program to require that the applicant conduct a prime farmland investigation prior to mining in the anthracite region which is no less effective than 30 CFR 779.27 and 783.27 (recodified as § 785.17(b)(1)) and in accordance with section 507(b)(16) of SMCRA.

As noted above, OSMRE has determined that State rules 88.32 and 88.491(k), together with relevant sections of Pennsylvania's permit application forms, are no less effective than 30 CFR 785.17(b)(1). Therefore, the Secretary is removing condition (d)(1).

Finding 3

Paragraph (b) under new section 88.32 of Pennsylvania's rules sets forth the allowable exemptions from prime farmland requirements for surface anthracite operations. OSMRE advised Pennsylvania in its April 24, 1985 letter that it had found the exemption under section 88.32(b)(4) to be inconsistent with SMCRA and Federal regulations. That provision provides that land shall not be considered prime farmland if the applicant can demonstrate that the area of prime farmland is minimal in size (less than 5 acres) and has been or will be in use for an extended period of time (more than 10 years).

OSMRE's regulation at 30 CFR 823.11(a) was remanded by the U.S. District Court on October 1, 1984 in Round II of *In re: Permanent Surface Mining Regulation Litigation II*. The Federal provision at 30 CFR 823.11(a) provides an exemption from the prime farmland performance standards for coal preparation plants, support facilities and roads of surface and underground mines that are actually used over extended periods of time and affect a minimal amount of land. The court found that OSMRE's rule improperly extended the exemption to facilities associated with both surface and undergound mining operations, contradicting the court's 1980 decision that such an exemption was reasonable only for underground mining operations.

Thus, Pennsylvania's rule at 88.32(f)(4), which provides an exemption for *surface* anthracite operations on the basis of long term usage and the minimal acreage affected, is inconsistent with the Federal rule as remanded by the court on October 1, 1984. Therefore, the Secretary is requiring Pennsylvania to amend its program by deleting the regulatory provision at 88.32(b)(4). As set forth herein under 30 CFR 938.16(c), the Secretary is requiring Pennsylvania to delete this provision from its regulations by January 31, 1987.

Finding 4

The Pennsylvania regulations at 88.32(a) and 88.491(k)(3) pertaining to surface and underground anthracite mines, specify that if the investigation of the proposed permit area which the applicant is required to make indicates that lands within the proposed permit area may be prime farmlands, the applicant shall cause a soil survey of those lands to be made if a soil survey does not already exist. In its April 24, 1985 letter to the State, OSMRE advised Pennsylvania that it found this provision to be consistent with the Federal

regulation at 30 CFR 785.17(b)(3) with one exception. Unlike the Federal regulation, the State rule does not indicate the required level of detail for the soil survey that is to be made. The Federal rule at 30 CFR 785.17(b)(3) stipulates that the soil survey used to identify and locate prime farmland soils must be of the detail used by SCS for operational conservation planning. In its letter responding to concerns raised by OSMRE, Pennsylvania pointed out that this requirement is significant only when no soil survey exists.

As discussed in Finding 2 above, SCS soil surveys identifying prime farmland soils have been completed for all counties in which anthracite mining operations occur. Thus, OSMRE has determined that the absence of a State requirement specifying the level of detail for a soil survey does not render the State program less effective than the Federal requirements and the Secretary is, therefore, approving the provisions at 88.32(d) and 88.491(k)(3) as amendments to the State program.

Finding 5

Pennsylvania rules 88.32(e) and 88.491(k)(4), as submitted November 2, 1984, require the applicant to submit with the permit application a soil survey of the proposed permit area according to the standards of the National Cooperative Soil Survey and the procedures set forth in the U.S. Department of Agriculture (USDA) Handbooks 436 and 18. The State rules further specify that the soil survey shall include a map unit and representative soil profile description for each prime farmland soil within the proposed permit area. The State rules provide that "other representative descriptions from the locality, prepared in conjunction with the National Cooperative Soil Survey" may be used if available and approved by the Department. In its April 24, 1985 letter to Pennsylvania, OSMRE indicated that it had found the State rules to be consistent with the Federal regulation at 30 CFR 785.17(c)(1) with one exception. The Federal rules requires SCS approval of alternative soil profile descriptions, whereas the State rules allow the use of such alternative descriptions if prepared in conjunction with the National Cooperative Soil Survey and approved by the Department. OSMRE advised Pennsylvania that to be no less effective than the Federal regulation, the State rules must require SCS approval of alternative soil profile descriptions.

Pennsylvania advised OSMRE that the State regulatory authority's Memorandum of Understanding (MOU) with the State SCS provides for SCS review, comment and approval of all prime farmland reconstruction plans within a permit application. Pennsylvania indicated that SCS approval of prime farmland informational requirements and reconstruction plans would constitute approval of any alternative soil profile description which may be submitted by a permit applicant. After reviewing the State's MOU with SCS, OSMRE determined that is does not *explicitly* provide for SCS approval of prime farmland informational requirements and reconstruction plans. Therefore, OSMRE has determined that the State regulations at 88.32(e) and 88.491(k)(4) are less effective than the Federal requirements at 30 CFR 785.17(c)(1) to the extent that they do not require SCS approval of alternative soil profile descriptions. Therefore, the Secretary is requiring Pennsylvania to amend its program to include this requirement. As set forth herein under 30 CFR 938.16(d), the Secretary is requiring Pennsylvania to adopt this change by January 31, 1987.

Finding 6

Pennsylvania has added a new section 88.61 which sets forth special requirements for the applicant's operation and reclamation plan relevant to prime farmlands in the anthracite region. The State's proposed rule requires the applicant to demonstrate that:

(1) The land will be restored, within a reasonable time to equivalent or higher levels of yield as non-mined prime farmland in the surrounding area under equivalent levels of management, and

(2) The standards for successful revegetation of Sections 88.129, 88.217 and 88.330 can be achieved.

Unlike the Federal regulations at 30 CFR 785.17(c)(2), (3) and (4), the State's proposed rule does not also specify that the applicant's operation and reclamation plan for prime farmland include the following:

(i) A plan for soil reconstruction, replacement and stabilization to establish the technological capability to restore the operator's prime farmland to the soil reconstruction standards of 30 CFR Part 823.

(ii) The productivity prior to mining, including the average yield of food, fiber, forage or wood products obtained under a high level of management.

OSMRE informed the State in its letter of April 24, 1985, that its regulation at 88.61 is less effective than the Federal regulations because it lacks these two requirements. In responding to this issue in its September 5, 1985 letter to OSMRE, Pennsylvania pointed out that section 529 of Pub. L. 95–87 excluded anthracite coal mines from the environmental protection performance standards of sections 515 and 516. The State indicated that the soil reconstruction performance standards found at 30 CFR Part 823 do not apply to anthracite operations as these are derived from section 515(b)(7) of SMCRA, and the applicant should not, therefore, be required to provide a soil reconstruction plan. OSMRE agrees that performance standards contained in OSMRE's regulations which are derived from section 515 or 516 of the Act do not apply to anthracite mining operations. However, section 510(d) of SMCRA does apply to such operations. That section of the Act requires the regulatory authority, prior to granting a permit to mine on prime farmland, to make a written finding that the operator has the technological capability to restore such mined area, within a reasonable time, to equivalent or higher levels of yield as non-mined prime farmland in the surrounding area under equivalent levels of management. OSMRE has determined that while the Federal law does not require the State to adopt counterparts to the soil reconstruction standards set forth under 30 CFR Part 823 and to the corresponding requirement for a soil reconstruction plan contained in 30 CFR 785.17(c), Pennsylvania's program must include permit application requirements that will ensure that the requirements of section 510(d) of SMCRA relevant to the restoration of prime farmland soil will be met. Therefore, as set forth under 30 CFR 938.16(e) the Secretary is requiring Pennsylvania to amend its regulation at 88.61 or otherwise amend its program to (a) establish criteria for evaluating the applicant's operation and reclamation plan to determine whether the productivity standard for mined prime farmland can be achieved following mining; (b) require the applicant to submit a plan to establish his technological capability to comply with the requirements for restoring prime farmland productivity; and (c) require the applicant to submit information on productivity prior to mining. The State is required to adopt these changes to its program by January 31, 1987.

Finding 7

Paragraph (f) under Pennsylvania rule 88.129 establishes standards for determining success of revegetation on prime farmlands for surface anthracite coal mines. OSMRE advised Pennsylvania in its letter of April 24, 1985, that the standards established by the State's rule are not consistent with the Federal requirements because they

do not require that restoration of prime farmland productivity shall be determined on the basis of measurement of crop yields.

The State's rule provides that the standards for determining success of restoration on prime farmlands may be based on crop yields or on a soil survey. Section 88.129(f)(1) specifies that the standards shall be based on crop yields if crops are grown; section 88.129(f)(2) provides that the standards shall be based on a soil survey if crops are not grown. The State has similar requirements under Chapter 88, Subchapters C, D, and F pertaining to Anthracite Bank Removal and Reclamation, Anthracite Refuse Disposal and Anthracite Underground Mines.

As discussed in Finding 6 above, section 510(d) of SMCRA establishes that mined prime farmland shall be returned to equivalent or higher levels of yield as non-mined primed farmland in the surrounding area. OSMRE has determined that cropping is the only viable means to determine whether the statutory goal of restoration of prime farmland has been met because insufficient research has been published that demonstrates the reliability of any other methods. Under the Federal rules, it is the determination that prime farmland soil has been restored to pre-mining productivity levels, based on actual crop yields, and not soil surveys, that triggers the release of the operator's bond.

OSMRE advised Pennsylvania that to be consistent with the applicable requirements of the Act, Pennsylvania's rules must provide that restoration of prime farmland productivity shall be determined on the basis of measurement of crop yields.

In its letter to OSMRE dated September 5, 1985, Pennsylvania made the following points. The State asserted that the evaluation of the physical and chemical properties of the soil provides an adequate measure of soil productivity potential. The State indicated that the Federal rules allow for the substitution of other soil materials in place of the A horizon based on an evaluation of soil properties. Therefore, the State commented, OSMRE should allow analysis of soil properties to demonstrate soil productivity potential following mining on prime farmlands. In formulating the Federal standard for measuring the restoration of prime farmland productivity, OSMRE considered alternative measures, including the analysis of soil properties. These, however, were rejected and a determination made that the only reliable measure of prime farmland productivity is the growing of crops. The Federal standard was challenged by industry in *In re: Permanent Surface Mining Regulation Litigation*. In his Round II opinion issued October 1, 1984, Judge Flannery upheld OSMRE's regulation.

Therefore, the Secretary is requiring Pennsylvania to amend its rules at 88.129(f) (1) and (2) and the corresponding provisions under Chapter 88, Subchapters C, D and F to require that the restoration of prime farmland soil productivity shall be determined on the basis of the measurement of crop yields. As set forth herein under 30 CFR 938.16(f), Pennsylvania is required to adopt these changes by January 31, 1987.

Finding 8

Pennsylvania's regulation at 88.134(e) requires that each person who conducts blasting in connection with surface mining within 500 feet of any active underground mine shall do so in a manner as to protect the health and safety of persons working underground, to prevent any adverse impact upon an active, inactive or abandoned underground mine.

The Federal rule at 30 CFR 780.13(c) requires that blasting operations within 500 feet of active underground mines require the approval of the State and Federal regulatory authorities concerned with the health and safety of underground miners.

In its letter to Pennsylvania dated April 24, 1985, OSMRE advised the State that to be no less effective than the Federal provision, the State rules must require, either in this section or under Section 88.136, that blasting operations within 500 feet of an active underground mine be approved by Federal or State agencies concerned with the health and safety of underground miners.

In its September 5, 1985 letter to OSMRE, Pennsylvania noted that section 88.134(a) provides that an operator must comply with "all applicable State and Federal laws in the storage, handling and use of explosives." It further noted that section 88.136(a) provides that a permittee operating in the proximity of a deep mine shall notify the surface mine inspector who in turn will notify the deep mine inspector and together they shall instruct the surface and deep mine operators as to procedure.

OSMRE has determined that these provisions, taken together with the State rule at 88.134(e), will provide adequate protection for underground mining operations in close proximity to surface blasting operations consistent with the Federal regulation at 30 CFR 780.13(c). Therefore, the Secretary is approving State revised rule 88.134(e) as an amendment to Pennsylvania's program.

Finding 9

Conditions of Approval

The amendments submitted by Pennsylvania on November 2, 1984, as clarified on September 5, 1985 are intended to address two conditions of the Secretary's approval of the Pennsylvania program, those listed at 30 CFR 938.11(d) and (k).

Condition "(d)"

As discussed above under Findings 1 and 2, OSMRE has determined that the provisions submitted by the State fully satisfy subparts (1) and (3) of the condition at § 938.11(d). With respect to the remaining subpart (2) under this condition OSMRE has made the following determination. Condition § 938.11(d)(2) specifies that Pennsylvania must amend its program to add a requirement that the applicant obtain, with respect to prime farmland, a negative determination when proposing to mine coal in the anthracite region which is no less effective than the Federal requirement at 30 CFR 786.19(e) [recodified as § 773.15(c)(8)] and section 510(d)(1) of SMCRA. Pennsylvania adopted provisions at §§ 86.37(a)(13), 88.32(c), 88.361(c)(8) and 88.491(k)(2) relevant to this condition. Section 86.37(a)(13) prohibits permit approval until the State has found that the applicant has satisfied the requirements of §§ 88.32 and 88.491(k) relating to a prime farmland investigation. Sections 88.32(c) and 88.491(k)(2) pertaining to performance standards for surface and underground anthracite operations, require that if the applicant determines after investigation that all of part of the lands in the proposed permit area are not prime farmland, the applicant shall submit with the permit application a request for a negative determination. This requirement is also incorporated by reference under State rule 88.361(c)(8) pertaining to coal processing facilities for anthracite operations. The Secretary has determined that the provisions adopted by the State are no less effective than the Federal requirements pertaining to negative determinations for prime farmland at 30 CFR 773.15(c)(8) and 785.17(b)(2). Therefore, the Secretary is approving the State provisions as amendments to the program and removing conditions § 938.11(d)(2).

Condition "(k)"

With regard to the Secretary's condition of approval at 30 CFR

938.11(k), Pennsylvania has revised § 86.171 of the State program regulations to address this condition. The condition at § 938.11(k) requires Pennsylvania to amend its program to include provisions no less effective than § 800.40(b)(2) and (f) to require the State to hold a bond release hearing or informal conference within 30 days after it is requested and that a decision be rendered within 30 days after the hearing or inforinal conference has been held.

Pennsylvania's revised rule at § 86.171 stipulates that the Department will hold an informal conference on a bond release application if one is requested within 30 days from the date of the request for the conference, except that all requests for an informal conference that are filed prior to the tenth day following the final newspaper advertisement shall have a constructive date of filing as the tenth day following the final newspaper advertisement. Section 86.171(b) requires that at the time of filing an application for bond release, the applicant shall advertise the filing in a newspaper at least once a week for four consecutive weeks. Section 86.171(f)(3) specifies that if there has been an informal conference, notification of the decision shall be made within 30 days after the conference.

OSMRE has determined that the State's provisions under § 86.171 are no less effective than the Federal requirements at 30 CFR 800.40(b)(2) and (f). While the State's provision regarding the hearing date is somewhat different than the Federal provision at 30 CFR 800.40 (f), it nonetheless ensures that the last possible date for holding a conference is 60 days after the publication of the last newspaper advertisement of the filing of the bond release application. Under the Federal rules the last possible hearing date is also 60 days after the publication of the last newspaper advertisement. Thus, the Secretary has determined that the State's provision is no less effective than the Federal regulation and he is approving it as an amendment to the program and removing the condition.

V. Public Comment

OSMRE offered two comment periods on the amendments submitted by Pennsylvania. The first comment period was announced in the **Federal Register** on January 4, 1985 (50 FR 486). Comment was invited on the amendments submitted by Pennsylvania on November 2, 1984. On September 5, 1985, Pennsylvania submitted additional clarifying material for OSMRE's consideration. OSMRE announced receipt of this material on February 7, 1986 (51 FR 4706) and invited comment on it for 15 days.

During the first comment period OSMRE received one comment from the U.S. Department of Agriculture, Soil Conservation Service (SCS). No comments were received during the second comment period. SCS commented that regarding the provisions in Chapter 86 and 88 that the minimum prime farmland area be five acres, it would be more logical to use soil map units as delineated by the National Cooperative Soil Survey or comparable soil mapping. Soil map units in Pennsylvania range in size from two to five acres and are on the same map scale used by SCS for operational conservation planning.

As discussed in Finding 3 above, OSMRE has determined that an exemption from prime farmland requirements for surface anthracite operations involving less than 5 acres of prime farmland is inconsistent with the Federal rules as remanded by the court. With respect to underground anthracite operations, OSMRE has determined that an exemption from prime farmland requirements for areas of prime farmland that are minimal in size is not inconsistent with the Federal regulations as remanded by the court. In Round III of *In Re: Permanent Surface Mining Regulation Litigation II*, Judge Flannery ruled that an exemption properly applies to surface facilities for underground mines that are actively used over extended periods of time and where such uses affect a minimal amount of land. However, the judge further stated that the Secretary must provide guidelines limiting the scope of this exemption. OSMRE has not yet provided guidance to indicate what is meant by extended period of time or a minimal amount of land. Pennsylvania has defined the time and spatial limits of the exemption as "less than 5 acres" and "more than 10 years". As OSMRE has not yet established specific guidelines with respect to the scope of the exemption for underground mining, it has no basis for requiring Pennsylvania to adopt the acreage limitation recommended by SCS. Once such guidance is established, OSMRE will reexamine the State's provision in light of the Federal standards.

SCS also commented that the provisions in Chapter 86 and 88 concerning the growing of the reference crop and measuring yields or using measured soil parameters to determine reclamation success need to be given further consideration. SCS pointed out that OSMRE's final rule on surface mining and reclamation operations published in the May 12, 1983, **Federal Register**, requires that the reference crop be grown and measured.

As discussed in Finding 7 above, the Secretary is requiring Pennsylvania to amend its program to require the measurement of prime farmland soil productivity to be made on the basis of cropping.

VI. Secretary's Decision

Based on the above findings, the Secretary is approving the amendments submitted by Pennsylvania on November 2, 1984, as clarified by the State's letter to OSMRE dated September 5, 1985, while requiring the State to correct certain deficiencies by a specified date. The Secretary is also removing conditions of approval of the Pennsylvania program (d) and (k) as listed under 30 CFR 938.11. The Secretary is amending Part 938 of 30 CFR Chapter VII to implement this decision.

VIII. Procedural Matters

1. Compliance with the National Environmental Policy Act

The Secretary has determined that pursuant to section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. Executive Order No. 12291 and the Regulatory Flexibility Act

On August 28, 1981, the Office of Management and Budget (OMB) granted OSMRE on exemption from sections 3, 4, 7 and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, for this action OSMRE is exempt from the requirement to prepare a Regulatory Impact Analysis and this action does not require regulatory review by OMB.

The Department of Interior has determined that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule will not impose new requirements; rather, it will ensure that existing requirements established by SMCRA and the Federal rules will be met by the State.

3. Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the OMB under 44 U.S.C. 3507.

List of Subjects in 30 CFR Part 938

Coal mining, Intergovernmental relations, Surface Mining, Underground Mining.

Dated: May 12, 1986.

J. Steven Griles,

Assistant Secretary, Land and Minerals Management.

PART 938—PENNSYLVANIA

1. The authority citation for Part 938 continues to read as follows:

Authority: Pub. L. 95–87, Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 *et seq.*).

§ 938.11 [Amended]

2. 30 CFR 938.11 is amended by removing and reserving paragraphs (d) and (k).

3. 30 CFR 938.15 is amended by adding a new paragraph (k) to read as follows:

§ 938.15 Approval of regulatory program amendments.

* * * * *

(k) Amendments to the following sections of the Pennsylvania Department of Environmental Resources regulations as submitted to OSMRE on November 2, 1984, as clarified by the State's letter to OSMRE dated September 5, 1985, are approved effective May 19, 1986.

Regulations of the Department of Environmental Resources.

Chapter 86

86.37(a)(13)
86.171(e)(12)
86.172(d)(2)(iii)

Chapter 88

88.1—definitions for "cropland," historically used for cropland," "prime farmland," and "soil survey".
88.24(b)(4)—deleted
88.30(a) and (a)(1)

88.492(m)
88.493(8)

4. 30 CFR 938.16 is amended by adding paragraphs (c), (d), (e), and (f) to read as follows:

§ 938.16 Required program amendments.

* * * * *

(c) By January 31, 1987, Pennsylvania shall amend its program regulations to be consistent with the Federal regulations at 30 CFR Part 823 as remanded by the U.S. District Court for the District of Columbia on October 1, 1984, by deleting the language at PA 88.32(b)(4) which provides an exemption to the prime farmland requirements if "the area of prime farmland is minimal in size (less than 5 acres) and has been or will be in use for an extended period of time (more than 10 years)."

(d) By January 31, 1987, Pennsylvania shall amend its program regulations at 88.32(e) and 88.491(k)(4) or otherwise amend its program to be no less effective than 30 CFR 785.17(c)(1)(ii) in requiring approval by the U.S. Department of Agriculture Soil Conservation Service of alternative soil profile descriptions for prime farmland soils included in the permit application.

(e) By January 31, 1987, Pennsylvania shall amend its program regulations at 88.61 or otherwise amend its program to be consistent with section 510(d) of SMCRA to: (1) Establish criteria for evaluating the applicant's operation and reclamation plan to determine whether the productivity standard for mined prime farmland set forth under Chapter 88 can be achieved following mining; (2) require the applicant to submit a plan to establish his technological capability to comply with the requirements for restoring prime farmland productivity; and (3) require the applicant to submit information on productivity prior to mining.

(f) By January 31, 1987, Pennsylvania shall amend its regulations at 88.129(f)(1) and (2) and the corresponding provisions under Chapter 88, Subchapters C, D, and F (88.217, 88.330 and 88.491) or otherwise amend its program to be consistent with section 510(d) of SMCRA by requiring that the restoration of prime farmland soil productivity shall be determined on the basis of measurement of crop yields.

BILLING CODE 4310–05–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 165

[CGD5 86–03]

Security Zone; James River, VA

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is establishing a security zone in the waters of the James River immediately adjacent to the Newport News Shipbuilding and Drydock Co. (NNS) located in Newport News, Va., and is also establishing a section of anchorage G–1 as a security zone anchorage. This action is necessary to safeguard U.S. Naval vessels from sabotage or other subversive acts, accidents, or other incidents of a similar nature while they are moored at the shipyard. This security zone will provide protection to these vessels by prohibiting access to the waters around the shipyard, except by certain authorized vessels, and by providing a sufficient area in which to detect unauthorized intrusions in time to allow appropriate security measures to be taken.

EFFECTIVE DATE: June 18, 1986.

FOR FURTHER INFORMATION CONTACT: Lieutenant W.J. Wetzel, (804) 398–6368.

SUPPLEMENTARY INFORMATION: On February 27, 1986, the Coast Guard published a notice of proposed rule making in the **Federal Register** for these regulations (Vol. 51, FR 6921). Interested persons were requested to submit comments and six comments were received.

Drafting Information

The drafters of these regulations are Lieutenant W.J. Wetzel, Project Officer, Port and Vessel Safety Branch, Fifth Coast Guard District, and Commander R.J. Reining, Project Attorney, Legal Office, Fifth Coast Guard District.

Discussion of Comments

Of the six comments received on this matter, four addressed the issue that the regulation would exclude commercial shellfishermen from the security zone, who have traditionally harvested clams from within its waters. Three of these four commenters were expressly opposed to the security zone unless a specific provision within the regulation itself would guarantee these shellfishermen continued entry to these waters for the purpose of harvesting clams.

This issue was discussed in the notice of proposed rule making, and it has been, and continues to be, the Coast Guard's intention to allow shellfishermen entry into the zone. To clarify this point, however, the Coast Guard has amended the proposed regulation to specifically include shellfishing vessels within the category of vessels exempt from certain portions of the regulations. Those shellfishermen and commercial shellfish harvesting vessels properly licensed by the Virginia Marine Resources Commission will be authorized by the Captain of the Port to enter the zone to harvest clams, provided that the Captain of the Port determines that the presence of the individual or vessel does not pose a security threat to the United States. We anticipate that the period of time during which this authorization will apply will coincide with the period authorized by the Virginia Marine Resources Commission, usually May 1 to September 1 of each year.

The Virginia Marine Resources Commission has offered to provide the Coast Guard a list of boats and individuals authorized to harvest clams from the shellfish beds within the zone; however, the method by which these boats and individuals will receive permission to enter the security zone is left to the Captain of the Port.

One commenter, the City of Newport News, recommended amending the southeasternmost boundary of the security zone because of its effect upon the city's downtown redevelopment plans. The city expects to locate small boat docking and marina facilities in this area, and believes that the proposed security zone boundary would interfere with these development plans. Because of this they have recommended that the zone be modified to exclude a portion of the area directly seaward of the planned development area.

The Coast Guard concurs that the security zone may unnecessarily interfere with the development of this waterfront area, and believes that the security zone can be reduced in size without compromising the security of this zone. As a result, the Coast Guard is amending the southeastern portion of the security zone boundary by moving it closer to the shipyard approximately 125 yards. Even with such a reduction in size, the new southeastern boundary line will still extend further from the shipyard than the overall boundary line along most other portions of the shipyard.

The City of Newport News also expressed concern that that portion of the security zone that will encompass the Land Level Ship Facility being built by the shipyard will create an inconvenience for recreational boaters, by forcing boaters to go further out of their way to stay out of the zone. The Coast Guard disagrees with this, and believes that the configuration of the security zone at this location is consistent with the overall need for security, and that its presence poses a minimum inconvenience, if any, to boaters.

Finally, three commenters made the request that a public hearing be held. They indicated a need to provide the public a forum to discuss these issues and have their comments made known. The Coast Guard recognizes the value of such proceedings, but in this instance feels that there is little new, if anything, which could be brought out on these issues through a public hearing. For this reason, the Coast Guard declines to hold a public hearing before issuing this final rule.

This regulation is issued pursuant to 50 U.S.C. 191 as set out in the authority citation for all of Part 165.

Economic Assessment and Certification

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact has been found to be so minimal that a full regulatory evaluation is unnecessary. The only adverse effects expected to be caused by this regulation are to those interests which will be denied access to the waters contained in this zone. Those interests affected are expected to be primarily recreational, and the loss of the use of this part of the James River should not effect their use of the river for navigation or other purposes except in a very minor way.

Since the impact of this regulation is expected to be minimal, the Coast Guard certifies that it will not have a significant economic impact on a substantial number of small entities. No environmental assessment has been prepared for this regulation. One is not required, because these regulations clearly do not have any environmental impact.

List of Subjects in 33 CFR Part 165

Harbors, Marine Safety, Navigation (water), Security measures, Vessels, Waterways.

PART 165—[AMENDED]

Regulations

In consideration of the foregoing, the Coast Guard amends Part 165 of Title 33, Code of Federal Regulations as follows:

1. The authority citation for Part 165 continues to read as follows:

Authority: 33 U.S.C. 1225 and 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5.

2. Section 165.504 is added to read as follows:

§ 165.504 Newport News Shipbuilding and Dry Dock Company Shipyard, James River, Newport News, Va.

(a) *Location.* The following is a security zone: The waters of the James River encompassed by a line beginning at the intersection of the shoreline with the northernmost property line of the Newport News Shipbuilding and Dry Dock Co. at latitude 37°00'38.1" N, longitude 76°27'05.7" W, thence southerly to latitude 36°59'58.4" N, longitude 76°27'16.7" W, thence southeasterly to latitude 36°59'23.0" N, longitude 76°26'54.6" W, thence westerly to latitude 36°59'21.5" N, longitude 76°26'58.4" W, thence southeasterly to latitude 36°59'12.9" N, longitude 76°26'52.4" W, thence easterly to latitude 36°59'14.2" N, longitude 76°26'49.1" W, thence southeasterly to latitude 36°58'37.8" N, longitude 76°26'28.3" W, thence easterly to latitude 36°58'43.5" N, longitude 76°26'13.7" W, thence northerly to the intersection of the shoreline with the southernmost property line of the Newport News Shipbuilding and Dry Dock Co. at latitude 36°58'48.0" N, longitude 76°26'11.2" W, thence northwesterly along the shoreline to the point of beginning.

(b) *Security zone anchorage.* The following is a security zone anchorage: The waters of the James River encompassed by a line beginning at the intersection of the shoreline with the northernmost property line of the Newport News Shipbuilding and Dry Dock Company shipyard at latitude 37°00'38.1" N, longitude 76°27'05.7" W, thence southerly to latitude 36°59'58.4" N, longitude 76°27'16.7" W, thence easterly to the shoreline at latitude 36°59'58.5" N, longitude 76°27'11.6" W, thence along the shoreline to the point of beginning.

(c) *Special Regulations.* (1) Section 165.33 (a), (e), and (f) do not apply to the following vessels or individuals on board those vessels:

(i) Public vessels of the United States.

(ii) Public vessels owned or operated by the Commonwealth of Virginia or its

subdivisions for law enforcement or firefighting purposes.

(iii) Vessels owned by, operated by, or under charter to Newport News Shipbuilding and Dry Dock Co.

(iv) Vessels that are performing work at Newport News Shipbuilding and Dry Dock Co., including the vessels of subcontractors and other vendors of Newport News Shipbuilding and Dry Dock Co. or other persons that have a contractual relationship with Newport News Shipbuilding and Dry Dock Co.

(v) Vessels that are being built, rebuilt, repaired, or otherwise worked on at or by Newport News Shipbuilding and Dry Dock Co. or another person authorized to perform work at the shipyard.

(vi) Vessels that are authorized by Newport News Shipbuilding and Dry Dock Company to moor at and use its facilities.

(vii) Commercial shellfish harvesting vessels properly licensed by the Virginia Marine Resources Commission to harvest clams from the shellfish beds within this zone, during periods and under conditions specified by the Captain of the Port.

(2) Any vessel authorized to enter or remain in the security zone may anchor in the security zone anchorage.

(3) Other vessels desiring access to this zone shall secure permission from the Captain Of The Port through the Security Office of the U.S. Navy Supervisor of Shipbuilding, Conversion, and Repair at Newport News, Virginia. The request shall be forwarded in a timely manner to the Captain Of The Port by the appropriate Navy official.

(d) *Enforcement.* The U.S. Coast Guard may be assisted in the enforcement of this zone by the U.S. Navy.

Dated: May 7, 1986.

James C. Irwin,

Rear Admiral, U.S. Coast Guard Commander, Fifth Coast Guard District.

BILLING CODE 4910-14-M

POSTAL SERVICE

39 CFR Parts 3 and 4

Amendment to Bylaws of Board of Governors

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: This final rule amends the bylaws of the Board of Governors to reflect the creation of a new senior level position at Headquarters, that of Associate Postmaster General.

EFFECTIVE DATE: April 8, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. David F. Harris, (202) 268-4800.

List of Subjects in 39 CFR Parts 3 and 4

Organization and functions (Government agencies), Postal Service.

Accordingly, the Board amends 39 CFR as follows:

PART 3—BOARD OF GOVERNORS—[ARTICLE III]

1. The authority citation for Part 3 is revised to read as follows:

Authority: 39 U.S.C. 202, 203, 205, 401(2), (10), 402, 1003, 3013; 5 U.S.C. 552b (g), (j).

§ 3.4 [Amended]

2. In paragraph (p) of § 3.4, insert the words "the Associate Postmaster General," immediately before the word "Senior".

3. In paragraph (q) of § 3.4, insert the words "the Associate Postmaster General," immediately before the words "the Senior".

§ 3.7 [Amended]

4. In paragraph (c) of § 3.7, insert the words "Associate Postmaster General" before the words "Senior Assistant Postmasters General".

PART 4—OFFICERS—[ARTICLE IV]

5. The authority citation for Part 4 is revised to read as set forth below and the authority citations following all the sections in Part 4 are removed.

Authority: 39 U.S.C. 202, 203, 205, 401(2), (10), 1003, 3013.

§ 4.5 [Amended]

6. In the first sentence of § 4.5, insert the words "the Associate Postmaster General," immediately before the word "Senior".

David F. Harris,

Secretary.

Addition of Chemicals to Information-Gathering Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Interagency Testing Committee (ITC) in its Eighteenth Report to EPA recommended that EPA give priority consideration to one chemical substance, phosphoric acid, tributyl ester, CAS. No. 126-73-8, in promulgating a chemical test rule. To assist EPA in its determination of which, if any, tests are needed for this substance, EPA is adding this substance to two model information gathering rules: the Toxic Substances Control Act (TSCA) section 8(a) Preliminary Assessment Information rule (PAIR) and the TSCA section 8(d) Health and Safety Data Reporting Rule. These model rules will require manufacturers, importers, and processors of this substance to report volume, end use, exposure, and unpublished health and safety data to EPA. The ITC also announced that two chemicals which had been recommended with intent-to-designate by the ITC in its Seventeenth Report, are now designated for response within 12 months.

DATE: This rule shall become effective on June 18, 1986.

FOR FURTHER INFORMATION CONTACT: Edward A. Klein, Director, TSCA Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, Rm. E-543, 401 M St., SW., Washington, DC 20460, Toll free: (800-424-9065). In Washington, DC: (554-1404). Outside the USA: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION:

I. Background

Section 4(e) of TSCA established the ITC to recommend to EPA substances and mixtures for priority consideration in promulgating chemical test rules. For some of these substances the ITC may designate that EPA respond to its recommendations within 12 months.

Within this time, EPA must either initiate a rulemaking to test the substance or state in the Federal Register its reasons for not doing so. For the remainder of the recommended substances, no time limit for Agency response is imposed.

Elsewhere in today's Federal Register, EPA is announcing the receipt of the Eighteenth Report of the ITC, which was transmitted to EPA on May 1, 1986. The Eighteenth Report revises and updates the Committee's priority list of chemicals and adds one substance, phosphoric acid, tributyl ester, CAS. No. 126–73–8, to the section 4(e) priority list. This rule adds phosphoric acid, tributyl ester to the PAIR and the Section 8(d) Health and Safety Data Reporting Rule which will require reporting of volume, end use, exposure, and unpublished health and safety data to EPA. In addition, two chemical substances which had been recommended with intent-to-designate by the ITC in its Seventeenth Report, are now designated for response within 12 months. This revision does not trigger any new reporting requirements because following the recommendation with intent-to-designate, the two chemicals were automatically added to the PAIR and the section 8(d) Health and Safety Data Reporting Rule, as published in the Federal Register of November 19, 1985 (50 FR 47538).

To assist EPA in responding to the ITC recommendations, the Agency has provided in both the Preliminary Assessment Information Rule, and the Health and Safety Data Rule, for the automatic addition of all ITC priority list substances. Whenever EPA announces the receipt of an ITC report, EPA may, at the same time, without notice and comment, amend the two model information-gathering rules by adding the recommended substances. Thirty days after publication of the amendment, this substance, phosphoric acid, tributyl ester, will be added to the PAIR and the Health and Safety Data Reporting Rule.

EPA issued PAIR under section 8(a) of TSCA (15 U.S.C. 2607(a)), and it is codified at 40 CFR Part 712. This model section 8(a) rule established standard reporting requirements for manufacturers and importers of the chemicals listed in the rule. These manufacturers and importers are required to submit a one-time report on general volume, end use, and exposure information using the Preliminary Assessment Information Manufacturer's Report (EPA Form 7710–35). EPA uses this model section 8(a) rule to gather current information on substances of concern quickly.

EPA issued the model Health and Safety Data Reporting Rule under section 8(d) of TSCA (15 U.S.C. 2607(d)), and it is codified at 40 CFR Part 716. The section 8(d) model rule requires past, current, and prospective manufacturers, importers, and processors of listed chemical substances and mixtures to submit to EPA lists and copies of unpublished health and safety studies on the listed substances that they manufacture, import, or process. These studies provide EPA with useful information and have provided significant support for EPA's decisionmaking under TSCA sections 4, 5, 6, 8, and 9.

II. Chemicals Formerly in the "Recommended With Intent-to Designate" Section Now Designated for Response Within 12 months

The Seventeenth Report established a third section of the priority list. The new section is Part B of the list and contains those chemicals and categories of chemicals "recommended with intent-to-designate." Part A lists those chemicals, mixtures, and categories designated for priority consideration and response by EPA within 12 months, and Part C contains those chemicals, mixtures, and categories that have been recommended for priority consideration without being designated for response within 12 months. The requirement for automatic reporting under TSCA section 8(a) and section 8(d) includes the chemicals, mixtures, and categories listed by the ITC in all the three sections of the priority list.

The information received following recommendation with intent-to-designate of a chemical, mixture, or category of chemicals may influence the committee either to designate or not designate that chemical, mixture, or category for EPA response within 12 months. Revising a "recommended with intent-to-designate" recommendation to "designated for response within 12 months" does not trigger any new reporting requirements because following the recommendation with intent-to-designate, chemicals are automatically added to the PAIR and the section 8(d) Health and Safety Data Reporting Rule.

The ITC in its Seventeenth Report to EPA recommended two chemicals with intent-to-designate: cyclohexane, CAS No. 110–82–7 and 2,6-di-*tert*-butylphenol, CAS No. 128–39–2.

Information on cyclohexane reviewed by the ITC in response to the Seventeenth Report included any public comments on the recommendations; production volume, use, exposure and release information reported by manufacturers of cyclohexane under PAIR; health and safety studies submitted under the Health and Safety Data Reporting Rule and any unpublished and published data available to the ITC. The information included acute toxicity studies, skin and eye irritation studies and additional genotoxicity studies. Summary data from acute toxicity, skin irritation and repeated dose studies were also received from other submitters. Additionally, although ecological effects testing was not recommended for cyclohexane, information dealing with environmental persistence was also received.

After reviewing the information, the ITC concluded that data are still lacking on chronic (2-year) effects, especially oncogenicity and neurotoxicity. Teratogenic and reproductive effects studies are also absent. For these reasons, and for the reasons presented in its Seventeenth Report, the ITC in its Eighteenth Report announced that the chemical cyclohexane, CAS No. 110–82–7 is now designated for response within 12 months.

Information on 2,6-di-*tert*-butylphenol reviewed by the ITC in response to the Seventeenth Report also included any public comments on the recommendations; production volume, use, exposure and release information reported by manufacturers of 2,6-di-*tert*-butylphenol under PAIR; health and safety studies submitted under the Health and Safety Data Reporting Rule and any unpublished and published data available to the ITC. The information included data on acute oral and percutaneous LD_{50} studies with rats; skin and eye irritation with rabbits; skin depigmentation, skin sensitization and delayed contact hypersensitivity with guinea pigs; rat hepatocyte primary culture and DNA repair tests; and Ames Salmonella microsomal assay; intravenous toxicity to mice, and a report on the physiological response of experimental animals to the absorption of alkylated phenols and anilines. A summary of ecological effects was also received.

After reviewing the information, the ITC concluded that data are still lacking on toxicokinetics, chronic toxicity, persistence in sediments, acute toxicity

to benthic organisms and bioconcentration in benthic organisms. For these reasons, and for the reasons presented in its Seventeenth Report, the ITC in its Eighteenth Report announced that the chemcial 2,6-di-*tert*-butylphenol is now designated for response within 12 months.

III. Chemical to be Added

The newly added ITC priority list substance for which reporting is required under 40 CFR Parts 712 and 716 is listed below by Chemical Abstract Service (CAS) Registry Number:

Recommended with Intent-to-Designate:

CAS No.	Name
126-73-8	Phosphoric acid, tributyl ester.

IV. Reporting Requirements

A. Preliminary Assessment Information Rule

All persons who manufactured or imported the chemical named in this rule during their latest complete corporate fiscal year must submit a Preliminary Assessment Information Manufacturer's Report (EPA Form No. 7710-35) for each manufacturing or importing site at which they manufactured or imported a listed substance. The form must be submitted to the Agency no later than August 18, 1986. Persons who have previously and voluntarily submitted a Manufacturer's Report to the ITC or EPA should read § 712.30(a)(3). This section allows these persons to submit a copy of the original Report to EPA or to notify EPA by letter of their desire to have its submission accepted in lieu of a current data submission.

Complete details of the reporting requirements, including the small manufacturers exemption, other exemptions, and a facsimile of the reporting form are fully described in 40 CFR Part 712. Copies of the form are available from the TSCA Assistance Office at the address given under FOR FURTHER INFORMATION CONTACT.

B. Health and Safety Data Reporting Rule

Listed below are the general reporting requirements of the section 8(d) model rule.

1. Persons who, in the 10 years preceding the date a substance is listed, either have proposed to manufacture, import, or process; or have manufactured, imported, or processed the listed substance must submit to EPA:

A copy of each health and safety study which is in their possession at the time the substance is listed.

2. Persons who, at the time the substance is listed, propose to manufacture, import, or process; or are manufacturing, importing, or processing the listed substance must submit to EPA:

a. A copy of each health and safety study which is in their possession at the time the substance is listed.

b. A list of health and safety studies known to them but not in their possession at the time the substance is listed.

c. A list of health and safety studies that are ongoing at the time the substance is listed and are being conducted by or for them.

d. A list of each health and safety study that is initiated after the date the substance is listed and is conducted by or for them.

e. A copy of each health and safety study that was previously listed as ongoing or subsequently initiated and is now complete—regardless of completion date.

3. Persons who, after the time the substance is listed, propose to manufacture, import, or process the listed substance must submit to EPA:

a. A copy of each health and safety study which is in their possession at the time they propose to manufacture, import, or process the listed substance.

b. A list of health and safety studies known to them but not in their possession at the time they propose to manufacture, import, or process the listed substance.

c. A list of health and safety studies that are ongoing at the time they propose to manufacture, import, or process the listed substance, and are being conducted by or for them.

d. A list of each health and safety study that is initiated after the time they propose to manufacture, import, or process the listed substance, and is conducted by or for them.

e. A copy of each health and safety study that was previously listed as ongoing or subsequently initiated and is now complete—regardless of the completion date.

Detailed guidance for reporting unpublished health and safety data is provided in 40 CFR Part 716. Also found in Part 716 are the reporting exemptions.

C. Removal of Chemicals From the Rules

Any person who believes that section 8 (a) or (d) reporting required by this rule on a particular substance is unwarranted, should promptly submit to the Agency in detail the reasons for that belief. The request for removal of a substance from this rule must be received by EPA within 14 days of the publication of the rule. If EPA withdraws a substance from the rule, the Agency will issue a rule amendment for publication in the Federal Register.

V. Release of Aggregate Data

The Agency will follow procedures for the release of aggregate data as prescribed in a rule-related notice published in the Federal Register of June 13, 1983 (48 FR 27041). Included in the notice are procedures for requesting exemptions from the release of aggregate data. Exemption requests concerning the release of aggregate data on any chemical substance must be received by EPA no later than August 18, 1986.

VI. Economic Analysis

A. Preliminary Assessment Information Rule

EPA estimates that the PAIR reporting cost of this rule is $9,786. To calculate this figure, EPA used the TSCA Inventory and other sources to generate a list of past, and possibly current, manufacturers and importers of this substance. Five companies operating at approximately five sites were identified as potential manufacturers and three companies were identified as potential importers of the chemical. Since one of the companies may qualify as small businesses as defined in 40 CFR 712.25(c), EPA estimates that seven firms may be required to report a total of seven reports.

Reporting cost (dollars):	
(a) 7 reports expected at $762/report	$5,334
(b) 7 familiarization cases at $638/case	$4,452
Total	$9,786
Average cost per site	$1,398
Average cost per firm	$1,398
Reporting burden (hours):	
(a) Familiarization (18 hours per site times 7 sites/importers)	126
(b) Reporting (16 hours per report times 7 reports)	112
Total	238

Note.—*EPA Cost:* Processing Cost = ($86/report times 7 reports) = $602.

B. Health and Safety Data Reporting Rule

EPA estimates that the total reporting cost for establishing section 8(d) reporting requirements for this substance is $6,671. This cost estimate is relatively high, because the Agency is uncertain about the likely number of respondents to the rule. Although EPA

has used the best available data to make its economic projections, much of the data is not current. In view of this, EPA has chosen to overestimate rather than underestimate the reporting burden.

Nevertheless, the cost of this proposed rule is low in comparison with its potential benefits. Health and safety studies concerning this substance would improve EPA's ability to identify potential public health and environmental problems with regard to this chemical. The Agency therefore would be better able to determine whether further regulatory action would be necessary.

The estimated reporting costs are broken down as follows:

Initial corporate review	$2,448
Site identification/File search	918
File searches at affected sites	1,782
Title listing	114
Photocopying	165
Managerial review	918
Ongoing reporting	306
Total	6,671

VII. Rulemaking Record

The following documents constitute the public record for this rule (docket control number OPTS-82027). All of these documents are available to the public in the OTS Reading Room from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The OTS Reading Room is located at EPA Headquarters, Rm. E-107, 401 M St., SW., Washington, DC.

1. This final rule.
2. The economic analyses for this rule.
3. The Eighteenth Report of the Interagency Testing Committee.

VIII. Regulatory Assessment Requirements

A. Executive Order 12291

Under Executive Order 12291, EPA must judge whether a regulation is "major" and, therefore, subject to the requirement of a Regulatory Impact Analysis. This regulation is not a major rule because it will not result in an effect on the economy of $100 million or more, an increase in costs or prices, or any of the adverse effects described in the Executive Order.

This amendment was not submitted to the Office of Management and Budget (OMB) review, because the automatic listing of recommended or designated substances is provided for in 40 CFR 712.30(c) and 716.18(b)—final rules which have been previously reviewed by OMB under the terms of the Executive Order.

B. Paperwork Reduction Act

The information collection requirements contained in this rule have been approved by the OMB under the provision of the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq. and have been assigned OMB control numbers 2070-0054 and 2070-0004.

List of Subjects in 40 CFR Parts 712 and 716

Chemicals, Environmental protection, Hazardous substances, Health and safety data, Recordkeeping and reporting requirements.

Dated: May 6, 1986.

Joseph J. Merenda,

Director, Existing Chemical Assessment Division, Office of Toxic Substances.

Therefore, 40 CFR Parts 712 and 716 are amended as follows:

PART 712—[AMENDED]

1. In Part 712:

a. The authority citation continues to read as follows:

Authority: 15 U.S.C. 2607(a).

b. Section 712.30 is amended by adding paragraph (q) to read as follows:

§ 712.30 Chemical lists and reporting periods.

* * * * *

(q) A Preliminary Assessment Information Manufacturer's Report must be submitted by August 18, 1986, for each chemical substance listed below.

CAS No.	Name
126-73-8	Phosphoric acid, tributyl ester.

PART 716—[AMENDED]

2. In Part 716:

a. The authority citation continues to read as follows:

Authority: 15 U.S.C. 2607(d).

b. Section 716.17 is amended by adding paragraph (a)(17) to read as follows:

§ 716.17 Substances and designated mixtures to which this subpart applies.

(a) * * *

(17) As of June 18, 1986, the following chemical substances are added to this section:

CAS No.	Name
126-73-8	Phosphoric acid, tributyl ester.

* * * * *

DEPARTMENT OF THE INTERIOR

Office of Hearings and Appeals

43 CFR Part 4

Hearings and Appeals Procedures; Change of Time Period for Filing Notices of Appeal in Indian Probate Proceedings

AGENCY: Office of Hearings and Appeals, Interior.

ACTION: Final rule.

SUMMARY: This Office amends its regulations to change the time period for filing notices of appeal in Indian probate proceedings. This action is being taken to facilitate determinations of finality of non-appealed decisions, and so to expedite distribution of Indian trust estates.

EFFECTIVE DATE: June 18, 1986.

FOR FURTHER INFORMATION CONTACT: Bruce A. Johnson, Deputy Director, Office of Hearings and Appeals, (703) 235-3810.

SUPPLEMENTARY INFORMATION: On November 25, 1985, the Office of Hearings and Appeals published proposed regulations providing for the amendment of the present regulation concerning the date for filing a notice of appeal with the Board of Indian Appeals from decisions of Administrative Law Judges (Indian Probate).

On January 23, 1981, this Office had published regulations governing appeals in Indian probate proceedings in 43 CFR 4.320–4.323. These regulations replaced and updated the former appeals regulations found in 43 CFR 4.290–4.297 (1980). Paragraph (a) of 43 CFR 4.320 presently requires appeals in these cases to be filed within 60 days from receipt of the decision being appealed. The former rule had required the notice of appeal to be filed within 60 days from the date of the decision. In order to be able to prove date of receipt, this Office's Administrative Law Judges (Indian Probate) must mail their decisions by certified mail, return-receipt requested.

After 4 years experience with this procedure, it has been determined that by using this form of mail, Indian parties are frequently likely either not to receive decisions affecting them or to receive those decisions after long delays. It is therefore difficult for the Bureau of Indian Affairs to determine whether the time for filing an appeal has passed. Because of this uncertainty, the Bureau often delays distributing Indian trust estates that have not been appealed in order to avoid the problems that could result if an appeal were filed by a party who had received the decision after distribution. These facts lead to a situation in which distribution of Indian trust estates to the heirs and devisees is often needlessly protracted.

The return to a date based on a the date the decision was issued will provide certainly as to when estates can be distributed.

Two comments were received on the proposed change. One comment supported the change. The other comment, received from the Native American Rights Fund in Anchorage, Alaska, noted that receipt of mail is often difficult for Alaska Natives who maintain a traditional life-style and who might consequently lose their appellate rights. The commenter thus suggested that the 60-day appeal period set forth in the proposed regulation be increased to 120 days.

A general rule allowing a 120-day appeal period would unduly delay resolution of most Indian trust estate proceedings. The 60-day period is identical to the period required of Alaska Natives since 1971 to petition for rehearing of Indian probate decisions under 43 CFR 4.241. The Office therefore believes that the 60-day probate appeal period is sufficient.

The Department of the Interior has determined that this document is not a major rule under E.O 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) This determination is based on the fact that the amendment concerns only a simplification of the determination of the time period for filing an appeal in certain administrative cases, and does not affect any substantive rights.

Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The Department of the Interior has determined that the rule does not constitute a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969, *as amended* (42 U.S.C. 4321–4347).

This rule was written by Kathryn Lynn, Office of Hearings and Appeals.

Dated: February 24, 1986.

Ann McLaughlin,

Under Secretary.

Administrative practice and procedure, Indians

PART 4—[AMENDED]

43 CFR Part 4, Subpart D, is amended as follows:

1. The authority citation for Part 4, Subpart D, continues to read as follows:

Authority: Secs. 1, 2, 30 Stat. 855, as amended, 856, as amended, sec. 1, 36 Stat. 586, 42 Stat. 1185, as amended, secs. 1, 2, 56 Stat. 1021, 1022; R.S. 463, 465; 5 U.S.C. 301; 25 U.S.C. secs. 2, 9, 372, 373, 374, 373a, 373b.

2. Sections 4.320 is amended by revising the first sentence of (a) to read as follows:

§ 4.320 Who may appeal; scope of review.

* * * * *

(a) *Notice of Appeal.*—Within 60 days from the date of the decision, an appellant shall file a written notice of appeal signed by appellant, appellant's attorney, or other qualified representative as provided in 43 CFR 1.3, with the Board of Indian Appeals, Office of Hearings and Appeals, U.S.C. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. * * *

BILLING CODE 4310-10-M

43 CFR Part 4

Hearings and Appeals Procedures; Use of Written Interrogatories and Requests for Admission as Discovery Devices in Indian Probate Proceedings

AGENCY: Office of Hearing and Appeals, Interior.

ACTION: Final rule.

SUMMARY: This Office is amending its regulations concerning the use of written interrogatories and requests for admission as discovery devices in Indian probate proceedings. Present regulations require that these devices be ordered by the Administrative Law Judge (Indian Probate). The amendment makes the procedures for using these discovery devices more like the procedures for the production of documents and depositions. It also extends the time for response from 15 days to 30 days from the date of service. This conforms to the Federal Rules of Civil Procedure.

EFFECTIVE DATE: June 18, 1986.

FOR FURTHER INFORMATION CONTACT: Bruce A. Johnson, Deputy Director, Office of Hearings and Appeals, (703) 235–3810.

SUPPLEMENTARY INFORMATION: On November 25, 1985, the Office of Hearings and Appeals published proposed regulations providing for the amendment of regulations concerning the use of written interrogatories and requests for admission as discovery devices in Indian probate proceedings. Current Departmental regulations in 43 CFR 4.222 provide that when parties involved in these proceedings wish to use written interrogatories and requests for admission, the application or request must be filed with the Administrative Law Judge (Indian Probate). The Judge is then responsible for serving the application or request on the party to whom it is addressed. This procedure causes unnecessary delays and is contrary to the procedures set out in 43 CFR 4.220, regarding production of documents, and 43 CFR 4.221, regarding depositions, in which the Judge becomes involved only when a problem develops between the parties.

The proposed amendment would provide that written interrogatories and requests for admission would be served directly upon the party to whom they are addressed, with a copy to the Judge. The Judge's involvement in discovery would be limited to those situations in which problems develop.

Two comments were received concerning the proposed amendment. One comment noted that the potential

for conflict between disputing parties might be intensified by requiring them to attempt to work together. Parties are already required to attempt cooperative use of discovery mechanisms under existing regulations relating to production of documents and depositions. Because the potential for conflict is always present in an adversary setting, the regulations provide for intervention by the Administrative Law Judge (Indian Probate), if necessary. The possibility of increased conflict is not seen as sufficient enough to justify retaining disparate treatment of the various forms of discovery devices.

The second comment generally supports the proposed changes, but suggests that the time for serving cross-interrogatories be changed from 10 to 15 days, which the commenter believed was a more realistic time limit. The 10-day period conforms to the period required under Rule 31(a) of the Federal Rules of Civil Procedure. It is our view that extending the period is not warranted.

The Department of the Interior has determined that this document is not a major rule under E.O. 12291 and certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This determination is based on the fact that the amendment concerns only the way discovery procedures in certain administrative appeals will be handled, and does not affect any substantive rights.

Paperwork Reduction Act

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The Department of the Interior has determined that the rule does not constitute a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969, *as amended* (42 U.S.C. 4321–4347).

This rule was written by Kathryn Lynn, Office of Hearings and Appeals.

Dated: February 24, 1986.

Ann McLaughlin,

Under Secretary.

PART 4—[AMENDED]

43 CFR Part 4, Subpart D, is amended as follows:

1. The authority citation for Part 4, Subpart D, continues to read as follows:

Authority: Secs. 1, 2, 36 Stat. 855, as amended, 858, as amended, sec. 1, 38 Stat. 586, 42 Stat. 1185, as amended, secs. 1, 2, 58 Stat. 1021, 1022; R.S. 463, 465; 5 U.S.C. 301; 25 U.S.C. secs. 2, 9, 372, 373, 374, 373a, 373b.

2. Section 4.222 is revised to read as follows:

§ 4.222 Written interrogatories; admission of facts and documents.

At any time prior to a hearing and in sufficient time to permit answers to be filed before the hearing, a party in interest may serve upon any other party in interest written interrogatories and requests for admission of facts and documents. A copy of such interrogatories and requests shall be filed with the administrative law judge. Such interrogatories and requests for admission shall be drawn with the purpose of defining the issues in dispute between the parties and facilitating the presentation of evidence at the hearing. Answers shall be served upon the party propounding the written interrogatories or requesting the admission of facts and documents within 30 days from the date of service of such interrogatories or requests, or within such other period of time as may be agreed upon by the parties or prescribed by the administrative law judge. A copy of the answer shall be filed with the administrative law judge. Within 10 days after written interrogatories are served upon a party, that party may serve cross-interrogatories for answer by the witness to be interrogated.

DEPARTMENT OF TRANSPORTATION

Maritime Administration

46 CFR Part 307

Establishment of Mandatory Position Reporting System for Vessels

AGENCY: Maritime Administration, Transportation.

ACTION: Final rule.

SUMMARY: This final rule establishes that vessel operators previously required to report separately to the Maritime Administration's mandatory U.S. Merchant Vessel Locator Filing System (USMER), which has been used to collect information on vessel locations for national emergency purposes, now must submit these reports to the Coast Guard's Automated Mutual-Assistance Vessel and Rescue System (AMVER). The Coast Guard will forward this information to MARAD. Currently, certain U.S. and non-U.S. vessel operators report their locations voluntarily to the AMVER System. The Coast Guard uses this information to maintain a plot for search and rescue (SAR) purposes worldwide. Since the existing AMVER Center recently has enhanced its data processing capability, it is now more feasible for the Coast Guard to process reports on vessel locations. Vessel operators that previously were required to file UMMER reports and voluntarily filed AMVER reports will now benefit from having to file only one set of reports with the Coast Guard.

EFFECTIVE DATE: May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. Walter Lockland, Office of Ship Operations, Maritime Administration, Department of Transportation, 400 7th Street, SW., Washington, DC 20590, Telephone (202) 426–5743.

SUPPLEMENTARY INFORMATION: The Maritime Administration (MARAD) established the USMER system in 1975 to enable MARAD to obtain the current locations of U.S.-flag and certain non-U.S. flag ships to facilitate the immediate marshalling of ships for national emergency purposes.

MARAD established the USMER system under authority of section 212(A) of the Merchant Marine Act, 1936, as amended, (46 U.S.C. 1122(a)), which requires operators of vessels in waterborne foreign commerce of the United States to file such reports relating to the use and performance of

vessels as the Secretary of Transportation may determine to be necessary to carry out the purposes of the Act. The system was extended by section 1209(a) of the 1936 Act (46 U.S.C. 1283) to cover foreign flag vessels insured or reinsured under the Government War Risk Insurance Program.

The U.S. Coast Guard, in connection with its SAR responsibility, operates the AMVER system, which receives reports from ships of all nations for the purpose of maintaining ship positions for SAR purposes worldwide. The enhancement of data processing capability at the AMVER Center now makes it feasible to process all position reports. In consideration of this, the Maritime Administrator and the Commandant of the United States Coast Guard have agreed that the USMER and AMVER objectives for U.S. ships should be met by a single reporting system. Separate USMER reports will be suspended. AMVER reports will remain voluntary for foreign ships unless directed otherwise by their governments. The voluntary reports will not be forwarded to MARAD. The Coast Guard will forward to MARAD the USMER information from vessel operators required to report under this part. This change in reporting procedure is not intended to affect vessel reporting requirements under 46 U.S.C. § 2306. MARAD retains its national security and enforcement authority.

Reporting will now be required for all U.S. ships operating in the waterborne foreign commerce of the United States, and foreign-flag vessels insured or reinsured under the Government War Risk Insurance Program, pursuant to 46 U.S.C. 1122(a), 1283. Affected ship operators will be required to file departure, arrival, position and deviation reports. Reporting formats and required data are described in § 307.11.

Prior to this time, operators of U.S. commercial ships had to send separate reports to satisfy the USMER requirement and to be a voluntary participant in AMVER. USMER reports could only be sent to certain Coast Guard and Navy radio stations. Under the new system, the ship operator will have to send only one set of reports to AMVER to satisfy both national security and SAR requirements. Radio operators will be able to select stations from the worldwide AMVER radio network at no charge. These benefits will save shipboard personnel time in preparing and transmitting the reports, thus resulting in cost savings. The Maritime Administration has found that alternatives, such as a satellite tracking or automatic position reporting beacons, while technically feasible, are too costly, and manual collection is inaccurate and not timely enough to accomplish the objectives.

E.O. 12291, Statutory and DOT Requirements

The Maritime Administrator has determined that this regulation is not a major rule as defined in E.O. 12291, but it is significant under DOT regulatory policies and procedures (49 FR 11034; Feb. 26, 1979) because of substantial Department interest. Because the issuance of this rule is necessary for timely support of national emergency-related operations, the Maritime Administrator has determined that there is good cause for exempting this rule from the notice and public procedure requirements of 5 U.S.C. 553 (the Administrative Procedure Act). This rule makes no substantive change in established procedures for the affected shipowners/operators except for a slight decrease in the reporting burden. Therefore, MARAD believes notice and public procedure thereon are impractical, unnecessary, and contrary to the public interest.

Moreover, 5 U.S.C. 553(d) requires that a rule not be made effective in fewer than 30 days except, among other things, where the agency finds good cause. For the reasons specified above in connection with notice and public procedure, the Administrator finds good cause for making this rule effective immediately. Under any circumstances, the rule principally affects ship operators that usually have annual receipts far in excess of the upper limit for qualification as small business entities under existing SBA criteria (13 CFR 121.3). Moreover, it has been determined that the economic impact of this proposal is minimal. Therefore, the Maritime Administrator certifies that it will not exert a significant economic impact on a substantial number of small entities. This rulemaking contains reporting requirements for the collection of information that are being submitted to OMB under control number 2133-[illegible].

List of Subjects in 46 CFR Part 307

Maritime carriers, national emergency, search and rescue.

Accordingly, a new Subchapter F, entitled Position Reporting System is added to 46 CFR, consisting of new Part 307 to read as follows:

Subchapter F—Position Reporting System

PART 307—ESTABLISHMENT OF MANDATORY POSITION REPORTING SYSTEM FOR VESSELS

Sec.

307.1 Purpose.
307.3 Definitions.
307.5 Provisions of General Applicability.
307.7 Information Required in Report.
307.9 When to Report.
307.11 Report Changes.
307.13 Where to Report.
307.15 Release of Information from Reports.
307.17 Distress Messages and Hostile Action Reports.
307.19 Penalties.

Authority: Sections 204(b), 212(A), 1203(a), Merchant Marine Act, 1936, as amended (46 U.S.C. 1114(b), 1122(a), 1283); Pub. L. 97-31; 46 CFR 1.66.

§ 307.1 Purpose.

This Part establishes that operators of U.S.-flag oceangoing vessels in U.S. foreign trade and certain foreign-flag vessels as described in 46 U.S.C. 1283 must report on their locations according to the provisions of this regulation to enhance the safety of vessel operations at sea and provide a contingency for events of national emergency.

§ 307.3 Definitions.

As used in this Part:

(a) "Administrator" means the Maritime Administrator of the Department of Transportation.

(b) "MARAD" means the Maritime Administration, Department of Transportation.

(c) "Coast Guard" means the United States Coast Guard, Department of Transportation.

(d) "AMVER" means the Automated Mutual-Assistance Vessel Rescue System operated by the U.S. Coast Guard as it applies to U.S.-flag ships and certain non-U.S.-flag ships in U.S. foreign commerce under this regulation.

§ 307.5 Provisions of General Applicability.

(a) The following operators must comply with the reporting requirements contained in this Part:

(1) Operators of United States-flag vessels of one thousand gross tons or more, operating in the foreign commerce of the United States.

(2) Operators of foreign-flag vessels of one thousand gross tons, or more, for which an Interim War Risk Insurance Binder has been issued under the provisions of Title XII, Merchant Marine Act, 1936, as amended (46 U.S.C. 1281 *et seq.*).

(b) Operators of other merchant vessels may choose to submit reports

and have voyage information forwarded to MARAD, when approved by the Coast Guard and MARAD. Information voluntarily provided by them will be released by Coast Guard only for safety purposes or to satisfy certain advance notification requirements of 33 CFR Part 160. Requests should be addressed to the Maritime Administration, 400 Seventh Street, SW., Washington, DC 20590, Attn: MAR-742.

§ 307.7 Information Required in Report.

(a) *Types of Reports.* Reports on vessel departure, arrival, position and deviation are required under this part. Sailing plans are optional, and may be sent prior to departure, or may be combined with departure reports.

(b) *Report Content.* Content of each type of required report are specified below. Note that the word "MAREP" must be included in the text of each message if MARAD is to receive the information.

(1) *Sailing Plan Report.* Sailing plan reports, though optional, must contain the following:

(i) Vessel name,
(ii) International Radio Call Sign,
(iii) Intended time of departure,
(iv) Port of departure and latitude/longitude,
(v) Port of destination and latitude/longitude,
(vi) Estimated time of arrival,
(vii) Route information, and
(viii) The keyword "MAREP".

If optional remarks are included, they must follow at the end of the text.

(2) *Departure Report.* Departure reports must contain the following:

(i) Vessel name,
(ii) International Radio Call Sign,
(iii) Time of departure,
(iv) Port of departure,
(v) Latitude and longitude, and
(vi) The keyword "MAREP".

If optional remarks are included, they must follow at the end of the text.

(3) *Position Report.* Position reports must contain the following:

(i) Vessel name,
(ii) International Radio Call Sign,
(iii) Time at reported position,
(iv) Latitude and longitude, and
(v) The keyword "MAREP".

If optional remarks are included, they must follow at the end of the text.

(4) *Deviation Report.* Deviation reports are necessary to report sailing plan changes or other changes and must contain the following:

(i) Vessel name,
(ii) International Radio Call Sign,
(iii) The changes to prior reports, and
(iv) The keyword "MAREP".

If optional remarks are included, they must follow at the end of the text.

(5) *Arrival Report.* Arrival reports must contain the following:

(i) Vessel name,
(ii) International Radio Call Sign,
(iii) Port name,
(iv) Latitude and longitude,
(v) Time of arrival, and
(vi) The keyword "MAREP".

If optional remarks are included, they must follow at the end of the text.

§ 307.9 When to Report.

(a) Operators required to report under this regulation shall send reports during the Radio Officer's normal duty hours.

(b) Operators shall send reports as follows:

(1) Departure Reports must be sent as soon as practicable upon leaving the Port of Departure.

(2) Position Reports must be sent within twenty-four hours of departure, and subsequently, no less frequently that every forty-eight hours until arrival.

(3) Arrival Reports must be sent immediately prior to or upon arrival at the Port of Destination.

(4) Deviation Reports may be sent at the discretion of the vessel operator. Reports may be sent more frequently than the above schedule, as, for example, in heavy weather or under other adverse conditions.

§ 307.11 Report Changes.

The Administrator, through MARAD advisory or special warning, may direct changes in reporting frequency and specify particular information to be included in the comments section of AMVER messages.

§ 307.13 Where to Report.

To ensure that no charge is applied, all AMVER reports must be passed through specified radio stations. Those stations which currently accept AMVER reports and apply no coastal station, ship station, or landline charge are listed in each issue of the "AMVER Bulletin" publication, together with respective International Radio Call Sign, location, frequency bands, and hours of operation. The "AMVER Bulletin" is available for Commander (As), Atlantic Area, U.S. Coast Guard, AMVER Center, Governors Island, New York, NY 10004. Although AMVER reports may be sent through other stations, the Coast Guard cannot reimburse the sender for any charges applied.

§ 307.15 Release of Information from Reports.

(a) The information collected under these instructions will be released to recognized search-and-rescue authorities, to make advance notice to the U.S. Coast Guard of arrival in U.S. ports as required by certain sections of 33 CFR. The information collected will also be forwarded to the MARAD.

(b) AMVER reports will remain voluntary for foreign ships unless otherwise directed by their governments, and will be kept strictly confidential by the U.S. Coast Guard. Information collected from such foreign ships will not be forwarded to MARAD.

(c) any information provided in the remarks line will be stored in AMVER's automatic data processing system for later review. However, no immediate action will be taken, nor will the information be routinely passed to other organizations. The remarks line cannot be used as a substitute for sending information to other search-and-rescue authorities or organizations. However, AMVER will, at the request of other SAR authorities, forward remarks line information to the requesting agencies.

§ 307.17 Distress Messages and Hostile Action Reports.

(a) AWVER reports shall not replace distress messages and hostile action reports prescribed by Chapter 5, Defense Mapping Agency (DMA) Publication 117.

(b) Vessel owners or operators subject to this part shall summarize distress messages or hostile action reports in the comments sections of AMVER reports.

§ 307.19 Penalties.

The owner or operator of a vessel in the waterborne foreign commerce of the United States is subject to a penalty of $50 for each day of failure to file an AMVER report required by this Part. Such penalty shall constitute a lien upon the vessel, and such vessel may be libeled in the district court of the United States in which the vessel may be found.

Dated: May 14, 1986.

By Order of the Maritime Administrator.

Murray A. Bloom,

Acting Secretary, Maritime Administration.

[FR Doc. 86-11211 Filed 5-16-86; 8:45 am]

BILLING CODE 4910-81-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 90

[PR Docket No. 85-273; RM-4902; FCC 86-186]

Relax Restrictions on Certain Frequencies in the Business Radio Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has adopted a Report and Order amending § 90.75 of the rules concerning restrictions on ten pairs of Business Radio Service frequencies in the UHF band. This change will allow these frequencies to be used more effectively.

EFFECTIVE DATE: June 6, 1986.

ADDRESS: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Stuart Overby, Private Radio Bureau, (202) 634–2443.

This is a summary of the Commission's report and order, PR Docket No. 85–273, adopted April 17, 1986, and released April 30, 1986.

The full texts of Commission decisions are available for instpection and copying during normal business hours in the FCC dockets branch (room 230), 1919 M Street, Northwest, Washington, D.C. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, (202) 857–3800, 2100 M Street Northwest, Suite 140, Washington, D.C. 20037.

Summary of Report and Order

1. Since 1968, ten pairs of frequencies in the Business Radio Service have been reserved in 87 urban areas for ground support activities of entities engaged in furnishing commercial air transportation services.

Other Business Radio Service eligibles have been allowed to use these frequencies 75 or more miles outside the airports serving those areas. Also, low power (2 watts or less) stations have been allowed to operate 5 or more miles from those airports. In response to a Petition for Rule Making filed by the National Association of Business and Educational Radio, Inc. (NABER) on August 27, 1985, the FCC adopted a *Notice of Proposed Rule Making (Notice)*, PR Docket No. 85–273, 50 FR 37875 (September 18, 1985), that proposed to reduce the mileage restriction from 75 to 50 miles. The *Notice* proposed to authorize new operations on a non-interference basis with respect to co-channel facilities of commercial air transportation carriers located at the airports in the 87 urban areas. The intent of the proposal was to allow additional use of these frequencies by Business Radio Service eligibles in certain areas while maintaining adequate protection for ground support communications of commercial airline operations. Also, to avoid delays in applications processing, the FCC proposed to include a list of the protected airports and their reference coordinates in the rules.

2. By this *Report and Order*, the FCC has amended its rules essentially as proposed. The rules have been amended to specify which airport facilities are protected, and the reference coordinates for those airports. In response to the comments, the FCC has also added ten new airports to the list of protected facilities. Existing Business Radio stations located around the newly protected facilities may continue operation as currently authorized. The existing limitations on use of these frequencies for low power Business Radio Service operations have also been modified. Previously, such operations were allowed to locate 5 or more miles from a protected airport's *boundary*. The rules have been modified to allow new low power operations 10 or more miles from a protected airport's *reference coordinates*. Existing low power stations may continue operation as currently authorized. The amended rules specify that all Business Radio Service operations are authorized on a non-interference basis with respect to protected air terminal communications facilities.

3. The frequency pairs subject to these rule changes are: 460.650/465.650, 460.675/465.675, 460.700/465.700, 460.725/465.725, 460.750/465.750, 460.775/465.775, 460.800/465.800, 460.825/465.825, 460.850/465.850, 460.875/465.875 MHz.

4. Pursuant to the Regulatory Flexibility Act of 1980, 5 U.S.C. 604, a final regulatory flexibility analysis has been prepared. It is available for public viewing as part of the full text of this decision.

5. The decision contained herein has been analyzed with respect to the Paperwork Reduction Act of 1980 and found to contain no new or modified form, information collection and/or recordkeeping, labeling, disclosure or record retention requirements, and will not increase or decrease burden hours imposed on the public.

Ordering clause

6. Accordingly, it is Ordered, effective June 6, 1986, that Part 90 of the Commission's Rules (47 CFR Part 90 is amended as set forth below. The authority for this action is found in sections 4(i), 303(c), 303(f), 303(r), and 331 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(c), 303(f), 303(r), and 332.

List of Subjects in 47 CFR Part 90

Business radio service, Frequencies, Private land mobile radio services, Radio.

Federal Communications Commission.
William J. Tricarico,
Secretary.

Part 90 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

PART 90—PRIVATE LAND MOBILE RADIO SERVICES

7. The authority citation for Part 90 continues to read:

Authority: Sections 4, 303, 48 Stat., as amended, 1066, 1082; U.S.C. 154, 303, unless otherwise noted.

8. Section 90.75 is amended by revising paragraph (c)(15), by revising the introductory text, removing the undesignated paragraph following (c)(25)(vi), revising paragraph (c)(25)(vi), and by adding new paragraphs (c)(25) (vii) and (viii) as follows:

§ 90.75 Business radio service.

* * * * *

(c) * * *

(15) Operation on this frequency in connection with the servicing and supplying of aircraft is limited to a maximum output power of 20 watts.

* * * * *

(25) Except as noted in subparagraph (vii), this frequency is available for assignment to stations located on or near airports listed in subparagraph (viii) below and may be assigned only to persons engaged in furnishing commercial air transportation service, or to a corporation or association for the purpose of furnishing radio communications service to persons so engaged in accordance with the shared use provisions of § 90.179 of the rules. Stations on this frequency may be used only in connection with the servicing and supplying of aircraft at the listed airports. Common frequency signal boosters may be employed in accordance with the following criteria:

* * * * *

(vi) If signal boosters are to be used in conjunction with other facilities, the number of such boosters must be stated on the license application.

(vii) This frequency is available for assignment to stations in the Business Radio Service for use at locations removed by 80 or more km (50 or more mi.) from the reference coordinates of the airports listed below at a maximum effective radiated power (ERP) of 300 watts. This frequency may also be

assigned to low power (2 watts or less transmitter output power) stations in the Business Radio Service for use in areas removed by 16 or more km (10 or more mi.) from the reference coordinates of airports listed below. All such low power use is restricted to the confines of an industrial complex or manufacturing yard area. Business Radio Service stations first licensed prior to April 17, 1986 may continue to operate with facilities authorized as of that date. All Business Radio Service stations on this frequency may operate only on a non-interference basis to the co-channel facilities of air carriers located on or near the airports specified below.

(viii) The airports and their respective reference coordinates are:

City and airport	Reference coordinates	
	Latitude	Longitude
Akron, OH:		
Akron-Canton Regional (CAK).	40°52'01" N	81°26'39" W

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1144

[Ex Parte No. 445 (Sub-N 1)]

Intramodal Rail Competition

AGENCY: Interatate Commerce Commission.

ACTION: Correction of final rules.

SUMMARY: On November 6, 1985, the Commission published final rules at 50 FR 46066 to govern the handling of certain competitive access issues. That notice contained an inadvertent error in new § 1144.1 which this notice corrects.

DATES: This correction is effective on publication in the **Federal Register**, May 19, 1986.

FOR FURTHER INFORMATION CONTACT: Louis E. Gitomer, (202) 275–7245.

SUPPLEMENTARY INFORMATION: At 49 FR 46067, November 6, 1985, § 1144.1(b)(3) contains an error in the last sentence, which is corrected as follows:

§ 1144.1 Notification, explanation, and justification.

* * * * *

(b) * * *

(3) * * * The 49 CFR Part 1132 time periods for protests and replies apply.

* * * * *

Decided: May 6, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

James H. Bayne,

Secretary.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Parts 611 and 675

[Docket No. 51180–5180]

Fishery Conservation and Management; Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of final initial specifications and in-season adjustments.

SUMMARY: NOAA announces the final initial specifications for 1986 and apportionment of amounts of Alaska groundfish to the domestic annual harvest (DAH) under provisions of the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) and its implementing regulations. The intent of this action is to assure optimum use of these groundfish by allowing the domestic and foreign fisheries to proceed without interruption.

EFFECTIVE DATE: MAy 14, 1986.

FOR FURTHER INFORMATION CONTACT: Janet Smoker (Resource Management Specialist, NMFS), 907–586–7229.

SUPPLEMENTARY INFORMATION:

Background

The total allowable catches (TACs) for various groundfish species are established under the FMP, which was developed by the North Pacific Fishery Management Council (Council) under the Magnuson Fishery Conservation and Management Act, and which is implemented by rules appearing at 50 CFR 611.93 and Part 675. The TACs are apportioned initially among DAH, reserves, and the total allowable level of foreign fishing (TALFF). Each reserve amount, in turn, is to be apportioned to DAH and/or TALFF during the fishing year, under §§ 611.93(b) and 675.20(b).

Interim initial specifications for 1986 were announced in the **Federal Register** on January 9, 1986 (51 FR 956) and public comments were invited. No comments on the specifications were received.

Therefore, the initial specifications as announced are hereby made final for 1986.

As soon as practicable after April 1, June 1, and August 1, or on other dates as are deemed necessary, the Secretary of Commerce apportions to DAH all or part of the reserve that he finds will be harvested by U.S. vessels during the remainder of the year, and apportions to TALFF the remaining portion of the reserve that will not be apportioned to DAH. When the interim initial specifications for 1986 were announced (51 FR 956, January 9, 1986), DAH and TALFF were supplemented with 29,857 metric tons (mt) from the initial 300,000-mt reserve, thereby reducing it to 270,143 mt. In April, DAH and TALFF were supplemented by an additional 135,072 mt from the reserve, reducing it to 135,071 (51 CFR 16058, April 30, 1986). This action supplements DAH with 500 mt from the reserve.

Apportionments to DAH

In the Bering Sea, the catch of sablefish intended for domestic processing (DAP), a component of DAH, has reached 1,760 mt, only 66 mt short of the current DAP apportionment of 1,826 mt. During the first 2 months of 1986, domestic catches of sablefish in the Bering Sea exceeded 140 mt per week. Those catches included target fisheries on sablefish by three catcher-processor trawlers, three longliners, and three pot vessels. During March and April, average weekly catches dropped to about 55 mt. Although total effort remained about the same, there were far fewer instances of trawlers reporting large sablefish catches. In order to provide for continued DAP catches of sablefish at current levels of catch and effort until the June Council meeting, when the situation will be reassessed, 500 mt of the non-specific reserve is apportioned to the Bering Sea sablefish allocation for DAP, thus increasing it to 2,326 mt.

At its March meeting, the Council indicated its support for increasing the sablefish TAC for the Bering Sea to allow continued DAP fishing as long as the TAC did not exceed the current equilibrium yield of 3,000 mt. This action also increases the TAC from 2,250 mt to 2,667 mt. These changes are reflected in Table 1.

TABLE 1—BERING SEA/ALEUTIANS REAPPORTIONMENTS OF TAC DAH = DAP + JVP

[figures are in metric tons]

		Current	This action	Revised
Sablefish (Bering Sea Area only). Equilibrium yield = 3,000.	TAC	2,250	+417	2,667
	DAP	1,826	+500	2,326
	JVP	348		346
	TALFF	95		95
Totals (TAC = 2,000,000)	DAP	325,090	+500	325,590
	JVP	1,048,383		1,048,383
	RES	135,071	−500	134,571
	TALFF	491,447		491,447

Comments and Responses

In accordance with §§ 611.93(b) and 675.20(b), aggregated reports of U.S. catches of Alaska groundfish and the processing of those groundfish were available for public inspection to facilitate informed public comment. In addition, those provisions afforded the public an opportunity to submit comments on the extent to which U.S. fishermen will harvest and the extent to which U.S. processors will process Alaska groundfish. No comments were received.

Classification

This action is taken under §§ 611.93(b) and 675.20(b), and complies with Executive Order 12291.

In view of the notice provided in the authorizing regulations regarding the dates after which apportionment of reserves and reassessment of DAH are to occur, together with the need to avoid disruption of U.S. and foreign fisheries and to afford a reasonable opportunity to achieve OY, the Agency has determined that providing further opportunity for public comment and delaying the effective date of this notice would be impracticable, unnecessary, and contrary to the public interest.

List of Subjects in 50 CFR Parts 611 and 675

Fisheries.

(16 U.S.C. 1801 *et seq.*)

Dated: May 13, 1986.

Joseph W. Angelovic,

BILLING CODE 3510-22-M

Proposed Rules

Federal Register
Vol. 51, No. 96
Monday, May 19, 1986

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

1 CFR Ch. III

Nonlawyer Representation; Meeting on Proposed Recommendation

AGENCY: Committee on Regulation; ACUS.

ACTION: Meeting to review comments and to vote on proposed recommendation.

SUMMARY: The Administrative Conference Committee on Regulation is considering a tentative recommendation on the subject of "elimination of barriers to representation by nonlawyers". This topic relates to representation by persons other than lawyers of other persons who have business with "mass justice agencies" (as that term is defined in the recommendation). The Committee will meet on May 22, 1986, to review public comments on the recommendation, and to decide whether to forward the recommendation to the full Administrative Conference for consideration at the Conference's June 19–20 plenary session.

DATE: May 22, 1986, at 9:30 a.m.

ADDRESS: 2120 L Street NW., Washington, DC. Hearing Room #1, Lower Level Floor.

Public participation: Attendance at the meeting is open to the public, but limited to the space available. Persons wishing to attend should notify the contact person at least one day in advance. The committee chairman may permit members of the public to make oral statements at the meeting. Written statements may be submitted to the committee at any time. Minutes of the meeting will be available on request.

FOR FURTHER INFORMATION CONTACT: William C. Bush, Administrative Conference of the United States, 2120 L Street NW., Suite 500, Washington, DC 20037; telephone (202) 254–7020.

SUPPLEMENTARY INFORMATION: The Committee on Regulation is working toward development of a recommendation concerning prepresentation by nonlawyers of persons having business with mass justice (e.g., Social Security) agencies. At its meeting on March 20, 1986, the Committee gave tentative approval to a draft recommendation captioned "Elimination of Barriers to Representation by Nonlawyers".

The Committee requested comments on the tentative recommendation by Federal Register notice on April 10, 1986 (51 FR 12332). The comment period expired on May 7, 1986. The Committee will meet on May 22, 1986, to review the comments and to decide whether, and in what form, to forward its recommendation to the full Administrative Conference. The Committee will, to the extent feasible, consider any additional comments received prior to the May 22 meeting.

The Committee's tentative recommendation is based largely on a report by our consultant Zona Hostetler. Copies of Ms. Hostetler's report, *Nonlawyer Assistance to Individuals in Federal Mass Justice Agencies: The Need for Improved Guidelines*, are available on request.

Dated: May 12, 1986.

Richard K. Berg,
General Counsel.

BILLING CODE 6110–01–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket Number 85–ANE–46]

Airworthiness Directives; Pratt & Whitney (PW) JT8D –1, –1A, –1B, –7, –7A, –7B, –9, –9A, –11, –15, –15A, –17, –17A, –17R, and –17AR Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking [NPRM].

SUMMARY: This notice proposes to amend an existing airworthiness directive (AD) to require eddy current inspection and subsequent replacement of stage 8–9 high pressure compressor (HPC) removable sleeve spacers with the HPC integral sleeve spacer design on certain PW JT8D engines. This NPRM would amend Final Rule AD 86–06–04, Amendment 39–5287, which requires eddy current inspection of stages 7–8 and 9–10 HPC removable sleeve spacers, and subsequent replacement of all HPC spacers with the integral sleeve design. The FAA has determined that the spacer stage 8–9 HPC is subject to the same stress levels and environment as the stage 7–8 HPC spacer, and should therefore be addressed in like manner. This NPRM is needed to prevent failure of stage 8–9 HPC removable sleeve spacers which could result in in-flight engine shutdowns, engine cowl penetrations and airframe damage.

DATES: Comments must be received on or before July 9, 1986.

ADDRESSES: Comments on the proposal may be mailed in duplicate to: Office of the Regional Counsel, Attn: Rules Docket Number 85–ANE–46, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, or delivered in duplicate to the above address, to Room 311. Comments delivered must be marked: Docket Number 85–ANE–46.

Comments may be inspected at Room 311 between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Jim Jones, Engine Certification Branch, ANE–141, Engine Certification Office, Aircraft Certification Division, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803, telephone (617) 273–7121.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Director before taking action on the proposed rule. The proposal contained in this notice may be

BEST COPY AVAILABLE

changed in the light of comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket, at the address given above, for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket Number 85-ANE-40." The postcard will be date/time stamped and returned to the commenter.

This notice proposes to amend Final Rule AD 86-06-04, Amendment 39-5287, (51 FR 12690), by adding stage 8-9 HPC removable sleeve spacers to the eddy current inspection requirements. On April 4, 1986, Amendment 39-5287 was issued requiring eddy current inspection of stages 7-8 and 9-10 HPC removable sleeve spacers, and subsequent replacement of all HPC spacers stages with the integral sleeve design on certain PW JT8D engines. Following issuance of the AD, the FAA determined that the stage 8-9 is subject to the same stress levels and environment as stage 7-8. The potential energy of the stage 8-9 spacer, imparted by the rotational velocity of the HPC rotor, is comparable to the stage 7-8 spacer. Also, analysis of the containment capability of the surrounding cases does not indicate that a stage 8-9 spacer failure is any more likely to be contained than a stage 7-8 or 9-10 spacer failure. There have been four fractures of stage 8-9, none of which penetrated the engine cowls.

Since this condition is likely to exist or develop on other engines of the same design, this notice proposes to amend Final Rule AD 86-06-04, Amendment 39-5287, (51 FR 12690), to additionally require one time, eddy current inspection of stage 8-9 HPC removable sleeve spacers in accordance with PW ASB 5648, dated January 15, 1986. The proposed amendment would also add the requirement to replace the stage 8-9 HPC removable sleeve spacers with the integral sleeve spacers at the next rotor disassembly but not to exceed 2 years or 4,000 flight cycles, whichever occurs later.

Conclusion

The FAA has determined that this proposed regulation involves approximately 1,840 engines (domestic fleet) at an approximate additional cost of 0.7 million dollars. It has been determined that few if any, small entities within the meaning of the Regulatory Flexibility Act will be affected since the rule affects only operators using aircraft in which JT8D engines are installed, none of which are believed to be small entities. Therefore, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified under the caption "FOR FURTHER INFORMATION CONTACT".

The Proposed Amendment

PART 39—[AMENDED]

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 39 of the Federal Aviation Regulations as follows:

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.85.

2. By amending § 39.13, Amendment 39-5287, Airworthiness Directive (AD) 86-06-04, (51 FR 12690), as follows:

(a) Amend the second paragraph following the applicability statement and compliance paragraphs (a) and (b) by inserting a comma and then "8-9" between "7-8" and "and 9-10".

(b) Amend compliance Paragraph (c) by removing "8-9,".

(c) Revise the effectivity statement at the conclusion of the amendment to read "The provisions of this amendment applicable to the stage 8-9 spacer become effective on (the effective date of the amendment). The remaining provisions of this amendment applicable to stages 7-8 and 9-10 spacers are effective on May 27, 1986."

Issued in Burlington, Massachusetts, on May 8, 1986.

Robert E. Whittington,

Director, New England Region.

BILLING CODE 4910-13-M

14 CFR Part 73

[Airspace Docket No. 86-AWA-25]

Proposed Alteration of Restricted Area R-6601, Fort A.P. Hill, VA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the times of use of Restricted Area R-6601, Fort A.P. Hill, VA. The Department of the Army has stated that the current published time of designation is inadequate to meet their requirements and necessitates nearly continuous Notices to Airmen (NOTAMs) to permit regular daily operations during the months of March, April, October and November.

DATES: Comments must be received on or before July 7, 1986.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA, Eastern Region, Attention: Manager, Air Traffic Division, Docket No. 86-AWA-25, Federal Aviation Administration, JFK International Airport, The Fitzgerald Federal Building, Jamaica, NY 11430.

The official docket may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, DC.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Aeronautical Information Requirements Branch (ATO-240), Airspace—Rules and Aeronautical Information Division, Air Traffic Operations Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 426-3128.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the

airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 86-AWA-25." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in the notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comment. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list of future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to Part 73 of the Federal Aviation Regulations (14 CFR Part 73) to increase the time of designation for Restricted Area R-6601, Fort A.P. Hill, VA, by adding the months of March, April, October and November to the period published for regular daily use. The present time of designation does not meet the Department of the Army's daily requirements for R-6601 during those months, necessitating nearly continuous NOTAM's to permit regular operations in March, April, October and November. The proposal would adjust the published times to reflect actual restricted area use and would enhance aviation safety by more accurately depicting this information on appropriate aeronautical charts. During the period December 1 through February 28/29, the restricted area would continue to be activated, when needed, through NOTAM action. Section 73.66 of Part 73 of the Federal Aviation Regulations was republished in Handbook 7400.6B dated January 2, 1986.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Aviation safety, Restricted areas.

The Proposed Amendment

PART 73—[AMENDED]

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as follows:

1. The authority citation for Part 73 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510, 1522; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

2. Section 73.66 is amended as follows:

R-6601 Fort A.P. Hill, VA—[Amended]

By removing the words "0700 to 2300 EST, June 1 through September 8; and 0700 to 2300 EST, September 9 through May 31, by NOTAM issued at least 48 hours in advance." and substituting the words "0700 to 2300 local time daily, March 1 through November 30; and 0700 to 2300 local time, December 1 through February 28/29 when activated by NOTAM at least 48 hours in advance."

Issued in Washington, DC, on May 12, 1986.

Daniel J. Peterson,

Manager, Airspace—Rules and Aeronautical Information Division.

BILLING CODE 4910-13-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1952

[Docket No. T-020]

Indiana State Plan; Eligibility for Final Approval Determination; Comment Period and Opportunity To Request Public Hearing

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Proposed final State plan approval; request for written comments; notice of opportunity to request informal public hearing.

SUMMARY: This document gives notice of the eligibility of the Indiana State occupational safety and health plan, as administered by the Indiana Department of Labor, for a determination under section 18(e) of the Occupational Safety and Health Act of 1970 as to whether final approval of the plan should be granted.

If an affirmative determination under section 18(e) is made, Federal standards and enforcement authority will no longer apply to issues covered by the Indiana plan. This notice also announces that OSHA is soliciting written public comment to afford interested persons an opportunity to present their views regarding whether or not the final State plan approval should be granted, and that interested persons may request an informal public hearing on the question of final State plan approval.

DATES: Written comments or requests for a hearing must be received by June 23, 1986.

ADDRESS: Written comments or requests for a hearing should be submitted, in quadruplicate, to the Docket Officer, Docket No. T-020, Room N3670, 200 Constitution Avenue NW., Washington, DC 20210, (202) 523-7894.

FOR FURTHER INFORMATION CONTACT: James Foster, Director, Office of Information and Consumer Affairs, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3637, 200 Constitution Avenue NW., Washington, DC 20210, (202) 523-8148.

SUPPLEMENTARY INFORMATION:

Background

Section 18 of the Occupational Safety and Health Act of 1970, 29 U.S.C. 651 *et seq.* (the "Act"), provides that States which desire to assume responsibility

for the development and enforcement of occupational safety and health standards may do so by submitting, and obtaining Federal approval of, a State plan. Procedures for State plan submission and approval are set forth in regulations at 29 CFR Part 1902. If the Assistant Secretary, applying the criteria set forth in section 18(c) of the Act and 29 CFR 1902.3 and 1902.4, finds that the plan provides or will provide for State standards and enforcement which are "at least as effective" as Federal standards and enforcement, "initial approval" is granted. A State may commence operations under its plan after this determination is made, but the Assistant Secretary retains discretionary Federal enforcement authority during the initial-approval period as provided by section 18(e) of the Act. A State plan may receive initial approval even though, upon submission, it does not fully meet the criteria set forth in §§ 1902.3 and 1902.4 if it includes satisfactory assurances by the State that it will take the necessary "developmental steps" to meet the criteria within a 3-year period (29 CFR 1902.2(b)). The Assistant Secretary publishes a "certification of completion of developmental steps" when all of a State's developmental commitments have been met (29 CFR 1902.34).

When a State plan that has been granted initial approval is developed sufficiently to warrant a suspension of concurrent Federal enforcement activity, it becomes eligible to enter into an "operational status agreement" with OSHA (29 CFR 1954.3(f)). A State must have enacted its enabling legislation, promulgated State standards, achieved an adequate level of qualified personnel, and established a system for review of contested enforcement actions. Under these voluntary agreements, concurrent Federal enforcement will not be initiated with regard to Federal occupational safety and health standards in those issues covered by the State plan, where the State program is providing an acceptable level of protection.

Following the initial approval of a complete plan, or the certification of a developmental plan, the Assistant Secretary must monitor and evaluate actual operations under the plan for a period of at least one year to determine, on the basis of actual operations under the plan, whether the criteria set forth in section 18(c) of the Act and 29 CFR 1902.37 are being applied. An affirmative determination under section 18(e) of the Act (usually referred to as "final approval" of the State plan) results in the withdrawal of Federal standards authority and enforcement jurisdiction in the State with respect to occupational safety and health issues covered by the plan (29 U.S.C. 667(e)). Procedures for 18(e) determinations are found at 29 CFR Part 1902, Subpart D.

In general, in order to be granted final approval, actual performance by the State must be "at least as effective" overall as the Federal OSHA program in all areas covered under the State plan. An additional requirement for final approval consideration is that a State must meet the compliance staffing levels, or benchmarks, for safety inspectors and industrial hygienists established by OSHA for that State. This requirement stems from a 1978 Court Order by the U.S. District Court for the District of Columbia (*AFL–CIO* v. *Marshall*, C.A. No. 74–406), pursuant to a U.S. Court of Appeals decision, that directed the Assistant Secretary to calculate for each State plan State the number of enforcement personnel needed to assure a "fully effective" enforcement program. A final requirement for final approval consideration is that a State must participate in OSHA's Integrated Management Information System (IMIS). This is required so that OSHA can obtain the detailed program performance data on a State necessary to make an objective evaluation of whether the State performance meets the statutory and regulatory criteria for final approval.

History of the Indiana Plan and its Compliance Staffing Benchmarks

Indiana Plan

On December 21, 1972, Indiana submitted an occupational safety and health plan in accordance with section 18(b) of the Act and 29 CFR Part 1902, Subpart C, and on April 23, 1973, a notice was published in the **Federal Register** (38 FR 10049) concerning the submission of the plan, announcing that initial Federal approval of the plan was at issue and offering interested persons an opportunity to submit data, views and arguments in writing and to request an informal hearing concerning the plan.

Comments in response to the April 23, 1972, **Federal Register** notice were received from: The American Federation of Labor and Congress of Industrial Organizations Standing Committee on Safety and Occupational Health; Indiana State AFL–CIO; Lake and Porter Counties AFL-CIO; United Steelworkers of America, Local 1066; United Steelworkers of America, Local 1014; United Steelworkers of America, Local 6787; Allied Industrial Workers of America; AFL-CIO District 31, Local 3008; United Auto Workers, Local 1122; Hoosier Air Transport, Local Lodge 2294; International Association of Machinists, Lincoln Lodge 209; Oil, Chemical and Atomic Workers, Local 7–1; the Indiana Chamber of Commerce; the Indiana Manufacturers Association; United States Steel Corporation; and, Miles Laboratories. In addition to the comments, an informal hearing was requested. In response to these comments and questions raised by OSHA, Indiana made many significant modifications to the plan.

Consequently, the Assistant Secretary found it appropriate to afford an additional opportunity for public comment on the modifications to the plan (38 FR 26837; September 26, 1973). Comments on the plan's modifications were received from: The AFL-CIO Standing Committee on Safety and Occupational Health; the Indiana State AFL-CIO; Lake and Porter Counties AFL-CIO; United Steelworkers of America, Local 1066; United Steelworkers of America Safety and Health Department; United Steelworkers of America Steelworkers of America District 31, Subdistrict 2; Allied Industrial Workers of America; the United Paperworkers International Union; Indiana Chamber of Commerce; the Indiana Manufacturers Association; AMOS Inc.; and, the Migrant Legal Reform and Rural Development Project. Requests for an informal hearing were made by: the AFL-CIO Standing Committee on Safety and Occupational Health; the Indiana State AFL-CIO; and, the Allied Industrial Workers of America.

In further response to expressed concerns, the Governor submitted a letter of assurance to the Assistant Secretary indicating that the State's supplemental operating budget, containing an additional appropriation for the Division of Labor, would be introduced in the 1974 Indiana General Assembly. The supplemental budget, as passed in 1974, ensured an increase of 34 State inspectors under the plan, thus raising the total number of inspectors to 69 during the first year of operation.

As there were no significant objections which were outstanding to the plan, as amended, all requests for a public hearing were denied. None of the questions raised in the public comments were of such a such a nature to require a hearing.

On March 6, 1974, the Assistant Secretary published a notice granting initial approval of the Indiana plan as a developmental plan under section 18(b) of the Act (39 FR 8611). The plan provides for a program patterned in

most respects after that of the Federal Occupational Safety and Health Administration.

The plan covers all issues except private-sector maritime employment and private sector hazardous waste disposal facilities designated as Superfund sites. The Indiana Department of Labor is designated as having responsibility for administering the plan throughout the State. The day-to-day operations of the plan are directed by the Administrator of Indiana OSHA (IOSHA). The plan provides for the adoption by Indiana of all Federal occupational safety and health standards contained in 29 CFR Parts 1910, 1926, and 1928, and the legislation provides for the adoption of future Federal standards after public hearing. The plan requires employers to furnish employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm, and to comply with all occupational safety and health standards promulgated by the agency. Employee are required to comply with all standards and regulations applicable to their conduct. The plan contains provisions similar to Federal procedures governing emergency temporary standards; imminent danger proceedings; variances; safeguards to protect trade secrets; protection of employees against discrimination for exercising their rights under the plan; and employer and employee rights to participate in inspection and review proceedings. Appeals of citations and penalties are heard by the Indiana Board of Safety Review. Decisions of the Indiana Board of Safety Review may be appealed to the appropriate State District Court.

The notice of initial approval noted a few distinctions between the Federal and Indiana program. The review system for contested enforcement actions is two tiered in that (1) contests result in automatic informal review by the Commissioner of Labor with (2) further contest and review by the Review Board. The State public sector plan provides for an employer's self-inspection program. The public-sector self-inspection program was subsequently limited by IOSHA to those agencies employing a full-time, professional Safety Director; and in those agencies, IOSHA will conduct general schedule inspections, monitoring visits, investigations of fatalities and catastrophes, as well as respond to employee complaints where the employee is dissatisfied with the Safety Director's handling of his or her complaint. Monetary penalties are not included in the public sector plan.

The Assistant Secretary's initial approval of Indiana's developmental plan, a general description of the plan, a schedule of required developmental steps, and a provision for discretionary concurrent Federal enforcement during the period of initial approval were codified in the Code of Federal Regulations (29 CFR Part 1952, Subpart Z; 39 FR 8611 (March 6, 1974)).

In accordance with the State's developmental schedule, all major structural components of the plan were put in place and submitted for OSHA approval during the developmental period ending February 25, 1977. These "developmental steps" included submission of a State poster; amendments to the Indiana Occupational Safety and Health Act; submission of documentation outlining training and refresher courses for State compliance staff; submission of documentation showing that Indiana had substantially met its initial compliance staffing commitments by providing for 14 health and 70 safety compliance officers; development of an occupational safety and health program for public employees and revision thereto with implementing regulations; promulgation of rules for on-site consultation; submission of a compliance operations manual and a revised Industrial Hygiene manual; promulgation of regulations for inspections, safety orders, and proposed penalties parallel to 29 CFR Part 1903; promulgation of regulations for recordkeeping and reporting of occupational injuries and illnesses parallel to 29 CFR Part 1904, including revised recordkeeping and reporting provisions for the public sector; promulgation of rules for variances, limitations, variations, tolerances, and exemptions, parallel to 29 CFR Part 1905; adoption of rules of procedure for the Board of Safety and Review; deletion of coverage of the maritime and longshoring issues from its plan; and submission of documentation on establishment of a Management Information System.

These submissions were carefully reviewed by OSHA; after opportunity for public comment and modification of State submissions, where appropriate, the major plan element were approved by the Assistant Secretary as meeting the criteria of section 18 of the Act and 29 CFR 1902.3 and 1902.4. The Indiana subpart of 29 CFR Part was amended to reflect each of these approval determinations (see 29 CFR 1952.324).

On September 24, 1981, in accordance with procedures at 29 CFR 1902.34 and 1902.35, the Assistant Secretary certified that Indiana has satisfactorily completed all developmental steps (46 FR 49120). In certifying the plan, the Assistant Secretary found the structural features of the program—the statute, standards, regulations, and written procedures for administering the Indiana plan—to be at least as effective as corresponding Federal provisions. Certification does not, however, entail findings or conclusions by OSHA concerning adequacy of actual plan performance. As has already been noted, OSHA regulations provide that certification initiates a period of evaluation and monitoring of State activity to determine in accordance with section 18(e) of the Act whether the statutory and regulatory criteria for State plans are being applied in actual operations under the plan and whether final approval should be granted.

On December 23, 1977, OSHA published notice in the **Federal Register** (42 FR 64464) requesting public comment on a petition the Agency received requesting withdrawal of OSHA approval of the State plan. The petition was submitted by the President of the Indiana State AFL–CIO and the AFL–CIO Standing Committee on Occupational Safety and Health. The United Steelworkers of America subsequently joined the AFL–CIO in its petition. The petition alleged a failure by the State to adopt required provisions by statute or regulation, a lack of compliance with substantial provisions of the plan, deficiencies in performance as compared with Federal OSHA, and, particularly, a failure to provide an adequate health program.

OSHA's initial consideration of the petition and the agency's investigation of the allegations resulted in the January 16, 1981, publication of a notice of initiation of plan withdrawal proceeding and of a 30-day period for State response to the issues (46 FR 3919). However, based on a reconsideration of OSHA's investigation findings and a determination that the evidence therein was out-dated and did not reflect current State performance, as well as on a substantial increase by the State in the number of health compliance staff, the agency published notice of March 27, 1981 (46 FR 19000), of its decision to withdraw the complaint initiating the withdrawal of the Indiana State plan.

Although OSHA has not previously entered into an operational status agreement with Indiana, in 1981 OSHA determined that such agreements should be concluded with all qualified States.

Thus, a Federal Register notice was published on June 11, 1982 (47 FR 25324), announcing that an operational status agreement has been signed on May 18, 1981, for Indiana. Under the terms of that agreement, OSHA voluntarily suspended the application of concurrent Federal enforcement authority with regard to Federal occupational safety and health standards in all issues covered by the Indiana plan.

On October 6, 1981, OSHA published notice (46 FR 49116) of its approval of amendments to the Indiana Occupational Safety and Health Act (IOSHA Act) which were enacted subsequent to initial approval. These amendments included provision of specific authority for an on-site consultation program, broadening of the definition of the term "employment" to include certain non-paid employees, provision that the Commissioner of Labor or his designee may enter without delay to inspect places of employment, requirement that inspectors consult with a reasonable number of employees where there is no authorized employee representative, and requirement for issuance of a failure to correct notice where a previously cited standard violation has not been abated. An additional amendment to the IOSHA Act was signed by the Governor in 1983 providing that IOSHA may not adopt or enforce provisions more stringent than corresponding Federal provisions.

Indiana Benchmarks

Under the terms of a 1978 Court Order in *AFL-CIO* v. *Marshall*, compliance staffing levels (benchmarks) necessary for a "fully effective" enforcement program were required to be established for each State operating an approved State plan. In 1980, in response to the Court Order, OSHA established benchmarks for all approved State plans, including benchmarks of 81 safety and 140 health compliance officers for Indiana. The 1978 Court Order noted that new information might warrant an adjustment by OSHA of the fully effective benchmarks. In September 1984 Indiana, in conjunction with OSHA, completed a reassessment of the levels initially established in 1980 and proposed revised compliance staffing benchmarks of 47 safety and 23 health compliance officers. After opportunity for public comment and service on the AFL-CIO, the Assistant Secretary approved these revised staffing requirements on January 17, 1986 (51 FR 2481).

Determination of Eligibility

This Federal Register notice announces the eligibility of the Indiana plan for an 18(e) determination. (29 CFR 1902.39(c) requires that this preliminary determination of eligibility be made before 18(e) procedures begin.) The determination of eligibility is based upon OSHA's findings that:

(1) The Indiana plan has been monitored in actual operation for at least one year following certification. The results of OSHA monitoring of the plan since the commencement of plan operations are contained in written evaluation reports which are prepared annually and made available to the State and to the public. The results of OSHA's most recent post-certification monitoring during the period from March 1984 through December 1985 are set forth in an 18(e) *Evaluation Report* of the Indiana Plan, which together with all other post-certification reports has been made part of the record of the present proceedings.

(2) The plan meets the State's revised benchmarks for enforcement staffing. In January 1986, pursuant to the terms of the Court Order and the 1980 *Report to the Court* in *AFL-CIO v. Marshall*, OSHA approved revised fully effective benchmarks of 47 safety and 23 health compliance officers for Indiana, based on an assessment of State-specific characteristics and historical experience. Indiana has allocated these positions, as evidenced by the FY 1986 *Application for Federal Assistance* (and amendment thereto) in which the State has committed itself to funding the State share of salaries for 47 safety inspectors adn 23 health compliance officers. The FY 1986 application has been made part of the record in the present proceedings.

(3) Indiana participates and has assured its continued participation in the Integrated Management Information System (IMIS) developed by OSHA.

Issues for Determination in the 18(e) Proceedings

The Indiana plan is not at issue before the Assistant Secretary for determination as to whether the criteria of section 18(c) of the Act are being applied in actual operation. 29 CFR 1902.37(a) requires the Assistant Secretary, as part of the final approval process, to determine if the State has applied and implemented all the specific criteria and indices of effectiveness of §§ 1902.3 and 1902.4. The Assistant Secretary must make this determination by considering the factors set forth in § 1902.37(b). OSHA believes that the results of its evaluation of the Indiana plan, contained in the 18(e) Evaluation Report, considered in light of these regulatory criteria and the criteria in section 18(c) of the Act, indicates that the regulatory indices and criteria are being met, and the Assistant Secretary accordingly has made an initial determination that the Indiana plan is eligible for an affirmative 18(e) determination. This notice initiates proceedings by which OSHA expects to elicit public comment on the issue of granting an affirmative 18(e) determination to Indiana. In order to encourge the submission of informed and specific public comment, a summary of current evaluation findings with respect to these criteria is set forth below.

(a) Standards and Variences. Section 18(c)(2) of the Act requires State plans to provide for occupational safety and health standards which are at least as effective as Federal standards. A State is required to adopt, in a timely manner, all Federal standards and amendments or to develop and promulgate standards and amendments which are at least as effective as the Federal standards. See §§ 1902.37(b)(3); 1902.3(c); 1902.4(a) and (b). The Indiana plan provides for adoption of standards that are at least as effective as Federal standards. The State has generally adopted standards which are identical to Federal standards.

While past evaluations have shown IOSHA adopts standards in timely manner, during the evaluation period the State adopted five of eight required standards actions in a timely manner. There were minor delays ranging from two to four months in adopting OSHA's permanent standard for Ethylene Oxide and an amendment thereto and an amemdment to OSHA's Commercial Diving standard. The delays were occasioned by the departure from IOSHA of the individual assigned responsibility for preparation of standards promulgation packages and a reorganization to reassign these responsibilities, as well as by the subsequent illness of the individual now assigned this responsibilty. The temporary problem causing the standards delays was resolved by the end of the evaluation period and the State is now current in its adoption of required standards. (18(e) Evaluation Report, pp. 83–84.)

Where a State adopts Federal standards, the State's interpretation and application of such standards must ensure consistency with Federal interpretation and application. Where a State develops and promulgates its own standards, interpretation and application must ensure coverage at least as effective as comparable Federal standards. While acknowledging prior approval of individual standards by the Assistant Secretary, this requirement

stresses that State standards, in actual operation, must be at least as effective as the Federal standards. See §§ 1902.37(b)(4), 1902.3(c)(1), 1902.3(d)(1), 1902.4(a), and 1902.4(b)(2). As already noted, the Indiana plan provides for adoption of standards which are at least as effective as the Federal standards. Indiana likewise adopts standards interpretations which are as effective as the Federal.

The State is required to take the necessary administrative, judicial or legislative action to correct any deficiency in its program caused by an administrative or judicial challenge to any State standard, whether the standard is adopted from Federal standards or developed by the State. See § 1902.37(b)(5). The Indian Court of Appeals found one State standard (identical to Federal OSHA's 29 CFR 1926.501(a)) impermissibly vague during a review of a contested case. Federal OSHA's Solicitors reviewed the decision of the Indiana court which affected a standard relating to employee exist(s) from elevated ramps. Although in their opinion, the Court's adverse decision did not render the IOSHA standard or the State program less effective than OSHA's, the Indiana OSHA officials appealed the case to the State's Supreme Court. At the end of the evaluation period, the case was still awaiting hearing. (18(e) *Evaluation Report*, p. 84.)

When granting permanent variances from standards, the State is required to ensure that the employer provides as safe and healthful working conditions as would have been provided if a permanent variance had not been granted. See §§ 1902.37(b)(6) and 1902.4(b)(2)(iv). Indiana's regulations and procedures governing actions on permanent variances are equivalent to the Federal. The 16 permanent variances granted during the evaluation period were granted in a timely manner in accordance with approved State procedures and were deemed to provide equivalent protection. (18(e) *Evaluation Report*, p. 88.)

Where a temporary variance is granted, the State must ensure, among other things, that the employer complies with the standard as soon as possible. See §§ 1902.37(b)(7) and 1902.4(b)(2)(iv). The State's temporary variance procedures are comparable to the Federal. There were no temporary variances granted by Indiana during the evaluation period.

(b) Enforcement. Section 18(c)(2) of the Act requires State plans to maintain an enforcement program which is at least as effective as that conducted by Federal OSHA; section 18(c)(3) requires the State plan to provide for right of entry and inspection of all workplaces at least as effective as that in section 8 of the Act.

The State inspection program must provide that sufficient resources be directed to designated target industries while providing adequate protection to all other workplaces covered under the plan. See §§ 1902.37(b)(8), 1902.3(d)(1), and 1902.4(c). Indiana's targeting system is similar to the Federal system. Data contained in the 18(e) evaluation indicate that 98.7% of State programmed safety inspections and 99.3% of State programmed health inspections were conducted in high hazard industries. (18(e) *Evaluation Report*, p. 30).

In cases of refusal of entry, the State must exercise its authority, through appropriate means, to enforce the right of entry and inspection. See §§ 1902.37(b)(9), 1902.3(e), and 1902.4(c)(2) (i) and (ix). Indiana law allows the IOSHA to apply for a warrant from the State courts to permit entry into an establishment that has refused entry for the purpose of inspection or investigation. The State successfully obtained warrants for all of the 155 denials of entry during the evaluation period. (18(e) *Evaluation Report*, p. 38).

Inspections must be conducted in a competent manner following approved enforcement procedures which include the requirement that inspectors acquire information adequate to support any citation issued. See §§1902.37(b)(10), 1902.3(d)(1), and 1902.4(c)(2).

Procedures for the IOSHA compliance program are set out in the Indiana *Field Operations Manual*, which is patterned after the Federal manual, and thus the State follows inspection procedures, including documentation procedures, which are similar to the Federal. The Evaluation Report notes adherence to these procedures. ISOHA cites an average of 3.5 violations on programmed safety inspections with citations and 2.5 violations on programmed health inspections with citations, and 25.5% of safety and 26.5% of health violations are cited as serious, performance comparable to Federal OSHA during the evaluation period. (*Evaluation Report*, p. 43.)

State plans must include a prohibition on advance notice, and exceptions to this prohibition must be no broader than those allowed by Federal OSHA procedure. See § 1902.3(f). Indiana has adopted procedures governing advance notice which are comparable to OSHA's. The 18(e) Evaluation Report (p. 39) notes that no advance notice of inspection was provided to employers during the period.

State plans must provide for inspections in response to employee complaints, and must provide an opportunity for employee participation in State inspections. See §§ 1902.4(c)(2)(i) through (iii). Although IOSHA has a procedure similar to OSHA's for handling non-formal complaints by a letter to the employer, it responded by inspection to a greater extent than OSHA during the evaluation period (70.4% of safety complaints and 61.7% of health complaints received by the State were responded to by inspection). Complaint response was timely. (18(e) *Evaluation Report*, pp. 33–35.)

In addition, Indiana's law and procedures provide for employee participation in inspections. Employees either exercised their right to accompany the inspector or were interviewed on the walkaround in 88.1% of initial inspections. The remaining 11.9% of initial inspections were records inspections, in accordance with Indiana's adoption of the Federal OSHA policy. In these cases, since no inspection was conducted, no employee representatives were available. The report concludes that Indiana's efforts in apprising employees of their rights, and providing them with the means to exercise their rights, have been successful. (18(e) *Evaluation Report*, pp. 39–42.)

State plans must also provide protection for employees against discrimination similar to that found in section 11(c) of the Federal Act. See § 1902.4(c)(2)(v). The Indiana Act and regulations provide for discrimination protection equivalent to that provided by Federal OSHA. During the evaluation period, the State investigated 37 discrimination complaints in a timely manner. Of the investigated complaints, 17% were found to have merit; all were settled administratively. (18(e) *Evaluation Report*, pp. 89–91.)

The State is required to issue, in a timely manner, citations, proposed penalties, and notices of failure to abate. See §§ 1902.37(b)(11), 1902.3(d), and 1902.4(c)(2) (x) and (xi).

Indiana's lapse time from inspection to issuance of citation has averaged 14 days for safety and 30 days for health, both of which exceed Federal performance during the period. (18(e) *Evaluation Report*, pp. A–19.)

The State must propose penalties in a manner that is at least as effective as the penalties under the Federal program, which includes first instance violation penalties and consideration of comparable factors required in the Federal program. See §§ 1902.37(b)(12), 1902.3(d), and 1902.4(c)(2) (x) and (xi).

Indiana's procedures for calculation of penalties are comparable to Federal OSHA's. The 18(e) evaluation indicates that average proposed penalties for serious violations were $153 for safety and $305 for health. (18(e) *Evaluation Report*, pp. A–14, 15.)

The State must ensure abatement of hazards cited including issuance of notices of failure to abate and appropriate penalties. See §§ 1902.37(b)(13), 1902.3(d), and 1902.4(c)(2) (vii) and (xi). Indiana conducts a proportionately greater number of follow-up inspections to assure abatement of cited violations (12.5% of not-in-compliance inspections) that does Federal OSHA. State abatement periods average 8.8 days for serious safety and 37.4 days for serious health violation. (18(e) *Evaluation Report*, p. 51.)

Wherever appropriate, the State must seek administrative and judicial review of adverse adjudications. Additionally, the State must take necessary and appropriate action to correct any deficiencies in its program which may be caused by an adverse administrative or judicial determination. See §§ 1902.37(b)(14) and 1902.3 (d) and (g). The 18(e) *Evaluation Report* for Indiana found no adverse adjudications which could result in program deficiencies.

(c) Staffing and Resources. A State is required to have a sufficient number of adequately trained and competent personnel to discharge its responsibilities under the plan. See section 18(c)(4) of the Act; 29 CFR 1902.37(b)(1); 1902.3(d) and 1902.3(h). A State must also direct adequate resources to administration and enforcement of the plan. See section 18(c)(5) of the Act and § 1902.3(i). As discussed above, the Indiana plan provides for 47 safety compliance officers and 23 industrial hygienists as set forth in the Indiana FY 1986 grant. This staffing level meets the approved revised fully effective benchmarks for Indiana for health and safety staffing, as discussed elsewhere in this notice. The State provides a comprehensive training program for new compliance personnel and refresher and specialized training for experienced staff, which includes attendance at the OSHA Training Institute and in-house and field training exercises. (18(e) Evaluation Report, p. 77–79.) During the evaluation period, State safety and health inspectors received, on the average, over 80 hours of formal training. (18(e) *Evaluation Report*, p. 80).

(d) Other requirements. States which have approved plans must maintain a safety and health program for State and local government employees which must be as effective as the State's plan for the private sector. See section 18(c)(6) of the Act and § 1902.3(j). Indiana's plan provides a program in the public sector separate from that in the private sector, but which is patterned after the private-sector program with the exception that monetary penalties are not utilized. In addition to the full-time safety inspectors assigned to public-sector activities, the program is supplemented with the services of industrial hygienists from the Bureau of Industrial Hygiene, who are assigned to handle health-related programs in State and local government agencies. (18(e) Evaluation Report, p. 58.) Injury and illness rates for State and local government employment (1984: all case rate 5.9; lost workday case rate 2.6) are lower than those for the private sector. However, the State government lost workday case rate rose slightly (from 2.5 to 2.6) in 1984, while the private sector rate had a slightly higher increase (from 3.1 to 3.3). (18(e) *Evaluation Report*, pp. 20, 25–26.)

As a factor in its 18(e) determination, OSHA must consider whether the Bureau of Labor Statistics' annual occupational safety and health survey and other available Federal and State measurements of program impact on worker safety and health indicate that trends in worker safety and health injury and illness rates under the State program compare favorably with those under the Federal program. See § 1902.37(b)(15). The 1983 and 1984 Bureau of Labor Statistics injury and illness rates for Indiana (private sector all case rate for 1983, 7.3; 1984, 7.7; lost workday case rate for 1983, 3.1; 1984, 3.3) were the same as or lower than rates in States where Federal OSHA provides enforcement coverage. In 1984, the all case incidence rates and the lost workday case rates for the private sector, manufacturing and construction experienced a modest increase in Indiana; however, the rate of increase was within the acceptable range established under OSHA's State Plan Activity Measures and the absolute rates in each case for 1984 were the same as or lwoer than corresponding rates in Federal States. However, while the percent change in lost workday cases for three of the State's five most hazardous industries was within the acceptable range as compared to the change in rates under Federal jurisdiction, the rate change in the two lowest ranked industries of the five exceeded the acceptable range. The relatively greater increase from 1983 to 1984 in lost workday case rates in these two industries (fabricated metal products, Standard Industrial Classification (SIC) 34; and, furniture and fixtures manufacturing, SIC 25) in Indiana is attributed to a greater increase in employment levels in these SIC's in Indiana when compared to States under Federal OSHA jurisdiction for the same period. Indiana workers employed in SIC 34 increased by 11.5% and hours worked increased by 11.6% in 1984, while employment and hours worked increased by only 3.2% and 5.0%, respectively, in States under Federal jurisdiction. In SIC 25, Indiana employment increased by 11.3% while increasing by 8.1% in Federal jurisdiction States, and the absolute rate in this industry is lower in Indiana (6.5). (18(e) Evaluation Report, pp. 18–20.)

State plans must assure that employers in the State submit reports to the Secretary in the same manner as if the plan were not in effect. See section 18(c)(7) of the Act; 29 CFR 1902.3(k). The plan must also provide assurances that the designated agency will make such reports to the Secretary in such form and containing such information as he may from time to time require. Section 18(c)(8) of the Act; 29 CFR 1902.3(1). Indiana employer recordkeeping requirements are substantially equivalent to those of Federal OSHA, and the State participates in the BLS Annual Survey of Occupational Illnesses and Injuries. As noted above, the State participates and has assured its continuing participation with OSHA in the Integrated Management Information System as a means of providing reports on its activities to OSHA.

Section 1902.4(c)(2)(xiii) requires States to undertake programs to encourage voluntary compliance by employers by such means as conducting training and consultation with employers and employees. The 18(e) Evaluation Report (p. 80) notes that the State conducts a comprehensive training and education program covering the private and public sectors. Training sessions for employers, employees and labor representatives have included seminars on general safety and health regulations, specific subjects such as forklift operations, machine guarding, flammable and combustible liquids, and hazard communication requirements. (18(e) Evaluation Report, p. 80.)

Indiana administers under its State plan a consultation program for both private and public sector employers and employees, designed to supplement the enforcement efforts of the safety and health compliance officers, with a field staff of 11 safety and three health consultants. During the last 12 months of the evaluation period, IOSHA received and responded to 587 requests for

consultations. Consultants observed an average of six violations per visit.

As part of its consultation program, Indiana also offers exemptions from general schedule inspections to companies which meet certain prerequisites, similar to the exemption program implemented by Federal OSHA for companies receiving consultations under section 7(c)(1) of the Act. In the twelve month period between October 1984 and September 1985, IOSHA received 468 requests for exemption from general schedule safety inspections. IOSHA granted 346 of these requests, denied 32, and the balance were pending at the time of Federal review.

OSHA conducted a special study of the State's inspection exemption program consisting of a review of 60 case files on companies which were granted and 32 companies which were denied exemptions. The review disclosed principally that more than half of the files on the 60 exempted companies contained some deficiency in documentation and that employee interviews and injury and illness rates were used inconsistently.

The problems identified in case file reviews were further investigated in on-site visits to ten exempted companies with high lost workday incidence rates. In the Federal monitors' judgment, three of the ten companies visited did not have all of the required exemption prerequisites implemented.

The OSHA Regional Administrator reviewed the special study findings with the Indiana Commissioner of Labor, and in response to OSHA recommendations, IOSHA instituted a series of actions to correct the deficiencies and to prevent their recurrence including establishment of clear guidelines, intensive training, hiring a new field supervisor, and closer supervisory review of case files, as discussed in the 18(e) Evaluation Report. In addition, IOSHA terminated the exemption status of the three questionable companies and obtained the information to complete the files on the 32 cases with inadequate documentation. Additionally, IOSHA conducted an internal audit of companies granted exemptions in 1985 and 1986, and as a result completed documentation in deficient files and identified three additional companies with high injury rates whose exemptions will be terminated.

Based on the remedial action undertaken by IOSHA to correct deficiencies in the inspection exemption through the consultation program, OSHA believes that IOSHA meets all criteria for an acceptable voluntary compliance program. (18(e) Evaluation Report, pp. 73–77.)

Effect of 18(e) Determination

If the Assistant Secretary, after completion of the proceedings described in this notice, determines that the statutory and regulatory criteria for State plans are being applied in actual operations, final approval will be granted and Federal standards and enforcement authority will cease to be in effect with respect to issues covered by the Indiana plan, as provided by section 18(e) of the Act and 29 CFR 1902.42(c). Indiana does not cover safety and health in private-sector hazardous waste facilities designated as Superfund sites, or in private sector maritime activities (enforcement of occupational safety and health standards comparable to 29 CFR Parts 1915, 1917, 1918 and 1919, as well as provisions of general industry standards (29 CFR 1910) appropriate to hazards found in those employments). Thus, Federal coverage of Superfund sites and private sector maritime employment would be unaffected by an affirmative 18(e) determination. In the event an affirmative 18(e) determination is made by the Assistant Secretary following the proceedings described in the present notice, a notice will be published in the Federal Register in accordance with 29 CFR 1902.43; the notice will specify the issues as to which Federal authority is withdrawn, will state that Federal authority with respect to discrimination complaints under section 11(c) of the Act remains in effect, and will state that if continuing evaluations show that the State has failed to maintain a compliance staff which meets the revised fully effective benchmarks, or has failed to maintain a program which is at least as effective as the Federal, or that if the State has failed to submit program change supplements as required by 29 CFR Part 1953, the Assistant Secretary may revoke final approval and reinstate Federal enforcement authority or, if the circumstances warrant, initiate action to withdraw approval of the State plan. At the same time, Subpart Z of 29 CFR Part 1952, which codifies OSHA decisions regarding approval of the Indiana plan, would be amended to reflect the 18(e) determination if an affirmative determination is made.

Documents of Record

All information and data presently available to OSHA relating to the Indiana 18(e) proceeding have been made a part of the record in this proceeding and placed in the OSHA Docket Office. The contents of the record are available for inspection and copying at the following locations:

Docket Office, Room N–3670, Docket No. T–020, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210.

Regional Administrator, U.S. Department of Labor, OSHA, 32nd Floor, Room 3244, 230 South Dearborn Street, Chicago, Illinois 60604.

Indiana Department of Labor, 1013 State Office Building, 100 North Senate Avenue, Indianapolis, Indiana 46204.

To date, the record on final approval determination includes copies of all Federal Register documents regarding the plan including notices of plan submission, initial Federal approval, certification of completion of developmental steps, codification of the State's operational status agreement, and approval of various standards, developmental steps, and other plan supplements. The record also includes the State plan document, which includes a plan narrative, the State legislation, regulations and procedures, an organizational chart for State staffing; the State's FY 1986 Federal grant; and the March 1984 through December 1985 18(e) *Evaluation Report* and all previous, post-certification reports.

Public Participation

Request for Public Comment and Opportunity to Request Hearing

The Assistant Secretary is directed under § 1902.41 to make a decision whether an affirmative 18(e) determination is warranted or not. As part of the Assistant Secretary's decision-making process, consideration must be given to the application and implementation by Indiana of the requirements of section 18(c) of the Act and all the specified criteria and indices of effectiveness as presented in 29 CFR 1902.3 and 1902.4. These criteria and indices must be considered in light of the 15 factors in 29 CFR 1902.37(b)(1–15). However, this action will be taken only after all the information contained in the record, including OSHA's evaluation of the actual operations of the State plan, and information presented in written submissions and during an informal public hearing, if held, is reviewed and analyzed. OSHA is soliciting public participation in this process so as to assure that all relevant information, views, data and arguments related to the indices, and criteria and factors presented in 29 CFR Part 1902, as they apply to the Indiana State plan, are available to the Assistant Secretary during this administrative proceeding.

Interested persons are invited to submit written data, views, and arguments with respect to this proposed 18(e) determination. These comments must be received on or before June 23, 1986 and submitted in quadruplicate to the Docket Officer, Docket No. T–020, Room N–3670, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. Written submissions must clearly identify the issues which are addressed and the positions taken with respect to each issue. The State of Indiana will be afforded the opportunity to respond to each submission.

Pursuant to 29 CFR 1902.30(f), interested persons may request an informal hearing concerning the proposed 18(e) determination. Such requests also must be received on or before June 23, 1986 and should be submitted in quadruplicate to the Docket Officer, Docket T–020, at the address noted above. Such requests must present particularized written objections to the proposed 18(e) determination. The Assistant Secretary will decide within 30 days of the last day for filing written views or comments and requests for a hearing whether the objections raised are substantial and, if so, will publish notice of the time and place of the scheduled hearing.

The Assistant Secretary will, within a reasonable time after the close of the comment period or after the certification of the record if a hearing is held, publish his decisions in the **Federal Register**. All written and oral submissions, as well as other information gathered by OSHA will be considered in any action taken. The record of this proceeding, including written comments and requests for hearing and all materials submitted in response to this notice and at any subsequent hearing, will be available for inspection and copying in the Docket Office, Room N–3670, at the previously mentioned address, between the hours of 8:15 a.m. and 4:45 p.m.

Regulatory Flexibility Act

OSHA certifies pursuant to the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et. seq.*) that this determination will not have a significant economic impact on a substantial number of small entities. Final approval would not place small employers in Indiana under any new or different requirements, nor would any additional burden by placed upon the State government beyond the responsibilities already assumed as part of the approved plan. A copy of this certification has been forwarded to the Chief Counsel for Advocacy of the Small Business Administration.

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 100

[CCD7 86–16]

Regatta; Apache Offshore Challenge Powerboat Race

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is considering a proposal to close for three hours on 27 September 1986, the waters of Government Cut in the Port of Miami and further restrict the waters one nautical mile offshore from the City of Miami Beach, from one quarter nautical mile south of Bakers Haulover to one nautical mile south of theMiami seabuoy and two nautical miles offshore from Fisher Island affecting the approaches to the Miami ship channel and the Port of Miami. The consideration is due to an APPLICATION FOR APPROVAL OF MARINE EVENT (CC–4423) received from the Offshore Power Boat Racing Association, Inc. (OPBRA) on 4 April 1986.

DATES: Comments must be received on or before July 29, 1986.

ADDRESSES: Comments should be mailed to Commander, U.S. Coast Guard Group Miami. The comments and other materials referenced in this notice will be available for inspection and copying at 100 MacArthur Causeway, Miami Beach, Fl. 33139. Normal office hours are between 7:00 a.m. and 3:30 p.m., Monday through Friday, except holidays. Comments may also be hand-delivered to this address.

FOR FURTHER INFORMATION CONTACT: Chief Warrant Officer T.C. Small; (305) 535–4304.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this rulemaking by submitting written views, data or arguments. Persons submitting comments should include their names and addresses, identify this notice CCGD7 86–16 and the specific section of the proposal to which their comments apply, and give reasons for each comment. The regulations may be changed in light of comments received. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. Additionally, a public hearing will be held in the City of Miami Beach Commission Chambers located at 1700 Convention Center Drive, on May 29, 1986, from 1:00 to 3:00 p.m., to allow interested persons the opportunity to make oral presentations which will aid the rulemaking process.

Drafting Information

The drafters of this notice are Chief Warrant Officer T.C. Small, project officer, U.S. Coast Guard Group Miami and Commander K.E. Gray, project attorney, Seventh, Coast Guard District Legal Office.

Discussion of Proposed Regulations

The proposed event is designed to benefit the cities of Miami and Miami Beach and to promote commerce, power boat racing, spectator interest, tourism and governmental cooperation. The closure of Government Cut and the Port of Miami is viewed as a major logistical undertaking. However, after initial meetings and discussions with the Port of Miami Operations Office, Florida Marine Patrol, City of Miami Beach Police Chief, local Congressional office and numerous commercial and private interests in the port, no adverse comments have been received to date. Private vessel movements will only be slightly inconvenienced and then only for three hours. The agreed upon race course was intentionally designed so as not to interfere with areas on the western end of Government Cut turning basin and more specifically the nearby Atlantic Intercoastal Waterway (ICW), thus allowing north/south ICW traffic and providing for alternate routes to the Atlantic Ocean in nearby areas. A minimum of prior planning by commercial vessel operators will enable them to adjust their schedules during the event, with little or no inconvenience. The public notice and an open public hearing will allow all concerned parties an opportunity to be part of the rule making process and to further solicit comments. The sponsor of the proposed event envisions the race as an eventual annual event, paralleling that of the Miami Grand Prix auto race and is carefully nurturing commercial,

governmental, political and private part support and enthusiasm. In order to provide for the safety of both participants and spectators, the regulations as set forth in paragraph 2. of the proposed regulations herein, shall be implemented should this rule become final and the proposed event permitted.

This regulation is issued pursuant to 33 U.S.C. 1225 and 1231 as set out in the authority citation for all of Part 100.

Economic Assessment and Certification

These proposed regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of this proposal is expected to be so minimal that a full regulatory evaluation is unnecessary. Further, sufficient advance notice is being given to all commercial, governmental and private interests in the affected areas. The proposed closure of Government Cut, the Port of Miami, port approaches and the other affected areas will not exceed three (3) hours. A comprehensive mailing list to all concerned parties was developed and provides for the individual notification of those parties, allowing and soliciting any objections caused by the proposed regulation. Since the impact of this proposal is expected to be minimal, the Coast Guard certifies that, if adopted, it will not have a significant economic impact on a substantial number of small entities.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water).

Proposed Regulations

PART 100—[AMENDED]

In consideration of the foregoing, the Coast Guard proposes to amend Part 100 of Title 33, Code of Federal Regulations as follows:

1. The authority citation for Part 100 continues to read as follows:

Authority: 33 U.S.C. 1233; 49 CFR 1.46 and 33 CFR 100.35.

2. Section 100.35–716 is added to read as follows:

§ 100.35–716 Port of Miami approaches, waters of Government Cut and Waters off the City of Miami Beach, FL.

(a) *Regulated Area.* All navigable waters (Chart 11466) from shoreline at 25–53.8N south of Bakers Haulover, 090 degrees true to 25–53.7N/80–08. 1W, thence southward to 25–45.6N/80–05.6W, thence 195 degrees true to 25–44.8N.80–06.0W, thence 292 degrees true to the eastern tip of the Port of Miami entrance channel south jetty and all waters within Government Cut proper and westward to a line between the northwestern most end of Dodge Island and the southwestern corner of the Chalk's Airline ramp.

(b) *Special Local Regulations.* (1) Entry into the restricted area is prohibited unless authorized by the patrol commander.

(2) Participating race vessels will be departing and entering the regulated area in two locations known as the "outbound and inbound slots" and identified by large orange markers. Spectator vessels may observe the race from outside of the regulated area. Spectator vessels may not congregate at the outbound or inbound slots.

(3) No vessel shall anchor or moor within the restricted area unless authorized to do so by the patrol commander. Commercial vessels already moored or anchored will be allowed to remain in position at their moorings or anachorage at the discretion of the patrol commander.

(4) The waters of Government Cut and those adjacent waters providing access into the cut will be closed to all non-participating waterborne traffic during this event. Emergency vessels will be allowed to enter the regulated area with the prior coordination and permission of the patrol commander.

(5) A succession of not less than 5 short whistle or horn blasts will be the signal for any non-participating vessels to stop immediately. The display of an orange distress smoke signal from a patrol vessel will be the signal for any and all vessels to stop immediately. (46 U.S.C. 454; 49 U.S.C. 1655(b), 49 CFR 1.46(b); and 33 CFR 100.35)

(c) *Effective date/times.* These regulations become effective on 27 September 1986 from 1100 to 1400 local time.

Dated: May 7, 1986.

R. P. Cueroni,

Rear Admiral, U.S. Coast Guard Commander, Seventh Coast Guard District.

33 CFR Part 115

[CGD 81–057]

General Bridge Permit Program Regulations; Correction

AGENCY: Coast Guard, DOT.

ACTION: Supplementary notice of proposed rulemaking; correction.

SUMMARY: This document corrects the preamble to the supplementary notice of proposed rulemaking on the General Bridge Permit program that appeared at page 15503 in the Federal Register of Thursday, April 24, 1986, (51 FR 15503). The action is necessary to add the "ADDRESSES" section, which was inadvertently omitted from the supplementary notice, and to insert the name of the newly assigned person to contact for further information.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Thompson (202) 755–7620.

Accordingly, the Coast Guard is correcting FR Doc. 86–9201 appearing on page 15503 in the issue of April 24, 1986, to read as follows:

1. On page 15503 after the "DATE" paragraph, add the following paragraph:

ADDRESSES: Comments should be mailed to Commandant (G–CMC/21) (CGD 81–057), U.S. Coast Guard, 2100 Second Street, SW., Washington, DC 20593. Comments are available for inspection or copying at the Office of the Marine Safety Council, Room 2110, at the above address, between the hours of 8 a.m. and 4 p.m., Monday through Friday, except holidays. The telephone number is (202) 426–1477.

2. On page 15503 in the "FOR FURTHER INFORMATION CONTACT" paragraph, "Mr. Jerome D. Schwartz" is corrected to read "Mr. Mark Thompson."

Dated: May 8, 1986.

W.J. Brogdon, Jr.,

Captain, U.S. Coast Guard, Acting Chief, Office of Navigation.

[FR Doc. 86–11017 Filed 5–16–86; 8:45 am]

BILLING CODE 4910-14-M

DEPARTMENT OF THE INTERIOR

Office of Hearings and Appeals

43 CFR Part 4

Department Hearings and Appeals Procedures; Indian Trust Property or Interest

AGENCY: Office of Hearings and Appeals, Interior.

ACTION: Proposed rule.

SUMMARY: This Office is proposing to add a new regulation allowing persons receiving Indian trust property or an interest in such property either under a will or through interstate succession to renounce succession to that property or interest in property. A conforming amendment is proposed to clarify that the office's Administrate Law Judges (Indian Probate) have authority to accept such a renunciation of interest. A

second amendment to the regulation setting forth the general authority of Administrative Law Judges (Indian Probate) is also proposed. The second amendment would explicitly provide authority for the partial distribution of estates when a potential heir or devisee is missing and cannot be located.

DATE: Comments on the proposed rule must be received by June 18, 1986.

ADDRESS: Comments may be mailed to Bruce A. Johnson, Deputy Director, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203.

FOR FURTHER INFORMATION CONTACT: Bruce A. Johnson, Deputy Director Office of Hearings and Appeals, (703) 235–3810.

SUPPLEMENTARY INFORMATION: Based upon its experience in probating Indian trust estates, this Office has observed that allowing renunciations of Indian trust company or interests in such property would frequently be in the best interests of an Indian decedent's survivors. Often property passes to individuals who either do not want it or believe that another person needs or deserves it more. When property passes to a non-Indian, it loses its Indian trust status, often to the detriment of all persons concerned.

Therefore, it is proposed that a new regulation providing a consistent mechanism for renunciations be adopted. The proposed rule is intended to be lenient, with few mandatory procedural requirements, so that it will be easy to use, while still ensuring that the person renouncing both understands and intends the results.

A proposed conforming amendment to 43 CFR 4.202 would show that the office's Administrative Law Judges (Indian Probate) have authority to accept such renunciations.

A second amendment is also proposed to 43 CFR 4.202 that would explicitly provide for partial distribution of Indian trust estates when a potential heir or devisee is missing and cannot be located. The lack of such explicit authority has resulted in delay in the distribution of interests in Indian trust estates to those determined entitled to receive interests. Such unnecessary delay is not in accordance with the Department's trust responsibility to Indians. This amendment conforms with recent decisions of the Interior Board and Indian Appeals (IBIA) and the Director of the Office of Hearings and Appeals. On October 10, 1985, the IBIA held in *Estate of Frances Ingeborg Conger (Ford)*, 13 IBIA 296, 92 I.D. 512 (1985), that the Department has the authority to allow partial distribution of an Indian decedent's trust estate when a potential heir or devisee cannot be located. This decision was reviewed by the Director and his decision of December 30, 1985, held that an Administrative Law Judge (Indian Probate) possesses authority to decree such distribution. *Estate of Frances Ingeborg Conger (Ford)* (On Review By Director), 13 IBIA 296, 92 I.D. 634 (1985).

The Department of the Interior has determined that neither rule is a major rule under E.O. 12291 and certifies that they will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. *et seq.*). This determination is based on the fact that the new regulations concern only procedures for distributing the trust estates of certain deceased Indians.

Paperwork Reduction Act. These rules do not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

The Department of the Interior has determined that the rules do not constitute major Federal actions significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969, *as amended* (42 U.S.C. 4321–4347).

The rules were written by Paul T. Baird, Director, Office of Hearings and Appeals.

List of Subjects in 43 CFR Part 4

Administrative practice and procedure, Indians, Indians—Lands.

Dated: April 14, 1986.

Paul T. Baird,

Director.

43 CFR Part 4, Subpart D, is proposed to be amended as follows:

PART 4—[AMENDED]

1. The authority citation for Part 4, Subpart D, continues to read as follows:

Authority: Secs. 1, 2, 36 Stat. 855, as amended, 856, as amended, sec. 1, 38 Stat. 586, 42 Stat. 1185, as amended, secs. 1, 2, 50 Stat. 1021, 1022; R.S. 463, 465; 5 U.S.C. 301; 25 U.S.C. secs. 2, 9, 372, 373, 374, 373a, 373b.

2. In § 4.202 the first sentence is proposed to be revised to read as follows:

§ 4.202 General authority of administrative law judges.

Administrative law judges shall determine the heirs of Indians who die intestate possessed of trust property, except as otherwise provided in §§ 4.205(b) and 4.271; approve or disapprove wills of deceased Indians disposing of trust property; accept or reject full or partial renunciations of interest in both testate and intestate proceedings; allow or disallow creditor's claims against estates of deceased Indians; and decree the distribution of trust property to heirs and devisees, including the partial distribution to known heirs or devisees where one or more potential heirs or devisees are missing but not presumed dead, after attributing to and setting aside for such missing person or persons the share or shares such person or persons would be entitled to if living.* * *

3. A new § 4.206 is proposed to be added to read as follows:

§ 4.206 Renunciation of interest.

Any person 21 years or older, whether of Indian descent or not, may renounce intestate succession or devise of trust or restricted property, wholly or partially (including the retention of a life estate), by filing a signed and acknowledged declaration of such renunciation with the administrative law judge prior to entry of the administrative law judge's final order. No interest in the property so renounced is considered to have vested in the heir or devisee and the renunciation is not considered a transfer by gift of the property renounced, but the property so renounced passes as if the person renouncing the interest has predeceased the decedent. A renunciation filed in accordance herewith shall be considered accepted when implemented in an order by an administrative law judge and shall be irrevocable thereafter. All disclaimers or renunciations heretofore filed with and implemented in an order by an administrative law judge are hereby ratified as valid and effective.

BILLING CODE 4310–10–M

INTERSTATE COMMERCE COMMISSION

49 CFR Ch. X

[Ex Parte No. MC–178; Sub-1]

Response to Petition for Investigation of Insurance Surcharges

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: In response to a petition filed by the Owner-Operator Independent Drivers Association of America, Inc., (Association), the Commission has instituted a rulemaking proceeding to determine whether carriers should be

prohibited from excluding revenues earned under insurance-related surcharges from computation of gross revenues. The Association seeks to ensure that owner-operators will share in the added revenues. The Interstate Carriers Conference replied in opposition and argues that adopting any rule defining gross revenues under the leasing regulations would be equivalent to the Commission regulating compensation paid to owner-operators in contravention of the holding in *Central Forwarding, Inc.* v. *ICC*, 698 F.2d 1266 (5th Cir. 1982). Comments are invited on the legal and policy issues raised in the petition and the reply.

DATES: Comments are due June 18, 1986.

ADDRESS: Send comments (original and 10 copies) to: Ex Parte No. MC–178 (Sub-No. 1), Case Control Branch, Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Mark S. Shaffer, (202) 275–7805 or Howell I. Sporn, (202) 275–7691.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision contact: TS Infosystems, Inc., Room 2229, 12th and Constitution Ave., NW., Washington, DC 20423; or call (202) 289–4357 in the DC metropolitan area; or (800) 424–5403 Toll-free outside the DC area.

Energy and Environmental Considerations

This action does not appear to significantly affect either the quality of the human environment or conservation of energy resources. Comments on these issues are welcome.

Initial Regulatory Flexibility Analysis

Under 5 U.S.C. 601 *et seq.* we are required to analyze the potential impact of proposed rules on small entities.

We preliminarily conclude that, if the Commission were to adopt a rule requiring insurance surcharges to be included in carriers' computation of gross revenues, such a rule would not have a significant economic impact upon a substantial number of small entities inasmuch as it would not affect substantially the costs of doing business or costs involved in paying owner-operators. We are unaware of any regulatory burdens imposed by the proposal or of any alternative to the proposal that would result in a lesser burden on small entities. Comments on this issue are welcome.

Authority: 49 U.S.C. 10101, 10321, 11701, 10762, 10927; 5 U.S.C. 553.

Decided: May 8, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Chairman Gradison Commissioner Andre dissented with separate expressions.

James H. Bayne,

Secretary.

[FR Doc. 86–11104 Filed 5–16–86; 8:45 am]

BILLING CODE 7035–01–M

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 565

[Docket No. 86–03; Notice 1]

Vehicle Identification Number—Content Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The purpose of this notice of proposed rulemaking is to propose an amendment to 49 CFR Part 565, *Vehicle Identification Number—Content Requirements*. The amendment would change Table I which specifies, for each type of vehicle, the vehicle attributes which are required to be coded into the 17-character vehicle identification number (VIN). The rquirements that a "series" designation for trailers and a brake system for incomplete trailers be coded into the VIN would be deleted. This proposal is made in response to a petition from the Truck Trailer Manufacturers Association. The agency believes that this amendment is consistent with the purpose of this regulation which is to simplify vehicle identification information retrieval and increase the accuracy and efficiency of vehicle defect recall campaigns.

DATE: Comments must be received on or before July 18, 1986. The proposed effective date is upon publication of a final rule.

ADDRESS: Comments should refer to the docket and notice number stated above and be submitted to Docket Section, Room 5109, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, DC 20590. The docket is open on weekdays from 8 a.m. to 4 p.m.

FOR FURTHER INFORMATION CONTACT: Mr. Kenneth Rutland, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, DC 20590 (202–426–2154).

SUPPLEMENTARY INFORMATION: Part 565, *Vehicle Identification Number—Content Requirements*, specifies the format and content for a vehicle identification number (VIN) system to simplify vehicle identification information retrieval and increase the accuracy and efficiency of vehicle defect recall campaigns. The physical requirements for a VIN are contained in Standard No. 115, *Vehicle Identification Number—Basic Requirements*. Under this standard, each vehicle must have a VIN assigned by its manufacturer. The standard also requires that each VIN have 17 characters.

In establishing the VIN content requirements, Part 565 divides the 17-character VIN into four sections. The proposed amendment would affect only the second section. This section consists of five characters which occupy positions four through eight (4–8) in the 17-character VIN. These five characters are used to identify uniquely the attributes of different types of vehicles as specified in Table I.

Table I specifies the information which must be decipherable from the numerals or letters in the second section according to the type of vehicle. For a trailer or trailer kit, the five characters currently must identify the type of trailer, series, body type, length, and axle configuration.

The Truck Trailer Manufacturers Association (TTMA) has submitted a petition for rulemaking requesting two revisions to Table I. The first would delete the requirement that a series be specified in the second section of the VIN for trailers. TTMA states that a survey of their trailer manufacturing members indicates that the term "series" is not applicable to truck trailers. The agency understands this statement to mean that trailer manufacturers do not divide their product line into series, as, for example, automobile manufacturers do. TTMA states in its petition that trailers are sufficiently designated by type, body type, length, and axle configuration. Therefore, requiring a series designation in trailer VIN's may not simplify vehicle identification information retrieval or contribute to the accurate identification of particular trailers.

The result of this proposed change would be that trailer manufacturers would have five characters with which to describe the four attributes listed above. Part 565.4 now states that a manufacturer may determine the characters utilized and their placement within the second section of the VIN. Therefore, if this amendment were adopted, a manufacturer could use two characters to indicate any one of these attributes. The agency's experience with

the information provided by trailer manufacturers to decipher the data coded into the VIN indicates that this proposed change could enable manufacturers to describe trailer attributes more accurately.

If this proposal were adopted, trailer manufacturers would not be required to code any new information into the VIN, but could delete the information about a "series" in the second section of the VIN. Therefore, trailer manufacturers would have to submit revised deciphering information for the second section of the VIN, if they delete the information on "series" or if they change the coded information on the remaining four attributes. This information would be required to be submitted on a one-time basis after the effective date of this proposed rule. If trailer manufacturers decide not to change the information now coded into the second section of the VIN, no submission would be required.

TTMA's second request was that Table I be amended to remove the requirement for incomplete trailers to have the brake system indicated in the second section of their VIN. Currently, Table I sets forth five attributes which must be encoded in the VIN for any type of incomplete vechicle, including trailers. These attributes are model or line, series, cab type, engine type, and brake system. Most of these attributes may be inappropriate for trailers. TTMA requests that Table I be amended to state that the same attributes be encoded for incomplete trailers as for complete trailers. Thus, this proposal would amend Table I to require that the same information be encoded in the VIN for complete and incomplete trailers, i.e., type, body type, length, and axle configuration. The incomplete vehicle category would be modified to state that it no longer includes incomplete trailers. Incomplete trailer manufacturers would be required to submit revised deciphering information for the second section of the VIN, on a one-time basis after the effective date, because the four attributes would be different from the five attributes now required to be coded into the second section of the VIN.

In addition, the agency proposes a technical correction to Table I which would remove the reference to footnote 1 after axle configuration in the list of trailer attributes. This footnote reference is incorrect because the footnote concerns engine net brake horsepower.

Since this proposal would relieve a restriction by reducing the information which Part 565 requires to be coded into the VIN, the agency believes that making the amendments effective on the publication date of a final rule would be appropriate.

Comments are requested on these proposed changes in the content requirements of Part 565.

Paperwork Reduction

The VIN information requirements in this proposal are considered to be information collection requirements, as that term is defined by the Office of Management and Budget (OMB) in 5 CFR Part 1320. Accordingly, these proposed requirements are being submitted to the OMB for its approval, pursuant to the requirements of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Comments on the proposed information collection requirements should be submitted to: Office of Management and Budget, Office of Information and Regulatory Affairs, Washington, DC 20503, Attention: Desk Officer for NHTSA. It is requested that comments sent to the OMB also be sent to the NHTSA rulemaking docket for this proposed action.

Costs and Other Effects

The agency has evaluated the economic and other effects of this proposed rule and determined that they would be neither major as defined by Executive Order 12291 nor significant as defined by the Department's Regulatory Policies and Procedures. The agency concludes that the economic and other consequences of the amendment would be so minimal as not to require the preparation of a full regulatory evaluation. Trailer manufacturers would have to submit revised deciphering information for the second section of the VIN, only if they decide to revise the information now coded into the second section of the VIN. The submission would be made on a one-time basis, for trailers manufactured after the effective date. The only change would be a slight modification in the details of part of that information. The agency estimates that the administrative and cost burdens on trailer manufacturers to prepare the VIN deciphering information would be slight. Similarly, the government cost to process and store this revised information would be minimal.

The agency has considered the effects of this proposal in relation to the Regulatory Flexibility Act. I certify that this proposal would not have a significant economic impact on a substantial number of small entities. Trailer manufacturers which are small businesses would have the minor, one-time cost of preparing and submitting modified deciphering information for the VIN's on trailers manufactured after the effective date. Thereafter, deciphering information would have to be submitted only when other manufactering changes occur, such as the production of a new vehicle type. This proposal would make small modifications in the description of that information to reflect trailer characteristics more closely, but would make no change in the basic administrative or cost burdens. Small organizations and small government jurisdictions would not be affected because the prices of new trailers would not be changed.

Finally, the agency has analyzed this amendment for purposes of the National Environmental Policy Act and determined that this proposal would not have a significant effect on the human environment.

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

All comments must not exceed 15 pages in length. (49 CFR 553.21). Necessary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a concise fashion.

If a commenter wishes to submit certain information under a claim of confidentiality, three copies of the complete submission, including purportedly confidential business information, should be submitted to the Chief Counsel, NHTSA, at the street address given above, and seven copies from which the purportedly confidential information has been deleted should be submitted to the Docket Section. A request for confidentiality should be accompanied by a cover letter setting forth the information specified in the agency's confidential business information regulation. 49 CFR Part 512.

All comments received before the close of business on the comment closing date indicated above for the proposal will be considered, and will be available for examination in the docket at the above address both before and after the date. To the extent possible, comments filed after the closing date will also be considered. Comments received too late for consideration in regard to the final rule will be considered as suggestions for further rulemaking action. Comments on the proposal will be available for inspection

in the docket. The NHTSA will continue to file relevant information as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose a self-addressed, stamped postcard in the envelope with their comments. Upon receiving the comments, the docket supervisor will return the postcard by mail.

List of Subjects in 49 CFR Part 573

Imports, Motor vehicle safety, Motor vehicles.

To accomplish the changes outlined above, the agency would amend Part 565, *Vehicle Identification Number—Content Requirements*, in Title 49 of the Code of Federal Regulations, as follows:

PART 565—[AMENDED]

1. The authority citation for Part 565 would be revised to read as follows:

Authority: 15 U.S.C. 1395, 1397, 1401, 1407, and 1412; delegation of authority at 49 CFR 1.50.

§ 565.4 [Amended]

2. Table I in § 565.4 would be revised to read as follows:

Table I—Type Of Vehicle And Information Decipherable

Passenger car: Line, series, body type, engine type,[1] and restraint system type.

Multi-purpose passenger vehicle: Line, series, body type, engine type,[1] gross vehicle weight rating.

Truck: Model or line, series, chassis, cab type, engine type,[1] brake system and gross vehicle weight rating.

Bus: Model or line, series, body type, engine type,[1] and brake system. Trailer, including trailer kit and incomplete trailer: Type of trailer, body type, length, and axle configuration.

Motorcycle: Type of motorcycle, line, engine type,[1] and net brake horsepower.[1]

Incomplete vehicle other than trailer: Model or line, series, cab type, engine type,[1] and brake system.

Barry Felrice,

Associate Administrator for Rulemaking.

[FR Doc. 86-11221 Filed 5-16-86; 8:45 am]

BILLING CODE 4910-59-M

[1] Engine net brake horsepower when encoded in the VIN shall differ by no more than 10 percent from the actual net brake horsepower, shall, in the case of motorcycle with an actual net brake horsepower of 2 or less, be not more than 2; and shall, in the case of a motorcycle with an actual brake horsepower greater than 2, be greater than 2.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 20

Establishment of Regulations for Subsistence Harvest of Migratory Birds in Alaska

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent to propose rules.

SUMMARY: The U.S. Fish and Wildlife Service (hereinafter the Service) intends to propose regulations governing subsistence harvest of migratory birds in Alaska. These regulations will be based on provisions for such harvest in various laws, including the Fish and Wildlife Improvement Act of 1978. It is intended that the regulations will be adopted by spring of 1987, and that they will provide standards for managing subsistence harvest of migratory birds in Alaska so as to preserve and maintain their stocks.

DATE: Comments must be received on or before July 3, 1986.

ADDRESS: Comments should be addressed to: Regional Director (Attn: Robert Leedy, Wildlife Assistance), U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, Alaska 99503. Telephone: (907) 786-3443.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Leedy or Mr. Richard Pospahala, Wildlife Assistance, U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, Alaska 99503. Telehone: (907) 786-3443.

SUPPLEMENTARY INFORMATION: Since 1984, the Fish and Wildlife Service has regulated the subsistence harvest of migratory waterfowl in the Yukon-Kuskokwim Delta region in southwestern Alaska pursuant to cooperative management plans signed by representatives of the Service, the Alaska Department of Fish and Game, Alaska Natives, and the California Department of Fish and Game. The legality of these plans was challenged in *Alaska Fish and Wildlife Federation and Outdoor Council, Inc., et al.* v. *Jantzen, et al.*, No. J84-013 CIV (D. Alaska). On January 24, 1986, the court ruled that:

Until such time as the Secretary of the Interior adopts regulations pursuant to section 3(h)(2) of the Fish Wildlife Improvement Act, the Congress has authorized Alaska Natives to harvest migratory waterfowl under the Alaska Game Act of 1925 (as amended) during any season of the year, including but not limited to spring and summer months, when they or members of their family are in need of food and other sufficient food is not available.

The court stated that this authorization extends to taking for nutritional needs but not to taking for cultural purposes.

Section 3(h)(2) of the Fish and Wildlife Improvement Act of 1978 (FWIA), 16 U.S.C. 712 (1) provides that:

In accordance with the various migratory bird treaties and conventions with Canada, Japan, Mexico, and the Union of Soviet Socialist Republics, the Secretary of the interior is authorized to issue such regulations as may be necessary to assure that taking of migratory birds and the collection of their eggs, by the indigenous inhabitants of the State of Alaska, shall be permitted for their own nutritional and other essential needs, as determined by the Secretary of the Interior, during seasons established so as to provide for the preservation and maintenance of stocks of migratory birds.

Section 3(h)(2) of the FWIA is virtually identical to the subsistence hunting provision contained in Article II, Paragraph 1(c) of the U.S.-U.S.S.R. migratory bird treaty negotiated in 1976. The report on the Soviet treaty submitted by the American treaty negotiating team to the United States Senate demonstrates two points. First, the phrase "indigenous inhabitants" is intended to encompass both Native and non-Native residents of rural Alaska. Second, the subsistence hunting provisions of the Soviet treaty were drafted in full recognition of the ostensibly more restrictive provisions of the United States-Canada migratory bird treaty negotiated in 1916. The subsistence hunting provisions in the Soviet treaty were intended to provide the Service with greater flexibility to resolve conflicts concerning regulation of subsistence hunting for migratory birds in Alaska. The legislative history of section 3(h)(2) of the FWIA indicates the firm intent of Congress that the provisons of the Soviet treaty would be the ultimate guide for regulation of subsistence use of migratory birds in Alaska.

Need to Develop Subsistence Harvest Regulations

Based upon the January 24, 1986, decision in *Alaska Fish and Wildlife Federation and Outdoor Council* and on the FWIA, the Service intends to propose regulations to govern the subsistence harvest of migratory birds in Alaska. These regulations, which would become effective prior to the commencement of the migratory bird harvest in Spring 1987, would address subsistence harvest of migratory birds throughout the State of Alaska. The

regulations would provide a general framework for management of subsistence taking of migratory birds throughout the State, but they would also address in detail problem associated with particular stocks of birds in certain parts of the State that are known to be of concern. The goose populations that nest in the Yukon-Kuskokwim Delta region certainly will require more restrictive and detailed regulations than other stocks of birds.

For the 1986 season, the Service is relying upon a renewal of the Yukon-Kuskokwim Delta Goose Management Plan. This plan had beneficial impacts in 1984 and 1985 in lowering subsistence harvest of the waterfowl species whose numbers have declined and in promoting a cooperative approach to regulation of subsistence harvest that relies principally upon voluntary compliance rather than enforcement by the Service. The Service anticipates similar results for 1986.

The Service, through this notice, invites public comment on its intent to propose and establish regulations for subsistence harvest of migratory birds in Alaska. Topics most affecting development of proposed regulations include the following: (1) Definition of "nutritional and other essential needs", (2) how birds and eggs taken for subsistence may be used; (3) who may participate in subsistence hunting of migratory birds and in what geographic areas; (4) allowable levels of harvest; (5) means of regulation (methods and means of harvest, seasons, bag limits, etc.); and (6) provisions for enforcement of the regulations. Although comments focused on these topics are viewed as being most useful in the development of the proposed regulations, comments on other subjects also may be appropriate.

As soon as possible after the comment period on this notice of intent closes, and upon review and consideration of all comments received, the Service will develop proposed regulations and a draft environmental assessment addressing subsistence harvest of migratory birds in Alaska. The Service will provide public notice of the proposed regulations and assessment through publication in the Federal Register and will consider all comments received. Public hearings will be conducted in various communities throughout Alaska to provide additional opportunity for public comment. Notice of these hearings will be published in the Federal Register as soon as possible after determination of times and locations.

List of Subjects in 50 CFR Part 20

Hunting, Wildlife.

Dated: May 14, 1986.

Frank Dunkle,

Director, Fish and Wildlife Service.

Notices

Federal Register
Vol. 51, No. 96
Monday, May 19, 1986

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ACTION

Agency Information Collection Request Under OMB Review

AGENCY: ACTION.

ACTION: Information Collection Request Under Review.

SUMMARY: This notice sets forth certain information about an information collection proposal by ACTION, the National Volunteer Agency.

Background: Under the Paperwork Reduction Act (44 U.S.C., Chapter 35), the Office of Management and Budget (OMB) reviews and acts upon proposals to collect information from the public or to impose recordkeeping requirements. ACTION has submitted the information collection proposal described below to OMB. OMB and ACTION will consider comments on proposed collection of information and recordkeeping requirements. Copies of the proposed forms and supporting documents [request for clearance (SF 83), supporting statement, instructions, transmittal letter, and other documents] may be obtained from the agency clearance officer.

Information About This Proposed Collection

Agency Clearance Officer—Melvin E. Beatle, 202–634–9321.
Agency Address: ACTION, 806 Connecticut Ave., NW., Washington, DC 20525
Office of ACTION Issuing Proposal: Domestic Operations
Title of Form: Project Progress Reports for all ACTION programs (Older American Volunteer Programs (includes Foster Grandparent, Retired Senior Volunteer and Senior Companion Programs); VISTA/Service Learning Programs (includes Volunteers in Service to America, Young Volunteers in ACTION (YVA) and Service Learning Projects); Title I Part C (includes Volunteer Management Support Program (VMSP) in Domestic Operations and other demonstration and special volunteer programs in the Office of Volunteerism Initiatives (OVI)].
Type of Request: Revision.
Frequency of Collection: Quarterly
General Description of Respondents: State or local governments, non-profit institutions, small businesses or organizations.
Estimated Number of Responses: 1794
Estimated Annual Reporting or Disclosure Burden: 43,056 hours.
Respondent's Obligation to Reply: Required to obtain or retain a benefit.
Person responsible for OMB Review: Judy MacIntosh, 202–395–6880.

Melvin E. Beatle,
Clearance Officer, ACTION.

BILLING CODE 6050–28–M

CIVIL RIGHTS COMMISSION

Connecticut Advisory Committee; Public Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Connecticut Advisory Committee to the Commission will convene at 3:00 p.m. and adjourn at 5:00 p.m., on June 4, 1986, at the Connecticut Historical Society, 1 Elizabeth Street, Hartford, Connecticut. The purpose of the meeting is to develop preliminary plans for a proposed project on affirmative acton in the construction industry.

Persons desiring additional information, or planning a presentation to the Committee, should contact Committee Chairperson James Stewart or Jacob Schlitt, Director of the New England Regional Office at (617) 223–4671, (TDD 617/223–0344). Hearing impaired persons who will attend the meeting and require the services of a sign language interpreter, should contact the Regional Office at least five(5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission.

Dated at Washington, DC, May 14, 1986.
Donald A. Deppe,
Program Specialist for Regional Programs.

BILLING CODE 6335–01–M

DEPARTMENT OF COMMERCE

International Trade Administration

Subcommittee on Export Administration of the President's Export Council; Meeting

A partially closed meeting of the President's Export Council Subcommittee on Export Administration will be held June 13, 1986, 9:00 a.m. to 3:30 p.m., Herbert Hoover Building, Room B841, 14th and Constitution Avenue, NW, Washington, DC.

The Subcommittee provides advice on matters pertinent to those portions of the Export Administration Amendments Act of 1985 that deal with United States policies of encouraging trade with all countries with which the United States has diplomatic or trading relations, and of controlling trade for national security and foreign policy reasons.

General session: 9:00–11:30. Status reports by Ad Hoc Chairmen and various developments at Commerce in the International Trade area.

Executive session: 1:30–3:00. Discussion of matters properly classified under Executive Order 12356 dealing with matters pertaining to the control of exports for national security, foreign policy or short supply reasons under the Export Administration Amendments Act of 1985. A Notice of Determination to close meetings or portions of meetings of the Subcommittee to the public on the basis of 5 U.S.C. 522b(c)(1) was approved October 17, 1985 in accordance with the Federal Advisory Committee Act. A copy of the Notice is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 6628, U.S. Department of Commerce, (202) 377–4217.

For further information or copies of the minutes, contact Debra Waggoner (202) 377–4220.

Dated: May 14, 1986.

David Schlechty,

Acting Director, Strategic Policy and Planning Division, Export Administration.

BILLING CODE 3510-DT-M

National Oceanic and Atmospheric Administration

Scoping Meeting on the Proposed Norfolk Canyon National Marine Sanctuary

AGENCY: Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) is considering Norfolk Canyon, located approximately 80 miles off the coast of Virginia, for designation as a national marine sanctuary. NOAA will hold a public meeting to gather information to determine the range and significance of issues related to sanctuary designation and management. This meeting will be held on June 11, 1986, from 2:00 to 4:00 P.M. and from 7:00 to 9:00 P.M. in the auditorium of Watermans Hall, Virginia Institute of Marine Science, Gloucester Point, Virginia. All interested persons are invited to attend.

FOR FURTHER INFORMATION CONTACT: Dr. Nancy Foster, (202)673-5126.

ADDRESS: Sanctuary Programs Division, Office of Ocean and Coastal Resource Management, National Ocean Service, NOAA, 1825 Connecticut Avenue NW, Washington, DC 20235.

SUPPLEMENTARY INFORMATION: Title III of the Marine Protection, Research, and Sanctuaries Act of 1972 as amended, 16 U.S.C. 1431 et seq. (the Act), authorizes the Secretary of Commerce to designate ocean water, over which the United States exercises jurisdiction, consistent with international law, as national marine sanctuaries. The purpose of designating national marine sanctuaries is to protect and manage distinctive areas of the marine environment for those conservation, recreational, ecological, historical, research, educational or aesthetic values which give these areas special national significance. The Act is administered by the National Oceanic and Atmospheric Administration (NOAA) through the Office of Ocean and Coastal Resource Management (OCRM), Sanctuary Program Division (SPD).

Natural Resources

Norfolk Canyon is the southernmost in a series of major submarine canyons along the Atlantic continental margin of the United States and is the only one of these canyons that can be associated with a major drainage system in a non-glaciated area. Norfolk Canyon extends for 10 to 12 miles on the continental shelf, descends the slope, and terminates on the upper continental rise. The extensive range of water depths and topography within the canyon provides habitats for a variety of demersal fish, decapods and other benthic or sessile organisms, including several types of coral. A more detailed discussion of Norfolk Canyon marine life is contained in the announcement of preliminary consultation on the site, 50 FR 37760.

Human Uses

The major human activities in the Norfolk Canyon area are recreational and commercial fishing and military operations. Two old dump sites for radioactive wastes are located in the canyon, but no dumping occurs there at present. There is currently no mineral resource development activity in the vicinity of Norfolk Canyon, although the area may have exploitable oil and gas deposits [EG & G *Environemntal Description of Norfolk Submarine Canyon.* Prepared for NOAA, Washington, DC, 1983].

The Designation Process

The preliminary consultation on Norfolk Canyon as a potential site for designation as a national marine sanctuary was begun with a notice published in the Federal Register, September 17, 1985, 50 FR 37760. A summary of comments received in the preliminay consultation and NOAA's response to them was published February 28, 1986, 51 FR 7097, in an announcement that Norfolk Canyon had been selected as an active candidate for sancturay status and that NOAA intended to prepare a draft environmental impact statement and management plan for the site. The initiation of this process does not commit NOAA to the final designation of Norfolk Canyon as a national marine sanctuary.

The management plan to be prepared for the proposed sanctuary will specify the goals and objectives of sanctuary designation and describe programs for resource protection, research and interpretation. Implementation of the management plan will be analyzed in the environmental impact statement.

Opportunities for public participation in NOAA's development of an environmental impact statement and management plan will be provided through the June scoping meeting, the solicitation of comments on the draft environmental impact statement, and formal public hearings.

The June scoping meeting will attempt to identify issues in establishing a Norfolk Canyon sanctuary and generate suggestions for resolving them.

Topics for discussion will include the following: (1) Boundary alternatives, (2) Management alternatives, (3) Resource protection, (4) Research opportunities and (5) Interpretative opportunities.

Peter L. Tweedt,

Director, Office of Ocean and Coastal Resource Management.

[FR Doc. 86-11185 Filed 5-16-86; 8:45 am]

BILLING CODE 3510-08-M

Patent and Trademark Office

Extension of Previously Granted Interim Orders Under the Semiconductor Chip Protection Act of 1984

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Date for Hearing on Interim Orders under 17 U.S.C. 914.

SUMMARY: On March 24, 1986, 51 FR 10073-86, the Assistant Secretary and Commissioner of Patents and Trademarks solicited comments on the progress made toward the establishment of systems for the protection of mask works in Japan, Sweden, Australia, The United Kingdom, The Netherlands, Canada, Belgium, Denmark, France, The Federal Republic of Germany, Greece, Ireland, Italy and Luxembourg. Comments were originally requested by April 10, 1986. The Commissioner extended the period for comment to April 30, 1986. Comments were received regarding progress in Sweden, Japan, Canada, Australia, the United Kingdom, and the European Economic Community. The U.S. Semiconductor Industry Association (SIA) submitted comments and requested that a public hearing be held to review the situation regarding mask work protection.

Those comments are available for public inspection in the Office of Legislation and International Affairs in the U.S. Patent and Trademark Office.

All of the comments indicate that progress toward mask work protection is underway, however the variety of the approaches being adopted, as well as the complexity of the subject matter,

make it difficult to consider how existing interim orders ought to be considered. Consequently, to promote a full public discussion of the issues concerning mask work protection internationally, a public hearing on the existing interim orders will be held on July 9, 1986.

The interim orders issued for Japan, Sweden, Australia, and Canada are presently scheduled to expire in June 1986. In view of the date set for the hearing, it is clear that these orders would expire before the additional information disclosed at the hearing could be evaluated. The submissions from Japan, Sweden, Australia, and Canada indicate that reasonable progress toward developing regimes for mask work protection is underway and that mask works are not subject to misappropriation in any of these countries. Consequently, to promote the development of international comity in the protection of mask works, the interim orders issued for Japan, Sweden, Australia, and Canada are hereby extended to expire on September 12, 1986, the same date as the interim orders issued for the Member Countries of the European Economic Community.

Date and Location of Hearing

July 9, 1986, 9:00 A.M., U.S. Patent and Trademark Office, Commissioner's Conference Room, 2021 Jefferson Davis Highway, Arlington, Virginia.

Requests to Testify

Requests to testify and 25 copies of the statement to be delivered must be received in the Commissioner's Office by close of business, June 27, 1986. Address written materials to: Commissioner of Patents and Trademarks, Box 4, Washington, DC 20231.

FOR FURTHER INFORMATION CONTACT: Michael K. Kirk, Assistant Commissioner for External Affairs, by telephone at (703) 557–3065, or by mail marked to his attention and addressed to Commissioner of Patents and Trademarks, Box 4, Washington, DC 20231.

SUPPLEMENTARY INFORMATION: The "Semiconductor Chip Protection Act (SCPA) of 1984," 17 U.S.C. 900 et seq., established a procedure designed to promote the rapid development of a new international system of intellectual property protection for mask works or the design-layout of semiconductor chips.

To carry out this intent, the Congress gave the Secretary of Commerce the authority, under section 914 of the SCPA, to extend to nationals, domiciliaries, and sovereign authorities of foreign countries the privilege of mask work protection in the United States if certain conditions were fulfilled. The Secretary has delegated to the Assistant Secretary and Commissioner of Patents and Trademarks the responsibility to make findings concerning a foreign nation's good faith efforts and reasonable progress toward: (1) Entering into a treaty to protect mask works, or (2) enacting legislation to protect mask works on either substantially the same basis as under the U.S. law or in the same manner that it provides similar protection to its own nationals, and (3) that mask works are not being misappropriated in that country, and (4) that issuing the order would promote international comity in the protection of mask works.

Acting under this section, the Commissioner has extended interim orders to fourteen States, all of whom have responded to the request for comments published at 51 FR 10073–86. The speed with which other governments have acted to respond to the needs for legal protection in this frontier technology is commendable, and certainly, at least in part due to the interim order procedure. Although the response to the U.S. initiative has been rapid, it has been varied. This response, points out the wisdom of the Congress in providing this flexible interim order process through which technical and legal experts from both the U.S. and foreign countries are presented with a forum in which to develop their ideas.

The U.S. SCPA is based on a carefully crafted balance that promotes the public interest, and brings equilibrium to the interests of both producers and consumers of semiconductor chip products. This is done by granting chip producers appropriately limited exclusive rights, while assuring that the technology will achieve widespread dissemination through carefully crafted reverse engineering principles, and assuring that the consuming public's interest is protected through the innocent infringement provisions. If any of these elements of the law are made either disproportionately strong or weak the balance of the intended legal regime will suffer. For example, if reverse engineering is given too broad scope it can vitiate the protection afforded by the exclusive rights. On the other hand, if reverse engineering rights are too narrowly defined the result could be a real inhibition on international trade, because chips produced by reverse engineering in one country could be denied entry into a second country where the scope of permitted reverse engineering was less. Other equally serious concerns can arise in other areas.

The nature of an appropriate international legal regime for the protection of semiconductor chips is also being actively discussed in the World Intellectual Property Organization (WIPO) where a Group of Experts will meet from June 23 to 27, 1986, to discuss a draft treaty for the protection of integrated circuit chips. That process has made it clear that while there is a broad general agreement that this frontier technology deserves legal protection, there are questions about the specific features of such a new, *sui generis*, system of protection that must be addressed. As the comment letters submitted show, many of the countries to whom interim orders have been issued have been leading, active participants in the WIPO discussions.

One important feature of the 1984 SCPA was the provision that mask works that were first commercially exploited between July 1, 1983, and November 8, 1984, could be protected if registered in the Copyright Office prior to July 1, 1985. Because of that deadline, a number of countries sought interim orders and the requests were handled expeditiously. Those orders, issued at various dates in June, 1985, will expire before this hearing process can be completed unless those orders are extended. A brief review of progress in each of those countries is consequently appropriate.

In Japan, the new Act Concerning the Circuit Layout of a Semiconductor Integrated Circuit, Law No. 43 of 1985, became effective on January 1, 1986 and Japanese authorities are accepting and issuing chip registrations. However, the U.S. Semiconductor Industry Association has voiced some concern over the way in which the registration system has been implemented.

In Sweden, the report of the Swedish Committee for the Revision of the Copyright Law, and the comments received from Government of Sweden clearly indicate progress. Legislation is expected to be passed in the fall of 1986. This effort continues to be strongly supported by Swedish industry.

In Australia, the Government's submission indicates that consultations on the appropriate future policy to be pursued concerning chip protection are

underway, and that the doubts concerning the application of Australian copyright law to semi-conductor chip protection have been largely answered following the High Court's decision in *Edwards Hot Water* v. *Solarhand*.

In Canada, the Government is actively pursuing the enactment of a copyright oriented, *sui generis* system for the protection of semiconductor chips.

We have not been informed of any practices of misappropriation of semiconductor chips in any of these countries. Also, all of these countries are actively working in the WIPO forum to pursue the negotiation of a new treaty for the protection of semiconductor chips.

Consequently, I find that extending the interim orders for Japan, Sweden, Australia, and Canada until September 12, 1986, is appropriate. Since information on the specific features of proposed legislation is not available, and the U.S. Semiconductor Industry Association has raised concerns about the operation, in practice, of the Japanese registration system, I also conclude that holding a public hearing to permit a full airing of views would be appropriate. I am scheduling the hearing for July 9, 1986, at 9:00 A.M. so that a full review of progress can be made before September 12, 1986. This will also permit the Office to consider the progress in WIPO and how such activity may affect decisions on how to proceed with the interim order process.

To promote an orderly conduct of the hearing, each party appearing will be permitted 30 minutes in which to make their presentation and to respond to questions from the hearing panel. Written statements (25 copies) and requests to testify must be submitted to the Commissioner of Patents and Trademarks by close of business, June 27, 1986.

Dated: May 12, 1986.

Donald W. Peterson,

Deputy Assistant Secretary and Deputy Commissioner of Patents and Trademarks.

BILLING CODE 3510-16-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comment on Bilateral Textile Consultations With Korea To Review Trade in Categories 363 and 650

On April 11, and 24, 1986, the Government of the United States requested consultations with the Government of the Republic of Korea with respect to man-made fiber dressing gowns in Category 650 and cotton terry and other pile towels in Category 363. This request was made on the basis of the agreement of December 1, 1982, as amended, between the Governments of the United States and the Republic of Korea relating to trade in cotton, wool and man-made fiber textiles and textile products.

The purpose of this notice is to advise the public that if no solution is agreed upon in consultations with Korea, the Committee for the Implementation of Textile Agreements may later establish limits for the entry and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in Categories 363 and 650, produced or manufactured in Korea and exported to the United States during the twelve-month period which began on January 1, 1986 and extends through December 31, 1986.

Anyone wishing to comment or provide data or information regarding the treatment of these categories is invited to submit such comments or information in 20 copies to Mr. William H. Houston III, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230. Since the exact timing of the consultations is not yet certain, comments should be submitted promptly.

Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC, and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption contained in 5 U.S.C. 553 (a)(1) relating to matters which constitute "a foreign affairs function of the United States."

William H. Houston III,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

DEPARTMENT OF DEFENSE

Department of the Navy

Chief of Naval Operations, Executive Panel Advisory Committee, Role of the Naval Reserve in the Maritime Strategy Task Force; Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. app.), notice is hereby given that the Chief of Naval Operations (CNO) Executive Panel Advisory Committee Role of the Naval Reserve in the Maritime Strategy Task Force will meet June 3–4, 1986, from 9 a.m. to 5 p.m. each day, at 4401 Ford Avenue, Alexandria, Virginia. All sessions will be closed to the public.

The purpose of this meeting is to examine or determine a strategic rationale for the employment of Reserve forces, the value of the Reserve to the total force, and the best way to develop Reserve resources. The entire agenda for the meeting will consist of discussions of key issues regarding changes in the strategic balance, the need for mobilization capability, and related intelligence. These matters constitute classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the pubic interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in section 552b(c)(1) of title 5, U.S.C.

For further information concerning this meeting, contact Lieutenant Paul G. Butler, Executive Secretary of the CNO Executive Panel Advisory Committee, 4401, Ford Avenue, Room 928, Alexandria, Virginia 22302-0268. Phone (703) 756-1205.

Dated: May 14, 1986.

William R. Rose, Jr.,

Lieutenant, JAGC, U.S. Naval Reserve, Federal Register Liaison Officer.

[FR Doc. 86-11184 Filed 5-16-86; 8:45 am]

BILLING CODE 3810-AE-M

DEPARTMENT OF EDUCATION

Secretary's Discretionary Program—Field Initiated Grant Program

AGENCY: Department of Education.

ACTION: Application notice for new awards under the Secretary's Discretionary Program for Fiscal Year 1986.

Programmatic and Fiscal Information

The Secretary of Education (the Secretary), announces a grant competition under the Secretary's Discretionary Program for fiscal year (FY) 1986. Pursuant to 34 CFR 760.11, the Secretary has chosen not to establish priorities for this competition. Therefore, the Secretary invites applications for projects on field-initiated topics.

To be eligible for funding under this program, a project must be designed to meet the special educational needs of educationally deprived children or to improve elementary and secondary education for children consistent with the purposes of the Education Consolidation and Improvement Act of 1981 (ECIA). The Secretary is authorized to fund projects that consist of one or more of the following activities:

1. Providing a national source for gathering and disseminating information on the effectiveness of programs designed to meet the special educational needs of educationally deprived children and others served by the ECIA, and for assessing the needs of such individuals;

2. Carrying out research and demonstrations related to the purposes of the ECIA;

3. Improving the training of teachers and other instructional personnel needed to carry out the purposes of the ECIA; or

4. Providing technical assistance to State educational agencies (SEAs) and local educational agencies (SEAs) in the implementation of programs under the ECIA.

SEAs and LEAs, institutions of higher education, and other public and private agencies, organizations, and institutions may apply for a grant. An applicant may apply singly or jointly with another eligible applicant, as provided in 34 CFR 75.127 through 75.129.

The Secretary urges applicants to limit the amount of assistance requested to not more than $100,000 per application since resources available under this announcement are limited. It is estimated that 8 to 10 awards will be made.

These estimates do not bind the Department of Education to a specific number of grants or to the amount of any grant unless that amount is otherwise specifically by statute or regulations.

The Secretary encourages applicants to propose projects that demonstrate the applicant's thorough knowledge of previous work in the area to be addressed. A proposed project should use existing materials to the fullest extent possible. Also, because of the limited available resources, the Secretary encourages applicants to propose projects that would use the funds awarded for this competition to supplement other sources of funding. Projects supported under this program will be for a period of up to 12 months.

Selection Criteria

In evaluating applications under this program, the Secretary uses the selection criteria contained in § 760.31 of the regulations. The maximum possible number of points for these criteria is 85. In addition, the regulations authorize the Secretary to reserve and to distribute 15 additional points among the selection criteria listed in the regulations to bring the total to a maximum of 100 points. The Secretary will distribute these reserved points to the criterion at 34 CFR 760.31(f) *Improving elementary and secondary education*, for a possible total of 25 points for this criterion.

Closing Date for the Transmittal of Applications

Applications for new awards must be mailed or hand-delivered by July 7, 1986.

Applications sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: (CFDA No. 84. 122B, 400 Maryland Avenue, SW., Washington, DC 20202.

Each late applicant will be notified that its application will not be considered.

Applications that are hand-delivered must be taken to the U.S. Department of Education, Application Control Center, Room 3633, Regional Office Building #3, 7th and D Streets, SW., Washington, DC.

The Application Control Center will accept hand-delivered applications between 8:00 a.m. and 4:30 p.m. (Washington, DC, time) daily, except Saturdays, Sundays, and Federal Holidays.

Applicable Regulations

Regulations applicable to the program include the following:

(a) The regulations governing the Secretary's Discretionary Program in 34 CFR Part 760.

(b) The Education Department General Administrative Regulations (EDGAR), 34 CFR Parts 74, 75, 77, and 78.

Application Forms

Application forms and program information packages will be available on May 30, 1986. These may be obtained by writing to: The Secretary's Discretionary Program, U.S. Department of Education, Room 722, Brown Building, 1200 19th Street, NW., Washington, DC 20208.

Further Information

For further information, contact: Thomas E. Enderlein, Secretary's Discretionary Progarm, U.S. Department of Education, Room 722, Brown Building, 1200 19th Street, NW., Washington, DC. 20208 Telephone: (202) 254–8227.

Fund For the Improvement of Postsecondary Education; Application Notice for Comprehensive Program for FY 1986; Extension of Closing Date

AGENCY: Department of Education.

ACTION: Extension of closing date for transmittal of applications for new awards under the comprehensive program for fiscal year 1986.

The Secretary extends the closing date for transmittal of applications for new awards under the Comprehensive Program of the Fund for the Improvement of Postsecondary Education for fiscal year 1986. The closing date for full applications is extended from June 4, 1986 to June 12, 1986.

On December 234, 1985 the Secretary published the Notice establishing the closing date for transmittal of preapplications and applications for the fiscal year 1986 competition under the Comprehensive Preogram (50 FR 52550–52552). Detailed information concerning this program is included in that notice. The purpose of this notice is to extend the closing date for transmittal of applications.

Further information: For further information contact the Fund for the Improvement of Postsecondary Education regarding the Comprehensive Program. Telephone (202) 245–8091/8100.

Dated: May 13, 1986.

III. Request for Comments.

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub L. 93-275) and the Department of Energy (DOE) Organization Act (Pub L. 95-91), the Energy Information Administration is obligated to publish, and otherwise make available to the public, high-quality statistical data that reflect current and prospective national and regional electric power supply and demand activity as accurately as possible.

To meet this responsibility, as well as internal DOE requirements that are dependent on accurate data, the EIA conducts statistical surveys that encompass every major electric power supply and demand activity in the United States. In addition to the electric power surveys administered by EIA for DOE and other federal agencies, DOE's Assistant Secretary for International Affairs and Energy Emergencies (IE) collects electric power system planning and system reliability information from the nine Regional Electric Reliability Councils in the United States.

II. Current Actions

In keeping with its mandated responsibilities, EIA proposes to extend for 3 years the following electric power data collection forms:

Monthly Electric Bill Data (Form EIA-101)
Typical Net Monthly Bills (Form EIA-213)
Annual Report of Publicly-Owned Electric, Utilities (Form EIA-412)
Annual Electric Power System Report (Form EIA-714)
Monthly Power Plant Report (Form EIA-759)
Steam-Electric Plant Operation and Design Report, (Form EIA-767)
Electric Utility Company Monthly Statement (Form EIA-826)
Annual Electric Generator Report (Form EIA-860)
Annual Electric Utility Report (Form EIA-861)
Coordinated Regional Bulk Power Supply Program Report (Form IE-411)

EIA proposes to revise the Form EIA-412 by eliminating the following parts:

Part V: Electric Sales Data for the Year
Part XII: Accumulated Provisions for Depreciation of Utility Plant, columns, b, c, d, and e
Part XVIII: Generating Plant Statistics (Small Plants)
Part XIX: Steam-Electric Generating Plants
Part XX: Hydroelectric Generating Plants
Part XXI: Internal Combustion engine and Gas-Turbine Generating Plants
Part XXV: Electric Energy Account

EIA proposes to revise the threshold for filing the EIA-412 to those publicly owned utilities who have sales to ultimate customers or sales for resale that are 100,000,000 kilowatthours or greater.

Except for the IE-411, EIA-767, and the EIA-714, all of the above are solely sponsored by EIA. EIA is reviewing all forms to improve the instructions or delete individual data items no longer required.

The Form EIA-767 is sponsored jointly by the Environmental Protection Agency (EPA); the Bureau of Economic Analysis, Department of Commerce; the Federal Energy Regulatory Commission; and the DOE Office of Environment, Safety, and Health (EH). EPA proposes to revise the Form EIA-767 by requiring that each U.S. plant with a total existing or planned organic- or nuclear-fueled steam-electric generator nameplate rating less than 100 megawatts submit page 1, Identification Information, and page 6, Boiler Fuel Consumption and Quality. EH proposes to include pages 13 and 14, Flue Gas Desulfurization Unit Annual Operations and Design Parameters for those plants also under 100 megawatts.

The Form EIA-714 is sponsored by the Federal Energy Regulatory Commission (FERC) and the EIA. The EIA, in coordination with the sponsors, processes the data collected on Forms EIA-767 and EIA-714. EIA and FERC are proposing the following changes for Form EIA-714. The threshold which requires filing of the Form EIA-714 is being modified to: "utilities whose own generation is greater than 100,000,000 kilowatt hours per year." To allow flexibility in the reporting of columns g through j of Schedule 5, "High Voltage Line Data," the following clarification of the instruction is proposed. "Power flow data entered in columns g through j may be obtained from meter recordings or the results of load flow simulations reasonably representing system conditions for the reporting periods. While the preferred reporting is actual metered data, simulations or data therefrom are acceptable as representative proxies for actual metered data. If simulations are used to provide the data, they need only be made under conditions which reasonably would have been expected during the reporting period."

In addition to the EIA-administered electric power surveys listed above, EIA solicits comments on the "Coordinated Regional Bulk Power Supply Program Report," (Form IE-411). Form IE-411 is not administered by EIA, but it is part of DOE's information base on electric utilities. Consideration is being given to reducing the data collection burden associated with the Form EI-411 by eliminating sections 3-C (unavailable capacity), 6-B (conceptual long-range plans) and 7-C (interruptible demand), and by using Form EIA-860 data to replace items 2-A (existing generating units) and 2-B (proposed generating units). The DOE staff is coordinating

BEST COPY AVAILABLE

this activity with the representatives of the North American Electric Reliability Council (NERC) by providing the EIA–860 data files to NERC for review.

III. Request for Comments

Prospective respondents and other interested parties should comment on the proposed extensions within 30 days of the publication of this notice. The following general guidelines are provided to assist in the preparation of responses. When providing comments, please indicate to which form(s) each comment applies.

As a potential respondent:

A. Are the instructions and definitions clear and sufficient? If not, what instructions require clarification?

B. Can the data be submitted using the definitions included in the instructions?

C. Can data be submitted in accordance with the response time specified in the instructions?

D. How many hours, including time for preparation and administrative review, will you require to complete and submit the required form(s)?

E. What is the estimated cost of completing this form(s), including the direct and indirect costs associated with the data collection? Direct cost should include all costs, such as administrative costs, directly attributable to providing this information.

F. How can the form(s) be improved?

G. Do you know of other federal, state, or local agencies that collect similar data? If you do, specify the agency, the data elements, and the means of collection.

As a potential user:

A. Can you use data at the levels of detail indicated on the form(s)?

B. For what purposes would you use the data? Be specific.

C. How could the form(s) be improved to better meet your specific needs?

D. Are there alternate sources of data and do you use them? What are their deficiencies and/or strengths?

EIA is also interested in receiving comments from persons regarding their views on the need for the collection of the information contained in the electric power surveys.

Comments submitted in response to this notice will be summarized and/or included in the requests for OMB approval of these data surveys; they also will become a matter of public record.

Issued in Washington, DC, May 13, 1986.

John Gross,

Acting Director, Statistical Standards, Energy Information Administration.

Federal Energy Regulatory Commission

[Docket No. CP85–437–000 etc.]

Mojave Pipeline Co.; et al.; Pipeline Projects to Supply Natural Gas for Enhanced Oil Recovery in California Supplemental Notice of Intent to Prepare a Draft Environmental Impact Statement

May 12, 1986.

In the matter of Mojave Pipeline Co., Kern River Gas Transmission Co., El Dorado Interstate Transmission Co., Transwestern Pipeline Co., El Paso Natural Gas Co., Northwest Pipeline Co. Docket Nos. CP85–437–000, CP85–552–000, CP86–205–000, CP86–212–000, CP86–197–001, CP85–625–000.

Introduction

Applications for approval of the above projects have been filed with the Federal Energy Regulatory Commisson (FERC) pursuant to section 7(c) of the Natural Gas Act. The first three projects, the Mojave Pipeline Project (Mojave), Kern River Project (Kern River), and the El Dorado Pipeline Project (El Dorado), are competing to transport natural gas from various sources outside of California to the Bakersfield, California, area for use in enhanced oil recovery (EOR) and related cogeneration projects. In each case, producers of crude oil in the San Joaquin Valley would use the natural gas as boiler fuel to create steam which would be injected into the oil fields to produce crude oil not recoverable by primary recovery methods. Some of the steam would also be used to generate electricity. The producers currently use crude oil and a limited amount of natural gas for steam generation. These proposed projects would allow substitution of natural gas for the crude oil now used, and may allow entry into the market of producers which presently cannot get authority to burn oil due to air pollution restrictions.

On August 23, 1985, and December 10, 1985, the FERC issued notices of intent to prepare a draft environmental impact statement (DEIS) and request for comments on its scope for the projects proposed in the above dockets (50 FR 34174 and 50941). The remaining applications, by El Paso Natural Gas Company (El Paso), Transwestern Pipeline Company and Northwest Pipeline Company involve facilities to deliver gas to the competitors.

On February 21, 1986, El Paso amended its original application to expand its existing system to transport natural gas to Mojave in western Arizona for delivery to California. This expansion could also be used to transport natural gas to El Dorado.

This supplementary notice of intent is to notify recipients of the original notices tht the El Paso portion of the proposed projects has been formally changed by the applicant.

This notice only modifies the December 10, 1985, notice as it relates to El Paso's facilities. In that notice the staff indicated that the DEIS would include an analysis of El Paso's identified (but not proposed) Case III which involved some 93.8 miles of pipeline looping. The current proposal, Case IV, involves 126.4 miles of looping, of which 40.5 miles are not part of Case III.

Scoping meetings, noticed in the **Federal Register** on January 27, 1986, (51 FR 3402) were held in Albuquerque, New Mexico and Flagstaff, Arizona, and an additional meeting was held at the tribal headquarters of the Navajo nation. The Case IV facilities were identified at each of these meetings. Therefore no additional scoping is necessary as a result of El Paso's amended filing.

Notice of Intent

Notice is hereby given that the staff of the FERC has determined that approval of any of the competing projects would be a major Federal action significantly affecting the quality of the human environment. Therefore, pursuant to § 2.82(b) of the Commission's rules of practice and procedure (18 CFR 2.82(b)), a DEIS will be prepared. The FERC will be the lead Federal agency and, with the California State Lands Commission (SLC), will produce a joint environmental impact statement/environmental impact report (EIS/EIR) satisfying the requirements of the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA), respectively.

El Paso Expansion Project

El Paso's amended filing proposes to transport up to 400 MMcfd in support of the California EOR projects. This scenario is Case IV which is outlined in table 1 along with the original Case III.

Cases III and IV differ in their facility requirements because of the assumptions El Paso has made concerning the volumes of gas to be transported and system operation constraints. Since El Paso would not necessarily be the supplier of the gas it would transport to California, it says that it must make these assumptions for purposes of the application. Table 1

shown the assumed receipt points and gas volumes.

Case IV does not deliver enough gas to fill the design requirement for either Mojave or El Dorado. The Transwestern Expansion's 320 MMcfd must be included with the 400 MMcfd of Case IV to satisfy their requirements. With both expansions in place 720 MMcfd could be delivered to either company. This would be more than enough gas since Mojave only requires 680 MMcfd and El Dorado only 530 MMcfd.

TABLE 1.—EL PASO EXPANSION PROJECT FACILITY REQUIREMENTS [1]

	Case III	Case IV
Looping (miles, diameter)	93.8, 30- and 34-inch	128.4, 30- and 36-inch
Compression (horsepower)	7,160	7,160
Assumed receipt points and associated volume of gas (MMcfd): Ignacio (Colorado)	200	200
Blanco (New Mexico)		200
Total volume (MMcfd)	200	400

TABLE 1.—EL PASO EXPANSION PROJECT FACILITY REQUIREMENTS [1]—Continued

	Case III	Case IV
Hypothetical Flows (Tcf/d)	400	200
Total volume (MMcfd)	600	400

[1] Less gas could be delivered under Case IV. This is because the design basis for Case III turned out to be impractical. Case III is no longer a valid scenario for supplying the interstate projects.

Table 2 contains a description of all facilities needed for Case IV compared to Case III. Map 3 of the December 10, 1985, notice is attached to show locations of the loops.[1]

Case IV would directly affect some 1,500 acres of Federal State, private, and Indian lands during construction; however, only about 920 acres would be additional ROW needed for construction and operation since 580 acres of existing right-of-way would be used.

[1] Not printed in the Federal Register. Copies are available from the Commission's Division of Public Information.

TABLE 2.—EL PASO EXPANSION PROJECT FACILITY LOCATIONS

State and county	Miles of pipe: Case III	Miles of pipe: Case IV	Facility name	Areas of special concern
New Mexico: San Juan	14.6	14.6	Blanco Loop	
	6.4	6.5	Chaco Loop (1.1 added on east end)	
	8.6	8.5	White Rock Loop (0.1 dropped on east end)	Navajo Indian Reservation.
Total	29.6	37.0		
McKinley	14.5	14.5	Gallup Loop	
Arizona: Apache	9.4	16.0	Window Rock Loop (6.6 added on east end)	Navajo Indian Reservation.
Navajo	9.0	16.1	Navajo Loop (8.1 added on east end)	Do.
Coconino	13.3	37.0	Williams Loop (8.6 added on east and 14.9 on west end)	Coconino and Kaibab National Forests.
Yavapai	9.6	1.8	Seligman Loop (7.8 dropped from east end)	
Mohave	8.0	8.0	Hackberry Loop	
Yuma	—		Piping at Wenden Compressor Station	
Colorado: La Plata			Bondad Compressor Station (7,160hp additional)	

The El Paso Expansion Project would require no more than an additional 60 feet of ROW adjacent to the existing pipelines for both construction and operation. Additional land, on the order of 2 acres per crossing, would be needed to install the pipeline across some watercourses, railroads, and paved highway crossings. Because this project loops existing lines, new staging areas, maintenance bases, and communications facilities should not be needed. Minor surface facilities which would be associated with the looping would consist of valves, cathodic protection power sources, and pig launchers and receivers and would generally be within the permanent ROW.

No major rivers, wilderness areas, wilderness study areas, or RARE II areas would be traversed by the proposed loops.

Case IV would require the addition of 7,160 horsepower of compression at the Bondad Compressor Station, La Plata County, Colorado, the same as Case III. Also, approximately 600 feet of station piping and related modifications would be required at the Wenden Compressor Station in Yuma County, Arizona. Rewheeling of compressors would be needed at the White Rock, Gallup "B", and Seligman "B" compressor stations, and additional meter runs would be required at the Topcook Meter Station. None of these station modifications would require construction outside the existing station boundaries.

Questions concerning this notice should be addressed to: Mr. Robert K. Arvedlund, OPPR/FEB, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426 (202) 357–8043.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717–01–M

[Docket No. C86–302–000, et al.]

Estate of Sam Sklar, et al.; Applications for Abandonment of Service

May 14, 1986.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for authorization to abandon service as described herein.

The circumstances presented in the applications meet the criteria for consideration on an expedited basis, pursuant to Section 2.77 of the Commission's rules as promulgated by Order Nos. 436 and 436–A, issued October 9, and December 12, 1985, respectively, in Docket No. RM85–1–000, all as more fully described in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before 15 days after the date of publication of this notice in the Federal Register, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb

Secretary

C86-382-000, B, Apr 2, 1986[1]	Estate of Sam Stiler, *et al.*[2] 2315 Mercantile Bank Bldg., Dallas, Texas 75201.	United Gas Pipe Line Company, Willow Springs Field, Gregg County, Texas.	([3])	
C86-382-000, B, Apr 21, 1986[4]	Coquina Oil Corporation,[5] P.O. Drawer 2880, Midland, Texas 79702.	El Paso Natural Gas Company, Wagner Federal No. 2 well, Eddy County, New Mexico.	([6])	
C86-384-000, B, Apr 24, 1986[7]	Scarth Oil & Gas Co.,[8] 601 South Polk, Amarillo, Texas 79101.	Panhandle Eastern Pipe Line Co., Lee #1 & #2, Logedon #1, and Hill #1 wells, Hansford County, Texas.	([9])	
C86-407-000, B, May 5, 1986	United Resources Capital Corporation, *et al.*[10] Robert S. Rose, Esq., 10100 Santa Monica Blvd., Suite 210, Century City North Building, Los Angeles, California 90067.	United Gas Pipe Line Company, Liberty-Simoneaux #1 well, Bayou des Allemands Field, St. Charles Parish, Louisiana.	([11])	

[1] Additional information received April 14 and 30, 1986.

[2] Applicants are Estate of Sam Stiler, August Erickson, Leonard W. Phillips, Albert Stiler, Idia D. White, Independent Executrix for the Estate of Morris B. White, and Betty Jo Walker Upton, which operate under small producer certificate in Docket No. CS72-187, Louis Dorfman, Sam Y. Dorfman, Jr., and S. L. Florsheim, Jr., which operate under small producer certificate in Docket NO. CS72-408, Clark Sestaple, Jr., which operates under small producer certificate in Docket No. CS72-768, and Steven A. Fehle.

[3] Applicants request authorization to abandon for a limited term not to exceed two years the sale of gas in excess of United's nominations from six wells. Applicants state that the wells and NGPA classification are as follows:

Well name and Classification
P.D. Hamson No. 2, Section 104
Claude Hayes No. 3, Section 109
McWherter No. 2, Section 104
Stevens No. 2, Section 104
Joe Toler No. 2 Section 104
G.A. Kelley No. 2, Section 104

Applicants state that delivery capacity for the subject wells in the aggregate is 992 Mcf per day, and United's nominations for the subject wells are less than 10% of delivery capacity. Applicants have advised that the subject contract contains no take-or-pay clause. Applicants state that they are currently seeking alternative marketing arrangements to sell their share of excess gas produced from the subject acreage.

[4] Additional information filed May 5, 1986.

[5] Sale covered under small producer certificate issued to Docket No. CS69-191.

[6] Applicant requests a limited-term abandonment of its sale of gas to El Paso from the Wagner Federal No. 2 well. Applicant states it is its preference that the abandonment be granted for a period of three years. Applicant states that the well qualifies as an NGPA section 109 well, and that the current deliverability of the well is 40 to 60 Mcf per day. Applicant states that El Paso is not paying for gas not taken. Applicant proposes to enter into a spot market contract with El Paso Gas Marketing Company.

[7] Additional information received May 1 and 7, 1986.

[8] Applicant's sales are covered by a small producer certificate issued in Docket No. CS79-324.

[9] Applicant requests authorization to abandon its sale of gas to Panhandle. Applicant states that the wells produce NGPA section 104—post 1974 gas and deliverability of the Logedon #1 is 250 to 300 Mcf per day and deliverability of the Hill #1 is 650 to 700 Mcf per day. The Lee #1 was plugged and abandoned and was replaced by the Lee #2 well from which no gas has been produced. Panhandle has concurred in the permanent abandonment of these sales by letter dated April 8, 1986. In Docket No. C86-48-000, Applicant was granted an abandonment on a month-to-month basis, until terminated by 30 days notice by either party; with respect to these sales, however, Applicant states that its ability to market its gas on a firm basis has been inhibited by virtue of the wells' contractual dedication to Panhandle.

[10] Applicants are: United Resources Capital Corporation, an affiliate of United California Capital Corporation, Mongrue Trust #1, John P. Harlan, and Gator Energy Corporation.

[11] Applicants request an abandonment of their sale to United from the Liberty-Simoneaux #1 well for a period of two years in order to seek an interstate market for the gas. Applicants state that the well is undergoing substantially reduced takes and United is not paying for gas not taken. United has concurred with the proposed limited-term abandonment by letter date April 21, 1986. United states that excess deliverability released is that gas production which Applicants have available for delivery on any day to United that is surplus to the needs of United on that day. Applicants state that the deliverability is approximately 1,000 Mcf per day. Applicants further state that the price for the gas is $1.746 per MMBtu at 14.73 psia plus severance tax which is a special relief price granted in Docket No. RP76-78-000 by order issued August 3, 1982.

Filing Code: A—Initial Service; B—Abandonment; C—Amendment to add acreage; D—Amendment to delete acreage; E—Total Succession; F—Partial Succession.

Cities Service Oil & Gas Corp., et al.; Applications for Certificates, Abandonments of Service and Petitions to Amend Certificates [1]

May 14, 1986.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 29, 1986, file with the Federal Energy Regulatory Commission, Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[1] To release gas for irrigation fuel.
[2] Lease(s) relinquished.
[3] Original dedication covered Union's interest in five offshore blocks. Block 32 was subsequently assigned to Eugene Shoal Oil Company and sales authorized in Docket No. C83-33-000 and Rate Schedule No. 266. The remaining boocks were non-productive and the leases on these blocks expired on 11-24-86 and the remaining block on 11-17-86. A new OCS lease was issued on Block 42 on 12-1-81 and is not subject to the Commission's Natural Gas Act jurisdiction in accordance with Section 601(a)(1)(C) of the NGPA.
[4] Partial Assignment of interest in State Lease No. 977 dated 3-27-74 to Despot Exploration, Inc.
[5] ARCO assigned certain interests to James D. Mullins and Robert L. Prichard and no longer holds an interest in acreage to be deleted.
[6] ARCO conveyed its interest in assigned acreage to Petroleum Engineers Inc. and Phillip B. Berry.
[7] By Agreement dated 5-7-84, Shell Offshore Inc. has farmed-out certain acreage to FMP Operating Company.
[8] By Assignment dated 12-31-85, and effective as of 9-1-85, Shell Offshore Inc. has assigned certain of its interest to Taylor Energy Company.
[9] Production ceased and depletion of reserves.

[10] Partial assignment of interest to Hullco Petroleum Corporation, et al.
[11] Applicant is filing pursuant to an Amendment dated 1-27-86 to the Gas Purchase Agreement dated 7-16-79.
[12] Committed acreage was rolled over into Texaco Producing Inc. Gas Rate Schedule 341 (formerly Getty 341) by contract dated 9-9-85, filed with the Commission on 3-5-86.
[13] Termination of surplus gas contract. No gas has been available for 17 years.
[14] Interim sale of sour gas in intrastate market while interstate purchaser is in the proces of trying to get a permit for a sweetening facility.
[15] Depths from the surface down to 3,935 feet underlying the E. A. Hall Lease were conveyed to Olsen Energy Inc. on 7-13-82. The remaining acreage was non-productive and the gas contract was canceled 11-11-82.
[16] Not used.
[17] Effective 5-1-85, Cities Service Oil and Gas Corporation acquired from Sun Exploration and Production Company 25% interest in State Tract 15 (from 11,182 feet to 11,260 feet), Corpus Christi Bay, Nueces County, Texas, covered under Gas Purchase Contract dated 4-14-66, between Sun and United Gas Pipe Line Company.
[18] By an instrument dated effective as of 4-1-85, Oxtex and Texon assigned their interest in the subject acreage to Amoco.
[19] Production too low to economically produce.
[20] Applicant acquired acreage formerly dedicated to Arkla, but not having any producing wells. Applicant drilled three wells and wishes to sell gas to other buyers prior to their 102(c) and 103(c) determinations becoming final.
[21] Koch no longer anticipates gas production from this well (Rustman Unit #1).
[22] A portion of the contract acreage was assigned to Olsen Energy Inc. The remaining acreage is non-productive and the gas contract has passed the primary term.
[23] All production related to the referenced block has ceased, the reserves are depleted and the operator plans to plug and abandon all of the wells.
[24] Texaco Producing Inc. no longer has any interest in the leases commited under the contract. By agreement dated 8-22-85 (effective 11-27-85), between Tee Oil, Inc. and Texas Eastern Transmission Corporation, Tee Oil Inc. assigned and delegated the 4-30-81 contract, as amended.
[25] Not used.
[26] Uneconomical to operate because of increase in water fall and low pressure and volume.
[27] Not used.
[28] No sales since July, 1981 and contract terminated pursuant to paragraph 15 of contract.
[29] Well never conveyed to Seller—Sold before conveyance.
[30] All acreage has been assigned to Samson Resources Company.
[31] Phillips Petroleum Company's 50% working interest in the Bertsen "B" lease of the Gas Purchase Contract dated 7-21-58 has been assigned to the remaining working interest owners in the lease.
[32] Not used.
[33] Property sold to Kaiser-Francis Oil Company.
[34] The Hanson-Guerra Gas Unit No. 1 was plugged on 12-13-88. There is no remaining production subject to Rate Schedule No. 413.
Filing Code: A—Initial Service; B—Abandonment; C—Amendment to add acreage; D—Amendment to delete acreage; E—Total Succession; F—Partial Succession.

BILLING CODE 6717-01-M

[Docket No. CI86-376-000, et al.]

Arkla Exploration Co., et al.; Applications for Blanket Abandonment and Blanket Certificates with Pre-Granted Abandonment

May 14, 1986.

Take notice that on April 23, 1986, as supplemented on April 30, 1986, Arkla Exploration Company (AEC) and Arkla Energy Marketing Company (AEM) (Applicants), P.O. Box 27134, Shreveport, Louisiana 71151, filed applications in Docket Nos. CI86-376-000 and CI86-377-000. In Docket No. CI86-376-000 AEC requests blanket authorization to abandon for an indefinite period sales of excess gas to Arkla Energy Resources, a division of Arkla, Inc., (AER) from wells and properties listed in the attached Exhibit. In Docket No. CI86-377-000 AEC and AEM request blanket certificates with pre-granted abandonment for resale of the released gas. AEC and AEM are wholly-owned subsidiaries of Arkla, Inc.

Applicants state that AEC expects to be restricted due to depressed market conditions from being able to produce for delivery to AER any more than 15% of current total deliverability for at least the next year. Such reduced production it is avered will cause loss of cash-flow and potential permanent loss of certain reserves through drainage and engineering problems such as "trapping" of gas in partial water-drive reservoirs.

Applicants request authorization pursuant to a letter agreement dated April 21, 1986, whereby AER released gas in excess of its system supply requirements, provided such gas is priced in excess of the replacement cost of gas available on AER's system, for a primary period extending through December 31, 1986, and continuing on a month-to-month basis until terminated by either party. The letter agreement provides that AEC in return has agreed to release AER from take-or-pay liabilities, credit released gas sold to a third party against future take-or-pay obligations and insert market-responsive pricing provisions in the contracts to the extent not previously provided. Such provisions include a ceiling of $2.35 MMBtu through December 31, 1986, with periodic renegotiations at six-month intervals.

AEC states that it intends to sell released gas to AEM or other purchasers. AEC further states that AER has reserved the right to recall supplies needed to meet system requirements. Applicants request the authorizations extend to other interest owners in the same wells and reservoirs who make sales under AEC's certificates and rate schedules and pursuant to contracts released in connection with resolution of outstanding take-or-pay and pricing matters.

If the Commission issues certificates to other natural gas companies authorizing blanket interstate transportation of gas abandoned under similar programs, Applicants request blanket certificate authorization with pre-granted abandonment for transportation by interstate pipelines of the subject released gas.

Waiver of Parts 154 and 271 of the Commission's regulations is requested so Applicants will not be required to file and maintain rate schedules for the sales of released gas but prices will not exceed applicable maximum lawful prices.

If the Commission desires, Applicants state they will file quarterly reports detailing the transactions.

The circumstances presented in the applications meet the criteria for consideration on an expedited basis, pursuant to Section 2.77 of the Commission's rules as promulgated by Order Nos. 436 and 436-A, issued October 9, and December 12, 1985, respectively, in Docket No. RM85-1-000, all as more fully described in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should, on or before 15 days from the date of publication of this notice in the Federal Register, file with the Federal Energy Regulatory Commission, Washington, DC, 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to the proceedings herein must file petitions to intervene in accordance with the Commission's Rules.

Under the procedure herein provide for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,
Secretary.

Southern Natural Gas Co.; Trunkline Gas Co.; Applications for Blanket Limited-Term Abandonment and Blanket Limited-Term Certificates With Pre-Granted Abandonment Filed by Pipeline Companies on Behalf of Their Producer-Suppliers

May 14, 1986.

Take notice that the pipeline companies (Applicants) listed herein have filed applications pursuant to section 7 of the Natural Gas Act for blanket limited-term abandonment and blanket limited-term certificates with pre-granted abandonment as described herein.[1]

The circumstances presented in the applications meet the criteria for consideration on an expedited basis, pursuant to § 2.77 of the Commission's rules as promulgated by Order No. 436 and 436-A, issued October 9, and December 12, 1985, respectively, in Docket No. RM85-1-000, all as more fully described in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before 15 days after the date of publication of this notice in the Federal Register, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[1] Application received April 21, 1986. Filing date is date of receipt of filing fee.
[2] Application is filing on behalf of its producer-suppliers.
[3] Applicant is requesting blanket limited-term abandonment and blanket certificates with pre-granted abandonment on behalf of certain of its producer-suppliers for a term not to extend beyond December 31, 1987, as provided for in each release with its individual producer-suppliers. Applicant requests authorization (1) for gas subject to a maximum lawful price equal to or greater than the NGPA section 109 price that applicant and its producer-suppliers agree to release from the applicable contract and (2) for gas subject to a maximum lawful price less than the NGPA section 109 price that applicant and its producer-suppliers agree to release from the applicable contract in conjunction with release of higher cost gas in a transaction in which the weighted average cost of the released volumes, if purchased by applicant, would have been equal to or greater than the NGPA section 109 price. Applicant also requests that the blanket resale certificates include authorization for any third parties which purchase such gas for resale in transactions constituting sales for resale in interstate commerce. Applicant states its projected system supply sales in 1986 and 1987 are 349 Bcf or less, while its available supply is projected to be 625 Bcf for 1986 and 539 Bcf for 1987, and such over-supply necessitated these applications. Applicant requests waiver of the Commission's regulations under Parts 154 and 157 to allow the requested authorizations to be exercised without further filings by its producer-suppliers and any third party resellers. Applicant proposes to file quarterly reports detailing the transactions.
[4] Additional information received May 5, 1986.
[5] Applicant is requesting blanket limited-term abandonment and blanket certificates with pre-granted abandonment on behalf of certain of its producer-suppliers for the period through October 31, 1987, in accordance with release agreements which have been or are to be executed with its producers providing for relief of take-or-pay liability. The gas is to have a maximum lawful price equal to or higher than the NGPA section 109 price or, if it is a measure of multiple vintages from a single producer, the volume-weighted average of the applicable maximum lawful prices equal to or higher than the NGPA section 109 price. Applicant estimates take-or-pay exposure for 1985 will exceed $550 million. Applicant projects availability of producer contract quantities totaling 391 Bcf for 1986 with purchase requirements of 297 Bcf and for the period from January through October 1987, total contract quantities of 285 Bcf and requirements of 153 Bcf. Applicant requests waivers of any applicable requirements of the NGA, NGPA and the Commission's regulations to the extent necessary for effectuation of the proposed arrangements.
* Filing Code: A—Initial Service; B—Abandonment; C—Amendment to add acreage; D—Amendment to delete acreage; E—Total Succession; F—Partial Succession.

BILLING CODE 6717-01-M

[Docket No. GP86-19-000]

State of New Mexico, Section 108 NGPA Determination; Amoco Production Co., Gallegos Canyon Unit No. 208, FERC No. JD86-09725; Petition To Reopen and Vacate Final Well Category Determination and Request for Withdrawal of Application

May 14, 1986.

On January 21, 1986, Amoco Production Company (Amoco) filed with the Federal Energy Regulatory Commission a petition pursuant to § 275.205 of the Commission's regulations [1] to reopen and vacate the captioned final well category determination under section 108 of the Natural Gas Policy Act of 1978 (NGPA)[2] for the Gallegos Canyon Unit No. 208 Well, San Juan County, New Mexico, and to withdraw its application for the determination. The determination permitted the continued qualification of the captioned well as a stripper well, based upon evidence that production from the well in excess of 60 Mcf per production day, during the 90-day period ending April 30, 1985, resulted from a temporary pressure buildup.[3] Amoco states that the reason for its petition is that Amoco personnel have subsequently concluded that the more likely cause of the excess production was repair and maintenance work performed on the well, rather than pressure buildups resulting from temporary shut-ins.

With respect to the question of refunds arising out of Amoco's petition, notice is hereby given that the question of whether refunds, plus interest computed under 18 CFR 154.102(c) (1985), will be required is a matter subject to the review and final decision of the Commission.

Any person desiring to be heard or to protest this petition should file a motion to intervene or protest in accordance with Rule 214 [4] or 211 [5] of the Commission's Rules of Practice and Procedure. All motions to intervene or protests should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, not later than 15 days following publication of this notice in the Federal Register. All protests will be considered by the Commission, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene in accordance with Rule 214. Copies of the petition are on file with the Commission and available for public inspection.

[Docket No. SA86-19-000]

Chino Mines Co.; Petition for Exemption and Interim Relief

Issued May 14, 1986.

On April 14, 1986, Chino Mines Company (Chino) filed a petition pursuant to section 206(d) of the Natural Gas Policy Act of 1978 (NGPA)[1] and § 282.206(b) of the Federal Energy Regulatory Commission's regulations,[2] for interim and permanent relief from the Commission's incremental pricing regulations issued under Title II of the NGPA.[3] Chino seeks the relief for its mining, concentrating, smelting, and refining facility located at Hurley, New Mexico, served with gas by El Paso Natural Gas Company. The facility produces copper with molybdenum, gold, silver, and sulphuric acid as by-products.

In support of its petition, Chino states that it has been engaged in a major modernization program since 1981; that under this program it has made large capital investments to modernize its mining operations and has improved the productivity of its work force; and that as a result of the program, it has increased the facility's productivity by 340% and reduced the copper production costs from approximately 87 cents per pound to approximately 63.3 cents per pound since 1981. However, Chino states that despite these improvements, its operating expenses for the period March 1985 through February 1986 exceeded its operating revenues due to depressed world copper prices. It states that the low copper prices are caused by overproduction of foreign mines made possible by subsidization of such mines by their governments and the International Monetary Fund. Chino states that if interim relief were denied, the additional costs of incremental surcharges would be borne by a facility that is experiencing financial hardship and that would not be able to recoup such costs, once paid. It further states that such circumstance could well contribute to closure of the mining facility and would injure not only Chino, but also the 930 employees who depend on the mine for their livelihood, as well as the suppliers and merchants in the community who have come to depend on the continued operation of Chino Mines Company.

The procedures applicable to the conduct of this proceeding are set forth in Subpart K of the Commission's Rules of Practice and Procedure.[4] Any person desiring to participate in this proceeding must file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene in accordance with Subpart K within 15 days after publication of this notice in the Federal Register.

Kenneth F. Plumb,
Secretary.

[Docket No. RP85-168-006

Consolidated Gas Transmission Corp.

May 12, 1986.

Take notice that on May 5, 1986, Pennzoil Company and Pennzoil Producing Company (Pennzoil) filed with the Commission an interlocutory appeal of the presiding judge's ruling of April 3, 1986, denying them late intervention in this proceeding. Pennzoil filed on April 18, 1986 a motion with the presiding judge for leave to appeal his order of April 3, 1986 to the Commission. On April 29, 1986, the judge issued an order denying Pennzoil's motion.

The presiding judge certified a settlement in this docket to the Commission on April 8, 1986. With the certification of the settlement, the judge transferred to the Commission jurisdiction over the proceeding. Accordingly, the Commission will treat the appeal as a motion to the Commission for reconsideration of the judge's order denying late intervention. Any party wishing to respond to the May 5, 1986 motion will have until May 27, 1986 to do so.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

[Docket No. SA86-17-000]

Natural Gas Pipeline Co. of America; Petition for Adjustment

May 14, 1986.

Take notice that on April 8, 1986, Natural Gas Pipeline Company of

America (Natural) filed a petition for adjustment pursuant to section 502(c) of the Natural Gas Policy Act of 1978 (NGPA), requesting adjustment relief from an annual filing requirement of § 281.204(b)(2) of the Commission's regulations. This regulation requires major interstate pipelines to update annually their respective indexes of essential agricultural users' entitlements to show changes in the amounts of gas allocated to such users under the pipelines' respective curtailment plans.

Natural states that its gas supplies are adequate for the immediate future to meet the essential agricultural users' entitlements and therefore compliance with § 281.204(b)(2) is unnecessary. Natural further states that because the annual filing requirement is unnecessary, the substantial time and expense involved in gathering and reviewing data and filing annual entitlement updates would constitute a special harship and an unfair distribution of burdens. Natural states that if obliged to reduce essential agricultural users' entitlements, curtailment will conform to Commission regulations implementing NGPA section 401.

The procedures applicable to the conduct of this proceeding are set forth in Rule 1101–1117 (Subpart K) of the Commission's rules of practice and procedure. Any person desiring to participate in this proceeding must file a motion to intervene in accordance with Rule 1105. All motions to intervene must be filed within 15 days after publication of this notice in the Federal Register.

Kenneth F. Plumb,
Secretary.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPPE–FRL–3018–3]

Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 3507(a)(2)(B) of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*) requires the Agency to publish in the Federal Register a notice of proposed information collection requests (ICRs) that have been forwarded to the Office of Management and Budget (OMB) for review. The ICR describes the nature of the solicitation and the expected impact, and where the appropriate includes the actual data collection instrument. The following ICRs are available for review and comment.

FOR FURTHER INFORMATION CONTACT: Nanette Liepman, (202) 382–2740 or FTS 382–2740.

SUPPLEMENTARY INFORMATION:

Office of Solid Waste and Emergency Response

Title: Underground Storage Tank Notification Awareness Survey (EPA ICR #1297). (This is a new collection.)

Abstract: This survey is designed to determine the awareness of notification requirements by designated State agencies and compliance by owners of underground storage tanks regulated under Subtitle I of RCRA. Results will indicate the degree of Agency effectiveness in meeting notification requirements and help target additional future outreach and follow-up as needed.

Respondents: Owners of underground storage tanks in South Carolina and Kentucky.

Title: Used Oil Regulatory Impacts (EPA ICR #1298). (This is a new collection.)

Abstract: This information collection will help quantify the potential adverse impacts of EPA's proposed used oil rules on small businesses, small quantity generators, and State recycling programs. The collection consists of informal verbal interviews conducted on a voluntary one-time-only basis with used oil generators, processors, burners, re-refiners, and State personnel.

Respondents: Used oil generators, processors, burners, re-refiners, and State personnel.

Comments on all parts of this notice may be sent to:

Nanette Liepman, U.S. Environmental Protection Agency, Office of Standards and Regulations (PM–223), Information and Regulatory Systems Division, 401 M Street, SW., Washington, DC 20460;

and

Nancy Baldwin, Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building (Room 3228), 726 Jackson Place, NW., Washington, DC 20503.

Dated: May 14, 1986.

Daniel J. Fiorino,
Acting Director, Information and Regulatory Systems Division.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Interagency Testing Committee (ITC), established under section 4(e) of the Toxic Substances Control Act (TSCA), transmitted its Eighteenth Report to the Administrator of EPA on May 1, 1986. This report, which revises and updates the Committee's priority list of chemicals, adds one chemical to the list for priority consideration by EPA in the promulgation of test rules under section 4(a) of the Act. The new chemical is tributyl phosphate. This chemical is not designated for response within 12 months. Two substances previously recommended with intent to designate, cyclohexane and 2,6-di-tert-butylphenol (50 FR 47603), are now designated for response within 12 months. The Eighteenth Report is included in this notice. The Agency invites interested persons to submit written comments on the Report, and to attend a Focus Meeting to help narrow and focus the issues raised by the ITC's recommendations. Members of the public are also invited to inform EPA if they wish to be notified of subsequent public meetings on these chemicals. ITC also notes the removal of 6 chemicals from the priority list because EPA has responded to the ITC's previous recommendations for testing of the chemicals.

DATES: Written comments should be submitted by June 18, 1986. A Focus Meeting will be held on June 17, 1986.

ADDRESSES: Send written submissions to: TSCA Public Information Office (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-108, 401 M St., SW., Washington, DC 20460.

Submissions should bear the document control number (OPTS-41021).

The public record supporting this action, including comments, is available for public inspection in Rm. E-107 at the address noted above from 8 a.m. to 4 p.m. Monday through Friday, except legal holidays. The Focus Meeting will be held at EPA Headquarters, Rm. 103 NE Mall, 401 M St., SW., Washington, DC. Persons planning to attend the Focus Meeting and/or seeking to be informed of subsequent public meetings on this chemical, should notify the TSCA Assistance Office at the address listed below. To insure seating accommodations at the Focus Meeting, persons interested in attending are asked to notify EPA at least one week ahead of the scheduled date.

FOR FURTHER INFORMATION CONTACT: Edward A. Klein, Director, TSCA Assistance Office (TS-799), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Toll Free: (800-424-9065). In Washington, DC: (554-1404). Outside the USA: (Operator-202-554-1404).

SUPPLEMENTARY INFORMATION: EPA has received the Report of the TSCA Interagency Testing Committee to the Administrator.

I. Background

TSCA (Pub. L. 94-469, 90 Stat. 2003 *et seq.*; 15 U.S.C. 2601 *et seq.*) authorizes the Administrator of EPA to promulgate regulations under section 4(a) requiring testing of chemical substances and mixtures in order to develop data relevant to determining the risks that such chemical substances and mixtures may present to health and the environment.

Section 4(e) of TSCA established and Interagency Testing Committee to make recommendations to the Administrator of EPA of chemical substances and mixtures to be given priority consideration in proposing test rules under section 4(a). Section 4(e) directs the Committee to revise its list of recommendations at least every 6 months as necessary. The ITC may "designate" up to 50 substances and mixtures at any one time for priority consideration by the Agency. For such designations, the Agency must within 12 months either initiate rulemaking or issue in the Federal Register its reasons for not doing so. The ITC's Eighteenth Report was received by the Administrator on May 1, 1986, and follows this Notice. The Report adds one substance to the TSCA section 4(e) priority list.

II. Written and Oral Comments and Public Meetings

EPA invites interested persons to submit detailed comments on the ITC's new recommendations. The Agency is interested in receiving information concerning additional or ongoing health and safety studies on the subject chemicals as well as information relating to the human and environmental exposure to these chemicals. A notice is published elsewhere in today's Federal Register adding the substance recommended in the ITC's Eighteenth Report to the TSCA section 8(d) Health and Safety Data Reporting Rule (40 CFR Part 716). The section 8(d) rule requires the reporting of unpublished health and safety studies on the listed chemicals. This chemical will also be added to the TSCA section 8(a) Preliminary Assessment Information Rule (40 CFR Part 712) published elsewhere in this issue. The section 8(a) rule requires the reporting of production volume, use, exposure, and release information on the listed chemicals.

A Focus Meeting will be held to discuss relevant issues pertaining to this chemical and to narrow the range of issues/effects which will be the focus of the Agency's subsequent activities in responding to the ITC recommendations. The Focus Meeting will be held on June 17, 1986 at EPA Headquarters, Rm. 103 NE Mall, 401 M St., SW., Washington, DC. This meeting is intended to supplement and expand upon written comments submitted in response to this notice. The meeting will be held at 10 a.m.

Persons wishing to attend this meeting or subsequent meetings on this chemical should call the TSCA Assistance Office at the toll free number listed above at least one week in advance.

All written submissions should bear the identifying docket number (OPTS-41021).

III. Status of List

In addition to adding the one recommendation to the priority list, the ITC's Eighteenth Report notes the removal of six chemicals from the list since the last ITC report because EPA has responded to the Committee's prior recommendations for testing of the chemicals. Subsequent to the ITC's preparation of its Seventeenth Report, EPA responded to the ITC's recommendations for six additional chemicals. The six chemicals removed and the dates of publication in the Federal Register of EPA's responses to the ITC for these chemicals are: anthraquinone, November 6, 1985 (50 FR 46090); cumene, November 6, 1985 (50 FR 46104); mercaptobenzothiazole, November 6, 1985 (50 FR 46121); octamethylcyclotetrasiloxane, October 30, 1985 (50 FR 45123); pentabromoethylbenzene, November 13, 1985 (50 FR 46785); sodium N-methyl-N-oleoyltaurine, November 6, 1985 (50 FR 46178). The report also notes that cyclohexane and 2,6-di-tert-butylphenol, which were originally recommended with intent to designate (50 FR 47603, November 19, 1985), have now been designated for response within 12 months by the ITC.

The current list contains seven designated substances, one chemical recommended with intent-to-designate, and two recommended substances.

Authority: 15 U.S.C. 2603.

Dated: May 6, 1986.

J. Morenda,

Director, Existing Chemical Assessment Division.

Eighteenth Report of the TSCA Interagency Testing Committee to the Administrator, Environmental Protection Agency

Summary

Section 4 of the Toxic Substances Control Act of 1976 (TSCA, Pub. L. 94–469) provides for the testing of chemicals in commerce that may present an unreasonable risk of injury to health or the environment. It also provides for the establishment of a Committee (ITC), composed of representatives from eight designated Federal agencies, to recommend chemical substances and mixtures (chemicals) to which the Administrator of the U.S. Environmental Protection Agency (EPA) should give priority consideration for the promulgation of testing rules.

Section 4(e)(1)(A) of TSCA directs the Committee to recommend to the EPA Administrator chemicals to which the Administrator should give priority consideration for the promulgation of testing rules pursuant to section 4(a). The Committee is required to designate those chemicals, from among its recommendations, to which the Administrator should respond within 12 months by either initiating a rulemaking proceeding under section 4(a) or publishing the Administrator's reason for not initiating such a proceeding. At least 6 months, the Committee makes those revisions in the TSCA section 4(e) Priority List that it determines to be necessary and transmits them to the EPA Administrator.

As a result of its deliberations, the Committee is revising the TSCA section 4(e) Priority List by the addition of one chemical, and is noting the removal of six as a result of responses by EPA. The Committee also is designating two chemicals that have been recommended with intent-to-designate in the seventeenth report.

The Priority List is divided into three parts. Part A contains those recommended chemicals and groups designated for priority consideration and response by the EPA Administrator within 12 months. Part B contains those chemicals and groups recommended with intent-to-designate. This category was established by the Committee in its seventeenth report (50 FR 47603; November 19, 1985) to take advantage of rules promulgating automatic reporting requirements for non-designated ITC recommendations under the section 8(a) Preliminary Assessment rule and the TSCA section 8(d) Health and Safety Data Reporting rule. Information received following recommendation with intent-to-designate may influence the Committee to either designate or not designate the chemical or group of chemicals in a subsequent report to the Administrator. Part C contains chemicals and groups of chemicals that have been recommended for priority consideration by EPA without being designated for response within 12 months.

The changes to the Priority List are presented, together with the types of testing recommended, in the following Table 1:

TABLE 1.—ADDITIONS TO THE SECTION 4(E) PRIORITY LIST—MAY 1986

Chemical/group	Recommended studies
A. Designated for response within 12 months:	
Cyclohexane [1] (CAS No. 110-82-7).	Health Effects: Chronic toxicity including oncogenicity and neurotoxicity; teratogenicity; reproductive toxicity. Health Effects: Toxicokinetics; chronic toxicity. Chemical Fate: Persistence in aerobic and anaerobic sediments. Ecological Effects: Acute toxicity to benthic organisms; bioconcentration in benthic organisms.
2,6-Di-tert-butylphenol [2] (CAS No. 128-39-2).	
NOTE: Cyclohexane and 2,6-Di-tert-butylphenol were recommended with intent-to-designate by the Committee in the seventeenth report (50 FR 47603).	
B. Recommended with intent-to-designate:	
Tributyl phosphate [3] (CAS No. 126-73-8).	Health Effects: Chronic toxicity including oncogenic, neurotoxic, renal, reproductive and developmental effects. Chemical Fate: Persistence in anaerobic soils and sediments. Ecological Effects: Chronic effects on aquatic and terrestrial plants; chronic effects on daphnids and/or other aquatic invertebrates; acute and chronic effects on benthic organisms and soil invertebrates, if found persistent under anaerobic conditions.
C. Recommended without being designated for response within 12 months:	
None.	
CA Index Names (9 CI):	
1. Cyclohexane	
2. Phenol, 2,6-bis(1,1-dimethyl ethyl)-	
3. Phosphoric acid, tributyl ester.

Notes

(*1*) Appointed on December 2, 1985.
(*2*) Appointed on October 28, 1985.
(*3*) Appointed on October 28, 1985.
(*4*) Appointed on February 21, 1986.
(*5*) Appointed on December 13, 1985.
(*6*) Appointed on January 6, 1986.

The Committee acknowledges and is grateful for the assistance and support given the ITC by staff of Dynamac Corporation (technical support contractor) and personnel of the EPA Office of Toxic Substances.

Chapter 1—Introduction

1.1 *Background.* The TSCA Interagency Testing Committee (Committee) was established under section 4(e) of the Toxic Substances Control Act of 1976 (TSCA, Pub. L. 94–469). The specific mandate of the Committee is to recommend to the

Administrator of the U.S. Environmental Protection Agency (EPA) chemical substances and mixtures in commerce that should be given priority consideration for the promulgation of testing rules to determine their potential hazard to human health and/or the environment. TSCA specifies that the Committee's recommendations shall be in the form of a Priority List, which is to be published in the Federal Register. The Committee is directed by section 4(e)(1)(A) of TSCA the designate those chemicals on the Priority List to which the EPA Administrator should respond within 12 months by either initiating a rulemaking proceeding under section 4(a) or publishing the Administrator's reason for not initiating such a proceeding. There is no statutory time limit for EPA response regarding chemicals that ITC has recommended but not designated for response within 12 months.

At least every 6 months, the Committee makes those revisions in the section 4(e) Priority List that it determines to be necessary and transmits them to the EPA Administrator.

The Committee is comprised of representatives from eight statutory member agencies and six liaison agencies. The specific representatives and their affiliations are named in the front of this report. The Committee's chemical review procedures and priority recommendations are described in previous reports (Ref. 1 and 2).

1.2 *Committee's previous reports.* Seventeen previous reports to the EPA Administrator have been issued by the Committee and published in the Federal Register (Ref. 1 and 2). Ninety-one entries (chemicals and groups of chemicals) were recommended for priority consideration by the EPA Administrator and designated for response within 12 months. In addition, four chemicals and one group of chemicals were recommended without being so designated.

1.3 *Committee's activities during this reporting period.* Between October 1, 1985, and March 31, 1986, the Committee continued to review chemicals fromits fourth and fifth scoring exercises, and from nominations by Member Agencies, Liaison Agencies and State Agencies.

The Committee contacted chemical manufacturers and trade associations to request information that would be of value in its deliberations. Most of those contacted provided unpebllshed information on current production, exposure, uses, and effects of chemicals under study by the Committee.

During this reporting period, the Committee reviewed available information on 32 chemicals and 3 large classes of chemicals. One chemical was selected for addition to the section 4(e) Priority List, and 12 were deferred indefinitely. The remaining chemicals are still under study.

On February 12, 1986, the ITC published an Intent-to-Designate notice (51 FR 5250) that listed isopropanol and described additional information needed by the ITC to reach a more informed decision on whether or not to designate isopropanol in a subsequent report to the EPA Administrator. A deadline of March 31, 1986 was provided for receipt of relevant information.

The Committee requested information on genotoxicity, carcinogenicity, and reproductive and developmental effects on isopropanol per se, uncontaminated with isopropyl sulfate. Information has been received indicating that some of the requested information is being developed in ongoing studies. The Committee is awaiting details on these studies and expects to make a decision on isopropanol prior to the next report to the EPA Administrator.

In its seventeenth report to the Administrator of EPA (Ref. 2), the ITC announced the establishment of a "recommended with intent-to-designate" category, to take advantage of recent rules promulgating automatic reporting requirements for non-designated ITC recommendations under the section 8(a) Preliminary Assessment rule (50 FR 34805) and the TSCA section 8(d) Health and Safety Data Reporting rule (50 FR 34809). The 8(a) and 8(d) rules require the submission to EPA of information on production, use, exposure and unpublished health and safety studies that may not be publicly available. The ITC noted that information received following "recommendation with intent-to-designate" of a chemical or group of chemicals may influence the Committee to either designate or not designate that chemical or group of chemicals in a subsequent report to the Administrator.

When a chemical or group of chemicals is placed in the "recommended with intent-to-designate" category in a report to the Administrator, the ITC will review information submitted to the EPA and to the ITC following recommendation and will then take one of the following actions:

(a) Designate the chemical or group in the next ITC report, or

(b) Recommend the chemical or group without designation, in the next ITC report, providing a rationale for not designating the chemical or group, or

(c) Remove the chemical or group from the Priority List, in the next ITC report, providing a rationale for that removal, or

(d) Defer a decision, stating the reasons for the deferral and noting that a decision will be announced on or before a given date.

It is anticipated that deferral of a decision will occur infrequently. On occasion, however, the volume and/or complexity of information received may make it necessary to delay a decision. Whenever the deferral option is required, it is anticipated that a final decision (Designation, Recommendation or Removal) will be announced within 8 to 9 months following the report in which the chemical or group of chemicals was placed in the "recommended with intent-to-designate" category.

1.4 *The TSCA section 4(e) Priority List.* Section 4(e)(1)(B) of TSCA directs the Committee to: ". . . make such revisions in the [priority] list as it determines to be necessary and . . . transmit them to the Administrator together with the Committee's reasons for the revisions." Under this authority, the Committee is revising the Priority List by adding one chemical: tributyl phosphate. Tributyl phosphate is being recommended with intent-to-designate in this report. In addition, the Committee is designating for response within 12 months two chemicals that were recommended with intent-to-designate in the seventeenth report. The designated chemicals are cyclohexane and 2,6-di-*tert*butylphenol. The testing recommended for these chemicals and the rationales for the recommendations are presented in Chapter 2 of this report.

Six chemicals are being removed from the Priority List because the EPA Administrator has responded to the Committee's prior recommendations for testing them. They are listed in the following Table 2 with citations to EPA responses:

TABLE 2.—REMOVALS FROM THE TSCA SECTION 4(E) PRIORITY LIST OCTOBER 1, 1985 THROUGH MARCH 31, 1986

Chemical/group	EPA response	
	FEDERAL REGISTER citation	Publication date
Anthraquinone	50 FR 46360	Nov. 8, 1985.
Cumene	50 FR 46184	Nov. 8, 1985.
Mercaptobenzothiazole.	50 FR 46121	Nov. 6, 1985.
Octamethylcyclotetrasiloxane.	50 FR 49123	Dec. 30, 1985.
Pentabromotrichlorobenzene.	50 FR 45789	Nov. 13, 1985.
Sodium N-methyl-N-oleoyltaurate.	50 FR 46178	Nov. 8, 1985.

Removal of 81 entries was noted in previous reports (Ref. 1 and 2). To date, 87 chemicals and groups of chemicals have been removed from the Priority List.

With the one recommendation and six removals noted in this report, 10 entries now appear on the section 4(e) Priority List. The Priority List is divided in the following Table 3 into three parts; namely, A, Chemicals and Groups of Chemicals Designated for Response Within 12 Months, B, Chemicals and Groups of Chemicals Recommended with Intent-to-Designate, and C, Chemicals and Groups of Chemicals Recommended Without Being Designated for Response Within 12 Months. Table 3 follows:

TABLE 3.—THE TSCA SECTION 4(e) PRIORITY LIST—MAY 1986

Entry	Date of designation
A. Chemical and groups of chemicals recommended as designated for response within 12 months:	
1. Cyclohexane	May 1986.
2. 2,6-Di-tert-butylphenol	May 1986.
3. Methyl cyclopentane	May 1986.
4. Tetrabromobisphenol A	May 1986.
5. Triethylene glycol monomethyl ether	May 1986.
6. Triethylene glycol monoethyl ether	May 1986.
7. Triethylene glycol monobutyl ether	May 1986.

B. Chemicals and groups of chemicals recommended with intent-to-designate:

Entry	Date of recommendation
1. Tributyl phosphate	May 1986.
C. Chemicals and groups of chemicals recommended without being designated for response within 12 months:	
1. 3,4-Dichlorobenzotrifluoride	May 1986.
2. Dioctacyl phenyl phosphite	November 1986.

Chapter 2—Recommendations of the Committee

2.1 *Chemicals recommended for priority consideration by the EPA Administrator.* As provided by section 4(e)(1)(B) of TSCA, the Committee is adding the following chemical substance to the section 4(e) Priority List: Tributyl phosphate. The recommendation of tributyl phosphate is being made after considering the factors identified in section 4(e)(1)(A) and other relevant information, as well as the professional judgment of Committee members. In addition, the Committee is designating for response within 12 months two chemical substances that were recommended with intent-to-designate in the seventeenth report. The designated chemicals are cyclohexane and 2,6-di-*tert*-butylphenol.

2.2 *Chemicals designated for response within 12 months.*

2.2.a Cyclohexane.

In the seventeenth report to the Administrator of EPA (50 FR 47603), cyclohexane was recommended with intent-to-designate. The rationale for that recommendation appears in the seventeenth report. Information reviewed by the Committee in response to the seventeenth report included any public comments on the Committee's recommendations; production volume, use, exposure, and release information reported by manufacturers of cyclohexane under the TSCA section 8(a) Preliminary Assessment rule; health and safety studies submitted under the TSCA section 8(d) Health and Safety Data Reporting rule; and any unpublished and published data available to the Committee. The information included acute toxicity studies, skin and eye irritation studies and additional genotoxicity studies (Phillips Petroleum Co., 1986). Summary data from acute toxicity, skin irritation and repeated dose (six months) studies were also received from other submitters (Eastman Kodak Co., 1986; Dow Chemical Co., 1986). Although ecological effects testing was not recommended for cyclohexane, information dealing with environmental persistence also was received (Shell Oil Co., 1986).

After reviewing the information, the Committee concluded that data are still lacking on chronic (two-year) effects, especially oncogenicity and neurotoxicity. Teratogenic and reproductive effects studies also are absent. For these reasons and for the reasons previously presented (50 FR 47603) the Committee is now designating cyclohexane for response within twelve months and recommending that it be tested for the following:

Health Effects:

Chronic effects including oncogenicity and neurotoxicity (with special emphasis on neuropathology).

Teratogenicity and reproductive toxicity.

(4) Shell Oil Co., Washington, DC. Letter from E.L. Hobson to U.S. EPA. February 5, 1986.

2.2.b 2,6-Di-*tert*-butylphenol.

In the seventeenth report to the Administrator of EPA (50 FR 47603), 2,6-di-*tert*-butylphenol was recommended with intent-to-designate. The rationale for that recommendation appears in the seventeenth report. Information reviewed by the Committee in response to the seventeenth report included any public comments on the Committee's recommendations; production volume, use, exposure and release information reported by manufacturers of 2,6-di-*tert*-butylphenol under the TSCA section 8(a) Preliminary Assessment rule; health and safety studies submitted under the TSCA section 8(d) Health and Safety Data Reporting rule; and any unpublished and published data available to the Committee. The information included data on acute oral and percutaneous LD50 studies with rats; skin and eye irritation with rabbits; skin depigmentation, skin sensitization and delayed contact hypersensitivity with guinea pigs; rat hepatocyte primary culture and DNA repair tests; an Ames *Salmonella* microsomal assay; intravenous toxicity to mice and a report on the physiological response of experimental animals to the absorption of alkylated phenols and anilines (Ciba-Geigy, 1986; DuPont, 1986; Ethyl, 1986; Shell, 1986). Also included was a summary on ecological effects (Dow, 1986).

After reviewing the information, the Committee concluded that data are still lacking on toxicokinetics, chronic toxicity, persistence in sediments, acute

toxicity to benthic organisms and bioconcentration in benthic organisms. For these reasons and for the reasons previously presented (50 FR 47603) the Committee is now designating 2,6-di-*tert*-butylphenol for response within twelve months and recommending that it be tested for the following:

Chemical Fate:
Persistence in aerobic and anaerobic sediments
Health Effects:
Toxicokinetics and chronic toxicity
Ecological Effects:
Acute Toxicity to benthic organisms
Bioconcentration in benthic organisms

2.3. *Chemicals recommended with intent-to-designate but not designated for response within 12 months.*

2.3.a Tributyl Phosphate.

Summary of recommended studies. It is recommended that tributyl phosphate (TBP) be tested for the following:

A. Chemical Fate: Persistence in anaerobic soils and sediments.

B. Health Effects: Chronic toxicity including oncogenic, neurotoxic, renal, reproductive and developmental effects.

C. Ecological Effects: Chronic effects on aquatic and terrestrial plants; Chronic effects on daphnids and/or other aquatic invertebrates.

Acute and chronic effects on benthic organisms and soil invertebrates, depending on the results from persistence studies—

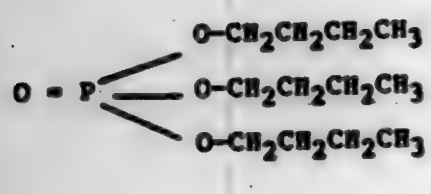
Physical and Chemical Information

CAS Number: 126–73–8.

Synonyms: Phosphoric acid, tributyl ester (9CI); Tributoxyphosphine oxide; Tri-*n*-butyl phosphate.

Acronym: TBP.

Structure:



Empirical Formula: $C_{12}H_{27}O_4P$.

Molecular Weight: 266.32.

Melting Point: < −80°C (Ref. 47, TDB, 1986).

Boiling Point: 289°C at 760 mmHg (Ref. 11, CRC, 1983).

Vapor Pressure: 7.3 mmHg at 150°C (Ref. 23, Laham et al., 1964); 0.07 mmHg at 25°C (estimated; Ref. 48, U.S. EPA, 1985).

Air Vapor Density: 9.2 (Ref. 28, Monsanto, 1985).

Solubility in Water: 420 mg/L at 25°C (Ref. 17, General Electric, 1983); 280 mg/L (Ref. 39, Saeger et al., 1979).

Solubility in Organic Solvents: Soluble in ether, benzene carbon disulfide, ethanol, mineral oil, and gasoline (Ref. 11, CRC, 1983).

Specific Gravity: 0.977–0.978 at 20/20°C (Ref. 28, Monsanto, 1985).

Log Octanol/Water Partition Coefficient (log P): 4.0 (Ref. 39, Saeger et al., 1979); 2.36 (Ref. 20, Hansch and Leo, 1979).

Description of Chemical (ambient conditions): Clear, colorless, odorless liquid (Ref. 47, TDB, 1986).

Rationale for Recommendations

I. Exposure information—A. *Production/use.* There are at least three, and maybe as many as five, manufacturers of TBP in the United States. CEH (1981, Ref. 8) reported that at least 5 million pounds of the compound were produced in 1979. Annual production since then has been reported at 3 million pounds for 1982 and estimated at 3 million pounds for 1983 (Ref. 9, CEH, 1983). Current annual production has been estimated at 3 to 5 million pounds (Ref. 48, U.S. EPA, 1985.)

A major use of TBP is as a nonflammable component of hydraulic fluids in the control systems of commercial aircraft. Industrial fluids and lubricants account for another large share. Liquid phosphate esters are the basestocks for fire-resistant oils used in die-casting, air compressors, gas turbines, and many other applications. TBP may also be used as a solvent/plasticizer for certain polymers, an industrial solvent, an antifoam agent, and a pigment grinding assistant. It has been estimated (Ref. 28, Monsanto, 1985) that about 24 percent goes into hydraulic fluids, 50 percent into uses as a plasticizer, and 26 percent for miscellaneous uses.

B. *Occupational exposure.* The National Occupational Hazard Survey, conducted in 1972, estimated that 323,477 workers were potentially exposed to TBP in the workplace (Ref. 31, NIOSH, 1978). Preliminary data from the National Occupational Exposure Survey indicate that, in 1980, 12,111 workers (including 427 women) were potentially exposed to the compound in the workplace (Ref. 32, NIOSH, 1984).

The following limits have been established for workplace airborne concentrations of TBP:

8-hour TWA–PEL 5 mg/m³ (Ref. 34, OSHA, 1985).

8-hour TLV–TWA 2.5mg/m³ (0.2 ppm) (Ref. 2, ACGIH, 1985).

C. *Environmental release.* It is likely that most TBP is released to surface waters from industrial effluents and from the release of hydraulic fluids to storm drains and drainage ditches and to land and water via landfill disposal of oil wastes and plastics.

There is considerable evidence for widespread, low-level environmental exposures to TBP. It has been detected in fish and human lipid tissues, in municipal and industrial effluents, river water, estuarine water, ground water, drinking water, snow, and sediments. LeBel and Williams (1983, Ref. 25) analyzed 16 human adipose tissue samples from cadavers and found TBP at 9.0 ng/g, on an extracted fat basis, in the tissue from one cadaver. Dunlap et al. (1979, Ref. 14) found TBP at 1.7 ug/L in ground water below a landfill. Grob and Grob (1974, Ref. 18) measured TBP in water at or near Zurich, Switzerland, and found concentrations of 10 to 82 ng/L. Zoeteman et al. (1981, Ref. 51) measured TBP in ground waters in the Netherlands at 0.01 to 0.1 ug/L. Meijers and van der Leer (1976, Ref. 26) found TBP at up to 10 ug/L in the Waal River in the Netherlands. Sheldon and Hites (1978, Ref. 42) reported finding TBP in Delaware River water at 60 to 2,000 ng/L. Shackelford et al. (cited in U.S. EPA, 1985, Ref. 48) reported finding TBP in plant effluents form a variety of industries. Mean concentrations were from 15 ug/L to 1,880 ug/L. Williams and LeBel (1981, Ref. 50) examined drinking water form 29 municipalities across Canada and found measurable TBP in samples from each location, as well as in water form the Atlantic and Pacific Oceans, the Great Lakes, Lake Winnipeg, the St. Lawrence River, and the Columbia River. Concentrations ranged from 0.2 to 62 ng/L. Piet et al. (1981, Ref. 36) identified TBP at 100 ng/L in drinking water processed from surface water using sand filtration. The unfiltered water had no detectable TBP. TBP appears to be found nearly everywhere in the environment at low concentrations. No information was found on the natural occurrence of TBP.

II. Chemical fate information—A. *Transport.* TBP has moderate solubility in water and moderate vapor pressure at ambient temperatures. It also has a

moderate log P value (4.0, measured). The physical and chemical characteristics of TBP indicate that it will partition throughout the environment and appear almost everywhere, including biolipids.

B. *Persistence.* A study of the primary biodegradation of TBP by a river water die-away method (Ref. 38, Saeger et al., 1979) found 50 percent loss of the parent compound in about 3.5 days and complete loss in 7 days. These same investigators, using a carbon dioxide evolution method, also reported CO_2 evolution at 30 percent of theory in 7 days and 81 percent of theory in 28 days. Initial concentrations of TBP in the test units were 1 and 20 mg/L, respectively. These results indicate relatively rapid and complete biodegradation of TBP in aerated surface waters. There was no evidence of nonbiological degradation of TBP in sterile controls. Francis et al. (1980, Ref. 15) observed no anaerobic biodegradation of TBP incubated for 30 days at 28°C with anaerobic bacteria isolated from a waste disposal site. No other information on anaerobic biodegradation was found, and the potential for anaerobic biodegradation must be considered unknown.

Hydrolysis is very slow at most environmental pH's (Ref. 48, U.S. EPA, 1985). Atmospheric oxidation is not expected to be significant.

C. *Rationale for chemical fate recommendations.* Because of its moderate water solubility, log P, and vapor pressure, TBP should partition to natural waters, soils and sediments, biota, and air. TBP appears to be biodegraded rapidly and completely in aerobic surface waters. Its fate in soils and sediments is not clear. It is likely to persist in the atmosphere until returned to earth by virtue of its high vapor density or in precipitation. TBP that partitions to biota may become a part of the food chain. The ubiquitous environmental appearance of TBP at low concentrations may mean that it is not effectively degraded below some threshold concentration or that the continuous release of TBP into the environment leads to some low-level equilibrium concentration reflecting both input and removal processes. The monitoring evidence, showing widespread low concentrations of TBP, justifies the consideration of potential environmental effects resulting from continuous, low-level exposures. Tests should be conducted to evaluate the persistence of TBP in anaerobic sediments and soils.

III. Biological effects of concern to human health—A. *Metabolism and toxicokinetics.* Suzuki et al. (1984, Ref. 46) studied the excretion and biotransformation of TBP in rats. In animals dosed with [^{14}C]-TBP, 66 percent of an oral dose and 81 percent of an intraperitoneal dose were excreted in 24 hours. The two major metabolites present in urine were the hydrolysis products dibutyl and monobutyl phosphates. Other metabolites present were the result of oxidation of the butyl chain.

The effect of TBP on enzyme activity in rats has been studied by Oishi et al. (1980, Ref. 33). In animals fed a diet containing 0.5 or 1 percent TBP for 10 weeks, serum transaminase and alkaline phosphatase activities were significantly decreased. There was no difference in cholinesterase activity in serum, whereas brain cholinesterase activity was significantly increased. Blood coagulation time was significantly prolonged.

B. *Acute and subchronic (short-term) effects.* The acute effects of TBP have been studied by Smyth Carpenter (1944, Ref. 43), Chambers and Casida (1967, Ref. 10), Vanedkar (1957, Ref. 49), Suzuki et al. (1977, Ref. 45), Sabine and Hayes (1952, Ref. 38), Johannsen et al. (1977, Ref. 21), and Mitomo et al. (1980, Ref. 27). Sites and biological effects of acute testing were paralysis due to weak cholinesterase inhibition, anesthetic effect, skin and mucous membrane irritation, lung edema, and degeneration of kidney tubules.

Laham et al. (1983, Ref. 22) studied the effect of TBP in rats fed 0.28 and 0.42 mL/kg TBP by gavage for 14 days. In the high-dose group, a significant ($p<0.05$) reduction of caudal nerve conduction velocity accompanied by morphological changes in the sciatic nerve were observed in males. In both sexes of the high dose groups, electron microscopy showed a retraction of Schwann cell processes of the surrounding sciatic unmyelinated fibers, indicating an early response to a chemical insult.

In another study, Laham et al. (1984, Ref. 23) administered TBP by gavage to rates at concentrations of 0.14 and 0.42 mL/kg for 14 consective days. In the high dose group, a significant decrease in hemoglobin in females, a low incidence of degenerative changes in the testes in males, significant changes in amylase and triglyceride activity in females and an increased amylase activity in males were observed. In addition, a significant increase in potassium levels was observed in females both low- and high-dose groups.

Mitomo et al. 1(1980, Ref. 27) studied the effects of TBP on rats and mice that were fed TBP daily in their diets at concentrations of 0, 0.05, 0.2, and 1.0 percent for 3 months. Results of the studies showed a dose-dependent depression in body weight gain; an increase in liver, kidney, and testes weights; a decrease in uterus weight; and an increase in blood urea nitrogen values in both mice and rats at high-dose levels. Diarrhea was also observed. Similar effects were seen in 9- and 10-week studies when TBP was fed to rats (Ref. 33, Oishi et al., 1980).

Cascieri et al. (1985, Ref. 7) fed rats diets containing TBP at levels of 0, 8, 40, 200, 1,000 or 5,000 ppm for 90 days. Significant changes were seen in blood parameters and liver weight at the highest dose. Urinary bladder cell hyperplasia was observed in both sexes at the highest dose. At 1,000 ppm it was only noted in the males.

In a recent study, TBP was administered by gavage over an 18-week period to rats. Low-dose animals received 0.20 g/kg/day throughout the experiment and the high dose animals received 0.30 g/kg/day for the first six weeks. For the remaining twelve weeks, the high-dose level was increased to 0.35 g/kg/day. All test rats examined developed diffuse epithelial hyperplasia of the urinary bladder (Ref. 24, Laham et al., 1985).

C. *Genotoxicity.* Hanna and Dyer (1975, Ref. 19) tested tributyl phosphate in *S. typhimurium, E. coli* and *Drosophila.* No mutagenic effects were observed.

D. *Oncogenicity.* No information was found. Trimethyl phosphate, a structural analog, was tested for carcinogenicity in rats and mice (Ref. 30, NCI, 1978). It induced adenocarcinomas of the endometrium in female mice and benign fibromas of the subcutaneous tissue in male rats.

E. *Reproductive and developmental effects.* When tested in chicken eggs, TBP was found to be weakly teratogenic (Ref. 37, Roger et al., 1969). No mammalian reproductive and developmental effects information was found in the literature searched.

F. *Chronic (long-term) effects.* No information was found.

G. *Observations in humans.* Workers exposed to 15 mg/m^3 of TBP complained of nausea and headache (Ref. 1, ACGIH, 1980). The principal routes of exposure are skin contact and inhalation. Signs of exposure include nausea, headache, irritation of the eyes and dermatitis (Ref. 44, Stauffer, 1984).

H. *Rationale for health effects recommendations.* Thousands of workers and consumers are potentially exposed to TBP. There is a potential for human exposure to low levels of TBP due to its uses as a flame retardant in aircraft hydraulic fluid, for uranium extraction, as an industrial solvent, and

as a plasticizer. TBP has been detected at low levels in municipal and industrial effluents, sediments, and in river, estuarine, ground, and drinking waters. It has also been detected in human and fish lipid tissues.

Available information on health effects are limited to acute and subchronic effects. In view of the lack of information on the chronic health effects of TBP, the induction of urinary bladder hyperplasia and the carcinogenic effect of trimethyl phosphate, studies on chronic toxicity, including oncogenic, neurotoxic, renal, and reproductive and developmental effects, are recommended.

IV. Ecological effects of concern.—A. *Acute and subchronic (short-term) effects.* TBP produces acute toxicity with a variety of aquatic organisms, at low mg/L concentrations, as shown in Table 4. TBP inhibits the growth of some algae at concentrations of 3 to 10 mg/L (Ref. 48, U.S. EPA, 1985). Bringmann and Kuhn (Refs. 4 and 5, 1978, 1980) found that TBP inhibited the growth of an *Entosiphon* protozoa sp. at 14 mg/L, a *Scenedesmus* algal sp. at 3.2 mg/L, and a *Microcystis* bacteria sp. at 4.1 mg/L.

Gast and Early (1956, Ref. 16) investigated the phytotoxicity of several solvents by dipping plant foliage quickly into solutions of the solvents and observing the effects. Of 88 solvents investigated, TBP was the most toxic. Exposure to a 0.5 percent solution of TBP killed all of the six species tested, including bean, corn, cotton, cucumber, tobacco, and tomato.

TBP applied to vegetation reduced the growth of the roots of rice, radish, and soybean plants at concentrations of 10 to 100 ug/g of soil (Ref. 29, Muir, 1984).

A single-dose oral LD_{50} for the white leghorn adult hen was reported as 1.8 g/kg (Ref. 21, Johannsen et al., 1977).

TABLE 4.—ACUTE TOXICITY TESTS WITH A VARIETY OF AQUATIC ORGANISMS

Organism	24-hr LC_{50} (mg/L)	48-hr LC_{50} (mg/L)	72-hr LC_{50} (mg/L)	96-hr LC_{50} (mg/L)	Reference
Rainbow trout				5 to 9	Dave and Lidman (1978, Ref. 12).
Rainbow trout				11.0	Monsanto (1985, Ref. 28).
Zebrafish	11.4	11.4		11.4	Dave et al. (1981, Ref. 13).
Goldfish				8.8	Sasaki et al. (1981), Ref. 40).
Killifish				9.8	Sasaki et al. (1981), Ref. 40).
Fathead minno				8.4	Monsanto (1985, Ref. 28).
Chlorella		5 to 10			AQUIRE (1986, Ref. 3).
Daphnia	12.8	3.7	2.1		Dave et al. (1981, Ref. 13).

B. *Chronic (long-term) effects.* Penman and Osborne (1976, Ref. 35) reported that TBP, at doses of 0.1 to 0.2 percent, had no reproductive effects on the two-spotted spider mite. A related compound, trimethyl phosphate, produced reproductive effects on guppies, toads, quail, and mites, all at relatively high doses (Ref. 48, U.S. EPA, 1985).

C. *Other ecological effects (biological, behavioral, or ecosystem processes).* Bringmann and Kuhn (1982, Ref. 6) determined effects concentration (EC) values for immobilization of *Daphnia magna*. The EC_0, EC_{50}, and EC_{100} were 5, 30 and 41 mg/L, respectively.

D. *Bioconcentration and food-chain transport.* Given its octanol/water partition coefficient, TBP is likely to partition into lipids of biota. Saeger et al. (1979, Ref. 39) calculated a bioconcentration factor of 190. Sasaki et al. (1981, Ref. 40) studied the absorption and elimination of phosphoric acid esters by killifish and goldfish. They found that the amount of TBP in the fish varied with the species and that bioconcentration in the killifish was about three times greater than in goldfish, using a static water system.

In a followup study, using continuous-flow systems Sasaki et al. (Ref. 41, 1982) found TBP taken up rapidly by killifish and reaching a steady-state concentration within 1 day. It remained at that concentration during 38 days of exposure. The bioconcentration ratio during this time was almost constant, varying from 21 to 35. When exposure to TBP was stopped, elimination was very rapid, with half gone within 1.25 hours and no detectable TBP after 24 hours.

E. *Rationale for ecological effects recommendations.* The available information shows that TBP has acute effects on a variety of aquatic organisms at moderately low concentrations (low parts per million). TBP also has been found acutely toxic to terrestrial plants at 5,000 ppm. Nevertheless, there is low concern for the acute effects of TBP since it does not appear that TBP will persist in aerobic environments at concentrations likely to cause acute effects to biota. However, it does appear that nearly all biota are continuously exposed to low concentrations of TBP and the long-term effects of that exposure are largely unknown. The acute toxicity data with terrestrial plants and algae and the growth inhibition observed with rice, radish, and soybeans lead to the conclusion that long-term studies need to be conducted with both aquatic and terrestrial plants exposed to TBP at low concentrations. The data from the acute daphnid tests by Dave et al. (1981, Ref. 13) showed a high ratio between the 24- and 48-hour LC_{50}'s (12.8/3.8=3.5), suggesting potential chronic effects. Long-term studies, using low TBP concentrations, should be conducted with daphnids and/or other aquatic invertebrates. If anaerobic persistence studies indicate long half-lives for TBP in soils and sediments, bioassays should be conducted with representative benthic organisms and soil invertebrates.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Submitted to the Office of Management and Budget for Clearance

The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following information collection package for clearance in accordance with the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Type: Extension of 3067–0122.

Title: Debt Collection.

Abstract: Information will be collected only from persons who are delinquent in paying debts owed FEMA or who are requesting time or deferred payments.

Type of respondents: Individuals or Households, State or local governments, Farms, Businesses or other for-profit, Federal agencies or employees, Non-profit institutions, Small businesses or organizations.

Number of respondents: 400.

Burden hours: 800.

Copies of the above information collection request and supporting documentation can be obtained by calling or writing the FEMA Clearance Officer, Linda Shiley, (202) 646–2624, 500 C. Street, SW., Washington, DC 20472.

Comments should be directed to Mike Weinstein, Desk Officer for FEMA, Office of Information and Regulatory Affairs, OMB, Rm. 3235, New Executive Office Building, Washington, DC 20503.

Dated: May 12, 1986.

Walter A. Gladnutes, Director, *Administrative Support.*

FEDERAL MARITIME COMMISSION

Automated Tariff Filing and Information System (ATFI); Advisory Committee Meeting

AGENCY: Federal Maritime Commission.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Commission announces the second meeting of the ATFI Advisory Committee to be held on June 19–20, 1986 in Washington, DC. The agenda for this meeting includes the review of the current status of a feasibility study by a GSA contractor and a discussion of the critical issues identified in the feasibility study. The meeting will be open to the public.

DATE: The ATFI Advisory Committee meeting will commence on June 19, 1986 at 10:00 a.m. and, if necessary, will continue through June 20, 1986.

ADDRESS: The ATFI Advisory Committee meeting will be held at 1100 L Street, NW., Washington, DC.

FOR FURTHER INFORMATION CONTACT: *Committee Executive Secretary,* John Robert Ewers, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573, (202) 523–5725.

SUPPLEMENTARY INFORMATION: The Federal Maritime Commission's Automated Tariff Filing and Information System (ATFI) Advisory Committee will meet at 10:00 a.m. on June 19, 1986 in the Main Hearing Room at the Commission Headquarters Building, 1100 L. Street, NW., Washington, DC.

The Advisory Committee was established in November of 1985 (50 FR 47447) to advise the Commission on the study, development, and operation of an automated tariff filing system. The Committee consists of 20 members including one agency official and a balanced representation of the various segments of the shipping industry affected by ATFI.

At the first meeting of the Advisory Committee, held on January 23–24, 1986, the Committee was organized into subcommittees representing each identifiable segment of the shipping industry. A spokesperson for each segment was selected and provided an opportunity to formulate and express the perceived user needs and demands of that segment of the shipping industry. This information has been included in an ongoing feasibility study on the ATFI project undertaken for the Commission by a GSA contractor.

The GSA contractor has now completed its assessment of user needs and demands and the currently available services. Based upon this assessment, it has formulated key issues which, in its opinion, must be addressed in the development of the ATFI system. Accordingly, the agenda for the second ATFI Advisory Committee meeting is:

1. Briefing by U.S. Customs Service on Customs Automation Program Requirements.

2. Discussion of House Report 99–560, "Electronic Collection and Dissemination of Information by Federal Agencies: A Policy Overview," (28th Report by the Committee on Government Operations).

3. Presentation and discussion of Deliverables 1 & 2 of the ATFI Feasibility Study: Assessment of User Needs & Demands and Baseline Analysis of Current Operations and Commercial Services.

4. Presentation and discussion of Feasibility Study Key Issue papers formulated by GSA contractor.

5. Formulation and presentation of position papers on Key Issues as identified by GSA contractor from each shipping industry segment spokesperson.

6. Establishment of future schedules.

The meeting will be open to public observation. A period will be set aside for oral comments or questions by the public which do not exceed 10 minutes each. More extensive questions or comments should be submitted in writing before June 10, 1986. Other public statements regarding committee affairs may be submitted at any time before or after the meeting. Approximately 25 seats will be available for the public (including 5 seats reserved for media representatives) on a first-come-first-served basis.

Copies of the summaries of the minutes will be available on written request 30 days after the meeting. Requests should be addressed to the Secretary of the FMC, should be submitted by July 11, 1986, and must be accompanied by a check for $30.00 made payable to the "Federal Maritime Commission".

Inquiries may be addressed to the Committee Executive Secretary, Mr. John Robert Ewers, Secretary, Federal Maritime Commission, Room, 11101, 1100 L Street, NW., Washington, DC 20573.

By the Commission.

John Robert Ewers, *Secretary.*

BILLING CODE 6730–01–M

[Supreme Decree No. 009–86–TC]

Peruvian Cargo Reservation Extension of Time for Comments

May 15, 1986.

By Notice apearing in the Federal Register on April 22, 1986 (50 FR 15069), the Federal Maritime Commission invited persons interested in the impact of Peruvian Supreme Decree 009–86–TC upon shipping in the U.S. trade with Peru to submit views, arguments, or data relating to the matter by May 18, 1986.

Upon request of three carriers in the Peruvian trade i.e., Compania Sud Americana de Vapores ("CSAV"); Naviera Neptuno, S.A.; and Compania Peruana de Vapores ("CPV"), the Commission finds good cause to extend

BEST COPY AVAILABLE

the date for all comments from May 16, 1986 to June 16, 1986.

By the Commission.

John Robert Evans,

Secretary.

FEDERAL RESERVE SYSTEM

AmeriTrust Corp. et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than June 11, 1986.

A. Federal Reserve Bank of Cleveland (Lee S. Adams, Vice President) 1455 East Sixth Street, Cleveland, Ohio 44101:

1. *AmeriTrust Corporation*, Cleveland, Ohio; to acquire 100 percent of the voting shares of American State Bank, Ligonier, Indiana, and thereby indirectly acquire American Ligonier Bancorp, Inc., Ligonier, Indiana.

2. *AmeriTrust Corporation*, Cleveland, Ohio; and its wholly-owned subsidiary, First Indiana Bancorp, Elkhart, Indiana, to acquire 100 percent of the voting shares of First National Bank and Trust Company, Sturgis, Michigan.

B. Federal Reserve Bank of Atlanta (Robert E. Heck, Vice President) 104 Marietta Street, NW., Atlanta, Georgia 30303:

1. *Liberty BanCorporation*, Longwood, Florida; to acquire 100 percent of the voting shares of Liberty National Bank of Orlando, Orlando, Florida, a *de novo* bank.

C. Federal Reserve Bank of Chicago (Franklin D. Dreyer, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *First Suburban Bancorp Corporation*, Maywood, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of First Suburban National Bank, Maywood, Illinois.

2. *First Wisconsin Corporation*, Milwaukee, Wisconsin; to acquire 100 percent of the voting shares of City Bancshares, Portage, Wisconsin, and thereby indirectly acquire City Bank and Trust Company, Portage, Wisconsin.

D. Federal Reserve Bank of Minneapolis (Bruce J. Hedblom, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. *The Tyson Corporation*, Minneapolis, Minnesota; to acquire 94.78 percent of the voting shares of Miltona State Bank, Miltona, Minnesota.

E. Federal Reserve Bank of Dallas (Anthony J. Montelaro, Vice President) 400 South Akard Street, Dallas, Texas 75222:

1. *Fredonia Bancshares, Inc.*, Nacogdoches, Texas; to become a bank holding company by acquiring 100 percent of the voting shares of Fredonia State Bank, Nacogdoches, Texas.

Board of Governors of the Federal Reserve System, May 14, 1986.

William W. Wiles,

Secretary of the Board.

BILLING CODE 6210-01-M

Fuji Bank LTD.; Application To Engage de Novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 6, 1986.

A. Federal Reserve Bank of New York (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. *Fuji Bank Limited*, Tokyo, Japan; to engage *de novo* through its subsidiary, Heller Capital Resources, Inc., Chicago, Illinois, in originating, structuring, syndicating and marketing personal property leases as agent, broker or adviser in return for a fee on a per-transaction basis and making loans or other extensions of credit such as would be made by a commercial finance company, including issuing letters of credit pursuant to § 225.25(b) (1) and (5) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, May 14, 1986.

GENERAL SERVICES ADMINISTRATION

Property Management; Guidelines for Establishment of Physical Fitness Facilities in Federal Space

AGENCY: General Services Administration (GSA).

ACTION: Notification of GSA's intent to revise and update the requirements for establishment of physical fitness programs and facilities.

SUMMARY: The Government Accounting Office (GAO) issued a decision in September of 1985 concerning a fitness program conducted by the National Park Service. In summary, GAO held that existing executive branch regulations do not authorize the use of appropriated funds for physical exercise as part of a health service program. The restrictions of using appropriated funds are contained in OMB Circular A-72, the OPM Personnel Manual and FPMR 101-5.304.

Therefore, on April 14, 1986, OPM revised the language in the OPM Personnel Manual to include the establishment and operation of physical fitness facilities. Further, on April 21, 1986, OMB rescinded Circular A-72. GSA is currently revising FPMR 101-5.304 and plans to issue it as a proposed rule within 60 days.

EFFECTIVE DATE: May 15, 1986.

FOR FURTHER INFORMATION CONTACT: Betsy Nordland, Realty Specialist, Assignment and Utilization Policy Division, Office of Real Property Development, Public Buildings Service, GSA, Washington, DC 20405 (202-566-0059).

Dated: May 7, 1986.

John T. Myers,

Acting Assistant Commissioner, Office of Real Property Development.

BILLING CODE 6820-23-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Iron-Dex 100 Injectable Iron; Withdrawal of Approval of NADA

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing approval of a new animal drug application (NADA) sponsored by Veterinary Laboratories, Inc., providing for the use of Iron-Dex 100 Injectable Iron (colloidal ferric oxide in a dextrin solution) for prevention and treatment of iron deficiency anemia in baby pigs. The firm requested the withdrawal of approval.

EFFECTIVE DATE: May 29, 1986.

FOR FURTHER INFORMATION CONTACT: Vitolis Vengris, Center for Veterinary Medicine (HFV-214), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3163.

SUPPLEMENTARY INFORMATION: Veterinary Laboratories, Inc., 12340 Santa Fe Drive, Lenexa, KS 66215, is sponsor of NADA 46-210 providing for the use of Iron-Dex 100 Injectable Iron (colloidal ferric oxide in a dextrin solution) for prevention and treatment of iron deficiency anemia in baby pigs.

The application was originally approved on November 10, 1972, with the sponsor at that time being Wittney &

Co. The NADA was later transferred when Witney & Co. was purchased by Vet Products Co., which subsequently changed its name to Veterinary Laboratories, Inc. In a letter dated February 20, 1986, the firm requested withdrawal of approval of the NADA because the drug product is no longer being marketed.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345–347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Center for Veterinary Medicine (21 CFR 5.84), and in accordance with § 514.115 *Withdrawal of approval of applications* (21 CFR 514.115), notice is given that approval of NADA 46–210 and all supplements thereto for Iron-Dex 100 Injectable Iron is hereby withdrawn, effective May 29, 1986.

In a final rule published elsewhere in this issue of the Federal Register, FDA is removing that portion of the regulations that reflects this NADA approval.

Dated: May 9, 1986.

Gerald B. Guest,

Acting Director, Center for Veterinary Medicine.

BILLING CODE 4160-01-M

National Institutes of Health

Academic Research Enhancement Award

In its report accompanying the fiscal year 1985 appropriation for the National Institutes of Health (NIH), Congress called for an initiative to strengthen the research milieu of non-research-intensive, four-year colleges and univerisities which provide undergraduate or graduate training for a significant number of our Nation's research scientists. In fiscal year 1985, the NIH made $5,000,000 available for this purpose and was able to award 75 "Academic Reseach Enhancement Awards" (AREAs). This award in designed to enhance the research environment of educational institutions that have not been traditional recipients of NIH research funds. The award in intended to support new research projects or expand ongoing research activities proposed by faculty members of these institutions in areas related to the health sciences.

Congress has again appropriated funds for the AREA Program for fiscal year 1986. Grant applications for this round are currently undergoing review for scientific merit. Since it is anticipated that additional funds will be available next year, the NIH is inviting grant applications for the fiscal year 1987 competition for AREA grants.

Eligibility requirements of the AREA Program include the following:

1. *Applicant Institution:*

(a) Must be a domestic institution offering bacalaureate or advanced degrees in the sciences related to health.

(b) Have received an NIH Biomedical Research Grant (BRSG) in no more than three of the six fiscal year from fiscal year 1981 through fiscal year 1986.

Health professional schools (e.g., schools of medicine, dentistry, nursing, osteopathy, pharmacy, veterinary medicine, public health, allied health and optometry) are eligible if they meet both criteria above, as are officially discrete campuses of a university.

Multiple applications proposing different research projects may be submitted by an applicant institution.

2. *Applicant Principal Investigators:*

(a) Must not have active research grant support (including an AREA) from either NIH or the Alcohol, Drug Abuse, and Mental Health Administration (ADAMHA) at the applicant institution at the time of award of an AREA grant.

(b) May not submit a regular NIH or ADAMHA research grant application for essentially the same project as a pending AREA application.

(c) Are expected to conduct the majority of their research at their own institution, although limited access to special facilities or equipment at another institution is permitted.

(d) May not be awarded more than one AREA grant.

Those in doubt about eligibility should consult their institution's office of sponsored research, or the NIH Office of Special Programs and Initiatives (Building 31, Room 1B54, NIH, Bethesda, MD 20892, 301/496–1966).

Funding decisions will be based on the proposed research project's scientific merit and relevance to NIH programs, and the institution's contribution to the undergraduate preparation of doctoral-level health professionals. Among projects of essentially equivalent scientific merit and program relevance, preference will be given to those submitted by institutions that have granted baccalaureate degrees to 25 or more individuals who, during the period 1977–1986, obtained academic or professional doctoral degrees in the health related sciences.

The AREAs are awarded on a competitive basis. Applicants may request support for up to $50,000 in direct costs (plus applicable indirect costs) for a period not to exceed 24 months. Although this award in non-renewable, it will enable qualified individual scientists within the eligible institutions to receive support for feasibility studies, pilot studies and other small-scale research projects preparatory to seeking more substantial funding from the regular NIH research grant programs.

Applications for this award will be accepted under the regular application submission procedures of the Division of Research Grants (DRG) of NIH. Grant applications must be prepared and submitted on PHS 398 grant application forms. An abbreviated format and simplified instructions will be provided for use in preparing these applications. The receipt date is September 22, 1986.

Those individuals and institutions meeting eligibility requirements and wishing to receive further information and/or application materials should write to: AREA Office of Grants Inquiries, Division of Research Grants, National Institutes of Health, Westwood Building, Room 449, Bethesda, Maryland 20892.

Dated: May 7, 1986.

James B. Wyngaarden,

Director, National Institutes of Health.

BILLING CODE 4140-01-M

National Institute on Aging; Aging Review Subcommittee B

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Aging Review Subcommittee B, National Institute on Aging, on June 19, 1986, Building 31, Conference Room 5C06, National Institutes of Health, Bethesda, Maryland, 20892.

This meeting will take the form of a conference telephone call. A speaker phone will be provided in the conference room to allow public participation during the open session of the meeting. The meeting will be open to the public from 1:00 p.m. to 1:15 p.m. on June 19 for introductory remarks. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on June 19 from 1:15 p.m. to adjournment for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, disclosure of which would

constitute a clearly unwarranted invasion of personal privacy.

Ms. June C. McCann, Committee Management Officer, NIA, Building 31, Room 2C05, National Institutes of Health, Bethesda, Maryland, 20892, (301) 496–5898, will provide a summary of the meeting and a roster of Committee members, as well as substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.866, Aging Research, National Institutes of Health)

Dated: May 9, 1986.

Betty J. Beveridge,

NIH Committee Management Officer.

Meetings of the Biomedical Library Review Committee and the Subcommittee for the Review of Medical Library Resource Improvement Grant Applications

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Biomedical Library Review Committee on June 24–25, 1986, convening each day at 8:30 a.m. in the Board Room of the National Library of Medicine, Building 38, 8600 Rockville Pike, Bethesda, Maryland, to adjournment on June 25, and the meeting of the Subcommittee for the Review of Medical Library Resource Improvement Grant Applications on June 23, from 3:00 p.m. to 4:00 p.m. in the 5th-Floor Conference Room of the Lister Hill Center Building.

The meeting on June 24 will be open to the public from 8:30 to 11:00 a.m. for the discussion of administrative reports and program developments. Attendance by the public will be limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code, and Section 10(d) of Pub. L. 92–463, the regular meeting and the subcommittee meeting will be closed to the public for the review, discussion, and evaluation of individual grant applications as follows: The regular meeting on June 24 from 11:00 a.m. to 5:00 p.m., and on June 25, from 8:30 a.m to adjournment; and the subcommittee meeting on June 23 from 3:00 p.m. to 4:00 p.m. These applications and the discussion could reveal confidential trade secrets or commercial property, such as patentable material, and personal information concerning individuals associated with applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Roger W. Dahlen, Executive Secretary of the Committee, and Chief, Biomedical Information Support Branch, Extramural Programs, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20894, telephone number: 301–496–4221, will provide summaries of the meeting, rosters of the committee members, and other information pertaining to the meeting.

BILLING CODE 4140–01–M

National Advisory Research Resources Council; Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the National Advisory Research Resources Council, Division of Research Resources (DRR), on June 5–6, 1986, at the National Institutes of Health, Conference Room 10, Building 31–C, 9000 Rockville Pike, Bethesda, Maryland 20892.

This meeting will be open to the public on June 5 from 9:00 a.m. until recess, and on June 6 from 9:00 a.m. until approximately 10:45 a.m. for discussions on administrative matters such as previous meeting minutes; the Report of the Director, DRR; future meeting dates; and budget and legislative updates. DRR staff and the Council will discuss animal welfare issues such as the USDA plans to implement Pub. L. 99–198 (amendment to the Animal Welfare Act); the impact of new Federal policy on grantee institutions; and institutional review of research protocols involving the use of animals. Attendance by the public will be limited to space available.

In accordance with provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92–463, the meeting will be closed to the public on June 6 from 11:15 a.m. until adjournment for the review, discussion and evaluation of individual grant applications. The applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

In accordance with the provisions set forth in section 552b(c)(9)(B), Title 5, U.S. Code, the Council meeting will be closed to the public on June 6 from approximately 10:45 a.m. to approximately 11:15 a.m. for discussion and preparation of comments Council wishes to submit to the Director, NIH, for inclusion in the biennial report to the Congress.

Mr. James Augustine, Information Officer, DRR, Building 31, Room 5B10, National Institutes of Health, Bethesda, Maryland 20892, 301/496–5545, will provide a summary of the meeting and a roster of the Council members upon request. Dr. James F. O'Donnell, Deputy Director, DRR, Building 31, Room 5B03, National Institutes of Health, Bethesda, Maryland 20892, 301/496–6023, will furnish substantive program information upon request, and will receive any comments pertaining to this announcement.

Public Health Service

National Committee on Vital and Health Statistics; Meeting

Pursuant to the Federal Advisory Act (Pub. L. 92–463), notice is hereby given that the National Committee on Vital and Health Statistics (NCVHS) established pursuant to 42 U.S.C. 242k, section 306(k)(2) of the Public Health Service Act, as amended, will convene on Thursday, June 5, and Friday, June 6, 1986 from 9:00 a.m. to 5:00 p.m. both days in Room 529A of the Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201.

The Committee will receive the final report of the Subcommittee on Statistical Aspects of Physician Payment Systems and hear reports on the activities of the Subcommittees on Uniform Minimum Health Data Sets, Disease Classification and Automated Coding of Medical Diagnoses, Minority Health Statistics, and Data Gaps in Disease Prevention and Health Promotion.

Further information regarding this meeting of the Committee may be obtained by contacting Gail F. Fisher, Ph.D., Executive Secretary, National Committee on Vital and Health Statistics, Room 2–28, Center Building, 3700 East-West Highway, Hyattsville,

Maryland 20782, telephone (301) 436-7050.

Dated: May 7, 1986.

Manning Feinleib,

Director, National Center for Health Statistics.

BILLING CODE 4310-10-M

National Park Service

Intention to Negotiate Concession Contract

Pursuant to the provisions of section 5 of the Act of October 9, 1965, 16 U.S.C. 20, public notice is hereby given that sixty (60) days after the date of publication of this notice, the Department of the Interior, through the Director of the National Park Service, proposes to negotiate a concession contract with Lake Meredith Marina, Inc., authorizing it to continue to provide marina, fuel dock, and merchandise sales facilities and services for the public at Lake Meredith Recreation Area, Texas, for a period of ten (10) years from January 1, 1987 through December 31, 1996.

This contract renewal has been determined to be categorically excluded from the procedural provisions of the National Environmental Policy Act and no environmental document will be prepared.

The foregoing concessioner has performed its obligations to the satisfaction of the Secretary under an existing contract which will expire by limitation of time on December 31, 1986, and therefore, pursuant to the Act of October 9, 1965, as cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract as defined in 36 CFR, 51.5.

The Secretary will consider and evaluate all proposals received as a result of this notice. Any proposal, including that of the existing concessioner, must be postmarked or hand delivered on or before the sixtieth (60th) day following publication of this notice to be considered and evaluated.

Interested parties should contact the Superintendent, Lake Meredith Recreation Area, P.O. Box 1438, Fritch, Texas, 79036, telephone number (806) 857-3151, for information as to the requirements of the proposed contract.

Dated: April 15, 1986.

Robert I. Kerr,

Regional Director, Southwest Region.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs

AGENCY: Interstate Commerce Commission.

ACTION: Denial of petitions to reopen or institution of a new proceeding.

SUMMARY: The Commission is denying: (1) The National Industrial Transportation League's request for an order requiring motor and rail carriers to publish negative surcharges to reflect declining fuel prices; and (2) The National Small Shipments Traffic Conference, Inc., and Drug and Toilet Preparation Traffic Conference, Inc., joint petition for adjustment of the rate structure for similar reasons or alternatively, a negative fuel surcharge. The relief requested is unnecessary in view of actions already taken or contemplated.

DATE: This action is effective on May 16, 1986.

FOR FURTHER INFORMATION CONTACT: Jane F. Mackall, (202) 275-7513.

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (DC Metropolitan area) or toll free (800) 424-5403.

Authority: 49 U.S.C. 10321, 10327, 5 U.S.C. 553.

Decided: May 7, 1986.

By the Commission, Chairman Gradison, Vice Chairman Sibbens, Commissioners Sterrett, Andre, and Lamboley. Commissioner Lamboley dissented in part with a separate expression.

James H. Bayne,

Secretary.

BILLING CODE 7035-01-M

Release of Waybill Data For Use by the Association of American Railroads

The Commission has received a request from the Intermodal Policy Division of the Association of American Railroads (AAR) to use the 1984 ICC Waybill Sample in its economic and policy research and analysis work. The waybill data will be used exclusively as input to the AAR Intermodal Competition Model. This model is the chief means by which the AAR and rail industry determine the impact on rail traffic and revenue of changes in rail, truck, or barge costs. It aggregates all rail shipments as if they were part of one large nationwide or State railroad. The waybill data actually required are the six and seven digit SPLC and STCC codes, car types, and route miles.

The computer output of AAR's model runs are always reported in a highly aggregated form so no individual railroad, shipper, or car owner information is revealed. Moreover, these aggregated results are not reported outside of AAR.

The Commission requires rail carriers to file waybill sample information if in any of the past three years they terminated on their lines at least: (1) 4,500 revenue carloads or (2) 5 percent of revenue carloads in any one State (49 CFR Part 1244). From this waybill information, the Commission has developed a Public Use Waybill File that has satisfied the majority of all our waybill data requests while protecting the confidentiality of proprietary data submitted by the railroads. However, if confidential waybill data are requested, as in this case, we will consider releasing the data only after certain protective conditions are met and public notice is given. More specifically, under the Commission's current policy for handling waybill requests, we will not release any confidential waybill data until after: (1) Public notice is provided so affected parties have an opportunity to object and (2) certain requirements designed to protect the data's confidentiality are agreed to by the requesting party (48 FR 40828, September 9, 1983).

Accordingly, if any parties object to this request, they should file their objections (an original and 2 copies)

with the Director of the Commission's Office of Transportation Analysis (OTA) within 14 calendar days of the date of this notice. They should also include all grounds for objection to the full or partial disclosure of the requested data. The Director of OTA will consider these objections in determining whether to release the requested waybill data. Any parties who objected will be timely notified of the Director's decision.

Contact: Elaine Kaiser, (202) 275-7093.

James H. Bayne,

Secretary.

BILLING CODE 4410-09-M

Manufacturer of Controlled Substances Application; First State Chemical Co. Inc. (McNeilab Inc.)

Pursuant to § 1301.43(a) of Title 21 of the Code of Federal Regulations (CFR), this is notice that on January 28, 1986, McNeilab Inc., DBA First State Chemical Company Inc., 803 East Fourth Street, Wilmington, Delaware 19801, made application to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug	Schedule
Codeine (9050)	II
Oxycodone (9143)	II
Morphine (9300)	II
Thebaine (9333)	II

Any other applicant and any person who is presently registered with DEA to manufacture such substances, may file comments or objections to the issuance of the above application and may also file a written request for a hearing thereon in accordance with 21 CFR 1301.54 in the form prescribed by 21 CFR 1316.47.

Any such comments, objections or requests for a hearing may be addressed to the Deputy Assistant Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street, NW., Washington, DC 20537, Attention: DEA Federal Register Representative (Room 1112), and must be filed no later than June 18, 1986.

Dated: May 13, 1986.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

[FR Doc. 86-11189 Filed 5-16-86; 8:45 am]

BILLING CODE 4410-09-M

Importation of Controlled Substances Notice of Application; First State Chemical Co., Inc. (McNeilab Inc.)

Pursuant to section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958(h)), the Attorney General shall, prior to issuing a registration under this Section to a bulk manufacturer of a controlled substances in Schedule I or II, and prior to issuing a regulation under section 1002(a) authorizing the importation of such substance, provide manufacturers holding registration for the bulk manufacture of the substance an opportunity for a hearing.

Therefore, in accordance with § 1311.42 of Title 21 Code of Federal Regulations (CFR), notice is hereby given that on January 28, 1986, McNeilab Inc., DBA First State Chemical Company Inc., 803 East Fourth Street, Wilmington, Delaware 19801, made application to the Drug Enforcement Administration to be registered as an importer of the basic classes of controlled substances listed below:

Drug	Schedule
Raw opium (9600)	II
Concentrate of poppy straw (9670)	II

As to the basic classes of controlled substances listed above for which application for registration has been made, any other applicant therefore, and any existing bulk manufacturer registered therefore, may file written comments on or objections to the issuance of such registration and may, at the same time, file a written request for a hearing on such application in accordance with 21 CFR 1301.54 in such form as prescribed by 21 CFR 1316.47.

Any such comments, objections or requests for a hearing may be addressed to the Deputy Assistant Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street, NW., Washington, DC 20537, Attention: DEA Federal Register Representative (Room 1112), and must be filed no later than June 18, 1986.

This procedure is to be conducted simultaneously with and independent of the procedures described in 21 CFR 1311.42 (b), (c), (d), (e), and (f). As noted in a previous notice at 40 FR 43745-46 (September 23, 1975), all applicants for registration to import a basic class of any controlled substance in Schedule I or II are and will continue to be required to demonstrate to the Deputy Assistant Administrator of the Drug Enforcement Administration that the requirements for such registration pursuant to 21 U.S.C. 958(a), 21 U.S.C. 823(a), and 21 CFR 1311.42 (a), (b), (c), (d), (e) and (f) are satisfied.

Dated: May 13,1986.

Gene R. Haislip,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Labor Research Advisory Council Committees; Meetings in Agenda

The regular spring meetings of committees of the Labor Research Advisory Council will be held on June 3, 4, and 5. The meetings will be held in Room N-3437 A and B, of the Frances Perkins Department of Labor Building, 200 Constitution Avenue NW., Washington, DC.

The Labor Research Advisory Council and its committees advise the Bureau of Labor Statistics with respect to technical matters associated with the Bureau's programs. Membership consists of union research directors and staff members.

The meetings of the Committee on Productivity, Technology and Economic Growth and the Committee on Foreign Labor Statistics will be combined. The schedule and agenda of the meetings are as follows:

Tuesday, June 3

9:30 a.m.—Committee on Employment Structure and Analysis
1. Impact of FY 1986–87 Budgets on Programs
2. Status of On-going Programs
   a. Plant Closing—Mass Layoff Reporting
   b. Measurement of Trends in Temporary Help Sector
   c. Occupational Employment Statistics
   d. Displaced Worker Data
   e. Employment and Trade Statistics
3. Special Topics:
   a. SIC Revision
   b. Part-time Employment Trends
   c. Universe Maintenance System Design
   d. Federal-State Cooperative Programs Administration
4. Other Business

1:30 p.m.—Committee on Productivity, Technology and Economic Growth and the Committee on Foreign Labor Statistics
1. Impact of GNP Revisions of Productivity Measures
2. Report of Work on Multifactor Productivity Measures for Two-Digit Industries
3. New OMB Government Productivity Program and Relation to BLS Programs
4. Development in International Comparisons Work
5. European Economic Committee's Special Study in Relation to BLS International Unemployment Comparisons
6. Other Business

Wednesday, June 4

9:30 a.m.—Committee on Prices and Living Conditions
1. CPI and CPI Revision
   a. Local Area CPI's; Transition
   b. Revision Status Report
2. Other Program Reports
3. Budget Status
4. Other Business

1:30 p.m.—Committee on Occupational Safety and Health Statistics
1. National Academy of Sciences Study and General Program Developments
2. Recordkeeping Guidelines
3. On-Site Case Study and Post Symposium Developments
4. WIR Update
5. Supplementary Data System Updates
6. Other Business

Thursday, June 5

9:30 a.m.—Committee on Wages and Industrial Relations
1. Review of Work in Progress
2. The FY 1987 Budget
3. Today's Pension Plans: How Much Do They Pay?
4. Review of Wage Program Concepts
5. Other Business.

The meetings are open. It is suggested that persons planning to attend as observers contact Joseph P. Goldberg, Executive Secretary, Labor Research Advisory Council on (Area Code 202) 523-0001.

Signed at Washington, DC, this 9th day of May 1986.

Janet L. Norwood,

Commissioner of Labor Statistics.

BILLING CODE 4510-24-M

Employment and Training Administration

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance; A&M Rubber Supply Inc., et al.

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 29, 1986.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 29, 1986.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street NW., Washington, DC 20213.

Signed at Washington, DC this 5th day of May 1986.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance; Active Generation, Inc., et al.

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 29, 1986.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than May 29, 1986.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 601 D Street NW., Washington, DC 20213.

Signed at Washington, DC this 12th day of May 1986.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

[TA-W-16,736; 16,740; 16,741; 16,743; 16,745]

AT&T Information Systems; Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on November 29, 1985 in response to a worker petition which was filed by the Communications Workers of America on behalf of workers at Service Centers of AT&T Information Systems (up to July 1, 1985 under the jurisdiction of AT&T Technologies) in Salt Lake City, Utah; East Syracuse, New York; Union, New Jersey; Cincinnati, Ohio and New Orleans, Louisiana. In the course of the investigation, it was ascertained that all of the above service centers, which include refurbishing shops and warehouses, were closed more than one year before the date of the petition, which is September 30, 1985.

The closing dates and locations are listed below:

Location	TA-W-#	Closing date
Salt Lake City, Utah	16,736	Dec. 31, 1983.
East Syracuse, New York	16,740	July 6, 1984.
Union, New Jersey	16,741	Aug. 31, 1984.
Cincinnati, Ohio	16,743	Dec. 31, 1983.
New Orleans, Louisiana	16,745	July 1, 1984.

Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC, this 7th day of May 1986.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4510-30-M

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance; BRW Industries et al.

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for adjustment assistance issued during the period May 5, 1986–May 9, 1986.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–16,652; BRW Industries, Bangor, PA

TA–W–16,611; Armco, Inc., Ambridge, PA

TA–W–16,656; J.L. Clark Manufacturing Co., Havre De Grace, MD

TA–W–16,555; Kimble Products Division, Owens-Illinois, Inc., Pittston, PA

TA–W–16,463; Gates Learjet Corp., Wichita, KS

TA–W–16,464; Gates Learjet Corp., Tucson, AZ

TA–W–16,655; Handy and Harman, Electronic Materials, Montvale, NJ

TA–W–16,620; Spang and Company, Butler, PA

TA–W–16,576; C.E. Basic, Bettsville, OH

In the following cases the investigation revealed that criterion (3) has not been met for the reasons specified.

TA–W–16,683; West Company, North Bergen, NJ

Separations from the subject firm resulted from a transfer of production to another domestic facility.

TA–W–16,665; El Paso Machine Steel Works, Inc., El Paso, TX

The investigation revealed that criterion (2) has not been met. Sales or production did not decline during the relevant period as required for certification.

Affirmative Determinations

TA–W–16,486; Anchor Hocking Corp., Plant #12, #30, #40, #58, Lancaster, OH

A certification was issued covering all workers of the firm separated on or after September 12, 1984.

TA–W–16,616; Lebow Clothes, Inc., Baltimore, MD

A certification was issued covering all workers of the firm separated on or after October 24, 1984.

TA–W–16,637; Louisiana-Pacific Corp., Ashland, WI

A certification was issued covering all workers of the firm separated on or after January 1, 1985 and before April 15, 1986.

TA–W–16,606; Shenango Furnace Company, Dover, OH

A certification was issued covering all workers of the firm separated on or after November 1, 1984.

TA–W–16,596; Texas Apparel Co., Carrizo Springs, TX

A certification was issued covering all workers of the firm separated on or after July 1, 1985.

TA–W–16,640; Pennsylvania Optical Co., Reading, PA

A certification was issued covering all workers of the firm separated on or after November 11, 1984.

TA–W–16,657; Olin Corp., Ecusta Paper Film Group, Pisgah Forest, NC

A certification was issued covering all workers of the firm separated on or after November 13, 1984 and before April 30, 1986.

TA–W–16,610; WCI Machine Tool Systems, Fairfield, CT

A certification was issued covering all workers of the firm separated on or after October 22, 1984.

TA–W–17,102; United Merchants & Manufacturers, Inc., Amertex Dept 44, New York, NY

A certification was issued covering all workers of the firm separated on or after January 1, 1985 and before November 1, 1985.

TA–W–16,647; Great Lakes Carbon Corp., Morganton, NC

A certification was issued covering all workers of the firm separated on or after October 28, 1984.

TA–W–16,666; Elkem Metals Co., Marietta, OH

A certification was issued covering all workers of the firm separated on or after June 10, 1985.

TA–W–16,620A; Spang & Company, East Butler, PA

A certification was issued covering all workers producing tool joints separated on or after October 30, 1984.

TA–W–16,697; Sperry Corp., Ephraim, UT

A certification was issued covering all workers of the firm separated on or after January 1, 1985.

TA–W–16,697A; Sperry Corp., Salt Lake City, UT

A certification was issued covering all workers of the firm separated on or after January 1, 1985.

TA–W–16,600; Bethlehem Steel Corp., Steelton, PA

A certification was issued covering all workers except those workers engaged in employment related to production of steel reinforcing bar, frogs and switches and pipe products separated on or after January 1, 1985.

TA–W–16,576A; C.E. Basic, Maple Grove, OH

A certification was issued covering all workers producing nonclay refractories separated on or after September 24, 1984.

I hereby certify that the aforementioned determinations were issued during the period May 5, 1986–May 9, 1986. Copies of these determinations are available for inspection Room 6434, U.S. Department of Labor, 601 D Street NW., Washington, DC 20213, during normal business hours or will be mailed to persons who write to the above address.

Dated: May 13, 1986.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

Termination of Investigation; Pascoe Building Systems

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on April 21, 1986 in response to a worker petition which was filed on behalf of workers at Pascoe Building Systems, Wathena, Kansas.

The petitioning group of workers are subject to an ongoing investigation for which a determination has not yet been issued (TA–W–16,669). Consequently, further investigation in this case would serve no purpose; and the investigation has been terminated.

Signed at Washington, DC this 7th day of May 1986.

[TA-W-12,288]

Puna Sugar Co., Ltd., a Further Determination

Pursuant to the U.S. Court of International Trade remand, dated March 13, 1986, in *ILWU, Local 142* v. *Secretary of Labor*, (USCIT No. 83-5-00779) concerning the denial of certification for workers at the Puna Sugar Company, Ltd., Keaau, Hawaii, the Department makes the following further determination.

By order dated December 11, 1985, the Court remanded the case of the Secretary for further proceedings. On March 13, 1986, the USCIT denied the Secretary's request for a rehearing and remanded the case to the Department for further proceedings.

The Court held that the record did not support (1) the contention that the workers' firm produced refined sugar rather than raw sugar; (2) that HFCS was relevent to the workers' petition; (3) that HFCS had a significant impact on the raw sugar market and (4) that HFCS was a more important cause of workers separations than raw sugar imports. Also, the Court faulted the Department for failing to explain why the 1977 Hawaiian certifications did not "provide a precedent" and why the increase of raw sugar imports in 1981 did not contribute importantly to worker separations at Puna.

Findings in the record show Puna, in cooperation with other owners, produced and marketed refined sugar through the California and Hawaii Sugar Company (C&H). C&H did not import raw sugar.

On remand, the Office of Trade Adjustment had available the results of a customer survey involving customers of C&H done in conjunction with another investigation but which is relevant to the instant case. The results of the survey have been incorporated into the record. In addition, updated statistics have been included in the record and have been utilized by the Department on remand. As a result of the Department's investigation on remand, the Department has reached the following conclusions relevant to this petition:

The product of Puna was refined sugar.

There occurred neither an absolute nor a relative increase in imports of refined sugar in the relevant time period. The "increases of imports" requirement of the statute therefore could not be satisfied unless raw sugar can be considered to be a product "directly competitive with" refined sugar under the facts relevant to this petition and it can be determined that imports of raw sugar increased in the relevant time period.

Because of the domestic increase in refined sugar exports in the relevant time period brought about by the availability of "drawback" payments, most of the increases in imports of raw sugar in 1981 over import levels in 1980 was absorbed by the refined sugar exports and consequently did not remain in the domestic refined sugar market so as to affect prices for Puna's product. Thus, imports of raw sugar in the relevant time period did not have an economic effect "comparable to" the effect of imports of refined sugar and consequently imported raw sugar was not, within the meaning of the statute, "directly competitive with" domestic refined sugar in the relevant time period.

Even assuming that the "increases of imports" requirement could be satisfied by the 1980-81 increase in raw sugar imports, the Department has determined that this increase could not have, and did not in fact, contribute importantly to the decline in production or sales and separation of employees at Puna.

The 1977 certifications of workers at Wailuke Sugar Company do not "provide a precedent" for the Puna petition because the facts and the economic and regulatory circumstances relevant to the Wailuke petitions are distinguishable from those relevant to the instant petition.

Conclusion

After reconsideration, I reaffirm the original denial of eligibility to apply for adjustment assistance to workers at Puna Sugar Company, Keaau, Hawaii.

Signed at Washington, DC, this 12th day of May 1986.

Robert A. Schaerfl,

Director, Office of Program Management, UIS.

BILLING CODE 4510-30-M

United Merchants and Manufacturers, Inc., Arkwright Finishing Plant, Bath Mill Division; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on March 28, 1986, applicable to all workers of United Merchants and Manufacturers, Inc., Arkwright Finishing Plant, Fall River, Massachusetts. The Notice of Certification was published in the Federal Register on April 8, 1986 (51 FR 11982).

On its own motion the Office of Trade Adjustment Assistance expanded its initial investigation (TA-W-18,537) to include workers at United Merchants and Manufacturers, Inc., Bath Mill Division, Bath, South Carolina.

The Bath Mill Division is part of an integrated production process where woven greige goods of cotton/polyester blends are produced that are finished at other United Merchants' mills or mills under contract to United Merchants. United Merchants and Manufacturers, Incorporated maintains ownership and control of the goods throughout the production process. The finished goods are sold by the sales arm of United Merchants to apparel manufacturers. The Bath Mill Division ceased production permanently in October, 1985.

The intent of the amended certification is to cover under one notice all workers of the Arkwright Finishing Plant in Fall River, Massachusetts and the Bath Mill Division in Bath, South Carolina of United Merchants and Manufacturers, Inc. The notice, therefore, is amended by including the Bath, South Carolina plant with its January 1, 1985 impact date and January 1, 1986 termination date.

The amended notice applicable to TA-W-537 is hereby issued as follows:

All workers of United Merchants and Manufacturers, Incorporated, Arkwright Finishing Plant, Fall River, Massachusetts who became totally or partially separated from employment on or after January 1, 1985 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974 and all workers of United Merchants and Manufacturers, Incorporated, Bath Mill Division, Bath, South Carolina who became totally or partially separated from employment on or after January 1, 1985 and before January 1, 1986 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC, this 7th day of May 1986.

Robert O. Deslongchamps,

Director, Office of Legislation and Actuarial Services, UIS.

Correction

In FR Doc. 86-9606 beginning on page 16407 in the issue of Friday, May 2, 1986, make the following corrections:

On page 16408, in the table, in the FR Notice column, the first ten entries should read: "41 FR 13960, 48 FR 50666, 49 FR 13761, 49 FR 22577, 49 FR 40499, 49 FR 40501, 49 FR 26160, 49 FR 40506, 49 FR 35060, 49 FR 40497".

BILLING CODE 1505-01-M

Wage and Hour Division

Certificates Authorizing the Employment of Learners at Special Minimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act (52 Stat. 1062, as amended; U.S.C. 214), Reorganization Plan No. 6 of 1950 (3 CFR Parts 1949-53 Comp., p. 1004), and Administrative Order No. 1-76 (41 FR 18949), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations.

The following certificate was issued under the apparel industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.20 to 522.25 as amended):

Flushing Shirt Mfg., Inc., Grantsville, MD; 1-18-86 to 1-17-87; 10 percent of the total number of factory production workers for normal labor turnover (Men's shirts).

The following certificate was issued under the knitted wear industry regulations (29 CFR 522.1 to 522.9, as amended and 522.30 to 522.35, as amended):

Somerset Mfg. Co., Somerset, PA; 3-12-86 to 3-11-87; 5 percent of the total number of factory production workes for normal labor turnover purposes (Ladies' slips and sleepwear).

Each certificate has been issued upon the representations of the employer which, among other things were that employment of learners at special minimum rates is necessary in order to prevent curtailment opportunities for employment, and that experienced workers for the learner occupations are not available.

The certificate may be annulled or withdrawn as indicated therein, in the manner provided in 29 CFR Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or conaideration thereof on or before June 3, 1986.

Signed at Washington, DC, this 9th day of May 1986.

Arthur H. Kane,

Authorized Representative of the Administrator.

BILLING CODE 4510-27-M

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes a notice at least monthly of all agency requests for records disposition authority (records schedules) which include records being proposed for disposal or which reduce the records retention period for records already authorized for disposal. The first notice was published on April 1, 1985. Records schedules identify records of continuing value for eventual preservation in the National Archives of the United States and authorize agencies to dispose of records of temporary value. NARA invites public comment on proposed records disposals as required by 44 U.S.C. 3303a(a).

DATE: Comments must be received in writing on or before July 18, 1986.

ADDRESS: Address comments and requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, Washington, DC 20408. Requestors must cite the control number assigned to each schedule when requesting a copy. The control number appears in parenthesis immediately after the title of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records in the form of paper, film, magnetic tape, and other media. In order to control the accumulation of records, Federal agencies prepare records schedules which specify when the agency no longer needs them for current business and what happens to the records after the expiration of this period. Destruction of the records requires the approval of the Archivist of the United States, which is based on a thorough study of their potential value for future use. A few schedules are comprehensive; they list all the records of an agency or one of its major subdivisions. Most schedules cover only one office, or one program, or a few series of records, and many are updates of previously approved schedules.

This public notice identifies the Federal agencies and their appropriate subdivisions requesting disposition authority, includes a control number assigned to each schedule, and briefly identifies the records scheduled for disposal. The complete records schedule contains additional information about the records and their disposition. Additional information about the disposition process will be furnished with each copy of a records schedule requested.

Effective with this notice, records schedules which include only requests to lengthen the retention period and where authority for disposal already exists are not being included.

Schedules Pending Approval

1. Department of Commerce, Bureau of Foreign Commerce, Office of Economic Affairs (N1-151-86-3). Records relating to treaties, tariffs, cartels, and commercial laws.

2. Department of Commerce, Office of Assistant Administrator for Industrial Analysis and Business Programs (N1-151-86-4). Records relating to industrial studies in Alaska.

3. Environmental Protection Agency, Office of Emergency and Remedial Response (NC1-412-85-10). General correspondence and records relating to administrative support.

4. Department of Health and Human Services, Public Health Service, Health Resources and Services Administration (N1-90-86-5). Records relating to the National Health Service Corps scholarships, including correspondence, memoranda, applications, agreements, and other related records.

5. National Archives and Records Administration, National Archives Center, Kansas City, MO: records accessioned from the General Services Administration, Public Buildings Service (N2-121-86-1). Routine administrative

correspondence and housekeeping records relating to the disposal of real property.

6. United States Coast Guard, Office of Merchant Marine Safety (NC1–29–84–10). Records relating to merchant marine officers licenses and original articles containing seaman agreements with masters and/or companies.

7. Department of the Treasury, Comptroller of the Currency, Office of Bank Supervision (N1–101–86–1). Reports of conditions of the United States banking system, 1917–1928.

8. Department of the Treasury, International Revenue Service, Returns Processing and Accounting Division (NC–58–82–10). Miscellaneous statistical tables, correspondence, progress reports, demonstration materials.

Dated: May 12, 1986.

Frank G. Burke,

Acting Archivist of the United States.

Agency Information Collection Activities Under OMB Review

AGENCY: National Endowment for the Humanities, NFAH.

ACTION: Notice.

SUMMARY: The National Endowment for the Humanities (NEH) has sent to the Office of Management and Budget (OMB) the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATE: Comments on this information collection must be submitted on or before June 16, 1986.

ADDRESSES: Send comments to Ms. Ingrid Foreman, Management Assistant, National Endowment for the Humanities, Administrative Services Office, Room 202, 1100 Pennsylvania Avenue NW., Washington, DC 20506, (202–786–0233) or Ms. Judy McIntosh, Office of Management and Budget, New Executive Office Building, 726 Jackson Place NW., Room 3208, Washington, DC 20503, (202–395–6880).

FOR FURTHER INFORMATION CONTACT: Ms. Ingrid Foreman, National Endowment for the Humanities, Administrative Services Office, Room 202, 1100 Pennsylvania Avenue NW., Washington, DC 20506, (202–786–0233) from whom copies of forms and supporting documents are available.

SUPPLEMENTARY INFORMATION: All of the entries are grouped into new forms, revisions, or extensions. Each entry is issued by NEH and contains the following information: (1) The title of the form; (2) the agency form number, if applicable; (3) how often the form must be filled out; (4) who will be required or asked to report; (5) what form will be used for; (6) an estimate of the number of responses; (7) an estimate of the total number of hours needed to fill out the form. None of these entries are subject to 44 U.S.C. 3504(h).

Category: Revisions

Title: Applications and Instruction Forms for the Publication Subvention Category
Form Number: Not applicable
Frequency of Collection: Twice a year
Respondents: Publishers of works in the humanities
Use: Application for funding
Estimated Number of Respondents: 132 per year
Estimated Hours for Respondents to Provide Information: 24 per respondent.

Susan Metts,

Director of Administration.

BILLING CODE 7536–01–M

Humanities Panel; Meetings

AGENCY: National Endowment for the Humanities.

ACTION: Notice of Meetings.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, as amended), notice is hereby given that the following meetings of the Humanities Panel will be held at the Old Post Office, 1100 Pennsylvania Avenue, NW., Washington, DC 20506:

1. Date: May 30, 1986.
Time: 8:30 a.m. to 5:30 p.m.
Room: 316–2.
Program: This meeting will review Summer Seminars for Secondary School Teachers in Philosophy and Religion, submitted to the Division of Fellowships and Seminars, for projects beginning after September 1, 1986.

2. Date: June 1986.
Time: 8:30 a.m. to 5:30 p.m.
Room: 316–2.
Program: This meeting will review Summer Seminars for Secondary School Teachers in Comparative Literature, submitted to the Division of Fellowships and Seminars, for projects beginning after September 1, 1986.

3. Date: June 3, 1986.
Time: 8:30 a.m. to 5:30 p.m.
Room: 316–2.
Program: This meeting will review Summer Seminars for Secondary School Teachers in English and American Literature, submitted to the Division of Fellowships and Seminars, for projects beginning after September 1, 1986.

4. Date: June 4, 1986.
Time: 8:30 a.m. to 5:30 p.m.
Room: 316–2.
Program: This meeting will review Summer Seminars for Secondary School Teachers in Politics and Society, submitted to the Division of Fellowships and Seminars, for projects beginning after September 1, 1986.

5. Date: June 5, 1986.
Time: 8:30 a.m. to 5:30 p.m.
Room: 316–2.
Program: This meeting will review Summer Semniars for Secondary School Teachers in History of Art and Architecture, submitted to the Division of Fellowships and Seminars, for projects beginning after September 1, 1986.

6. Date: June 5–6, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: M–09.
Program: This meeting will review applications in the fields of the humanities submitted to the Conferences category of Regrants Program, Division of Research Programs, for projects beginning after October 1, 1986.

7. Date: June 5–6, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review state humanities council applications, submitted to the Division of State Programs, for activity beginning after November 1, 1986.

8. Date: June 8, 1986.
Time: 8:30 a.m. to 5:30 p.m.
Room: 316–2.
Program: This meeting will review Summer Seminars for Secondary School Teachers in Classical, Medieval, and Renaissance Studies, submitted to the Division of Fellowships and Seminars, for projects beginning after September 1, 1986.

9. Date: June 12–13, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review state humanities council applications, submitted to the Division of State Programs, for activity beginning after November 1, 1986.

10. Date: June 19–20, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.

Program: This meeting will review state humanities council applications, submitted to the Division of State Programs, for activity beginning after November 1, 1986.

11. Date: June 9–10, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: 415.
Program: This meeting will review applications submitted for Exemplary Projects in Undergraduate and Graduate Education program, submitted to the Division of Education, for projects beginning after January 1, 1987.

12. Date: June 6, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review applications in the fields of the humanities submitted to the Publication Subvention category of the Texts Programs, Division of Research Programs, for projects beginning after October 1, 1986.

13. Date: June 9, 1986.
Time: 8:30 a.m. to 5:00 p.m.
Room: 315.
Program: This meeting will review applications in the fields of the humanities submitted to the Publication Subvention category of the Texts Program, Division of Research Programs, for projects beginning after October 1, 1986.

14. Date: June 12, 1986.
Time: 9:00 a.m. to 5:00 p.m.
Room: 430.
Program: This meeting will review Challenge Grants applications from Public Libraries, submitted to the Challenge Grants Programs, for projects beginning after December 1, 1986.

The proposed meetings are for the purpose of panel review, discussion, evaluation and recommendation of applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. Because the proposed meetings will consider information that is likely to disclose: (1) Trade secrets and commercial or financial information obtained from a person and privileged or confidential; (2) information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and (3) information the disclosure of which would significantly frustrate implementation of proposed agency action; pursuant to authority granted me be the Chairman's Delegation of Authority to Close Advisory Committee Meetings, date January 15, 1978, I have determined that these meetings will be closed to the public pursuant to subsections (c)(4), (6) and (9) (B) of section 552b of Title 5, United States Code.

Further information about these meetings can be obtained from Mr. Stephen J. McCleary, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506, or call (202) 786–0322.

Stephen. J. McCleary,
Advisory Committee Management Officer.

BILLING CODE 7536-01-M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Proposed Meetings

In order to provide advance information regarding proposed public meetings of the ACRS Subcommittees and meetings of the full Committee, the following preliminary schedule is published to reflect the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed meetings published April 22, 1986 (51 FR 15060). Those meetings which are definitely scheduled have had, or will have, an individual notice published in the Federal Register approximately 15 days (or more) prior to the meeting. It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. ACRS full Committee meetings begin at 8:30 A.M. and Subcommittee meetings usually begin at 8:30 A.M. The time when items listed on the agenda will be discussed during full Committee meetings and when Subcommittee meetings will start will be published prior to each meeting. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the June 1986 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone: 202/634–3265, ATTN: Barbara Jo White) between 8:15 A.M. and 5:00 P.M., Eastern Time.

ACRS Subcommittee Meetings

Thermal Hydraulic Phenomena, May 21, 1986, Washington, DC. The Subcommittee will review NRC research programs in the thermal hydraulic phenomena area for the ACRS report to the Commission for FY 1988.

Ad Hoc Subcommittee on TVA, May 22, 1986, Washington, DC—Cancelled.

Reliability Assurance, May 22, 1986, Washington, DC (Note: This meeting will begin at 8:00 A.M.). The Subcommittee will discuss research associated with reliability research (reliability maintenance), mechanical and electrical equipment qualification, and plant aging. Related topics will also be discussed, including seismic fragility of plant components (e.g., relay chatter) and the ability of containment isolation valves to close under accident flow rates.

Regulatory Policies and Practices, May 27, 1986, Washington, DC. The Subcommittee will discuss the regulatory process as it relates to the June 9, 1985 event at Davis-Besse.

South Texas Units 1 and 2, May 29 and 30, 1986, Bay City, TX. The Subcommittee will review Houston Lighting and Power Company's application for an operating license.

Reactor Operations, June 3, 1986, Washington, DC. The Subcommittee will review recent events at operating plants.

Severe (Class 9) Accidents, June 3, 1986, Washington, DC. The Subcommittee will review a final draft of NUREG–0956, "Reassessment of the Technical Bases for Estimating Source Terms."

Safety Research Program, June 4, 1986, Washington, DC. The Subcommittee will continue its discussion on the proposed NRC Safety Research Program and Budget for FY 1988 and 1989. It will discuss also a Draft ACRS report to the Commission on this matter.

Containment Requirements, June 4, 1986, Washington, DC. The Subcommittee will review the status of the NRC Staff's programs for the development of Safety Goal Policy containment performance objectives.

Decay Heat Removal Systems, June 24, 1986 (tentative), Washington, DC. The Subcommittee will review NRR's Action Plan to address concerns with the reliability of certain plants' AFW systems.

Babcock and Wilcox (B&W) Reactor Plants, June 25, 1986, Washington, DC. The Subcommittee will consider the B&W Owners Group plans to reassess the long-term safety of B&W reactors, including the implications of operating experience on the adequacy of B&W plant designs. The Subcommittee will also be briefed on the NRC Staff's Incident Investigation Team's (IIT) findings related to the 12/26/85 loss of integrated control system power and overcooling transient at the Rancho Seco nuclear power plant.

Metal Components, June 25, 1986, Pittsburgh, PA. The Subcommittee will

review the status of NDE of cast stainless steel, and changes in steel-making practice.

Auxiliary Systems, June 26, 1986, Washington, DC. The Subcommittee will discuss: (1) The status of the Appendix R compliance, (2) differing technical views among the Staff, (3) proposed research and associated budget for FY 1988 and 1989 in the fire protection area, and (4) updates on the progress being made in the Sandia experimental program on fire protection.

Gas Cooled Reactor Plants, June 26, 1986, Washington, DC. The Subcommittee will review the applicability on NRC requirements for equipment qualification and cable testing to Fort St. Vrain, an HTGR.

Davis-Besse, June 27, 1986, Washington, DC. The Subcommittee will review start-up activities for Davis-Besse.

Joint Occupational and Environmental Protection Systems and Auxiliary Systems, June 27, 1986, Washington, DC. The Subcommittees will: (1) Review a draft AEOD report on the effects of ambient temperature on I&C Systems, (2) be briefed on the status of various control room HVAC Systems problems and the Staff's control room habitability improvement effort, (3) discuss with the Staff the 1 mrem/yr "cutoff" dose rate for the calculation of collective population doses, and (4) be briefed on the Staff's evaluation of the Shearon Harris Chilled Water Systems.

Reliability Assurance, July 8, 1986, Washington, DC. The Subcommittee will review the final resolution of USI A-46, "Seismic Qualification of Equipment in Operating Plants."

Waste Management, July 22 and 23, 1986, Washington, DC. The Subcommittee will review: (1) NUREG-0518, Final Environmental Statement pertaining to the salvaging of contaminated smelted alloys, (2) the broader generic question concerning the disposition of a wide range of related materials, including metals and equipment resulting from the decontamination and decommissioning of nuclear power plants, and (3) High-Level and Low-Level Radioactive Waste topics to be identified and discussed with NMSS at an agenda planning session on May 27, 1986.

Westinghouse Reactor Plants, July 24, 1986, Washington, DC. The Subcommittee will continue discussion and comment on NRC Staff actions taken with respect to the SONGS-1 water hammer/loss of AC power event. This will be a follow-up Subcommittee meeting to the February 12, 1986 meeting on the same subject.

Scram Systems Reliability, July 31, 1986, Washington, DC. The Subcommittee will review the status of the ATWS Rule implementation effort.

Extreme External Phenomena, August 6, 1986, Washington, DC. The Subcommittee will conduct a workshop to review the importance of seismic risk to nuclear power plants. Seismic hazard will be the principal topic to be discussed.

Decay Heat Removal Systems, August 13, 1986, Washington, DC. The Subcommittee will continue its review of NRR's proposed resolution position for USI A-45, "Shutdown Decay Heat Removal Systems."

Spent Fuel Storage, Date to be determined (June/July), Washington, DC. The Subcommittee will continue its review of 10 CFR Part 72 and Monitored Retrievable Storage (MRS).

Metal Components, Date to be determinerd (July), Richland, WA. The Subcommittee will visit and review steam generator, degraded piping, and NDE facilities and programs.

Instrumentation and Control Systems, Date to be determined (July), Washington, DC. The Subcommittee will review the Westinghouse RIVLIS level instrumentation.

Nuclear Plant Chemistry, Date to be determined (July/August), Washington, DC. The Subcommittee will discuss fission product source terms, aerosol behavior, emergency planning, etc.

AC/DC Power Systems Reliability, Date to be determined (August), Washington, DC. The Subcommittee will review the proposed Station Blackout rule (SECY-85-163).

Seabrook Units 1 and 2, Date to be determined (late summer/early fall), Washington, DC. The Subcommittee will review the application for a full power operating license for Seabrook 1 and 2.

Structural Engineering, Date to be determined (late 1986), Albuquerque, NM. The Subcommittee will visit and review containment integrity and Category I structures, facilities, and programs.

Probabilistic Risk Assessment, Date and location to be determined. The Subcommittee will review the probabilistic risk assessment for Millstone 2.

ACRS Full Committee Meeting

June 5-7, 1986: Items are *tentatively* scheduled.

*A. *Meeting with NRC Commissioners*—discuss ACRS report dated January 14, 1986 regarding the General Electric Standard Safety Analysis Report (GESSAR-II).

*B. *Recent Events at Operating Nuclear Power Stations*—reports and discussion regarding recent events and incidents at nuclear power stations.

*C. *South Texas Nuclear Power Plant*—request for an operating license for this facility.

*D. *Davis-Besse Nuclear Plant*—discuss regulatory processes associated with the evaluation of the design, operation and accident investigation regarding this nuclear power plant.

E. *Reactor Safety Research Program*—Preparation of ACRS report to the U.S. Congress regarding the proposed NRC safety research program for FY 1988 and 1989.

F. *Source Term for Nuclear Power Plant Accidents*—review proposed NRC NUREG regarding revised nuclear power plant source term to be used in accident evaluation.

G. *NRC Regulatory Guides*—consider proposed revisions to NRC Regulatory Guides.

*H. *ACRS Subcommittee Activities*—reports of designated ACRS subcommittees regarding safety-related regulatory matters including consideration of Technical Integration Centers, thermal-hydraulic research and management of ACRS activities.

I. *Future ACRS Activities*—discuss anticipated ACRS subcomittee activities and items proposed for consideration by the full Committee.

*J. *Appointment of ACRS Members*—discuss qualifications of candidates nominated for appointment to the ACRS and reappointment of a committee member when his term is complete.

K. *Systems Interactions*—Discuss proposed ACRS comments regarding examples of systems interactions.

*L. *Activities of ACRS Members*—discuss non-ACRS activities of Committee members and the impact of these activities on their participation as ACRS members.

July 10-12, 1986—Agenda to be announced.

August 7-9, 1986—Agenda to be announced.

Dated: May 14, 1986.

John C. Hoyle,

Advisory Committee Management Officer.

[FR Doc. 86-11226 Filed 5-16-86; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards, Subcommittee on Thermal Hydraulic Phenomena; Revised

The **Federal Register** published May 8, 1986 (51 FR 17120) contained notice of a meeting of the ACRS Subcommittee to be held on Wednesday, May 21, 1986, 8:30 a.m., Room 1046, 1717 H Street, NW., Washington, DC. To the extent

practical, most of the meeting will be open to public attendance. However, a portion of the meeting will be closed to protect information, the premature disclosure of which would be likely to significantly frustrate implementation of a proposed Commission action. All other items regarding this meeting remain the same as previously announced.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Paul Boehnert (telephone: 202/634-3267) between 8:15 A.M. and 5:00 P.M. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: May 14, 1986.

Morton W. Libarkin,

Assistant Executive Director for Project Review.

[FR Doc. 86-11228 Filed 5-16-86; 8:45 am]

BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards, Subcommittee on Reliability Assurance; Date Change

The ACRS Subcommittee on Reliability Assurance previously published in the Federal Register May 13, 1986 (51 FR 17560) scheduled for May 23, 1986 has been *rescheduled for Thursday, May 22, 1986, 8:00 A.M., Room 1046, 1717 H Street, NW., Washington, DC.* All other items regarding this meeting remain the same as previously announced.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant ACRS staff member, Mr. Richard Major (telephone: 202/634-1414) between 8:15 A.M. and 5:00 P.M. Persons planning to attend this meeting are urged to contact the above named individual one or two days before the scheduled meeting to be advised of any changes in schedule, etc., which may have occurred.

Dated: May 14, 1986.

BILLING CODE 7590-01-M

RAILROAD RETIREMENT BOARD

Determination of Quarterly Rate of Excise Tax for Railroad Retirement Supplemental Annuity Program

In accordance with the directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C. 3221(c)), the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on ever employer, with respect to having individuals in his employ, for each work-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning July 1, 1986 shall be at the rate of 22.5 cents.

In accordance with directions in section 15(a) of the Railroad Retirement Act of 1974, the Railroad Retirement Board has determined that for the quarter beginning July 1, 1986, 27.6 percent of the taxes collected under sections 3211(b) and 3221(c) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Account and 72.4 percent of the taxes collected under such sections 3211(b) and 3221(c) plus one hundred percent of the taxes collected under section 3221(d) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Supplemental Account.

Dated: May 12, 1986.

By Authority of the Board.

Beatrice Ezerski,

Secretary to the Board.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Committee on International Science, Engineering, and Technology; Notice of Establishment and Correction

AGENCY: Executive Office of the President, Office of Science and Technology Policy.

ACTION: Correction.

SUMMARY: This document corrects the document published on Page 15561 in the issue of Thursday, April 24, 1986. On Page 15561, first column, following Action entry, correct word Engineering to read Engineering. In the third column, page 15561, following entry The Department of Defense, correct first entry thereafter to read as follows:

—Deputy Undersecretary for Trade Security Policy On Page 15562, in the third column, under the heading Members and Chairman, Beginning with the entry The Department of Defense, the entries are corrected to read as follows:

• The Department of Defense
—Deputy Undersecretary for Trade Security Policy
—Deputy Undersecretary for Research and Advanced Technology
• The Department of the Treasury
—Deputy Assistant Secretary for Trade and Investment Policy
• Executive Office of the President
—Director for International Economic Affairs, National Security Council
—Deputy Associate Director, Special Studies Division, Office of Management and Budget
—Director, Chemical and Advanced Technology Trade Policy, Office of the United States Trade Representative
—Associate Director, Office of Science and Technology Policy.

Jerry D. Jennings

Executive Director, Office of Science and Technology Policy.

BILLING CODE 3170-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC-15005; 812-6367]

CBA Money Fund, et al.; Application for Order

May 13, 1986.

Notice is hereby given that CBA Money Fund; CMA Money Fund; CMA Government Securities Fund; Financial Institutions Series Trust (on behalf of the Overland Express Money Market Fund and Summit Cash Reserves Fund); Merrill Lynch Retirement Series Trust; Merrill Lynch U.S.A. Government Reserves; Merrill Lynch Series Fund, Inc. (on behalf of its Money Reserve Portfolio); and Merrill Lynch Variable Series Funds, Inc. (on behalf of Merrill Lynch Reserve Assets Fund and Merill Lynch U.S. Government Money Fund); Box 9011, Princeton, N.J. 08543-9011, and Merrill Lynch Government Fund Inc., 125 High Street, Boston, MA 02110, registered under the Investment Company Act of 1940 ("Act") as open-end, deversified, management investiment companies; and Merrill Lynch Asset Management (MLAM), and Fund Asset Management, Inc. (FAMI), registered as investment advisers under the Investment Advisers Act of 1940, and each acting as investment manager for one or more of the above-named registered investment companies (which, together with MLAM and FAMI are referred to herein after as "Applicants"); filed an application on April 29, 1986, pursuant to section 6(c) of the Act requesting an order of the commission exemption the above-named registered investment companies, as well as any additional "money market funds" which may be organized by MLAM or FAMI in the future (Funds), from the provisons of section 19(b) of the Act, and Rule 19b-1 thereunder, to permit the Funds to make distributions of long-term capital gains more frequently than once a year. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, and to the Act for the text of the relevant statutory provisions.

Each Fund is a money market fund organized to invest principally in a portfolio of money market securities, primarily short-term United States Government agency securities, bank money instruments, commercial paper, and repurchase agreements. The Funds' investment objectives are to seek current income and stability of principal.

Section 19(b) and Rule 19b-1, as here pertinent, prohibit distributions of long-term capital gains dividends more frequently than once a year. Applicants submit that although certain of the Funds may invest in securities maturing in less than two years and the remaining Funds may invest in securities maturing in less than one year, the average life of any Fund's portfolio generally does not exceed 65 days. In no case will such instruments be acquired with a view to the realization of long-term capital gains. If unaticipated circumstances result in the accrual of such gains, however, the Funds wish to be in the postion to distribute them at approximately the time they accure together with their other distributions of income. If such gains could not be distributed currently, the Funds' net asset value on each daily valuation day would be increased by the amount of such undistributed gain with no current benefit accuring to shareholders unless they elected to redeem their shares.

Applicants assert that the principal purposes of section 19(b) and Rule 19b-1 are (1) to pervent shareholders from confusing dividends of interest income with distributions of capital gains; (2) to relieve investment company advisers from pressure to realize such gains; (3) to mitigate improper sales practices related to the distributions of such gains; and (4) to eliminate the administrative expenses associated with frequent capital gains distributions. Applicants submit that such dangers are irrelevant to the Funds because (1) full disclosure is made to each shareholder of the investment objectives of each Fund, and capital gains distributions are clearly identified; (2) the Funds explicitly disclaim any intention of seeking such gain; (3) each Fund declares daily dividends of any realized gain and purposes to distribute such dividends as they are realized, and consequently a Fund would not be compelled to sell a security merely in order to be able to distribute a gain on sale; and (4) the Funds would not incur any substantial increases in administrative expenses, because the Funds already make distributions of short-term capital gains on a daily basis.

Applicants conclude that an order granting each of the Funds an exemption from section 19(b) and Rule 19b-1 thereunder to enable the Funds to make distributions of long-term capital gains as they are realized would be appropriate, in the public interest, and consistent with the protection of investors and the purposes intended by the policy and provisions of the Act.

Notice is further given that any intetested person wishing to request a hearing on the application may, not later than June 9, 1986, at 5:30 p.m., do so by submitting a writting request setting forth the nature of his interest, the reasons for his request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, DC 20549. A copy of the request should be served personally or by mail upon an Applicant at the appropriate address stated above. Proof of service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearings upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

[Release No. IC-15094; File 811-3874]

Integra Fund, Inc.; Application for an Order Declaring That Applicant has Ceased To Be an Investment Company

May 14, 1986.

Notice is hereby given that Integra Fund, Inc. ("Applicant"), 600 New Hampshire Ave., NW., Suite 720, Washington, DC 20037, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, filed an application on February 24, 1986, for an order of the Commission, pursuant to section 8(f) of the Act, declaring that Applicant has ceased to be an investment company. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below, and to the Act for the applicable provisions thereof.

Applicant states that it registered under the Act by filing Form N-8A on October 12, 1983, and that it did not file a registration statement under section 8(b) of the Act. Applicant's corporate status was revoked on September 9, 1985. Applicant further states that it never commenced operations and never had any assets or liabilities. Applicant does not propose to make a public offering or engage in business of any kind.

Notice is further given that any interested party wishing to request a hearing on the application may, not later than June 3, 1986, at 5:30 p.m., do so by submitting a written request setting forth the nature of his/her interest, the reasons for the request, and the specific issues, if any, of fact or law that are disputed, to the Secretary, Securities and Exchange Commission, Washington, DC 20549. A copy of the request should be served personally or by mail upon the Applicant at the address stated above. Proof of service (by affidavit, in the case of an attorney-at-law, by certificate) shall be filed with the request. After said date, an order disposing of the application will be issued unless the Commission orders a hearing upon request or upon its own motion.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

John Wheeler,

Secretary.

[FR Doc. 86-11219 Filed 5-16-86; 8:45 am]

BILLING CODE 8010-01-M

[File No. 22-15132]

Application and Opportunity for Hearing; Plitt Theatres, Inc.

May 15, 1986.

Notice is hereby given that Plitt Theatres, Inc., a Delaware Corporation ("PTI" or the "Company"), has filed an application (the "Application") pursuant to section 310(b)(1)(ii) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Securities and Exchange Commission that, notwithstanding the merger of Plitt Theatre Holdings, Inc. ("PTH") with and into PTI, the trusteeships of Bankers Trust Company ("Bankers") under indentures dated as of June 15, 1985 between PTI and Bankers (the "PTI Indenture") which was heretofore qualified under the Act, and August 1, 1984, between PTH and Bankers (the "PTH Indenture") which was heretofore qualified under the Act, are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Bankers from continuing to act as trustee under both the PTI and PTH Indentures.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in the section), it shall, within ninety days of ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subsection (1) of that section provides, with certain exceptions stated therein, that a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture of the same obligor.

PTI alleges that:

(1) The obligations of PTI under both Indentures, and particularly with respect to the debentures issued thereunder, are wholly unsecured and all such obligations will rank equally without seniority or subordination of one to the other.

(2) No default has at any time existed under either of the Indentures.

(3) The provisions of the PTI and PTH Indentures, while substantially similar, contain different terms with respect to subordination thereby creating a potential conflict between the two groups of debenture holders.

(4) Cineplex-Odeon Corporation, the ultimate parent company of PTI, intends to consummate a transaction with MCA, Inc., whereby MCA, Inc., would invest $108.65 million (Canadian) in Cineplex-Odeon Corporation.

(5) PTI believes that the MCA, Inc., transaction will be consummated in May, 1986, and that a portion of the proceeds will flow down to PTI.

(6) PTI presently intends to use such proceeds to redeem debentures issued pursuant to the PTH Indenture (the "PTH Debentures").

(7) If PTI does not accomplish the redemption of the PTH Debentures within 180 days of May 31, 1986, PTI will eliminate the potential conflict of interest by engaging a separate trustee for the PTH Debentures.

PTI has waived notice of hearing, hearing and any and all rights to specify procedures under the Rules of Practice of the Securities and Exchange Commission in connection with this matter.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the Commission's Public Reference Section, File Number 22-15132, 450 Fifth Street, NW., Washington, DC 20549.

Notice is further given that any interested persons may, not later than May 27, 1986, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and for the protection of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

John Wheeler,

Secretary.

BILLING CODE 8010-01-M

SMALL BUSINESS ADMINISTRATION

Action Subject to Intergovernmental Review

AGENCY: Small Business Administration.

ACTION: Notice of Action Subject to Intergovernmental Review Under Executive Order 12372.

BEST COPY AVAILABLE

SUMMARY: This notice provides for public awareness of SBA's intention to refund six presently existent Small Business Development Centers (SBDC's) for fiscal year 1987. Currently, there are 45 SBDC's operating in the SBDC program. It should be noted that fiscal year 1987 funding is contingent upon legislative appropriation of the SBDC program. The following SBDC's are intended to be refunded: Connecticut; New York (Downstate); North Dakota; Ohio; Puerto Rico; and the Virgin Islands. This notice also provides a description of the SBDC program by setting forth a condensed version of the program announcement which has been furnished to each of the SBDC's to be refunded. This publication is being made to provide the State single points of contact, designated pursuant to Executive Order 12372, and other interested State and local entities, the opportunity to comment on the proposed refunding in accord with the Executive Order and SBA's regulations found at 13 CFR Part 135.

DATE: Comments will be accepted through August 18, 1986.

ADDRESS: Comments should be addressed to Mrs. Johnnie L. Albertson, Deputy Associate Administrator for SBDC Programs, U.S. Small Business Administration, 1441 L Street, NW., Washington, DC 20416.

FOR FURTHER INFORMATION CONTACT: Same as above.

Notice of Action Subject to Intergovernmental Review

SBA is bound by the provisions of Executive Order 12372, "Intergovernmental Review of Federal Programs." SBA has promugated regulations spelling out its obligations under that Executive Order. See 13 CFR Part 135, effective September 30, 1983.

In accord with these regulations, specifically § 135.4, SBA is publishing this notice to provide public awareness of the pending application of six presently existent Small Business Development Centers (SBDC's) for refunding. Also, published herewith is an annotated program announcement describing the SBDC program in detail.

This notice is being published four months in advance of the expected date of refunding of these SBDC's. Relevant information identifying these SBDC's and providing their mailing address is provided below. In addition to this publication, a copy of this notice is being simultaneously funished to each affected State single point of contact which has been established under the Executive Order.

The State single points of contact and other interested State and local entities are expected to advise the relevant SBDC of their comments regarding the proposed refunding in writing as soon as possible. Copies of such written comments should also be furnished to Mrs. Johnnie L. Albertson, Deputy Associate Administrator for SBDC Programs, U.S. Small Business Administration, 1441 L Street, NW., Washington, DC 20416. Comments will will be accepted by the relevant SBDC and SBA for a period of 90 days from the date of publication of this notice. The relevant SBDC will make every effort to accommodate these comments during the 90-day period. If the comments cannot be accommodated by the relevant SBDC, SBA will, prior to refunding the SBDC, either attain accommodation of any comments or furnish an explanation of why accommodation cannot be attained to the commentor prior to refunding the SBDC.

Description of the SBDC Program

The Small Business Development Center Program is a major management assistance delivery program of the U.S. Small Business Administration. SBDC's are authorized under 21 of the Small Business Act (15 U.S.C. 648). SBDC's operate pursuant to the provisions of 21, a Notice of Award (Cooperative Agreement) issued by SBA, and a Program Announcement. The Program represents a partnership between SBA and the State-endorsed organization receiving Federal assistance for its operation. SBDC's operate on the basis of a State plan which provides small business assistance throughout the State. As a condition to any financial award made to an applicant, an additional amount equal to the amount of assistance provided by SBA must be provided to the SBDC from sources other than the Federal Government.

Purpose and Scope

The SBDC Program has been designed to meet the specialized and complex management and technical assistance needs of the small business community. SBDC's focus on providing indepth quality assistance to small businesses in all areas which promote growth, expansion, innovation, increased productivity and management improvement. SBDC's act in an advocacy role to promote local small business interests. SBDC's concentrate on developing the unique resources of the university system, the private sector, and State and local governments to provide services to the small business community which are not available elsewhere. SBDC's coordinate with other SBA programs of management assistance and utilize the expertise of these affiliated resources to expand services and avoid duplication of effort.

Program Objectives

The overall objective of the SBDC Program is to leverage Federal dollars and resources with those of the State academic community and private sector to:

(a) Strengthen the small business community;

(b) Contribute to the economic growth of the communities served;

(c) Make assistance available to more small businesses than is now possible with present Federal resources; and

(d) Create a broader based delivery system to the small business community.

SBDC Program Organization

SBDC's are organized to provide maximum services to the local small business community. The lead SBDC receives financial assistance from the SBA to operate a statewide SBDC Program. In states where more than one organization receives SBA financial assistance to operate an SBDC, each lead SBDC is responsible for Program operations throughout a specific regional area to be served by the SBDC. The lead SBDC is responsible for establishing a network of SBDC subcenters to offer service coverage to the small business community. The SBDC network is managed and directed by a single full-time Director. SBDC's must ensure that at least 80 percent of Federal funds provided are used to provide services to small businesses. To the extent possible, SBDC's provide services by enlisting volunteer and other low cost resources on a statewide basis.

SBDC Services

The specific types of services to be offered are developed in coordination with the SBA district office which has jurisdiction over a given SBDC. SBDC's emphasize the provision of indepth, high-quality assistance to small business owners or prospective small business owners in complex areas that require specialized expertise. These areas may include, but are not limited to: Management, marketing, financing, accounting, strategic planning, regulation and taxation, capital formation, procurement assistance, human resource management, production, operations, economic and business data analysis, engineering, technology transfer, innovation and research, new product development, product analysis, plant layout and

BEST COPY AVAILABLE

design, agri-business, computer application, business law information, and referral (any legal services beyond basic legal information and referral require the endorsement of the State Bar Association.) exporting, office automation, site selection, or any other areas of assistance required to promote small business growth, expansion, and productivity within the State.

The degree to which SBDC resources are directed towards specific areas of assistance is determined by local community needs, SBA priorities and SBDC Program objectives and agreed upon by the SBA district office and the SBDC.

The SBDC must offer quality training to improve the skills and knowledge of existing and prospective small business owners. As a general guideline, SBDC's should emphasize the provision of training in specialized areas other than basic small business management subjects. SBDC's should also emphasize training designed to reach particular audiences such as members of SBA priority and special emphasis groups.

SBDC Program Requirements

The SBDC is responsible to the SBA for ensuring that all programmatic and financial requirements imposed upon them by statute or agreement are met. The SBDC must assure that quality assistance and training in management and technical areas are provided to the State small business community through the State SBDC network. As a condition of this agreement, the SBDC must perform but not be limited to the following activities.

(a) The SBDC ensures that services are provided as close as possible to small business population centers. This is accomplished through the establishment of SBDC subcenters.

(b) The SBDC ensures that lists of local and regional private consultants are maintained at the lead SBDC and each SBDC subcenter. The SBDC utilizes and provides compensation to qualified small business vendors such as private management consultants, private consulting engineers, and private testing laboratories.

(c) The SBDC is responsible for the development and expansion of resources within the State, particularly the development of new resources to assist small business that are not presently associated with the SBA district office.

(d) The SBDC ensures that working relationships and open communications exist within the financial and investment communities, and with legal associations, private consultants, as well as small business groups and associations to help address the needs of the small business community.

(e) The SBDC ensures that assistance is provided to SBA special emphasis groups throughout the SBDC network. This assistance shall be provided to veterans, women, exporters, the handicapped, and minorities as well as any other groups designated a priority by SBA. Services provided to special emphasis groups shall be performed as part of the Cooperative Agreement.

Advance Understandings

(a) Lead SBDC's shall operate on a 40-hour week basis, or during normal State business hours, with National holidays or State holidays as applicable excluded.

(b) SBDC subcenters shall be operated on a full-time basis. The lead SBDC shall ensure that staffing is adequate to meet the needs of the small business community.

(c) All counseling assistance offered through the Small Business Development Center network shall be provided at no cost to the client.

Dated: May 13, 1988.

Charles L. Heatherly,

Acting Administrator.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice 964]

Delegation of Authority No. 159

By virtue of the authority vested in me as Secretary of State, including the authority of section 4 of the Act of May 26, 1949 (22 U.S.C. 2658) the following functions are hereby delegated to the Legal Adviser, acting in consultation with the Assistant Secretary of the Bureau of International Organization Affairs and the Assistant Secretary of the geographical Bureau concerned:

1. General Delegation.

The functions vested in the Secretary of State under Executive Order 12555 of March 10, 1986, entitled Protection of Cultural Property.

2. Technical Provisions.

(a) Any officer to whom functions are delegated by this delegation of authority may, to the extent consistent with law, redelegate such functions and authorize their successive redelegation.

(b) Notwithstanding any provision of this delegation of authority, the Secretary of State or the Deputy Secretary may at any time exercise any function herein delegated.

(c) As used in this delegation of authority the term "functions" includes any power, authority, responsibility, right, privilege, duty, obligation, discretion, determination or activity.

(d) This delegation shall be deemed to be effective on signature.

Dated: May 2, 1986.

DEPARTMENT OF TRANSPORTATION

[Docket 43625]

Texas Air-Eastern Acquisition Case; Second Prehearing Conference

Served: May 14, 1986.

The Judge was notified in a telephone conference call at 3:45 p.m., May 13, 1986, from Counsel for Texas Air Corporation and Counsel for Pan American that agreement had just been reached between the two companies for the sale of certain New York Air slots and gates in the Northeast Corrider to Pan American. In view of the possible effect of that development upon this proceeding, a second prehearing conferences will be held on Monday, May 19, 1986, at 10:00 a.m. (local time) in Room 5332, U.S. Department of Transportation, 400 7th Street, SW., Washington, DC., before the undersigned administrative law judge to consider whether any change in the present procedures are warranted.

The conference will address particularly the treatment which should be accorded the TAC–Pan American agreement in this proceeding in light of the language in the second full paragraph on page 11 of Department Order 86–4–24 regarding its intended procedure for considering proposed remedies for any anti-competitive effects of the TAC–Eastern acquisition.

Written comants including any proposals for changes in the present procedural schedule shall be served by 5:00 p.m., Friday, May 16, 1986.

William A. Kane, Jr.,

Administrative Law Judge.

BILLING CODE 4910-62-M

National Highway Traffic Safety Administration

[Docket No. IP86-05; Notice 1]

General Motors Corp.; Receipt of Petition for Determination of Inconsequential Noncompliance

General Motors Corporation, of Warren, Michigan has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) for an apparent noncompliance with 49 CFR 571.209, Motor Vehicle Safety Standard (FMVSS) No. 209 *Seat Belt Assemblies*, on the basis that it is inconsequential as it relates to motor vehicle safety.

This Notice of receipt of a petition is published under Section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Paragraph S4.3(a) of FMVSS No. 209 requires that:

"(1) Attachment hardware of a seat belt assembly after being subjected to the conditions specified in S5.2(a) shall be free of ferrous corrosion on significant surfaces except for permissible ferrous corrosion at peripheral edges or edges of holes on underfloor reinforcing plates and washers."

Section (c)(1) of paragraph S4.3 also requires that:

"Eye bolts, shoulder bolts, or other bolts used to secure the pelvic restraint of a seat belt assembly to a motor vehicle shall withstand a force of 9,000 pounds or 4,080 kilograms when tested by the procedure specified in S5.2(c)(1)."

The petitioner, General Motors, produced approximately 7,802 vehicles between May 7 and May 10, 1985, which included the Pontiac 6000, Oldsmobile Ciera, Chevrolet Caprice, and Oldsmobile Delta 88. General Motors installed seat belt assemblies in these vehicles, and estimated that approximately 50 percent of the attachment bolts did nt meet the corrosion requirements of FMVSS No. 209.

General Motors indicated that the bolts which may have been improperly plated are the front inner and outer seat belt floor anchorage bolts.

General Motors also performed tensile strength load tests which showed that the bolts exceeded the strength requirement of S4.3(c)(1) of FMVSS No. 209. Test results showed a minimum load of 12,050.35 pounds, and a maximum of 14,208.63 pounds, with an average of 12,899.85 pounds.

General Motors also stated that:

"An examination of the bolts was also conducted at the University of Pennsylvania by Professor Charles J. McMahon, Jr. Concerning this examination , Professor McMahon states: For our examination we sectioned the bolts through rusted areas and examined microscopically the surface profile in these regions. As was expected from the prior visual examination of the surface, in which no significant pits were observed, the rusting was superficial and did not involve any subsurface damage, such as cracking, pitting, etc. Thus, the mechanical performance of the bolts would not be affected by this surface rust." Therefore, since the strength performance of these bolts exceeds the specific requirements in FMVSS No. 209, it is believed that no safety concern exists."

Interested persons are invited to submit written data, views and arguments on the petition of General Motors Corporation described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, the Notice will be published in the **Federal Register** pursuant to the authority indicated below.

Comment closing date: June 18.

(Sec. 102, Pub. L. 93–492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on May 14, 1986.

Internal Revenue Service

[Delegation Order No. 165 (Rev. 6)]

Delegation of Authority

AGENCY: Internal Revenue Service, Treasury.

ACTION: Delegation of authority.

SUMMARY: The specific authority to respond to appeals filed pursuant to the Freedom of Information Act, 5 U.S.C. 552, (FOIA). The text of the delegation order appears below.

EFFECTIVE DATE: May 8, 1986.

FOR FURTHER INFORMATION CONTACT: Peter V. Filpi, CC, 1111 Constitution Avenue NW., Room 3706, Washington, DC 20224, (202) 566-4100 (not a toll-free telephone number).

James J. Keightley,

Associate Chief Counsel (Litigation).

Order No. 165 (Rev. 6)

Effective date: 5-8-86.

Responses to Appeals Filed Pursuant to the Freedom of Information Act, 5 U.S.C. 552 (FOIA)

The authority vested in the Commissioner of Internal Revenue by 31 CFR 1.5(h) and Appendix B(4) to respond to administrative appeals filed pursuant to the Freedom of Information Act, 5 U.S.C. 552 (FOIA), is hereby delegated, through the Chief Counsel and Associate Chief Counsel (Litigation), to the Director, Disclosure Litigation Division. In the absence of or at the request of the Director, the Assistant Director, may exercise this authority in his/her name for the Director. This authority may not be redelegated.

In addition, the authority vested in the Commissioner by 31 CFR 1.5(h)-(i) to acknowledge receipt of FOIA appeals and assert mandatory extensions of FOIA appeal time limits is hereby delegated to the Director, Disclosure Litigation Division. This authority may be redelegated not lower than attorneys in the Disclosure Litigation Division directly involved in such matters.

Delegation Order 165 (Rev. 5), issued July 26, 1982, is superseded.

Dated: May 8, 1986.

Part II

Department of Education

Office of Elementary and Secondary Education

34 CFR Parts 200 and 204

Education Consolidation and Improvement Act of 1981; Financial Assistance to Local Educational Agencies To Meet Special Educational Needs of Disadvantaged Children, and General Definitions and Administrative, Project, Fiscal, and Due Process Requirements for Chapter 1 Programs; Final Rule

DEPARTMENT OF EDUCATION

Office of Elementary and Secondary Education

34 CFR Parts 200 and 204

Chapter 1, Education Consolidation and Improvement Act of 1981; Financial Assistance to Local Educational Agencies to Meet Special Educational Needs of Disadvantaged Children, and General Definitions and Administrative, Project, Fiscal, and Due Process Requirements for Chapter 1 Programs

AGENCY: Department of Education.

ACTION: Final regulations.

SUMMARY: The Secretary issues final regulations under Chapter 1 of the Education Consolidation and Improvement Act of 1981 to amend the regulations in 34 CFR Part 200 governing the program of assistance to local educational agencies to meet the special educational needs of educationally deprived children in school attendance areas with high concentrations of children from low-income families and the regulations in 34 CFR Part 204 containing general definitions and administrative, project, fiscal, and due process requirements for all Chapter 1 programs. These regulations implement changes made to Chapter 1 by the Education Consolidation and Improvement Act of 1981 Technical Amendments (Pub. L. 98–211). The regulations also implement several other statutory provisions.

EFFECTIVE DATE: These regulations take effect either 45 days after publication in the Federal Register or later if Congress takes certain adjournments with the exception of §§ 200.53 and 200.54. Sections 200.53 and 200.54 will become effective after the information collection requirements contained in those sections have been submitted by the Department of Education and approved by the Office of Management and Budget under the Paperwork Reduction Act of 1980. If you want to know the effective date of these regulations, call or write the Department of Education contact person.

FOR FURTHER INFORMATION CONTACT: Dr. James Spillane, Director, Division of Program Support, Compensatory Education Programs, U.S. Department of Education, 400 Maryland Avenue, SW. (Room 5610, ROB–3), Washington, DC. 20202. Telephone (202) 245–9846.

SUPPLEMENTARY INFORMATION:

A. Overview of Chapter 1

Chapter 1 of the Education Consolidation and Improvement Act of 1981 (ECIA) was enacted as part of Subtitle D of Title V of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35). Chapter 1 supersedes Title I of The Elementary and Secondary Education Act of 1965, as amended. The purpose of Chapter 1 is to provide financial assistance to State and local educational agencies (SEAs and LEAs) and certain State agencies to meet special educational needs. In particular, Chapter 1 provides financial assistance to LEAs to meet the special educational needs of educationally deprived children, to SEAs to meet the special educational needs of children of migratory agricultural workers and migratory fishers, to State agencies to meet the special educational needs of neglected or delinquent children, and to State agencies to meet the special educational needs of handicapped children.

On November 19, 1982, the Department published final regulations in 47 FR 52340 as 34 CFR Part 200 implementing that part of Chapter 1 that provides financial assistance to LEAs to meet the special educational needs of educationally deprived children. On December 3, 1982, the Department published a notice of proposed rulemaking (NPRM) in 47 FR 54718 governing the Chapter 1 programs designed to meet the special educational needs of migratory children, handicapped children, and neglected or delinquent children. Included in this notice was a new Part 204 containing general definitions and administrative, project, fiscal, and due process requirements for all Chapter 1 programs. Accordingly, the notice proposed to transfer many of the provisions contained in the final regulations for Part 200 to the new Part 204 because those provisions apply to all Chapter 1 programs, not just to the LEA program.

On December 8, 1983, Congress enacted the ECIA Technical Amendments (Pub. L. 98–211) to improve the implementation of the ECIA. Those technical amendments necessitated certain changes to the final Chapter 1 regulations published as Part 200 on November 19, 1982 and to the Chapter 1 regulations proposed as Part 204 on December 3, 1982. As a result, the Department published an NPRM on August 9, 1984 in 49 FR 31914 implementing changes to those provisions of the Chapter 1 regulations in Part 200 affected by the technical amendments. Also on August 9, the Department published an NPRM in 49 FR 31918 for Part 204, in which the Department reproposed those sections in proposed Part 204 (published December 3, 1982) affected by the technical amendments and also proposed certain changes in the due process procedures applicable to Chapter 1.

On April 30, 1985, the Department issued final regulations in 50 FR 18415 for Part 204 that responded to comments received on the December 3, 1982 NPRM. The final regulations for Part 204, however, included only those sections that were not affected by the technical amendments or the other changes included in the August 9, 1984 NPRM. Moreover, the final regulations for Part 204 removed only those duplicate sections of Part 200 not affected by the technical amendments.

B. Overview of These Regulations

These final regulations accomplish a number of purposes. First, the regulations remove the remaining sections from Part 200 that are included in Part 204 because they apply to all Chapter 1 programs. Those sections are: § 200.54 Evaluation; § 200.55 Allowable costs; § 200.59 SEA rulemaking and other responsibilities; § 200.60 Maintenance of effort; § 200.61 Waiver of the maintenance of effort requirement; § 200.62 Supplement, not supplant; § 200.93 Eligibility for review; § 200.100 Practice and procedure; and § 200.103 The Secretary's decision. Second, the regulations implement changes to sections in Parts 200 and 204 affected by the technical amendments. Third, the regulations make final the changes proposed in the August 9, 1984 NPRM for Part 204 regarding certain due process procedures. Finally, the regulations make other changes to implement statutory provisions applicable to Chapter 1.

Several of the changes made by these regulations reflect the importance of parental involvement in educating Chapter 1 children. Educational research has clearly established the importance of parents in educating children. As recently reported in *What works*, the Department's compendium of research about teaching and learning, "(p)arents are their children's first and most influential teachers" and involvement by parents "helps children learn more effectively." Accordingly, schools must capitalize on this relationship and afford parents the opportunity to become involved in critical choices regarding their children's education. Through such involvement, parents can greatly enhance their children's learning.

Parental involvement is particularly important in Chapter 1. Research has demonstrated that parental involvement increases the effectiveness of Chapter 1 programs and makes a substantial contribution to the success of those programs. By working with teachers, and by reinforcing and promoting learning objectives in the home, parents of Chapter 1 children can dramatically improve their childen's educational achievement.

To ensure meaningful parental involvement in Chapter 1 programs, Congress enacted two provisions. Originally, Congress enacted section 556(b)(3), which requires an assurance that Chapter 1 programs and projects are designed and implemented in consultation with parents. Subsequently, because "[b]oth research and intuition confirm that parental consultation and involvement are ordinarily key ingredients in successful educational programs," Congress added section 556(e). S. Rept. 166, 98th Cong., 1st Sess. 10 (1983). That section requires an agency that receives Chapter 1 funds to convene annually at least one public meeting, to which all parents of eligible children must be invited, to explain the Chapter 1 program. The section also authorizes the agency to provide, upon request, reasonable support for additional parent involvement activities.

To be beneficial, parental involvement in Chapter 1 must be meaningful and substantive; as such, it can take a variety of forms, best determined by the agencies that receive Chapter 1 funds. For example, under the Chapter 1 LEA program for educationally deprived children, parent advisory councils can be constructive, but so can less formal mechanisms such as reports to parents on their children's progress, conferences between individual parents and teachers, consultation with parents on better ways in which a school can work with parents to achieve the program's objectives, and other mechanisms suggested in § 200.53. Whatever the methods of encouraging parental involvement selected, the underlying objective must be to ensure that individual parents are effectively informed of their children's progress and encouraged and assisted in efforts to sustain or enhance that progress. It is this underlying goal rather than any particular formalistic approaches that the Secretary endorses in these regulations.

These final regulations make changes to the following sections in Parts 200 and 204:

Section 200.50 Selection of school attendance areas.

This section implements a number of changes made by Pub. L. 98–211. First, paragraph (a) implements section 2(a) of Pub. L. 98–211, which deleted section 556(b)(1)(C) of Chapter 1 containing the option to design projects "to utilize part of the available funds for services which promise to provide significant help for all such children served by such agency." Second, paragraph (a)(2) implements section 556(b)(1) of Chapter 1 by requiring that an LEA order its school attendance areas based on concentrations of children from low-income families and select areas for participation based on that ordering. Third, paragraph (b) implements section 3 of Pub. L. 98–211, which allows an LEA certain flexibility in selecting school attendance areas and schools. Finally, paragraph (c) implements section 2 (b) of Pub. L. 98–211, which exempts an LEA with a total enrollment of less than 1,000 children from the requirements concerning selection of school attendance areas.

Section 200.51 Student identification and selection.

Paragraph (a)(2) implements section 2(c) of Pub. L. 98–211, which requires, among the educationally deprived children, selected, inclusion of those children who have the greatest need for special assistance. Paragraph (b) implements section 3 of Pub. L. 98–211, 98–211, which allows an LEA certain flexibility in selecting and serving children under Chapter 1.

Section 200.53 Consultation with parents and teachers.

Paragraph (b) has been revised to require an LEA to develop written policies to ensure that parents of the children being served have an adequate opportunity to participate in the design and implementation of the LEA's Chapter 1 project. This provision was not contained in the NPRM but has been added, in response to several comments, to ensure that an LEA provides for meaningful consultation with parents as required by section 556(b)(3) of Chapter 1. Although paragraph (b) requires the LEA to develop written policies, the provision gives the LEA complete discretion about the content of those policies so long as the policies ensure systematic consultation with parents in both the design and implementation of the LEA's Chapter 1 project. To assist the LEA in developing its policies, paragraph (b)(2) lists a number of possible activities for each LEA's consideration. The LEA may need to include several activities in its policies to meet the requirement in paragraph (b)(1).

Section 200.54 Schoolwide projects.

This section implements section 556(d)(9) of Chapter 1, added by section 3 of Pub. L. 98–211, concerning schoolwide projects.

Section 200.60 Comparability of services.

Paragraph (d) implements section 7 of Pub. L. 98–211, which permits LEA's to exclude, for the purpose of determining compliance with the comparability requirement, State and local funds spent for carrying out certain special programs to meet the educational needs of educationally deprived children, bilingual education for children of limited English proficiency, special education for handicapped children or children with specific learning disabilities, and certain State phase-in programs. Thus, § 200.60 permits LEA's to exclude from the comparability requirement more programs than those agencies may exclude from the supplement, not supplant requirement in 34 CFR 204.32. *See* H. Rept. 51, 98th Cong., 1st Sess. 6 (1983); S. Rept. 166, 98th Cong., 1st Sess. 11 (1983).

Section 200.80 Bypass—General.

Paragraph (c) incorporates the statutory provision in section 557(b)(3)(B) of Chapter 1 concerning the withholding of funds pending final resolution of an investigation or a complaint that could result in a bypass.

Section 200.86 Judicial review of bypass actions.

Section 200.86 concerning judicial review of bypass actions implements the statutory provision in section 557(b)(4)(B) of Chapter 1.

Section 200.87 Continuation of the bypass.

Section 200.87 implements the statutory provision in section 557(b)(3)(C) of Chapter 1, which indicates that a bypass action continues until the Secretary determines that there will no longer be any failure or inability on the part of the LEA that is being bypassed to meet the requirements in §§ 200.70–200.75.

Section 204.11 Access to records and audits.

Paragraphs (a)(1)(ii) and (2) incorporate minor editorial changes to make the language consistent with the corresponding regulation that applies to Chapter 2 of the ECIA. Paragraph (b)(1)

indicates that the audit requirements in the Single Audit Act of 1984 and the regulations implementing those requirements in 34 CFR 74.62 (50 FR 37389 (September 13, 1985)) apply to State and local governments that receive Chapter 1 funds. The Single Audit Act applies to those governments with respect to any of their fiscal years that begin after December 31, 1984.

Section 204.12 Audit claims.

Paragraph (b)(1) lists the factors contained in 4 CFR Part 103 (Standards for the Compromise of Claims) and section 452(f) of the General Education Provisions Act (GEPA) that the Secretary takes into account when considering whether to compromise an audit claim. This list does not include the factor contained in 4 CFR 103.2 regarding the debtor's inability to pay the claim in full because it is not applicable to collection actions against States. Paragraph (b)(2) indicates that it is the policy of the Secretary to consider the probability of the claim being upheld to be the most important factor in deciding whether to compromise an audit claim.

Section 204.13 State rulemaking and other SEA responsibilities.

Paragraph (b) incorporates the provision on State rulemaking contained in section 15 of Pub. L. 98-211. This provision replaces the prior authority for SEA rulemaking contained in § 200.59(b).

Section 204.21 Annual meeting of parents.

Paragraph (a) implements the provision in section 4 of Pub. L. 98-211 that requires an agency that receives Chapter 1 funds to convene annually at least one public meeting to which all parents of eligible children must be invited. The purposes of this meeting are to discuss with parents the programs and activities carried out with Chapter 1 funds, inform parents of their right to consult in the design and implementation of Chapter 1 projects, solicit parents' input, and provide parents an opportunity to establish mechanisms for maintaining ongoing communication among parents, teachers, and agency officials. *See* H. Rept. 51, 98th Cong., 1st Sess. 5 (1983); S. Rept. 100, 98th Cong., 1st Sess. 10-11 (1983). The annual meeting should be the first step in an ongoing process of consulting with parents. It is not intended in itself to satisfy the requirement in section 556(b)(3) of Chapter 1 that projects be designed and implemented in consultation with parents, or otherwise to supersede specific requirements for parental participation contained in 34 CFR Parts 200-203.

Paragraph (b) implements the provision in section 4 of Pub. L. 98-211 that permits an agency that receives Chapter 1 funds to provide, upon request, reasonable support for additional parent involvement activities. As indicated in that paragraph, this support may include, but is not limited to, reasonable access to meeting space and materials, provision of information concerning the Chapter 1 law, regulations, and instructional programs, training programs for parents, and other resources, as appropriate. H. Rept. 51, 98th Cong., 1st Sess. 5 (1983); S. Rept. 100, 98th Cong., 1st Sess. 10-11 (1983).

Section 204.22 Allowable costs.

Paragraph (d) implements section 556(d)(16) of Chapter 1, added by section 3 of Pub. L. 98-211, which allows an agency that receives Chapter 1 funds to assign, under certain conditions, personnel paid entirely with Chapter 1 funds to supervisory duties that provide some benefit to children not participating in the Chapter 1 project.

Section 204.23 Evaluation.

Paragraph (a) implements section 1(b) of Pub. L. 98-211 concerning evaluation and data collection by SEAs. Paragraph (b)(2) implements section 2(d) of Pub. L. 98-211, which requires agencies that receive Chapter 1 funds to consider evaluation results in the improvement of the agencies' Chapter 1 projects.

Section 204.30 Maintenance of effort; 204.31 Waiver of the maintenance of effort requirement.

These sections indicate that, in accordance with section 19 of Pub. L. 98-211, the maintenance of effort and waiver of the maintenance of effort requirements in Chapter 1 apply to all agencies that receive Chapter 1 funds.

Section 204.32 Supplement, not supplant.

Paragraph (a) implements section 6 of Pub. L. 98-211, which clarifies that the supplement, not supplant requirement applies to all agencies that receive Chapter 1 funds. Paragraph (b) implements section 7 of Pub. L. 98-211, which permits agencies to exclude, for the purpose of determining compliance with the supplement, not supplant requirement, State and local funds spent in carrying out certain special programs to meet the educational needs of educationally deprived children. This exclusion is more limited than the exclusions from the comparability requirement permitted by section 7 of Pub. L. 98-211. *See* H. Rept. 51, 98th Cong., 1st Sess. 6 (1983); S. Rept. 100, 98th Cong., 1st Sess. 11 (1983).

Section 204.43 Eligibility for review.

Paragraph (a)(4) incorporates the provision in section 452(a)(4) of GEPA authorizing the Secretary to designate other Chapter 1 proceedings to be reviewed by the Education Appeal Board (EAB). Paragraph (b) indicates that a recipient who is dissatisfied with a Department action that may be reviewed by the EAB must seek this administrative review before seeking judicial review. Paragraph (c) indicates that a Panel of the EAB may dismiss an appeal if there are no issues in the appeal within the EAB's jurisdiction.

Section 204.52 Practice and procedure.

Section 16 of Pub. L. 98-211 deletes the reference to a hearing "on the record" in section 592(a) of the ECIA. In so doing, Congress made clear that it did not intend the lengthy and time-consuming hearing procedures required by the Administrative Procedure Act (APA) to apply to withholding hearings under the ECIA. Therefore, as paragraph (a) indicates, practice and procedure before the EAB for withholding hearings under the ECIA will be governed by the same rules that govern other Chapter 1 proceedings. These rules include the preparation of a transcript for each hearing. *See* 34 CFR 78.48. Paragraph (b) implements the provision in section 452(b) of GEPA, which requires an appellant to prove before the EAB the allowability of the expenditures disallowed in a final audit determination.

Section 204.53 The Secretary's decision.

Section 452(d) of GEPA authorizes the Secretary, for good cause shown, to modify or set aside an EAB Panel's decision in the review of a final audit determination. Under the authority in section 451 (a) and (c) of GEPA to designate cases to be heard by the EAB and to establish appropriate procedures to guide the EAB's review, § 204.53 codifies the existing practice of the Secretary and the EAB and expressly permits the Secretary to remand a Panel's decision to the EAB for further review and consideration. If the Secretary does remand a Panel's decision, no final agency action will have occurred.

C. Changes Resulting From Rulemaking

The final regulations, in response to comments and staff review, differ from the proposed regulations in the following areas:

• In § 200.50 concerning selection of school attendance areas, paragraph (a)(2) has been added to clarify that an LEA must order its school attendance areas based on concentrations of children from low-income families and must select areas for participation based on that ordering. This requirement was implicit in the proposed regulations, because those regulations contained exceptions from the ordering requirement. However, in response to public comment asking for clarification of this provision, the Secretary has made the requirement explicit. This requirement is fully consistent with the legislative history accompanying Pub. L. 98–211, which states: "While the ECIA requirement to serve areas of 'highest concentrations of low-income children' necessarily implies an assessment of those concentrations and an ordering of schools or areas based on them, it is quite clear that the detailed, prescriptive 'ranking' procedure set forth in Title I is to have to application to Chapter 1 programs under the ECIA." S. Rept. 166, 98th Cong., 1st Sess. 9 (1983).

• The introductory language in § 200.50(b) has been revised to reflect the language in section 556(d) of Chapter 1 that an LEA, at its discretion, may implement the special rules in § 200.50(b)(1)–(5) to meet the requirement in § 200.50(a) for selecting school attendance areas.

• Section 200.50(b)(1) has been revised by deleting the words "and serve" to conform this provision to the language in section 556(d)(1) of Chapter 1.

• A phrase has been added to § 200.50(b)(4)(ii) concerning the continuation of eligibility of certain school attendance areas or schools to clarify that an ineligible school attendance area or school may receive a single additional year of eligibility for each of the two preceding fiscal years only if the school or area was selected to participate under § 200.50(a) in the year conferring the eligibility.

• In § 200.51 concerning identification and selection of children, paragraph (b)(1) has been revised to indicate that the flexibility that paragraph provides applies to LEAs that choose to serve only those educationally deprived children in greatest need for special assistance under § 200.51(a)(2). Section 200.51(b)(1) is superfluous for those LEAs that, in accordance with § 200.51(a)(2), serve children in greatest need and other educationally deprived children as well. According to the Conference Report accompanying Pub. L. 98–211, section 556(d)(6) of Chapter 1, implemented by § 200.51(b)(1), was not intended to conflict with the language in section 556(b)(2) of Chapter 1, which permits *any* educationally deprived children to be selected for participation in a Chapter 1 program—whether the children were previously in greatest need—as long as those children currently with the greatest need for special assistance receive services. H. Rept. 574, 98th Cong., 1st Sess. 12 (1983) (Conference Report). Thus, if an LEA serves educationally deprived children who are not in greatest need, § 200.51(b)(1) does not restrict services to those children for only one additional year or to only children who were previously in greatest need. For those LEAs serving only educationally deprived children in greatest need for special assistance, however, § 200.51(b)(1) has been revised to clarify that an LEA may serve children for one additional year who are no longer in greatest need of assistance. *See* H. Rept. 51, 98th Cong., 1st Sess. 4 (1983).

• In § 200.51, paragraph (b)(3)(ii) has been added to reflect the intent of Congress that the children served with Chapter 1 funds must include all children who are in greatest need for special assistance who are not receiving services of the same nature and scope from non-Federal sources. *See* H. Rept. 574, 98th Cong., 1st Sess. 12 (1983) (Conference Report).

• In § 200.53 concerning consultation with parents and teachers, paragraph (b) has been revised to require an LEA to develop written policies to ensure that parents of the children being served have an adequate opportunity to particpate in the design and implementation of the LEA's Chapter 1 project. Paragraph (b) also contains a list of activities for the LEA to consider in developing its policies on parental involvement.

• In § 204.13(b)(2) concerning State rulemaking, the phrase "issues, pursuant to procedures established by State law, any" has been added to implement statutory language in section 591(d).

• In § 204.21 concerning the annual meeting of parents, paragraph (a)(1) has been clarified to indicate the multiple purposes of the anual meeting. Paragraph (a)(2) has been added to clarify that an agency that receives Chapter 1 funds may hold more than one meeting of parents if that practice is more convenient for the agency or otherwise useful.

• In § 204.21, paragraph (b) has been revised to clarify that an agency that receives Chapter 1 funds may use those funds to provide support for further parent involvement activities under Chapter 1 for the parents of eligible children. Paragraph (b) has also been revised to indicate examples of the support that agencies may provide to facilitate the parent consultant requirement.

• In § 204.53 concerning the Secretary's decision following administrative proceedings before the EAB, paragraph (c)(1) has been added to clarify that, unless the Secretary remands the Panel's decision to the EAB for further consideration, the final decision of the Secretary is the final decision of the Department. Paragraph (d) has been added to clarify the responsibility of the EAB Chairperson with regard to the Secretary's decision.

D. Application of Other Statutes and Regulations

Pub. L. 98–211 makes several changes in the applicability of other statutes that affect Chapter 1. Section 18(a) of Pub. L. 98–211 amends section 596 of the ECIA to clarify the applicability of GEPA to Chapter 1. As amended, section 596(a) provides that, unless a section of GEPA is specifically excluded by section 596(b), the provisions in GEPA apply to Chapter 1.

Section 18(b) of Pub. L. 98–211 repeals a portion of the "State Uses of Federal Funds" report required by section 406A(a) of GEPA. The repealed sections required States to collect and furnish information on the amount of Federal funds received by each LEA, the purposes for which those funds were spent, and the individuals served by those activities, all tabulated with respect to the second preceding year.

According to section 596(c) of the ECIA, sections 434, 435, and 436 of GEPA are not applicable to Chapter 1 "except to the extent that such sections relate to fiscal control and fund accounting procedures. . . ." The Secretary has indicated that the provision in section 434 that applies to Chapter 1 is subsection (a)(2) pertaining to the Secretary's discretionary authority to request a plan on audits. *See* 47 FR 52342 (November 19, 1982); 50 FR 18408 (April 30, 1985). Upon further consideration in conjunction with the review of GEPA applicability in Pub. L. 98–211, the Secretary has determined that section 434(b) (2) and (3) relating to SEA suspension and withholding of payments to LEAs that have failed to comply with Federal program requirements also deals with fiscal control and fund accounting procedures and is therefore applicable to Chapter 1.

Public Participation

Proposed regulations for Parts 200 and 204 were published on August 9, 1984 with a comment period of 45 days. In response to public request, the comment

period was extended to 90 days. During the comment period, approximately 370 comments and recommendations were received. Comments were also received at briefing sessions conducted by the Department for State and local officials. The Secretary carefully considered all comments received and made changes warranted by those comments. The changes are discussed in Part C above.

A summary of the comments and the Secretary's responses to those comments are contained in the appendix to these regulations. The appendix will not be codified in the Code of Federal Regulations.

In addition to the changes resulting from rulemaking, the Secretary has made other changes to certain provisions in Parts 200 and 204. For the reasons stated below, the Secretary is waiving proposed rulemaking for these changes.

Waiver of Proposed Rulemaking

It is the practice of the Secretary to publish proposed regulations for comment in accordance with section 431(b)(2)(A) of GEPA (20 U.S.C. 1232(b)(2)(A)) and the APA (5 U.S.C. 553). However, under certain circumstances, the Secretary may waive proposed rulemaking under 5 U.S.C. 553(b). Specifically, section 553(b) permits waiver for interpretative rules, general statements of policy, or rules of agency organization, procedure, or practice, or when an agency for good cause finds that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.

The final regulations include several changes to Parts 200 and 204 that were not published as proposed rules. The Secretary has decided to waive proposed rulemaking on the provisions containing these changes. In particular, the Secretary has determined that it is unnecessary to take public comment under the good cause exception in section 553(b)(B) because, with one exception, the revised provisions merely restate the law and establish no new substantive policy. The changes in Part 200, for example, concern the procedures for a bypass of the requirements for providing Chapter 1 services to children in private schools. Sections 200.80(c), 200.86, and 200.87 have been added to implement statutory provisions in section 557(b) (3)–(4) of Chapter 1 concerning withholding of funds pending final resolution of an investigation or a complaint that could result in a bypass, judicial review of bypass actions, and continuation of the bypass until there is no longer any failure or inability to comply, respectively.

Similarly, in Part 204, all but one of the changes implement statutory and regulatory provisions. The change in § 204.11(b)(1) concerning State and local audit responsibilities, for example, implements the audit requirements in the Single Audit Act of 1984. The change in § 204.12(b)(1) concerning the compromise of audit claims indicates the factors considered in compromising claims contained in 4 CFR Part 103 and section 452(f) of GEPA. Thus, these changes merely restate the law and establish no new substantive policy.

The one change that does not restate the law is § 204.12(b)(2), which indicates that it is the general policy of the Secretary to consider the probability of the claim being upheld to be the most important factor in deciding whether to compromise an audit claim. Because this is a general, nonbinding statement of policy that indicates the Secretary's intent to give the probability of the claim being upheld the greatest weight, the Secretary is waiving proposed rulemaking. An NPRM is not required for general statements of policy under 5 U.S.C. 553(b)(A).

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established in the Order.

Regulatory Flexibility Act

The Secretary certifies that these regulations will not have a significant economic impact on a substantial number of small entities. To the extent that these regulations affect States and State agencies, the regulations will not have an impact on small entities because States and State agencies are not considered to be small entities under the Regulatory Flexibility Act.

These regulations will affect all small LEAs receiving Federal financial assistance under Chapter 1. However, the regulations will not have a significant economic impact on the small LEAs affected because the regulations implement technical amendments or other statutory provisions and do not impose excessive regulatory burden or require unnecessary Federal supervision.

Paperwork Reduction Act of 1980

Information collection requirements contained in these regulations in §§ 200.53 and 200.54 will be sent to the Office of Management and Budget for review under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511).

All other information collection requirements contained in these regulations have been approved by the Office of Management and Budget.

If any persons wish to comment on these information collection requirements, the comments should be addressed to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 3208, 17th Street and Pennsylvania Avenue, NW., Washington, DC 20503. Attention: Joseph F. Lackey.

Intergovernmental Review

The program for financial assistance to SEAs to meet the special educational needs of migratory children (34 CFR Part 201) covered by the regulations in Part 204 is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR Part 79. The objective of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the Order, this document is intended to provide early notification of the Department's specific plans and actions for this program.

List of Subjects

34 CFR Part 200

Education, Education of disadvantaged, Elementary and secondary education, Grant programs—education, Juvenile delinquency, Neglected, Private schools, Reporting and recordkeeping requirements.

34 CFR Part 204

Education, Education of disadvantaged, Education of handicapped, Elementary and secondary education, Grant programs—education, Juvenile delinquency, Migrant labor, Neglected, Private schools, Reporting and recordkeeping requirements.

Citation of Legal Authority:

A citation of statutory or other legal authority is placed in parentheses on the line following each substantive provision of these final regulations.

Dated: May 13, 1986.

William J. Bennett,

Secretary of Education.

(Catalog of Federal Domestic Assistance No. 84.010, Educationally Deprived Children—Local Educational Agencies; 84.011, Migrant

Education—Basic State Formula Grant Program; 84.012, Educationally Deprived Children—State Administration; 84.009, Program for Education of Handicapped Children in State Operated or Supported Schools; 84.013, Educationally Deprived Children in State Administered Institutions Serving Neglected or Delinquent Children)

The Secretary amends Parts 200 and 204 of Title 34 of the Code of Federal Regulations as follows:

1. In Part 200 the following sections are removed and all except § 200.54 are reserved:

Sec.
200.54 Evaluation.
200.55 Allowable costs.
200.59 SEA rulemaking and other responsibilities.
200.60 Maintenance of effort.
200.61 Waiver of the maintenance of effort requirement.
200.62 Supplement, not supplant.
200.93 Eligibility for review.
200.100 Practice and procedure.
200.103 The Secretary's decision.

2. The table of contents for Part 200 is revised to read as follows:

PART 200—FINANCIAL ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES TO MEET SPECIAL EDUCATIONAL NEEDS OF DISADVANTAGED CHILDREN

Subpart A—Applying for Chapter 1 Funds for Grants to Local Educational Agencies

General

Sec.
200.1 Purpose.
200.2 Applicability of regulations in this part.
200.3 Definitions.
200.4 Amount of funds available for Chapter 1 grants.
200.5–200.9 [Reserved]

Application Procedure

200.10 State assurances.
200.11 Payments for State administration.
200.12 LEAs that may receive Chapter 1 funds.
200.13 Submission of LEA project applications to the SEA.
200.14 SEA approval of applications.
200.15–200.19 [Reserved].

Subpart B—Allocation of Chapter 1 Funds for Grants to Local Educational Agencies

Basic Grants

200.20 Eligibility of LEAs for basic grants.
200.21 Determination by the Secretary of basic grants.
200.22 Allocation of county aggregate amounts by SEAs.
200.23 Exceptions to county aggregate amounts.
200.24–200.29 [Reserved]

Special Incentive Grants

200.30 Eligibility for special incentive grants.
200.31 Amount of special incentive grants.
200.32 Method of making special incentive grants.
200.33 Use of special incentive grant funds.
200.34–200.39 [Reserved]

Concentration Grants

200.40 States to receive concentration grant funds.
200.41 Determinations of State and county concentration grants.
200.42 Determinations of LEA allocations.
200.43 Method of awarding concentration grant funds.
200.44 Use of concentration grant funds.

Reallocations

200.45 Reallocation of Chapter 1 funds by SEAs.
200.46 Reallocation of Chapter 1 funds by the Secretary.
200.47–200.49 [Reserved]

Subpart C—Project Requirements

200.50 Selection of school attendance areas.
200.51 Student identification and selection.
200.52 Prohibition against using Chapter 1 funds to provide general aid.
200.53 Consultation with parents and teachers.
200.54 Schoolwide projects.
200.55–200.59 [Reserved]

Subpart D—Fiscal Requirements

200.60 Comparability of services.
200.61–200.69 [Reserved]

Subpart E—Participation in Chapter 1 Programs of Educationally Deprived Children in Private Schools

General

200.70 Responsibility of LEAs.
200.71 Factors used in determining equitable participation.
200.72 Funds not to benefit a private school.
200.73 Use of public school employees.
200.74 Equipment and supplies.
200.75 Construction.
200.76–200.79 [Reserved]

Procedures for Bypass

200.80 Bypass—General.
200.81 Notice by the Secretary.
200.82 Bypass procedures.
200.83 Appointment and functions of a hearing officer.
200.84 Hearing procedures.
200.85 Post hearing procedures.
200.86 Judicial review of bypass actions.
200.87 Continuation of the bypass.
200.88–200.89 [Reserved]

Authority: Secs. 552–559, 561–596 of the Education Consolidation and Improvement Act of 1981, 20 U.S.C. 3801–3809, 3871–3876, unless otherwise noted.

§ 200.4 [Redesignated from § 200.5]

3. Section 200.5 is redesignated as § 200.4.

4. Sections 200.49 and 200.50 are redesignated as §§ 200.50 and 200.51, respectively, and are revised to read as follows:

§ 200.50 Selection of school attendance areas.

(a) *General rule.* (1) Except as provided in paragraphs (b) and (c) of this section, an LEA that receives Chapter 1 funds shall operate Chapter 1 projects that are—

(i) Conducted in school attendance areas of the LEA having the highest concentrations of low-income children; or

(ii) Located in all school attendance areas of the LEA if the LEA has a uniformly high concentration of low-income children.

(2) To meet the requirement in paragraph (a)(1)(i) of this section, an LEA shall order its school attendance areas based on concentrations of children from low-income families and shall select areas for participation based on that ordering.

(b) *Special rules.* An LEA may implement the following provisions to meet the requirement in paragraph (a) of this section:

(1) Designate as eligible any school attendance area in which at least 25 percent of the children are from low-income families.

(2) Provide Chapter 1 services to educationally deprived children who are in a school which is not located in an eligible school attendance area if the proportion of children from low-income families in average daily attendance in that school is substantially equal to the proportion of those children in an eligible school attendance area of the LEA.

(3)(i) With the approval of the SEA, designate as eligible and serve school attendance areas or schools with substantially higher numbers or percentages of educationally deprived children before school attendance areas or schools with higher concentrations of children from low-income families, except that the LEA may not serve more school attendance areas or schools than could otherwise be served.

(ii) An SEA shall approve the selection of school attendance areas or schools under paragraph (b)(3)(i) of this section only if the SEA finds that the selection will not substantially impair the delivery of compensatory education services to educationally deprived children from low-income families in project areas served by the LEA.

(4)(i) Continue to provide Chapter 1 services in a school attendance area or school that does not qualify under paragraph (a) of this section if that area or school was selected under the standards in paragraph (a) of this section in either of the two preceding fiscal years.

(ii) A school attendance area or school may receive a single additional year of eligibility for each of the two preceding fiscal years for which it was selected under paragraph (a) of this section. Thus, the eligibility conferred by paragraph (b)(4)(i) of this section can be valid for a total of two years.

(5) With the approval of the SEA, skip eligible school attendance areas or schools which have higher proportions of children from low-income families if the children in those areas or schools are receiving from non-Federal funds, services of the same nature and scope as would otherwise be provided under Chapter 1, except that the LEA shall—

(i) Determine the number of children in private schools to receive Chapter 1 services without regard to non-Federal compensatory education funds used to serve eligible children in public elementary and secondary schools; and

(ii) Identify children in private schools to receive Chapter 1 services in accordance with the provisions in paragraphs (a) and (b) (1) through (4) of this section.

(c) *Exemption.* An LEA with a total enrollment of fewer than 1,000 children does not have to comply with the requirements in this section but shall comply with the requirements in § 200.51.

(Sec 556(b)(1), (c), (d)(1)–(5), 20 U.S.C. 3805(b)(1), (c), (d)(1)–(5); H. Rept., 98th Cong., 1st Sess. 2, 4 (1983); S. Rept. 166, 98th Cong., 1st Sess. 2, 9 (1983))

§ 200.51 Student identification and selection.

(a) *Annual assessment of educational needs.* An LEA that receives Chapter 1 funds shall base its Chapter 1 project on an annual assessment of educational needs that—

(1) Identifies educationlly deprived children in all eligible school attendance areas or schools, including educationally deprived children in private schools;

(2) Requires, among the educationally deprived children selected, inclusion of those children who have the greatest need for special assistance; and

(3) Determines the educational needs of the children selected to participate with sufficient specificity to ensure concentration on those needs.

(b) *Special rules.* (1) If, in complying with paragraph (a)(2) of this section, an LEA chooses to serve only children in greatest need for special assistance, the LEA may use Chapter 1 funds to serve, for one additional school year, children who, in any previous year, were identified as being in greatest need for special assistance, and who continue to be educationally deprived, but who are no longer identified as being in greatest need for special assistance.

(2) An LEA may use Chapter 1 funds during the current school year to continue to serve educationally deprived children who begin participation in a Chapter 1 project but who, in the same school year, are transferred to a school attendance area or a school not receiving Chapter 1 funds.

(3)(i) Except as provided in paragraph (b)(3)(ii) of this section, an LEA is not required to use Chapter 1 funds to serve educationally deprived children in greatest need for special assistance if those children are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under Chapter 1.

(ii) The LEA shall serve children who are in greatest need for special assistance who are not receiving services of the same nature and scope from non-Federal sources.

(Sec. 556(b)(2), (c), (d)(6)–(8), 20 U.S.C. 3805 (b)(2), (c), (d)(6)–(8); H. Rept. 51, 98th Cong., 1st Sess. 2, 4–5 (1983); S. Rept. 166, 98th Cong., 1st Sess. 2, 8–9 (1983); H. Rept. 574, 98th Cong., 1st Sess. 12(1983))

5. Paragraph (b) of § 200.53 is revised to read as follows:

§ 200.53 Consultation with parents and teachers.

* * * * *

(b)(1) To meet the consultation requirement in paragraph (a) of this section, an LEA shall develop written policies to ensure that parents of the children being served have an adequate opportunity to participate in the design and implementation of the LEA's Chapter 1 project.

(2) Activities an LEA may consider in developing the policies required in paragraph (b)(1) of this section include, but are not limited to, the following:

(i) Notifying each child's parents in a timely manner that the child has been selected to participate in Chapter 1 and why the child has been selected.

(ii) Informing each child's parents of the specific instructional objectives for the child.

(iii) Reporting to each child's parents on the child's progress.

(iv) Establishing conferences between individual parents and teachers.

(v) Providing materials and suggestions to parents to help them promote the education of their children at home.

(vi) Training parents to promote the education of their children at home.

(vii) Providing timely information concerning the Chapter 1 program including, for example, program plans and evaluations.

(viii) Soliciting parents' suggestions in the planning, development, and operation of the program.

(ix) Consulting with parents about how the school can work with parents to achieve the program's objectives.

(x) Providing timely responses to parents' recommendations.

(xi) Facilitating volunteer or paid participation by parents in school activities.

(xii) Designating LEA parent coordinators,

(xiii) Establishing parent advisory councils.

6. A new § 200.54 is added to read as follows:

§ 200.54 Schoolwide projects.

(a) *Eligibility of a school for a schoolwide project.* An LEA may conduct a Chapter 1 project to upgrade the entire educational program in a school if—

(1) The school serves an eligible school attendance area;

(2) At least 75 percent of the children at the school are from low-income families;

(3) The LEA develops for the school a plan that meets the requirements in paragraph (b) of this section and has been approved by the SEA; and

(4) The LEA meets the financial requirements in paragraph (c) of this section.

(b) *Required plan for each school selected for a schoolwide project.* The plan referred to in paragraph (a)(3) of this section must—

(1) Provide for a comprehensive assessment of the educational needs of all students in the school, particularly the special needs of educationally deprived children;

(2) Provide for an instructional program designed to meet the special needs of all students in the school;

(3) Be developed with the involvement of those individuals who will be engaged in carrying out the plan, including parents, teachers, teacher aides, administrators, and secondary students if the plan relates to a secondary school;

(4) Provide for consultation among the individuals referred to in paragraph (b)(3) of this section concerning the educational progress of all students in the school;

(5) Provide for appropriate training for teachers and teacher aides to enable them to carry out the plan effectively;

(6) Include procedures that the LEA will use to evaluate the effectiveness of the schoolwide project and that will involve in the evaluation the

participation of the individuals referred to in paragraph (d)(3) of this section; and

(7) Include opportunities for periodic improvements in the plan based on the results of the evaluations referred to in paragraph (b)(6) of this section.

(c) *Financial requirements for a schoolwide project.* An LEA that uses Chapter 1 funds to conduct a schoolwide project shall meet the following financial requirements:

(1) In each school selected for a schoolwide project, the LEA shall provide, per educationally deprived child served in that school, an amount of Chapter 1 funds that is at least equal to the amount of Chapter 1 funds that the LEA provides per educationally deprived child served in other schools, if any, that serve project areas.

(2) In each school selected for a schoolwide project, the LEA shall provide, per child served by the schoolwide project who is not educationally deprived, an amount of special supplementary State and local funds that is at least equal to the amount of Chapter 1 funds that the LEA provides per educationally deprived child served in that school.

(3) During the fiscal year in which the plan required by paragraph (a)(3) of this section is carried out, the LEA shall, in each school selected for a schoolwide project, spend per child an amount of State and local funds—excluding amounts spent under a State compensatory education program—that is at least equal to the amount of State and local funds that the LEA spent per child in that school during the preceding fiscal year.

(4) In order to meet the requirements in section 558(b) of Chapter 1, each school that is selected for a schoolwide project must receive all non-Federal funds that it would have received had it not been selected for a schoolwide project.

(d) *Effect of selection of a school for a schoolwide project.* For each school that has been selected for a schoolwide project, the LEA is not required to—

(1) Comply with any requirements under Chapter 1 concerning the commingling of Chapter 1 funds with funds available for regular programs;

(2) Comply with the requirements in § 200.51 concerning identification and selection of children to participate in Chapter 1 projects: or

(3) Demonstrate that the services provided with Chapter 1 funds are supplementary to the services regularly provided in the school. (However, see paragraph (c)(4) of this section, which requires that Chapter 1 funds supplement the amount of non-Federal funds that are provided to the school.)

(Sec. 556(d)(9), 20 U.S.C. 3805(d)(9); Rept. 51, 98th Cong., 1st Sess. 2, 4–5 (1983); S. Rept. 166, 98th Cong., 1st Sess. 2, 9–10 (1983))

§§ 200.55–200.59 [Reserved]

7. Section 200.63 is redesignated as § 200.60 and paragraph (d) is revised to read as follows:

§ 200.60 Comparability of services.

* * * * *

(d) An LEA may exclude, for the purpose of determining compliance with the comparability requirements in paragraphs (a) and (b) of this section, State and local funds spent in carrying out the following types of programs:

(1) Special programs to meet the educational needs of educationally deprived children, including compensatory education programs for educationally deprived children, that meet the following requirements:

(i) All children participating in the program are educationally deprived.

(ii) The program is based on performance objectives related to educational achievement and is evaluated in a manner consistent with those performance objectives.

(iii) The program provides supplementary services designed to meet the special educational needs of the children who are participating.

(iv) The LEA keeps records, and affords access to those records, as are necessary to ensure the correctness and verification of the requirements in paragraph (d)(1) (i)–(iii) of this section.

(v) The SEA monitors performance under the program to ensure that the requirements of paragraph (d)(1) (i)–(iv) of this section are met.

(2) Bilingual education programs for children of limited English proficiency.

(3) Special education programs for handicapped children or children with specific learning disabilities.

(4) State phase-in programs that meet the following requirements:

(i) The program is authorized and governed specifically by the provisions of State law.

(ii) The purpose of the program is to provide for the comprehensive and systematic restructuring of the total educational environment at the level of the individual school.

(iii) The program is based on objectives including, but not limited to, performance objectives related to educational achievement, and is evaluated in a manner consistent with those objectives.

(iv) Parents and school staff are involved in comprehensive planning, implementation, and evaluation of the program.

(v) The program will benefit all children in a particular school or gradespan within a school.

(vi) Schools participating in the program describe, in a school level plan, program strategies for meeting the special educational needs of educationally deprived children.

(vii) The phase-in period of the program is not more than six school years.

(viii) At all times during the phase-in period at least 50 percent of the schools participating in the program are the schools serving project areas which have the greatest number or concentrations of educationally deprived children or children from low-income families.

(ix) State funds made available for the phase-in program will supplement, and not supplant, State and local funds which would, in the absence of the phase-in program, have been provided for schools participating in the program.

(x) The LEA is separately accountable, for purposes of compliance with paragraph (d)(4)(i) through (vi), (viii), and (ix) of this section, the SEA for any funds expended for the program.

(xi) The LEAs carrying out the program are complying with paragraph (d)(4)(i) through (vi), (viii), and (ix) and the SEA is complying with paragraph (d)(4)(x) of this section.

(Sec. 558(c)-(d), 20 U.S.C. 3807(c)-(d)) U.S.C. 3807(d)

§§ 200.61–200.69 [Reserved]

8. Under "Subpart E—Participation in Chapter 1 Programs of Educationally Deprived Children in Private Schools," the heading "General" is added before § 200.70.

9. The headings entitled "Subpart F—Due Process Procedures" and "Other Due Process Procedures" are removed.

10. Section 200.80 is amended by adding a new paragraph (c) to read as follows:

§ 200.80 Bypass—General.

* * * * *

(c) Pending the final resolution of an investigation or a complaint that could result in a bypass action, the Secretary may withhold from the allocation of the affected LEA or SEA the amount the Secretary estimates is necessary to pay the cost of the services referred to in paragraph (b) of this section.

11. A new § 200.86 is added to read as follows:

§ 200.86 Judicial review of bypass actions.

If an SEA or LEA is dissatisfied with the Secretary's final action after a proceeding under §§ 200.82–200.85, it

may, within 30 days after receiving notice of that action, file a petition for review with the United States Court of Appeals for the circuit in which the State is located.

(Sec. 557(b)(4)(B), 20 U.S.C. 3507(b)(4)(B))

12. A new § 200.57 is added to read as follows:

§ 200.57 Continuation of the bypass.

Any bypass action by the Secretary continues in effect until the Secretary determines that there will no longer be any failure or inability on the part of the LEA that is being bypassed to meet the requirements in §§ 200.70–200.75.

(Sec. 557(b)(3)(C), 20 U.S.C. 3507(b)(3)(C))

§§ 200.58–200.60 [Reserved]

PART 204—GENERAL DEFINITIONS AND ADMINISTRATIVE, PROJECT, FISCAL, AND DUE PROCESS REQUIREMENTS FOR CHAPTER 1 PROGRAMS

13. The authority citation for Part 204 is revised to read as follows:

Authority: Secs. 555–556, 558–559, 591–592 of the Education Consolidation and Improvement Act of 1981, 20 U.S.C. 3801–3805, 3807–3808, 3871–3878, unless otherwise noted.

14. Section 204.11 is amended by revising paragraphs (a)(1)(ii), (a)(2), and (b)(1) and the citation of authority to read as follows:

§ 204.11 Access to records and audits.

(a) * * *

(1) * * *

(ii) Any agency that receives Chapter 1 funds shall cooperate with the Inspector General of the Department in the conduct of audits authorized by the Inspector General Act of 1978, including providing access to information and access to agency personnel for the purpose of obtaining explanations of the information.

(2) An SEA shall repay to the Department the amount of Chapter 1 funds that the Department determines after an audit was not spent in accordance with applicable law.

(b) *State and local responsibilities.* (1) Any State or local government that receives Chapter 1 funds shall comply with the audit requirements in the Single Audit Act of 1984 and the regulations in 34 CFR 74.62 with respect to any of the government's fiscal years that begin after December 31, 1984.

* * * * *

(Sec. 555(d), 20 U.S.C. 3804(d); Sec. 556(b), 20 U.S.C. 3805(b); Sec. 437(b) of the General Education Provisions Act (GEPA), 20 U.S.C. 1232f(b); Sec. 452 of GEPA, 20 U.S.C. 1234a; Sec. 1744 of the Omnibus Budget Reconciliation Act of 1981, 31 U.S.C. 7504; Secs. 3, 4, and 8 of the Inspector General Act of 1978, as amended, 5 U.S.C. App.; Sec. 202 of the Intergovernmental Cooperation Act of 1968, 42 U.S.C. 4212; Single Audit Act of 1984, 31 U.S.C. 7501 *et seq.*)

15. Section 204.12 is amended by revising paragraph (b) and the authority citation to read as follows:

§ 204.12 Audit claims.

* * * * *

(b) *Compromise.* (1) In deciding whether to compromise an audit claim, or in recommending possible compromise to the United States Department of Justice, the Secretary considers the following factors in accordance with 4 CFR Part 103 and with section 452(f) of GEPA:

(i) The probability of the claim being upheld.

(ii) The cost of collecting the claim.

(iii) Whether the Department's enforcement policy in terms of deterrence and securing compliance would be adequately served.

(iv) Whether the practices of the agency that resulted in the claim have been corrected and will not recur.

(v) Whether collection would be in the public interest or practical.

(2) It is the policy of the Secretary to consider the probability of the claim being upheld to be the most important of the factors in paragraph (b)(1) of this section.

(Sec. 555(d), 20 U.S.C. 3804(d); Sec. 556(b), 20 U.S.C. 3805(b); Sec. 452 of GEPA, 20 U.S.C. 1234a; Federal Claims Collection Act, 31 U.S.C. 3701 *et seq.*; 4 CFR Part 103)

16. A new § 204.13 is added to read as follows:

§ 204.13 State rulemaking and other SEA responsibilities.

(a) *General responsibilities of an SEA.* An SEA is responsible for ensuring that the agencies that receive Chapter 1 funds in the State comply with all statutory and regulatory provisions applicable to Chapter 1.

(b) *State rulemaking.* (1) Chapter 1 does not—

(i) Authorize States to issue rules, regulations, or policies that apply to agencies operating Chapter 1 projects, except as related to State audits and financial responsibilities; or

(ii) Encourage, preempt, or prohibit rules, regulations, or policies issued under State law.

(2) If a State issues, pursuant to procedures established by State law, any rules, regulations, or policies relating to the administration and operation of programs funded under Chapter 1 (including those based on State interpretation of any Federal statute, regulation, or guideline), the State shall—

(i) Ensure that the rules, regulations, or policies do not conflict with the provisions of—

(A) Chapter 1;

(B) The regulations in this part and 34 CFR Parts 200 through 299; or

(C) Other applicable Federal statutes and regulations; and

(ii) Identify the State rules, regulations, or policies as State-imposed requirements.

(Sec. 588, 20 U.S.C. 3805; Sec. 301(d), 20 U.S.C. 3871(d))

17. A new § 204.21 is added to read as follows:

§ 204.21 Annual meeting of parents.

(a)(1) An agency that receives Chapter 1 funds shall convene annually a public meeting, to which all parents of eligible children must be invited, to discuss with those parents the programs and activities provided with Chapter 1 funds. The discussion must include—

(i) Informing parents of their right to consult in the design and implementation of the agency's Chapter 1 project;

(ii) Soliciting parents' input; and

(iii) Providing parents an opportunity to establish mechanisms for maintaining ongoing communication among parents, teachers, and agency officials.

(2) An agency may hold one or more meetings at sites convenient to the agency to meet the requirement in paragraph (a)(1) of this section.

(b) If parents of eligible children desire further activities, the agency may, upon request, provide reasonable support for these activities. This support may include, but is not limited to—

(1) Reasonable access to meeting space and materials;

(2) Provision of information concerning the Chapter 1 law, regulations, and instructional programs;

(3) Training programs for parents; and

(4) Other resources, as appropriate.

(Sec. 556(e), 20 U.S.C. 3805(e); H. Rept. 81, 98th Cong., 1st Sess. 5 (1983); S. Rept. 108, 98th Cong., 1st Sess. 10–11 (1983))

18. A new § 204.22 is added to read as follows:

§ 204.22 Allowable costs.

(a) An agency that receives Chapter 1 funds may use those funds only to meet the cost of project activities that—

(1) Are designed to meet the special educational needs of the children eligible to be served under the applicable Chapter 1 program;

(2) Are included in an approved application; and

(3) Comply with all requirements applicable to Chapter 1 programs.

(b) The project activities referred to in paragraph (a) of this section may include the applicable activities in Section 555(c) of Chapter 1.

(c) Administrative direction and control Chapter 1 funds and title to property acquired with these funds must be in a public agency.

(d) An agency that receives Chapter 1 funds may assign personnel paid entirely with Chapter 1 funds to supervisory duties that provide some benefit to children not participating in the Chapter 1 project, if—

(1) These duties are limited, rotating, and supervisory;

(2) Personnel with functions similar to those of the Chapter 1 personnel, but who are not paid with Chapter 1 funds, are assigned to these duties at the same school site;

(3) These duties do not include substitute teaching of a non-Chapter 1 class or regular supervision of a homeroom;

(4) The Chapter 1 personnel do not perform any duties for pay that non-Chapter 1 personnel perform without pay; and

(5) The proportion of total work time that Chapter 1 personnel at the same school site spend performing these duties does not exceed the lesser of either—

(i) The proportion of total work time that non-Chapter 1 personnel spend performing these duties; or

(ii) Ten percent of the Chapter 1 person's total work time.

Examples. Examples of the types of duties that might meet the conditions in paragraph (d) of this section include hall duty, lunchroom supervision, playground supervision, and other tasks commonly shared among the staff in a school.

(Sec. 554(a), 20 U.S.C. 3803(a) —3, (d)(1), Sec. 555(c), 20 U.S.C. 3804(c); Sec. 556(b)(2) —3, (d)(10), 20 U.S.C. 3805( )(b)(2)—3, (d)(10))

19. A new § 204.23 is added to read as follows:

§ 204.23 Evaluation.

(a) *SEA evaluation.* (1) Each SEA shall—

(i) Conduct an evaluation of the Chapter 1 programs in the State at least once every two years and make public the results of that evaluation; and

(ii) Collect data annually on—

(A) The race, age, and gender of children served by the Chapter 1 programs in the State; and

(B) The number of children served by grade level under the Chapter 1 programs in the State.

(2) To meet the requirement in paragraph (a)(1)(i) of this section, the SEA may, for each Chapter 1 program, aggregate evaluation data collected under paragraph (b)(1)(i) of this section to obtain statewide totals.

(b) *Applicant agency evaluation.* (1) An agency that receives Chapter 1 funds shall, at least once every three years, evaluate its Chapter 1 project in terms of the project's effectiveness in achieving the goals set for the project. This evaluation must include—

(i) Objective measurements of educational achievement in basis skills; and

(ii) A determination of whether improved performance is sustained over a period of more than one year.

(2) The agency shall consider the results of the evaluation required in paragraph (b)(1) of this section in the improvement of the agency's Chapter 1 project.

(Sec. 555(e), 20 U.S.C. 3804(e); Sec. 556(b)(4), 20 U.S.C. 3805(b)(4)) (Approved by the Office of Management and Budget under control number 1810-0504).

20. A new § 204.30 is added to read as follows:

§ 204.30 Maintenance of effort.

(a) *Basic standard.* Except as provided in § 204.31, an SEA shall pay a State agency or LEA its allocation of funds under Chapter 1 programs if the SEA finds that either the combined fiscal effort per student or the aggregate expenditures of State and local funds with respect to the provision of free public education in the affected State agency or LEA for the preceding fiscal year was not less than 90 percent of the combined fiscal effort per student or the aggregate expenditures of State and local funds for the second preceding fiscal year. For purposes of determining maintenance of effort, "preceding fiscal year" means the fiscal year prior to the beginning of the Federal fiscal year in which funds are available.

Example: For funds made available only July 1, 1982, if a State is using the Federal fiscal year, the "preceding fiscal year" is fiscal year 1981 (which began on October 1, 1980). If a State is using a fiscal year that begins on July 1, 1982, the "preceding fiscal year" is the 12-month fiscal period ending on June 30, 1981.

(b) *Failure to maintain effort.* (1) If a State agency or LEA fails to maintain effort and a waiver under § 204.31 is not granted, the SEA shall reduce the affected State agency's or LEA's allocation of funds under Chapter 1 in the exact proportion to which the State agency or LEA fails to meet 90 percent of both the combined fiscal effort per student and aggregate expenditures (using the measure most favorable to the State agency or LEA) for the second preceding fiscal year.

(2) In determining maintenance of effort for the fiscal year immediately following the fiscal year in which the State agency or LEA failed to maintain effort, the SEA may consider the State agency's or LEA's fiscal effort for the second preceding fiscal year to be no less than 90 percent of the combined fiscal effort per student or aggregate expenditures (using the measure most favorable to the LEA or State agency) for the third preceding fiscal year.

Example: In fiscal year 1983, a State agency or LEA fails to maintain effort because its fiscal effort in the preceding fiscal year (1981) is less than 90 percent of its fiscal effort in the second preceding fiscal year (1980). In the following fiscal year (1984), the State agency's or LEA's fiscal effort in the second preceding fiscal year (1981) could be considered to be no less than 90 percent of its fiscal effort in the third preceding fiscal year (1980).

(Sec. 558(a), 20 U.S.C. 3807(a)).

21. A new § 204.31 is added to read as follows:

§ 204.31 Waiver of the maintenance of effort requirement.

(a)(1) An SEA may waive, for one fiscal year only, the maintenance of effort requirement applying to an affected State agency or LEA in § 204.30 if the SEA determines that a waiver would be equitable due to exceptional or uncontrollable circumstances. These circumstances include—

(i) A natural disaster;

(ii) A precipitous and unforeseen decline in the financial resources of the LEA or State agency; or

(iii) Other exceptional or uncontrollable circumstances.

(2) An SEA may not consider tax initiatives or referenda to be exceptional or uncontrollable circumstances.

(b)(1) If the SEA grants a waiver under paragraph (a) of this section, the SEA shall not reduce the amount of Chapter 1 funds the affected State agency or LEA is otherwise entitled to receive.

(2) In determining maintenance of effort for the fiscal year immediately following the fiscal year for which the waiver was granted, the SEA may consider the State agency's or LEA's fiscal effort for the second preceding fiscal year to be no less than 90 percent of the combined fiscal effort per student or aggregate expenditures (using the measure most favorable to the LEA or State agency) for the third preceding fiscal year.

Example: In fiscal year 1983, a State agency or LEA assumes a review because its fiscal effort in the preceding fiscal year (1982) is less than 90 percent of its fiscal effort in the second preceding fiscal year (1981) due to exceptional or uncontrollable circumstances. In the following fiscal year (1984) the State agency's or LEA's fiscal effort in the second preceding fiscal year (1982) could be considered to be no less than 90 percent of its fiscal effort for the third preceding fiscal year (1983).

(Sec. 555(a)(3), 20 U.S.C. 3507(a)(3); 127 Cong. Rec. H5945 (daily ed. July 28, 1981))

22. A new § 204.52 is added to read as follows:

§ 204.52 Supplement, not supplant.

(a) Except as provided in paragraph (b) of this section, an agency that receives Chapter 1 funds may use those funds only to supplement and, to the extent practical, increase the level of non-Federal funds that would, in the absence of Chapter 1 funds, be made available for the education of pupils participating in Chapter 1 projects, and in no case may Chapter 1 funds be used to supplant those non-Federal funds.

(b) An agency may exclude, for the purposes of determining compliance with the supplement, not supplant requirement in paragraph (a) of this section, State and local funds spent in carrying out special programs to meet the educational needs of educationally deprived children, including compensatory education programs for educationally deprived children, that meet the following requirements:

(1) All children participating in the program are educationally deprived.

(2) The program is based on performance objectives related to educational achievement and is evaluated in a manner consistent with those performance objectives.

(3) The program provides supplementary services designed to meet the special educational needs of the children who are participating.

(4) The agency keeps records and affords access to those records as necessary to ensure the correctness and verification of the requirements in paragraph (b)(1)–(3) of this section.

(5) The SEA monitors performance under the program to ensure that the requirements of paragraph (b)(1)–(4) of this section are met.

(c) The supplement, not supplant requirement in paragraph (a) of this section does not require that an agency provide Chapter 1 services outside the regular classroom or school program.

(Sec. 555(b) (d), 20 U.S.C. 3507(b), (d))

23. A new § 204.3 is added to read as follows:

§ 204.61 Eligibility for review.

(a) Review under these regulations is available to a recipient of Chapter 1 funds that receives a written notice from an authorized Department official of—

(1) A final audit determination;

(2) An intent to withhold funds;

(3) A cease and desist complaint; or

(4) A proceeding designated by the Secretary.

(b) If a recipient receives written notice and brings a lawsuit to challenge that notice, the recipient has failed to exhaust administrative remedies and the Secretary may move for dismissal of the lawsuit on that basis.

(c) If the Panel assigned to hear an appeal finds that there are no issues in the appeal within the Board's jurisdiction, the Panel may, at the request of a party or Panel member, issue a decision or order to that effect.

(Sec. 592, 20 U.S.C. 3872; Sec. 434(a) of GEPA, 20 U.S.C. 1234(a); Sec. 452 of GEPA, 20 U.S.C. 1234a; Sec. 454 of GEPA, 20 U.S.C. 1234c; Sec. 455 of GEPA, 20 U.S.C. 1234d)

24. A new § 204.70 is added to read as follows:

§ 204.70 Practice and procedure.

(a) *General.* Practice and procedure before the Board in proceedings conducted under the regulations in this part are governed by the rules in Subpart E of 34 CFR Part 78, (Education Appeal Board).

(b) *Burden of proof.* The appellant shall present its case first and shall have the burden of proving the allowability of the expenditures disallowed in a final audit determination.

(Sec. 592(a), 20 U.S.C. 3872(a); Sec. 451(a) of GEPA, 20 U.S.C. 1234(a); Sec. 452(b) of GEPA, 20 U.S.C. 1234a(b))

25. A new § 204.53 is added to read as follows:

§ 204.53 The Secretary's decision.

(a) The Panel's decision in § 204.51 becomes the final decision of the Secretary 60 calendar days after the date the appellant receives the Panel's decision unless the Secretary, for good cause shown—

(1) Modifies or sets aside the Panel's decision; or

(2) Remands the Panel's decision to the Board for further review or consideration.

(b) If the Secretary modifies or sets aside the Panel's decision within the 60 days, the Secretary issues a decision that—

(1) Includes a statement of the reasons for this action; and

(2) Becomes the Secretary's final decision 60 calendar days after it is issued.

(c) (1) Except as provided in paragraph (c)(2) of this section, the final decision of the Secretary is the final decision of the Department.

(2) If the Secretary remands the Panel's decision of the Board, neither the Panel's decision nor the Secretary's remand becomes the final decision of the Department.

(d) The Board Chairperson sends the the Panel and to each party a copy of the Secretary's final decision and statement of reasons, a notice that the Panel's decision has become the Secretary's final decision, or a copy of the Secretary's decision to remand.

(Sec. 592(a), 20 U.S.C. 3872(a); Sec. 451(a), (e) of GEPA, 20 U.S.C. 1234(a), (e); Sec. 452(d) of GEPA, 20 U.S.C. 1234a(d); Sec. 455 of GEPA, 20 U.S.C. 1234d)

Note.—This appendix will not appear in the Code of Federal Regulations.

Appendix—Summary of Comments and Responses

The following is a summary of the comments received on the notices of proposed rulemaking for Financial Assistance to Local Educational Agencies to Meet Special Educational Needs of Disadvantaged Children, and for General Definitions and Administrative, Project, Fiscal, and Due Process Requirements for Chapter 1 Programs published on August 9, 1984. Each comment is followed by a response that indicates a change has been made or why no change is considered necessary. Specific comments are arranged in order of the sections of these final regulations to which they pertain.

General Comments and Responses

Comment. One commenter noted that final regulations would not be published until well into the 1984–85 school year and suggested that the final regulations be effective for the 1985–86 school year.

Response. No change has been made. As the commenter suggested, these regulations will become effective during the 1985–86 school year. However, the provisions in Pub. L. 98–211, on which these regulations are based, were made effective July 1, 1983. As a result, agencies that receive Chapter 1 funds have been required to comply with the provisions in Pub. L. 98–211 since July 1, 1983.

Comment. One commenter noted that the Education Amendments of 1978 clearly made preschool programs for educationally deprived children eligible for Title I support, but that no reference is made to preschool programs in the current legislation or regulations. Because many States have Chapter 1-funded preschool programs, the

commenter suggested that the regulations should state clearly whether preschool programs are legal.

Response. No change has been made. Section 200.3(b) of the Chapter 1 regulations currently in effect defines "children" as persons up to age 21 who are entitled to a free public education not above grade 12, or *who are of preschool age.* That section also contains a definition of "preschool children." Thus, the Chapter 1 regulations already clearly authorize Chapter 1 projects for preschool children.

Comment. Two commenters suggested that all Chapter 1 regulations applicable to SEAs and LEAs be published in one document. The commenter noted that having four or five source documents is confusing at the State level and is bewildering to administrative personnel at the district level.

Response. No change has been made. General definitions and administrative, project, fiscal, and due process requirements applicable to all agencies that receive Chapter 1 funds are contained in a new Part 204 (published in 50 FR 18415–19 (April 30, 1985)). This part is similar to the former Part 200 under Title I. As in Title I, there are also Chapter 1 provisions that pertain only to specific Chapter 1 programs, such as the program for migratory children or the program for neglected or delinquent children. To avoid confusion among program officials as to which provisions apply to a specific program, the Secretary believes it is beneficial to separate the requirements in different documents. All the Chapter 1 regulations, however, will be published together in the Code of Federal Regulations, 34 CFR Parts 1–299.

Comment. One commenter, apparently reacting to the discussion in the preamble regarding the Regulatory Flexibility Act, stated that there should be no exemptions.

Response. No change has been made. In accordance with the Regulatory Flexibility Act, the Secretary certified in the preamble to the proposed regulations that the regulations would not have a significant economic impact on a substantial number of small entities because the regulations clarify authorized options and activities and increase flexibility with regard to program participation. As an example of such flexibility, the Secretary pointed out that school districts with less than 1,000 children are exempt from the requirement to select eligible schools or attendance areas. The commenter is apparently objecting to that exemption. The Secretary does not have the option of eliminating the exemption, however, because it was added to section 556 of the Chapter 1 statute by Pub. L. 98–211.

Section 200.50 Selection of school attendance areas.

Comment. Several commenters requested clarification of § 200.50 regarding the eligibility of attendance areas or schools with high concentrations of children from low-income families to receive Chapter 1 services.

Response. A change has been made. Section 200.50(a) has been revised by adding a new paragraph (a)(2) to clarify that an LEA must order its school attendance areas based on concentrations of children from low-income families and must select areas for participation based on that ordering. This provision makes explicit the requirement in section 556(b)(1)(A) of Chapter 1 that the Chapter 1 program must be provided in the school attendance areas having the highest concentrations of children from low-income families. Section 556(b)(1)(A) thus presumes an ordering or schools to determine those with the highest concentrations of low-income students. Moreover, section 556(d)(5), added by Pub. L. 98–211, also presumes an ordering because it provides specific rules for skipping attendance areas or schools under certain conditions, therefore providing exceptions from the ordering requirement. This change in § 200.50(a) is fully consistent with the legislative history accompanying Pub. L. 98–211, which states: "While the ECIA requirement to serve areas of 'highest concentrations of low-income children' necessarily implies an assessment of those concentrations and an ordering of schools or areas based on them, it is quite clear that the detailed, prescriptive, 'ranking' procedure set forth in Title I is to have no application to Chapter 1 programs under the ECIA." S. Rept. 166, 98th Cong., 1st Sess. 9 (1983). Thus, the revised regulations require an ordering, but leave to the State and local officials the determination of how the ordering will be done.

Comment. One commenter recommended that § 200.50(a)(1)(i) be clarified by stating that Chapter 1 projects do not necessarily have to be conducted in eligible attendance areas but may, at the direction of the LEA, be conducted at project sites located outside eligible attendance areas as long as only Chapter 1 eligible students, selected in accordance with the requirements of § 200.51, participate in the project.

Response. No change has been made. Section 200.50(a)(1)(i) accurately reflects the statutory requirement in section 556(b)(1)(A) of Chapter 1 that programs and projects must be conducted in attendance areas having the highest concentrations of low-income children. This requirement, however, does not preclude an LEA from physically locating a project outside the boundaries of an eligible attendance area as long as only eligible educationally deprived children from that attendance area participate in the project.

Comment. One commenter suggested that § 200.50(a)(1)(ii) be reworded to allow deviation from the requirement that Chapter 1 projects be located in *all* attendance areas of an LEA that has a uniformly high concentration of children from low-income families when compliance would adversely affect the quality of the projects or would conflict with section 556(c) of Chapter 1.

Response. No change has been made. Section 200.50(a)(1)(ii) accurately reflects the statutory requirement in section 556(b)(1)(B) of Chapter 1, which requires that Chapter 1 projects be located in *all* attendance areas of an LEA that has a uniformly high concentration of children from low-income families. If compliance with this requirement makes it difficult for an LEA to also comply with the size, scope, and quality requirement, the LEA may wish to select school attendance areas in accordance with § 200.50(a)(1)(i). Moreover, the Secretary does not believe § 200.50(a)(1)(ii) conflicts with section 556(c) of Chapter 1, which permits LEAs with a total enrollment of less than 1,000 children to select school attendance areas without regard to the requirements in either § 200.50 (a)(1)(i) or (a)(1)(ii).

Comment. One commenter stated that the phrase "substantially equal" in § 200.50(b)(2) is neither clearly defined nor consistent with regulations currently in effect. According to the commenter, the phrase appears to promote inconsistency in equal access to Chapter 1 assistance between districts and States. The commenter suggested using the phrase "at least as high" instead of "substantially equal."

Response. No change has been made. Section 300.50(b)(2) accurately reflects the statutory requirement in section 556(d)(3) of Chapter 1, added by Pub. L. 98–211. No similar provision is contained in the Chapter 1 regulations currently in effect. *See* 34 CFR 200.49 (1984). To the extent that the Chapter 1 nonregulatory guidance uses the phrase "at least as high," it was based on practices under Title I that the Department determined could be continued under the broad language in Chapter 1 as originally enacted. However, since Congress specifically amended Chapter 1 under Pub. L. 98–211 to include the phrase "substantially equal," it would be inconsistent with the statutory language for the regulations to

BEST COPY AVAILABLE

contain the phrase "at least as high."

Comment. One commenter stated that § 200.50(b)(4) negates the interpretation by the Department that "an LEA's identification of eligible attendance areas may be for the entire period covered by the LEA's application." (Reference: Chapter 1 Nonregulatory Guidance, USED, Section 7(9)).

Response. No change has been made. As reflected in § 200.50(b)(4), section 556(d)(4) of Chapter 1, added by Pub. L. 98–211, provides authority to continue services in ineligible schools under certain conditions. This provision of the legislation now requires an annual determination of eligible attendance areas or schools. The nonregulatory guidance will be revised to reflect the technical amendment and will advise that eligible attendance areas must be identified annually.

Comment. One commenter objected to the language in § 200.50(b)(4) (i) and (ii) because it allowed the LEA to make arbitrary decisions, some of which may be based on factors other than the educational needs of children. The commenter requested that § 200.50(b)(4)(i) be revised to read "must continue to provide" and that (b)(4)(ii) be revised to read "must receive."

Response. No change has been made. Section 556(d) of Chapter 1, added by Pub. L. 98–211, clearly states that a "local educational agency shall have discretion to make educational decisions which are consistent with achieving the purposes of [Chapter 1] . . . ." Accordingly, an LEA has the discretion to invoke the provisions in section 556(d)(4) of Chapter 1, implemented in § 200.50(b)(4). To include the word "must" in § 200.50(b)(4) would negate the LEA's discretionary authority.

Comment. Two commenters suggested that § 200.50(b)(4) goes beyond the statutory language and beyond Congress' intent. They claim that Congress intended to allow only one year of continued eligibility for services.

Response. No change has been made. The Secretary believes that § 200.50(b)(4), which permits a total of two additional years of eligibility for certain ineligible school attendance areas or schools, is both consistent with the legislative history accompanying Pub. L. 98–211 and the literal language in section 556(d)(4). According to the Senate Report, the provisions in section 556(d) are "a series of additions aimed at making explicit certain flexibilities which were present in the former Title I law." S. Rept. 166, 98th Cong., 1st Sess. 2 (1983). Similarly, the House Report states that "[t]hese provisions of Title I, substantially carried over to Chapter 1 by these amendments, give school districts flexibility in targeting school buildings and selecting children to participate in Title I programs." H. Rept. 51, 98th Cong., 1st Sess. 2 (1983). Both reports indicate that the provisions of section 556(d) are "based on the former provisions of Title I." *Id.* at 4; S. Rept. 166, 98th Cong., 1st Sess. 9 (1983). As stated in 34 CFR 201.64(b) of the Title I regulations, continuation of eligibility for certain school attendance areas or schools was valid for two fiscal years. To allow only one additional year of eligibility under Chapter 1, therefore, would be inconsistent with the practice permitted under Title I. Moreover, it would make part of the provision in section 556(d)(4) meaningless. Because the provision is intended to permit services to children to continue, there would be no reason for the statute to continue to confer eligibility to a school attendance area or school that was eligible in either of the *two* preceding fiscal years, if only *one* additional year of eligibility could be obtained. Thus, the Secretary believes that the provisions in § 200.50(b)(4) allow for a minimum of abruptness in changing project areas, simulate the option available under Title I, and incorporate and intent of section 556(d)(4) of Chapter 1 and the accompanying legislative history.

Comment. One commenter suggested the addition of the phrase "for which it was selected under paragraph (a) of this section" at the end of the first sentence of § 200.50(b)(4)(ii) to avoid confusion regarding the number of years of eligibility for an area.

Response. A change has been made. Section 200.50(b)(4)(ii) contains the suggested phrase, which clarifies that an ineligible school attendance area or school may receive a single additional year of eligibility for each of the two preceding fiscal years only if the school or area was selected to participate in the year conferring the eligibility.

Comment. Two commenters questioned whether the exemption from the requirement regarding selection of eligible attendance areas for districts with fewer than 1,000 children would permit an LEA to designate certain schools as project schools and not serve all schools.

Response. No change has been made. According to both the House and Senate Reports, section 556(c) of Chapter 1 was enacted to "provide flexibility in terms of targeting school buildings." H. Rept. 51, 98th Cong., 1st Sess. 4 (1983); S. Rept. 166, 98th Cong., 1st Sess. 8 (1983). Therefore, districts with fewer than 1,000 children do not have to comply with either section 556(b)(1) (A) or (B) of Chapter 1. Rather, those districts may select school attendance areas and schools in accordance with the district's needs. As § 200.50(c) indicates, however, those districts must comply with the requirements for student identification and selection in § 200.51 within the schools selected to receive Chapter 1 services.

Comment. One commenter requested that the exemption of LEAs with enrollments of fewer than 1,000 children from the targeting requirement be changed to LEAs with enrollments of fewer than 2,000 children.

Response. No change has been made. Section 200.50(c) accurately reflects the statutory language in section 556(c) of Chapter 1, added by Pub. L. 98–211, which specifically limits the exemption to districts enrolling fewer than 1,000 children.

Comment. One commenter stated that § 200.50(c) is not following the purpose of the legislation because it penalizes urban areas that have greater concentrations of children from low-income families by treating them differently from rural areas.

Response. No change has been made. Section 200.50(c) accurately reflects the statutory provision in section 556(c) of Chapter 1, added by Pub. L. 98–211. Moreover, according to the House and Senate Reports accompanying Pub. L. 98–211, section 556(c) was specifically enacted to benefit small, rural LEAs. *See* H. Rept. 51, 98th Cong., 1st Sess. 4 (1983); S. Rept. 166, 98th Cong., 1st Sess. 8 (1983).

Section 200.51 *Student identification and selection.*

Comment. One commenter suggested that the phrase "to be served" be added after "attendance areas or schools" in § 200.51(a)(1). The commenter noted that most LEAs know what their respective allocations will permit them to do and suggested that conducting a needs assessment in all eligible areas is an unnecessary waste of time.

Response. No change has been made. The requirement in § 200.51(a)(1) to conduct an annual assessment of educational needs which identifies educationally deprived children in all eligible attendance areas is required by section 556(b)(2) of Chapter 1. Thus, the Secretary cannot change the requirement to apply only to those school attendance areas to be served by Chapter 1. It is through the needs assessment that an LEA decides which educationally deprived children will receive Chapter 1 services and determines what those services will be.

Comment. One commenter asked if § 200.51(a)(1) restricted the student selection process to those private school children residing in eligible attendance areas or if all students who attend a private school are potential candidates for participation in the Chapter 1

program if they are determined to be educationally deprived.

Response. No change has been made. As indicated in section 557(a) of Chapter 1, as amended by Pub. L. 98–211, and § 200.70, only educationally deprived children attending private schools who reside in project areas of an LEA may receive Chapter 1 services. Thus, the residence of private school children is also critical in the selection of children to be served by the Chapter 1 program.

Comment. One commenter suggested that § 200.51(a)(1), in particular, and the final regulations, in general, stress residence requirements. The commenter stated that children, by parental choice, may attend a school other than the one serving their residential area. As a result, children could reside in an ineligible attendance area, but attend an eligible school by choice and, therefore, be eligible for selection for the Chapter 1 program.

Response. No change has been made. In general, eligibility for Chapter 1 services depends on the fact that a child is educationally deprived and resides in a school attendance area selected as a project area. Thus, in the situation described by the commenter, the children who reside in ineligible attendance areas would not be eligible for Chapter 1 services even though services are provided in the school they attend.

Comment. One commenter suggested adding a provision to clarify the relationship between § 200.51(a)(2) and section 556(b)(3) of Chapter 1 concerning the size, scope, and quality of projects. Specifically, the commenter suggested that the size, scope, and quality requirement must be met with respect to those children in greatest need of special assistance before an LEA could include educationally deprived children under § 200.51(a)(2) who are not in greatest need.

Response. No change has been made. Section 556(b)(3) of Chapter 1 and § 204.20 require that Chapter 1 projects be of sufficient size, scope, and quality to give reasonable promise of substantial progress toward meeting the special educational needs of *the children being served.* Those sections, however, do not segregate the requirement as the commenter suggested. Consistent with the intent of Chapter 1, the Secretary believes that an LEA should have maximum flexibility in designing its Chapter 1 projects. Thus, although the size, scope, and quality requirement must certainly be met, the Secretary does not believe it is appropriate at the Federal level to specify how an LEA must meet that requirement.

Comment. Several commenters suggested adding a provision to clarify that services provided to children identified in § 200.51(b) (1) and (2) must be in addition to, and not in place of, services to children in greatest need selected under § 200.51(a)(2).

Response. A change has been made. In response to the commenters' suggestion, the Secretary considered the relationship between § 200.51(a)(2) and § 200.51(b) (1) and (2). The Secretary did not make the change suggested by the commenters because the Secretary believes § 200.51(b) (1) and (2) is intended to provide flexibility even when an LEA is serving only educationally deprived children in the greatest need for special assistance. The Secretary has revised § 200.51(b)(1), however, to indicate that the flexibility that paragraph provides applies to LEAs that choose to serve only those educationally deprived children in greatest need for special assistance under § 200.51(a)(2). Section 200.51(b)(1) is superfluous for those LEAs that, in accordance with § 200.51(a)(2), are serving children in greatest need and other educationally deprived children as well. According to the Conference Report accompanying Pub. L. 98–211, the flexibility allowed by section 556(d)(6) of Chapter 1, implemented by § 200.51(b)(1), was not intended to conflict with the language in section 556(b)(2) of Chapter 1, which permits *any* educationally deprived children to be selected for participation in a Chapter 1 program—whether the children were previously in greatest need—as long as those children currently in the greatest need for special assistance receive services. *See* H. Rept. 574, 98th Cong., 1st Sess. 12 (1983) (Conference Report). Thus, if an LEA serves educationally deprived children who are not in greatest need, § 200.51(b)(1) does not restrict services to those children for only one additional year or to only children who were previously in greatest need.

Comment. One commenter requested that the phrase "services of the same nature and scope" in § 200.51(b)(3) be defined to mean non-federally funded services that (1) meet the requirements of size, scope, and quality; (2) are provided under a special program that meets the requirements in Section 131(c) of Title I; and (3) are provided at a level that is at least equal to the level of services that would otherwise be provided with Chapter 1 funds.

Response. No change has been made. Congress did not specify in any way what services would qualify as having the "same nature and scope" as Chapter 1 services. Clearly, if Congress had wanted to restrict those services to ones provided under a program meeting the requirements in section 131(c) of Title I, for example, Congress could have done so. *See, e.g.,* section 558(d) of Chapter 1, as amended by Pub. L. 98–211. Because Congress did not specify or define "services of the same nature and scope," the Secretary believes it is inappropriate at the Federal level for the Chapter 1 regulations to restrict the types of services that could qualify.

Comment. One commenter requested adding a special rule to § 200.51(b) to permit the selection of educationally deprived children for participation in a Chapter 1 project who reside in the project area but who, as a result of their parents' choice of schools, attend a school in a non-Chapter 1 eligible attendance area.

Response. No change has been made. Nothing in the regulations prohibits LEAs from implementing the commenter's suggestion. In general, children are eligible to be served by Chapter 1 if they reside in a school attendance area selected as a project area and if they meet the education criteria established by the LEA for student selection purposes. Eligible children who attend a public school in a nonproject area as a result of their parents' choice of schools may participate in the Chapter 1 project if the design of the project makes this service available. For instance, if the project area is served by an after-school tutorial program, eligible children attending other, nonproject schools could be served. Similarly, if there is a sufficient number of children who meet the eligibility requirements and who attend a public school outside the project area as a result of their parents' choice of schools, the LEA may provide Chapter 1 services to these children at the school they attend. The placement of these services in the ineligible school, however, does not make that school eligible for Chapter 1 services and other children at that school who meet only the educational criteria for student selection are not eligible to receive Chapter 1 services.

Comment. One commenter suggested placing a time limit in § 200.51(b)(1) against serving students beyond one year. The commenter believes that retention of the same students year after year has the effect of denying much needed remedial services to other students who qualify according to the LEA's selection criteria.

Response. A change has been made. According to the House Report accompanying Pub. L. 98–211, the purpose of the statutory amendment

was to permit LEAs to serve educationally deprived children who previously were in greatest need for special assistance "for one additional year" even though those children may no longer be "in greatest need." H. Rept. 51, 98th Cong., 1st Sess. 4 (1983). Consistent with this legislative history, § 200.51(b)(1) has been revised to limit services to such children to one additional year. As § 200.51(b)(1) indicates, however, the provisions in that paragraph apply to LEAs that choose to serve only children in greatest need under § 200.51(a)(2). If an LEA serves other educationally deprived children in addition to those in greatest need, § 200.51(b)(1) does not limit those services to one additional year or to children who were previously in greatest need.

Comment. Several commenters requested clarification of § 200.51(b)(3) as it relates to § 200.51(a)(2). Specifically, the commenters suggested that § 200.51(b)(3) indicate, in keeping with Congress' intent, that when an LEA chooses not to use Chapter 1 funds to serve educationally deprived children in greatest need for special assistance because those children are already receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided by Chapter 1, the remaining children who are served with Chapter 1 must include all children who are in greatest need who are not served by programs from non-Federal sources. *See* H. Rept. 574, 98th Cong., 1st Sess. 12 (1983) (Conference Report).

Response. A change has been made. Section 200.51(b)(3) has been revised to reflect the intent of Congress.

Section 200.54 Schoolwide projects.

Comment. One commenter stated that to require in § 200.54(c)(2) an LEA to provide, per child served by the schoolwide project who is not educationally deprived, an amount of special supplementary State and local funds equal to the amount of Chapter 1 funds that the LEA provides per educationally deprived child served in that school negates the exclusion from the supplement, not supplant provision in § 204.32(b) for States that have an approved compensatory program similar to Chapter 1 in which funds are targeted for students in greatest educational need.

Response. No change has been made. Section 200.54(c)(2) accurately reflects the statutory requirement in section 133(b)(7)(B) of Title I, incorporated into section 556(d)(9) of Chapter 1 by Pub. L. 98–211. Moreover, the Secretary does not believe this section negates the exclusion from the supplement, not supplant requirement in § 204.32(b). Section 204.32(b) permits an agency that receives Chapter 1 funds to exclude, for the purpose of determining compliance with the supplement, not supplant requirement, State and local funds spent in carrying out certain special programs to meet the educational needs of educationally deprived children. Thus, § 204.32(b) relates to State and local funds used for programs for educationally deprived children. Section 200.54(c)(2), on the other hand, relates to the provision of State and local funds in schoolwide projects for children who are not educationally deprived. As a result, the provision in § 200.54(c)(2) does not negate the exclusion in § 204.32(b).

Comment. One commenter suggested that the reference to "all non-Federal funds" in § 200.54(c)(4) be clarified because the language may conflict with the requirements for "special supplementary State and local funds" described in § 200.54(c)(2). The commenter observed that, if the fiscal requirements of § 200.54(c), (1), (2), and (3) are satisfied, the requirement contained in paragraph (c)(4) appears to be redundant.

Response. No change has been made. The Secretary does not believe that § 200.54(c)(4) either conflicts with or is redundant to the other provisions in § 200.54(c). Section 200.54(c)(1) relates to the equitable distribution of Chapter 1 funds for educationally deprived children in schoolwide projects. Section 200.54(c)(2) deals with special supplementary State and local funds above and beyond the State and local funds the school would receive if it were not operating a schoolwide project. Section 200.54(c)(3) requires each school operating a schoolwide project to maintain effort. Only § 200.54(c)(4), however, ensures that a school operating a schoolwide project receives for any given year the amount of non-Federal funds the school would otherwise have received in that year if it were not operating a schoolwide project.

Comment. One commenter suggested adding the word "other" before the phrase "schools, if any, that serve project areas" in § 200.54(c)(1).

Response. A change has been made. The insertion of the word "other" adds clarity to the provision.

Comment. One commenter suggested that § 200.54(d)(2) be rewritten more precisely to indicate that schools operating schoolwide projects are exempt from compliance with that portion of § 200.51 relating to the selection of students (§ 200.51(a)(2)) but are not exempt from those requirements relating to the identification of students (§ 200.51(a)(1)) or the determination of students' needs (§ 200.51(a)(3)).

Response. No change has been made. The Secretary believes that § 200.54(d)(2) accurately reflects section 133(c)(2)(B) of Title I, incorporated into section 556(d)(9) of Chapter 1 by Pub. L. 98–211. As the legislative history accompanying section 133 of Title I indicates, "[o]nce the percentage of poverty children in a Title I school reaches a very high level, it makes little sense and is cumbersome to enforce requirements that Title I serve only Title I children. . . ." Rather, it is a "sounder educational practice to plan a curriculum focusing on the entire educational program and thus avoid the considerable administrative demands resulting from separate recordkeeping and scheduling of special programs." H. Rept. 1137, 95th Cong., 2nd Sess. 35–36 (1978). As in Title I, Chapter 1 now permits schoolwide projects in which all children in attendance are considered program participants, including those children who are not educationally deprived. Thus, the provisions concerning identification and selection of children in § 200.51 are not strictly applicable. However, as required in § 200.54(b)(1), an LEA operating a schoolwide project must prepare a plan that includes a comprehensive assessment of the educational needs of all students in the school, particularly the special needs of educationally deprived children. Thus, the concerns of the commenter are dealt with in § 200.54.

Comment. One commenter suggested that § 200.54(d)(3) be either eliminated because it serves no purpose or be revised if there is a purpose for the provision.

Response. No change has been made. Section 200.54(d)(3) accurately reflects the statutory requirement in section 133(c)(2)(C) of Title I that *services* provided with Chapter 1 funds in a schoolwide project do not have to be supplementary to the services regularly provided in the school. This provision enables an LEA to design a comprehensive Chapter 1 program to benefit an entire school without regard to the services the LEA would have provided for that school in the absence of Chapter 1. The parenthetical statement at the conclusion of § 200.54(d)(3), however, reminds the LEA that each school operating a schoolwide project must receive the same amount of non-Federal funds that it would have received had it not been selected for a schoolwide project.

Section 200.60(d). Comparability.

Comment. One commenter questioned the meaning of § 200.60(d)(4)(ix) and suggested that the provision be clarified in the Chapter 1 nonregulatory guidance.

Response. No change has been made. Section 200.60(d)(4)(ix) accurately reflects the statutory requirement in section 131(d)(9) of Title I, incorporated into section 558(d) Chapter 1 by Pub. L. 98–211. The Department will consider providing further clarification in the Chapter 1 nonregulatory guidance.

Comment. One commenter stated that § 200.60 lacks specificity and raised several questions about comparability. Are LEAs required to complete annual calculations to determine compliance with the comparability requirement? When should the calculations take place? Are the LEAs, upon completing the calculations, required to make adjustments to staff or instructional supplies to overcome any discrepancies in comparability between project and nonproject schools?

Response. No change has been made. The comparability requirements in § 200.60 accurately reflect the statutory requirements in section 558(c) and (d) of Chapter 1. Consistent with the intent of Chapter 1 to free schools of "unnecessary Federal supervision, direction, and control," the Secretary has not added to or defined the comparability requirements in the Chapter 1 regulations. Rather, SEAs have the flexibility to determine how comparability will be tested, as long as that determination is consistent with the statutory requirement in section 558.

34 CFR Part 204

General Comments and Responses

Comment. Several commenters stated that the term "agency" used in several sections of Part 204 is confusing since it may refer to an SEA, another State agency, or an LEA. Also, it is unclear whether the agency that receives Chapter 1 funds is the SEA or the LEA.

Response. No change has been made. Generally, when the term "agency" is used, it applies to any agency that receives Chapter 1 funds. When the regulations refer to particular type of agency, the term SEA, LEA, or State agency is used. If an agency receives Chapter 1 funds, it is a recipient agency.

Section 204.13 State rulemaking and other SEA responsibilities.

Comment. One commenter recommended revising this section to clarify the ambiguity of the language used. The commenter felt that the section poses potentially serious compliance issues between LEAs and SEAs. Another commenter stated that this section would restrict the ability of SEAs to administer the program because it limits State rulemaking to State audits and financial responsibilities.

Response. No change has been made. The provisions in § 204.13(b) accurately reflect the statutory provisions in section 591(d) of the ECIA that were added by Pub. L. 98–211. Section 591(d)(1) and § 204.13(b)(1)(i) only specifically authorize a State to issue rules and regulations related to State audits and financial responsibilities. However, as indicated in section 591(d)(2) and § 204.13(b)(1)(ii), a State is not preempted or prohibited by Chapter 1 from issuing other rules when those rules are issued pursuant to State law and are not in conflict with the provisions of Chapter 1 or other applicable Federal statutes and regulations. According to the House and Senate reports accompanying the technical amendments, Congress intended Chapter 1 to be neutral on the issue of State rulemaking. *See* H. Rept. 51, 98th Cong., 1st Sess. 8 (1983); S. Rept. 166, 98th Cong., 1st Sess. 13 (1983). Thus, if State law permits, an SEA may issue regulations that relate to topics other than the State's audit and financial responsibilities. As a result, the SEA's responsibility for ensuring that agencies that receive Chapter 1 funds in the State comply with applicable Chapter 1 requirements should not be impeded by § 204.13(b).

Comment. One commenter noted that § 204.13(b)(2) requires States to identify State regulations which relate to the administration and operation of Chapter 1 programs as State-imposed requirements. At the same time, § 204.13(b)(1)(i) only specifically authorizes States to issue regulations related to State audits and financial responsibilities. The commenter felt that the regulations were unclear as to what regulations are related only to State audit and financial responsibilities and what regulations are administrative.

Response. No change has been made. The language in § 204.13(b)(2) accurately reflects the language in section 591(d) of the ECIA. According to Congress, section 591(d) requires States to identify *any* State rules, regulations, or policies relating to Chapter 1 as State-imposed requirements. *See* H. Rept. 51, 98th Cong., 1st Sess. 8 (1983); S. Rept. 116, 98th Cong., 1st Sess. 13 (1983). Thus, the phrase "rules, regulations, or policies relating to the administration and operation of programs funded under Chapter 1" in § 204.13(b)(2) includes all rules that a State promulgates to implement Chapter 1—even those relating to a State's audit and financial responsibilities.

Section 204.21 Annual meeting of parents.

Comment. A number of commenters recommended general changes in § 204.21. Several commenters questioned the propriety of requiring an annual public meeting and recommended that the section be deleted. One of those commenters felt the number of parents who attend such meetings may not justify the man-hours and postage costs of notifying parents of the meeting. Another commenter felt that the requirement could lead to funds being spent on mass meetings instead of services for Chapter 1 children. Other commenters felt the effort devoted to public meetings would not result in a significant impact on student achievement.

On the other hand, several commenters recommended strengthening the requirement for parental involvement in § 204.21. Believing that systematic consultation with parent is essential to ensure that program decisions are fully responsive to local needs, these commenters recommended that § 204.21 state the nature and purposes of the annual parent meeting and require LEAs to develop policies to ensure adequate parent consultation in all aspects of the design and implementation of Chapter 1 projects. One commenter recommended requiring LEAs to organize parent advisory councils.

Response. A change has been made. Section 204.21 has not been deleted because section 558(e) of Chapter 1, added by Pub. L. 98–211, requires an agency that receives Chapter 1 funds to convene annually at least one meeting to which all parents of eligible children must be invited. Congress added this provision to ensure parents of eligible children at least one opportunity annually to meet with each other and with appropriate agency officials for a discussion of the programs and activities affecting their children. In addition, Congress intended that the meeting inform parents of their right to consult in the design and implementation of Chapter 1 projects, solicit parents' input, and provide parents an opportunity to establish mechanism for maintaining ongoing communication among parents, teachers, and agency officials. *See* H. Rept. 51, 98th Cong., 1st Sess. 5 (1983); S. Rept. 166, 98th Cong., 1st Sess. 10–11 (1983). Section 204.21(a) has been revised to indicate these multiple purposes. Agencies that receive Chapter

1 funds have discretion over how, when, and where these meetings take place. The annual meeting should be the first step in an ongoing process of consulting with parents. It is not in itself intended to satisfy the requirement in section 556(b)(3) of Chapter 1 that projects be designed and implemented in consultation with parents, or otherwise to supersede specific requirements for parental participation contained in 34 CFR Parts 200–203.

In addition to revising § 204.21, the Secretary has revised § 200.53, concerning consultation with parents and teachers, that governs the Chapter 1 LEA program for educationally deprived children. As many commenters pointed out, research has demonstrated that parental involvement improves the effectiveness of Chapter 1 programs and makes an essential contribution to the success of those programs. Because the Secretary believes that parental involvement is crucial to children's success in school, he has revised § 200.53(b) to require an LEA to develop written policies to ensure that parents of the children being served have an adequate opportunity to participate in the design and implementation of the LEA's Chapter 1 project. Although this provision has been added to implement the parent consultation required by section 556(b)(3) of Chapter 1, it gives the LEA complete discretion concerning what its policies require, so long as the policies ensure systematic consultation with parents. To assist the LEA in developing its policies, paragraph (b)(2) lists possible activities for the LEA's consideration.

Comment. One commenter questioned whether "a public meeting" may be interpreted as "public meetings" in situations where it is necessary to schedule meetings in several locations in order to encourage greater participation of parents.

Response. A change has been made. As the House Report accompanying Pub. L. 98–211 explains, "[s]chool districts may elect to hold one or more such meetings and may do so at any site most convenient to the district." H. Rept. 51, 98th Cong., 1st Sess. 5 (1983). Section 204.21(a)(2) has been added to reflect this flexibility.

Comment. One commenter questioned whether the phrase "if parents desire" may be interpreted as including any parent. The commenter recommended that the term be clarified by specifying "parents of eligible or participating children."

Response. A change has been made. To make clear that the "parents" referred to in paragraph (d) of § 204.21 are the same parents referred to in paragraph (a), the phrase "of eligible children" has been added to § 204.21(b).

Comment. One commenter, interpreting the annual meeting of parents requirement as being specifically designed for districts outside of major urban areas, recommended that large urban districts be excluded from this requirements.

Response. No change has been made. Nothing in section 556(e) of Chapter 1 or the legislative history suggests that urban districts are to be excluded from the requirement to hold an annual meeting of parents.

Comment. One commenter recommended revising the regulatory language in § 204.21(b) to read: "If parents desire further activities, the agency shall, upon request, provide reasonable support and monies for these activities."

Response. No change has been made. Section 204.21(b) accurately reflects the language in section 556(e) of Chapter 1, which additional support discretionary, rather than mandatory as the commenter suggested. Both the House and Senate Reports make clear that it is the agency that receives Chapter 1 funds that determines what technical support is to be provided and the form and amount of resources that are to be made available. *See* H. Rept. 51, 98th Cong., 1st Sess. 5 (1983); S. Rept. 166, 98th Cong., 1st Sess. 10–11 (1983).

Comment. A number of commenters recommended adding the language of the House and Senate Reports to § 204.21 to clarify the requirements for parental involvement under Chapter 1.

Response. A change has been made. Section 204.21(b) has been revised to indicate that the support an agency receiving Chapter 1 funds may provide to parents includes, but is not limited to, reasonable access to meeting space and materials, provision of information concerning the Chapter 1 law, regulations, and instructional programs, training programs for parents, and other resources, as appropriate. *See* H. Rept. 51, 98th Cong., 1st Sess. 5 (1983); S. Rept. 166, 98th Cong., 1st Sess. 10–11 (1983).

Comment. One commenter questioned whether "eligible children" should be interpreted as "educationally deprived children."

Response. No change has been made. Eligibility for Chapter 1 services includes educationally deprived children residing in low-income areas, migratory children, children in State institutions for neglected or delinquent children, and handicapped children in State institutions.

Comment. One commenter suggested substituting the term "local educational agency" in place of the phrase "an agency that receives Chapter 1 funds" in § 204.21(a). Another commenter recommended incorporating § 204.21 into § 200.53 regarding consultation with parents and teachers by LEAs. The commenter felt that by removing § 204.21 from Part 204, the State agency programs would be exempt from the requirement.

Response. No change has been made. Section 19 of Pub. L. 98–211 amended sections 142, 147, and 152 of Title I to clarify that, with two exceptions, all of the requirements in sections 556 and 558 of Chapter 1 are applicable to the State agency programs. Section 556(e), which contains the annual meeting of parents requirement, is not one of the excluded sections.

Comment. One commenter questioned why § 204.21 of the proposed regulations did not provide for parent advisory councils for migrant programs.

Response. No change has been made. The requirement for parent advisory councils for migrant programs is contained in § 201.35 of the Chapter 1 regulations for migrant education programs. Parent advisory councils are not required for all Chapter 1 programs. Therefore, the requirement for parent councils was placed in the migrant program regulations and not in § 204.21, which applies to all Chapter 1 programs.

Comment. One commenter questioned whether § 204.21 required a statewide meeting for migrant education programs or whether the requirement could be met by means of meetings at the local level.

Response. No change has been made. The statute requires the operating agency to convene at least one meeting annually to which all parents of eligible children are invited. Where the operating agency is an SEA or other State agency, one or more meetings may be held in conjunction with local level meetings to encourage greater participation of parents. However, in most cases SEAs operate their States' migrant education programs through LEAs or other local operating agencies, and those agencies must convene the annual meeting. Section 201.35 of the regulations for migrant education programs requires the SEA to have a statewide advisory council. In addition, LEAs acting as operating agencies for migrant education programs in the State must establish parent advisory councils.

Comment. Several commenters, responding to how State agencies, especially agencies serving neglected or delinquent children, can meet this requirement, indicated that the annual meeting would be difficult to stage and the response would likely be limited. The commenters believed, therefore,

that the benefits of such a meeting would be at best negligible. In addition, the commenters noted that often single institutions house students from an entire State, making a meeting for parents of eligible students totally unrealistic because of travel time and expense. One commenter noted that children adjudicated to the State Department of Corrections become wards of the State and that the State, not their parents, has full responsibility for their welfare and best interest. Moreover, in the case of many institutionalized children, there is not a caring family to participate in an annual meeting.

Response. No change has been made. Section 556(e) of Chapter 1 applies to State agencies directly responsible for providing free public education for children in institutions for neglected or delinquent children or in adult correctional institutions. The Secretary recognizes that for many State-operated programs, especially those serving neglected children, meetings with biological parents may not be possible. In those instances, while not excluding biological parents retaining parental rights, agencies should notify persons serving as parent surrogates for the children involved of the meeting. Where there is no identifiable adult in a supervisory or custodial relationship with the child, the agencies may send a notice of the meeting to the last known address of the last identified adult who had custody of or supervised and cared for the child.

Comment. A large number of commenters recommended that Chapter 1 programs of assistance of State agencies for projects designed to meet the special educational needs of children who are or who have been served in institutions for handicapped children be exempt from § 204.21. The commenters felt that § 204.21 was inappropriate for their programs for at least three major reasons: (1) Programs for handicapped students are covered under the due process provisions of Pub. L. 94–142, which require individual parent participation; (2) various sources of Federal and State funds, including funds under the Chapter 1 handicapped program, already are being used to support parent education and counseling; and (3) § 204.21 could be interpreted to mean that no project could be approved without public hearings.

Response. No change has been made. Section 556(e) of Chapter 1 applies to all State agencies directly responsible for providing free public education for handicapped children. The Secretary cannot waive this statutory requirement. The extent to which the requirement may need to be implemented differently for the Chapter 1 handicapped program will be discussed in the regulations specifically applicable to that program.

Section 204.22 Allowable costs.

Comment. Several commenters expressed concern that § 204.22(a) would prohibit some children in State institutions for handicapped children from participating in Chapter 1 programs on a space-available basis because they may not have been counted for allocation purposes. Several commenters suggested adding a new paragraph to make clear that children eligible for services under the Chapter 1 handicapped program, but not counted for allocations, may be served if all children counted are receiving services.

Response. No change has been made. Section 147 of Title I, incorporated into Chapter 1 by section 554(a)(2)(B), states that "each such child in average daily attendance counted under subsection (b) of section 146 will be provided with such a program, commensurate with his special needs. . . ." The regulation does not intend to preclude services to children who, had they been enrolled on October 1, would have been eligible to be included in the count. Therefore, where all children counted are receiving a program commensurate with their needs, other children in eligible State institutions would be eligible to participate in the program on a space available basis.

Comment. One commenter objected to the requirement in § 204.22(c) that administrative direction and control of Chapter 1 funds, and title to property acquired with those funds, be in a public agency. The commenter is concerned that the restriction will prohibit private agencies and schools serving handicapped children from participating in Chapter 1 projects. Another commenter suggested that administrative direction and control of Chapter 1 funds for handicapped children must be the responsibility of the SEA.

Response. No change has been made. Section 146(a) of Title I, incorporated into Chapter 1 by section 554(a)(2)(B), limits program eligibility to a "State agency which is directly responsible for providing free public education for handicapped children. . . ." States may, by contract or other arrangement, provide for private agencies to provide services to handicapped children, but must comply with the provisions of § 204.22(c).

Comment. One commenter recommended that § 204.22(c) specify what agency may hold title to property purchased with Chapter 1 funds.

Response. No change has been made. Title to property should be with the agency responsible for operating the Chapter 1 program: For 34 CFR Part 200, the LEA; for Part 201, the SEA; and for Parts 203 and 302, whichever public agency is actually operating the Chapter 1 program.

Comment. One commenter noted that the duties contained in § 204.22(d) do not apply to nonschool settings.

Response. No change has been made. Section 204.22(d) permits Chapter 1 teachers, in general educational settings, to perform certain non-Chapter 1 duties without violating statutory provisions related to the use of Chapter 1 funds only to meet the special educational needs of children eligible to be served.

Comment. One commenter urged that § 204.22(d)(3) be deleted, since the commenter found no statutory basis to prohibit Chapter 1 teachers from homeroom duty.

Response. No change has been made. Section 556(d)(10) of Chapter 1 states that Chapter 1 personnel "may be assigned limited, rotating, supervisory duties. . . ." This language is similar to that of section 134 of Title I, which referred to "certain limited, rotating, supervisory duties. . . ." Homeroom duty, while supervisory, is normally not a rotating assignment. Hence, under both Title I and Chapter 1, the Department has interpreted homeroom duty to be outside the realm of allowable duties for Chapter 1 personnel.

Comment. One commenter recommended deleting § 204.22(d)(5) which restricts the amount of time Chapter 1-paid personnel may spend performing non-Chapter 1 duties.

Response. No change has been made. These restrictions are included in section 556(d)(10) of Chapter 1.

Comment. One commenter recommended that § 204.22(d) specify that Chapter 1 personnel cannot perform any non-Chapter 1 duties during the time Chapter 1 instruction is taking place.

Response. No change has been made. It would be difficult to implement the commenter's recommendation because, in any school, certain Chapter 1 activities may be going on at all times, but not all Chapter 1 personnel may be engaged in carrying out those activities. The flexibility afforded by § 204.22(d), however, is not intended to permit non-Chapter 1 duties to interfere with the ability of Chapter 1 personnel to carry out the Chapter 1 program.

Comment. One commenter suggested that § 204.22(d) limit the amount of time Chapter 1 personnel may engage in non-Chapter 1 activities, even when the salary of the person is prorated among the various activities.

Response. No change has been made. The Secretary cannot prohibit personnel paid, in part, with Chapter 1 funds from also being assigned non-Chapter 1 activities. The amount of time spent on Chapter 1 activities by these personnel, however, must be adequately documented.

Comment. One commenter suggested that § 204.22 be expanded to include information on topics such as excessive or unallowable costs, travel and inservice costs, and similar items.

Response. No change has been made. For information on these topics, agencies are referred to 34 CFR Part 74, which, while not required for Chapter 1 programs, provides extensive guidance on allowable costs.

Section 204.23 Evaluation.

Comment. Several commenters expressed concern over the burden imposed by the data collection and evaluation requirements included in § 204.23. The commenters stated that the purpose for the data collection was unclear, and suggested that the Department show in two years how the data benefited Federal education policy.

Response. No change has been made. The evaluation and data collection requirements were added as section 555(e) of Chapter 1 by Pub. L. 98–211. According to the Senate Report accompanying Pub. L. 98–211, the purpose of the requirement is "to underscore the value of evaluation [by] requiring that State eductional agencies conduct an evaluation at least every two years and stipulating the kind of information which must be collected by the SEA for Chapter 1 activities." S. Rept. 166, 98th Cong., 1st Sess. 8 (1983). The provisions in § 204.23 accurately reflect the statutory requirements in section 555(e) of Chapter 1.

Comment. One commenter requested that LEAs be provided forms to facilitate the data collection and evaluation requirements contained in § 204.23.

Response. No change has been made. The Department intends to issue forms for SEAs to use in reporting State totals. Collection of information from agencies that receive Chapter 1 funds, however, is an SEA responsibility, and SEAs may devise their own methods for fulfilling that requirement.

Comment. Several commenters recommended that the program for handicapped children in State institutions be exempt from the data collection and evaluation requirements contained in § 204.23.

Response. No change has been made. The requirements for evaluation and data collection are included in section 555(e) of Chapter 1, which applies to all Chapter 1 programs.

Comment. One commenter noted that Chapter 1 programs are currently evaluated annually, rather than every two years.

Response. No change has been made. Section 204.23(a)(1)(i) implements section 555(e), which requires that Chapter 1 programs be evaluated "at least every two years." Annual evaluations fulfill this requirement.

Comment. One commenter noted that the two-year interval for SEA evaluations in § 204.23(a)(1)(i) and the three-year interval for evaluations by agencies that receive Chapter 1 funds in § 204.23(b)(1) are confusing.

Response. No change has been made. The two-year interval for SEA evaluations reflects the statutory requirement in section 555(e)(1) of Chapter 1. The three-year interval for evaluations by agencies that receive Chapter 1 funds coincides with the maximum application period contained in section 556(a) of Chapter 1. An SEA may require more frequent evaluations by agencies that receive Chapter 1 funds if the SEA needs those evaluations to meet the SEA's evaluation requirement.

Comment. One commenter stated that § 204.23(a)(1)(ii) should clarify on which Chapter 1 programs SEAs are required to collect data.

Response. No change has been made. Section 204.23(a)(1)(ii) accurately reflects section 555(e)(2) of Chapter 1, which requires SEAs to collect data on all Chapter 1 programs in the State.

Comment. One commenter noted that section 555(e)(2) of Chapter 1 does not include that word "annually" when referring to data collection. The commenter suggested that the word be deleted from § 204.23(a)(1)(ii) and that data collection, like evaluation, only be required every two years.

Response. No change has been made. Section 555(e)(2) of Chapter 1 requires SEAs to collect data on "children served by the programs assisted under [Chapter 1] . . . ." To allow biennial data collection would eliminate counts of children served in the alternate years. Moreover, Congress specifically provided for the two-year SEA evaluation requirement in section 555(e)(1) of Chapter 1. Presumably, if Congress had intended data collection to be conducted once every two years, Congress would have included that time frame in section 555(e)(2) also.

Comment. Several commenters objected to the inclusion of race and gender information in the data collection requirement in § 204.23(a)(1)(ii)(A). The commenters feared misuse of that information and suggested that § 204.23 contain a requirement to protect the confidentiality of the data. Another commenter noted that inclusion of information on race and gender may duplicate information collected by the Office for Civil Rights.

Response. No change has been made. Section 204.23(a)(1)(ii)(A) accurately reflects the requirement in section 555(e)(2) of Chapter 1, which requires SEAs to collect data on the "race, age, and gender of children served by the programs assisted under [Chapter 1] . . . ." These data, however, may be an aggregate number and need not identify each child served. Data collected under this provision are governed by the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g), which restricts their use. The information collected by the Office for Civil Rights includes all children in schools. There is no way to determine from those figures which children, if any, are being served by Chapter 1.

Comment. One commenter objected to the collection of information on the age of children participating in Chapter 1 programs under § 204.23(a)(1)(ii)(A). The commenter noted that cut-off dates for initial school enrollment vary throughout the country; hence schools would have to report at least two different age groups for each grade.

Response. No change has been made. The requirement for collecting data on the age of children participating in Chapter 1 programs is included in section 555(e)(2) of Chapter 1.

Comment. Several commenters objected to the requirement in § 204.23(a)(1)(ii)(B) that data be collected based on the grade level of participating students. The commenters noted that in nongraded situations, for preschool children, and for certain children in State institutions for handicapped children or for neglected or delinquent children, grade designations are inappropriate.

Response. No change has been made. Section 555(e)(2) of Chapter 1 requires that SEAs collect data on "the number of children served by grade-level . . . ." Where no grade level exists, it is appropriate to report data in another form that can yield similar information, such as "preschool children."

Comment. One commenter recommended that the data collection requirement in § 204.23(a)(1)(ii) provide

separate information on private school children served by Chapter 1.

Response. No change has been made. The data collection instrument used by the Department to collect aggregate information requires SEAs to provide separate totals for private school children being served. SEAs may design their own instruments to collect, at a minimum, the information required in § 204.23(a)(1)(ii).

Comment. Several commenters objected to the provision in § 204.23(a)(2) that would allow SEAs to meet the requirement for biennial evaluations by aggregating data collected under § 204.22(b) by agencies that receive Chapter 1 funds. The commenters stated that aggregation of data does not constitute conducting an evaluation and, therefore, does not meet the statutory requirement.

Response. No change has been made. The Secretary does not interpret the statutory requirement that SEAs "conduct an evaluation" to mean that SEAs must gather all original data. Rather, if they wish, SEAs may design systems that would allow them to aggregate local information, analyze it, and from this data, provide a statewide evaluation of the Chapter 1 program. This approach would not only meet the statutory requirement but would provide highly useful data on a statewide basis of the success of the program, would allow for comparisons between State averages and local achievements, would provide information for comparisons among States, and may allow further aggregation of information from States choosing this option to give national results.

Comment. Several commenters objected to § 204.23(b), stating that the use of achievement data and sustained gains is inappropriate for handicapped children, who may be severely disabled, and for children in institutions for neglected or delinquent youth. In addition, the commenters noted that appropriate evaluation measures, such as performance skills, are omitted.

Response. No change has been made. Section 556(b)(4) of Chapter 1, specifically made applicable to Chapter 1 programs for handicapped children by an amendment to section 147 of Title I, requires that evaluations "include objective measurements of educational achievement in basic skills and a determination of whether improved performance is sustained over a period of more than one year. . . ." Other evaluation evidence, however, such as that suggested by the commenters, should be collected when that evidence provides more realistic information regarding the success of the program. When appropriate, agencies may consider a child's individualized education program (IEP) to be the set of basic skills appropriate for that child, and may evaluate the program according to progress in basic skills set by the IEP.

Comment. One commenter questioned the requirement for sustained gains in § 204.23(b)(1)(ii), stating that paperwork would be increased.

Response. No change has been made. The requirement for sustained gains in § 204.23(b)(1)(ii) is contained in section 556(b)(4) of Chapter 1.

Comment. One commenter noted that gathering data on sustained gains in the migrant education program is impractical due to the mobility of the population and that data would be difficult to validate.

Response. No change has been made. The requirement for gathering data on sustained gains in § 204.23(b)(1)(ii) is contained in section 556(b)(4) of Chapter 1. Section 556(b)(4) was specifically made applicable to the migrant education program by section 19 of Pub. L. 98–211, which amended section 142(a)(3) of Title I accordingly. Maximum interstate and intrastate coordination of migrant education programs and projects, coupled with full use of the migrant student record transfer system, will help facilitate this data collection responsibility.

Comment. One commenter expressed concern that funds used for evaluation not be wasted. The commenter noted that evaluation results should be used, rather than just gathered.

Response. No change has been made. Section 556(b)(4) of Chapter 1 specifically requires that evaluation results be used "in the improvement of the programs and projects assisted under [Chapter 1] . . . ." This requirement is reiterated in § 204.23(b)(2).

Section 204.23 Supplement, not supplant.

Comment. One commenter, while expressing agreement with the provisions of § 204.32 (a) and (b), was concerned about services to children in institutions for handicapped children when no State-funded programs are available. The commenter interpreted § 204.32(b) as allowing Chapter 1 to serve these children.

Response. No change has been made. Section 204.32(b) deals with the exclusion of State and local funds spent in carrying out certain special programs from the general supplement, not supplant requirement. Section 204.32(b) does not override 34 CFR 302.50(c) of the Chapter 1 handicapped program requirements.

Comment. Several commenters recommended that programs for handicapped children in State institutions be exempt from § 204.32.

Response. No change has been made. The Secretary has no authority to exempt Chapter 1 programs for handicapped children in State institutions from the supplement, not supplant requirement in § 204.32. Section 8 of Pub. L. 98–211 specifically amended the supplement, not supplant requirement in Section 558 of Chapter 1 to make clear that it applies to programs for handicapped children in State institutions. At the same time, section 19(a) of Pub. L. 98–211 amended section 147 of Title I to make clear that section 558 (other than the comparability requirement) applies to the Chapter 1 programs for handicapped children. The extent to which the requirement may need to be implemented specifically for the Chapter 1 handicapped program will be discussed in the regulations for that program.

Comment. One commenter recommended that § 204.32 be modified to allow funds for programs for handicapped children in State institutions to supplement those necessary to carry out a handicapped child's IEP.

Response. No change has been made. Section 204.32 currently allows Chapter 1 activities that supplement a handicapped child's IEP.

Comment. One commenter suggested that § 204.32 clarify the circumstances regarding the supplement, not supplant provision when related to programs for handicapped children in State institutions. The commenter stressed the relationship between services to be provided under Chapter 1 and those included in a child's IEP.

Response. No change has been made. Part 204 regulations contain only those provisions which apply to all Chapter 1 programs. Standards which apply only to individual Chapter 1 programs will appear in the proper program regulations. The extent to which the requirement may need to be implemented specifically for Chapter 1 handicapped programs will be discussed in the regulations for that program.

Comment. One commenter stated that § 204.32(b) needs clarification. The commenter questioned whether all five of the conditions in § 204.32(b)(1)–(5) must be met in order for a program to be excluded from the supplement, not supplant requirement.

Response. No change has been made. Section 204.32(b) accurately reflects the

language in section 556(d) of Chapter 1. Section 204.32(b) states that, in order to exclude State and local funds spent in carrying out special programs, those programs must "meet the following requirements." Thus, the requirements that are listed in § 204.32(b)(1)–(5) must all be met.

Section 204.43 *Eligibility for review.*

Comment. One commenter stated that this section is unclear, and suggested that it be revised to state that if a recipient brings a lawsuit to challenge a notice prior to exhausting administrative remedies, the Secretary could move for dismissal of the suit on that basis.

Response. No change has been made. The Secretary believes that the language in § 204.43(b) is essentially the same as that the commenter suggested. Moreover, the language in § 204.43(b) parallels the language in the comparable provision in 34 CFR Part 78 governing other programs before the Education Appeal Board.

Comment. One commenter noted that the functions, procedures, and duties of the panel and board referred to in this section are unspecified.

Response. No change has been made. This information is included in Subpart E of 34 CFR Part 78 (Education Appeal Board), made applicable to Chapter 1 due process proceedings by § 204.50(a).

Section 204.50 *Practice and procedure.*

Comment. One commenter questioned why the provision in 34 CFR Part 70, that only requires a lead time of ten days from notice before funds are cut off, applies to Chapter 1 when the Chapter 1 statute provides for sixty days.

Response. No change has been made. Section 204.50(a) only makes the regulations governing practice and procedure before the Education Appeal Board in Subpart E of 34 CFR Part 78 applicable to Chapter 1 due process proceedings. None of the provisions in Subpart E deals with the length of time from notice until funds are cut off. Rather, the provision to which the commenter apparently was referring is 34 CFR 78.25(b)(2) concerning written notice of an intent to suspend funds. This provision, which implements section 453(c) of the General Education Provisions Act (GEPA), is not applicable to Chapter 1 both because it is not contained in Subpart E and because section 453 of GEPA has been superseded by section 592 of the Education Consolidation and Improvement Act (ECIA). *See* Section 596(b)(6) of the ECIA as amended by the technical amendments. Accordingly, under Chapter 1, the Secretary would not withhold funds until sixty days after the date the Secretary provided notice of intent to do so.

Comment. Two commenters objected to the provision in § 204.50(b) that places the burden of proof on the appellant. One commenter supported the section as written.

Response. No change has been made. Section 204.50(b) accurately reflects section 452(b) of GEPA which states that "the burden shall be upon the State or local educational agency to demonstrate the allowability of expenditures disallowed in the final audit determination." As section 596 of the ECIA indicates, section 452 of GEPA applies to Chapter 1 programs.

Comment. One commenter questioned why § 204.50(b) omits the condition in section 452(b) of GEPA that the appellant has the burden of proof "[u]nless the Board determines that a final audit determination lacks sufficient detail. . . ."

Response. No change has been made. The condition in section 452(b) to which the commenter refers is the subject of § 204.48 of the Chapter 1 regulations concerning review of the written notice. As a result, the Secretary does not believe it is necessary to include the condition in § 204.50(b).

Comment. One commenter questioned why § 204.50(b) requires the appellant to present its case first when this requirement is not included in section 452(b) of GEPA.

Response. No change has been made. Section 204.50(b) requires the appellant to present its case first because the appellant has the burden of proof under section 452(b) of GEPA.

Section 204.53 *The Secretary's decision.*

Comment. Two commenters asked whether the Secretary's decision is final or whether an appeal to the court of appeals is allowed.

Response. A change has been made. As indicated in § 204.53(c)(1), the Secretary's decision is the final decision of the Department. In accordance with section 455 of GEPA, appellants may appeal the Department's final decision to the appropriate court of appeals.

Part III

Department of Commerce

International Trade Administration

Export Trade Certificate of Review; Notice

DEPARTMENT OF COMMERCE

International Trade Administration

Export Trade Certificate of Review

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of issuance of an export trade certificate of review.

SUMMARY: The Department of Commerce has issued an export trade certificate of review to American Pecan Company (APC). This notice summarizes the conduct for which certification has been granted.

FOR FURTHER INFORMATION CONTACT: James V. Lacy, Director, Office of Export Trading Company Affairs, International Trade Administration, 202-377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 ("the Act") (Pub. L. No. 97-290) authorizes the Secretary of Commerce to issue export trade certificates of review. The regulations implementing Title III are found at 15 CFR Part 325 (50 FR 1804, January 11, 1985).

The Office of Export Trading Company Affairs is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Department of Commerce to publish a summary of a certificate in the Federal Register. Under section 305(a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determination may, within 30 days of the date of this notice, bring an action in any appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

Description of Certified Conduct

Export Trade

Products

Pecans and pecan products, including fancy mammoth pecans, junior mammoth halves, other fancy halves, fancy pieces, fancy midget pieces, fancy granules, fancy meal, and non-fancy pecan products.

Export Trade Facilitation Services (as They Relate to the Export of Products)

Consulting; internatonal market research, advertising; marketing; insurance; product research; legal assistance; transportation, including trade documentation and freight forwarding; communication and processing of foreign orders; warehousing; foreign exchange; financing; and taking title to goods.

Export Markets

The Export Markets include all parts of the world except (a) the United States (the fifty states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands) and (b) that part of the continent of North America not included in (a) above.

Members

Nut Tree Pecan Company, Albany, GA; Stahmann Farms, Inc., Las Cruces, NM; Farmers Investment Company, doing business as Santa Cruz Valley Pecan Company, Sahuarita, AZ; and Leonard Nut Company, Fort Worth, TX.

Export Trade Activities and Methods of Operation

APC may:

1. Enter into agreements with its Member suppliers to act as an Export Intermediary, which may include any of the followng provisions:

a. APC agrees to purchase Products from its Member suppliers, and its member suppliers agree to sell Products to APC, at prices set in the supply agreements between APC and its Member suppliers. All Products purchased by APC from its Member suppliers will be for resale by APC in the Export Markets; APC will market and sell the Products, either directly or through Export Intermediaries other than APC, to such purchasers, at such prices, and on such terms as APC shall determine;

b. For each year of the supply agreement, APC may purchase Products from its Member suppliers on a pro rata basis, up to a fixed aggregate quantity per year. Once that quantity has been purchased, APC may offer its Member suppliers the right to sell additional Products to APC on a pro rata basis. If none of the Member suppliers elects to sell such additional Products to APC, APC may purchase Products for resale in the Export Markets from non-Member suppliers, provided that APC deals separately and individually with each non-Member supplier. APC may not enter into supply agreements that obligate non-Member suppliers to sell Products to APC or that obligate APC to buy Products from non-Member suppliers, or otherwise purchase Products from non-Member suppliers, except as is necessary to fill existing or reasonably anticipated orders from specifically identified customers of APC in the Export Markets. APC may purchase Products exclusively from its Member suppliers and may refuse to deal with non-Member suppliers; and

c. No Member supplier will be restricted from exporting products independently of APC. However, should any Member supplier cease to be a Member of APC, that Member supplier may be prohibited, during the remainder of the five-year term of the initial supply agreement between the Member supplier and APC, from selling Products to purchasers that were customers of APC prior to the date of the Member's termination, other than customers to which the Member supplier previously sold Products.

2. Determine the price of Products sold to APC by Member and Non-Member suppliers as follows:

a. For the fixed aggregate quantity (described in paragaph 1(b) above):

(i) During the first year of the initial five year term of the supply agreements between APC and its Member suppliers, APC may set the prices of Products at (a) fixed dollars amounts, as established in those supply agreements, or (b) a fixed percentage of the price at which APC resells the Products supplied in the Export Markets; and

(ii) During the second and subsequent years of the initial and any subsequent terms of the supply agreements between APC and its Members, APC may set the purchase price for all Products at a fixed percentage of the average price at which APC resold the class of Products in the Export Markets during the preceding year, which percentage may be modified annually by APC and its Member suppliers based upon an analysis of APC's operating and other costs and other information permitted to be discussed under paragraphs 4 and 5;

b. For quantities greater than the fixed aggregate quantity (described in paragraph 1(b) above) that APC purchases from its Member suppliers during any given year, APC may set the price of Products at a percentage of the price at which APC resells the Products supplied in the Export Markets, which percentage may be modified annually by APC and its Member suppliers based upon an analysis of APC's operating and other costs and other information permitted to be discussed under paragraphs 4 and 5; and/or

c. For quantities of Products APC purchases from non-Member suppliers, APC may set prices and terms and conditions of purchase individually for each transaction.

3. Enter into exclusive or nonexclusive agreements with other Export Intermediaries for the sale of Products in the Export Markets wherein:

a. APC agrees to deal in Products in particular Export Markets only through that intermediary; and/or

b. That intermediary agrees not to represent or otherwise deal with anyone except APC in those Export Markets.

4. Exchange information with Member suppliers regarding:

a. The prices that APC has charged or will charge in the Export Markets for each Member supplier's Products.

b. The quality and quantity of Products available from Member suppliers for export, but such exchange will be limited to the following:

(i) APC may contact a member supplier to determine if that Member supplier can fill a specific purchase order, and the Member supplier may inform APC whether it will be able to fill the order, and if it cannot fill the order, the reasons therefor that are specifically related to that Member's individual operations,

(ii) In order to allocate purchase orders among its Member suppliers so as to comply with its contractual obligation to buy from its Members on a pro rata basis up to a fixed amount annually, APC may contact its Member suppliers during the final quarter of any contract year to determine the quantity of Products that the Member suppliers will be able to sell to APC through the end of that year and the times at which such quantity may be available for purchase by APC, and the Member supplier may so inform APC, and

(iii) All requests for information must be made to Member suppliers individually, and the Member suppliers' responses must be made only to APC, which may not disclose the information to any other Member, except as may be necessary for the legitimate conduct of APC's export business,

c. Delivery dates, terms of sale, and other information necessary to arrange and complete export sales of the Products,

d. General economic or business conditions in the Export Markets, including supply and demand conditions, prices and terms of sale in the Export Markets; and transportation and other costs incurred in exporting to the Export Markets,

e. APC's sales results in the Export Markets, orders shipped, costs of doing business and other information relating to APC's business in the Export Markets,

f. Amounts and prices of Products purchased from each Member supplier for export, and the terms and conditions under which such purchases were made,

g. Matters concerning APC's organization, governance, financial condition and membership; and/or

h. Market strategies for the Export Markets, and other issues relating to sales and Export Trade Facilitation Services in the Export Markets and APC's export business.

5. Participate in meetings with one or more Member suppliers to deliver and discuss the information described in paragraph (4) above.

6. Enter into agreements with customers located in the Export Markets wherein APC may agree in each case to sell Products in the Export Markets only to such customers, and/or such customer may agree not to purchase the Product from any competitor of APC.

7. Prescribe conditions of membership to, and termination from, APC.

A copy of each certificate will be kept in the International Trade Administration's Freedom of Information Records Inspection Facility, Room 4102, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Dated: May 14,1986.

James V. Lacy,

Director, Office of Export Trading Company Affairs.

LIST OF PUBLIC LAWS

Last List May 16, 1986

This is a continuing list of public bills from the current session of Congress which have become Federal laws. The text of laws is not published in the Federal Register but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202-275-3030).

H.R. 4022/Pub. L. 99-300

To release restrictions on certain property located in Calcasieu Parish, Louisiana, and for other purposes (May 14, 1986; 100 Stat. 435; 1 page) Price: $1.00

S.J. Res. 281/Pub. L. 99-301

To designate the week of May 11 through May 17, 1986, as "Senior Center Week". (May 14, 1986; 100 Stat. 436; 1 page) Price: $1.00

S.J. Res. 284/Pub. L. 99-302

To designate the month of May 1986 as "Better Hearing and Speech Month". (May 14, 1986; 100 Stat. 437; 1 page) Price: $1.00

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily Federal Register as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $595.00 domestic, $148.75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

[1] No amendments to this volume were promulgated during the period Apr. 1, 1980 to March 31, 1985. The CFR volume issued as of Apr. 1, 1980, should be retained.

[2] No amendments to this volume were promulgated during the period Apr. 1, 1984 to March 31, 1985. The CFR volume issued as of Apr. 1, 1984, should be retained.

[3] No amendments to this volume were promulgated during the period July 1, 1984 to June 30, 1985. The CFR volume issued as of July 1, 1984, should be retained.

[4] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[5] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

[6] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers for $300.00 per year, or $150.00 for 6 months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Title 3—

The President

Executive Order 12557 of May 16, 1986

Establishing an Emergency Board To Investigate Disputes Between the Maine Central Railroad Company/Portland Terminal Company and Certain of Their Employees Represented by the Brotherhood of Maintenance of Way Employees

Disputes exist between the Maine Central Railroad Company/Portland Terminal Company and certain of their employees represented by the Brotherhood of Maintenance of Way Employees.

These disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, as amended (the "Act").

These disputes, in the judgment of the National Mediation Board, threaten substantially to interrupt interstate commerce to a degree such as to deprive a section of the country of essential transportation services.

NOW, THEREFORE, by the authority vested in me by Section 10 of the Act (45 U.S.C. § 160), it is hereby ordered as follows:

Section 1. *Establishment of Board.* There is hereby established, effective May 16, 1986, a board of three members to be appointed by the President to investigate these disputes. No member shall be pecuniarily or otherwise interested in any organization of railroad employees or any carrier. The board shall perform its functions subject to the availability of funds.

Sec. 2. *Report.* The board shall report its findings to the President with respect to these disputes within 30 days from the date of its creation.

Sec. 3. *Maintaining Conditions.* As provided by Section 10 of the Act, from the date of the creation of the board and for 30 days after the board has made its report to the President, no change, except by agreement of the parties, shall be made by the carriers or the employees in the conditions out of which these disputes arose.

Sec. 4. *Expiration.* The board shall terminate upon the submission of the report provided for in Section 2 of this Order.

Executive Order 12558 of May 16, 1986

Establishing an Emergency Board To Investigate a Dispute Between the Long Island Rail Road and Certain Labor Organizations Representing Its Employees

A dispute exists between The Long Island Rail Road and certain of its employees represented by the labor organizations named on the list attached hereto and made a part hereof.

The dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended (the "Act").

A party empowered by the Act has requested that the President establish an emergency board pursuant to Section 9A of the Act (45 U.S.C. § 159a).

Section 9A(c) of the Act provides that the President, upon such a request, shall appoint an emergency board to investigate and report on the dispute.

NOW, THEREFORE, by the authority vested in me by Section 9A of the Act, it is hereby ordered as follows:

Section 1. *Establishment of Board.* There is established, effective May 16, 1986, a board of three members to be appointed by the President to investigate this dispute. No member shall be pecuniarily or otherwise interested in any organization of railroad employees or any carrier. The board shall perform its functions subject to the availability of funds.

Sec. 2. *Report.* The board shall report its findings to the President with respect to the dispute within 30 days after the date of its creation.

Sec. 3. *Maintaining Conditions.* As provided by Section 9A(c) of the Act, from the date of the creation of the board and for 120 days thereafter, no change, except by agreement of the parties, shall be made by the carrier or the employees in the conditions out of which the dispute arose.

Sec. 4. *Expiration.* The board shall terminate upon the submission of the report provided for in Section 2 of this Order.

Ronald Reagan

Proclamation 5481 of May 17, 1986

National Digestive Diseases Awareness Week, 1986

By the President of the United States of America

A Proclamation

Digestive diseases rank third in the total economic burden of illness in the United States. More important, in terms of human discomfort, pain, and mortality, they constitute one of our most serious national health problems.

Digestive diseases are a major cause of hospitalization and surgery in this country. Each day some 200,000 people miss work because of them. Twenty million Americans are treated for some type of chronic digestive disorder each year, and almost half of our population suffers an occasional digestive disorder, creating a yearly expenditure of approximately $17 billion in direct health care costs, and a total estimated economic burden of $50 billion.

Research into the causes, cures, prevention, and clinical treatment of digestive diseases and related nutrition problems continues with the support of public and private institutions at all levels. This year marks the third anniversary of the initiation of a national digestive diseases education program. Its goals are to involve all those concerned with the problem—including the Digestive Diseases National Coalition, the National Digestive Diseases Advisory Board, the National Digestive Diseases Education and Information Clearinghouse, and the National Institute of Arthritis, Diabetes, and Digestive and Kidney Diseases—in educating the public as well as medical practitioners, dieticians, and nutrition experts on the seriousness of these diseases and the most advanced methods available to prevent, treat, and control them.

In recognition of the importance of efforts to combat digestive diseases, the Congress, by Senate Joint Resolution 324, has designated the week beginning May 18, 1986, as "National Digestive Diseases Awareness Week" and authorized and requested the President to issue a proclamation in observance of this week.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby proclaim the week beginning May 18, 1986, as National Digestive Diseases Awareness Week. I urge the people of the United States and educational, philanthropic, scientific, medical, and health care organizations and professionals to participate in appropriate activities to encourage further research into the causes and cures of all types of digestive disorders.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of May, in the year of our Lord nineteen hundred and eighty-six, and of the Independence of the United States of America the two hundred and tenth.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 51, No. 97
Tuesday, May 20, 1986

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

7 CFR Part 1955

Sale of Unsuitable Single Family Housing (SFH) Inventory Property

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations regarding the sale of unsuitable SFH inventory property. This action is being taken since the number of properties FmHA has in inventory has increased substantially. The intended effect of this action is to hold a 90-day sale on unsuitable homes by reducing downpayment requirements and sales prices.

EFFECTIVE DATE: June 20, 1986.

FOR FURTHER INFORMATION CONTACT: David J. Villano, Senior Realty Specialist or Frances B. Calhoun, Chief, Property Management Branch, Single Family Housing Servicing and Property Management Division, Farmers Home Administration, USDA, South Agriculture Building, Room 5309, Washington, DC 20250, telephone: (202) 381-1452.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established in Departmental Regulation 1512-1 which implements Executive Order 12291, and has been determined to be exempt from those requirements as it involves only internal Agency management.

The SFH program is listed in the Catalog of Federal Domestic Assistance under:

10.410 Low Income Housing Loans
10.417 Very Low-Income Housing Repair Loans and Grants

Catalog numbers 10.410 and 10.417 are excluded from Executive Order 12372 which requires intergovernmental consultation with State and local officials.

This document has been reviewed in accordance with 7 CFR Part 1940, Subpart G, "Environmental Program." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91-90, an Environmental Impact Statement is not required.

It is the policy of this Department that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. These amendments, however, are not published for proposed rule making since they involve only internal Agency management, and publication for comments is unnecessary.

At the current time, FmHA has approximately 18,000 single family properties in inventory nationwide. This high volume is primarily due to the poor agricultural economy facing the many rural areas in which FmHA finances and the resultant deflated housing market. In many cases, these homes have remained in inventory for extended periods of time costing the Government considerable amounts of money to retain. Especially evident of this are houses which the Agency has determined to be unsuitable for retention in the program. Generally, these homes are functionally obsolete and cannot be used to effectively fulfill the purpose for which the Section 502 RH program was intended.

The prime summer housing sales months and favorable mortgage interest rates are upon us. FmHA recognizes an urgency to take advantage of this opportunity and recover the Government's investment in these properties and relieve us of the high costs of retaining these houses. In an effort to sell these homes, FmHA will hold a 90-day "sale" on unsuitable inventory property. During this 90-day period, FmHA will launch an aggressive sales campaign and offer more favorable terms on which the public can purchase these properties.

Many lenders have offered special sales incentives and attractive financing terms in an effort to sell inventory property. Other Government lenders have offered inventory properties for sale with no downpayment requirements, granted discounts for cash offers, and paid a portion of the purchasers' closing costs. These efforts have proven successful in selling inventory property.

Current FmHA regulations [7 CFR Part 1955, § 1955.118] require a downpayment of 10 percent from purchasers obtaining FmHA credit on ineligible terms. During the sale period, FmHA reduces the required downpayment to 5 percent for investors and zero for purchasers who do not currently own a home and intend to occupy the dwelling (owner/occupant).

Additionally, current FmHA regulations [7 CFR Part 1955, § 1955.112(c)] authorize State Directors to sell unsuitable properties by sealed bid or auction. These sales have traditionally netted the Agency approximately 70 percent of the market value. Rather than incur the costs of an auctioneer or proceed with lengthy and time consuming sealed bid sales, FmHA will authorize unsuitable SFH inventory property to be listed/offered for sale at a percentage of market value.

FmHA amends Subpart C of Part 1955 by providing exceptions which authorize the aforementioned reduced downpayment requirements and reduced sales prices for a 90-day period beginning June 1, 1986 and terminating August 29, 1986.

In addition, FmHA published an Interim Rule on April 21, 1986 [51 FR 13437], with request for comments regarding the implementation of additional provisions of the Food Security Act of 1985. In this Interim Rule, FmHA amended the definition of the term, "Regular FmHA Sale" [§ 1955.103(n)], by adding language on the pricing of farm property. Identical language on the pricing of farm property can be found in § 1955.106(c) of the same Interim Rule. Defining how FmHA determines the price of property is not appropriate to the definition of the term, "Regular FmHA Sale," and as previously mentioned is appropriately located in other paragraphs of this subpart. Therefore, as part of this Interim Rule, FmHA is removing the unrelated language from this definition.

However, any comments regarding the pricing of farm property are still invited and requested pursuant to our April 21, 1986, Interim Rule.

List of Subjects in 7 CFR Part 1955

Government acquired property, Sale of government acquired property, Surplus government property.

Therefore, Chapter XVIII, Title 7, Code of Federal Regulations is amended as follows:

PART 1955—PROPERTY MANAGEMENT

1. The authority citation for Part 1955 continues to read as follows:

Authority: 7 U.S.C. 1989, 41 U.S.C. 1469, 5 U.S.C. 301, 7 CFR 2.23, 7 CFR 2.70.

Subpart C—Disposal of Inventory Property

2. Section 1955.103(n) is revised to read as follows:

§ 1955.103 Definitions.

* * * * *

(n) *Regular FmHA sale.* Sale made by other than sealed bid, auction, or negotiation by FmHA employees or real estate brokers.

* * * * *

3. In § 1955.113, the introductory text is revised to read as follows:

§ 1955.113 Price (housing).

Real property will be offered or listed for its market value, as adjusted by any administrative price reductions provided in this section, except during the period of June 1, 1986, through August 20, 1986, unsuitable SFH inventory property will be offered or listed for 70 percent of market value with the State Director having the authority to deviate from the percentage based upon documentable conditions within the State. Market value will be based upon the condition of the property at the time it is made available for sale. However, when a section 515 RRH credit sale is being made to a nonprofit organization or public body for very-low income residents, the price will be the lesser of the Government's investment or market value, less administrative price reductions, if any.

* * * * *

§ 1955.118 [Amended]

4. § 1955.118(b) is amended by changing the period at the end of the paragraph to a comma and adding the following to the end of the sentence: "except during the period of June 1, 1986, through August 20, 1986, the downpayment requirement for unsuitable SFH property is waived for purchasers who fall into the category specified in § 1955.118(d)(i)(A) of this subpart and is reduced to 5 percent for purchasers who fall into the category specified in § 1955.118(d)(i)(B) of this subpart. This exception applies to all acceptable sales contracts received from June 1, 1986, through close of business August 20, 1986."

Dated: May 9, 1986.

Vance L. Clark,

Administrator.

BILLING CODE 3410-07-M

SMALL BUSINESS ADMINISTRATION

13 CFR Parts 120 and 122

[Rev. 7, Amdt. 1 for Part 120; Rev. 4, Amdt. 3 for Part 122]

Business Loans

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: On April 7, 1986, the Consolidated Omnibus Budget Reconciliation Act of 1985 (Pub. L. 99-272) was enacted (100 Stat. 82) which amended the Small Business Act (15 U.S.C. 631 *et seq.*) (Act) to increase the percentage amount of the guaranty fee and to adjust the percentage of a loan which the Small Business Administration (SBA) may guarantee. This final rule implements these technical changes.

EFFECTIVE DATE: April 8, 1986.

FOR FURTHER INFORMATION CONTACT: Harry D. Kempler, Office of General Counsel, 202-653-6757.

SUPPLEMENTARY INFORMATION: On April 7, 1986, Pub. L. 99-272 was enacted. Title XVIII thereof amended section 7(a) of the Act (15 U.S.C. 636(a)) with respect to guaranty fees and the percentage amount of a loan which SBA is authorized to guarantee. Thus, the guaranty fee is increased from one percent to two percent of the guaranteed portion of any loan other than one repayable in one year or less or a development company loan under section 7(a)(13) of the Act (15 U.S.C. 636(a)(13)). Section 120.104-1 of SBA regulations (13 CFR 120.104-1) is amended herein to reflect this statutory change.

Section 120.403-1 of SBA regulations (13 CFR 120.403-1) is amended herein to reflect the amendment in Pub. L. 99-272 which effectively allows SBA under its preferred lenders program to guarantee a loan of any amount, so long as the guaranteed portion does not exceed the statutory ceiling of $500,000. Prior to this statutory change, a preferred lender could only make a guaranteed loan over $155,000. Section 122.5-3 (13 CFR 122.5-3) is amended herein to reflect the statutory changes which (1) increased from $100,000 to $155,000 the amount of a loan entitled to receive a 90 percent guarantee and (2) reduced from 90 percent to 85 percent the maximum guaranty for loans over $155,000.

These regulatory changes will have a significant economic impact on a substantial number of small entities, as they will affect every guaranteed loan made by SBA after April 7, 1986. However, they are mandated by Pub. L. 99-272. As such there are no alternatives. There are no reporting, recordkeeping or compliance burdens inherent in these regulations and they do not duplicate or overlap other regulations.

These changes are being promulgated in final form pursuant to 5 U.S.C. 553(b)(B) in order to implement as soon as possible the nondiscretionary aspects of the statutory changes affecting the guaranteed loan program of SBA. Because immediate implementation of these rules is mandated by a law which became effective on April 7, 1986, notice and public comment on them is impractical and unnecessary.

These final rules, taken as a whole, are not a major rule for purposes of E.O. 12291. Their combined annual economic effect will be less than $100 million. The amendments are mandated by law which leaves SBA with no discretion as to the percentage of a given loan which is guaranteed and they will have no impact on the overall amount of budget authority which the Agency is authorized to utilize.

List of Subjects in 13 CFR Parts 120 and 122

Loan programs, Business.

Pursuant to the authority contained in sections 5(b)(6), 7(a) and 7(h) of the Small Business Act (15 U.S.C. 634(b)(6) and 636(a) and (h)), SBA hereby amends Parts 120 and 122, Chapter I, Title 13, Code of Federal Regulations, as follows:

PART 120—BUSINESS LOAN POLICY

1. The authority citation for Part 120 is revised to read as follows:

Authority: 15 U.S.C. 634(b)(6) and 636(a) and (h).

2. Section 120.104-1 is amended by revising paragraph (a) to read as follows:

§ 120.104-1 Guaranty fees.

* * * * *

(a) *Amount.* SBA shall charge a guaranty fee on loans with maturities in excess of twelve months, equal to two

percent (2%) of the guaranteed portion of the loan. For loans with a maturity of twelve (12) months or less, the guaranty fee shall be one-quarter (¼) of one percent of the guaranteed portion of the loan. (See § 122.8-1 of this Chapter with respect to loan maturities.)

* * * * *

3. Section 120.403-1 is revised to read as follows:

§ 120.403-1 Amount of PLP loan and of maximum guaranteed portion.

The amount of a loan under this program may be any amount so long as the amount of the guaranteed portion shall not exceed the statutory ceiling of $500,000.

PART 122—BUSINESS LOANS

1. The authority citation for Part 122 is revised to read as follows:

Authority: 15 U.S.C. 634(b)(6) and 636(a).

2. Section 122.7-3 is amended by revising paragraph (a) and (b) to read as follows:

§ 122.7-3 Guaranty loans.

* * * * *

(a) *Guaranty of loans not to exceed $155,000.* SBA shall guarantee at least 90 percent of a loan so long as the total amount outstanding (including the loan under consideration) does not exceed $155,000, except as permitted under paragraph (c) below.

(b) *Guaranty of loans in excess of $155,000.* SBA shall guarantee no more than 85 percent and not less than 70 percent of loans in excess of $155,000 so long as the total amount approved and outstanding does not increase SBA's exposure beyond $500,000, subject to paragraph (c) below. Decisions to guarantee such loans in amounts between 70 percent and 85 percent shall be made on a case-by-case basis. The percentage guaranteed shall not influence loan approvals. A Lender's request for less than a 70 percent participation by SBA shall not be approved unless a lesser percentage is necessary due to the statutory $500,000 ceiling on SBA exposure.

BILLING CODE 8025-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 86-ASW-3]

Designation of Transition Area; Carnegie, OK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment will designate a 700-foot transition area at Carnegie, OK. The intended effect of the amendment is to provide adequate controlled airspace for aircraft executing new standard instrument approach procedure (SIAP) to the Carnegie Municipal Airport utilizing the Carnegie NDB (RCG) as a navigational aid. This amendment is necessary since there is a new NDB Rwy 17 SIAP to the Carnegie Municipal Airport using the Carnegie NDB. Coincident with this action, the airport status will change from visual flight rules (VFR) to instrument flight rules (IFR).

EFFECTIVE DATE: 0901 UTC, August 28, 1986.

FOR FURTHER INFORMATION CONTACT: David J. Souder, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, TX 76101, telephone (817) 877-2922.

SUPPLEMENTARY INFORMATION:

History

On January 23, 1986, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate the Carnegie, OK, transition area (51 FR 4011).

Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is that proposed in the notice. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6B dated January 2, 1986.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations designates a 700-foot transition area to ensure segregation of aircraft using the new SIAP under IFR and other aircraft operating under VFR while arriving to or departing from the Carnegie Municipal Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zones, Transition areas, etc.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended as follows:

PART 71—[AMENDED]

Carnegie, OK [New]

1. The authority citation for Part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. § 71.181 is amended as follows:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Carnegie Municipal Airport (latitude 35°07'14" N., longitude 98°34'49" W.) and within 3 miles each side of the 005-degree bearing from the airport extending from the 5-mile radius area to 8.5 miles north of the airport.

Issued in Fort Worth, TX, on May 2, 1986.

Donald R. Guempel,

Acting Manager, Air Traffic Division, Southwest Region.

[FR Doc. 86-11248 Filed 5-19-86; 8:45 am]

BILLING CODE 4910-13-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-3-FRL-3019-2; EPA Docket No: AM046PA]

Commonwealth of Pennsylvania; Approval of Revision to the Pennsylvania State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: EPA is today withdrawing its former approval of State and local odor emission control regulations as part of the Pennsylvania State Implementation Plan (SIP). EPA believes that these regulations should not be included in the Pennsylvania SIP because they bear no significant relation to attainment and maintenance of the National Ambient Air Quality Standards (NAAQS).

EFFECTIVE DATE: June 19, 1986.

ADDRESSES: Copies of the revision and accompanying documents are available during normal business hours at the following office: U.S. Environmental Protection Agency, Region III, Air Management Division, 841 Chestnut Building, 8th Floor, Philadelphia, PA 19107, Attn: Donna Abrams.

FOR FURTHER INFORMATION CONTACT: Donna Abrams (3AM11) at the EPA, Region III address above or call (215) 597-9134.

SUPPLEMENTARY INFORMATION: Under section 110(a)(1) of the Clean Air Act, each State must submit to EPA a SIP that provides for attainment and maintenance of the National Ambient Air Quality Standards (NAAQS). On January 27, 1972, the Pennsylvania Department of Environmental Resources (DER), on behalf of the Commonwealth of Pennsylvania, submitted its SIP to EPA for review and approval. DER's SIP submittal included the Commonwealth's odor emission regulation and the City of Philadelphia's odor emission regulation (hereinafter collectively referred to as the "State odor emission regulations.")

EPA initially approved portions of the Pennsylvania SIP, via a national notice, on May 31, 1972 (*See* 37 FR 10889.) In this notice, EPA approved all portions of the State plans unless they were specifically disapproved. These exceptions did not include the State odor emission regulations. Therefore, they were approved by EPA as part of the Pennsylvania SIP.

EPA reaffirmed its approval of the Pennsylvania SIP, including the State odor emission regulations, on November 23, 1983. (*See* 36 FR 22398). In this notice, EPA approved Pennsylvania's plan for attainment and maintenance of the national standards except for specific portions which were listed in the notice. These specific exceptions did not include the State odor emission regulations.

On September 20, 1978, DER submitted to EPA a revision to the Pennsylvania SIP that, among other things, modified the State odor emission regulations by exempting agricultural sources from the control requirements. *See* 40 CFR 52.2020(c)(21)(1984). EPA later approved this SIP revision. *See* 45 FR 58080 (August 22, 1980).

EPA recognizes the problem raised by its approval of the State odor emission regulations. In reviewing SIPs, EPA is governed by the criteria in section 110(a)(2) of the Clean Air Act, which require measures for the attainment and maintenance of the primary and secondary NAAQS. In order for EPA to properly approve a State rule as part of the SIP, the rule must have a significant relationship to attainment and maintenance of a NAAQS.

EPA believes that the State odor emission regulations bear no significant relationship to the attainment and maintenance of any NAAQS. In general, EPA believes that there is no direct or indirect relationship between the State odor emission regulations cited below and any criteria pollutant.

EPA is listing in this final action additional state and city statutory and regulatory citations which were not included in EPA's proposed deletions, published on August 12, 1985 (50 FR 32451). These additional citations regulate or control odor emissions. EPA does not believe that the statutory citations were approved as part of the Pennsylvania SIP. However, to eliminate any doubt in the matter, and to the extent that they relate to the control of odors, EPA is listing these statutory provisions in its withdrawal of approval.

The additional regulations added in this final action were inadvertently omitted from EPA's proposed action. EPA believes that its proposed action provided sufficient notice that all state and local regulations relating to the control of odors were being proposed to be deleted from the Pennsylvania SIP. In addition, section 553(b)(B) of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), provides that notice of rulemaking is not required when an agency for good cause finds that notice thereon is impracticable or unnecessary. EPA finds that additional notice is unnecessary here because the Agency's notice (50 FR 32451) generally proposed deletion of all regulations which are related to the control of odors, even though the actual list of regulations had inadvertent omissions. EPA provided an extended comment period on the issue of whether any significant relationship could be established between the State odor emission regulations and the attainment or maintenance of any NAAQS. The public had the opportunity to comment on this general issue, with the obvious understanding that all odor emission controls would be deleted if such a relationship was not established. As discussed below, no relationship was established. Therefore, EPA is withdrawing its approval of all State odor emission regulations which relate to the control of odors. In light of the above, a new comment period concerning the additional statutory and regulatory citations contained in this final action would be wholly superfluous.

The statutes and regulations, pertaining to odor emission control, which will be affected are:

(1) 35 P.S. § 4003(4) (deletion of "odor" from definition);

(2) 35 P.S. § 4003(5) (deletion of reference to odors from definition);

(3) Philadelphia Air Management Code § 3-102(3) (deletion of "odors" from definition);

(4) Philadelphia Air Management Code § 3-102(25) (deletion of definition);

(5) 25 Pa. Code § 121.1 (deletion of reference to odors from definitions);

(6) 25 Pa. Code § 129.14(b)(2) (open burning operations);

(7) Regulation V (Phil. AMC) Section X—Odors.

(8) 25 PA Code § 123.31—Odor Emissions;

(9) Regulation I (Phila. AMC), Section I (A)(3)—Air Contaminant (deletion of reference to odors in definition);

(10) Regulation I (Phila. AMC), Section I (A)(4)—Air Pollution (deletion of reference to odors in definition);

(11) Regulation I (Phila. AMC), Section I (A)(5)—Air Pollution Nuisance (deletion of reference to odors in definition);

(12) Regulation I (Phila. AMC), section I(A)(25)—Odor (deletion of definition);

(13) Regulation I (Phila. AMC), section X—Compliance with regulations of Pennsylvania Air Quality Board (deletion of references to odors);

(14) Regulation XI (Phila. AMC), section III(C)—Odor Emissions.

Because the State odor emission regulations are presently part of the federally approved Pennsylvania SIP, EPA proposed deletion of these regulations on August 12, 1985 (50 FR 32451). EPA provided an extended sixty-day comment period to solicit public

comments as to whether any significant relationship could be established between the State odor emission regulations and attainment or maintenance of any NAAQS. Absent this showing, EPA proposed to delete these regulations from the Pennsylvania SIP. As a result of the Notice of Proposed Rulemaking, EPA received approximately forty-five (45) responses with comments. Six (6) of these responses with comments were in support of EPA's proposed action and are detailed in the Technical Support Document for this Rulemaking action. The remainder of the responses with comments were in opposition to EPA's proposed action. These comments are discussed below.

Public Comments

1. Comment

The federal odor regulations are the only means that we have for controlling polluting emissions such as sulfur dioxide, nitrogen oxides, volatile organic compounds (VOC's) which are precursors to ozone formation, and other hazardous air pollutants such as benzene and hydrogen sulfide.

Response: The federal odor regulations are not the only means for controlling polluting emissions such as those mentioned above. There are various regulations which are used to control polluting emissions, such as those mentioned above, other than odor regulations. With regard to Pennsylvania's regulations which are part of the SIP, sulfur compound emissions are regulated under section 129 of the Pennsylvania Air Resource Regulations. Where odor-producing hazardous air pollutants are identified, they have been and may be regulated through specific numerical standards issued under section 111 (New Source Performance Standards) or 112 (National Emission Standards for Hazardous Air Pollutants) of the Clean Air Act or through State and local laws and ordinances.

The City's Air Management Regulation VI is the foremost example in this region of exactly this type of local regulation of toxic air contaminants. Ninety-nine (99) substances have been individually listed, and the City's Department of Health has adopted numerical, health-based guidelines for these substances in the ambient air. Regulation VI authorizes the City to withhold permits from facilities emitting toxic contaminants at levels that pose a health hazard based on these guidelines.

Additionally, the City's Air Management Regulation III covers the control of emissions of oxides of sulfur compounds. Regulation VII controls the emission of nitrogen oxides from stationary sources, and Regulation V regulates the emissions of VOC's. These hydrocarbon regulations together with the DER regulations do provide an enforceable remedy to protect the public health.

2. Comment

Odor is an indication of human carcinogens.

Response: Odor is not necessarily an indication of human carcinogens. Many harmless substances cause odors. Additionally, a substance may be carcinogenic but odorless.

3. Comment

If the EPA deletes the odor regulations, there will be no meaningful right of citizens to enforce the odor regulations because the Pennsylvania Air Pollution Control Act does not provide for attorney fees in citizen lawsuit cases.

Response: While EPA is sensitive to this issue, we cannot use this as a basis for retaining the odor regulations in the Pennsylvania SIP.

4. Comment

EPA's proposed action is arbitrary and capricious. EPA has the burden of justifying its intent to withdraw.

Response: EPA is merely taking corrective action here to remedy an oversight in inadvertently approving the odor regulations. The Agency has never found any significant relationship between the control of odors and any NAAQS, but it has permitted the public the right to provide comments on this issue during an extended comment period.

5. Comment

EPA's proposed action is an abuse of discretion. Pennsylvania may include control measures in its SIP that are stricter than those required by EPA.

Response: EPA's proposed action is not an abuse of discretion. Although Pennsylvania may include control measures in its SIP that are stricter than those required by EPA, it has not been demonstrated that odor control constitutes a stricter control measure or that the control of odor relates to the attainment of an NAAQS.

6. Comment

The connection between odors and the criteria pollutants is easily made. There are odors directly associated with sulfur dioxide, nitrogen dioxide, and with hydrocarbons which are an ozone precursor.

Response: There are odors associated with sulfur dioxide and nitrogen dioxide. The odor threshold for sulfur dioxide is approximately 1 ppm. This threshold value is over seven times greater than the 24-hour standard for SO_2 (0.14 ppm) and, thirty-three times greater than the annual standard (0.03 ppm). The odor threshold for nitrogen dioxide is approximately 5 ppm. This level is one hundred times greater than the national standard for NO_2 (0.05 ppm). Therefore, if EPA were to allow levels of SO_2 and NO_2 necessary to reach the threshold at which an odor could be detected for each of these pollutants, the levels would be well in excess of the national standards. If odor regulations were used as a backup to determined excessive concentrations of these two pollutants, it would be a much less stringent standard than those already in place. Additionally, these regulations would have to be less general, and more specific to levels of SO_2 and NO_2 and quantifiable reductions in the levels of these pollutants.

With regard to odors as they pertain to hydrocarbons which are ozone precursors, EPA has not been able to establish any relationship, nor have any of the commentors provided any information which shows any technical correlation between controlling odor levels of hydrocarbons and reduction in ozone levels.

7. Comment

The odor regulations assist Philadelphia and Pennsylvania in monitoring VOC emissions from major sources and in controlling VOC emissions from minor sources.

Response: Odor regulations may be used to trace a source of an odor complaint. But, once the source of the odor has been established, the odor regulation itself would not be used to reduce levels of VOCs. The Pennsylvania VOC regulations, which are based on health and welfare effects levels of the compounds in question, would be applied.

The deletion of the odor regulations from the Pennsylvania SIP would not preclude Philadelphia and Pennsylvania from continuing to utilize these regulations as a tool to monitor and control VOC levels.

8. Comment

If EPA deletes 25 Pa. Code 123.31(a), and the Philadelphia Air Management Regulation XI, section 111(c), which are aimed at preventing odor emissions from incinerators, citizens will have no meaningful means for preventing malodorous, unhealthful incinerator

operations. These regulations require incinerator operators to operate their facilities at a minimum of 1200 °F. It is now known that temperatures above 1700 °F are desirable in preventing the formation of dioxins and furans.

Response: The deletion from the SIP of the odor emission control regulations would not preclude the City and DER from enforcing their regulations. However, with specific respect to dioxins and furans, these compounds are being considered to be listed as hazardous air pollutants. If and when these contaminants are listed, regulations would be developed in order to control the formation of these pollutants. The formation of dioxins and furans is a very complex mechanism with many variables other than temperature involved in their formation. The odor regulations should not be perceived as a means for controlling dioxin and furan formation.

2. *Comment*

The control of Total Reduced Sulfur (TRS) emissions is related solely to reduction of odors.

Response: The regulations governing TRS emissions are based on the health and welfare effects of certain levels of hydrogen sulfide, not on the odor threshold level (which is much lower) for hydrogen sulfide.

Conclusion

EPA's decision to adopt this revision is based on a determination, after a thorough review of the public comments, that there is no significant relationship between odor emission control regulations and attainment or maintenance of any NAAQS. These regulations were inadvertently approved as part of Pennsylvania's SIP and, therefore, EPA is today deleting these regulations from the Pennsylvania SIP. Additionally, EPA's withdrawl is consistent with prior administrative rulemaking. EPA declined to approve a SIP provision governing odor on May 12, 1981, that had been submitted by Guam (46 FR 26303). In another instance, EPA took similar action with respect to the Nevada SIP on August 27, 1981 (46 FR 43141). In a third instance, EPA refused to approve odor provisions in the Iowa SIP (47 FR 22532, 22532, May 25, 1982).

EPA's decision to delete the State Odor Regulations from the Pennsylvania SIP does not preclude the State from submitting to EPA quantifiable, specific, odor regulations which, when implemented, demonstrate reductions in emissions which would significantly contribute to attainment or maintenance of a NAAQS.

Furthermore, EPA's deletion of the State Odor Regulations, as stated previously, does not preclude the State and local agencies from enforcing their odor regulations.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 21, 1986. This action may not be challenged later in proceedings to enforce its requirements (*See* 307(b)(2)).

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Air pollution control, Ozone, Sulfur oxides, Nitrogen dioxide, Hydrocarbons, Intergovernmental relations, Reporting and recordkeeping requirements.

Dated: May 2, 1986.

Lee M. Thomas,

Administrator.

PART 52—[AMENDED]

Subpart NN—Pennsylvania

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

2. Section 52.2023 is amended by adding paragraph (h) as follows:

§52.2023 Approval status.

* * * * *

(h) The Administrator withdraws its prior approval (see Subpart NN 52.2020 (b)) of the following odor emission control regulations:

(1) 35 P.S. § 4003(4) (deletion of "odor" from definition);

(2) 35 P.S. § 4003(5) (deletion of reference to odors from definition);

(3) Philadelphia Air Management Code § 3–102(3) (deletion of "odors" from definition);

(4) Philadelphia Air Management Code § 3–102(25) (deletion of definition);

(5) 25 Pa. Code § 121.1 (deletion of reference to odors from definitions);

(6) 25 Pa. Code § 129.14(b)(2) (open burning operations);

(7) Regulation V (Phil. AMC) Section X—Odors.

(8) 25 PA Code § 123.31—Odor Emissions;

(9) Regulation I (Phila. Air Management Code), Section I (A)(3)—Air Contaminant (deletion of reference to odors in definition);

(10) Regulation I (Phila. AMC), Section I (A)(4)—Air Pollution (deletion of reference to odors in definition);

(11) Regulation I (Phila. AMC), Section I (A)(5)—Air Pollution Nuisance (deletion of reference to odors in definition);

(12) Regulation I (Phila. AMC), Section I (A)(28)—Oder (deletion of definition);

(13) Regulation I (Phila. AMC), Section X—Compliance with regulations of Pennsylvania Air Quality Board (deletion of references to odors);

(14) Regulation XI (Phila. AMC), Section III (C)—Odor Emissions.

BILLING CODE 6560–50–M

---

40 CFR Part 52

[A–6–FRL–3018–4]

Approval and Promulgation of State Implementation Plans; Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule and response to petition for reconsideration.

SUMMARY: By this Notice EPA is promulgating a federal compliance date for the Texas lead State Implementation Plan (SIP) for El Paso County for compliance with certain lead pollution control measures at the ASARCO Incorporated (ASARCO) smelter in El Paso, Texas. This action is pursuant to the requirements of section 110(c) of the Clean Air Act (hereinafter referred to as the Act. EPA previously approved most of the Texas lead SIP for El Paso, but disapproved the compliance date for installation of secondary hoods on copper converters on August 13, 1984 (49 FR 32184). On January 4, 1985 (50 FR 493) EPA proposed a new compliance date for the Texas Lead SIP for El Paso. This notice completes the federal promulgation of a replacement date for the disapproved compliance date. In addition, this notice announces EPA's decision to deny ASARCO's petition to reconsider the disapproval of Texas' compliance date for installation of secondary hoods on ASARCO's copper converters announced on August 13, 1984 (49 FR 32184).

EFFECTIVE DATE: June 19, 1986.

ADDRESSES: The rulemaking file, including the Technical Support Document and public comments submitted in response to EPA's proposed action, may be inspected at the following locations between 8:00 am and 4:30 pm on weekdays, and a reasonable fee may be charged for copying: Docket No. 6A–84–01.

U.S. Environmental Protection Agency, Region 6, Library, 1201 Elm Street, Dallas, Texas 75270.

FOR FURTHER INFORMATION CONTACT: Ross Fanning, SIP/NSR Section, Air Programs Branch, EPA Region 6, Dallas, Texas 75270. Telephone (214) 767–1518, (FTS) 729–1518.

SUPPLEMENTARY INFORMATION:

I. Introduction

Today's action is in response to a court ordered schedule resulting from a Settlement Agreement reached on July 20, 1983, between EPA and the Natural Resources Defense Council, Inc. (NRDC v. Ruckelshaus, Civil Action No. 82–2137F) in the U.S. District Court for the District of Columbia. The State of Texas submitted a final lead SIP for El Paso on June 29, 1984, which EPA approved on August 13, 1984 (49 FR 32184), except for a disapproval of one compliance date which the State had included in the SIP. For SIPs or portions of SIPs which EPA has disapproved, EPA is required by the Settlement Agreement to promulgate a federal SIP. This notice promulgates a federal compliance date for the installation of certain control measures required by the Texas lead SIP for El Paso and for which the state compliance date was disapproved by EPA on August 13, 1984. In addition, this notice denies ASARCO's petition to reconsider the disapproval of Texas' compliance date for installation of secondary hoods on ASARCO's copper converters.

II. Background

On October 5, 1978, EPA promulgated a National Ambient Air Quality Standard (NAAQS) for lead of 1.5 $\mu g/m^3$, averaged over a calendar quarter. Pursuant to the requirements of section 110(a) of the Act, states were then to submit a SIP to implement the standard. If a State's SIP does not conform to the requirements of section 110(a), EPA is required to prepare and publish a SIP which does meet those requirements. When the states and EPA did not complete these actions, the Natural Resources Defense Council (NRDC) and others sued EPA in July, 1982. In settling the suit, EPA and the other parties negotiated schedules for prompt completion of action on the SIPs.

In July 1983, the EPA signed an agreement with NRDC and other plantiffs which called for certain lead SIPs (including the Texas SIP for El Paso) to be submitted to EPA in time to allow EPA to propose approval of the SIP by January 3, 1984. The Texas Air Control Board (TACB) developed a draft lead SIP for El Paso which required the implementation of reasonably available control technology (RACT) measures at the ASARCO-El Paso smelter. After review of the draft lead control plan and regulations for El Paso which TACB submitted to EPA on September 8, 1983, EPA proposed approval of the draft SIP and regulations on December 29, 1983, (48 FR 57336). The State submitted a final lead control plan for the El Paso area in a letter dated June 20, 1984, which differed in some respects from the draft. The final lead control plan is described below, along with EPA's action. The plan also included TACB regulations for El Paso County applicable to smelters, including the ASARCO facility. The ASARCO lead control plan, the El Paso County smelter regulations, and the public comments concerning EPA's December 1983 Federal Register proposal, are discussed in EPA's "Evaluation Report for the Texas Lead SIP for the El Paso Area," dated June 1984, which is available for review at the addresses listed in the ADDRESSES section of this notice. EPA's final approval/disapproval of the El Paso lead SIP was published in the Federal Register on August 13, 1984 (49 FR 32184). The final rulemaking on the El Paso lead SIP approved most of the SIP, including the State's commitments to do further studies to determine what additional control measures (beyond RACT) the State will adopt and implement to fully demonstrate attainment in all areas in El Paso. The currently approved Texas lead SIP provides for attainment of the lead NAAQS in all areas of El Paso by August 13, 1987, except for a limited area directly around the ASARCO-El Paso smelter (please see the August 13, 1984, FR notice). On August 16, 1985, (50 FR 33069) EPA proposed to approve a request by Texas to extend the attainment date for two years for the limited area around the ASARCO smelter. The only part of the El Paso lead SIP which was disapproved was the final compliance date for the requirements of TACB Rule 113.53, dealing with the installation of secondary hoods on the copper converters, ducting, a particulate matter control device and emission limitations at the ASARCO-El Paso smelter. On October 11, 1984, ASARCO filed a petition for reconsideration with the Administrator requesting that EPA reconsider its determination that secondary hoods represent RACT for control of lead emissions from copper converters. ASARCO also requested that EPA reopen the lead SIP rulemaking and suspend the effect of all lead SIP rule requirements affected by the August 13, 1984 rulemaking as it affected copper converters. Finally, ASARCO requested that EPA stay the effectiveness of its August 13, 1984, rulemaking pending judicial review of such rulemaking. On January 4, 1985 (50 FR 493) EPA proposed to promulgate a federal compliance date for the requirements of Rule 113.53 at the ASARCO El Paso smelter.

III. Disapproval of Compliance Date

On August 13, 1984, EPA disapproved a final compliance date listed in the TACB approved regulations for El Paso County for the requirements of Texas Rule 113.53, contained in Rule 113.122. In the September 1983 draft Texas regulations which EPA proposed to approve in December 1983, the final compliance date was December 31, 1984, which EPA considered to be expeditious. At that time, EPA explained that both the State and EPA believed that secondary hoods were necessary for the control of lead emissions at the smelter, were considered necessary for the attainment of the lead standard in El Paso and were currently available for installation.

EPA had previously proposed, on July 20, 1983, (48 FR 33112) to require secondary hoods to be installed at certain smelters with arsenic emissions, which included the ASARCO-El Paso smelter. The deadline for installation of the hooding to meet the arsenic regulations is 2 years after promulgation or sooner if feasible, as requried by section 112 of the Act. EPA has not yet taken final action on its July 30, 1983, proposal.

On February 17, 1984, the Texas Air Control Board approved revised regulations which required the installation of secondary hoods on the copper converters, ducting, a particulate matter control device and emission limitations by February 28, 1989 *or* by two years from EPA promulgation of the arsenic National Emission Standards for Hazardous Air Pollutants (NESHAP) for low-arsenic throughout copper smelters, whichever date is sooner. Section 110 of the Act requires attainment of the NAAQS by three years from EPA's final approval of the lead SIP which will be August 13, 1987 for the Texas-El Paso lead SIP. Thus, the compliance date in the Texas plan was disapproved in EPA's final action on August 13, 1984, since it potentially allowed for a compliance date beyond August 13, 1987.

On October 11, 1984, ASARCO petitioned the Administrator of EPA to reconsider his August 13, 1984, final action disapproving Texas' compliance date for the installation of secondary hoods on copper converters at

BEST COPY AVAILABLE

ASARCO's El Paso smelter. In addition, ASARCO asked the Administrator to stay the effective date of his August 12, 1985 final action. Since the Clean Air Act does not include provisions for a petition for reconsideration of an approval or disapproval of a SIP submitted under Section 110(a)(1) of the Act, EPA is treating ASARCO's petition for revision of an existing rule under Section 4(e) of the Administrative Procedure Act, 5 U.S.C. 553(e). Section 4(e) establishes a general right to petition for "issuance, amendment or repeal" of an agency rule. See also, *Olijato Chapter of the Navajo Tribe* v. *Train*, 515 F.2d 654 (D.C. Cir. 1975).

On January 4, 1985, EPA proposed a new date for compliance with the requirements of Rule 113.53 of August 13, 1987, or two years after EPA promulgation of the arsenic NESHAP for low-arsenic-throughput smelters, whichever date is sooner. The deadline dates for installation of all other RACT lead control measures at the ASARCO-El Paso lead smelter, as specified in the approved Texas lead SIP was approved by EPA. The Technical Support Document concerning this matter, plus previous Evaluation Reports developed by Region 6 concerning the past EPA actions on the Texas-El Paso lead SIP, can be reviewed at the addresses listed in the ADDRESSES section of this notice.

IV. Comments on EPA's Proposal

EPA solicited comments on the proposed federal compliance date through its January 4, 1985, Federal Register notice. In addition, the comment period was reopened for thirty days on April 17, 1985, (50 FR 15190) at the request of ASARCO, Incorporated.

In response to the January 4, 1985, notice ASARCO requested a public hearing be held on EPA's proposed action. However, ASARCO, in a letter dated March 7, 1985, withdrew its request for a public hearing conditioned on EPA reopening the comment period. EPA agreed to reopen the comment period with its April 17, 1985, notice and thus, the request of ASARCO for a public hearing was considered withdrawn.

Comments on EPA's proposed action were received from two parties, ASARCO, Inc. and the New Mexico Environmental Improvement Division (NMEID). In general, ASARCO was opposed to EPA's proposed action, while NMEID was in favor of it. Public comments received by EPA are available for review in the rulemaking file available at the addresses in the ADDRESSES section of this notice. Specific comments and EPA's response are as follows.

(1) ASARCO, Inc. comments on EPA's proposed action: ASARCO comments that the proposed EPA federal compliance date for secondary hoods should be rejected and the TACB adopted SIP deadline should be approved because:

(A) The secondary hoods expected to be installed at the El Paso smelter exceed reasonably available control technology (RACT) for the control of secondary lead emissions from copper converters;

(B) The lack of a final NESHAP for inorganic arsenic imposes a hardship on the company since the installation of hoods before the publication of a final NESHAP, which may also require such hoods, could necessitate extensive re-engineering, construction, and expenditures by the company in order to meet the NESHAP;

(C) Secondary hoods are unnecessary and overstated in value in the Texas lead attainment plan;

(D) Installation of secondary hoods on the copper converters could result in ASARCO being unable to comply with existing opacity and sulfur dioxide limitations because of increased collection efficiency in capturing fugitive SO_2 from the copper converters; and

(E) There is ample legal precedent for granting a compliance date extension under the circumstances regarding the El Paso smelter.

(2) EPA response to ASARCO's comments are as follows:

(A) *RACT Issue.* ASARCO's belief that the hooding requirement in the Texas lead SIP exceeds RACT is associated with their direct link of this requirement with the proposed hooding requirement in the NESHAP for inorganic arsenic. Arguing that the proposed NESHAP hooding requirement has been identified by EPA as Best Available Control Technology (BACT) and the fact that final NESHAP design requirements have not been issued, the hooding requirements of the Texas SIP, which ASARCO equates as the same, must be assumed to be BACT, at least, and not RACT. EPA does not disagree with ASARCO that the proposed NESHAP standard represents BACT. However, EPA also believes that the hooding requirement in the Texas lead SIP represents RACT. This is not a contradiction. In many cases a particular technology may represent both BACT and RACT. BACT usually requires greater emission reduction than does RACT for a given pollutant. In many cases a particular technology may represent both BACT for one pollutant and RACT for another, different pollutant. While hooding may be BACT with regard to control of arsenic emissions, it may be RACT with regard to control of lead emissions from the same source. The fact that one source emits both types of pollutants simply results in the circumstance that RACT is being applied to control lead emissions while BACT is being applied to control arsenic emissions. Thus, it remains EPA's position that secondary hooding as required by the Texas lead SIP represents RACT.

(B) *Lack of a Final NESHAP for Arsenic.* The connection between the requirements of the Texas lead SIP and the requirements of the proposed inorganic arsenic standard is one made by ASARCO regarding the installation of hoods on the copper converters. Both the Texas lead SIP and any finally promulgated inorganic arsenic NESHAP are independent regulatory requirements that must be complied with regardless of any other regulation. Implementation of the lead SIP for El Paso is long overdue, as the NRDC suit clearly indicated, and further delay due to suspected or potential problems in complying with another regulation has no basis in law. ASARCO's stated fear that an incompatible arsenic NESHAP might be promulgated by EPA is not an adequate justification for delaying implementation of a standard for the control of lead emissions.

(C) *Benefits of Secondary Hoods.* The benefit of secondary hooding is not relevant to the final compliance date issue. The hooding requirement is a part of a group of controls, identified by the TACB as RACT, that will provide for a significant reduction in lead emissions at the ASARCO facility. This action does not address whether or not the hoods should be installed, only the final date for compliance.

(D) *Effect of secondary hoods on ASARCO's ability to meet other regulations.* This comment is not germane to the issue of the appropriate compliance date for installation of the secondary hoods on the copper converters. Even if the date suggested by ASARCO were accepted (i.e., Feb. 1988) the potential would exist for conflict with later promulgated requirements.

(E) *Legal precedent for granting a compliance date extension.* This position is ultimately based on ASARCO's belief that the secondary hoods are beyond RACT, and thus the conditions of Section 110(e) are met and an extension is allowable under the Clean Air Act. Since it continues to be EPA's position that the secondary hooding is RACT, ASARCO's position regarding the availability of a

BEST COPY AVAILABLE

compliance date extension cannot be accepted.

(3) NMEID comments on EPA's proposed action:

The NMEID submitted comments in favor of EPA's proposed action. The NMEID concluded that EPA's proposal was consistent with section 110(a)(2)(A) and any extension of the compliance date for secondary hooding would violate the Act. In addition, NMEID points out that Texas Governor Mark White did not specifically request an extension for the secondary hooding, but rather the extension was for the attainment date of an area in Texas within a two mile radius from the smelter. The justification submitted with the extension request clearly indicates that Texas considers hooding to be "reasonably available." The extension was requested because that area of El Paso would not meet the primary standard even after the implementation of all reasonable and feasible controls, including secondary hoods on the cooper converters. EPA understands the comments submitted by NMEID to support this action.

V. Petition for Reconsideration

ASARCO's October 11, 1984 petition for reconsideration raised essentially the same substantive arguments as those made by ASARCO in its comments in response to EPA's January 4, 1985, proposal. EPA, therefore, is denying ASARCO's petition for the same reasons set forth in today's final action notice. ASARCO, however, also argued in its petition that it had not had an adequate opportunity to comment on EPA's position opposing a two year extension of time for implementation of the secondary hoods on its copper converters. EPA, while not agreeing with ASARCO's assertion as to the Agency's final rulemaking action on the El Paso lead SIP, believes that in light of its January 4, 1985 proposal and opportunity for comment ASARCO has had an adequate opportunity to comment on EPA's position and that this issue is moot as to the petition for reconsideration. At the time ASARCO submitted its petition to EPA the August 13, 1984, final action had already been effective for one month. (The actual effective date of EPA's action was September 13, 1984, see 49 FR 32184, col. 3.) At no time did EPA stay the effect of its final action, and, in EPA's view, all the SIP requirements have been in effect since September 13, 1984.

ASARCO requested that EPA re-evaluate its interpretation of Section 110(e) of the Clean Air Act with respect to the availability of a compliance date extension for installation of secondary hoods. EPA has reconsidered its interpretation of that section and continues to believe that the extension of the compliance date is not available in this instance.

ASARCO also requested that if EPA denied its petition for reconsideration that EPA suspend and stay the effectiveness of its final action pending appellate review of these issues. EPA hereby denies ASARCO's request for suspension and stay of its final action and notes that based on today's final action the secondary hoods over ASARCO's copper converters are to be implemented as part of the lead implementation plan by August 13, 1987. EPA's denial is based on the fact that the necessary technology for this control measure is well known and currently available, it will take some time for ASARCO to install the hooding, the lead implementation plans demonstrates that this measure is necessary to bring the smelter into compliance with the lead NAAQS, and because the necessary controls to reduce excessive emissions of lead from ASARCO's smelter are already long overdue. For these reasons EPA believes that further delay is both unwarranted and unwise.

VI. EPA Final Action

By this notice, EPA is promulgating a federal compliance date for the requirements of Texas Rule 113.53, as contained in Rule 113.122. The compliance date as proposed on January 4, 1985, was indicated as August 13, 1987, or by two years from EPA promulgation of the arsenic NESHAP for low-arsenic-throughput smelter, whichever is sooner. Since this final action will be published after August 13, 1985, there is no reason to continue to include the two years after NESHAP promulgation language, since August 13, 1987, is within two years of today. Therefore the final compliance date for the requirements of Texas Rule 113.53 is August 13, 1987. The deadline dates for installation of all RACT lead control measures at the ASARCO-El Paso smelter are as specified in the approved Texas lead SIP. EPA is also denying ASARCO's October 11, 1984, petition for reconsideration of its disapproval of the date in Texas' El Paso lead SIP.

Under 5 U.S.C. 605(b), I have reviewed this action and determined that it does not have a significant economic impact on a substantial number of small entities because it affects only one large source.

Under Executive Order 12291, today's action is not "Major." It has been submitted to the Office of Management and Budget (OMB) for review.

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 21, 1986. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

PART 52—[AMENDED]

40 CFR Part 52 is amended as follows:

SUBPART SS—Texas

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7642.

2. Section 52.2305 is added as set forth below:

§ 52.2305 Lead Control Plan: Federal Compliance Date for Requirements of Texas Air Control Board (TACB) Rule 113.53

(a) The requirements of section 110 of the Clean Air Act are not met regarding the final compliance date, as found in TACB Rule 113.122, for the requirements of rule TACB 113.53.

(b) TACB Rule 113.53 was adopted by the Board on February 17, 1984, and approved by the Administrator as a requirement of the State Implementation Plan on August 13, 1984. The owner or operator of any copper or zinc smelter located in El Paso County, Texas, shall comply with the requirements of TACB Rule 113.53 no later than August 13, 1987.

Test Requirements for Certain Chlorinated Benzenes; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; Correction.

SUMMARY: This document corrects a final rule document on the Toxic Substances Control Act (TSCA) test requirements for certain chlorinated benzenes, published in the Federal Register of April 7, 1986. This action is necessary to correctly identify (1) "1,2,3-

trichlorobenzene" as the substance in which mysid shrimp (*Mysidopsis bahia*) is to be tested to develop data on chronic toxicity and (2) the reference to "Table 6".

FOR FURTHER INFORMATION CONTACT:

By mail: Joanne Kia, Existing Chemical Assessment Division (TS-778), Office of Toxic Substances, 401 M St., SW., Washington, DC 20460.

Office location and telephone number: Rm. 103, Northeast Mall, 401 M St., SW., (202-475-8129).

SUPPLEMENTARY INFORMATION: EPA issued a final rule, FR Doc. 86-7475, published in the Federal Register of April 7, 1986 (51 FR 11728), to require manufacturers and processors of certain chlorinated benzenes to conduct environmental effects and chemical fate testing. The regulation was issued in 40 CFR Part 798.

The following errors inadvertently appeared in the final document and are hereby corrected:

1. In unit IV.B. of the preamble, the reference to "Table 9", third line, is corrected to read "Table 6".

2. In § 798.1053 *Trichlorbenzenes*, the reference in paragraph (d)(5)(i), second sentence, to the chemical substance in which mysid shrimp (*Mysidopsis bahia*) is to be tested to develop data on chronic toxicity as "1,2,4-trichlorobenzene" is corrected to read "1,2,3-trichlorobenzene".

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 25

[Gen. Dockets 84-690; RM-4426 and 84-690; FCC 86-209]

Radiodetermination Satellite Service; Policies and Procedures for the Licensing of Space and Earth Stations in the Radiodetermination Satellite Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has established rules and policies to govern the radiodetermination satellite service. This action follows a Notice of Proposed Rulemaking, (49 FR 36512, September 18, 1984), proposing to allocate frequencies for this service and to establish associated licensing policies, and a Report and Order allocating these frequencies, (50 FR 39161 September 27, 1985). This action will permit the FCC to act on the pending applications for radiodetermination satellite systems and to process future applications.

EFFECTIVE DATE: May 8, 1986.

FOR FURTHER INFORMATION CONTACT: Fern Jarmulnek, Satellite Radio Branch, Common Carrier Bureau, (202) 634-1862.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Second Report and Order, Gen. Dockets 84-690 and 84-690, adopted April 22, 1986 and released May 8, 1986.

The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

Summary of Second Report and Order

In 1984, the Commission issued a *Notice of Proposed Rulemaking (Notice)*, 49 FR 36512 (September 18, 1984), proposing to allocate frequencies for a radiodetermination satellite service (RDSS) and to establish associated licensing policies and procedures. This *Notice* was adopted in response to a petition for rulemaking and an RDSS system application filed with the Commission by Geostar Corporation (Geostar). The *Notice* was released with an accompanying public notice accepting Geostar's application for filing and inviting other applications to be submitted for concurrent consideration. The Commission proposed multiple entry as a general licensing policy. In addition to the extensive comments filed, Omninet Corporation (Omninet), MCCA American Radiodetermination Corporation (MARC), and McCaw Space Technologies, Inc. (McCaw) filed system proposals, and Geostar submitted an updated proposal. On July 25, 1985, the Commission allocated frequencies for the provisions of RDSS.

By this *Second Report and Order*, the FCC adopted governing rules and policies for the radiodetermination satellite service. The FCC stated that the four applications filed involved two distinct and incompatible proposals. The Geostar, McCaw and MARC system proposals were compatible and provided RDSS and ancillary non-voice message service. Omninet's system was incompatible with the other three. It provided a wide range of two-way voice communications services, and provided RDSS by accessing the government's global positioning system (GPS). Omninet had filed virtually the same application in the mobile satellite service (MSS) proceeding.

The FCC concluded that it would not authorize Omninet's system to use the entire bandwidth allocated to RDSS, especially since similar system proposals were under consideration in the MSS proceeding and might be authorized there. Omninet did not convince the FCC that its essentially MSS system would best serve RDSS users. A wide range of potential RDSS customers had urged that Geostar's proposed system be approved, and several had questioned whether Omninet's system would meet their needs. Further, the FCC stated that Omninet's design would not permit multiple systems to share the same frequencies, nor did Omninet demonstrate that its system was in any way superior to the one proposed by the other applicants. The FCC concluded that the benefits of competition would be best provided by independently licensed spread spectrum RDSS systems. The FCC also rejected Omninet's "compromise" to divide the allocated bandwidth into two equal segments, with each segment assigned to a different technology. The FCC found that dividing the spectrum in half would reduce the capacity of spread spectrum systems by at least that much and would substantially affect their accuracy. The FCC therefore authorized a spread spectrum multiple access technique for RDSS systems, and provided all applicant proposing incompatible systems 60 days to amend their proposals to bring them into compliance with this standard.

In addition to adopting rules governing system design, the FCC required that RDSS systems provide radiodetermination services on a primary basis and any associated non-voice data services on an ancillary basis only to comport with the RDSS allocation and to allow a competitive RDSS industry to develop. The FCC also affirmed its tentative conclusion in the *Notice* that RDSS should not be regulated on a common carrier basis. Further, financial standards similar to those applied in the private international satellite industry were adopted. The FCC found that the private

international satellite service was analogous to RDSS because it was also a new, unproven service where all pending applicants could be accommodated. The FCC therefore required RDSS applicants to demonstrate their financial preparedness to assume the costs and liabilities of constructing and launching their systems and operating them for one year by submitting a balance sheet reflecting assets sufficient to meet these costs, or by submitting an exhibit indicating sufficient anticipated income or revenues from system operation. In addition, to ensure that RDSS systems are implemented in a timely manner, the FCC required licensees to proceed with construction and launch in compliance with specified milestones. The FCC also adopted a blanket licensing procedure for transceiver units. It found that licensing individual transceivers would be costly and burdensome, and would not provide any meaningful way for other primary users in the 2483–2500 MHz band to coordinate their transmissions. The FCC required the service vendor to apply for blanket licenses for a specified number of transceiver units and to maintain responsibility for their operation. Finally, the FCC rejected several objections that had been raised with respect to the rulemaking and application processing procedures, finding that it properly exercised its wide discretion to fashion procedures.

Ordering Clauses

Pursuant to the Regulatory Flexibility Act of 1980, 5 U.S.C. § 605(b), it is certified that the final rules do not have a significant economic impact on a substantial number of small entities. The Commission has not received, nor does it anticipate receiving, a substantial number of RDSS system applications from small entities because of the large financial resources needed to construct, launch and operate these systems.

Accordingly, pursuant to sections 4(i) and 303(r) of the Communications Act, 47 U.S.C. 154(i) and 303(r), it is ordered, that applications for radiodetermination satellite systems shall be submitted in accordance with the standards, restrictions and requirements specified in this decision.

It is further ordered that the policies and procedures set forth in this *Report and Order* are effective May 8, 1993, and that Part 25 of Chapter I of Title 47 of the Code of Federal Regulations is amended effective May 8, 1993, as shown at the end of this document. Pursuant to 5 U.S.C. 553(d), we find that good cause exists for implementing these rules immediately. The *Notice of Proposed Rulemaking* gave notice that we contemplated licensing systems concurrently with adopting governing rules and policies. Moreover, all applicants are granted 60 days in which to file amendments to bring their applications into conformance with new requirements.[1] Accordingly, the effective date of § 25.392 will be May 8, 1993.

It is further ordered, that the proceedings in Gen. Docket Nos. 84-689 and 84-690 are terminated.

List of Subjects in 47 CFR Part 25

Satellite Radio Communication, Satellites.

William F. Tricarico,
Secretary.

PART 25—SATELLITE COMMUNICATIONS

Part 25 of the Title 47 of the Code of Federal Regulations is amended as follows:

1. The authority citation for Part 25 Subpart C continues to read as follows:

Authority: Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. § 154.

2. The following definition is added to § 25.201 in the appropriate alphabetical position:

§ 25.201 Definitions.

Radiodetermination Satellite Service: A radiocommunication service for the purpose of radiodetermination involving the use of one or more space stations.

* * * * * * *

3. Section 25.202 is amended by redesignating paragraph (a) as (a)(1) and a new paragraph (a)(2) is added as follows:

§ 25.202 Frequencies, frequency tolerance and emission limitations.

(a) *Frequency Bands.* * * * * *

(2) The following frequencies are available for use by the Radiodetermination Satellite Service:

1610–1626.5 MHz: User-to-Satellite Link
2483.5–2500 MHz: Satellite-to-User Link

Fixed-Satellite service frequencies may be used for links between radiodetermination satellites and control centers, including the following specially allocated bands, subject to the Rules in this subpart:

5117–5183.0 MHz: Satellite-to-Control Center Link
6523–6541.5 MHz: Control Center-to-Satellite Link

[1] *See* Citizens to Save Spencer County V. Epa, 600 F. 2d 844, 879–91 (D.C. Cir 1979); *see also* Kessler v. FCC, 326 F. 2d 673, 685 (D.C. Cir. 1963) (effectiveness prior to publication in the Federal Register.

4. The authority citation for Part 25 Subpart E continues to read as follows:

Authority: Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154.

5. A new § 25.392 is added as follows:

§ 25.392 Licensing Provisions for the Radiodetermination Satellite Service

(a) *Space Station Application Requirements.* Each application for a space station license in the radiodetermination satellite service shall describe in detail the proposed radiodetermination satellite system, setting forth all pertinent technical and operational aspects of the system, including its capability for providing and controlling radiodetermination service on a geographic basis, and the technical, legal and financial qualifications of the applicant. In particular, each application shall include the information specified in Appendix B of *Space Station Application Filing Procedures*, 99 FCC 2d 1260, 1285 (1983), except that in lieu of demonstrating compliance with item II.F (two degree spacing), applicants are required to demonstrate compatibility with licensed radiodetermination satellite systems. Applicants must also file information demonstrating compliance with all requirements of this section, specifically including information demonstrating how the applicant has complied or plans to comply with the requirements of paragraph (f).

(b) *Space Station Application Procedures.* Each application for a space station in the radiodetermination satellite service shall be placed on public notice for 60 days, during which time interested parties may file comments and petitions related to the application. A 60 day cut-off period shall also be established for the filing of applications to be considered in conjunction with an original application.

(c) *User Transceivers.* Individual user transceivers will not be licensed. Service vendors may file blanket applications for transceiver units using FCC Form 493 and specifying the number of units to be covered by the blanket license. FCC Form 430 should be submitted if not already on file in conjunction with other facilities licensed under this subpart. Each application must demonstrate that transceiver operations will not cause interference to other users of the spectrum.

(d) *Permissible Communications.* Stations in this service are authorized to render radiodetermination service, and may not render other services except as ancillary to the radiodetermination service.

(e) *Frequency Allocation Policies.* Each radiodetermination satellite service licensee will be assigned the entire allocated frequency bands on a non-exclusive basis. Coding techniques and power limits as set forth in paragraph (f) below and orbital spacing shall be employed to avoid harmful interference with other radiodetermination satellite service systems.

(f) *Radiodetermination Satellite Service.* Licensee shall coordinate with other licensees to avoid harmful interference to other radiodetermination satellite systems through (1) power flux density limits; (2) use of pseudorandom-noise codes (for both the satellite-to-user link and for the user-to-satellite link); and (3) restricting user emissions to random access TDM mode.

(g) *License Conditions.* All authorizations in the radiodetermination satellite service shall be subject to the policies set forth in the *Report and Order*, including compliance with Appendix D, and the *Second Report and Order* in General Docket Nos. 84-689 and 84-690 and to any policies and rules the Commission may adopt at the later date.

47 CFR Part 63

[CC Docket No. 83-1230; FCC 86-220]

Common Carrier Services; Policies Governing Designation of Recognized Private Operating Agencies, Grants of Indefeasible Rights of User in International Facilities and Assignment of Data Network Identification Codes

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This Report and Order adopts policies covering grants of recognized private operating agency (RPOA) status; transfers of indefeasible rights of user (IRUs) in submarine telephone cables to non-carrier users; and assignments of data network identification codes (DNIC)s.

RPOA Status. This Report and Order concludes that the United States should extend RPOA status to unlicensed, enhanced-service providers who offer public-correspondence enhanced services. The Report and Order also adopts a formal procedure for granting RPOA status. The purpose of extending RPOA status to enhanced-service providers is to give such providers governmental recognition and formally to impose upon them the obligation to obey the International Telecommunication Convention and the regulations promulgated thereunder.

Non-carrier IRUs. This Report and Order finds enhanced-service providers and other users eligible under the Communications Act to acquire IRUs (a form of ownership) in circuits in common-carrier submarine telephone cables but declines to require carriers to transfer IRUs.

DNIC Assignment. This Report and Order concludes that the number of U.S. public data networks with a need for access to a DNIC is likely to exceed the 200 the United States has available for assignment. The Report and Order also concludes that public data networks which do not have interexchange or overseas lines can share a DNIC. The Report and Order adopts a plan for DNIC sharing, but declines to adopt a final domestic-numbering plan for use with the shared DNICs. The Report and Order refers that question to the industry for study and adopts an interim numbering plan for networks that cannot wait until a final plan is adopted.

EFFECTIVE DATE: The amendments to Part 63 will become effective on June 19, 1986.

FOR FURTHER INFORMATION CONTACT: John F. Copes, Policy and Planning Division, Common Carrier Bureau, (202) 632-0745.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Report and Order, CC Docket No. 83-1230, adopted May 1, 1986, and released May 12, 1986.

The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M St., NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's Copy Contractors, International Transcription Service, (202) 857-3800, 2100 M St., NW., Suite 140, Washington, DC 20037.

Summary of Report and Order

1. On August 18, 1985, the FCC released a notice of proposed rulemaking in CC Docket No. 83-1230 (50 FR 34867; August 28, 1985) proposing policies governing grants of recognized private operating agency (RPOA) status, transfers of indefeasible rights of user (IRUs) in circuits in submarine telephone cables and assignment of data network identification codes (DNICs).

2. *RPOA Status.* The Commission concludes that U.S. enhanced-service providers whose services constitute "public correspondence," as that term is used in the ITU Convention, are eligible for designation as RPOAs. The Commission also concludes that RPOA status should be voluntary and freely available to those who need it. The Commission observed that extending RPOA status to enhanced-service providers could reassure overseas communications administrations that such providers will obey international communications regulations and may thereby assist U.S. providers in obtaining operating agreements from the administrations. Finally, the Commission adopted a formal, but relatively simple, process for RPOA certification based upon the filing of an application with the Commission.

3. The Commission concludes that designation as an RPOA does not require the entity to be a licensed common carrier, but that ITU member nations are free to "recognize" any kind of private entity to provide their communications and information services. The Commission also concludes that the term "public correspondence," used in defining an RPOA should be read as synonymous with "telecommunications" and that it describes "third-party" traffic in which the essence of the service is transport, with no change in the content of the customer's information. The term thus distinguishes transport services from "data processing" which is defined under CCITT Recommendation D.1 as a permissible use of international leased-channel service. U.S. enhanced-service providers who offer solely data-processing service, thus, do not offer a "public correspondence," since they do not offer a transport service, and are not eligible to be RPOAs. Other U.S. enhanced-service providers, which combine a computer processing with transport service to act upon the form but not the content of the sender's information (*e.g.*, those who offer code and protocol conversion), do engage in public correspondence and are eligible for RPOA status.

4. The Commission adopts amendments to Part 63 of its rules and regulations specifying the content and form of an application for RPOA status. The application requires sufficient information clearly to identify the applicant and to indicate that its service is an international public correspondence. The applicant must also clearly state its intent to obey the ITU Convention and regulations. The Commission will give public notice of the filing of an application and will accept informal comments by letter. The Commission will review the application, prepare a recommendation and forward

the matter to the U.S. Department of State for final action. The Commission makes clear that it has authority to require enhanced-service providers to obey the convention and regulations and that it will enforce compliance through cease and desist orders. The Commission also notes that the Department of State may revoke a violator's RPOA status.

5. *Non-Carrier IRUs.* The Commission concludes that users are eligible under the Communications Act to hold IRUs in circuits in common-carrier cables and that the public interest would be served by allowing users and carriers to negotiate IRU transfers. The Commission, however, also concludes that it should not require involuntary IRU transfers from carriers to users.

6. The Commission concluded that allowing users to hold IRUs could benefit users by giving them additional choices in meeting their communications needs and by reducing their costs for such services. The Commission also concluded that allowing non-carriers IRUs could benefit users of carrier leased-channel service by exercising a downward pressure on the rates therefor.

7. The Commission, however, recognized that the transfer of an IRU involves a long-term (up to 25 years) relationship between the IRU holder and other cable owners, necessitating periodic payments of operating and maintenance expenses. The Commission concluded that forcing unwilling partners into such a relationship is not desirable, unless there is clear evidence that such a course is the only way to protect the public interest. The Commission recognized that in the next several years new, large, fiber-optic cables will be introduced into the Atlantic and Pacific Ocean basins and that the supply of common-carrier cable circuits will increase sharply. Further, the Commission observed that introduction of one or more of the recently authorized non-common-carrier cables, which is planned for roughly the same period, will give users additional facilities choices. As a result, the Commission decided that market forces might make IRUs available to users without the need for coercive Commission action.

8. *DNIC Assignment.* The Commission concluded that a wide variety of public and private data networks operated by common carriers, enhanced-service providers and local exchange telephone companies will need access to a DNIC. The Commission also noted that the routing functions performed by the DNIC will be needed whether the network provides domestic or international data services. The Commission then concluded that the number of U.S. applicants for DNICs is likely to exceed the 200 available to the United States. Consequently, the Commission concluded that it should now adopt a formal policy for DNIC assignment and require some data networks to share DNICs.

9. The Commission found that only networks with their own interexchange and overseas lines need their own DNICs. Other networks, principally those operated local exchange telephone companies (including the BOCs), can share one or more DNICs, relying for discrete identification upon the the six digits which follow the DNIC in a subscriber's network terminal number (NTN).

10. To conserve DNICs, the Commission reserved seven regional DNICs, one for each of the regional holding companies which operate the former Bell operating companies (RBOCs), and one DNIC for the United States Telephone Association (USTA) to be shared on a nationwide basis by networks which do not wish to share the RBOC DNIC. The Commission, however, declined to adopt a final domestic numbering system to be used in connection with the shared DNICs, responding to arguments of several parties that adoption of such a plan is premature. Rather, the Commission referred the question of a numbering plan to the T1–Telecommunications Committee of the Exchange Carriers Standards Association for further industry study and preparation of a recommendation for final action by the Commission. The Commission provided that entities wishing to implement the shared DNIC, and who cannot await a final numbering plan, can use an interim numbering plan derived from the North American Numbering Plan used in telephone service.

11. Under this interim plan, each RBOC would administer the regional shared DNIC assigned to it and USTA would administer the nationwide shared DNIC assigned to it. The administrator will assign to each sharing network six-digit PNICs consisting of a three-digit data numbering plan area (DNPA) code plus a three-digit data central office (DCO) code. The DNPA is identical to the numbering plan area (NPA), or area code used in telephony, both in terms of geographical area described by the code and the three-digit numbers used to identify the particular area. The DCO would be equivalent to the central office (CO) code in telephony, the three-digit number which identifies a particular local switch to which a subscriber is attached. Thus, a network sharing a DNIC would receive a DNPA for every area code in which that network has subscribers. The networks would also receive its own DCO in each DNPA.

Ordering Clauses

12. Accordingly, it is ordered, pursuant to sections 4(i), 4(j), 201–205, 214 and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 201–25, 214 and 403 (1976), that (1) the proposal in our notice of proposed rulemaking in the above-captioned proceeding to extend recognized private operating agency status to U.S. enhanced-service providers who offer an international "public-correspondence" service, and (2) the proposal to rely for RPOA certification upon a simple, voluntary application process are hereby adopted;

13. It is further ordered that the proposal to grant U.S. enhanced-service providers and other non-carrier users the right to acquire indefeasible rights of user in U.S. half-circuits in common-carrier submarine telephone cables on a voluntary basis is adopted and the American Telephone and Telegraph Company and other U.S. common carriers are authorized, as provided for herein, to transfer such IRUs at a price agreed upon between the carrier and the user, subject to the agreement of the entity which holds the other undivided one-half interest of the circuit;

14. It is further ordered that the proposal to adopt a formal DNIC-assignment plan is hereby adopted, but that adoption of a final domestic data-numbering plan for the United States is deferred pending further study and preparation of a recommendation to this Commission thereon by the Exchange Carriers Standards Association;

15. It is further ordered that the issue of a domestic data-numbering plan for the United States is hereby referred to the "T1" Committee operating under the aegis of the Exchange Carriers Standards Association, or such other subcommittee as that body shall deem appropriate, for further study and preparation of a recommendation for further Commission action;

16. It is further ordered that this proceeding shall remain OPEN for further Commission action on the issue of a final domestic data-numbering plan for the United States, pending receipt of the results of the further industry study or submission of a formal proposal for Commission action, and such further Commission deliberations as the public interest shall require.

List of Subjects in 47 CFR Part 63

Communications common carriers, Enhanced-service providers, Enhanced services, Radio, Recognized private operating agency status.

Part 63 of Title 47 of the Code of Federal Regulations is amended as follows:

1. The authority citation for Part 63 continues to read as follows:

Authority: Sec. 4, 48 Stat. 1066, as amended 47 U.S.C. 154. Interpret or apply sec. 214, 48 Stat. 1078, as amended; 47 U.S.C. 214, unless otherwise noted.

2. The Title of Part 63 is revised to read as follows:

PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS AND GRANTS OF RECOGNIZED PRIVATE OPERATING AGENCY STATUS

3. An undesignated center heading and §§ 63.701 and 63.702 are added:

Request for Designation as a Recognized Private Operating Agency

§ 63.701 Contents of application.

Except as otherwise provided in this part, any party requesting designation as a Recognized Private Operating Agency within the meaning of the International Telecommunication Convention shall request such designation by filing an original and two copies of an application stating the nature of the services to be provided and a statement in the applicant's own words but which makes clear that the applicant is aware that it is obligated under Article 44 of the Convention to obey the mandatory provisions thereof, and all regulations promulgated thereunder, and a pledge that it will engage in no conduct or operations which otherwise obey the Convention and regulations in all respects. The applicant should also include a statement that it is aware that failure to comply will result in an order from the Federal Communications Commission to cease and desist from future violations of an ITU regulation and may result in revocation of its recognized private operating agency status by the United States Department of State. Such statement must include the following information where applicable:

(a) The name and address of each applicant;

(b) The Government, State, or Territory under the laws of which each corporate applicant is organized;

(c) The name, title and post office address of the officer of a corporate applicant, or representative of a non-corporate applicant, to whom correspondence concerning the application is to be addressed;

(d) A statement of the ownership of a non-corporate applicant, or the ownership of the stock of a corporate applicant, including an indication whether the applicant or its stock is owned directly or indirectly by an alien;

(e) A copy of each corporate applicant's articant's articles of incorporation (or its equivalent) and of its corporate bylaws;

(f) A statement whether the applicant is a carrier subject to section 214 of the Communications Act, an operator of broadcast or other radio facilities, licensed under Title III of the Act, capable of causing harmful interference with the radio transmissions of other countries, or a non-carrier provider of services classed as "enhanced" under § 64.702(a);

(g) A statement that the services for which designated as a recognized private operating agency is sought will be extended to a point outside the United States or are capable of causing harmful interference of other radio transmission and a statement of the nature of the services to be provided;

(h) A statement setting forth the points between which the services are to be provided; and

(i) A statement as to whether covered services are provided by facilities owned by the applicant, by facilities leased from another entity, or other arrangement and a description of the arrangement.

§ 63.702 Form.

Application under § 63.701 shall be submitted in the form specified in § 63.53 for applications under section 214 of the Communications Act.

Federal Communications Commission
William J. Tricarico,
Secretary.

47 CFR Parts 73, 74, and 76

Oversight of Radio and TV Broadcast Rules

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This Order amends broadcast and Cable TV regulations in Parts 73, 74 and 76 of the rules of the FCC. Amendments are made to delete regulations that are no longer necessary, correct inaccurate rule texts, contemporize certain requirements and to execute editorial revisions as needed for purposes of clarity and ease of understanding.

EFFECTIVE DATE: May 20, 1986.

FOR FURTHER INFORMATION CONTACT: Steve Crane, Policy and Rules Division, Mass Media Bureau (202) 632-5414.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Order adopted May 5, 1986, and released May 12, 1986. The full texts of Commission decisions are available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service (202) 857-3800, 2100 M Street, NW., Suite 1440, Washington, DC 20037.

Summary of Order

1. In this *Order*, the Commission focuses its attention on the oversight of its radio and TV broadcast and cable television rules. Modifications are herein to update, delete, clarify or correct broadcast regulations as described below:

(a) Section 73.182, Engineering standards of allocation, opens with the text "Sections 73.21 to 73.34, inclusive, govern allocation of facilities in the AM broadcast band . . . ."

Section 73.34, Normal license period, was removed from 47 CFR when the rule's subject was recreated as a Subpart H, Part 73 rule—§ 73.1020—applicable to all services. (The rule sections in the FM and TV subparts dealing with this matter were concurrently removed). The § 73.34 reference is therefore removed in this Order.

An obvious omission is redressed here also by adding § 73.37, Applications for broadcast facilities, showing required, to this opening sentence of § 73.182. Certainly § 73.37 is a valid and important addition to the group of rules which "govern allocation of facilities in the AM broadcast band." So, henceforth, the opening § 73.182(a) will state "Sections 73.21 to 73.37, inclusive, govern allocation of facilities . . . . in the AM broadcast band . . . ." (See appendix item 2).

(b) The numerical designations of TV channels in § 73.603 indicates the frequency bands to which channels 2 through 69 are assigned. Paragraph (c) of the rule states that "Channel 37, 608-614 MHz, is reserved exclusively for the Radio Astronomy Service until the first Administrative Radio Conference after January 1, 1974, which is competent to review this provision."

WARC-79 (World Administrative Radio Conference—1979) *did* reallocate TV Channel 37 to the Radio Astronomy Service. The decision was implemented domestically via the *Second Report and Order* in General Docket No. 80-739.[1] Paragraph (c) of § 73.603 is amended accordingly. (See appendix item 3).

(c) Section 73.1590 has been amended three times in the past 15 months:

December 1984 in the *Report and Order* in Gen. Docket 83-114, FCC 84-521, 49 FR 48805, December 12, 1984;

August 1985 in the *Order* at 50 FR 32414, August 12, 1985; and

January 1986 in the *Report and Order* in Mass Media Docket 85-125, FCC 85-669, 51 FR 2704, January 21, 1986.

Inadvertent aberrancies were implanted in paragraph (b) of the rule, revised in each of the above actions, resulting in a major disarray in its final form:

Subdivision (b)(1)(v) unintentionally survived the December amendment;

Subparagraph (b)(1) was revised in the August modification, moving new text into (b)(1) from another part of the rule, but failing to remove the text from its original location; and

With the last paragraph (b) amendment, in January 1986, the adopted removal of subdivisions (i) through (viii) of subparagraph (b)(2) was left undone and so remained, incorrectly, as part of paragraph (b).

In this Order, corrections are effected which restate paragraph (b) of the rule accurately.

Another corrective measure is accomplished in § 73.1590 via this Order in subparagraph (a)(6) which requires FM stations to make equipment performance measurements on an annual basis and AM stations also to make such measurements on an annual basis and during the 4 month period prior to license renewal filings.

The FM requirement was eliminated in Gen. Docket 83-114, *supra*, and the pre-renewal measurement requirements for AM stations were enacted with the adoption of the Simplified Renewal Application (FCC Form 303-S). The previous AM renewal application form (303-R) required licensees to submit engineering exhibits which could be completed only as a result of these measurements. The Form 303-S does not require such exhibits.

Subparagraph (a)(6) is therefore amended to require AM stations to make such measurements only once each calendar year and the reference to FM stations is eliminated.

To accommodate the addition of a missing reference to the requirement to make measurements upon installing TV stereo or subcarrier transmission equipment pursuant to §§ 73.699 and 73.1690, a new subparagraph will be added herein and numbered (a)(5). Present paragraph (a)(5) is renumbered (a)(7) as a result of the new paragraph designations described above.

The final revisionary effort with this rule is directed to correcting an apparent CFR misstep wherein the redesignations of subparagraphs (c)(2), (3), (4) and (5) to (c)(1), (2), (3) and (4) in the Order adopted in August 1985 was mistakenly interpreted, and old (c)(6), which had been removed, was retained as new (c)(4) instead of old (c)(5) being converted to (c)(4).

Amendments, correcting the above inadvertencies, and remedial text revisions are accompanied herein to effect § 73.1590's improvement. (See appendix item 4).
